

# SAFETY CULTURE FACTS

Together, We Are Moving Michigan

# What Can You Do to Help Move Michigan Toward Zero Deaths?

## 2024 Michigan Facts

- 32 percent of driver/passenger fatalities did not involve the use of restraints in either the front or rear seats.
- Just 92 percent of occupants use proper restraints.
- For every 1 percent increase in the use of proper restraints, 10 fewer traffic fatalities and 100 fewer serious injuries occur.
- Buckle up, it could save your life.

- A driver was using a phone in 45 percent of rear-end crashes.
- Cell phone-involved fatalities increased by 91 percent.
- In Michigan, it is illegal to manually use a cell phone while operating a vehicle.
- #JustDrive and #PhoneDown.

- Excessive speed was the hazardous action for 17 percent of the drivers involved in fatal crashes.
- Aggressive driving crashes increased by 1 percent.
- Slow down, speed kills.

- Alcohol was involved in 47 percent of the fatal drug-involved crashes.
- Of the total fatal crashes, 27 percent were alcohol-involved and 24 percent were drug-involved.
- 62 percent of the alcohol-involved fatal crashes involved one vehicle, a 17 percent increase from last year.
- Drive sober or get pulled over.
