The Michigan Department of Transportation Prequalified Aggregate Suppliers

If you require assistance accessing this information or require it in an alternative format, contact the Michigan Department of Transportation's (MDOT) Americans with Disabilities Act (ADA) coordinator at Michigan.gov/MDOT-ADA.

All aggregate materials provided to projects must adhere to project documentation for acceptance. Prequalification allows reduced acceptance (QA) testing for state or federally funded projects and is only applicable to the materials provided directly from the prequalified suppliers as listed in this document to the project or concrete plant.

***Redistribution Points** do not create or produce material they receive Prequalified Aggregate Supplier Materials and are allowed to stockpile them before redistribution without disrupting their prequalified status for acceptance testing frequencies

For information on the prequalification process and details about the Aggregate Supplier Program administered by CFS, please refer to the Procedures for Aggregate Inspection manual. Materials are screened for physical properties prior to being added to the listing, it is the responsibility of project staff to confirm physical properties are current prior to project use.

MDOT Aggregate Supplier	Source Name	ASI	Materials or Conditions
A. Lindberg & Sons	Lindberg #3	52-0009SG	21A, 22A, 23A, 34R, 2NS, 2MS, Class I, Class II, Class IIA, Class IIAA, Class III, Class IIIA
