

Call for Nominations

September 15, 2023

The Michigan Infrastructure Council (MIC) is issuing a Call for Nominations to fill expiring terms on the Water Asset Management Council (WAMC). The appointments will be made in accordance with P.A. 324 of 2018 and with consideration for socio-economic, geographic, and system diversity. Individuals representing small drinking water, wastewater, and/or stormwater systems are especially encouraged to apply. The open positions are as follows:

- **Member representing a regional drinking water, wastewater, or stormwater authority, 3-Year Term: January 1, 2024 - December 31, 2026**
- **Member representing a water infrastructure association, 3-Year Term: January 1, 2024 - December 31, 2026**

Individuals interested in being considered for nomination should submit the following information to MIC by November 1, 2023:

- Request for Consideration – please indicate which position(s) you wish to be considered for (required)
 - Resume (required)
 - Letter of Support (optional)

Please submit nomination material, via email to:

Ryan Laruwe, Executive Director
Michigan Infrastructure Council

Michigan's Water Asset Management Council (WAMC) was created to lead, guide, and assist communities in the development and/or enhancement of their drinking water, wastewater, and storm water asset management programs. The WAMC is legislatively charged with the development of asset management templates, as well as annual reporting to the Michigan Infrastructure Council on the asset condition and investment of water infrastructure across the state. The WAMC is considered a 'sister council' to the Transportation Asset Management Council. The WAMC meets approximately 6-8 times per year in Lansing, Michigan. Additional information about the Water Asset Management Council can be found at michigan.gov/wamc.
