

Mr Anthony Eid,

Thank you for being willing to serve on the citizens independent redistricting commission. As someone who spent a number of hours watching the commissioners debate the new state house and senate maps, I want to thank you for your patience and your service.

You have been an even-tempered, fair, judicious, respected, and honorable chairperson. When others have acted like children, you have been the adult in the room. Your poise and maturity go beyond your years.

I also want to thank you for being the only real voice for our Chaldean community. When others bristled at our people's opinions, you have been our champion.

And I believe it was you who led the way in drawing the "Cardinal" and "Finch" maps that put our Sterling Heights and Troy community back together. Thank you for doing that. I believe these are the two best maps for the Chaldean community, and my family and neighbors seem to agree with me.

I would hope that your fellow commissioners would also realize how important it is to stand up for our people in these new maps.

I thank you for who you are and how you've committed to serve.

Thank you.

Rhonda Najor
