Service Type	Anticipated Tier	Service Prequalification Classification/Work Type	Location of Project/Route	County	Brief Description of Project	Overseeing Region, TSC, or Central Office Area	Anticipated Start Date	Anticipated RFP Date	Mentor Protégé
Other	Tier II	None	I-75 from Square Lake Road to US-23 (in Oakland and Genesee Counties)	Genesee, Oakland	Develop a corridor plan for the I-75 corridor. The intent of this corridor plan is to connect the vision, goals and strategies of MM2045 to projects and program development. Therefore, the analysis performed in this plan will remain high level, similar to the analysis completed for MM2045 (but applied to the corridor specifically). It will analyze current conditions, gaps in data, identify needs and problem areas, and develop multimodal strategies to address these needs, and outline future steps, which may result in future localized studies (e.g., PELs) at the project level along this corridor following the completion of this plan.
