## MDHHS Systems Use Notification

The Michigan Department of Health and Human Services' (MDHHS) computer information systems are the property of the State of Michigan and subject to state and federal laws, rules, and regulations. The systems are intended for use only by authorized persons and only for official state business.

Systems users are prohibited from using any assigned or entrusted access control mechanisms for any purposes other than those required to perform authorized data exchange with MDHHS. Logon IDs and passwords are never to be shared. Systems users must not disclose any confidential, restricted, or sensitive data to unauthorized persons. Systems users will only access information on the systems for which they have authorization. Systems users will not use MDHHS systems for commercial or partisan political purposes.

Following industry standards, systems users must securely maintain any protected health information (PHI) downloaded, printed, or removed in any format from the systems. When no longer needed, this information must be destroyed in an appropriate manner specific to the format type.

By accessing information provided by the Michigan Department of Health and Human Services computer information systems, I acknowledge and agree to abide by all governing privacy and security terms, conditions, policies, and restrictions for each authorized application.

#### Michigan Breast and Cervical Cancer Control System

The Michigan Breast and Cervical Cancer Control Information System (MBCIS) collects clinical and claims data for three CDC funded direct service programs. The system is used specifically for the tracking and quality improvement requirements set out by CDC for the Breast and Cervical Cancer Control and Navigation Program (BCCNCP), Michigan Colorectal Cancer Early Detection Program (MCRCEDP) and the Well Integrated Screening and Evaluation for Women Across the Nation (WISEWOMAN). Access to MBCIS is restricted to staff associated with these direct service programs due to sensitivity of data.
