2025 Michigan Roadway Statewide Statistics

National Functional Classification (NFC) by County

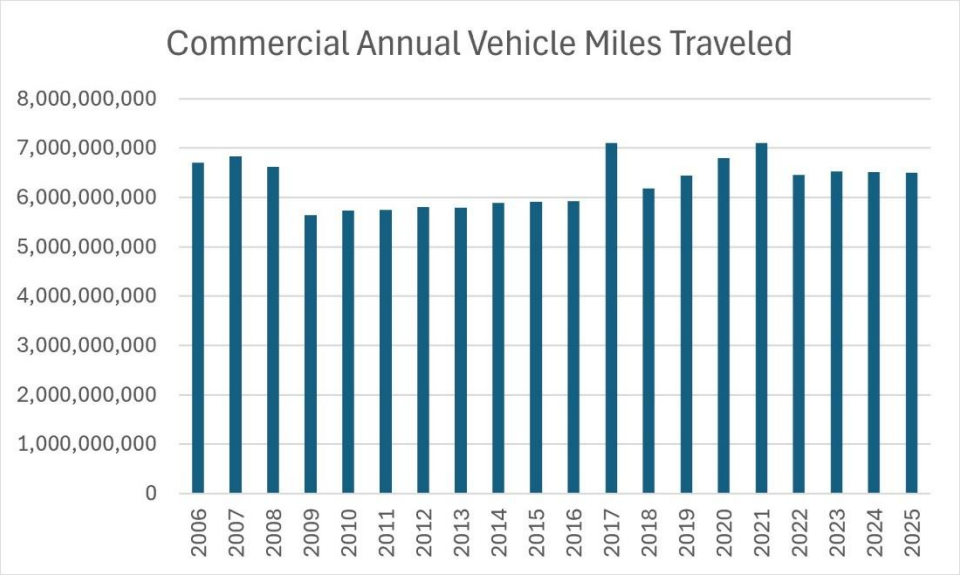

This report contains statistics about transportation in the State of Michigan and includes Annual Vehicle Miles Traveled (AVMT), Commercial Annual Vehicle Miles Traveled (CAVMT), Lane Miles, and Route Miles by National Functional Classification (NFC), by county. The most recent data is derived from the 2025 Statewide Statistics File, which is reflective of what was submitted to the Highway Performance Monitoring System (HPMS) in June 2026 from MDOT's Roads & Highways (RH) database. The data is representative of Michigan's roadways as of December 31 of the reporting year.

For information on NFC, please visit the MDOT NFC website.

Annual Vehicle Miles Traveled (AVMT) is an estimate of annual vehicle travel within the state of Michigan. This statistic is calculated from traffic counts and annualized estimates where count-based data is not available. This data is available dating back to 2003.

Commercial Annual Vehicle Miles Traveled (CAVMT) is an estimate of vehicle travel by commercial vehicles (single-unit and combination trucks and buses). Like total AVMT, this statistic is calculated from vehicle classification counts and annualized estimates where count-based data is not available. This data is available dating back to 2003.

HPMS Lane Miles is calculated using through lane data that is reported to HPMS. Through lanes data is reported to HPMS on all federal-aid highways and non-federal aid highways are presumed to have two through lanes. Please note that lane mileage figures vary depending on source. For HPMS purposes, turn lanes (including center left turn lanes) are not included in lane mileage calculations. This data is available dating back to 2017.

System Length is in Route Miles where only one side of a divided road is counted and there are no ramps. The length of a route is based off GIS center line length from MDOT's RH database and mileage that is submitted to FHWA as part of the Certified Public Mileage (CPM) process. This includes all one-way and two-way roads that are open to public travel and certified by a public road agency. Please note that route miles reflected in this report are reflective of MDOT's RH database and may not exactly match what is certified for Act-51 of 1951, as amended, in the Act-51 Distribution and Reporting System (ADARS). For Act-51 mileages, please refer to the MDOT Act-51 Maps. This data is available dating back to 1990.

Questions on these reports can be directed to David Hartman at HartmanD2@Michigan.gov or Heather Hoeve HoeveH2@Michigan.gov.
