MDOT: Providing the highest quality integrated transportation services for economic benefit and improved quality of life.

Jackson and Mechanic Streets Railroad Bridge Replacement City of Jackson Jackson County

**Construction and
Motorist Information**

March 2020 - November 2021

What Is Being Done?

The Michigan Department of Transportation (MDOT) will invest about \$19.7 million to replace two 100-year-old railroad bridges over Jackson and Mechanic streets in the city of Jackson. The project includes rebuilding hundreds of feet of retaining wall and improving safety and mobility for motorist, pedestrian, and rail traffic.

When Will This Be Done?

Work is scheduled to begin in March 2020 and is expected to be completed by November 2021.

How Will Traffic Be Affected?

There will be detours on local streets and periodic lane closures on M-50 (Louis Glick Highway) to accommodate construction.

Long-term Benefits

This project will provide safe facilities for rail, road, and nonmotorized users. MDOT reminds motorists when you see barrels, people are fixing your roads. Drive like you work here.
