

Data Driven Decision Making Tools

The TAMC strives to lead the nation in providing data that can be easily accessed and tell the story:

- Interactive Map – Road and Bridge Conditions.
- Dashboards – Annual metrics from finance, roads, bridges, traffic and safety data.
- Investment Reporting Tool – Detailed information on road and bridge projects.

Michigan
Transportation Asset
Management Council

Mission Statement

To develop and support excellence in managing Michigan's transportation assets by:

- Advising the Legislature, the Michigan Infrastructure Council (MIC), State Transportation Commission, and transportation committees.
- Promoting Asset Management principles.
- Providing tools and practices for road agencies.
- Collaborate and coordinate with the Water Asset Management Council (WAMC).

Preserving Roads & Bridges

The Michigan Transportation Asset Management Council acts as a resource for independent objective data on the condition of Michigan's roads and bridges and a resource for implementing the concepts of asset management.

Strategic Plan

The TAMC continues to promote the principles of asset management statewide to enhance the productivity of investing in Michigan's roads and bridges through coordination and collaboration among state and local transportation agencies.

The TAMC's Activities Include:

- Surveying and reporting the condition of roads and bridges by functional classification categories.
- Analyzing completed and planned investments in roads and bridges.
- Supporting the development of appropriate asset management methodologies.
- Providing education and training on the benefits of asset management principles and procedures.

Building & Maintaining Partnerships

The TAMC has over 15 years of experience in collecting and analyzing data. Partnerships formed at the local, state and national level, along with education and teamwork across all aspects of asset management, continue to make these efforts a success.

TAMC Actively Engaged

The 2018 creation of the Michigan Infrastructure Council (MIC) and Water Asset Management Council (WAMC) now expand the team approach to manage Michigan's infrastructure beyond roads and bridges. TAMC continues to provide guidance in building partnerships and sound data collection practices. We look forward to working and learning together as these new councils continue to evolve.

"All public roads in Michigan will be managed using the principles of asset management"

- Public Act (PA) 499 of 2002 created the TAMC

The TAMC serves an advisory role to the Michigan Infrastructure Council (MIC) regarding:

- Asset management plans and processes.
- Tools and education.
- Statewide asset management strategy.
- Federal aid system condition.
- Non-federal aid system condition.

TAMC Related Legislation:

The TAMC was formed under PA 499 of 2002 (amended by PA 338 of 2006, PA 199 of 2007, PA 257 of 2010, PA 298 of 2012, PA 506 of 2012 and PA 323, PA 324, PA 325 of 2018.) and is required to prepare an annual report detailing its activities during the previous year, and its plans for the upcoming year.

The most recent report, as well as an archive of previous reports, can be found online at www.Michigan.gov/TAMC.
