County Drain Coordination during Milestone Reviews

MDOT is required, by law under Section 280.328 of the Drain Code, to submit a copy of our design plans to the County Drain Commissioner, Water Resources Commission, or Drainage Board when work is to be done within a County Drain Easement.

The MDOT Project Manager is responsible for sending a copy of the plans at applicable milestone reviews (Plan Review and Final Project Coordination (FPC)) and coordinating with the MDOT Drain Coordinator (Hydraulic Unit) and Region/TSC Drainage Coordinator.

Resolution of any drainage issues by the MDOT Project Manager and Region representative must be coordinated with the MDOT Drainage Coordinator.

For assistance on whether a stream crossing is a County Drain or to obtain contact information for the County Drain Commission, please contact the MDOT Drainage Coordinator (Environmental Services - Hydraulic Unit).
