### III. REPORTS

#### A. MAC Director's Report

Chair Kavalhuna called on Director Trout who then presented his report.

Director Trout began with a federal stimulus update summarizing as follows:

- Coronavirus Aid, Relief, and Economic Security (CARES) Act [www.faa.gov/airports/cares\\_act](http://www.faa.gov/airports/cares_act) = \$256,958,769 to 94 eligible airports.
- Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) [www.faa.gov/airports/crrsaa/](http://www.faa.gov/airports/crrsaa/) = \$55,841,582 to 92 eligible airports. MDOT Aeronautics is now processing agreements and reimbursement requests.
- American Rescue Plan Act (ARPA) [www.faa.gov/airports/airport\\_rescue\\_grants/](http://www.faa.gov/airports/airport_rescue_grants/) = \$169,677,474 to 92 eligible airports. This funding was appropriated by Governor Whitmer on December 21, 2021.

Director Trout then discussed the newest federal stimulus titled the Infrastructure Investment and Jobs Act (IIJA) also known as the Bipartisan Infrastructure Legislation (BIL). He stated nationwide allocations can be found at [https://www.faa.gov/sites/faa.gov/files/2021-12/BIL\\_allocations\\_20211216\\_0.pdf](https://www.faa.gov/sites/faa.gov/files/2021-12/BIL_allocations_20211216_0.pdf) And includes \$25 billion over five years for aviation system and airport infrastructure upgrades. Governor Whitmer has created the Michigan Infrastructure Office to ensure IIJA/BIL resources are used effectively. More information on IIJA/BIL will be shared in future meetings as it becomes available.

Director Trout shared the current aviation gallons and credits, noting an increase of 12,589,573 total gallons or +38.85% from fiscal year (FY) 2021 and an increase of 9,728,715 total credits or +45.93% from FY 2021.

Director Trout next shared the latest excise tax revenue of \$1,191,052 and sales tax revenue of \$678,183 year to date for FY 2022.

Director Trout highlighted the following legislative news:

- USDOT Inspector General will be launching a CARES Act audit. Airports are advised to stay tuned and keep copies of everything related to federal stimulus spending.
- Michigan Senate Bill 795 introduced which would create a 25-member Advanced Air Mobility Study Committee. MDOT Aeronautics will meet with the Senate representatives to discuss this action further in the upcoming weeks.
- Michigan Senate Bill 796 introduced which would amend the Michigan Aeronautics Code to preempt local ordinances affecting advanced air mobility. MDOT Aeronautics will meet with the Senate representatives to discuss this action further in the upcoming weeks.
- FAA continues discussions with AT&T/Verizon on 5G rollout to find a final solution to mitigate aviation interference.
- Michigan Aeronautics Code updates are currently being worked on with MDOT Aeronautics and Michigan Legislature.

Director Trout gave an update on MDOT Aeronautics' Airport Loan Program, as required under Section 4, Public Act 107 of 1969. All loans remain in good standing with no new loans dispersed in FY 2021. Principal loan repayments of \$52,968.92 and interest payments of \$7,463.43 were received. The outstanding loan balance at the end of FY 2021 was \$172,880.23 with \$2,027,119.77 available for new loans.

Director Trout highlighted the new GA Terminal Building at the Chippewa County International Airport, Sault Ste. Marie (Note: During this presentation, this was inadvertently labeled the Delta County Airport in Escanaba and was corrected to the Chippewa County International Airport appropriately). This new terminal cost \$6,610,302 to complete with a tentative opening in 2023. Construction was done by Howard Immel Construction with work continuing through the winter on foundations, underground utilities, and elevator shaft. The Aero Project Manager was Jim Reverman.

Director Trout noted current year to date FY 2022 stats from the Office of Aeronautics which include 44 active design projects; 77 active construction projects; 9 active equipment acquisition projects; 21 Airport Layout Plan updates/planning studies under contract; 8 active land acquisition projects; 20 airport development projects environmentally cleared; 2,667 tall structure permits reviewed/processed; 93 compliance report cards updated; and 84 KMZ runway approach modes (22 airports) completed as preflight planning for unmanned aerial systems (UAS) missions..

Director Trout highlighted two current postings at MDOT Aeronautics – a UP Pilot/Inspector and an Aviation Electronics Technician. He then welcomed Aero's new Aircraft Mechanic, Jordan English, and congratulated current Aero

employees' Laura Wise and Ryan Markowski on their recent promotions to Finance and Operations Unit Supervisor and Grants Analyst, respectively. Finally, Director Trout congratulated former MAC Commissioner and Chair, and Oakland County Administrator, J. David Vanderveen, on his retirement after nearly 55 years of service in Michigan.

Director Trout highlighted the following current upcoming events:

- Michigan Airport Conference, February 16-17, Kellogg Hotel and Event Center, East Lansing
- US DOT Small Community Air Service Development Program new grant proposal applications due March 15.
- NASAO State Block Grant Convention, January 27-28, Durham, North Carolina.

Director Trout concluded his presentation with recognition of several newsworthy mentions:

- Capital Region International Airport (LAN) recently opened a free public viewing area [ICYM... - Lansing's Capital Region International Airport \(LAN\) | Facebook](#)
- Governor Whitmer announced air mobility corridor development in Michigan and Ontario <https://www.michiganbusiness.org/press-releases/2022/01/gov.-whitmer-announces-air-mobility-corridor-development-in-michigan-and-ontario>
- MDOT Aeronautics Deputy Administrator, Bryan Budds, discussed "What is an Aerial Mobility Corridor?" in MDOT's Talking Michigan podcast [Talking Michigan Transportation podcast](#)

#### **IV. COMMISSIONER COMMENTS**

Chair Kavalhuna asked if any Commissioners would like to make a comment.

Commissioner Kevin Jacobs asked if there was an update on the changes to the Aeronautics Code and what the process for doing so was. Director Trout responded that Legislature had drafted changes which were now being reviewed by MDOT Aeronautics. The revisions would be discussed and once agreed upon, a formal introduction to change would be made, committee hearings scheduled, then a final approval given. This could still take quite some time to complete.

#### **V. PUBLIC COMMENTS**

Chair Kavalhuna asked if anyone would like to make a public comment. There were no public comments.

#### **CLOSING**

The next MAC meeting is scheduled for Wednesday, March 23, 2022, at the Office of Aeronautics, 2700 Port Lansing Road, Lansing, Michigan.
