January 13, 2022 Meeting Public Comment

Date of Submission: January 12, 2022 2:40 PM
Method of Submission: Email To <Redistricting@Michigan.gov>
Name: Millerpa
Subject: 110th District

STOP

We in the 110th District do not want to be moved to the 1st District or any other district for that matter. We voted for Gregory Markkanen to be our representative and want it to remain that way!!!!

Subject: new maps

Redistricting Commission,

Thank you for all your work on trying to map out new districting maps for Michigan for the next ten years. However, I find the state senate and state representative maps for Monroe County to be very confusing. I live in Ida, but find it odd that there could be two state representatives fighting for voters here, let alone splitting up Monroe, Wayne and Washtenaw counties. Can you please simplify this map? Thank you, Ned

Date of Submission: December 30, 2021 10:09 PM
Method of Submission: Email To <Redistricting@Michigan.gov>
Name: Jon Nigrine
Subject: Better maps please

Hi -

Thank you for your hard and careful work! I know it's early after the announcement, but could you please publish maps that are more suitable for downloading and printing? The ward numbers on the state house map are too small to read, even in the onscreen maps.

Graphic files like png or even jpg would be great. Pdf documents would be ok in addition.

Thanks again -

Jon Nigrine, Flushing

Name: Lymphoma Foundation

Subject: Official Comments to the Michigan Independent Citizens Redistricting Commission (MICRC).

Dear Commissioners,

Thank you for your public service. We trust that your decisions will ensure that all citizens in Michigan will have equal access to fair and honest elections in our state.

I am Belita Cowan, president of the Lymphoma Foundation of America, a nonprofit cancer charity headquartered in Michigan. I am writing to you on behalf of all the Michiganders who have had or now have cancer. Lymphoma, leukemia, and multiple myeloma are common blood cancers. Michigan has high rates of nonhodgkin lymphoma compared to the other states.

As you may appreciate, cancer survivors often have permanent and disabling effects from their cancer and treatments. They are included in the Americans with Disabilities Act (ADA). Michiganders with disabilities have challenges and difficulties exercising their right to vote.

I am writing to you today because disabled citizens in Michigan, many of whom live in urban and suburban areas with access medical centers and health care services, have been jerrymandered in the past, causing their votes to be diluted and the election outcomes to not represent the will of the voters.

It is hard enough for a disabled voter to be able to physically go the polls and cast a ballot, especially in high population urban and suburban areas of our state. Let's make sure that their vote, going forward, is not spliced and diced into a district where they are intentionally under-represented, disenfranchised, and even racially profiled.

We strongly urge the Commissioners to adopt the Szetela congressional map. It is not ideal (and could use some improvements), but Szetela is the best choice we have. Chestnut is a second choice. Please eliminate Apple and Lange. They would perpetuate the worst of our jerrymandered past, and aggravate the voters who created your Commission.

We strongly urge you to select Linden, Cherry, and Hickory maps. They also are not perfect and could use some improvements. We trust that you will make the improved changes to these maps so they can provide the correct blueprint for fair and honest voter district representation.

We are relying on you and the work of your commission to clean up our currently manipulated elections and contorted districts.

There are more than half a million cancer survivors living in Michigan today, and 62,000 more individuals are diagnosed every year. They have been given a second chance at life. Let's help them vote their conscience by creating districts that fairly and honestly reflect their demographics. They deserve nothing less.

Please don't disappoint. We are depending on you. Be courageous and take the high road. God's blessing comes with your mission.

Thank you for your efforts to make voting districts fair in our state and to finally eliminate partisan gerrymandering by any political party members that in the past have manipulated election outcomes. Your commission was created by folks like me, so I hope you will listen to my recommendations.

I have reviewed the maps. Some are blatantly biased and unworthy of consideration. Some are only slight improvements. And some appear fair and appropriate to the mission set out before you. The citizens of Michigan must feel that your work has integrity and honesty with no hidden political agendas by any members of the commission.

I strongly urge you to continue your work on both the Senate and House maps. The best of the Senate maps need some adjustments to be better. Almost all of the House maps are blatant and clearly unfair.

The Szetela map is the best of the lot and comes close to a good nonpartisan fairness score. An element of the Birch map that is most relevant to your mission is that it has roughly the same number of voters in each district. Numbers are not everything however. Please make the Birch map more even handed. The Chestnut map appears fair but could use some changes to eliminate the appearance of partisanship. The Lange and Apple maps are an insult to the intent of the citizens and should be discarded.

The Linden and Cherry senate are the best choices, with the Linden being superior in fairness and meets the standards that Michiganders had in mind when changing the unfair gerrymandering system. The Linden and Cherry maps need some tweaking because their partisan fairness scores are still wanting. We can improve the Linden and Cherry maps to raise their scores. Let's do better. The Lange and Palm senate maps should be taken off the table. It is obvious to anyone who takes a look at Lange and Palm maps that the bulk of the elected officials will always be from a minority party. This runs counter to your mission to help us have fair and honest elections. Also, when you slice up our minority citizen voters, you effectively nullify their votes. Everyone in our great state needs to have an equal right to have their vote count for something and someone they believe in. Diluting votes is reprehensible and should not be allowed by your commission. The Linden senate map is your best choice for fairness.

Hickory is clearly the best map, but needs some tweaks to raise its fairness score. Hickory alone comes closest to reflecting your mission. None of the other house maps are adequate for fair voter

representation. It is hard for us citizens to understand or accept a map that is blatant in its bias. The rest of the house maps are not acceptable and do not meet the standards required.

Please select the Linden and Cherry senate maps and the Hickory house map for implementing the will of the people. Let's be a model of fairness so that each and every Michigander can feel proud of the work you are doing.

Subject: Gladwin-Midland United Petition Names Dec 28

To: All MICRC Commissioners

Subject: Gladwin-Midland United Petition Names as of December 28

I'm Cathy Leikhim and I am one of the 750+ voices of Gladwin-Midland United asking you to support the Lange Congressional map or to adjust the Apple or Birch maps keeping Gladwin and Midland in the same Congressional District.

Today I have for you an updated copy of our petition with 750+ names attached to this email. A group of Gladwin-Midland leaders attended your Dec. 16 meeting in person to deliver an early copy of this petition.

Since you did not provide even ONE collaborative map to reflect all of our voices, we support the Lange congressional map – an individual map.

Gladwin-Midland United is not about political party affiliation. It is about community and community representation.

Please put the small City of Midland back in the district where it belongs by approving the Lange map (or make a tweak to an existing map).

Cathy Leikhim

Midland, MI

Subject: comments for the Michigan Independent Citizens Redistricting Commission

Dear Michigan Independent Citizens Redistricting Commission,
I appreciate your hard work. The US Congress Voting Map Birch V2 is fair and so is the MI Senate Voting Map Linden and I support both of these. BUT, your proposed House maps gives the majority of seats to the minority of voters and are NOT fair. Additionally, no MI House map addresses the concerns that Detroit voters have raised about being able to elect their own candidates. Please keep working to make the House maps fair.

Sincerely,

Susan McCarthy, Registered MI Voter

Name: Val Murray
Subject: Redistricting Vote

For the past 10 years Michigan residents have been misrepresented by partisan drawn districts by those in power making it impossible for residents to be properly represented when they vote.

This is our opportunity to try to right the wrongs, balance the districts so that people's votes actually count and they are properly represented by their elected officials. As an elected official myself, it deeply concerns me how partisan our lives have become, what we need are fair lines, and to have to opportunity to elect the best people that run for office, and not have our votes not count due to party politics cutting up districts to allow them to have unfair advantage in the ultimate results.

Thank you for taking this job you have been given as our committee to take the once in 10 year opportunity to do the very best for ALL residents in Michigan. Here are some suggestions, for the best outcome for your map voting this week.

Michigan House:

None of the House maps are fair. Every one of them would likely result in the majority of seats going to the party that receives the minority of votes.

Two messages: 1. Even though it will delay the process, we don't want to settle for unfair maps. Maps that are less unfair, are still unfair. Please go back and fix these maps. 2. Of the proposed House maps, Hickory is the best of the worst. If you have to settle for one of these maps, please adopt Hickory. (We expect the MICRC to vote on Dec 30th and will not delay the process. But we still want to be on record asking them to improve the House maps and clearly stating that Hickory is the best of the proposed House maps.)

Michigan Senate:

Here again, various groups are using different methods of analysis. Some say that Cherry and Linden achieve partisan fairness. While others conclude that all of the Senate maps have partisan bias. We have three messages: 1. Of the proposed maps, Cherry and Linden are the most fair. 2. Linden is the most fair map. It is better than Cherry because it comes closer to having the same number of voters in every district. 3. Palm and Lange are unfair. 4. Maps that are less unfair are still unfair. We deserve fair maps. Despite the delay it will cause, please go back and improve the Cherry and Linden maps.

Congressional:

Different groups use different methods of analysis. Some of these groups believe that Szetela, Birch and Chestnut achieve partisan fairness. Other groups believe that only Szetela is fair. Some commissioners have indicated that they will lean towards the collaboratively drawn tree maps rather than consider any maps proposed by individual commissioners. We have three messages: 1. The Szetela map is the only map with a perfect partisan fairness score. 2. The Birch and Chestnut maps are reasonably fair, but not as fair as the Szetela map. 3. Birch is the best of the tree maps. It is better than Chestnut because it has a lower population deviation (i.e. it comes the closest to having the same number of voters in each district. 3. The Apple and Lange maps are extremely unfair. Apple and Lange would result in election outcomes that do not accurately reflect the way Michiganders vote.

Sincerely,

Valerie Murray

Method of Submission: Email To <Redistricting@Michigan.gov>
Name: K Schrubba
Subject: Redistricting meeting comments for Dec 28

Hello,

My name is Kelly Schrubba, and I live in Wixom, Michigan.

I am concerned with several of the options as offered by the Redistricting Commission. Although I greatly appreciate everyone's efforts, and I am grateful for the hard work this has taken for each of you, I feel that even the most fair maps have areas that are unfair.

To note:

-the Szetela Congressional map is very fair, and it is the best at achieving bipartisan fairness
Thank you.

- the Linden and the Cherry state Senate maps are quite fair with Linden as noted to be slightly better with communities of interest, taking into account the most bipartisan approach in that manner.

- Hickory is approaching as the MOST fair for the House maps, but with review it is also unfair. The remainder of the other House Maps fall short and are extremely unfair.

--> we worked hard as a State, with people voting for redistricting to reflect a non-partisan, fair mapping for our districts. It is NOT fair if a minority of those voting are receiving a majority of representation in the state. Less unfair is STILL NOT FAIR> PLEASE CONTINUE TO WORK on the State House maps as a priority.

***** Please fix the House maps even though it means delaying the process.**

Many have taken time to review the maps as presented by the Commission. Again, it is obvious how much work went into these, however, we are seeking COMPLETE PARTISAN FAIRNESS.

Thank you, and please continue to work towards the most fair elections.

Kelly Schrubba,
resident of Wixom, precinct 2

Method of Submission: Email To <Redistricting@Michigan.gov>
Name: Ruth Kraut
Subject: Maps

Hello Redistricting Commission,

Thank you for your hard work.

I urge you to support the Szetela Congressional map, which is the most fair in terms of partisan fairness. My second choice is the Birch map.

For the State Senate, my top choice is the Linden map for its equality in voters/district, but I could live with the Cherry map as well.

You don't have good choices for the House maps, they are all unfair in different ways. I'd urge you to keep working on them. If you are unwilling to keep working on them then I would urge you to adopt the Hickory map. These maps, in general, give the edge to the minority of voters and not the majority.

Thank you for considering my comments.

Ruth Kraut

Method of Submission: Email To <Redistricting@Michigan.gov>

Name: Judy Cunningham
Subject: MI House Redistricting Options

It doesn't seem that any of the redistricting maps for the House are fair to communities of interest or reach partisan fairness. The proposed House map gives the majority of seats to the minority of voters. Detroit voters would not be able to elect their own candidates. That is really sad and unfair.

All three options divide up the county I live in - Manistee County. This is not a good idea for the rural areas in Michigan, especially Northern Michigan.

Of the bad options, Hickory is the least bad, but I urge you to keep working for a better option.

Judy Cunningham

Subject: Michigan House of Representatives map

Greetings to MICRC!

Please continue your work on the Michigan House of Representatives map. It is unfair to Michigan voters to be represented in Michigan's congress by those selected by a minority of voters in elections. Americans across the country will see that Michigan's attempts at Redistricting have failed if we do not correct the errors made in drawing this map! Over the next ten years we deserve to have fair maps so that gerrymandering is truly ended in Michigan!

Thank you!

Subject: Michigan House Maps

Members of the Michigan Independent Redistricting Commission:

Thank you for your service to our state. I can't begin to imagine how hard implementing this new process has been.

The state house maps still need work. Hickory is the least egregious of the 3. However, it still has a large slant in favor of the partisan minority. When data is plugged into it from the 2020 election, the statewide seat count theoretically won should be in favor of the party that won the statewide presidential vote. This is not the case. The minority party in that case has a large majority of the seats!

I understand that edited versions of Hickory have been submitted that come closer to partisan fairness measures. Please do one last review and work to make the state house districts more fairly represent the voters of Michigan.

I live in the current 52nd house district.

Carole

Name: Sara Constantakis
Subject: Citizen Comment on Redistricting Maps

Dear Redistricting Commission,

Thank you for all the hard work you are doing to redraw Michigan's gerrymandered electoral districts. My name is Sara Constantakis and I live in Ferndale, MI (US House District 9; MI Senate District 11; Michigan House District 27). I am writing today to submit my comments on the current maps prior to your upcoming vote.

US House

Different groups use different methods of analysis for these maps. My comment is three-pronged:

- 1) The Szetela map is the only map with a perfect partisan fairness score
- 2) The Birch and Chestnut maps are reasonably fair, but not as fair as the Szetela map
- 3) Birch is the best of the tree maps. It is better than Chestnut because it has a lower population deviation (i.e. it comes the closest to having the same number of voters in each district).
- 4) The Apple and Lange maps are extremely unfair. Apple and Lange would result in election outcomes that do not accurately reflect the way Michiganders vote.

Michigan House

Sadly, none of the House maps are fair. Every one of them would likely result in the majority of seats going to the party that receives the minority of votes. My comment is two-pronged:

- 1) Even though it will delay the process, I don't want to settle for unfair maps. Maps that are less-unfair are still unfair. Please go back and fix these maps, even though it means delaying the process.
- 2) Of the proposed House maps, Hickory is the best of the worst. If you have to settle for one of these maps, please adopt Hickory.

Michigan Senate

Once again, various groups are using different methods of analysis. My comment is four-pronged:

- 1) Of the proposed maps, Cherry and Linden are the most fair

2) Linden is the most fair map. It is better than Cherry because it comes closer to having the same number of voters in every district.

3) Palm and Lange are unfair.

4) Maps that are less-unfair are still unfair. We deserve fair maps. Despite the delay it will cause, please go back and improve the Cherry and Linden maps.

Thank you for your consideration and for helping to end partisan gerrymandering in Michigan,

Gladwin-Midland United

About this petition

Michigan's newly created 'independent' Redistricting Commission (MICRC) is proposing new congressional and state legislative district maps. It was supposed to stop the "gerrymandering," and to create districts that "make sense" and respect communities of interest.

The commission has intentionally carved up counties, including Midland County, into multiple Congressional districts, severely diminishing our voice in Washington. They literally carved out the City of Midland from the rest of Midland County and included it with Flint, 60 miles south of Midland! The very essence of gerrymandering!

MIDLAND COUNTY BELONGS WITH GLADWIN

The commission is acting in a way that intentionally separates communities from each other.

The proposed maps hinder our region's ability to adequately:

- Address flood reduction and dam repair.
- Receive federal grant dollars for our Health Care System.
- Promote Tax and Energy Policies that drive Mid-Michigan's economy.
- Increase internet access by expanding rural broadband.

As a result, our collaborative efforts to rebuild Midland and Gladwin counties after a devastating flood will be diminished.

We ask the commission to change their map according to the following:

- Acknowledge the entire counties of Midland and Gladwin as one community of interest.
- Keep Midland County whole and connected to Gladwin.
- Keep the Tittabawassee watershed communities of Midland, Gladwin, Isabella, and Clare counties together.
- Preserve and respect current geographic boundaries, specifically county lines, for small counties less than 100,000 people.
- Use the Lange Map as a template; but a minor tweak to the Apple or Birch map will also address this request.

Keeping Midland County whole and connected to Gladwin makes sense, and it ensures that we are represented fairly and that our voice will be heard in Washington.

You have an opportunity to fight this injustice to our community. Make your voice heard by adding your name to this petition! Tell the Redistricting Commission that they are diluting the voices of both Midland and Flint by combining us into one congressional district.

-
74. Name: Dave Richards on 2021-12-10 19:25:10
Comments: This is just another attempt by the Dems to win elections any way they can. They committed fraud in the presidential election in Michigan big time and their illegal actions must be stopped before we lose our rights to fair elections.
-
75. Name: Michael Skinner on 2021-12-10 19:29:56
Comments: Combining the City of Midland with Flint for redistricting makes absolutely no sense and is the definition of gerrymandering. Midland should form a district with its surrounding neighbors where we share similar issues, such as the dam which is currently of great interest. I've talked to dozens of people in Midland and not one person thinks it makes sense forming a new district which includes Flint. Please use common sense when forming districts. Thanks.
-
76. Name: Caleb Hortop on 2021-12-10 19:31:47
Comments: My neighboring township of Homer and my childhood home county of Gladwin has far more in common with the economic, environmental, and cultural needs of the city of Midland than Flint. I think our friends in Flint would agree. Please keep Midland County whole and in a congressional district with Gladwin.

Comments:
-
86. Name: Sarah Brooks on 2021-12-10 19:55:14
Comments: Carving the City of Midland away from Midland county is not in the best interest of citizens. Furthermore, with the recent flood, separating Midland and Gladwin counties is a mistake, as they need to work together to fund continued recovery and relief. Uniting those counties in the same district is practical and necessary.

139. Name: Richard Shutter on 2021-12-10 23:25:57
Comments: Midland City and Midland County should not be separated. They belong together because the City, and the County are one in the same. Why do you want to split the Baby in half. What is there to gain by placing the city in a democrat district. This is partisan politics at its worst. It appears to me that splitting the City from the County is like tearing away a Child from its Mother. Is this what the Committee was formed to do? This is the worst form of gerrymandering in the State. The Committee was formed to stop this kind of cannibalism. All this is a ploy to destroy voter continuity with our common community. Stop it!
-

270. Name: John Lyons on 2021-12-11 19:11:16
Comments: The proposed redistricting that splits the city of Midland from Midland county is an obvious case of politically motivated gerrymandering.

It will effectively take away the legislative voting rights of all of the voters in the city of Midland. Being lumped in with the much larger city of Flint means that the city of Flint will determine who legislatively represents the citizens of Midland. The legislative needs of Midland citizens are vastly different than those of Flint residents, and having the voters of Flint (60 miles away from Midland) dictate how citizens of Midland shall be represented is not at all fair to the citizens of Midland.

The city of Midland is the county seat of Midland county, and splitting the county seat out from the rest of the county makes no sense. Separating the city of Midland from the county of Midland. results in a complicated district boundaries that serve no purpose other than to deny the the rightful representation of the citizens of the city of Midland MI.

288. Name: Eric White on 2021-12-12 00:17:12
Comments: Midland and Gladwin counties have always worked and been needed together is this is shown with the floods. If it spilt the counties would need to rework contracts for emergency aid, natural resources, and would probably no longer share funding and responsibilities. This would have an effect beyond government and politics this can and will have a negative impact.

Comments: It is important that Midland, Gladwin, Gratiot Isabella continue to be defined as a geographic area and linked and represented by the current state and federal reps. The health care system, and education system are connected to these local counties and therefor have much in common. They also are similar in size with contiguous counties, small cities, and rural areas. We have nothing in common with Flint in terms of size of communities, and the health care and educational system. Being lumped into counties that are much larger will mean the smaller counties we are in will get overlooked and/or be provided less resources and attention. Please keep our region as it is.

-
544. Name: Gerald L Wasserman on 2021-12-15 20:23:54
Comments: The commission must respond to this terrible decision/option. As former 13 year member of Midland Public Schools Board of Education, dividing our county and school districts and separating from Gladwin County breaks up a natural cultural similarities, services, charitable organizations, schools, etc. This is basically just another form of gerrymandering that leaves our community SPLIT APART. A very poor option and a slap in the face of involved citizens in City of Midland and Midland County. I BEG you to reconsider this injustice to our community! Especially since we have no electoral representative to hold accountable, but merely an amorphous group of people who apparently have ZERO knowledge fo the community they are dividing from afar.

Comments:

627. Name: Ann Rozeveld on 2021-12-16 14:28:48
Comments: This is ridiculous. Keep the city of Midland with Midland County. The city of Midland and Midland County are tied together and have the same concerns. Our concerns have nothing to do with Flint's. I live in Mt Haley township. A few years ago our Michigan State House representative district was changed to include us in Mt Pleasant's district, not Midland's. This was also a mistake; we don't do any business in Mt Pleasant.

628. Name: Steven J Drake on 2021-12-16 14:52:17
Comments: This nonsense is what the people of Michigan thought they were voting against.
