

**Industry Forum:  
Mound Road Industrial Corridor Technology and Innovation  
Design-Build Project**

**When:** 10:00 – 11:30 am EDT, September 22, 2020

**Where:** Via Zoom. Links and call-in information will be provided prior to the meeting. To RSVP for this event, please e-mail [jcrumm@rcmcweb.org](mailto:jcrumm@rcmcweb.org) and [StratzJ@michigan.gov](mailto:StratzJ@michigan.gov) by Monday, September 21, 2020 at noon EDT.

**Who:** For potential bidders of all sizes and types interested in participating in this Project.

The Michigan Department of Transportation (MDOT) is hosting an industry forum to discuss the upcoming design-build (DB) procurement that will transform approximately 9 miles of the Mound Road corridor to a next-generation critical commercial corridor of national significance in Macomb County. The Project is on Mound Road between I-696 and M-59 in Macomb County, in the Cities of Warren and Sterling Heights, Michigan. The Project generally consists of performing design and construction for the reconstruction and widening of Mound Road. Roadway improvements include new concrete pavement, drainage, curbs and driveways, signal optimization, roadway widening, connected vehicle and fiber optic communications technology, non-motorized facilities, and energy-efficient LED lighting. The Project area includes major intersections at each “mile” road along with several other intersecting roadways.

Anticipated topics of discussion include:

- Project Goals
- Statement of Qualifications (SOQ) Format, Content and Scoring Criteria
- Project Summary (Anticipated Contract Requirements)
- Project Schedule
- Prequalifications / DBE Goal
- Question and Answer Opportunity

SOQs are due from interested proposers on October 6, 2020 by 3:00 pm EDT. A Working Draft RFP for Industry Review will be released to the shortlisted teams the end of October 2020. MDOT anticipates issuance of a Request for Proposals in December 2020 and award of a DB contract in April 2021.
