

Bureau of Children's Coordinated Health Policy and Supports (formerly BHDDA) has focused on implementation of evidence based and evidence informed models in the past 15 years.

1. Children's Trauma Initiative

- Trauma Focused Cognitive Behavioral Therapy—Cohorts in progress, new cohort for TFCBT will begin in the spring. Additional Learning Collaborative will begin in the fall of 2022.
- Child Parent Psychotherapy—The current 18-month Learning Collaborative will end in FY23.
- If you would like further information, contact Amy Cowper (cowper@ceicmh.org).

2. SED/NDD -- Fetal Alcohol Spectrum Disorder Initiative

- Families Moving Forward—current cohort in progress; next Learning Collaborative will begin in the fall of 2022.
- Children's Friendship Training—Plan for training in this evidence-based practice for adolescents who have or are suspected of having FASD is planned for summer of FY22.
- For further information, contact Kathy Fitzpatrick (FitzpatrickK@michigan.gov).

3. Motivational Interviewing for Adolescents

Cohort 3 MI Learning Collaborative is currently underway. Next Learning Collaborative will begin in fall of 2022 with additional Learning Collaboratives planned for FY23. For further information, contact Kathy Fitzpatrick.

4. Parent Management Training-Oregon (PMTO) & Parenting Through Change (PTC)

- PMTO Learning Collaborative is currently underway. New cohort started this in the fall.
- PTC (group model) Learning Collaborative started in the spring.
- If you need further information, please contact Luann Gray (lgray@iskzoo.org).

5. DBT for Adolescents

Cohort 2 will conclude in fall, 2022. Plans for a new cohort are taking place. For further information, contact Amy Cowper (cowper@ceicmh.org)

6. Infant Mental Health Home Visiting – Evaluation outcomes

The evaluators continue to develop articles for publication in peer reviewed journals of the study results. In addition, in FY22, the evaluators and MHSCF staff are working to have HHS (federal), Administration for Children and Families designate of IMH-HV as an evidence-based home visiting model.

The next Learning Collaborative will be in March of FY23. For further information, contact Mary Ludtke (Ludtkem@michigan.gov).

7. Infant and Early Childhood Mental Health Consultation

- **Childcare Settings** – consultants continue to build their caseloads due to more childcare centers opening. Fidelity monitoring is taking place and 90% of the services meet fidelity requirements.
- **Home Visiting Programs** is being launched this year. Consultants will work with specific Home Visiting models in their community and assist the home visitors to better address mental health issues of the parent(s) and/or child(ren) served.
- **A new Learning Collaborative** in this model is planned for 2022.
- For further information, contact Mary Mackrain (Mackrainm@michigan.gov).

8. Michigan Healthy Transitions Project—

- Implementation of the evidenced informed practice Transition to Independence Process (TIP) Model TM in two pilot sites (Kalamazoo and Kent County) to increase positive outcomes for transition age youth/young adults ages 16-26 in the areas of education, employment, living situation and community life functioning. This project continues to work in conjunction with Children's Block Grant dollars in order to expand the implementation of the TIP Model within other sites.
- The project collects information via SAMHSA's National Outcome Measures tool upon entry into the program, every six months, at discharge. A follow up satisfaction interview is completed two months post discharge from treatment.
- This project focuses on improving service delivery and best practices for treating transition age youth and young adults through policy change and development.
- This project is gathers key information from Transition Age Youth and Young Adults through a variety of ways, including focus groups and surveys.
- Increasing awareness of the unique needs of transition age youth and young adults through providing education through a webinar series
- For further information, contact Leslie Pitts pittsl2@michigan.gov

9. Treatment Foster Care-Oregon

- Clinical implementation of the TFCO model continues at 4 CMSHP sites with one site preparing for full certification in the TFCO model
- Expansion of Children's Therapeutic Foster Care (CTFC) Medicaid service, in preparation for growth of TFCO, will kick off in fiscal year 2023 and include specialized technical assistance in the form of webinars, learning cohorts, and policy change workgroups at the state level.
- Project evaluation work continues in partnership with Wayne State University, with a recent article submitted for publication detailing Michigan's unique TFCO implementation experiences
- For more information about TFCO evidence based practice contact Deirdre Laney-King daking@med.wayne.edu. For more information about CTFC contact Sura Shlebah ShlebahS@michigan.gov.

10. Wraparound

- Statewide technical assistance being provided with each identified CMHSP, including statewide communication to all CMHSPs and PIHPs
- Developed 2022 training curriculum for new facilitators, training array for experienced facilitators and supervisors, 2022 training calendar developed and distributed
- Annual conference location secured, committee being developed, plan to identify presenters and create schedule
