

**Buy America - Compliance Listing for Approved Manufacturers,
Qualified Product List, and Tested Stock Suppliers**

Construction Field Services (CFS) has contacted manufacturers/fabricators of qualified products, approved manufacturers, and tested stock suppliers regarding their compliance with Buy America for any products containing steel/iron shown on their respective lists within the MDOT Materials Source Guide. The responses from these companies related to Buy America compliance has been compiled and placed into this document.

The companies on this list are either fully compliant, partially compliant, or do not have any steel/iron in their product as noted by each company name. All of these companies have provided Buy America certification documentation or correspondence and CFS is maintaining this documentation on an annual basis.

Buy America Legend for Products Containing Steel/Iron

- BA+** Signifies a specific product/company that is in full compliance with Buy America requirements per a company certification document submitted to and maintained by the Construction Field Services Division.

- BA-** Signifies a specific product that is in compliance with Buy America requirements except for a specified amount of foreign steel. The contractor must contact the manufacturer or fabricator to determine the amount of foreign steel/iron. The contractor must also take the foreign steel/iron monetary amounts into consideration with the allowed minimal usage values as noted in the Special Provision for Source of Steel and Iron (Buy America).

- NSI** Signifies a product with no steel or iron materials or components.
