

3

00:08:49.260 --> 00:09:09.060

MICRC1: At 8:01am the zoom webinars being live stream to YouTube for anyone in the public watching who would prefer to watch be a different platform than they're currently using please visit our social media at redistricting em I our live stream today includes closed captioning.

4

00:09:10.080 --> 00:09:28.200

MICRC1: We have asl interpretation available for this meeting, if you are a member of the public watching who would like us your viewing options for the asl interpreter on your screen, please email us at redistricting@michigan.gov and we will provide you with additional viewing options.

5

00:09:29.250 --> 00:09:45.000

MICRC1: Similarly, members of the public who would like access to translation services during the webinar can email us at redistricting@michigan.gov for details on how to access language translation services available for this meeting.

6

00:09:46.560 --> 00:09:55.380

MICRC1: translation services are available for Spanish been galleon Arabic, please email us and we will provide you with a unique link and Colin information.

7

00:09:56.700 --> 00:10:05.700

MICRC1: This meeting is being recorded and will be available@www.michigan.gov slash EMI CRC for viewing at a later date.

8

00:10:06.450 --> 00:10:11.100

MICRC1: The closed caption transcriptions will be made available, along with public comment.

9

00:10:11.880 --> 00:10:22.950

MICRC1: Members of the media, who may have questions before, during or after the meeting should direct those questions to Edward woods, the third communications and outreach director for the Commission at.

10

00:10:23.520 --> 00:10:39.900

MICRC1: woods, he three@michigan.gov or 51733163 or nine for the purposes of the public watching and public record, I will ask the Department of State staff to take note of the Commissioners present.

11

00:10:41.400 --> 00:10:42.870

MICRC1: Sarah please call the role.

12

00:10:46.020 --> 00:10:46.800

MICRC1: Commissioners.

13

00:10:47.880 --> 00:10:49.560

MICRC1: For President, when I call your name.

14

00:10:53.430 --> 00:10:54.420

MICRC1: For me, the code.

15

00:10:56.520 --> 00:11:00.330

MICRC1: Steve flat prison vesting witches Rosa.

16

00:11:01.740 --> 00:11:03.900

MICRC1: Committee members are present and there is a quorum.

17

00:11:05.280 --> 00:11:05.820

MICRC1: Thank you.

18

00:11:08.100 --> 00:11:19.980

MICRC1: I would also note, for the record, then executive director Hammersmith is here and general counsel that stool is here, as well as another Commissioner Richard Weiss.

19

00:11:24.330 --> 00:11:37.230

MICRC1: I will, I would now have the members of the committee, look at the agenda and if there are no additions or corrections I would entertain a motion to adopt the agenda so i'm.

20

00:11:39.120 --> 00:11:44.940

MICRC1: All in favor raise your hand and say Aye Aye Aye The agenda is adopted.

21

00:11:47.730 --> 00:11:51.090

MICRC1: We will now move on to public comment is there any public comment.

22

00:11:53.760 --> 00:12:01.200

MICRC1: There is no in person public comment, but there are two remote public comments plus friend request to speak for an additional time, thank you.

23

00:12:17.190 --> 00:12:23.430

MICRC1: Individuals who have signed up and indicate, they would like to provide remote public comment to the Commission will not be allowed to do so.

24

00:12:25.050 --> 00:12:32.370

MICRC1: Without objection I would recognize Sarah reinhart the Michigan Department of State who will call the members of the public who have signed up remotely.

25

00:12:33.450 --> 00:12:34.050

MICRC1: and

26

00:12:35.760 --> 00:12:37.380

MICRC1: you'll be able to address the.

27

00:12:38.700 --> 00:12:39.330

MICRC1: Commission.

28

00:12:40.470 --> 00:12:41.550

MICRC1: In doing so.

29

00:12:42.870 --> 00:12:57.120

MICRC1: You will have two minutes in which to address the Commission at the end of that time we will indicate that you have used your two minutes, and we will just continue your public comment.

30

00:12:59.580 --> 00:13:00.930

MICRC1: Without further reduce.

31

00:13:05.610 --> 00:13:10.530

MICRC1: First, remote public comment participant is Mr James glam to me.

32

00:13:19.200 --> 00:13:19.860

MICRC1: Can you hear me now.

33

00:13:21.090 --> 00:13:21.690

MICRC1: Yes.

34

00:13:22.710 --> 00:13:27.450

9063607347: All right, James gallant market county Suicide Prevention coalition is, in my opinion.

35

00:13:28.620 --> 00:13:39.210

9063607347: And now I guess would end for a new iteration where does new people new Commission new command new girl Committee, you can make up your own rules you're just going to make it up on the fly with the people that are here, just like that polder model.

36

00:13:39.510 --> 00:13:46.080

9063607347: Is every new iteration is the new people sitting at the next meeting committee meeting and that appears what you folks are doing and what you're going to be doing.

37

00:13:46.620 --> 00:13:47.880

9063607347: And now I found.

38

00:13:49.050 --> 00:13:55.500

9063607347: Just today I found new evidence and there's now a controversy before they can become before the Court.

39

00:13:55.950 --> 00:14:06.570

9063607347: And, as I was saying, the House fiscal agency report states that the, this is not a new Commission, the independent citizens redistricting is not a new Commission is a reiteration.

40

00:14:06.960 --> 00:14:18.780

9063607347: Of the Commission on a portion which was from the 1980s and before, is how we always did it, except for now I found the Senate fiscal agency report.

41

00:14:19.260 --> 00:14:31.590

9063607347: which says that that was abolished and it kind of doesn't say anything about brand new it just says it was abolished, so now we have the fiscal with the Senate and the House of control.

42

00:14:32.010 --> 00:14:48.600

9063607347: kids contradicting opinions about is this a revived reiteration and then the rules of the the apportionment Commission within apply here and yeah I know you folks don't like follow the rules and whatnot but that's the way we do in America and good luck to y'all.

43

00:14:49.050 --> 00:14:49.500

9063607347: and

44

00:14:50.100 --> 00:14:54.420

9063607347: i'm sure we'll see you in 20 papers, but then read know about any Internet and.

45

00:14:55.950 --> 00:15:12.300

9063607347: it's a disaster it's what they call a cluster in the military and yeah it's really bad and you know your nonprofit cheat sheets that were provided to you in your training says don't load the agendas with reports reviews and discussion, it says not to do that.

46

00:15:12.630 --> 00:15:17.490

9063607347: In your lawyer is giving you advice and you're not doing Commission which is.

47

00:15:17.550 --> 00:15:22.140

9063607347: made the motion your lawyer told you, you can't make a motion during this process did it anyway.

48

00:15:26.520 --> 00:15:29.190

MICRC1: An external participant is sharing.

49

00:15:38.160 --> 00:15:38.610

MICRC1: morning.

50

00:15:39.510 --> 00:15:40.740

Gerri Hall: My name is Jerry hall.

51

00:15:41.850 --> 00:15:49.320

Gerri Hall: and vice, Chairman of the genesee county black Caucus I was a speaker yesterday.

52

00:15:50.250 --> 00:16:02.970

Gerri Hall: And I was just calling this morning to say thank you guys for listening to the many speakers that we had yesterday as it relates to communities of interest.

53

00:16:03.600 --> 00:16:13.890

Gerri Hall: I am so happy that you are listening to the residents and that I stay on the call yesterday after the public time and I noticed that you guys didn't.

54

00:16:14.820 --> 00:16:25.410

Gerri Hall: Take our comments into consideration and the Congressional district 10 or 11 were adjusted based on impart.

55

00:16:25.800 --> 00:16:37.080

Gerri Hall: Some of the comments that we made so today, I just want to say thank you guys for listening to the residents as you continue to draw the lines for the state of Michigan Thank you so much.

56

00:16:41.130 --> 00:16:49.020

MICRC1: That concludes our first round of public comment from the second part of our first speaker is Mr James please last moment.

57

00:16:56.010 --> 00:16:56.670

MICRC1: Can you hear me now.

58

00:16:58.080 --> 00:16:58.530

MICRC1: Yes.

59

00:17:00.450 --> 00:17:06.690

9063607347: alrighty James gallant marquette county Suicide Prevention coalition, these are my opinion and I guess we'd like to know who the Chair is today.

60

00:17:06.960 --> 00:17:11.550

9063607347: Somebody just started talking it sounds like Commission let it might be commissioned away.

61

00:17:11.910 --> 00:17:19.590

9063607347: It might be i'm not sure, and so you should be doing this regularly, and you know, following the rules and making sure in and I notice this person that just called just talk.

62

00:17:20.040 --> 00:17:28.020

9063607347: So, thank you very much, thank you for doing exactly what everybody telling you to do, then, is gerrymandering you are doing this in real time.

63

00:17:28.440 --> 00:17:41.100

9063607347: To where people on the phone they go tell you hey do this, then then it's so you do it and, Commissioner, the witches and Commissioner author and they seem very well versed in this folder thing, and this bullying.

64

00:17:41.580 --> 00:17:54.180

9063607347: very, very well first, and you know this is the gerrymandering you go in you don't even know who those people are you've already had Commissioners a Teller already said specifically on the record, we are not going to verify who these people are.

65

00:17:54.540 --> 00:18:03.240

9063607347: it's just somebody on the phone they're going to give you, and you know it's going to be, of course, the you know the the same all the same old crew that you know the League of women voters and the.

66

00:18:04.380 --> 00:18:08.430

9063607347: Voters are politicians that all stated, as this is their strategy.

67

00:18:08.820 --> 00:18:16.020

9063607347: Is they're going to come in here they're going to send 50 people and you're just going to say yeah those people said that and just do it, this is gerrymandering is what you're doing and.

68

00:18:16.590 --> 00:18:23.280

9063607347: it's pretty sickening and it's pathetic and you've people are pathetic and I think that what you're doing here is increasing the risk of suicide.

69

00:18:23.760 --> 00:18:28.650

9063607347: suicidal behavior in Michigan because you're not on the rules, this is legitimizing cheating.

70

00:18:29.280 --> 00:18:34.680

9063607347: And invoicing and it's interesting how many people telling you this way they that they've asked you to do it.

71

00:18:35.250 --> 00:18:44.280

9063607347: And you know now I guess the controversy is about the Senate, the Senate and the House disco agencies in their determinations before the vote before the proposal to.

72

00:18:44.730 --> 00:18:56.400

9063607347: And that is this a reiteration of a revised Commission that we already had in the constitution as the in the House version says that it was Michigan Supreme Court determine that in the voters not politicians crossing plate.

73

00:19:21.570 --> 00:19:36.000

MICRC1: That concludes our the public comment you can also submit your thoughts to the Commission and public by emailing redistricting at Michigan michigan.gov or providing comments or maps on the public comment portal.

74

00:19:37.890 --> 00:19:42.900

MICRC1: And the ICRC website@michigan.gov slash in my CRC.

75

00:20:08.070 --> 00:20:11.310

MICRC1: I believe general counsel you have a comment.

76

00:20:14.130 --> 00:20:29.280

MICRC1: Thank you so much, Mr chair and good morning to the committee in the viewing public yes, I would, for the purposes of transparency, I would like to disclose that I received a telephone call from James Lancaster on August 24.

77

00:20:31.770 --> 00:20:32.700

MICRC1: inquiring.

78

00:20:34.740 --> 00:20:46.290

MICRC1: Either whether to apply or or things of that nature and I expressed to Mr Lancaster what I would have expressed to any individual or former representative that would have asked me the same question which is.

79

00:20:46.830 --> 00:20:53.820

MICRC1: submit your response of materials to the rfp and the committee and the full Commission, I will be doing the deliberation.

80

00:20:54.240 --> 00:21:03.360

MICRC1: I also in regard to the other, better think the think our law firm out of bloomfield hills and extensive portion of their experience.

81

00:21:03.660 --> 00:21:13.380

MICRC1: is representing the city of Detroit is outside counsel so also wanted to let the committee know that I have had no pass dealings or interactions with that firm.

82

00:21:13.800 --> 00:21:24.210

MICRC1: I was not in the litigation section of the law department and I was only up in the law department, for I believe six years the rest, I was at a different agency within the city.

83

00:21:24.480 --> 00:21:30.870

MICRC1: So I wanted to again say that I did receive that point of contact and August 24 in that I do not have any.

84

00:21:31.470 --> 00:21:45.390

MICRC1: Past experience working with the firm i'm happy to answer any questions on that in that regard or either other submissions and in prepared to provide summaries or whatever the Commission, excuse me, the committee would need Thank you.

85

00:21:47.970 --> 00:21:50.880

MICRC1: Does anybody have any questions for general counsel.

86

00:21:52.470 --> 00:21:56.460

MICRC1: Hearing none, I would also disclose at this time that.

87

00:21:57.840 --> 00:21:59.160

MICRC1: attorney Lancaster.

88

00:22:00.630 --> 00:22:18.930

MICRC1: is someone who I have known personally and professionally for a number of years, I have not had any contact with attorney Lancaster in a number of years, and the only real interaction we've had is with this Commission, and the.

89

00:22:21.000 --> 00:22:28.080

MICRC1: Applications he's made for general counsel and for the local council.

90

00:22:29.370 --> 00:22:38.280

MICRC1: Doing that I would like to move through the response that we received from think breast sac.

91

00:22:40.650 --> 00:22:46.320

MICRC1: The local council, we had three i'll call it.

92

00:22:48.480 --> 00:23:00.000

MICRC1: indications of interest, one from think brass brass Act, the other from hannigan and the other from James Lancaster.

93

00:23:01.140 --> 00:23:03.960

MICRC1: Has anyone did not fill out.

94

00:23:05.010 --> 00:23:22.290

MICRC1: A request for proposal form and lesser not scored they did respond with a letter saying, in essence, they were interested and if we wanted to pursue further with them, we they wouldn't they are inviting us to do so.

95

00:23:23.640 --> 00:23:30.030

MICRC1: Since they didn't fill out the rfp and they weren't scored they will not be considered.

96

00:23:31.500 --> 00:23:35.340

MICRC1: Mr Lancaster did respond.

97

00:23:37.380 --> 00:23:42.990

MICRC1: I will say appropriately because he had filled out an rfp on the general counsel when he referenced that.

98

00:23:44.400 --> 00:23:45.450

MICRC1: By reference.

99

00:23:46.590 --> 00:23:48.630

MICRC1: I think that's probably appropriate.

100

00:23:50.250 --> 00:23:54.660

MICRC1: His score did not top at therefore.

101

00:23:55.770 --> 00:23:56.850

MICRC1: He is not.

102

00:23:58.140 --> 00:24:08.850

MICRC1: Personal to the bidding structure qualified as far as the rfp and the scoring goals, has no aspersions on his capabilities as an attorney, however.

103

00:24:10.800 --> 00:24:20.790

MICRC1: Think brezec did fill out a rfp and was scored by the vendor evaluation score sheet.

104

00:24:23.220 --> 00:24:27.270

MICRC1: And came up with a score of 93 out of 100.

105

00:24:28.950 --> 00:24:33.120

MICRC1: There were no areas in which they.

106

00:24:34.350 --> 00:24:39.360

MICRC1: were lacking i'll put it that way there's four is we're all excellent.

107

00:24:40.680 --> 00:24:46.620

MICRC1: Obviously there's seven and lower than a perfect score.

108

00:24:48.510 --> 00:24:50.430

MICRC1: don't know if anybody could get a perfect score.

109

00:24:52.200 --> 00:25:07.830

MICRC1: They did address the issues in their rfp which was 30 pages long, or thereabouts appropriately they indicate that they've had a number of.

110

00:25:11.940 --> 00:25:14.940

MICRC1: representations in the word I would.

111

00:25:16.020 --> 00:25:21.780

MICRC1: Typically, classify as a municipal employment area they represented it represented.

112

00:25:29.340 --> 00:25:36.150

MICRC1: Another municipalities, whose names are escaping me at the present time they've had a number of.

113

00:25:38.190 --> 00:25:39.060

MICRC1: election.

114

00:25:40.170 --> 00:25:55.800

MICRC1: Issues that they've represented municipalities on I thought there was a in my review, I thought they had a very broad range of representations they listed a number of cases in which.

115

00:25:56.730 --> 00:26:12.090

MICRC1: Their representation has been successful, one of the things that this committee has repeatedly looked at is the donations that are made by law firms, and I would note that.

116

00:26:14.130 --> 00:26:24.150

MICRC1: Think bresnik has basically if not wholly donated to democratic nominees over the years.

117

00:26:25.770 --> 00:26:35.040

MICRC1: me having said all that, if there's any questions, I certainly see I did not see anything in my review of what they have done in the past.

118

00:26:35.910 --> 00:26:50.070

MICRC1: That would indicate that they would not be highly qualified to represent this Commission as local council in whatever may be filed against us in the future.

119

00:26:51.900 --> 00:26:58.800

MICRC1: With that I would turn it over for discussion or comments from either of my.

120

00:27:00.450 --> 00:27:01.410

MICRC1: compatriots.

121

00:27:02.640 --> 00:27:04.650

MICRC1: I see one waving his hand.

122

00:27:05.760 --> 00:27:07.980

MICRC1: Commissioner clerk yes.

123

00:27:11.910 --> 00:27:25.860

MICRC1: For the for the benefit of the public eye in some some of the public that's on today may not have heard the other conversations we've had about this, I think it'd be beneficial.

124

00:27:26.760 --> 00:27:36.450

MICRC1: Before I comment on these that are channel console comment on why we're hiring them and what the scope of their role is going to be as we bring them on.

125

00:27:39.600 --> 00:27:48.570

MICRC1: i'll address that a little bit myself and then i'll ask general counsel to do so, certainly one of the areas that.

126

00:27:50.610 --> 00:27:57.120

MICRC1: They will be involved in regarding any litigation, that we would have.

127

00:27:59.340 --> 00:28:05.250

MICRC1: Our outside counsel look at would be as local council, since the litigation counsel is not.

128

00:28:06.960 --> 00:28:16.140

MICRC1: Members of the Michigan state buyer so that's one thing that they would be doing the other would be as we've discussed previously is having.

129

00:28:16.830 --> 00:28:30.150

MICRC1: The local council who's familiar with the courts here, as well as Michigan issues more appropriately handle issues that are purely local.

130

00:28:30.900 --> 00:28:40.620

MICRC1: As one was filed by Mr Davis, which was dismissed by the Supreme Court that would be something that would more than likely be handled by local council.

131

00:28:41.250 --> 00:28:55.830

MICRC1: Additionally, our general counsel is one person we get involved in a lawsuit that requires extensive either discovery briefing response pleadings etc.

132

00:28:56.970 --> 00:29:07.440

MICRC1: Our general counsel that's really not what we hired her to do you hired her to give us advice, and that would be what local council would do on a local basis.

133

00:29:08.970 --> 00:29:09.240

MICRC1: General.

134

00:29:11.910 --> 00:29:21.780

MICRC1: Thank you, Mr chair, no I I really have nothing further to add, I think that was a very comprehensive statement of what their expectations would be again we don't have any.

135

00:29:23.580 --> 00:29:35.910

MICRC1: understanding of what what will be filed the value or what actions the nyc FC may take on on their own record so again, it would be either independently or in conjunction with litigation counsel.

136

00:29:41.220 --> 00:29:42.450

MICRC1: Thank you very much i'm.

137

00:29:43.560 --> 00:29:45.180

MICRC1: On a call comment on the.

138

00:29:46.710 --> 00:29:54.420

MICRC1: Three three companies that have responded to the rfp I agree with what Steve has said.

139

00:29:55.500 --> 00:30:02.070

MICRC1: relative to on again and change Lancaster and it appears, so we have one.

140

00:30:03.720 --> 00:30:12.720

MICRC1: One law firm to make a decision on whether or not we're going to bring them forward to the full Commission for approval.

141

00:30:14.340 --> 00:30:18.510

MICRC1: Given their experience and given their high scores on the rfp.

142

00:30:19.980 --> 00:30:29.490

MICRC1: I i'm in favor of moving forward to the to the Commission for a full boat and they think they're well qualified and.

143

00:30:30.750 --> 00:30:42.510

MICRC1: I think I would encourage the other Commissioners on this committee to to give their opinions and and hopefully have the same same opinion as I do.

144

00:30:43.200 --> 00:30:56.040

MICRC1: Thank you Steve Thank you Mr Clark, Commissioner, which is, I would also agree with that statement given the scores given everything that was provided for us by the SEC.

145

00:30:57.450 --> 00:31:04.710

MICRC1: I would also look favorably to move them forward to the full Commission for a vote at this particular point.

146

00:31:06.990 --> 00:31:12.540

MICRC1: Thank you, Commissioner wishes any further comments that you would prefer to end the general counsel.

147

00:31:15.750 --> 00:31:21.870

MICRC1: Thank you very much, Mr Chairman, at this time, it would be, I believe the recommendation from the evaluation.

148

00:31:24.420 --> 00:31:27.390

MICRC1: is consistent with the committee's direction.

149

00:31:30.120 --> 00:31:34.830

MICRC1: you realize that as an attorney you're supposed to talk for about five minutes.

150

00:31:41.490 --> 00:31:43.350

MICRC1: i'd like to put a motion forward that.

151

00:31:44.940 --> 00:31:45.480

MICRC1: We.

152

00:31:48.600 --> 00:31:54.660

MICRC1: bring this law firm forward to the Commission for for both for approval for for higher second.

153

00:31:55.980 --> 00:32:06.210

MICRC1: Emotions been made and seconded all in favor say Aye Aye Aye opposed they know okay it passes, that concludes our business for today.

154

00:32:10.440 --> 00:32:13.260

MICRC1: I would entertain a motion to adjourn this what.

155

00:32:16.200 --> 00:32:18.780

MICRC1: You wanted to say something executive director.

156

00:32:20.730 --> 00:32:32.010

MICRC1: I do our typical process for hiring outside consultants would be to bring them forward for an interview with the Commission so i'm just inquiring if this committee would like an interview.

157

00:32:33.060 --> 00:32:39.480

MICRC1: Like I think that would be a good idea, and that would be something we would present to the full Commission as to what their desires were.

158

00:32:41.490 --> 00:32:44.910

MICRC1: So, yes, we would address that in full Commission.

159

00:32:46.710 --> 00:32:50.670

MICRC1: Anything else justin witches move Twitter.

160

00:32:51.810 --> 00:32:52.470

MICRC1: I second.

161

00:32:53.760 --> 00:32:59.940

MICRC1: been moved energy so going into a journal of a region and say Aye Aye Aye any opposed.

162

00:33:01.290 --> 00:33:02.010

MICRC1: we're joined.

163

01:08:11.010 --> 01:08:11.550

MICRC1: We have nine.

164

01:08:14.310 --> 01:08:21.360

MICRC1: As Chair of the Commission to me as vice, Chair of the Commission I call this feeling of emotional independence is redistricting to order at 9am 2am.

165

01:08:22.590 --> 01:08:27.600

MICRC1: The zoom webinars being live streamed on YouTube and the Michigan independent citizens redistricting Commission YouTube channel.

166

01:08:27.900 --> 01:08:35.190

MICRC1: For any new public watching would prefer to watch be a different platform than they are currently using please visit our social media at redistricting them I.

167

01:08:35.970 --> 01:08:45.510

MICRC1: realize you today includes closed captioning closed captioning is interpretation in Spanish Arabic me direct translation services will be provided for effective, which is a patient in this moon.

168

01:08:45.930 --> 01:08:52.650

MICRC1: email us at redistricting@michigan.gov for additional viewing options are details on accessing language translation services for this meeting.

169

01:08:52.980 --> 01:08:58.020

MICRC1: People with disabilities in other specific a combination should also contact with district in Michigan of.

170

01:08:58.890 --> 01:09:06.000

MICRC1: This meeting is being recorded and will be available@www.sec.gov forward slash nyc RC for viewing and later date.

171

01:09:06.570 --> 01:09:14.940

MICRC1: This movie is also being transcribed and those closed caption transcripts will be made available and posted on the machine of mfcc website, along with written public comments admissions.

172

01:09:15.510 --> 01:09:26.250

MICRC1: There was also a public comment part of the may be accessed by visiting michigan.gov forward slash micr see this problem can be utilized to impose maps incomes which can be both Commission and the public.

173

01:09:28.260 --> 01:09:40.050

MICRC1: We have questions before, during or after the meeting to direct those questions to adwords the third communications not restricted for the Commission that would see three at Michigan back Dave or 517336309.

174

01:09:41.790 --> 01:09:46.620

MICRC1: For the purpose of the public watching public record to the department staff to take the Commissioners present.

175

01:09:48.450 --> 01:09:58.380

MICRC1: Good morning, Commissioners, please say President, when I call your name if you are attending today's meeting remotely he's just close your physical location as well i'll start with Clark pleasure.

176

01:09:59.670 --> 01:10:02.370

MICRC1: For me to carry emptied.

177

01:10:03.420 --> 01:10:04.530

MICRC1: Brittany Callum.

178

01:10:05.550 --> 01:10:06.300

MICRC1: rhonda lane.

179

01:10:07.530 --> 01:10:09.660

Rhonda Lange: attending remotely from read city Michigan.

180

01:10:12.840 --> 01:10:15.120

MICRC1: Simply uploading present.

181

01:10:16.950 --> 01:10:17.400

MICRC1: present.

182

01:10:18.570 --> 01:10:19.110

MICRC1: present.

183

01:10:22.860 --> 01:10:24.900

MICRC1: Present and Wagner.

184

01:10:25.980 --> 01:10:28.650

Erin Wagner: was attending remotely from show up Michigan.

185

01:10:30.210 --> 01:10:33.150

MICRC1: Vice President dustin witches.

186

01:10:34.380 --> 01:10:42.690

MICRC1: Man conditioners, are present and there is a crime, thank you, Miss reinhart as a reminder to the public, watching actually see the actual agenda first.

187

01:10:49.980 --> 01:10:50.250

MICRC1: Steve.

188

01:10:51.630 --> 01:10:52.080

MICRC1: Thank you.

189

01:10:54.060 --> 01:11:06.390

MICRC1: i'd like to add some new business as you're aware the Subcommittee on the local legal counsel met this morning and has a recommendation I would suggest we put that under new business.

190

01:11:07.080 --> 01:11:25.650

MICRC1: As six be excellent, do you have a rough time estimate to do we want to to ascend with tell me, I suppose, facilitate that and move, do you think that that's like a 20 minute is that a half hours at a about five minutes five minutes okay Thank you so under six being new business.

191

01:11:27.690 --> 01:11:28.680

MICRC1: subcommittee.

192

01:11:30.960 --> 01:11:31.590

MICRC1: Report.

193

01:11:37.590 --> 01:11:39.390

MICRC1: additions to the agenda or changes.

194

01:11:43.980 --> 01:11:54.090

MICRC1: Second emotion divided among the agenda Oh, thank you, thank you, we need a second I appreciate that, thank you, Christine, which is so The first was made by Commissioner led to the agenda.

195

01:11:55.170 --> 01:12:00.000

MICRC1: And the agenda second by Commission which is on favorite or any discussion on the matter first.

196

01:12:01.140 --> 01:12:04.320

MICRC1: All in favor of the motion, please say I raise your hand say Aye Aye.

197

01:12:06.180 --> 01:12:18.180

MICRC1: opposed, please raise your hand same sign the eyes have it, and the amended the agenda is amended, I will now seek approval for adopting the agenda, please so.

198

01:12:19.650 --> 01:12:24.120

MICRC1: First Commission which is second by Commissioner lead and discussion on the matter.

199

01:12:25.230 --> 01:12:29.280

MICRC1: On favor of the motion, please raise your hand and say Aye Aye.

200

01:12:30.420 --> 01:12:37.050

MICRC1: opposed, please raise your hand and same sign you guys have it, and the motion of the agenda is adopted.

201

01:12:39.330 --> 01:12:45.660

MICRC1: As a reminder to the public, watching you can now view the agenda and wishing that go forward slash m ICRC.

202

01:12:50.190 --> 01:12:54.360

MICRC1: I skipped some places in my agenda so i'm reading this for the first time you'll forgive me.

203

01:13:04.500 --> 01:13:07.440

MICRC1: We are now moving to imprison public comment on our agenda.

204

01:13:09.450 --> 01:13:16.410

MICRC1: pertaining to agenda topics individuals who have signed up an indicator like to provide in person public commentary, to the Commission will not be allowed to do so.

205

01:13:17.940 --> 01:13:26.730

MICRC1: Number one please step to the microphone and you will have to lose to adjust the Commission please concluding remarks, when you hear the timer first in line.

206

01:13:27.630 --> 01:13:34.050

MICRC1: Please proceed Good morning, my name is Mike work to the President of uaw local 602 here in lansing Michigan.

207

01:13:34.830 --> 01:13:45.270

MICRC1: My facility that that I represent is in Eaton county lansing delta township I represent 2300 Members who are currently laid off, however.

208

01:13:45.690 --> 01:13:52.440

MICRC1: That is a plant that we've been at since 2006 we have 5000 retirees our sister plant local.

209

01:13:53.310 --> 01:14:12.960

MICRC1: Is the lansing grand river plant which is in lansing Michigan they have approximately 2300 Members also they have 10,000 retirees so in this area alone with with between those two assembly plants we have about 5000 retire or 5000 active folks and somewhere around 15,000 retirees.

210

01:14:14.280 --> 01:14:25.140

MICRC1: First off, I want to thank you, this is couldn't have been fun it's probably been trying on your patience and travel and away from home, we appreciate what you've done.

211

01:14:25.650 --> 01:14:33.870

MICRC1: nothing's going to be perfect, but i'm here to do something that's probably pretty rare i'm here, to thank you and say job well done on what will.

212

01:14:34.380 --> 01:14:39.780

MICRC1: is, I think the eighth Congressional districts still but will be the fifth if I, if I have the number right.

213

01:14:40.740 --> 01:14:52.050

MICRC1: Clinton dealt or Eaton county and the county together is is something that that needs to happen in Eaton county when my plant gets the power framingham county.

214

01:14:52.680 --> 01:15:09.480

MICRC1: My Union hall is an idiom county again the plants in Eaton county the supplier plants to the plant and am county the grand river plants are over in Eaton county, this is a this area and the airport is in Clinton county so when we when we bring into logistics to have these two massive.

215

01:15:11.160 --> 01:15:12.030

MICRC1: work sites.

216

01:15:13.320 --> 01:15:21.090

MICRC1: it's it's troubling to have the have the issue of going back and forth between what was or is now currently the seventh Congressional district.

217

01:15:21.360 --> 01:15:28.950

MICRC1: And the eighth Congressional district when we try to sort out problems dealing with our legislators, so this will now be under one umbrella knock on wood.

218

01:15:29.220 --> 01:15:36.840

MICRC1: I hope you keep it and I just again, thank you for what you've done and what you continue to do, thank you for the Thank you and for adjusting the committee.

219

01:15:38.040 --> 01:15:39.120

MICRC1: next in line is number two.

220

01:15:43.800 --> 01:15:57.780

MICRC1: Good morning Steve japin go with the lansing regional Chamber of Commerce it's great to see a lot of the Commissioners here again, thank you it's good to see the six or 10 here live a very strong relationship with the uaw General Motors all of our trades.

221

01:15:59.460 --> 01:16:09.300

MICRC1: But I wanted to say thank you to for all your work, and I think last year in August I know you guys have had a lot of meetings, but I just appreciated the Commission coming on to our.

222

01:16:10.410 --> 01:16:20.010

MICRC1: Virtual business roundtables our zoom round tables and I think it was fitting, because if you're looking at range and I know you guys got a tough job going on here.

223

01:16:20.490 --> 01:16:25.260

MICRC1: But our region lansing the three counties clean evening and county and then.

224

01:16:25.890 --> 01:16:37.740

MICRC1: You know i'm going to show us he crashed, and I mean you guys are looking at this right now, but no one one region, we have three obviously Congressional members that service you look at some of the State senate seat drops.

225

01:16:38.580 --> 01:16:55.410

MICRC1: But I think on the federal level to where again all those folks are doing a great job, but I think we deserve to have one voice in one region here and just on behalf the lansing Chamber I wanted to come in there and say thank you to everybody for coming in, but also.

226

01:16:57.360 --> 01:17:10.470

MICRC1: You know the decisions you make are big and we do hope that you make the right decision, but again, thank you for for your time for listening it's good to see Steve number one here.

227

01:17:12.150 --> 01:17:16.650

MICRC1: But uh would be happy to run anything you guys need just just let us know, but thank you.

228

01:17:18.600 --> 01:17:22.530

MICRC1: Thank you Steve number two and for addressing the Commission good to see you Steve number two here.

229

01:17:24.660 --> 01:17:29.490

MICRC1: you're welcome to join number three yes please Hello hey Steve number one.

230

01:17:33.360 --> 01:17:43.530

MICRC1: My name is to allow bandra I live down in mason and Steve has helped me out for many years since I was 16 years old and first got my driver's license.

231

01:17:47.910 --> 01:17:48.510

MICRC1: So.

232

01:17:50.310 --> 01:18:05.610

MICRC1: let's see here Oh, I want to address more of the State senate district, and I do appreciate the the coverage that we have in a little section of mason I wish that there was more.

233

01:18:06.480 --> 01:18:18.390

MICRC1: that's currently held by Senator Tom Barrett, I feel that, especially the reason I moved out to mason was start organic farm and ranch out there and.

234

01:18:19.260 --> 01:18:27.150

MICRC1: You know it didn't work well with the officials from on the Northern side of him county who didn't understand.

235

01:18:27.990 --> 01:18:35.670

MICRC1: Why my sheep or skinny and that bloated out like a commercial lamb would be they.

236

01:18:36.300 --> 01:18:44.940

MICRC1: Believe it or not commercial lamb commercially raised lamb is supposed to be as wide as it is long because they force feed it a lot of.

237

01:18:45.360 --> 01:18:57.030

MICRC1: grain and everything you ever heard the expression bloated, goat and that's because it's bloated with gas you're supposed to cut its belly open and release the gas, believe it or not.

238

01:18:57.720 --> 01:19:21.240

MICRC1: Well, and an organic ranching you don't feed it a lot of grain and corn, and you feed a lot of grass and hay and they're not as fat and bloated so there's this disconnect with the out part of the district versus the two cities East lansing in lansing where I grew up by the way, so.

239

01:19:22.500 --> 01:19:33.660

MICRC1: And also, I believe that the students cities, you see them as far as the Senate seat would look like they share police, fire chief right they share the transit system.

240

01:19:34.200 --> 01:19:45.360

MICRC1: Shared a lot of commonalities and a lot of similar jobs which are vastly different than our country so that's my piece, thank you very much for your time good to see you, Mr lot.

241

01:19:46.620 --> 01:19:48.030

MICRC1: Thank you for addressing the Commission till.

242

01:19:49.140 --> 01:19:51.900

MICRC1: next in line is number four.

243

01:20:03.450 --> 01:20:04.830
MICRC1: Number four we're almost.

244
01:20:07.140 --> 01:20:07.500
MICRC1: All right.

245
01:20:11.550 --> 01:20:13.470
MICRC1: Thank you, please, address the Commission number four.

246
01:20:14.550 --> 01:20:23.070
MICRC1: Can you hear me, we can okay very good, my name is Christine Walker and I live in grand ledge Nathan county.

247
01:20:23.760 --> 01:20:31.740
MICRC1: i'd like to thank the Commissioners and their staff for all the efforts to draw fair Congressional and legislative maps.

248
01:20:32.640 --> 01:20:43.500
MICRC1: Our state will be better served if communities and their concerns are placed ahead of partner and partisanship and political considerations.

249
01:20:44.010 --> 01:20:51.270
MICRC1: i'm here to commend the Commission for placing a high priority on keeping communities of interest together.

250
01:20:51.660 --> 01:21:02.460
MICRC1: Specifically, I wish to commend the Commission for keeping our tri county region Clinton eating an angle them together within the same Congressional district.

251
01:21:02.790 --> 01:21:24.630
MICRC1: This makes excellent sense to me, since the tri counties are formally recognized region for the purposes of land use federal groundwater planning and addition to educational services mental health, health care, disability and aging, among others.

252
01:21:26.280 --> 01:21:42.210
MICRC1: Thank you for recognizing Clinton eaten in ingham counties, as a community of interest, as you draft michigan's Congressional map and I respectfully encourage you to continue that approach, as your process proceeds Thank you.

253
01:21:43.230 --> 01:21:46.590

MICRC1: Thank you for addressing the Commission do we have number five.

254

01:21:48.060 --> 01:21:48.570

MICRC1: We do.

255

01:21:49.890 --> 01:21:51.690

MICRC1: Please approach and address the Commission when you're ready.

256

01:21:57.630 --> 01:22:01.740

MICRC1: i'll change it up my name is not Steve it's dylan it's a pleasure to see all of you here today.

257

01:22:02.310 --> 01:22:12.030

MICRC1: So good morning first i'd like to think it's like to start off by thanking you for taking the time to put together this Community forum, so that people like myself can come here and express my opinion to you.

258

01:22:12.780 --> 01:22:22.680

MICRC1: But by way of introduction, my name is dylan Western i'm a 2019 graduate of Michigan State University and i've spent the majority of my 25 years living in lansing East lansing and grand ledge.

259

01:22:23.400 --> 01:22:34.560

MICRC1: As for that reason that i'm here today as I see it, the current proposed maps for senate districts 30 and 32 may do a disservice to the residents of East lansing and lansing and some of the surrounding communities.

260

01:22:35.010 --> 01:22:39.300

MICRC1: For example, these districts, for the first time in Michigan history are splitting East lansing and lansing.

261

01:22:39.990 --> 01:22:45.270

MICRC1: Now, I confess to you that I am not deeply familiar with the metrics that you will be using to define communities of interest.

262

01:22:45.570 --> 01:22:53.610

MICRC1: However, with the amount of shared services between these two municipalities, I think it's difficult to adequately represent the interests of one without the input of the other.

263

01:22:54.060 --> 01:22:57.690

MICRC1: For example, East lansing and lansing share in the cat a transit system.

264

01:22:58.140 --> 01:23:06.060

MICRC1: They share a library system and network of hospital care facilities and they share the same fire chief with mutual aid agreements, a convention bureau and visitors bureau.

265

01:23:06.780 --> 01:23:17.220

MICRC1: And they have a tax sharing agreement, and these are all structures that have been set in place for generations and their continued success rest upon strong representation, excuse me representation in our state legislature.

266

01:23:18.690 --> 01:23:25.920

MICRC1: So, by contrast, I speak from the personal experience in Eaton county when I say that the interest of a majority of residents outside of delta township.

267

01:23:26.460 --> 01:23:28.770

MICRC1: are largely different from the interest of being of county.

268

01:23:29.370 --> 01:23:41.550

MICRC1: or Eaton county to be represented, alongside the sentences of ingham county I believe that the representative elected to the seat would be in a difficult position needing to either bridge this social, economic and political divide between its citizens or.

269

01:23:42.930 --> 01:23:54.150

MICRC1: increase the partisanship that we currently face economically, politically and geographically, I believe that the citizens of Eaton county hold a bit more in common with the citizens of Clinton Barry and I only counties on with them.

270

01:23:54.660 --> 01:24:01.380

MICRC1: Now there are of course notable exceptions to this, such as delta township which brings in substantial economic benefit to the residents of lansing and East lansing.

271

01:24:02.490 --> 01:24:13.650

MICRC1: But that's for you guys, to get out, so thank you very much pleasure talking to you, thank you for addressing the Commission dylan number seven I believe Is that correct or six number six, please.

272

01:24:19.980 --> 01:24:20.940

MICRC1: Good morning, Commission.

273

01:24:24.630 --> 01:24:26.340

MICRC1: My name is Howard.

274

01:24:30.660 --> 01:24:32.670

MICRC1: it's a pleasure to address you again this morning.

275

01:24:33.780 --> 01:24:43.050

MICRC1: we've been talking for weeks that if you aren't intentional with mapping partisan fairness as a goal, you will end up with an unconstitutional partisan gerrymander.

276

01:24:44.160 --> 01:24:54.450

MICRC1: As has been widely reported your first draft state senate map is indeed an accidental but a very real partisan gerrymander in favor of the Republican Party.

277

01:24:55.590 --> 01:25:02.430

MICRC1: But you can get to purchase and fairness in the map the state senate map if you make it a priority, and if you're willing to make changes.

278

01:25:03.540 --> 01:25:12.150

MICRC1: You may have to start the metro Detroit area over from scratch, that would probably also make it easier to reach your vr a compliance as well.

279

01:25:12.900 --> 01:25:19.500

MICRC1: But there are areas outstayed outside of the metro Detroit area where it's somewhat easier to tweak your way to fairness.

280

01:25:19.980 --> 01:25:27.780

MICRC1: For example, splitting ypsilanti up from Ann arbor would allow FC its own voice in the state Senate and with help with partisan fairness.

281

01:25:28.440 --> 01:25:38.610

MICRC1: splitting the city of Ann arbor and setting its western most neighborhoods into the Jackson Western Washington a district, would be a minor change with a major difference.

282

01:25:39.870 --> 01:25:42.780

MICRC1: would also make the border county district much cleaner.

283

01:25:44.640 --> 01:25:59.310

MICRC1: You willing to draw skinnier lakeshore districts, including one from Holland to ski again that would better serve the lakeshore communities and as a private citizen, I can tell you that's the case and that's where I live, and with help with partisan fairness to.

284

01:26:00.870 --> 01:26:11.820

MICRC1: Tightening up the northern grand rapids senate district would let you keep more of Ottawa county together and we keep the Kent county suburbs of grand rapids together which you heard quite a bit about from the commenters.

285

01:26:12.750 --> 01:26:27.360

MICRC1: Those changes in the outstayed would make a big difference in the partisan fairness of the State senate map, while also improving on your communities of interest representation, thank you very much, thank you for addressing the Commission Sarah.

286

01:26:28.770 --> 01:26:33.630

MICRC1: Seven number seven for public comment in person, we do not getting.

287

01:26:36.330 --> 01:26:43.170

MICRC1: Those who have signed up in an indicator, they would like to provide live remote public commentary, to the Commission and i'm glad to do so.

288

01:26:43.590 --> 01:26:50.940

MICRC1: I will call your name and your and our staff will unmute you if you're on a computer, you will be prompted by the zoom APP to unmute your microphone and speak.

289

01:26:51.360 --> 01:26:56.100

MICRC1: with you on the phone voice will say that the host would like you to speak and prompt you to press star six to unmute.

290

01:26:56.610 --> 01:27:04.500

MICRC1: I will call you by your name or last four digits of your phone number also please note that if you expose tactical audio issues or we do not hear from you, for three to five seconds.

291

01:27:05.280 --> 01:27:09.180

MICRC1: We will move on to the next person in line and then returned to you after they're done speaking.

292

01:27:09.570 --> 01:27:18.900

MICRC1: If your audio still does not work, you can email redistricting admission inactive and we will help you troubleshoot so you can participate during the next public comment period at delivering or meeting.

293

01:27:19.710 --> 01:27:26.940

MICRC1: You have to adjust the Commission these concluding remarks one minute timer for tonight to provide public comment is.

294

01:27:29.160 --> 01:27:29.670

MICRC1: Mr Jones.

295

01:27:35.370 --> 01:27:36.330

9063607347: Can you hear me manager.

296

01:27:37.980 --> 01:27:38.430

9063607347: session.

297

01:27:40.620 --> 01:27:50.190

9063607347: I mean there's another chair okay James gallon marquette county Suicide Prevention coalition, these are my opinions, and I see that Commissioner Roth, on.

298

01:27:50.670 --> 01:27:58.650

9063607347: is very willing and able to carry on the torch of inconsistencies and consensus building and complete lack of semblance of order.

299

01:27:59.310 --> 01:28:02.220

9063607347: As you can see, he doesn't know how to vote, he doesn't know how to carry on a vote either.

300

01:28:02.670 --> 01:28:12.960

9063607347: He does because he's never really done that, as good as it had to do that, over time, if you did it the same every time it would go a lot faster, and I think there's a big waste of time arguing about not voting and.

301

01:28:13.500 --> 01:28:27.300

9063607347: Now about your your subcommittee I was at the subcommittee meeting this morning, what a complete abortion of justice they had absolutely nothing to say about any of it, they took them about 14 minutes and.

302

01:28:28.470 --> 01:28:32.910

9063607347: They said the restoring their scoring sheets working what secret meeting did that happen.

303

01:28:33.300 --> 01:28:39.540

9063607347: Sometime before that scene, then all of a sudden they're just this is done, this is pretty much commissioned let's buddy who's going to get that job.

304

01:28:40.050 --> 01:28:51.120

9063607347: And that's how it's going to work and and you know this is, I found a piece of information now you know the House fiscal report states that this is a revived reiteration.

305

01:28:51.480 --> 01:28:57.090

9063607347: Of the Commission on apportionment from the 1980s and but the Senate report.

306

01:28:57.660 --> 01:29:05.220

9063607347: From the fiscal Agency says that that Commission was abolished, so we have two separate reports that are constantly conflicting here.

307

01:29:05.430 --> 01:29:12.660

9063607347: And of course us folks they want to just make it up on the fly want to go in one, and of course us, you know you know it's my culture as a white man.

308

01:29:13.170 --> 01:29:26.400

9063607347: Is follow the rules it's a republican part of it is we live Republicans don't like follow the rules and like cheating they like Bowling but fundamentally it's there are some rules, we need to be following them, and I would ask you to start doing that and.

309

01:29:27.510 --> 01:29:36.330

9063607347: it's interesting a Commissioner, the Commissioners and also, it will take five minutes for that for that announcement you know and they didn't follow the rules to add three different applications.

310

01:29:36.720 --> 01:29:50.100

9063607347: And then they just both want to make motions had all the discussion first like you always do, and then negotiate the motion and then oh like you just present this one forward that was supposed to happen, you already have a rules on that and I was wondering if Commission rother and has.

311

01:29:51.450 --> 01:29:53.160

MICRC1: Keep progressing, the Commission, Mr count.

312

01:29:55.800 --> 01:29:56.100

MICRC1: Next.

313

01:29:57.960 --> 01:30:01.020

MICRC1: To provide public comment is Member chin.

314

01:30:10.590 --> 01:30:18.510

Margaret Schankler: Can you hear me, yes, we can okay um so my name is Margaret shanklin I live in an urban washtenaw county.

315

01:30:18.870 --> 01:30:26.820

Margaret Schankler: And i'm speaking today primarily to address the state senate district maps proposed for my area I currently live in the.

316

01:30:27.120 --> 01:30:34.920

Margaret Schankler: What is now D 18 and I love my Center to pieces, I feel he does an amazing job of representing the many different voices in our Community.

317

01:30:35.280 --> 01:30:52.380

Margaret Schankler: However, I wholeheartedly agree with the comments that Sarah Howard just made a few minutes ago, the proposed map leaves my district relatively intact, so you think i'd be happy, but because the goal of this process is to create non gerrymandered maps.

318

01:30:54.300 --> 01:31:06.240

Margaret Schankler: da keen and the proposed 27 are prime examples of what is known as packing all the democrats and washing all county are packed into one district, giving us a solid seat, but little competitiveness outside the district.

319

01:31:06.750 --> 01:31:18.990

Margaret Schankler: To unpack the district, we must split Ann arbor and ypsilanti apart and and with the West and East side of Ann arbor and MC I concur with.

320

01:31:20.430 --> 01:31:30.150

Margaret Schankler: Sarah suggestions for how to make those competitive districts, I understand that you have not yet applied the partisan fairness filter to these maps.

321

01:31:30.810 --> 01:31:41.520

Margaret Schankler: So i'm here today to encourage you to make partisan fairness, a key factor in these maps, so that we have more conditions competitive districts where every vote counts, I think that was the the.

322

01:31:42.450 --> 01:31:53.010

Margaret Schankler: Primary intent of passing proposition to and regarding the Congressional maps, I have the same feeling that the partisan of fairness.

323

01:31:54.390 --> 01:32:06.720

Margaret Schankler: filter has not been applied at all and that, when it does, it should we should see way more bounce districts than we do now and that I understand the value of communities of interest.

324

01:32:07.230 --> 01:32:15.600

Margaret Schankler: But um they should not be kept together at the expense of partisan fairness these these are key concepts, thank you.

325

01:32:16.260 --> 01:32:17.520

MICRC1: Thank you for addressing the Commission.

326

01:32:19.140 --> 01:32:25.560

MICRC1: Next time to provide public comment is number four number three Judy hard.

327

01:32:34.890 --> 01:32:36.180

MICRC1: For our staff to unmute you.

328

01:32:37.770 --> 01:32:38.520

Judy Hart: Can you hear me.

329

01:32:39.210 --> 01:32:40.860

MICRC1: We can thank you please go ahead.

330

01:32:41.370 --> 01:32:47.010

Judy Hart: My name is Judy heart, I also I can start my Sir I also am furman arbor.

331

01:32:48.270 --> 01:32:55.620

Judy Hart: In Washington county and we voted as a state to stop gerrymandering of many regions in the state of Michigan.

332

01:32:56.280 --> 01:33:12.150

Judy Hart: And when you manipulate the election maps it undermines our democracy, and I would like to support geographically balanced districts that reflect the political orientation of the population of that region, and please make partisan fairness, a priority.

333

01:33:15.810 --> 01:33:16.440

MICRC1: In the Commission.

334

01:33:18.300 --> 01:33:19.530

MICRC1: next in line to speak.

335

01:33:21.450 --> 01:33:22.320

MICRC1: Is Mary.

336

01:33:24.690 --> 01:33:29.310

MICRC1: he's alone and for our staff to unmute you and you were invited to address the Commission when you're ready.

337

01:33:30.450 --> 01:33:31.380

MICRC1: For the record.

338

01:33:32.820 --> 01:33:37.170

MICRC1: participant number five and six are not present very good Thank you.

339

01:33:43.350 --> 01:33:45.870

MICRC1: Please provide for our staff to meet you.

340

01:34:03.390 --> 01:34:04.440

Karen Jan Feldmann: Good morning, can you hear me.

341

01:34:08.070 --> 01:34:08.460

Karen Jan Feldmann: Hello.

342

01:34:09.330 --> 01:34:10.500

MICRC1: Yes, we can hear you.

343

01:34:11.040 --> 01:34:25.710

Karen Jan Feldmann: Good morning, I apologize my video, my name is Karen jam feldman I am a longtime resident of oakland county and I want to

thank the Commission very much for the diligent work in an otherwise challenging timeframe.

344

01:34:26.820 --> 01:34:30.360

Karen Jan Feldmann: I would like to, however, asked for a number of.

345

01:34:31.710 --> 01:34:42.930

Karen Jan Feldmann: Concerns considerations, first in reviewing the list of the maps that have been proposed so far, I cannot find a label for a comprehensive state house map.

346

01:34:43.380 --> 01:34:49.680

Karen Jan Feldmann: i've been through all of them and they're based on the dates, but I do not see one that identifies it as a comprehensive map.

347

01:34:50.040 --> 01:34:59.370

Karen Jan Feldmann: For the Internet for all of the statehouse districts and would ask that that be the label be modified so that everyone can see what the comprehensive map would look like.

348

01:35:00.450 --> 01:35:09.450

Karen Jan Feldmann: Then I would also ask that, as you come up to identify partisan fairness in the mass that you take into consideration.

349

01:35:09.840 --> 01:35:27.660

Karen Jan Feldmann: That the disproportionate loss of population was in the far north of Michigan so that in the district must be lost, that it be represented by the far north of Michigan rather than southeast Michigan acid apparently is currently.

350

01:35:29.070 --> 01:35:40.950

Karen Jan Feldmann: My concern at this point in time is that there is an impetus to get this done by a deadline which presents the possibility of creating a bad map on time.

351

01:35:41.310 --> 01:36:00.210

Karen Jan Feldmann: Rather than a good map that would endure for 10 years and I asked the Commission to take into partisan fairness very, very seriously, so that the interest and the demographics of Michigan are truly represented, thank you very much.

352

01:36:01.980 --> 01:36:02.820

MICRC1: Addressing the condition.

353

01:36:05.010 --> 01:36:08.580

MICRC1: Is precise please learn first after you.

354

01:36:25.980 --> 01:36:26.700

Bob Trezise: Good morning.

355

01:36:27.570 --> 01:36:27.930

MICRC1: Good morning.

356

01:36:28.800 --> 01:36:39.570

Bob Trezise: hi my name is Bob trees i'm President and CEO of lansing economic area partnership leap which is a regional economic development entity, representing ingham eaten and Clinton counties.

357

01:36:40.080 --> 01:36:51.240

Bob Trezise: i've been asked by several people to comment today on my observations as to the history and philosophy that has driven economic development across are aligned and unified three county area.

358

01:36:51.690 --> 01:37:01.680

Bob Trezise: leap and myself are a political and have no viewpoint, with regard to your ultimate decisions I merely make these objective observations to maybe enhance the quality of dialogue, I hope.

359

01:37:02.010 --> 01:37:07.800

Bob Trezise: The information in your ultimate decision making and I respect and appreciate your time today.

360

01:37:08.280 --> 01:37:18.870

Bob Trezise: Since the early 1990s, both capital choice at the lansing Chamber regional chamber and for the last 15 years lead, made up of membership equally represented across all three counties.

361

01:37:19.260 --> 01:37:31.260

Bob Trezise: We market our region to the country end of the world, as the lansing region every corner of the three county area is the lansing region, which is a unified familiar marketplace, to the world.

362

01:37:32.250 --> 01:37:38.550

Bob Trezise: Both governor snyder and governor whitmer acknowledge our region is region number seven a collaborative Development Council.

363

01:37:39.330 --> 01:37:46.380

Bob Trezise: And we're just the three counties as one of 10 regions in the state and leap is that coordinating agency.

364

01:37:47.280 --> 01:37:53.760

Bob Trezise: We love our three county region because, unlike some of the other CDC regions, we are a true region.

365

01:37:53.970 --> 01:38:07.920

Bob Trezise: We know one another, we work together we have disputes, but it's all within the familiarity of friends and neighbors and our unified marketplace, we are one metropolitan statistical area MSA was shy Oh, I see actually.

366

01:38:08.460 --> 01:38:18.630

Bob Trezise: Recently, added to this MSA and that in great part is statistically and data, driven by the community of people from one area of living to another connection area of work.

367

01:38:18.870 --> 01:38:37.140

Bob Trezise: We all know that there is major short distance commute connecting between all of them county and as a Center of work and nearby neighborhoods and eaten and Clinton county and now even shy yc county is an anomaly lansing is the only capital city in America, that is not the county seat.

368

01:38:38.760 --> 01:38:40.590

MICRC1: You progress in the Commission is to choose what's.

369

01:38:42.180 --> 01:38:44.370

MICRC1: next in line to provide public comment.

370

01:38:52.740 --> 01:38:53.730

MICRC1: Yes, please proceed.

371

01:38:54.330 --> 01:39:03.930

Trenton Berry: fellow Commissioners, my name is trained Barry and i'm from England Michigan and based on the US Congressional districts that you guys do yesterday you drop Midland from the rest of the tri cities in flint.

372

01:39:04.320 --> 01:39:10.290

Trenton Berry: You guys were concerned about diluting the minority population because someone said the ending billund increase the white population.

373

01:39:10.710 --> 01:39:20.400

Trenton Berry: But Linda is, by and large, are very white city, but if you look at the 2020 census data it would show that what you guys created yesterday is diluting the minority vote even more.

374

01:39:20.760 --> 01:39:37.470

Trenton Berry: Based on the 2020 census then city has a white population of 89.9% in Bergen county as a whole has a white population of 93.8% would while to school at an area that companies have a white population of 96.2 and 96% respectively.

375

01:39:38.340 --> 01:39:44.580

Trenton Berry: Bay county has a big county has a population of 94.6% which is higher than Midland county.

376

01:39:45.090 --> 01:39:52.440

Trenton Berry: From the same data Muslim city has an African American population of 2.1% which is above to school is 1.3% in.

377

01:39:52.980 --> 01:40:00.930

Trenton Berry: Our next 0.5% Muslim city also has an Asian population of 4% which is above Tesco and Aaron X 0.3%.

378

01:40:01.380 --> 01:40:12.060

Trenton Berry: Which means that they guys created excluding Midland is diluting the minority vote even more it'd be very much appreciated if you guys, could we do with the array analysis within without Midland and see.

379

01:40:23.430 --> 01:40:23.910

MICRC1: Last year.

380

01:40:34.800 --> 01:40:35.490

MICRC1: So speaking.

381

01:40:51.960 --> 01:41:00.960

MICRC1: So good to see, please, Mr Barry It appears that you're experiencing technical difficulties, we can move on to the next participant and return to you at a later time.

382

01:41:01.470 --> 01:41:11.130

MICRC1: And if your technical difficulties continue to persist, please email us at redistricting at Michigan and allow each other, to thank you, thank you, Secretary of State.

383

01:41:12.330 --> 01:41:14.490

MICRC1: next in line is andrea's.

384

01:41:16.380 --> 01:41:18.600

MICRC1: Please below moment for our staff to unmute you.

385

01:41:19.740 --> 01:41:20.310

Art Reyes: Can you hear me.

386

01:41:21.060 --> 01:41:22.110

MICRC1: The morning, yes, we can.

387

01:41:24.630 --> 01:41:33.060

Art Reyes: Okay, good morning Commissioners and everyone, my name is Andreas i'm a lifelong michigander and rather than genesee county, thank you for your efforts.

388

01:41:33.780 --> 01:41:41.970

Art Reyes: Carrying out the may decide to you by the voters of Michigan I appreciate seeing the newer versions of the map yesterday.

389

01:41:42.360 --> 01:41:54.450

Art Reyes: I appreciate seeing both the second and third version of what is the current fifth but will be the 11th keeps the communities of swimming genesee county which Sagan on based on.

390

01:41:55.380 --> 01:42:01.440

Art Reyes: Whether midwood city is included or not these new proposals are far better than the first one.

391

01:42:01.860 --> 01:42:10.920

Art Reyes: And it does seem to pay proper respect to the communities of interest along that part of the I 75 corridor, while addressing parts in fairness, I would further ask, though, that.

392

01:42:11.700 --> 01:42:29.250

Art Reyes: When we're redoing these Congressional districts and it's unfortunate that our census data has us losing a Congressional seat, but I would ask that that Congressional district, that has to be lost correlate to where the population actually was lost that is northern Michigan and.

393

01:42:30.330 --> 01:42:38.520

Art Reyes: While it's a shame anytime that we lose population and therefore lose a voice in Congress, we should move that voice from where the people have left.

394

01:42:39.720 --> 01:42:39.960

Art Reyes: Thank.

395

01:42:42.060 --> 01:42:45.960

Art Reyes: You again for the work that you're doing, please stay safe for the work that you're doing.

396

01:42:48.750 --> 01:42:52.470

MICRC1: Thank you justin the Commission next to mine is the Krishna handy.

397

01:42:54.810 --> 01:42:55.320

MICRC1: When you do.

398

01:42:59.070 --> 01:42:59.850

La Cracha Handy: Good morning.

399

01:43:00.180 --> 01:43:00.810

MICRC1: I am looking for.

400

01:43:01.320 --> 01:43:03.810

La Cracha Handy: me, can you hear me i'm sorry.

401

01:43:04.560 --> 01:43:04.980

MICRC1: i'm sorry.

402

01:43:05.520 --> 01:43:12.090

La Cracha Handy: Thank you good morning, Commissioners, I am look Christianity resident i'll play township in genesee county.

403

01:43:12.900 --> 01:43:26.220

La Cracha Handy: The people have spoken, and you all listen, so I just want to say thank you from the bottom of my heart for listening to the Community in regards to keeping flint saginaw and Bay city together, thank you.

404

01:43:28.020 --> 01:43:29.010

MICRC1: Thank you, thank you.

405

01:43:32.280 --> 01:43:33.000

MICRC1: Thompson.

406

01:43:35.280 --> 01:43:35.760

On medium.

407

01:43:40.980 --> 01:43:41.400

Dorian Thompson: can hear me.

408

01:43:42.450 --> 01:43:43.980

MICRC1: Yes, we can all right.

409

01:43:44.040 --> 01:43:53.070

Dorian Thompson: Good morning, my name is Doreen Thompson when I moved on to a county started my career as a student grand valley State University, I was struck by the sense of community and pride of the residents of I don't county.

410

01:43:53.550 --> 01:44:01.080

Dorian Thompson: I learned about Dutch culture beautiful lake shore and hospitality of his residence I don't county became home and the residents became family to make.

411

01:44:01.680 --> 01:44:06.720

Dorian Thompson: Currently in the Boards planet aims to tear auto counting the three different irrational districts, which is a dangerous plan.

412

01:44:07.380 --> 01:44:16.380

Dorian Thompson: auto counties, one of the most unique county the United States, with access to a major lake it's a tourist attraction it's a cultural hub and it's a strong presence in the manufacturing industry.

413

01:44:16.860 --> 01:44:23.430

Dorian Thompson: Now more than ever, they deserve to have one memory United States House representatives who can voice their concerns and needs in a unified way.

414

01:44:24.060 --> 01:44:32.340

Dorian Thompson: During the 1840s United States of America became home to a new Community of people Dutch Americans and a large portion of them settled in Holland Michigan, which is an auto county.

415

01:44:32.880 --> 01:44:37.740

Dorian Thompson: Right now, I don't count is roughly is home to roughly 10% of Americans living United States.

416

01:44:38.310 --> 01:44:44.820

Dorian Thompson: Under the redistricting process that is not only a president to keep kid communities with a shared interest together, it is imperative, we do so.

417

01:44:45.570 --> 01:44:57.270

Dorian Thompson: When you break a Community you break their ability to come together as one you break their common goals on the federal level, and you break them at their core with the current climate needs of the county now more than ever.

418

01:44:58.950 --> 01:45:06.150

Dorian Thompson: Is not the time to destroy the special special Community with a shared interest on multiple fronts.

419

01:45:06.630 --> 01:45:15.030

Dorian Thompson: I cannot stress enough how egregious it is that Kent county with double the size of populations, our county is currently kept together as whole well Ottawa county split up into three.

420

01:45:15.510 --> 01:45:23.790

Dorian Thompson: With that in mind also stress that auto county has no shared interest in kalamazoo county and I urge the board to reconsider this plan, because it sets a dangerous precedent.

421

01:45:24.330 --> 01:45:37.350

Dorian Thompson: It is my hope the board remains committed to his promise of keeping communities together and now breaking them up with the current challenges facing our nation and community, we need each other, and we need to be united as one Thank you so much for your time and have a great day.

422

01:46:10.470 --> 01:46:11.790

Jon Meyer: hi there can you hear me.

423

01:46:13.980 --> 01:46:14.580

MICRC1: Relatively garbled.

424

01:46:17.190 --> 01:46:30.120

Jon Meyer: i'd like to start by thanking the Commission for giving me the opportunity to speak and absolutely in favor of keeping our county is one and not divided into three.

425

01:46:31.560 --> 01:46:42.750

Jon Meyer: It is imperative that we consider and that the redistribute Dean team considers keeping everything in Ottawa county together.

426

01:46:45.270 --> 01:46:48.510

Jon Meyer: And I appreciate everybody's work on this, thank you.

427

01:46:50.400 --> 01:46:51.270

MICRC1: justin the Commission.

428

01:46:54.000 --> 01:47:02.520

MICRC1: Now that the first opportunity for both in person and remote public comment has completed without objection, we will not hear from individuals, seeking to provide a second to the public comment.

429

01:47:04.500 --> 01:47:09.120

MICRC1: objection We will now proceed with individuals, seeking to provide a second to the public comment.

430

01:47:12.360 --> 01:47:17.730

MICRC1: don't believe me in person correct, so we will move to our in.

431

01:47:19.200 --> 01:47:27.030

MICRC1: Our second live remote public comment individuals who have signed up and indicate, they would like to provide live from the commentary, to the Commission will not be allowed to do so.

432

01:47:27.420 --> 01:47:32.280

MICRC1: We will use the same process, as the first round, first in line to provide public comment is Mr James gallant.

433

01:47:36.630 --> 01:47:37.200

9063607347: Can you hear me now.

434

01:47:38.220 --> 01:47:45.300

9063607347: We can proceed okay James Garrett marquette county Suicide Prevention coalition, these are my opinions and.

435

01:47:45.870 --> 01:47:52.170

9063607347: This is just a fascinating thing to watch in real time, you know, because here on the telephone when I got the best view of the House here.

436

01:47:53.040 --> 01:48:02.730

9063607347: To get to put the magic eye to it, you know I get to the 3D version of what's going on here, and you know earlier in the committee meeting, Commissioner, let talked about his compatriots.

437

01:48:03.810 --> 01:48:14.400

9063607347: Okay i'd like him to explain that, because we do know that Commissioner witches is not an equal picture here, he is a self proclaimed city citizen of the Netherlands.

438

01:48:15.060 --> 01:48:23.070

9063607347: Okay, and he's not all American and he will not lead pledge allegiance United States of America and the flag and this republic right like you said.

439

01:48:23.760 --> 01:48:29.700

9063607347: And I believe that Commissioner witches has assembled itself a little coalition government, just like they do in the Netherlands.

440

01:48:29.940 --> 01:48:35.580

9063607347: You know in outside the Rules of Procedure that's the sidebar Rules of Procedure that you folks have all agreed upon.

441

01:48:35.910 --> 01:48:44.520

9063607347: So, Commissioner, rathore not ask you to please explain to the Community, all these rules that you have agreed to that they don't show up in a minute, but you kind of are locked in.

442

01:48:45.030 --> 01:48:51.570

9063607347: And I believe just because of what that the former speaker just said, I think we need to take a look at the local government units in Holland Michigan.

443

01:48:52.170 --> 01:48:58.440

9063607347: And how they run their little local governments over there is that the pole enters a little poll and are there over there in Holland.

444

01:48:58.890 --> 01:49:07.560

9063607347: And Is this how is this why it's so familiar to you folks in Is this what you're trying to do, and you know this is not a trauma informed process.

445

01:49:07.980 --> 01:49:16.290

9063607347: that's very important, because we have vulnerable adults here and we have a vulnerable adults in the form of people that you know have medical conditions and advanced age.

446

01:49:16.890 --> 01:49:22.170

9063607347: And the to be trauma informed, it has to you recognize the.

447

01:49:22.710 --> 01:49:37.950

9063607347: The rights of others and act upon those rights you act upon the rights of others, and this is what Commission raffan is not doing here, he is violating the rights of everybody on this condition by assigning the floor, well, I guess, he gets assigned the floor when it's.

448

01:49:39.120 --> 01:49:42.180

9063607347: doing it to him, and you know it's just it's just a matter of.

449

01:49:43.560 --> 01:49:44.550

MICRC1: adjusting the Commission.

450

01:49:45.600 --> 01:50:00.180

MICRC1: That concludes our public comment, however you'd like to mention that all email mailed public comment is provided to the Commission before each feeling Commissioners also review the public comment portal on a www.michigan.gov forward slash mfcc website on a regular basis.

451

01:50:01.260 --> 01:50:07.560

MICRC1: she'd everyone provides public comment in whatever way you choose invite you to keep sharing your thoughts communities of interest in maps.

452

01:50:11.700 --> 01:50:20.040

MICRC1: To unfinished business i'd like to move agenda item five, eight and without objection continue with the draft mapping of state house districts.

453

01:50:22.530 --> 01:50:24.600

MICRC1: objection that's not it.

454

01:50:25.800 --> 01:50:30.240

MICRC1: So it was Who was it that ended the mapping list was it Cynthia.

455

01:50:32.010 --> 01:50:34.080

MICRC1: Or the Commissioners a Teller does that sound right.

456

01:50:35.910 --> 01:50:46.260

MICRC1: I think it was commissions to tell what the second question, and and because we do have chemistry IED presence and we take a moment and just acknowledge that no we don't do it for you.

457

01:50:48.120 --> 01:50:49.350

MICRC1: Okay we're all set Thank you.

458

01:50:58.380 --> 01:50:59.910

MICRC1: That means we move to Commissioner.

459

01:51:01.110 --> 01:51:01.800

MICRC1: How are you feeling.

460

01:51:06.990 --> 01:51:09.240

MICRC1: i'm feeling good take it away.

461

01:51:13.620 --> 01:51:23.970

MICRC1: 1.1 point here, this is a direct copy of where we ended yesterday with districts wanted to done in Detroit.

462

01:51:29.340 --> 01:51:30.870

MICRC1: Thank you can join us, you have the floor.

463

01:51:32.190 --> 01:51:35.940

MICRC1: Okay, can you can you bring it in, so I can decide where i'm going to start.

464

01:51:50.580 --> 01:51:53.550

MICRC1: Like what we had you there we go Thank you.

465

01:51:56.940 --> 01:51:58.170

MICRC1: Can I see i'm.

466

01:52:00.690 --> 01:52:08.070

MICRC1: The area between where the Green and the wanted to come together in there, can you do a close up that area.

467

01:52:09.090 --> 01:52:30.720

MICRC1: This area, right here, where my cursor North North North this area over to the East over to the West West yeah dearborn yes okay that way, but right there right there where you're above Wayne Okay, right here, yes Okay, so I guess i'll start there and i'll take that on i'll start with.

468

01:52:32.370 --> 01:52:40.560

MICRC1: let's see right above the purple right here, yes Okay, so can we like take that one area there.

469

01:52:45.660 --> 01:52:49.170

MICRC1: i'm going to select the features and then, as you okay.

470

01:52:50.220 --> 01:53:05.310

MICRC1: Okay well i'll sign it, and though it would be able to me, yes, more effectively, yes, those are precincts is that, where you want to start yes please and then Can I take the precinct that has a population of 2904 okay.

471

01:53:11.850 --> 01:53:17.100

MICRC1: Moving a little bit slower than I expect that says select it now and then, I just want to.

472

01:53:18.390 --> 01:53:21.510

MICRC1: Go North good northward yes.

473

01:53:23.340 --> 01:53:24.840

MICRC1: Something like that.

474

01:53:26.370 --> 01:53:26.910

MICRC1: Yes.

475

01:53:28.950 --> 01:53:31.980

MICRC1: And then let's see up North a little bit further.

476

01:53:33.180 --> 01:53:39.060

MICRC1: Yes, ma'am and anything that we assigned we can always back up okay and move i'm not trying to.

477

01:53:39.780 --> 01:53:55.050

MICRC1: You know so just to get started, you know we can select on move along and then come back and undo on if I get wrong areas this area here yeah let's go take that circular section at the jeffries freeway.

478

01:53:59.220 --> 01:54:05.970

MICRC1: This precinct here goes across this precinct goes across the freeway Commissioner Gordon please.

479

01:54:08.070 --> 01:54:11.430

MICRC1: I don't remember his dearborn and dearborn heights in that.

480

01:54:12.270 --> 01:54:13.320

MICRC1: neighborhood.

481

01:54:13.770 --> 01:54:14.730

MICRC1: overlay.

482

01:54:15.030 --> 01:54:17.820

MICRC1: I just wonder if that would help or it's outside of the.

483

01:54:17.970 --> 01:54:30.600

MICRC1: city, and I think the neighbor overlay would still help because as you're moving North I think you're going to get into Detroit neighborhoods I just wonder if that might help so okay so we're going to switch to neighborhoods Okay, I can turn those on Thank you Commissioner.

484

01:54:36.210 --> 01:54:48.840

MICRC1: she's did you speak into the microphone I just I just think Commissioner or and that's all I said thanks well those the population for dearborn is way too high for one district right.

485

01:54:51.450 --> 01:54:53.820

MICRC1: Are you asking I mentioned in anybody.

486

01:54:55.320 --> 01:55:07.020

MICRC1: condition if you include dearborn with a little bit of the eastern part of dearborn heights it's just enough for one Congressional district, it is okay so let's let's do that let's take out what I have.

487

01:55:08.430 --> 01:55:23.610

MICRC1: And we're going to do with dearborn but isn't let's do our abdomen, but I think it's too high i'm going to lead three words that will do dearborn and then go back to it that's okay that's 109,000 so dearborn is about.

488

01:55:24.630 --> 01:55:27.660

MICRC1: 15 20% high for us.

489

01:55:28.770 --> 01:55:32.100

MICRC1: It is 20% half of one district, Commissioner, Commissioner.

490

01:55:33.270 --> 01:55:44.550

MICRC1: Commissioner, you go ahead i'm sorry I misspoke I met all of the parts, except for the the most western part of the city that's in between dearborn and dearborn heights.

491

01:55:45.030 --> 01:55:54.720

MICRC1: And I do think that's a good idea, and it would bode well for the Middle Eastern population as well because that's as we've heard they're more concentrated on the eastern part of dearborn.

492

01:56:00.450 --> 01:56:04.590

MICRC1: I think this is the area, he was referencing referencing.

493

01:56:06.450 --> 01:56:10.830

MICRC1: And if I get it right, it is anyway, Commissioner, or did you have something you wanted to add.

494

01:56:12.090 --> 01:56:12.930

MICRC1: Is that the area.

495

01:56:16.590 --> 01:56:25.980

MICRC1: That is 15 at the highlighted areas 59,000.

496

01:56:29.940 --> 01:56:36.690

MICRC1: So, Commissioner, you said, do you bring him in part of dearborn heights but I don't see how that's gonna work.

497

01:56:37.470 --> 01:56:41.700

MICRC1: So that there's more of dearborn like that whole area to the left is still.

498

01:56:42.240 --> 01:56:52.500

MICRC1: is still dearborn so you could assign this part and then just add up add these areas that he's hovering over now okay until you reach the population if that's what you wanted to do.

499

01:56:53.190 --> 01:57:14.160

MICRC1: Okay, so let's do that start with the one that's the population is 3116 i'm assigning the highlighted area now I have an unassigned of

free that you had done previously you want to take this on the sand as a game um yes okay just a moment.

500

01:57:22.740 --> 01:57:23.190

MICRC1: OK.

501

01:57:24.990 --> 01:57:27.030

MICRC1: OK, so the one area that's.

502

01:57:28.260 --> 01:57:37.320

MICRC1: right there, yes we're 30,000 right so start at 3116 and go south.

503

01:57:40.830 --> 01:57:43.920

MICRC1: That picks up that too so that's 13,000.

504

01:57:45.450 --> 01:57:48.270

MICRC1: So Internet my going West, am I keeping West.

505

01:57:49.530 --> 01:57:54.660

MICRC1: here's the yes, yes, yes okay so keep going West.

506

01:57:55.950 --> 01:57:59.490

MICRC1: vertically from here to here, yes okay.

507

01:58:09.240 --> 01:58:15.990

MICRC1: Okay, can you back out a little that that yeah that'll be pretty close actually calm that's.

508

01:58:18.150 --> 01:58:19.170

MICRC1: This looks like you need.

509

01:58:22.830 --> 01:58:23.310

MICRC1: Okay.

510

01:58:24.750 --> 01:58:27.150

MICRC1: Shah sign that area, yes.

511

01:58:38.820 --> 01:58:42.120

MICRC1: And now you're short 2268.

512

01:58:44.340 --> 01:58:46.230

MICRC1: This blue line is.

513

01:58:47.370 --> 01:58:53.550

MICRC1: The boundary of the dearborn township Okay, so I need i'm 2000.

514

01:58:57.480 --> 01:59:00.210

MICRC1: This this precinct here beers ago away.

515

01:59:05.520 --> 01:59:11.280

MICRC1: Thinking about neighborhoods sorry can't genesis are you are you thinking about neighborhoods now, at this point, or what do you.

516

01:59:12.450 --> 01:59:14.010

MICRC1: Yes, let's see neighborhoods.

517

01:59:15.180 --> 01:59:21.090

MICRC1: I don't know if we can see neighborhoods i'm wondering if Anthony or other Commissioners might know about neighborhoods and where to.

518

01:59:24.630 --> 01:59:35.100

MICRC1: And so, this whole areas around greenfield village mostly that aren't really neighborhoods in dearborn per se it's just it's dearborn and we've already covered.

519

01:59:36.240 --> 01:59:45.660

MICRC1: The the more Middle Eastern parts of dearborn so I mean any one of these precincts would probably be okay just just whatever works with the numbers.

520

01:59:46.140 --> 01:59:56.310

MICRC1: Another option that might be possible is, including some of dearborn with some of Detroit and then having dearborn heights be with the remainder of dearborn but.

521

01:59:56.670 --> 02:00:03.270

MICRC1: That would be like a completely different configuration, so any of these things will work Krishna Clark, and then back to the lead.

522

02:00:04.410 --> 02:00:08.310

MICRC1: From my numbers just a pure numbers perspective, this say.

523

02:00:12.930 --> 02:00:23.820

MICRC1: precinct say that's the number okay we're we're isn't there yet
let's take that and melwood get you real close number number why so many.

524

02:00:27.900 --> 02:00:32.490

MICRC1: Commissioner rights, excuse me, I said that was going to go back
to Commissioner is OK, if I take control.

525

02:00:33.120 --> 02:00:42.960

MICRC1: yeah Thank you i'm going just by particular numbers down in the
lower left down there where it just that district or.

526

02:00:43.440 --> 02:00:54.450

MICRC1: township or whatever right yeah just a little bit left to your
cursor up is exactly 2268 which was what you would have needed without
using the other one you just added, which was.

527

02:00:56.790 --> 02:01:02.430

MICRC1: Whether that's a good fit I don't know, I guess, I have to ask
our Commissioners who live in that area.

528

02:01:04.080 --> 02:01:04.470

MICRC1: Thank you.

529

02:01:07.260 --> 02:01:08.160

MICRC1: Back to you janice.

530

02:01:10.620 --> 02:01:11.910

MICRC1: Oh sorry Commission which is.

531

02:01:13.380 --> 02:01:23.520

MICRC1: Thought I remember john stating that it's usually not a very good
idea to to make the population exactly equal because it limits where you.

532

02:01:24.900 --> 02:01:30.390

MICRC1: Can redraw the borders of the Senate districts, at a time in the
future.

533

02:01:31.830 --> 02:01:33.810

MICRC1: that's okay so um.

534

02:01:36.450 --> 02:01:50.130

MICRC1: I can speak to that a little bit at this point y'all are so early into this region and if I zoom out a little bit Look how much is not done, I mean you have a long ways to go before you start really.

535

02:01:51.510 --> 02:01:56.490

MICRC1: locking in districts and my opinion so whether you do or don't.

536

02:01:58.140 --> 02:02:00.750

MICRC1: You know if you got a decent population.

537

02:02:01.860 --> 02:02:08.100

MICRC1: You know 1000 here 500 they're 50 doesn't really matter, in my opinion, this early.

538

02:02:10.110 --> 02:02:10.920

MICRC1: i'll stop here.

539

02:02:17.370 --> 02:02:18.900

MICRC1: Do we need to ask questions.

540

02:02:20.490 --> 02:02:23.850

MICRC1: it's never just have one actually two questions.

541

02:02:25.380 --> 02:02:30.270

MICRC1: to discover described but communities of interest were considered was drawing this district.

542

02:02:33.720 --> 02:02:42.270

MICRC1: i'm so sorry um there's a large population of Middle Eastern in dearborn so we were trying to keep those together.

543

02:02:43.680 --> 02:02:44.160

MICRC1: Thank you.

544

02:02:47.670 --> 02:02:52.230

MICRC1: How do you take minority populations into account all dying drawing this district.

545

02:02:57.840 --> 02:03:02.790

MICRC1: How did I take them into account, I guess, I don't understand what you mean into account.

546

02:03:04.920 --> 02:03:07.170

MICRC1: How are they considered while trying this district.

547

02:03:14.430 --> 02:03:24.630

MICRC1: I think you I think you've said it with because of the Arab community that's what I was thinking that I thought I saw it may be important to just acknowledge that the air treaties showed up as way.

548

02:03:25.890 --> 02:03:27.150

MICRC1: Great Thank you you're welcome.

549

02:03:31.260 --> 02:03:37.320

MICRC1: All right, thank you commissionable that we're on to Commissioner leave you with us, how are you feeling.

550

02:03:41.250 --> 02:03:46.650

Erin Wagner: Well, I am with you, but I was actually asked to pass because i'm not feeling well.

551

02:03:47.880 --> 02:03:59.130

MICRC1: Thanks for being with us so we'll move on to Commissioner Weiss, are you feeling pretty good, I think I hope you feel better Commissioner Wagner.

552

02:04:01.020 --> 02:04:18.900

MICRC1: All right, i'm not sure where to go obviously i'm not too familiar with the area, but I would like help with this anybody jump in i'm going to go, I believe, to the right starting in that area they're just before gross point and all that.

553

02:04:20.490 --> 02:04:23.940

MICRC1: And I guess we'll add them up and see where we get.

554

02:04:29.490 --> 02:04:37.170

MICRC1: This will be district four yes i'm here would you say take these precincts right here as a star or yes.

555

02:04:58.800 --> 02:05:03.240

MICRC1: So this may call for census box right in here, maybe not but.

556

02:05:04.410 --> 02:05:11.790

MICRC1: What I was going to assign this that that's okay and we'll get started go ahead into the weeds Secretary State has a comment.

557

02:05:13.530 --> 02:05:18.780

MICRC1: For the record, Commissioners patella has joined conditional says hello, because you just close where you're attending from today.

558

02:05:19.440 --> 02:05:22.410

Rebecca Szetela: Yes, attending remotely from Wayne county Michigan.

559

02:05:23.220 --> 02:05:23.610

MICRC1: Thank you.

560

02:06:01.980 --> 02:06:05.730

MICRC1: ascend her precincts it appears these blocks.

561

02:06:06.840 --> 02:06:09.540

MICRC1: Are in this precinct up here that surround the.

562

02:06:10.710 --> 02:06:18.120

MICRC1: Here it does I don't think there's any population in there, so at some point we'll probably.

563

02:06:18.960 --> 02:06:36.360

MICRC1: Just to make it look better you know put these water box into one so that line is you know closer up here can you do that quickly or well yeah we can do it later, but because right now it's just a parent's thing or compactness measures may make it look there right.

564

02:06:38.370 --> 02:06:41.910

MICRC1: go up a little bit more, please all right.

565

02:06:43.620 --> 02:06:45.780

MICRC1: I think we'll go to the left.

566

02:06:46.800 --> 02:06:48.720

MICRC1: And grab some of those.

567

02:06:50.160 --> 02:06:52.560

MICRC1: immeasurably sinks here, Sir okay.

568

02:07:11.370 --> 02:07:21.300

MICRC1: Any of these precincts just say so and i'll remove them from the selection Okay, I like I said I haven't heard any comments from my other Commissioners yet so I guess i'll continue.

569

02:07:24.510 --> 02:07:32.760

MICRC1: To do it um let's fill in to just to the left there be the green yes right there.

570

02:07:39.750 --> 02:07:46.950

MICRC1: In Commissioner wise, because we do have commissions a title here, this is where right, we were looking at Oh, and I see Commissioner Clark has a hand.

571

02:07:48.960 --> 02:07:56.280

MICRC1: Let me mention a concern that I have we've got a large portion of Detroit left and as we're headed north.

572

02:07:57.270 --> 02:08:12.480

MICRC1: I don't think we'll get outside the Detroit boundary just an estimate we wouldn't we're going to end up with an African American population it's going to be pretty significant and why not pass the morning right Alice test.

573

02:08:13.830 --> 02:08:24.630

MICRC1: And that was going to be my my thought to, and this is where i'm and I see conditioner each hand and I see Rebecca nodding her head, but this is where hamtramck comes in, potentially, and so in because that district was drawing yesterday and.

574

02:08:25.830 --> 02:08:30.360

MICRC1: yeah it's it's it's a country, do you have a question or comment.

575

02:08:32.070 --> 02:08:44.550

MICRC1: yeah no same thought as well, you had it could be where hamtramck comes in, you could also make a skinnier district and go into grosse Pointe park or gross point as the population there is mostly wife, yes.

576

02:08:45.840 --> 02:08:48.870

MICRC1: wow that's a pretty big dichotomy with the dots.

577

02:08:50.190 --> 02:08:52.050

MICRC1: So she was a talent and Commissioner correct.

578

02:08:52.800 --> 02:09:03.000

Rebecca Szetela: yeah so just for the record because i'm not present in the room i'm going to ask my vice chair to facilitate discussion, because once i'm in the meeting that i'm chairing so.

579

02:09:03.300 --> 02:09:08.610

Rebecca Szetela: And i'm not going to be here for very long, but I just wanted to pipe in because I was watching what was going on in dearborn and I was a little worried.

580

02:09:09.330 --> 02:09:14.550

Rebecca Szetela: So my recommendation is I would follow gratia, which is that diagonal line going out.

581

02:09:15.030 --> 02:09:25.260

Rebecca Szetela: And and make a district, with the gross points because that's, the only way you're going to get a balanced district, and then that gives you the freedom to go North with some of the other districts and include like harbor woods going north.

582

02:09:25.710 --> 02:09:39.600

Rebecca Szetela: So that would be my recommendation is it's pulling the points with that shoreline of Detroit keeping it south of gratia, which is that diagonal line you're seeing that smoke coming up and see where you at population wise on that and that should be a more balanced districts.

583

02:09:40.890 --> 02:09:42.450

MICRC1: So, Commissioner, to Terra.

584

02:09:42.750 --> 02:09:45.120

MICRC1: Just to clarify before you have to Commissioner Clark.

585

02:09:46.890 --> 02:09:55.140

MICRC1: Are you advising that the western edge of graduate not be included and just sort of state east of gratia and go North with the point is that we're suggesting.

586

02:09:57.930 --> 02:09:58.410

MICRC1: We cannot.

587

02:09:58.530 --> 02:10:09.510

Rebecca Szetela: muted myself um it would start there and see where you're at population wise and then, if you need to go north of graduate or North northwest of gratia, then I would start grabbing population, but I would.

588

02:10:09.930 --> 02:10:20.790

Rebecca Szetela: I would try to do the shoreline kind of issue, first with the gross points in that shore area, you know the Jefferson avenue corridor going into gross point first and then see where your population wise.

589

02:10:21.990 --> 02:10:22.980

MICRC1: Thanks Krishna Clark.

590

02:10:24.990 --> 02:10:27.990

MICRC1: I don't know if I agree with using gross point I did from.

591

02:10:29.520 --> 02:10:33.180

MICRC1: A point of view of getting white population, yes, but.

592

02:10:34.350 --> 02:10:41.460

MICRC1: Then area of Detroit that eastern part of Detroit specifically said they don't want to be part of gross point they are now.

593

02:10:42.210 --> 02:10:55.500

MICRC1: And they indicated that what's happened to them is that close point gets all the representation and all the majority of the money going toward them and they want to avoid that as we move forward into this.

594

02:10:56.820 --> 02:11:11.100

MICRC1: I don't really have a suggestion on unless we make skinnier house districts and move it up North out of Detroit to some of the the less African American areas where she was a Teller.

595

02:11:11.370 --> 02:11:19.620

Rebecca Szetela: yeah I think you're thinking of harper woods harper woods had that commentary, and that was somewhat mixed some people from harper would said they wanted to be with the gross points.

596

02:11:19.950 --> 02:11:27.330

Rebecca Szetela: Other people were very strongly that they did not want to be with the growth point so I don't recall anyone from the Indian village area or Jefferson.

597

02:11:27.870 --> 02:11:32.610

Rebecca Szetela: saying they didn't want to be combined with the most points I don't think we had anyone making that commentary.

598

02:11:32.970 --> 02:11:44.550

Rebecca Szetela: And you know I think we have to remember that the era is first on our list, and so we have to look at accommodating era, first, and if that requires gross point to do it, then I think that's where we need to look first.

599

02:11:47.880 --> 02:11:54.990

MICRC1: Sure, I spoke to you well that's what I was thinking originally but then as Doug said about girls point and that that's why I did not go that way.

600

02:11:55.770 --> 02:12:06.360

MICRC1: But that was my first thought to pick that up i'm Kent would you go ahead and add in grosse Pointe park police in history where that gets us.

601

02:12:19.980 --> 02:12:25.800

MICRC1: Your well status on it, yet that gets you to you still need 28,000.

602

02:12:27.690 --> 02:12:33.300

MICRC1: How about taking in girls point itself that's 5600 yeah.

603

02:12:36.990 --> 02:12:39.150

MICRC1: All right, I need some suggestions here.

604

02:12:40.590 --> 02:12:50.790

MICRC1: The original suggestion was that you and then you will not not yes continue up and the west of gratia that diagonal, which is one of the spokes that we talked about us to.

605

02:12:53.670 --> 02:12:59.460

MICRC1: Minister, which is nothing Commissioner organized and to see what happens if Commissioner whites grabs The other point.

606

02:13:00.900 --> 02:13:02.250

MICRC1: I can't quite read the numbers.

607

02:13:03.870 --> 02:13:10.860

MICRC1: i'm sorry let's try grabbing the other points and see where we get on population I think we're going to get pretty close at some point.

608

02:13:12.540 --> 02:13:13.890

MICRC1: All right, let's go ahead and try that.

609

02:13:15.120 --> 02:13:15.420

MICRC1: Commission.

610

02:13:18.660 --> 02:13:27.510

MICRC1: My only comment was to keep those together that had requested strongly to be together, so we can include them all it's still very adventurous right.

611

02:13:29.130 --> 02:13:35.250

MICRC1: Commission which is that's exactly what I was going to try and suggest to you grab the grab gross point woods.

612

02:13:38.910 --> 02:13:41.730

Rebecca Szetela: I would not separate the points I would keep all five of them together.

613

02:13:43.500 --> 02:13:45.840

MICRC1: Alright, can go ahead and do that place.

614

02:13:47.730 --> 02:13:52.710

MICRC1: Yet the village grows point appears to be coming down into here well.

615

02:13:52.770 --> 02:13:54.810

Rebecca Szetela: let's just doors yeah sure.

616

02:13:55.530 --> 02:13:59.220

MICRC1: we'll just see what those numbers are i'm sure you have an eraser so.

617

02:14:06.630 --> 02:14:18.420

MICRC1: Commission, which is what I would what I would do is personally My suggestion would be grabbed the village gross points now and see if we can remove population from the dippers the part that you added.

618

02:14:18.990 --> 02:14:22.800

MICRC1: In the beginning to see if we can get the population down, and that would make sense to.

619

02:14:23.820 --> 02:14:30.900

MICRC1: Like the way you're at the village of growth point or village of gross point shores has 77 people.

620

02:14:39.840 --> 02:14:40.680

MICRC1: I just gotta say.

621

02:14:41.730 --> 02:14:54.750

MICRC1: I kind of disagree for this map with keeping the points together, I don't like that I disagree, I would rather keep them together, if possible, but I think we're just going to run into a problem where we need that population.

622

02:14:55.800 --> 02:14:59.190

MICRC1: When it comes to making very compliant districts.

623

02:15:01.320 --> 02:15:07.410

MICRC1: So I think actually I like how it originally was with just gross point and the first two points.

624

02:15:08.520 --> 02:15:21.450

MICRC1: and adding more of Detroit with it, you know I don't like it, I think we have them together in both the Senate and the Congressional map, but it might be something that we have to look at give them the vre issues.

625

02:15:23.370 --> 02:15:33.480

MICRC1: I think that's a valid point and I think what Commission which is wise and other commissions are suggesting that this is a cry so trying to preserve it for the moment, and then look at the array compliance and yeah.

626

02:15:33.990 --> 02:15:44.160

MICRC1: take away Commission noise all right, since we now are over, I guess, can we want to go back over near that hamtramck area and start the ducting those.

627

02:15:49.080 --> 02:15:54.840

MICRC1: Is that the correct one, yes, the melon I do something that is not what you desire.

628

02:15:55.980 --> 02:15:57.360

MICRC1: Like I just did the old township.

629

02:15:58.650 --> 02:16:03.840

MICRC1: Good job yeah it's going back right next eraser yeah it's going back right now.

630

02:16:07.260 --> 02:16:14.670

MICRC1: Present yes, if I do one that yes, do that one right there let's take that one out.

631

02:16:15.900 --> 02:16:26.190

MICRC1: And then we'll take them as we go down towards, and I will get into where we see the population 556926 all probably.

632

02:16:29.070 --> 02:16:33.570

MICRC1: Take them all to that diagonal line that whole group.

633

02:16:48.090 --> 02:16:52.710

MICRC1: You are now at 1% or 919 people.

634

02:16:54.210 --> 02:17:05.520

MICRC1: Alright, if I take the 151 16 as a number it's 799 790 yes, if you would take that out, please.

635

02:17:07.440 --> 02:17:11.250

MICRC1: Now you're at point one three or 120 people.

636

02:17:12.420 --> 02:17:25.560

MICRC1: All right, I guess, I will stick with that any comments, please can you see my cell is just going to offer that to overlay the Detroit neighborhoods might be useful, just to try to keep neighborhoods together at this point, can you do that, please can.

637

02:17:37.710 --> 02:17:40.830

MICRC1: This neighborhood is split along the horizontal.

638

02:17:43.380 --> 02:17:45.330

MICRC1: In these two right here.

639

02:17:50.070 --> 02:17:54.090

MICRC1: up through here is a neighborhood boundary seems to stay there, so it seems to be.

640

02:17:55.650 --> 02:18:13.080

MICRC1: yeah I think you got you just got that one you can take them and see the seven you could add the 799 back and remove the 654 and then have you know one one neighborhood and Meta split yeah I buy that I like that would you do that, please can you, sir.

641

02:18:24.540 --> 02:18:36.210

MICRC1: And Rebecca i'm wondering that Southwest and on the screen anyways the southwest corner of our screen here that neighborhood that is split do you have any indication or in the idea of that's a sort of a neighborhood that might be.

642

02:18:37.590 --> 02:18:39.690

MICRC1: Better left together it wasn't McDougal.

643

02:18:42.270 --> 02:18:47.370

MICRC1: At this point, you are 265 people over all.

644

02:18:48.750 --> 02:18:56.310

MICRC1: This you know this neighborhood is split into this neighborhood split into this neighborhood split into district tues.

645

02:18:59.310 --> 02:19:04.560

MICRC1: doesn't look too bad, we do have one neighborhood split, but the rest of it is pretty decent.

646

02:19:04.830 --> 02:19:05.100

Rebecca Szetela: yeah.

647

02:19:05.610 --> 02:19:07.050

MICRC1: I agree, you think.

648

02:19:10.110 --> 02:19:19.920

Rebecca Szetela: I, I would say just leave it subject to adjustments based on Brittany and when he does feedback, because this is really area they're they're more familiar with, and I am.

649

02:19:21.030 --> 02:19:23.910

Rebecca Szetela: And we can always make little changes down the road.

650

02:19:24.900 --> 02:19:34.590

MICRC1: Thanks sure to tell them permission to eat yeah I think the black populations too low, you know 41% we're in the heart of downtown Detroit it just it doesn't make.

651

02:19:35.910 --> 02:19:45.930

MICRC1: much sense to me i'd like to see it a more so around what district, who is at about 54% still giving it an opportunity to elect their candidate of choice.

652

02:19:47.550 --> 02:19:51.660

MICRC1: But yeah i'm wondering what is a Bruce think about this, yes, can you answer some of that Bruce.

653

02:19:52.770 --> 02:20:04.020

MICRC1: Thank you well, there are a couple of thoughts that I have one of the things that that I think would be informative why don't we go to the election results for this district, please.

654

02:20:10.950 --> 02:20:12.060

MICRC1: And this includes.

655

02:20:13.800 --> 02:20:16.140

MICRC1: The points area that's included in this.

656

02:20:17.640 --> 02:20:18.210

MICRC1: Yes.

657

02:20:27.330 --> 02:20:28.290

MICRC1: To the right place.

658

02:20:43.980 --> 02:20:44.010

MICRC1: Right.

659

02:20:51.870 --> 02:21:01.530

MICRC1: Thank you, could you also hover over which is the points is the largest as it grows points just a moment we'll get the numbers out there, let me.

660

02:21:04.470 --> 02:21:05.190

MICRC1: So.

661

02:21:05.580 --> 02:21:06.390

Rebecca Szetela: park yeah.

662

02:21:08.670 --> 02:21:16.590

MICRC1: yeah precinct let me get back to townships um yeah 10,000 people here.

663

02:21:18.480 --> 02:21:19.950

MICRC1: It looks like 10,000.

664

02:21:21.000 --> 02:21:26.610

MICRC1: Okay, so it would be the upper end of it, yes, why I was just curious as for.

665

02:21:27.840 --> 02:21:34.800

MICRC1: Competitive person purposes and also just add some information going forward if you could hover over gross point.

666

02:21:36.240 --> 02:21:51.270

MICRC1: farms and, of course, point with a 10,000 population of could see what those election results or I think that that would be helpful at this point that is gross point would say on it is 16,000 people in it.

667

02:21:52.770 --> 02:22:06.540

MICRC1: it's relatively large Okay, this is 10,000 but grosse Pointe park down here the closest is 11,005 okay why don't we look at gross point forms then that's a good point.

668

02:22:07.380 --> 02:22:23.790

MICRC1: park i'm sorry the closest one that's words or the one down on the Left i'm not looking at population just geographically grosse Pointe park okay this yeah just let's look at what the election results are there, please okay.

669

02:22:26.610 --> 02:22:29.160

MICRC1: There again, and this is the entire database, so we have to.

670

02:22:31.800 --> 02:22:40.620

MICRC1: Maybe Kim can help us find the right election at the right moment, this would be the Republican and a democrat and 20.

671

02:22:42.510 --> 02:22:51.450

MICRC1: Commissioner Orton can't would it be easier if we just selected just that kearsley park.

672

02:22:52.590 --> 02:23:00.780

MICRC1: As a different district number, so we can see the SURE district number five or salt, then, and then and then just move along from there.

673

02:23:02.100 --> 02:23:02.640

MICRC1: Good call.

674

02:23:09.300 --> 02:23:11.640
MICRC1: That is district five right there.

675
02:23:27.480 --> 02:23:35.340
MICRC1: Thank you just for comparative purposes, can you let's look at one of the points that's further away up the lake.

676
02:23:40.920 --> 02:23:42.540
MICRC1: or about grosse Pointe woods.

677
02:23:44.580 --> 02:23:49.050
MICRC1: i'm just gonna sign that that temporary district six at that number alone comes up.

678
02:23:54.840 --> 02:23:57.240
MICRC1: As district, five and six highlight it okay.

679
02:23:58.710 --> 02:24:06.720
MICRC1: Okay, thank you, I think that the in looking at, and you can see there's a disparity in the election results between.

680
02:24:07.770 --> 02:24:11.550
MICRC1: grosse Pointe park and grosse Pointe.

681
02:24:12.630 --> 02:24:17.430
MICRC1: Farms out what the one that you're highlighting for six Christ point.

682
02:24:18.570 --> 02:24:20.910
MICRC1: What does point park right okay.

683
02:24:22.140 --> 02:24:32.700
MICRC1: grosse Pointe park the election results are similar to the election results seemingly in district for that person to the left and There does seem to be.

684
02:24:34.170 --> 02:24:47.970
MICRC1: Pretty significant support for candidates of choice that's different in grosse Pointe wood, so I think that, and I understand the concerns and the thoughts that have been expressed and I also agree that.

685
02:24:49.230 --> 02:24:57.210

MICRC1: is pretty early in the process, but I think it's important in moving forward to keep in mind that on I know that.

686

02:24:58.500 --> 02:25:08.010

MICRC1: That has been comments about keeping the points together over the points do vote differently so that's an important point to recall.

687

02:25:09.210 --> 02:25:12.000

MICRC1: I think that as we've seen and grosse Pointe.

688

02:25:13.260 --> 02:25:27.810

MICRC1: Park, is a good example that I don't know offhand what the demographics are of course point park if that's similar to the communities to some communities to the to the West does anyone have a thought anecdotally about that.

689

02:25:28.920 --> 02:25:42.990

MICRC1: We can look at it okay let's go, I mean we do we got the information, right here, so if we do information by actual would just pop back to overview and there's your districts five.

690

02:25:44.430 --> 02:25:54.510

MICRC1: And six demographically they're not far off, I mean, relatively speaking, well but five is a majority.

691

02:25:55.020 --> 02:26:05.220

MICRC1: Majority black and 6am I reading or and six has majority on the officer district either online right yes you're right that they are there similar, so I think that.

692

02:26:05.610 --> 02:26:21.240

MICRC1: So let's make some inferences from that, so the fact that they're similar may also be one of the reasons why the support for candidates have choices similar now let's do for comparison let's go up to six in grosse Pointe woods that also.

693

02:26:23.340 --> 02:26:35.550

MICRC1: Yes, i'm sorry, five and six are similar but they vote differently, so I think that one of the cautionary tales from this is population is part of the.

694

02:26:36.390 --> 02:26:47.250

MICRC1: process but it's not the last part because it's really interesting to me that they vote differently six or five supporting candidates choice and six, not so much.

695

02:26:47.730 --> 02:26:56.340

MICRC1: So that's important to keep in mind going forward, you know, since we it's still early in the process, and since the part of.

696

02:26:57.270 --> 02:27:04.800

MICRC1: district four to the west of grosse Pointe park supports candidates of choice I think that's important, but I also.

697

02:27:05.340 --> 02:27:15.300

MICRC1: Take Commissioner eats point, if you look at I was watching the population shift demographically as neighborhoods were being adjusted removed or red.

698

02:27:15.750 --> 02:27:21.480

MICRC1: And there was a significant difference in the minority population as it as it.

699

02:27:21.960 --> 02:27:38.880

MICRC1: declined that doesn't seem to impact the opportunity to elect, but it may in other places, so I think that that comparison between five and six is really good in seeing numbers as Ken said they're very close.

700

02:27:39.570 --> 02:27:50.880

MICRC1: But they're not close in the election results and the election results are the driver of these decisions so for now that my comment would be.

701

02:27:51.840 --> 02:27:57.270

MICRC1: Really, there are several comments about keeping in mind election results.

702

02:27:58.170 --> 02:28:07.290

MICRC1: Not assuming that populations do any particular thing until the results have looked at for right now to the west of grosse Pointe.

703

02:28:07.770 --> 02:28:22.590

MICRC1: park does elect candidates have choice, but I think going forward to keeping in mind the splitting of neighborhoods and minority communities and that populations, even though the the same or nearly the same demographically may vote differently.

704

02:28:24.210 --> 02:28:37.440

MICRC1: thanks for that Thank you, and is it also before we move off of Commissioner weiss's turn to be established that there was it dilutive effect to add words or was that not established well right now, if.

705

02:28:38.700 --> 02:28:46.320

MICRC1: we'd have to look at all of for but I with with everything added back into it, but I think that my main.

706

02:28:47.610 --> 02:29:08.940

MICRC1: informative point is that different communities with seemingly the same demographics vote differently or may vote differently so i'm not really seeing any significant dilutive effect for to the west of grosse Pointe park does elect and relax with a strong Morgan.

707

02:29:10.530 --> 02:29:22.380

MICRC1: Okay, so comes from, why do you want to put us put your district back together, so to speak, we've sort of made five six make them back into four please and then we'll see what it looks like we should continue in a comment.

708

02:29:24.540 --> 02:29:32.010

MICRC1: yeah i'm kind of looking at a different approach to this, as you know, i'm a proponent of keeping the points together.

709

02:29:33.210 --> 02:29:45.330

MICRC1: So if you took the points out, and took harper woods and then came down and an angle and took that last part of Detroit and stay in Detroit in harper woods.

710

02:29:46.500 --> 02:29:47.100

MICRC1: um.

711

02:29:49.110 --> 02:29:50.370

MICRC1: What impact would that have.

712

02:29:51.630 --> 02:30:00.870

MICRC1: I am going to highlight that region, you spoke of, and not assign it, but the highlight at numbers, or at least show you how many people are there yeah so we can.

713

02:30:02.850 --> 02:30:11.340

MICRC1: turn on the automatic map for the precincts and you'll have a fairly good idea yeah I wouldn't do it without harper words.

714

02:30:12.480 --> 02:30:13.860

MICRC1: But i'm.

715

02:30:15.870 --> 02:30:24.840

MICRC1: snip forget black population so i'm going to go ahead and see if I can get just a select area i'm not assigning it to anything correct.

716

02:30:31.710 --> 02:30:35.640

MICRC1: yeah and I wouldn't even go that far, West, to be honest okay.

717

02:30:38.310 --> 02:30:55.140

MICRC1: That area alone has 80,000 people and I didn't even highlight all day so let's remove some of these in, and we can assume it's going to be high black population or large current inefficient or incorrect because of the way I see it, offsets that song but.

718

02:30:59.100 --> 02:31:09.780

MICRC1: Well hopper woods is 15,000 very much majority minority or not majority but still holly so that area in there is 60,000.

719

02:31:11.280 --> 02:31:17.370

MICRC1: Well, we would get that one you don't have to take that, and you can you know unassigned more.

720

02:31:18.570 --> 02:31:30.840

MICRC1: Is yeah Just to give you an idea yeah and i'm not even looking at the number i'm just kind of going by the shaper and understand you know just how stuff connects so then we'll add in the couple of pieces that.

721

02:31:31.440 --> 02:31:35.670

MICRC1: You might want to keep I help us with your thought process here but Commission aquatic, what do you what are you trying to.

722

02:31:36.210 --> 02:31:56.580

MICRC1: take off for the little tail down at the end yeah you're you're trying to keep the points nine points together getting the non minority population on a harper woods, so this just as highlighted this is harper harper woods correct and we're running down here I mean we could unosat.

723

02:31:57.810 --> 02:32:00.120

MICRC1: will remove more yeah.

724

02:32:01.980 --> 02:32:12.090

MICRC1: So it's it's still commissioning races turn, I just want to understand, are you making sort of this this sort of a suggestion for Richard or what do you think it's it's a different approach, torn up to keep the points together.

725

02:32:13.770 --> 02:32:20.340

MICRC1: So that's 52,000 and I think we were talking about 16 and 10.

726

02:32:22.170 --> 02:32:25.590

MICRC1: yeah we get rid on this on this that's 52.

727

02:32:26.880 --> 02:32:33.360

MICRC1: So just to be clear, Commissioner, I mean what Richard my Commissioner ways drew in district four does keep the points together.

728

02:32:33.810 --> 02:32:48.480

MICRC1: So that's why i'm challenged by what you're trying to do it does district for does keep all the points together and associates them into Detroit, which is what my understanding is what the comment was coming out of Detroit people that they don't want to be.

729

02:32:49.680 --> 02:33:07.890

MICRC1: associated then a district with cross quite funny tends to flow to the point yeah Thank you and harper woods is predominantly African American going by this, because each of these precincts 6350 71%.

730

02:33:08.970 --> 02:33:28.200

MICRC1: And that may not work so harper woods is predominantly African American could we just again for comparison can you highlight that sign it, and just so we see what the racial population is in that whole area that Commissioner Clark was was interested in.

731

02:33:29.460 --> 02:33:33.990

MICRC1: copper woods is 67 66% African American.

732

02:33:35.340 --> 02:33:36.540

MICRC1: And we can do the district.

733

02:33:37.560 --> 02:33:50.400

MICRC1: The artificial district yeah I just it just will be I think interesting to see and kind of reflect some of the thinking going forward what the population is there in that area that you had Highland.

734

02:33:53.010 --> 02:33:58.650

MICRC1: And Bruce you're thinking of population as well as voting as well as the election results, so we have to select it as a as a.

735

02:33:59.460 --> 02:34:09.690

MICRC1: Not just selected but also create put into a district correctly that's a great point, but I think that, for now, I was just interested in seeing that would be the next essential step.

736

02:34:10.080 --> 02:34:17.970

MICRC1: i'm just interested in going to what Commissioner Clark said what Commissioner, he was talking about, and Commissioner Weiss, is just getting a sense of.

737

02:34:19.050 --> 02:34:22.890

MICRC1: The challenge of having a district, it is.

738

02:34:24.180 --> 02:34:33.330

MICRC1: heavily minority men have been heavily majority minority and then there's there's a something that i'd like to add to that, but I just like everyone to see.

739

02:34:33.780 --> 02:34:41.700

MICRC1: What the population here would be you look kind of just how much harbor words and everything else that had been highlighted okay so.

740

02:34:55.620 --> 02:35:01.890

MICRC1: that's representative of that roughly we can yeah we can remove a little bit, if you want just to Ghana.

741

02:35:03.690 --> 02:35:07.020

MICRC1: I think, to your point candidate, and this is mainly just lessard.

742

02:35:08.190 --> 02:35:08.970

MICRC1: To be.

743

02:35:10.380 --> 02:35:14.280

MICRC1: To show that it generally, what you had before now, can we get a.

744

02:35:15.300 --> 02:35:27.750

MICRC1: Comparative total or compilation total of what the minority population is in this area i'll put one more in here, so let me take that out, because that would be removed, so let me get that oh.

745

02:35:38.250 --> 02:35:53.280

MICRC1: OK district five is that area Okay, and we can go back to the demographics and that area is 82% minority up well it's higher than that it's.

746

02:35:55.110 --> 02:36:08.700

MICRC1: It would be 85% minority and or non white 82% non Hispanic black right, thank you, and that was That was the point I think that the let's assume.

747

02:36:09.240 --> 02:36:15.690

MICRC1: that there was a thought to create a district like this with the similar minority population.

748

02:36:16.560 --> 02:36:26.760

MICRC1: So there was a board the majority minority district heavily majority minority, the election results on confident would show that it supports heavily candidates of choice.

749

02:36:27.630 --> 02:36:41.490

MICRC1: Then the task would be what would be the justification for that the difficulty is, since it would be so much higher than the population needed to elect candidates of choice safely.

750

02:36:42.090 --> 02:36:54.360

MICRC1: Then you'd have to justify perhaps 40 35%, why did you add that and again this is just this is just the lesser it's not meant to suggest.

751

02:36:54.990 --> 02:37:05.670

MICRC1: doing something or not doing something, but I think it really reflects what you all been talking about with the challenges of district thing in Detroit while not.

752

02:37:07.470 --> 02:37:20.070

MICRC1: Having minority populations that are well in excess of what's needed to elect, so I think to that to that point, yes, it is a juggling act and i'm not suggesting taking.

753

02:37:20.640 --> 02:37:35.040

MICRC1: any particular communities that have any particular district, but I think that that would be very difficult to justify because it's just so high it's one thing having a 49% or 52% district.

754

02:37:35.940 --> 02:37:52.530

MICRC1: But something that that's I would be difficult to justify so that's why I just wanted to to show that, as a really good real time example of one of the the challenges, but also one of the thoughts to keep in mind as you continue with the Detroit area.

755

02:37:53.790 --> 02:38:06.660

MICRC1: Thanks Bruce mentioned in the ministry oh yeah I want to mention, given your analysis I don't think that's workable yeah, and so we have to look at the alternative yeah that's why, when you were when you were.

756

02:38:08.610 --> 02:38:17.130

MICRC1: Drafting what I shouldn't even say drafting when you were compiling these areas I it occurred to me that it would be really good just to see that.

757

02:38:17.550 --> 02:38:29.370

MICRC1: and get an idea of how that would be, but then also how you would be able to justify and, as I said in, in my opinion, I don't really think that there could be a a.

758

02:38:30.960 --> 02:38:38.910

MICRC1: Legally compliant justification, so I thought that that would be just a great example to illustrate well that may support the.

759

02:38:39.960 --> 02:38:49.290

MICRC1: position of putting points in that Detroit district, well, I think that that's you know that's something to you know, of course, evaluate going forward the.

760

02:38:49.740 --> 02:39:10.320

MICRC1: As you as Ken was talking about before there's still a lot of areas to district in the Detroit area but keeping in mind that, having a majority minority population or minority population that is so in excess of the opportunity to elect percentage would be difficult to justify.

761

02:39:11.370 --> 02:39:27.810

MICRC1: Commission so it's just a point of order, I guess, whenever you want to call point and that i'm put for back to where Commissioner wise requested it, so that deleting of five reassigning was merely to get it back to where he started.

762

02:39:29.490 --> 02:39:29.730

MICRC1: Thank you.

763

02:39:31.320 --> 02:39:38.790

MICRC1: know one thing that we need to keep in mind is two things number one we get 200,000 more people in population.

764

02:39:39.300 --> 02:39:53.700

MICRC1: And we got one less well Congressional district so we're spreading it doesn't apply to the House districts, but we still have 200,000 more people spread over somewhere in this state i'm assuming a lot of them are down in.

765

02:39:54.750 --> 02:39:57.240

MICRC1: The southeast district so that's kind of.

766

02:39:58.260 --> 02:40:00.840

MICRC1: shading what we are capable of doing.

767

02:40:06.960 --> 02:40:13.980

MICRC1: Some conditioning right I think we're back to you well, I liked it, it looks good it kind of helps out it keeps the points together.

768

02:40:15.150 --> 02:40:23.580

MICRC1: we're not packing is this trick up for now, since it's not setting goals we have erasers I guess i'd like to leave it as it sets for the moment.

769

02:40:30.420 --> 02:40:39.510

MICRC1: She was I apologize, I was not paying attention that's all right, Sarah was great that we all said that's what counts, it does, thank you.

770

02:40:43.890 --> 02:40:48.450

MICRC1: That means that we are ready to move and inclusion, which I believe is that true.

771

02:41:02.370 --> 02:41:02.820

MICRC1: South.

772

02:41:08.880 --> 02:41:09.720

MICRC1: right there.

773

02:41:13.620 --> 02:41:21.330

MICRC1: So this shall be district five are you going to do an edit nope this will be district five to keep one in three is is for now.

774

02:41:24.270 --> 02:41:30.360

MICRC1: we'll take the balance of the voting precincts and melvin Dale Allen park and.

775

02:41:32.790 --> 02:41:33.780

MICRC1: Lincoln park for now.

776

02:42:10.350 --> 02:42:17.880

MICRC1: I got a little ahead of you i'm so glad you're doing that in there no perfect okay go all the way to where the little we're district one kind of digits down.

777

02:42:21.240 --> 02:42:27.120

MICRC1: But without done 1917 popular again population right now.

778

02:42:28.530 --> 02:42:38.520

MICRC1: Without that one for now and we'll take the 2687 that's some right there yep all right i'm gonna sign that just so we have an outline.

779

02:42:47.760 --> 02:43:01.470

MICRC1: Just to point out district for ran all the way down through here and got all this water area oh My guess is you got so it's in two pieces now we'll fix that at some point, probably on this district okay.

780

02:43:04.230 --> 02:43:14.520

MICRC1: Can you grab the six precincts that are in why and township butter on the left of the diagonal line going south.

781

02:43:16.080 --> 02:43:17.370

MICRC1: Right yep right there just.

782

02:43:18.450 --> 02:43:19.290

MICRC1: Those six.

783

02:43:29.700 --> 02:43:31.500

MICRC1: More can we add those.

784

02:43:44.070 --> 02:43:53.550

MICRC1: 5000 hi Okay, can we take out the Left i'm sorry the right most bottom two.

785

02:43:55.410 --> 02:43:57.600

MICRC1: And then the one above it the 3105 and the.

786

02:43:59.610 --> 02:44:04.920

MICRC1: Correct these four nope the the beast correct sorry.

787

02:44:17.400 --> 02:44:20.790

MICRC1: Okay, so say you're right at 215 light.

788

02:44:21.960 --> 02:44:31.380

MICRC1: Alright, so let's see here I think i'm going to leave it as is we have minority population of 30%.

789

02:44:32.430 --> 02:44:33.900

MICRC1: I believe.

790

02:44:36.570 --> 02:44:43.620

MICRC1: we're still going to if you look at population data I believe this is going to be showing minorities can elect.

791

02:44:45.540 --> 02:44:48.270

MICRC1: Candidate of choice, but i'll leave it over to.

792

02:44:50.610 --> 02:44:52.530

MICRC1: Mr Bruce adelson to tell me that.

793

02:44:55.320 --> 02:44:55.830

MICRC1: i'm sorry.

794

02:44:56.910 --> 02:45:02.880

MICRC1: Yes, a Commissioner, which, which is what, what can I help district five I just finished.

795

02:45:03.570 --> 02:45:25.680

MICRC1: With a minority population of 30.15% I was wondering if you'd like to do a quick analysis on the voting population sure in, can you tell me a little bit about the the areas you included in fact I was to northern most piece of what I believe to be the downriver area in Detroit.

796

02:45:27.750 --> 02:45:30.360

MICRC1: there's a believer Latino Community there's.

797

02:45:31.980 --> 02:45:34.200

MICRC1: As minority that want to kind of stay together.

798

02:45:37.260 --> 02:45:50.460

MICRC1: As far as I can remember it and I made a little joke because Emily Taylor and South gate could potentially be one district, and then wind down could be one district for another one like this would, I think, would be a good division.

799

02:45:51.630 --> 02:45:54.120

MICRC1: I think the the kind of.

800

02:45:55.290 --> 02:46:05.490

MICRC1: Southwest southward pointing finger what what is that capture that was just grabbing extra population or to get it closer to.

801

02:46:06.030 --> 02:46:23.790

MICRC1: The ideal population for the district well one thought would be then and I don't know this, that if that extension is a significant minority population than just like when yesterday, when we were talking about muskegon that may be may be better to.

802

02:46:27.840 --> 02:46:43.770

MICRC1: make it less less of a narrow REACH and maybe create something broader but right now I don't know what the population is but that's just the thought so Kent did you put the electrons also for five days or less district five highlight it.

803

02:47:27.090 --> 02:47:31.860

MICRC1: Thank you, then, can we go back and look at and see the demographics, for five minutes.

804

02:47:32.940 --> 02:47:34.440

MICRC1: Okay, so.

805

02:47:35.700 --> 02:47:41.370

MICRC1: What is the I don't have on my screen, what is the total minority a VIP for five.

806

02:47:43.980 --> 02:47:52.770

MICRC1: it'd be a it's not for whatever reason, not loading up, but it would be about 26 something Okay, because non Hispanic white is 7362.

807

02:47:55.950 --> 02:48:03.180

MICRC1: Well, based on the election results, your election results, not all virtually all seem to favor.

808

02:48:03.990 --> 02:48:12.030

MICRC1: Support for the minority candidates have choice on the margins and some of the elections are closer than others, but this doesn't seem to be a district where.

809

02:48:12.480 --> 02:48:25.230

MICRC1: The electors alter or two to 3% are some results that have a fairly broad margin so it seems that this is an example and i'm also presuming that there's white crossover supporting.

810

02:48:25.770 --> 02:48:34.800

MICRC1: So, this would seem to be a district, that is, provides an opportunity to elect it's obviously not a majority minority district it's not a plurality.

811

02:48:35.730 --> 02:48:56.910

MICRC1: But it does seem based on the election results to be a district where minority voters cadillac candidates of choice with white crossover support my only thought going forward is that finger that it may be, it may be better to.

812

02:48:58.710 --> 02:49:07.440

MICRC1: make it a more substantial areas of that it's not so so narrow, but other than that as as its configured it does appear to be an opportunity to talk to.

813

02:49:09.960 --> 02:49:10.620

MICRC1: Mr Clark.

814

02:49:11.910 --> 02:49:23.010

MICRC1: He have custom, the extension, you have going south, but I think it was a couple townships or precincts, why did you do it on the West side and not along the Detroit river.

815

02:49:26.610 --> 02:49:33.810

MICRC1: just trying to get closer to zero, I ran both scenarios okay hi there yeah I mean to me.

816

02:49:34.470 --> 02:49:47.310

MICRC1: You were blocked in that whole conventional going up North a little bit, so this will let me, let me answer to that, so the reason why there's another reason as to why I put that just right, where it was.

817

02:49:47.820 --> 02:49:55.980

MICRC1: I put that in there, so why in that review grow sealed trenton everything along those lines, which would be the true.

818

02:49:57.960 --> 02:50:03.420

MICRC1: coastline of the River for those particular communities would be represented by one particular.

819

02:50:05.790 --> 02:50:07.440

MICRC1: house Member.

820

02:50:09.480 --> 02:50:20.340

MICRC1: And then another reason for that particular division is, we can keep Taylor and South gate whole as one district at this particular point.

821

02:50:23.220 --> 02:50:27.510

MICRC1: That was useful for me to hear, thank you, Commission which was Commissioner Commissioner Orton.

822

02:50:28.890 --> 02:50:29.730

MICRC1: So I don't.

823

02:50:31.440 --> 02:50:46.980

MICRC1: This isn't as far as I can tell, I can't see the shapes exactly of each of these places, but it looks like we're taking part of lion dot but not all of it so i'm thinking we could just take a different part would that make a difference, as far as.

824

02:50:48.510 --> 02:51:02.370

MICRC1: I did I did I started going into micro again me just thinking my micro communities and i'm thinking that the individuals that are actually on the River are going to have slightly different feelings about their river than the people who are a couple miles and.

825

02:51:08.820 --> 02:51:13.440

MICRC1: Bruce please I this is this is more of a general comment that.

826

02:51:16.080 --> 02:51:22.590

MICRC1: i'm going to propose somewhat of a mindset change, you know you you I appreciate it, and really.

827

02:51:24.570 --> 02:51:32.610

MICRC1: Note strongly that you you're really working very hard on that with the population and keeping the population deviation as low as possible.

828

02:51:33.300 --> 02:51:47.070

MICRC1: I would suggest a bit of a mind shift about that the populations, the population deviations if they exist beyond the 234 percent can be justified.

829

02:51:47.430 --> 02:51:58.830

MICRC1: So I would suggest that, particularly in Detroit that the two prominent most prominent factors or population overall demographically in the election results.

830

02:51:59.250 --> 02:52:09.240

MICRC1: That the i'm not really seeing anything that comes close to being problematic from a deviation standpoint deviation is judged on the plan as a whole.

831

02:52:09.630 --> 02:52:18.540

MICRC1: You, this is not a Congressional plan, where you really don't have any room, you have some room to play with assuming you can legally justify.

832

02:52:19.110 --> 02:52:27.480

MICRC1: The deviation, so I would respectfully suggest a bit of a mind switch, particularly in urban areas that the.

833

02:52:28.230 --> 02:52:36.990

MICRC1: Demographic population and election results are often can be more significant than the population deviation you're.

834

02:52:37.680 --> 02:52:50.250

MICRC1: you're doing so well with the deviations me i'm not seeing i've done district thing where initial district eight or 12 30% deviations you're not coming anywhere close to that so.

835

02:52:50.700 --> 02:53:05.610

MICRC1: As I said in the urban areas, I would suggest a bit of a looking at things a little bit differently than in more rural areas where you have more issues with capturing population across a wide air Thank you.

836

02:53:07.980 --> 02:53:09.150

MICRC1: As you want to.

837

02:53:10.170 --> 02:53:12.990

MICRC1: Keep it keep it as is for now okay.

838

02:53:14.460 --> 02:53:18.870

MICRC1: um any questions from the Department of State don't worry good, very good.

839

02:53:21.240 --> 02:53:24.180

MICRC1: Thank you, Commission riches to Mr Clark we're up to you.

840

02:53:25.980 --> 02:53:30.900

MICRC1: let's go back up into Detroit open area, we will yeah we're working before.

841

02:53:32.100 --> 02:53:32.640

MICRC1: um.

842

02:53:37.980 --> 02:53:48.900

MICRC1: yeah I think I want to take from district foreign go inward so let's take you see that do you see the diagonal line yeah that one there let's get everything in Detroit.

843

02:53:49.560 --> 02:54:01.380

MICRC1: into this next district can see where we're at so this will be district six are you modifying for know district six Okay, all this area in here to start correct okay not harper words.

844

02:54:29.130 --> 02:54:31.170

MICRC1: it's merely selected, it is not.

845

02:54:32.310 --> 02:54:34.500

MICRC1: Signed yet okay let's assign it.

846

02:54:35.940 --> 02:54:37.380

MICRC1: To the population, I have to.

847

02:54:47.160 --> 02:55:02.160

MICRC1: Your 17,000 short 90% non Hispanic black okay here here's the here's The problem we go to harper woods, we looked at that before so we know that's what 60 some percent black.

848

02:55:02.790 --> 02:55:12.180

MICRC1: Yes, we go into East point I think we're going to see the exact same thing so it's almost like take harper woods and then St Clair shores.

849

02:55:13.470 --> 02:55:20.970

MICRC1: So go get a card rewards and then take a right angle, or to.

850

02:55:23.760 --> 02:55:26.010

MICRC1: villain gross point shores.

851

02:55:28.800 --> 02:55:33.540

MICRC1: I think you may have a continuity piece that may be important, making sure he has a comment to.

852

02:55:34.860 --> 02:55:51.510

MICRC1: yeah I don't want to go up to St Clair shores okay here 1500 people short okay let's go village sugars point shores let's see what we get Chris well it can't get too close well where's close point shores well anyway yeah, we have to go over that way.

853

02:55:52.740 --> 02:56:04.200

MICRC1: From okay that's 77 people there yeah we don't want to miss is 58 you know I don't go North harford take yeah it's just north on her porch and take that township.

854

02:56:05.040 --> 02:56:13.320

MICRC1: Commissioner need did you have a comment, not at a township or precinct to precinct i'm sorry which one this one that's that one.

855

02:56:16.710 --> 02:56:26.700

MICRC1: I did the townships on do it, I get a Sunday many people, as he Cynthia your hand, did you do, but i'm going to make sure we can be sure he did you have a comment or no.

856

02:56:28.740 --> 02:56:35.520

MICRC1: Well yeah I think for comparison, where you might want to do is have what you're drawing now and then compare it to.

857

02:56:35.940 --> 02:56:45.480

MICRC1: What you're drawing but with those two cross point districts, to the right those two girls point townships to the right included in it and see what that does to the numbers.

858

02:56:45.930 --> 02:56:58.560

MICRC1: you'd have to take out a little bit like the southern portion of this district six, but it would drop the minority population, I think, to an acceptable level so you're you're saying integrate.

859

02:56:59.820 --> 02:57:02.430

MICRC1: Those two gross points that are for right now.

860

02:57:05.940 --> 02:57:20.580

MICRC1: I think compare it and then see what it does that's if I remember right, this is 16,000 correct so you're 1500 short now so if you put this in you need to back out \$15,000 six.

861

02:57:22.200 --> 02:57:29.610

MICRC1: Commissioner Gordon may have a solution for your ministry, well, I was just thinking, I think, maybe turned off the theme.

862

02:57:31.110 --> 02:57:37.110

MICRC1: bubbles, to make it easier to see, but maybe that would help us know which direction to go yeah.

863

02:57:38.610 --> 02:57:45.660

MICRC1: Let me get it back, we have to go to voting precincts to get the makes it a little bit harder but.

864

02:57:46.680 --> 02:57:54.570

MICRC1: that's 3000 people there that's 1800 2600 1900 2500.

865

02:57:55.980 --> 02:58:06.540

MICRC1: Oh 73% black 7763 63 so that's 33 to.

866

02:58:07.560 --> 02:58:15.390

MICRC1: 73 almost proportionally sit away it's dry now we're 91% minority which is significant.

867

02:58:17.040 --> 02:58:26.220

MICRC1: Well, and to that point and I agree that you're right, and I think it's also important to you know as as an illustration, this is where one of the.

868

02:58:27.360 --> 02:58:35.820

MICRC1: districts that Dr handley highlighted in her analysis had like 90% black population, so I know that.

869

02:58:36.270 --> 02:58:44.640

MICRC1: That I spoke with some of you about about that point before and had you know where I know Mr Roth, on you and I talked about that a lot.

870

02:58:45.180 --> 02:58:55.380

MICRC1: That knowing where these districts are two districts that translate highlighted this is where at least a couple of them are so I think that that.

871

02:58:55.680 --> 02:59:03.300

MICRC1: kind of illustrates what her our point about and what I was saying earlier, what would be the justification for having.

872

02:59:03.720 --> 02:59:14.160

MICRC1: A minority population is Commissioner karch said that's so high, and so far above the ability to elect percentage range that's something she.

873

02:59:14.520 --> 02:59:28.860

MICRC1: pointed out, when we were in Ann arbor and I that's an important consideration going forward, since this is the area where at least I believe couple those districts, as they currently are under the 2010 plan.

874

02:59:30.330 --> 02:59:30.900

MICRC1: exists.

875

02:59:33.240 --> 02:59:57.090

MICRC1: A side note I just clicked on a bunch of these precincts all through here and they're generally 80 to 90% African American unless they're piney precincts arm like that so it's only 52 people, you have to keep in mind when you see these dots it may be 16% but it's not a big number overall.

876

02:59:58.440 --> 02:59:59.640

MICRC1: What if we went.

877

03:00:02.040 --> 03:00:02.520

MICRC1: On.

878

03:00:03.960 --> 03:00:08.970

MICRC1: The upper East side there's 2948 is a township.

879

03:00:10.440 --> 03:00:24.570

MICRC1: yeah that is 2948 33% African American okay let's say you take take that one and the two to the east or no take that one and.

880

03:00:28.320 --> 03:00:30.090

MICRC1: And then we're going to have to eliminate some.

881

03:00:37.080 --> 03:00:42.240

MICRC1: Make sure I get it right, these two i've had had how am I am 3025 below.

882

03:00:44.580 --> 03:00:51.990

MICRC1: So that will give you 9000 so you can add that the duck rough yeah it'll be in the service deanna so I gotta give.

883

03:00:54.690 --> 03:00:56.250

MICRC1: And it gives me 90,000.

884

03:00:58.200 --> 03:01:12.630

MICRC1: That gets you, you know considerably over it, but, oh no let's look at the percentage and let's look at the percent 8% over you dropped a non Hispanic black to yeah 79 and a half percent Commissioner Lang has a has a thought here.

885

03:01:15.210 --> 03:01:21.840

MICRC1: I haven't I haven't deleted some down below do I don't think I need to confirm let's look like me, surely i'm sorry.

886

03:01:22.920 --> 03:01:25.890

Rhonda Lange: i'm just curious why you went to go.

887

03:01:27.990 --> 03:01:34.410

Rhonda Lange: How, you have number six all grouped together right now why you wouldn't kind of split that and go to the.

888

03:01:35.640 --> 03:01:46.170

Rhonda Lange: West where they're still dots but where he's saying they might not be as big a population of African Americans so you're still.

889

03:01:47.430 --> 03:02:04.980

Rhonda Lange: Getting African Americans in there, but it might lower your overall percentage like were it showing the Coleman a young international airport is there a particular reason why you're not considering going that way and kind of breaking up this big swath of six to a less.

890

03:02:06.420 --> 03:02:09.060

Rhonda Lange: I guess African American populated area.

891

03:02:11.310 --> 03:02:24.600

MICRC1: Well yeah it also depends what the population is there because the air, I mean the airport takes up a lot of that real estate, but just for a quick look let's just do then yeah I think it's for what sparked down at the.

892

03:02:25.620 --> 03:02:44.220

MICRC1: I don't know I mean if you go across here you're going to impact, how you draw districts in the whole area anyway here's the just just quickly on 75% 75% 96 and i'm not going to hit them all, but a sampling of them.

893

03:02:46.770 --> 03:02:57.690

MICRC1: yeah the percentages are still higher yeah I mean they're in the 90s and Upper upper 90s, even a smaller precinct so you'll have to take more, but each still end up.

894

03:02:59.190 --> 03:03:03.180

MICRC1: with high numbers on seo and the only way I see.

895

03:03:05.280 --> 03:03:13.590

MICRC1: Getting the percentage down more is eliminate some down toward in Detroit down toward the bottom and then moving up toward St Clair shores.

896

03:03:15.930 --> 03:03:24.090

MICRC1: In that that's possible and I think that when you were doing the Senate districts, I think that there were similar conversations and.

897

03:03:25.140 --> 03:03:29.790

MICRC1: Discussion so that I mean that that could be a way to address this as well.

898

03:03:31.530 --> 03:03:40.050

MICRC1: What would you recommend doing that, compared to what we have at this point, well, I think, to Commissioner lange's point and what we've talked about.

899

03:03:40.500 --> 03:03:52.620

MICRC1: Generally, I think, exploring alternative is to see which which one's work best for you, I think that's always a great idea yeah I do too um so let's take.

900

03:03:55.470 --> 03:04:03.090

MICRC1: let's add first so we know how much to subtract out going up and take the 2971 3027 and the 77.

901

03:04:04.260 --> 03:04:05.910

MICRC1: let's take those yeah.

902

03:04:12.630 --> 03:04:21.210

MICRC1: This precinct goes out in the water, but population wise it's all right there yeah and then maybe the 2167 as well.

903

03:04:21.930 --> 03:04:37.110

MICRC1: Then i'm going to go down and reduce down in the Detroit area Commissioner Well he dropped 13,000 oh boy I mean we can keep adding up here yeah, but when you take 13,090%.

904

03:04:38.010 --> 03:04:55.050

MICRC1: African American district out it's going to have a significant because that's over 15% of the district alone so let's go down to the southern part of the southern part of the district Commissioner Gordon has a thought yeah so just looking at this overall um.

905

03:04:56.310 --> 03:04:56.730

MICRC1: I have.

906

03:04:57.750 --> 03:05:07.230

MICRC1: I have a comment, which I think will be very unpopular, but I think it's worth maybe having a discussion about the only way I see to.

907

03:05:08.070 --> 03:05:15.840

MICRC1: make these districts makes more of these districts more balanced racially is to break up communities of interest.

908

03:05:16.440 --> 03:05:35.640

MICRC1: Because the only places I see our hamtramck dearborn dearborn Heights and the growth points that you know show as not African American, we know that there are certain populations and certain communities of interest in those and other areas, but.

909

03:05:37.110 --> 03:05:42.870

MICRC1: We have, I think we need to discuss what trump's and we know that's the era.

910

03:05:44.220 --> 03:05:51.570

MICRC1: And we have to stay within the population so something has to be we're also have the same problem when we start doing West Detroit.

911

03:05:51.900 --> 03:06:00.120

MICRC1: You can take a look at the map exact same problem we're confronted with right now, you get into my firm, as I see a nod from Commissioners are telling I see Commissioner heats hand.

912

03:06:02.100 --> 03:06:06.720

MICRC1: And then Commissioners until after Commissioner eat yeah that's I mean, I agree.

913

03:06:07.320 --> 03:06:15.360

MICRC1: Unfortunately I don't like that I agree, but that's kind of like how I started this conversation I think we might have to break up rose point because that's.

914

03:06:15.690 --> 03:06:24.690

MICRC1: Where the demographics are the only place I wouldn't agree with his dearborn because that has a different significant minority population that should also be effect.

915

03:06:25.140 --> 03:06:40.230

MICRC1: mentioned also be protected, but as far as the other areas that I think that's only way I see it, working yeah commissions to tell him or them can shorten you have a comment before commissions of telling commercials TV Commissioner Gordon.

916

03:06:40.650 --> 03:06:51.210

Rebecca Szetela: Okay yeah I was gonna say the same thing that, and this is kind of what i've mentioned before, about the kind of first tier suburbs that are around Detroit that we're going to have to pull into them.

917

03:06:52.560 --> 03:07:02.910

Rebecca Szetela: In order to balance out Detroit that's just going to be the way it's going to have to be is that we're going to have to come out into lavonia we're going to have to come out into read you know read for it a little bit into farmington hills, where I look.

918

03:07:03.360 --> 03:07:08.460

Rebecca Szetela: All of those areas to balance the districts I just don't see any other way around it.

919

03:07:10.110 --> 03:07:19.110

Rebecca Szetela: And I frankly don't think any particular community should be should have sort of protected status, so to speak, and be.

920

03:07:20.100 --> 03:07:28.500

Rebecca Szetela: preserved from that so even with respect to dearborn I think we could probably break dearborn up two or three ways and pull in those areas of Detroit.

921

03:07:28.860 --> 03:07:38.640

Rebecca Szetela: to balance out the population and I don't think that's entirely inconsistent, either because there is quite a significant Arab American population in Detroit as well it's not just dearborn.

922

03:07:38.970 --> 03:07:48.870

Rebecca Szetela: Those border areas of dearborn also have a significant Arab American population, so I think with the the numbers that we're dealing with we're 90 some odd thousand people.

923

03:07:50.460 --> 03:08:06.180

Rebecca Szetela: You know in and of itself, there are going to be some slips and communities of interest and I think we can balance that effectively while still allowing fair representation, but to do that we're going to have to venture into these sort of tier one tier two suburbs around Detroit.

924

03:08:06.840 --> 03:08:09.510

MICRC1: Yes, modification of our spoke.

925

03:08:11.100 --> 03:08:18.120

MICRC1: strategy and to be clear commissions to tell you also including the points as a team first tier server is that is that accurate.

926

03:08:18.180 --> 03:08:19.410

MICRC1: yeah yeah.

927

03:08:20.580 --> 03:08:24.030

MICRC1: So so let's do this camp and then before.

928

03:08:24.360 --> 03:08:32.250

Rebecca Szetela: I would just add to that keep in mind, you know we've talked about this concept quite a bit that we may not be able to do everything with one map so.

929

03:08:32.640 --> 03:08:39.210

Rebecca Szetela: Maybe we can't keep the points together with house districts, but they are together, I believe, for Congressional and they are together for Senate.

930

03:08:39.450 --> 03:08:52.560

Rebecca Szetela: So I mean that you know, in order to accomplish our requirements under the Constitution, maybe we can't hit everything on every map, but we can, I think accommodate most things, when you look at the combination of all of our maps together.

931

03:08:54.630 --> 03:08:57.000

MICRC1: Thank you cheers a ton of Bruce adelson please Thank you.

932

03:08:58.080 --> 03:09:11.010

MICRC1: and, frankly, I think this conversation is what redistricting is all about that, yes, you are making choices and, yes, that not everything you can do everything in one map, but I think.

933

03:09:11.940 --> 03:09:19.590

MICRC1: chairs the Tele made a good point that maybe if your goal was to keep certain communities together or maybe do that in.

934

03:09:20.070 --> 03:09:23.040

MICRC1: One of the maps but you're not able to do it in another map.

935

03:09:23.550 --> 03:09:33.600

MICRC1: Because also the population is different, so if you're creating all of all of your districts where the same as let's say the Senate, for example, 200,000 plus you have more room to play.

936

03:09:34.050 --> 03:09:42.480

MICRC1: But I would also say rhetorically is you're examining this and thinking through it, if you look at the current districts that were created in the.

937

03:09:43.140 --> 03:09:54.240

MICRC1: Wayne county Oldham county mcombc county border area and just ask yourself why was that district created the way it was why did that district not expand north or West.

938

03:09:55.470 --> 03:10:07.080

MICRC1: And I suspected you'll come up with a lesser of answers given what what you're weighing now, but I do think that the keeping the criteria and rank order is is paramount.

939

03:10:07.740 --> 03:10:19.320

MICRC1: Looking at the the voting rights act of course in one person, one vote is the number one but also looking at this in a way, very holistically you have free maps for three different.

940

03:10:20.130 --> 03:10:32.010

MICRC1: representative bodies, and I think that, if you look at and look at it in that way, and being able to meet one community's concern here and another's here in this particular map.

941

03:10:32.460 --> 03:10:44.820

MICRC1: I think that's doing pretty well is you in my experience in the statewide redistricting, it is the rare statewide body that can do everything for everybody in all of the maps, I mean I.

942

03:10:45.360 --> 03:10:55.110

MICRC1: i'm welcome to see that happen, but i'm skeptical about that, and I wanted to tackle both Commissioner each comment and Commissioners to tell us comment about the.

943

03:10:56.340 --> 03:11:07.110

MICRC1: Arab American Middle Eastern population that the you, you are more familiar with the areas than certainly than I am being aware of areas that.

944

03:11:07.440 --> 03:11:14.280

MICRC1: may also support the district three in this configuration configuration as an opportunity to elect district.

945

03:11:14.640 --> 03:11:24.720

MICRC1: Retaining that and if you didn't retain that by taking whatever population you feel is necessary, certainly, as you know, as the theme has been give it a shot and let's see.

946

03:11:25.260 --> 03:11:34.110

MICRC1: let's see what happens, but I think that that Middle Eastern North African population is is important to remember, for many reasons.

947

03:11:35.610 --> 03:11:39.510

MICRC1: So let's do this camp can restore infrastructure.

948

03:11:42.180 --> 03:11:59.880

MICRC1: So i'm not sure we'll be able to do this, but for me not being super familiar with all of the areas of Detroit if we could since we're still right at the beginning here if we could kind of see like we're seeing now, so I don't know the dots are really representative of.

949

03:12:01.080 --> 03:12:11.610

MICRC1: percentage like are they bigger when the percent is bigger it doesn't always seem to be the case anyway i'm thinking if we could look at the overall picture and see what directions.

950

03:12:12.120 --> 03:12:23.820

MICRC1: we're gonna have to move it might be helpful, what I what I would I was looking at the same thing the bigger guys what seems like the smaller BATs are down in the southern part of this district that i'm trying to I want to go back update on.

951

03:12:24.750 --> 03:12:37.650

MICRC1: Which is the border for Detroit and the Western districts that's just south of East point on, but in Detroit Oh, I want to take away.

952

03:12:38.760 --> 03:12:40.050

MICRC1: Can you make a little bitter.

953

03:12:41.460 --> 03:12:42.990

MICRC1: yeah I want to take away.

954

03:12:44.700 --> 03:12:45.090

MICRC1: The.

955

03:12:51.420 --> 03:12:52.980

MICRC1: I want to come down that died.

956

03:12:54.090 --> 03:12:54.630

MICRC1: A little bit.

957

03:12:56.130 --> 03:13:04.290

MICRC1: When I assign them, you know in groups and incorrect, so we stay on track yeah I can stay on track yeah that's fine so.

958

03:13:08.790 --> 03:13:14.760

MICRC1: That that that went right over to your hope or woods, is that what you mind oh yeah Okay, and then.

959

03:13:15.870 --> 03:13:33.150

MICRC1: i'm gonna have to take some more, I think, and then I want to see where we are population, we need about 4000 out that 17 and 16 is 33 and they so i'm just going to do some you holler or let me know it's not appropriate.

960

03:13:35.670 --> 03:13:45.300

MICRC1: yeah that's the direction I want to go on, and I want to take the 1709 17 of the three, I think it is this one, yes, go down there sorry.

961

03:13:46.770 --> 03:13:47.460

MICRC1: i'm.

962

03:13:49.200 --> 03:13:55.980

MICRC1: Up bring your attention you're a mere 511 under you can go continue on or are currently but.

963

03:13:59.730 --> 03:14:04.350

MICRC1: let's can't can we take a look at verse can we take a look at face percentages not.

964

03:14:06.270 --> 03:14:24.120

MICRC1: Only did the percentage has changed, so the yeah voting age population, the African American but be be be that by voting age population has declined, and I think is, you know as part of our competitive analysis let's look at the electronic.

965

03:14:25.500 --> 03:14:31.830

MICRC1: So we can see how right now, as its constituted how the election returns, but.

966

03:14:33.090 --> 03:14:39.690

MICRC1: This time we're starting on the right and going to left it so you're trying to confuse yes, thank you for.

967

03:14:41.880 --> 03:14:42.450

MICRC1: The record.

968

03:15:21.120 --> 03:15:25.860

MICRC1: You know, I think it and go go all the way to the left, we can see the 2012 presidential.

969

03:15:27.090 --> 03:15:44.160

MICRC1: Thank you so to me what's interesting about these results, it seems that that the results become stronger for wider support for candidates of choice, the more recent the elections are I don't have an explanation for that it is interesting to note that.

970

03:15:45.210 --> 03:15:52.230

MICRC1: The further away, you get from 18 and 20 the election results are not as strong I think there's still.

971

03:15:52.770 --> 03:16:08.310

MICRC1: Support the candidates of choice, but the margins are much smaller so right now the district is does provide minority voters, based on the election results, the opportunity to elect candidates of choice, the you know the.

972

03:16:10.680 --> 03:16:13.080

MICRC1: This district may present some.

973

03:16:14.220 --> 03:16:17.070

MICRC1: With this area may presented its own unique.

974

03:16:18.120 --> 03:16:30.000

MICRC1: aspects because it's possible that the election results are closer because of the areas that were added to the east of East point that perhaps they.

975

03:16:31.170 --> 03:16:42.330

MICRC1: don't support candidates of choice, at the same level, but since this is, this is still seems to be a minority candidate of choice, supporting district, the the.

976

03:16:43.980 --> 03:16:47.040

MICRC1: beef up the black voting age population still pretty high.

977

03:16:49.140 --> 03:16:58.110

MICRC1: And then we can we can see how as as you do other districts in the area, how that all works out, it is just interesting, as I said that the.

978

03:16:58.470 --> 03:17:08.490

MICRC1: Election results to the further away, you get from last year just seem to be closer than the more recent ones, for whatever reason, you say this is acceptable from.

979

03:17:09.570 --> 03:17:19.110

MICRC1: You know, from a legal standpoint as we move forward if this were the this word your final district, and you were already to approve this.

980

03:17:20.490 --> 03:17:33.630

MICRC1: mom still concerned that the black vote age population is pretty high and higher than Dr handley has had analyzed yes, it is the adjustments have improved the.

981

03:17:36.180 --> 03:17:41.400

MICRC1: population from a legal standpoint, but I would still have some questions about the.

982

03:17:42.600 --> 03:18:01.740

MICRC1: The number of the black voting age population, particularly since this is one of the specific areas that she highlighted from the current 2000 so let's make one more change camp in the in the green area where we went outside of Detroit there's a precinct just to the north.

983

03:18:04.380 --> 03:18:15.180

MICRC1: Over not 2167 is the number of people were a month are no go out go out toward the to the lake.

984

03:18:16.200 --> 03:18:22.260

MICRC1: yeah and up the 2167 just up next one up from your okay let's try that.

985

03:18:25.410 --> 03:18:26.220

MICRC1: and

986

03:18:29.970 --> 03:18:31.440

MICRC1: make some difference let's try to.

987

03:18:32.550 --> 03:18:48.840

MICRC1: In the 1631 as well take those two so now I got to reduce people again down in Detroit to make this happen and Commission like I was going to suggest that you put the Detroit neighborhoods overlay on so that you try to keep crime fits together Steve African bit suggestion.

988

03:18:50.010 --> 03:18:56.760

MICRC1: It dropped it to 68 in the when you drop your 7% out, it should show up.

989

03:18:57.960 --> 03:18:59.430
MICRC1: The chain okay.

990
03:19:00.660 --> 03:19:02.010
MICRC1: Now what I wanted to.

991
03:19:08.070 --> 03:19:08.490
MICRC1: Reduce.

992
03:19:10.470 --> 03:19:11.970
MICRC1: yeah okay.

993
03:19:14.250 --> 03:19:19.500
MICRC1: So let's go over where we stopped before couple oil.

994
03:19:20.850 --> 03:19:30.180
MICRC1: yeah This is where the heavier one Sir Okay, I want to get the to
7791311 in 1650 to skip those.

995
03:19:33.060 --> 03:19:34.590
MICRC1: Then we'll take a look at the neighborhoods.

996
03:19:41.760 --> 03:19:49.620
MICRC1: And to get them up to seven, so that the 1713 that's an harper
woods oh I don't know no I.

997
03:19:50.670 --> 03:19:55.140
MICRC1: don't want to touch on so where we are population.

998
03:19:58.140 --> 03:20:04.530
MICRC1: 1600 above ideal I think we're okay with that let's can we take a
look at the numbers again with Bruce.

999
03:20:05.370 --> 03:20:14.940
MICRC1: I think you want to look at the trade overlay first like oh yeah
broken up some new words let's get the overlay in the neighborhoods and I
want to split up neighborhoods because I have to.

1000
03:20:17.610 --> 03:20:28.530
MICRC1: You have this neighborhood here Okay, that is split my having
this the one previously well I think previously now this one.

1001

03:20:31.920 --> 03:20:33.360

MICRC1: Let me see those neighborhoods again.

1002

03:20:38.220 --> 03:20:38.970

MICRC1: So is.

1003

03:20:40.170 --> 03:20:46.560

MICRC1: He sent me a square isn't it can be then be a split morose moraine so let's.

1004

03:20:47.670 --> 03:20:48.090

MICRC1: let's.

1005

03:20:50.880 --> 03:20:53.430

MICRC1: I do think you can add those back, and I think you've got some.

1006

03:20:54.000 --> 03:21:04.290

MICRC1: Population Downs further south where you can add the population further south has less black oh that's you know what i'm trying to do is reduce the black population, I say, well, I think, to this.

1007

03:21:04.950 --> 03:21:19.950

MICRC1: As commercial RON said, maybe that you keep those that neighborhood whole yeah and see what you can do as you said, she's been going further south okay let's let's put Denby back and.

1008

03:21:21.270 --> 03:21:22.440

MICRC1: rows back.

1009

03:21:24.750 --> 03:21:24.960

MICRC1: yeah.

1010

03:21:27.510 --> 03:21:29.340

MICRC1: we'll go further south and see what we can do.

1011

03:21:31.800 --> 03:21:36.660

MICRC1: And the reason I chose was because they were having more heavily populated with African American yeah.

1012

03:21:38.160 --> 03:21:47.160

MICRC1: With the southern ones I just looked at 90% what is it that the ones I looked at down below or 90% so it may work out.

1013

03:21:53.130 --> 03:21:55.530

MICRC1: Okay let's go down South little.

1014

03:22:03.360 --> 03:22:04.050

MICRC1: EDEN gardens.

1015

03:22:13.980 --> 03:22:15.840

MICRC1: that's what's the population there.

1016

03:22:18.030 --> 03:22:26.490

MICRC1: You still need to drop 6000 or something i'll do all of the EDEN garden see what that does because it's like this sections in a different precinct.

1017

03:22:27.990 --> 03:22:31.200

MICRC1: You may not see this precinct went down here.

1018

03:22:32.400 --> 03:22:41.550

MICRC1: And now you're 2.62% high if you want to keep this neighborhood whole and this neighborhood all we need to add back in the census blocks.

1019

03:22:44.130 --> 03:23:02.790

MICRC1: And those census fox or with which neighborhood this is this is our drive hey, these are all let's let's add them back in okay let's do that I I hate doing it by census block but it's important to Detroit people to keep the neighborhoods together.

1020

03:23:04.140 --> 03:23:05.580

MICRC1: Agreed yeah.

1021

03:23:13.710 --> 03:23:16.920

MICRC1: deviation of 2.6% doesn't bother me a lot.

1022

03:23:20.160 --> 03:23:23.400

MICRC1: you're getting some nodding heads Commission Clark okay good.

1023

03:23:25.980 --> 03:23:30.990

MICRC1: And down or left and not shaking but nodding yes and they're not nodding off.

1024

03:23:33.300 --> 03:23:33.690

MICRC1: yeah.

1025

03:23:35.520 --> 03:23:37.920

MICRC1: Well, we want to make this right for the Detroit people.

1026

03:23:39.150 --> 03:23:44.730

MICRC1: Well, said so where you're at now is 3.91% hi and I need to.

1027

03:23:45.900 --> 03:23:49.200

MICRC1: Put that one census blocking the EDEN gardens yeah.

1028

03:24:01.290 --> 03:24:13.650

MICRC1: So you're now at 3.91% higher under 4% non Hispanic black voting age population is now okay 64 i'm good at that let's see what.

1029

03:24:14.310 --> 03:24:21.990

MICRC1: If you want to that that little airport subdivision that little corner, you can take that out, and then you keep that allow that airport subdivision neighborhood to behold.

1030

03:24:23.640 --> 03:24:35.160

MICRC1: You see, I mean it's not a lot of population I don't think, and I think your high at this point so if you take it out on foreign you, you see the concept, where where he's already kiss where it says airport sub yeah airports.

1031

03:24:36.240 --> 03:24:44.520

MICRC1: And what neighborhood is that it says airport airport sub neighborhood yeah okay let's take that and see what happens.

1032

03:25:17.400 --> 03:25:24.030

MICRC1: You taught me were you referring to just that small piece of the whole thing you know just that small piece like here yeah.

1033

03:25:33.600 --> 03:25:38.580

MICRC1: seems to be a smaller and black population yeah according to the circles right.

1034

03:25:44.370 --> 03:25:55.410

MICRC1: I think that covered it I don't think I missed up I did this one, let me get there, oh yeah I still be I know it's gonna be over so you're still 3.59% and he cleaned up the.

1035

03:25:59.670 --> 03:26:00.120

MICRC1: Okay.

1036

03:26:03.360 --> 03:26:19.680

MICRC1: So these dots are excuse me, and these dots are on the population of the census block percentages that's why they're gonna be small, because they're small numbers okay so we're still 3200 above but that's Okay, I think.

1037

03:26:21.750 --> 03:26:32.760

MICRC1: Excuse me yeah certainly for now yeah absolutely and I think that when you get to the point of evaluating deviation on the on an entire plan scale.

1038

03:26:33.150 --> 03:26:46.620

MICRC1: You get a better sense of that but, clearly, a 3.5 deviation is not by itself problematic so it's certainly not for purposes of what's happening yeah yeah I think.

1039

03:26:47.670 --> 03:26:49.890

MICRC1: we're looking at this less than 5%.

1040

03:26:51.990 --> 03:26:58.470

MICRC1: So I yeah I feel good about Okay, I think i'd like to keep this i'm in I.

1041

03:26:59.550 --> 03:27:04.890

MICRC1: like to thank people for their help and recommendations on on this um.

1042

03:27:06.720 --> 03:27:12.570

MICRC1: it's a common problem we're going to see gone through the rest of the Detroit from what I can see we're gonna have to go outside the city.

1043

03:27:13.650 --> 03:27:16.380

MICRC1: So okay i'm good with it.

1044

03:27:17.640 --> 03:27:24.810

MICRC1: And you the thumbs up from the Secretary of State good okay yeah I mean basically what we've done is we've had to.

1045

03:27:26.010 --> 03:27:42.570

MICRC1: Literally had an order 90 some percent black district, and we have to change that that was really out of spec of what we're looking at

from the era, so we went out into the suburbs outside Detroit to get that down and.

1046

03:27:43.980 --> 03:28:04.710

MICRC1: And then we eliminated some of the population that we can ritual district, so it was really basically a whole African American issue a concentrated African American issue thanks I didn't deal with any of the other minorities thinks the explanation Commission I think we're all set.

1047

03:28:06.840 --> 03:28:09.000

MICRC1: I believe we don't need.

1048

03:28:10.200 --> 03:28:10.740

MICRC1: To map.

1049

03:28:16.320 --> 03:28:19.650

MICRC1: Okay, I think i'd like to finish out mapping out.

1050

03:28:20.880 --> 03:28:32.190

MICRC1: The Arab American Community here, so we did a good job, I think, with district three I think we just need to complete it so let's go there let's take the rest of dearborn.

1051

03:28:34.770 --> 03:28:36.660

MICRC1: This area in here yep okay.

1052

03:28:42.660 --> 03:28:54.450

MICRC1: So it is going to be the whole township is, I am going to highlight that that so that's the entire township so right just the part that's left of it, I see your hand chairs, to tell do you have a comment.

1053

03:28:54.870 --> 03:29:07.800

Rebecca Szetela: yeah before he does that can we adjust the neighborhoods because dearborn does actually have really distinct neighborhoods and we've split three of them with this current map that could just use some simple adjustments to put them back together.

1054

03:29:08.580 --> 03:29:11.760

MICRC1: yeah that's fine we'll come to that you want to help direct or chemistry.

1055

03:29:12.810 --> 03:29:16.260

MICRC1: Together, yet so it's all it can do it um but yeah.

1056

03:29:21.270 --> 03:29:34.470

MICRC1: just remind you to Commissioners to try not to speak over each other at the same time, it makes things difficult for translators at this point district three is 20% high or 18,000.

1057

03:29:38.520 --> 03:29:44.400

MICRC1: No undo it again, it was it was fine how it was before we're just going to reconfigure it a little bit.

1058

03:29:51.900 --> 03:29:52.890

MICRC1: i'll get i'm getting back.

1059

03:29:54.150 --> 03:29:57.630

MICRC1: In a Britney assigned at seven because I thought that's where we were going with it.

1060

03:30:01.980 --> 03:30:09.360

MICRC1: That is district three as we came in so district three is dead on the numbers, so you want me to highlight just this area.

1061

03:30:11.040 --> 03:30:13.830

MICRC1: So Commissioners patella is going to.

1062

03:30:15.270 --> 03:30:20.220

MICRC1: edit this a little bit to get the neighborhoods that are split back together.

1063

03:30:20.820 --> 03:30:32.310

Rebecca Szetela: yeah so just where you just had your cursor ken's that south of Michigan avenue area that's Crowley park neighborhood we want to keep that together so go back down to where you were yeah those two precincts.

1064

03:30:33.810 --> 03:30:33.990

MICRC1: yeah.

1065

03:30:34.020 --> 03:30:35.070

Rebecca Szetela: put them into three.

1066

03:30:35.820 --> 03:30:36.270

Okay.

1067

03:30:57.510 --> 03:31:03.000

MICRC1: Okay now we're are on me it's almost ideal point see my bed.

1068

03:31:07.350 --> 03:31:09.240

Rebecca Szetela: And there's a lot of population there um.

1069

03:31:10.830 --> 03:31:11.580

Rebecca Szetela: So.

1070

03:31:12.810 --> 03:31:20.520

Rebecca Szetela: Now I would go up to the upper edge the upper Northwest edge that's golf golf crest of view.

1071

03:31:21.810 --> 03:31:26.580

Rebecca Szetela: neighborhood and take that off and see where that puts us at so that precinct right there yeah.

1072

03:31:27.300 --> 03:31:27.990

MICRC1: and assign it.

1073

03:31:28.110 --> 03:31:29.310

Rebecca Szetela: yeah and assign it.

1074

03:31:38.100 --> 03:31:38.520

MICRC1: Okay.

1075

03:31:39.240 --> 03:31:42.300

Rebecca Szetela: And then what's that next precinct that's jutting out that's.

1076

03:31:45.120 --> 03:31:58.290

MICRC1: get the information and i'll just click on it will be quicker Oh, it has a total population of 1600 and of course it doesn't it yeah yeah I don't have names, but that's 1600 yeah.

1077

03:31:58.350 --> 03:32:14.970

Rebecca Szetela: So I take that out to you, and that should be pretty good, and then we, we are keeping together river river river band golf cross off you and then we've got probably park back together again so that sort of fixes the neighborhood splits all right Anthony i'm handing it back to you.

1078

03:32:17.430 --> 03:32:25.950

MICRC1: Wonderful I think that's a stew, and thank you for doing that um alright, so now let's take the rest of dearborn.

1079

03:32:27.900 --> 03:32:36.240

MICRC1: So, making a new district district seven yeah okay i'm just going to highlight them and then we'll assign them at your discretion.

1080

03:32:47.400 --> 03:32:49.980

MICRC1: Alright that's 17,000 i'll sign that.

1081

03:32:53.940 --> 03:32:58.200

MICRC1: OK, and now assign the rest of dearborn heights to this district as well.

1082

03:32:59.520 --> 03:33:00.990

MICRC1: All of the highlights because.

1083

03:33:02.310 --> 03:33:03.630

MICRC1: yeah it kind of goes around.

1084

03:33:17.370 --> 03:33:28.380

MICRC1: Okay, we need a little bit more now what we have now is very close to what the Community has submitted to us as being their communities as being their population.

1085

03:33:28.890 --> 03:33:36.270

MICRC1: I don't really see this as a community of interest, I see it, more as a voting rights issue for a minority population, and I think that what we have now.

1086

03:33:36.750 --> 03:33:45.240

MICRC1: works, we just need to add a little bit more and we heard a couple I think a week ago that inkster probably shouldn't be here with this district.

1087

03:33:45.780 --> 03:34:01.260

MICRC1: So you know we got to go somewhere, though, so I would like to ask them insurance a Tele would it be better to include a little bit of garden city, a little bit of Taylor i'm a little bit of redford where do you think to go from here to get that extra 10,000 people.

1088

03:34:01.680 --> 03:34:13.920

Rebecca Szetela: So I would go either way, so you could grab into a little bit of garden city that's very similar to the western edge of

dearborn heights or you could grab that upper part of Taylor, which is very similar to southern different heights either either way would work.

1089

03:34:14.880 --> 03:34:20.160

MICRC1: Commissioner Gordon has a hand to so well I don't know these populations, we.

1090

03:34:21.450 --> 03:34:23.520

MICRC1: Can we see the dots again.

1091

03:34:24.750 --> 03:34:25.290

MICRC1: I think.

1092

03:34:26.550 --> 03:34:32.970

MICRC1: Like garden city doesn't show any dots I think we should avoid that because we need to eat.

1093

03:34:33.840 --> 03:34:39.300

MICRC1: Well, I don't know, maybe we're getting out of the city now but i'm just thinking, we need to.

1094

03:34:39.840 --> 03:34:45.990

MICRC1: Balance that out as much as possible with the African American population as well, and then to that.

1095

03:34:46.320 --> 03:34:56.130

MICRC1: I have this memory of sort of the Western side of Detroit right the eastern side right just north and west of district seven and west of district three right that publishes that also Arab.

1096

03:34:56.580 --> 03:35:03.540

MICRC1: conduct could be could that be a justification to sort of keep that Arab community there is there an Arab community there no okay.

1097

03:35:05.880 --> 03:35:06.300

Rebecca Szetela: No.

1098

03:35:06.930 --> 03:35:08.130

MICRC1: Okay Commission click.

1099

03:35:09.510 --> 03:35:19.650

MICRC1: I support what Cynthia said no, because the air of American population is basically considered in the census data is white.

1100

03:35:20.670 --> 03:35:30.960

MICRC1: And so I think we need to and that's what it's kind of showing us statistics boost is going to look at, so I think we need to move to the east and get the more heavily populated black areas.

1101

03:35:32.760 --> 03:35:34.380

Rebecca Szetela: That would be worn down on, I think.

1102

03:35:35.550 --> 03:35:43.170

MICRC1: And I think that to that to that point, I think we talked about this a little bit with the Senate districts because.

1103

03:35:45.750 --> 03:35:55.680

MICRC1: Middle Eastern descent is not was the desert race by the census that's not dispositive in the sense that that's not a community that needs to be.

1104

03:35:56.370 --> 03:36:03.150

MICRC1: protected, but that also means that going off American Community survey data, for example.

1105

03:36:03.720 --> 03:36:14.520

MICRC1: Of the community of interest submissions we talked about your own personal knowledge, I think makes that being able to do that were important because the census data.

1106

03:36:15.030 --> 03:36:34.860

MICRC1: By itself won't show the same thing that we've seen in other areas of Detroit but that's also why, looking at the election results are so important because I remember when when you did the Senate districts, we looked at a particular district that seemed to have 85% non Hispanic white.

1107

03:36:35.910 --> 03:36:40.470

MICRC1: And a relatively small black population but very heavily supported.

1108

03:36:41.490 --> 03:36:50.850

MICRC1: Communities have about 10 days of choice and we inferred from that that that aligns with what we thought would be an area of significant.

1109

03:36:51.300 --> 03:37:11.310

MICRC1: Arab American population, which to my understanding, may also typically support or often support minority candidates, a choice of doing by doing this you're relying on more than census data, because the census data really does not explain where the Arab American population.

1110

03:37:14.730 --> 03:37:26.490

MICRC1: yeah it doesn't you know the census data I don't want to say it's lying right now, but it doesn't include information that's needed but luckily we've gotten that information, you know from from other sources from.

1111

03:37:27.330 --> 03:37:41.580

MICRC1: The Community survey from our public hearings and I think most importantly we've had very specific maps submitted on our public comment tool that are very highly commented on there there's some of the most commented on submissions we've had.

1112

03:37:42.780 --> 03:37:51.960

MICRC1: Those have this being combined this district seven being combined a little bit more with garden city, because of the similarities with it and dearborn heights.

1113

03:37:52.230 --> 03:38:05.880

MICRC1: However, if you all want to go into Warren Dale and get those maybe bottom three precincts to diversify a little i'd be okay with that, too, I don't think it's going to make a major difference, but I mean yes about 10,000 people, those bottom three precincts.

1114

03:38:08.940 --> 03:38:11.160

MICRC1: But i'm also concerned about dilution I apologize.

1115

03:38:13.410 --> 03:38:19.500

MICRC1: I don't want to disenfranchise those communities there either, if indeed there isn't a you're a crossover vote for.

1116

03:38:20.520 --> 03:38:28.200

MICRC1: If that if we can't if they can't elect the candidate of choice as an African American Community right as much as right as small as that.

1117

03:38:29.280 --> 03:38:36.810

MICRC1: piece is it also feels important to recognize that that may not be a good choice I rather stick with garden city frankly and.

1118

03:38:37.290 --> 03:38:42.540

MICRC1: and allow them to have a candidate will be represented, have a have a shot at a candidate of their choice.

1119

03:38:43.140 --> 03:38:46.920

MICRC1: If you feel like that's not going to get district seven isn't going to help them.

1120

03:38:47.670 --> 03:38:59.520

MICRC1: elect that candidate of choice and just to that point I agree, I think that that's very important but that's where I would just say let's go to the election results, because then, if that concern is delayed.

1121

03:39:00.120 --> 03:39:07.050

MICRC1: by looking then that takes the consideration of the team can so how can we look at that or would you look at that, with a certain.

1122

03:39:08.190 --> 03:39:25.650

MICRC1: Can we do that really well, I think that can can highlight those specific areas ball, can we share, I can make a artificial district eight to hold that area it so we can look at the population of what they sum up to that's a great idea, please.

1123

03:39:30.150 --> 03:39:45.540

MICRC1: It was required just going to be number eight, I have a question just those three precincts question for Anthony, is there not a part of Detroit that it's just south of Warren and.

1124

03:39:48.120 --> 03:39:57.300

MICRC1: North of Fort Monroe for growth that that just comes out from Detroit it has an Arab population.

1125

03:39:59.220 --> 03:40:11.040

MICRC1: So, according to the the map submitted to us by like access and by the Community, there is like an Arab population towards what we have in district one, but I wouldn't go too far into it.

1126

03:40:12.990 --> 03:40:13.980

MICRC1: But that's about it.

1127

03:40:16.050 --> 03:40:30.780

MICRC1: yeah that's kind of foreign to the East, from where we're working thanks so we'll come back to Ken, but I want to acknowledge the chemistry element has joined us this is a highlight at district, seven and eight, of course, eight is just those three precincts.

1128

03:40:35.190 --> 03:40:38.220

MICRC1: To the Commission counter say where she's joining us from virtually.

1129

03:40:39.360 --> 03:40:41.040

Brittini Kellom: Yes, but I didn't want to interrupt can't.

1130

03:40:41.940 --> 03:40:43.590

MICRC1: Thank you can she can Please proceed.

1131

03:40:44.100 --> 03:40:47.490

Brittini Kellom: hi everyone, and I am attending remotely from Wayne county Michigan.

1132

03:40:50.550 --> 03:40:52.170

MICRC1: Thank you back to you can't or.

1133

03:40:55.890 --> 03:40:57.450

MICRC1: Reading I apologize i'm with you now.

1134

03:41:00.030 --> 03:41:02.850

MICRC1: Can can we move to the right, yes, sir.

1135

03:41:20.610 --> 03:41:35.220

MICRC1: just looking at what's on the screen now I think is a really good comparative illustration between seven and eight so eight strongly supports those three blocks strong support can get candidates.

1136

03:41:36.810 --> 03:41:49.320

MICRC1: district seven as configured also supports candidates through so the margins are not as large as what age is showing However, the.

1137

03:41:51.420 --> 03:42:06.870

MICRC1: They both do support candidates of choice, so I think that there are some, as I said, so the seven the margins are closer, but could you go to the right again, please, so we can just look at the whole span of the results, thank you.

1138

03:42:10.410 --> 03:42:19.680

MICRC1: yeah I think across the board to candidates of choice when some of the margins are closer than others, but i'm not seeing any election, where the.

1139

03:42:20.730 --> 03:42:30.120

MICRC1: Excuse me, the candidate of choice loses so on first blush it does not appear that if you add the three areas from that are now in eight.

1140

03:42:30.960 --> 03:42:44.280

MICRC1: into seven that that creates a dilute of effect, however, what would also be helpful if I could suggest let's put the areas for me to intercept and then see what the overall results are.

1141

03:42:46.230 --> 03:42:47.370

MICRC1: To ensure and then, Commissioner.

1142

03:42:48.960 --> 03:42:51.540

MICRC1: So if i'm reading it right that last election.

1143

03:42:52.800 --> 03:42:53.640

MICRC1: For number eight.

1144

03:42:55.170 --> 03:42:59.820

MICRC1: Did that is different than the others, I just wanted to point that out, for the record.

1145

03:43:01.680 --> 03:43:05.100

MICRC1: I still think it's overwhelmingly they vote.

1146

03:43:06.210 --> 03:43:15.780

MICRC1: Similarly to do Ray you go through short you're doing what what when I have to keep reminding myself that to do, because the screen, it can be really.

1147

03:43:16.230 --> 03:43:25.380

MICRC1: Confusing which line represents which district because initially I looked at nine and thought well wait a minute that's kind of.

1148

03:43:25.860 --> 03:43:42.690

MICRC1: Different than the results that I thought I saw but I was mixing up nine and eight, if you look at seven and eight, the two that are they're not in blue there in white, then I think that the election results line up nine does not.

1149

03:43:44.520 --> 03:44:03.600

MICRC1: But I think it is nine and 10 that are actually district seven and 8am I wrong yes district, seven and eight or lands nine intend to highlight it districts are seven and eight so i'm, for example, that's district seven as district eight.

1150

03:44:04.680 --> 03:44:14.730

MICRC1: As district seven instigate let's go all the way to the end, because I think that was weird to be short and saw that anomaly one election.

1151

03:44:15.900 --> 03:44:19.950

MICRC1: look different from all the others, but I just want.

1152

03:44:25.620 --> 03:44:36.660

MICRC1: To make a microphone is not on, yet can district seven district 8787878 so.

1153

03:44:39.870 --> 03:44:46.080

MICRC1: I agree, I mean, yes, and that that last that Johnson dillard election is.

1154

03:44:47.190 --> 03:44:49.470

MICRC1: Different was that the one that you would spot.

1155

03:44:52.230 --> 03:44:54.480

MICRC1: I see one other as well.

1156

03:44:55.620 --> 03:44:58.080

MICRC1: I think snyder one.

1157

03:44:59.850 --> 03:45:04.350

MICRC1: was a starter shower yeah yeah so but overwhelmingly I think.

1158

03:45:05.430 --> 03:45:16.530

MICRC1: We can see that they they do align generally, so I don't know where you draw the line, but no, I think that I thank you that's a that's a great point and I will adjust.

1159

03:45:17.820 --> 03:45:32.310

MICRC1: The lines a look at the district So yes, I think, to your point, there are a couple actually where the candidate not favor by the minority community prevail, I think that there are only two of those as the to me, one of the more.

1160

03:45:33.870 --> 03:45:36.600

MICRC1: Important illustrative points is that.

1161

03:45:38.310 --> 03:45:42.990

MICRC1: The margins or are bigger in those three areas.

1162

03:45:44.490 --> 03:45:52.440

MICRC1: That artificial out of those artificial areas of eight that there's some support there is stronger than by margin.

1163

03:45:53.760 --> 03:46:03.690

MICRC1: Then in seven but seven does in the majority of elections does elect candidates so excuse me thank you and then I would.

1164

03:46:04.170 --> 03:46:20.670

MICRC1: suggest what I mentioned earlier, put eight into seven, so we can see the overall what the overall results because eight district eight right now makes up almost 10% of an entire House district, so that when you add those in it's going to impact.

1165

03:46:21.690 --> 03:46:29.010

MICRC1: district seven and the aid of those three blocks that you selected well, I think that just putting them in.

1166

03:46:29.910 --> 03:46:46.980

MICRC1: putting aside population for a moment and just seeing how that changes if it does, the election results, just to be less true, Commissioner, you had the floor in district seven can hold that population right okay let's let's add it in and see what we get see if that changes anything.

1167

03:46:48.300 --> 03:46:53.910

MICRC1: I don't know if we have this data on hand but I was also thinking, something that might be useful, would be the.

1168

03:46:54.780 --> 03:47:07.710

MICRC1: Primary election data on the democratic side because there was an Arab American candidates and it'd be interesting to see how these areas voted, you know if they voted for that candidate or not compared to.

1169

03:47:08.880 --> 03:47:15.810

MICRC1: The primary winner, what I want right what racism Arab American the know the raised office.

1170

03:47:17.220 --> 03:47:18.750

MICRC1: governor oh okay.

1171

03:47:21.120 --> 03:47:33.060

MICRC1: This Kim race, unfortunately, the primary contest results are not readily available from the state so they're generally not included in what we have right now.

1172

03:47:34.920 --> 03:47:37.770

MICRC1: Thank you for that clarification, Commissioner, you have the floor again.

1173

03:47:40.050 --> 03:47:47.370

MICRC1: So this is combined now and we're okay i'm population, we want to check the election results, to see if it made a major impact or not.

1174

03:47:49.200 --> 03:48:02.970

MICRC1: And I would just ask that you did split the neighborhood and that and I know that may not be the most important piece, but it is useful to recognize that there is a smaller neighborhood that you could take potentially and also see ya just wanted to point that out before we go too far.

1175

03:48:11.880 --> 03:48:12.570

MICRC1: Go to the right.

1176

03:48:57.330 --> 03:49:04.800

MICRC1: So just so just so i'm not i'm not missing this again, this is the top line in the blue highlighted area that's.

1177

03:49:05.370 --> 03:49:17.190

MICRC1: correctly that's district seven, and then we zeroed out eight ready deleted it so that bottom line would be the empty number eight okay well that Johnson dillard election continues to be.

1178

03:49:18.390 --> 03:49:25.530

MICRC1: interesting because that seems to be the only election that i've seen where the candidate choices not supported.

1179

03:49:26.130 --> 03:49:45.300

MICRC1: The summer, you know as we talked about before some of the margins are relatively close but it's been already candidates of choice when, in the majority of the election so from that standpoint, this does

appear to be a good opportunity to elect district Thank you Commissioner land.

1180

03:49:47.400 --> 03:50:03.270

MICRC1: And the chance and Diller Johnson was the income in that election, and it was her second term she had done a lot of good things for the second state's office and was relatively popular regardless of her party.

1181

03:50:04.590 --> 03:50:10.140

MICRC1: So that would go a long way and explaining what was going on with that particular election.

1182

03:50:11.910 --> 03:50:15.390

MICRC1: Thank you that's that's that's very helpful, thank you.

1183

03:50:16.950 --> 03:50:19.110

MICRC1: And I would agree with that assessment from Commissioner lap.

1184

03:50:21.480 --> 03:50:27.570

MICRC1: Any other yeah please Okay, well then, you know I think i'm good with this, what do you think Commissioners Italo.

1185

03:50:30.990 --> 03:50:36.210

MICRC1: I think Commission was telling me I had to leave okay well i'm good with this, I think it's supports.

1186

03:50:37.920 --> 03:50:50.580

MICRC1: You know, getting rid of the disenfranchisement of a minority community which as we've heard is is not only what we should be striving for, but it's also what the Community wants to see and supported by numerous.

1187

03:50:51.780 --> 03:51:10.290

MICRC1: submissions on our public comment tool, this is for Secretary of state's office specifically comments P 4293 P 46093992 and.

1188

03:51:12.360 --> 03:51:13.950

MICRC1: See 1510.

1189

03:51:18.990 --> 03:51:19.740

MICRC1: Thank you, Commissioner.

1190

03:51:23.190 --> 03:51:27.750

MICRC1: And I think we're so we have about 15 minutes until we want to take a recess.

1191

03:51:29.100 --> 03:51:32.100

MICRC1: We are to Commissioner kellen are you able to.

1192

03:51:33.360 --> 03:51:34.080

MICRC1: Help us map.

1193

03:51:37.050 --> 03:51:39.060

Brittni Kellom: out a question is that i'm here.

1194

03:51:39.780 --> 03:51:40.830

MICRC1: I am so excited.

1195

03:51:41.460 --> 03:51:42.210

MICRC1: take us away.

1196

03:51:42.390 --> 03:51:44.220

MICRC1: Commissioner, Commissioner Gordon has a has a hand.

1197

03:51:45.570 --> 03:51:50.250

MICRC1: should come before you get started, I just have a question for Mr Wilson.

1198

03:51:50.580 --> 03:51:51.450

MICRC1: After right to.

1199

03:51:51.900 --> 03:51:53.940

MICRC1: Trying to learn something here i'm.

1200

03:51:55.410 --> 03:52:04.470

MICRC1: Considering the the population minority population density and the the shape that we're trying to work with.

1201

03:52:06.360 --> 03:52:07.950

MICRC1: As we try to.

1202

03:52:09.840 --> 03:52:21.330

MICRC1: Spread that out a little bit and get a better balance would it would a better goal, be to have a few districts that are perfect, as far as.

1203

03:52:22.620 --> 03:52:27.660

MICRC1: Balance goes, you know um and then the rest are.

1204

03:52:30.480 --> 03:52:38.010

MICRC1: Higher higher minority population, you know so they're so they're not balanced, or is it better to.

1205

03:52:39.210 --> 03:52:44.220

MICRC1: Try and balance, although not perfectly as many as possible what what's best.

1206

03:52:46.800 --> 03:52:51.270

MICRC1: So you're now competing with Commissioner need for asking me really interesting questions.

1207

03:52:52.620 --> 03:53:01.950

MICRC1: Well, I think that that the, you know as you could just see from the map that's on the screen, I mean there are limitations geographic limitations what you can do I mean you can't.

1208

03:53:02.460 --> 03:53:18.930

MICRC1: draw district from just speaking off the cuff from the River out in order, for example, to balance population, so there may well be districts that while they're not 90 or 95%.

1209

03:53:19.290 --> 03:53:32.790

MICRC1: Majority minority, maybe they're 6065 Min and i'm just throwing out ideas, too, so I think that the whole point of our really focusing on trying lots of options.

1210

03:53:33.210 --> 03:53:53.190

MICRC1: Really answers that question because, as you try more options you'll see whether things are possible or not now that's going to mean trying things that may cut against the grain with you know, keeping certain communities whole but that's also part of not only.

1211

03:53:54.270 --> 03:53:55.230

MICRC1: Showing.

1212

03:53:57.210 --> 03:54:04.410

MICRC1: or reasonable efforts to do that, but that's what's so important about creating a record that if if someone says well they didn't do that.

1213

03:54:05.010 --> 03:54:17.610

MICRC1: Well then, well, no that's not true here are 10 examples of how that was done so, it could be that way and I, you know I I don't want to presume.

1214

03:54:18.210 --> 03:54:24.000

MICRC1: In going forward the limitations of all of your creativity, but it could well be.

1215

03:54:24.510 --> 03:54:36.990

MICRC1: As, so I think that that's something that we can in Canada, that if we need to, but there are realities of geography, as you know, and because these districts are not 300,000 people.

1216

03:54:37.560 --> 03:54:47.040

MICRC1: There are certain limitations, starting from a an urban core that you're facing now, and you will continue to fit.

1217

03:54:50.580 --> 03:55:00.150

MICRC1: thanks for that Commission, can you have the floor, oh, excuse me, I apologize Commission count one one Commission or just kind of to add on to that question so that was a really good question.

1218

03:55:01.590 --> 03:55:08.370

MICRC1: Is there a number of vr a protected district, and you knew this was coming, is there a number that we need to hit.

1219

03:55:09.450 --> 03:55:18.420

MICRC1: Okay well let's address that specifically because I know that there have been public comments i've seen social media comments comments in the media.

1220

03:55:21.090 --> 03:55:27.390

MICRC1: we've talked about how section five the voting rights act is no longer in play let's just assume that it is for a moment.

1221

03:55:27.870 --> 03:55:35.730

MICRC1: And let's assume that there were a certain number of districts that minorities, had the ability to act and.

1222

03:55:36.210 --> 03:55:46.620

MICRC1: Then under Section five you would do something called the void retrogression you avoid reducing minority voting strength in very specifically.

1223

03:55:47.130 --> 03:55:57.600

MICRC1: So that if there were 10 districts 10 years ago let's say you really can reduce that below 10 maybe you increase it, but you don't reduce it.

1224

03:55:58.350 --> 03:56:05.580

MICRC1: Section five, as we know, doesn't apply anymore, so that strict numerical you had 10 you have to have 10.

1225

03:56:06.360 --> 03:56:21.840

MICRC1: that's really not the same as it was 10 years before, so I think that what what the Commission is doing is in addressing what Dr Handley analyzed looking at the current district from 2010 you are.

1226

03:56:22.380 --> 03:56:33.840

MICRC1: diversifying the population on path unpacking the districts expanding the district, while also, at the same time and going back to the lakeshore district in the.

1227

03:56:34.440 --> 03:56:41.880

MICRC1: senate you're creating districts that appear to be opportunity to elect districts that may not have existed before.

1228

03:56:42.270 --> 03:57:01.170

MICRC1: That may not on first examination appear to be, but the election results i'll show that they are so if we were sitting here 10 years ago I would have we would be focusing on retrogression because section five applied retrogression and section five on applying.

1229

03:57:03.300 --> 03:57:12.390

MICRC1: And so, that means that there is no definite number that we have to draw there is no specific set that there were you at 10 you have to have tend to avoid retrogression, however.

1230

03:57:12.840 --> 03:57:24.510

MICRC1: go into the point that everyone has been making about avoiding minority vote dilution, so that in looking at districts, that in the current map the 2010 map.

1231

03:57:24.930 --> 03:57:34.920

MICRC1: has significantly high minority populations, if you add in reducing that and unpacking that that you retain the ability.

1232

03:57:35.310 --> 03:57:45.720

MICRC1: Of the communities of the voters of the people living there to left candidates of choice, so that they may not be in districts that are 95% of one race.

1233

03:57:46.050 --> 03:57:57.450

MICRC1: Maybe they're in a district with 42% as long as they can retain that ability to elect that's what you strive for, so you avoid this, the.

1234

03:57:57.930 --> 03:58:09.660

MICRC1: The strict numerical adherence under Section five to avoid retrogression and instead you look more broadly, and I also have to say that this is an issue that is confronting.

1235

03:58:10.200 --> 03:58:18.960

MICRC1: jurisdictions across the country when they are realizing for the first time in decades that they don't have section five.

1236

03:58:19.710 --> 03:58:30.480

MICRC1: So they don't have the same we had 10, we have to keep 10 and they're confronting issues that frankly they haven't confronted previously in states that are a little different demographically the mission.

1237

03:58:31.980 --> 03:58:32.580

MICRC1: Thank you Bruce.

1238

03:58:33.780 --> 03:58:42.690

MICRC1: So Commission column, we have about 10 minutes until we want to take a recess, do you want to take the floor, or do you want to yeah, how do you want to proceed.

1239

03:58:43.650 --> 03:58:51.210

Brittini Kellom: So alia to you if you want to take a I mean ideally i'm not gonna I don't know if i'm going to be able map and six whatever minutes I don't care.

1240

03:58:51.750 --> 03:58:52.380

MICRC1: Do you wanna.

1241

03:58:53.040 --> 03:58:59.400

MICRC1: Do you want to begin, so you can sort of start with something and then have sort of that that break time and then come back to it, or you can be with us after the recess.

1242

03:59:00.900 --> 03:59:02.490

Brittini Kellom: need this is a lot of interview questions.

1243

03:59:03.750 --> 03:59:08.160

Brittini Kellom: immediately, but yeah i'll be here it's totally up to you.

1244

03:59:09.000 --> 03:59:16.200

MICRC1: Yes, why don't you why don't you begin and then take a break yeah we'll take a recess and we'll reconvene at one o'clock with you again.

1245

03:59:17.100 --> 03:59:18.780

Brittini Kellom: Okay i'm.

1246

03:59:21.030 --> 03:59:29.340

Brittini Kellom: keeping in mind that my good friend Bruce is here, can we zoom out keeping the neighborhood's can't but just zoom out, so I think not, not that much.

1247

03:59:34.530 --> 03:59:36.060

Brittini Kellom: zoom in a little bit more, please.

1248

03:59:39.660 --> 03:59:44.850

Brittini Kellom: Like back to the same same thing okay um what i'd like to do.

1249

03:59:45.900 --> 03:59:49.920

Brittini Kellom: Is start around what is that green is that district to.

1250

03:59:51.930 --> 03:59:52.170

Brittini Kellom: That.

1251

03:59:53.280 --> 03:59:54.000

MICRC1: too.

1252

03:59:54.600 --> 03:59:55.680

MICRC1: that's too yes.

1253

03:59:55.710 --> 03:59:59.580
Brittini Kellom: Okay, so i'm thinking of.

1254
04:00:01.140 --> 04:00:10.350
Brittini Kellom: Trying a district that mixes in that kind of Northwest Detroit area again with some of the suburbs to continue this.

1255
04:00:13.050 --> 04:00:19.530
Brittini Kellom: Next to get the ERA right so we'll see how this goes okay can can you select.

1256
04:00:22.680 --> 04:00:27.030
Brittini Kellom: We do Campo bangla town Highland prior.

1257
04:00:29.910 --> 04:00:32.070
Brittini Kellom: Okay, reading the neighborhood so Highland park.

1258
04:00:32.070 --> 04:00:32.910
Brittini Kellom: That little.

1259
04:00:33.900 --> 04:00:35.850
MICRC1: i'm going to start with Holland park.

1260
04:00:36.360 --> 04:00:36.750
MICRC1: Just.

1261
04:00:37.350 --> 04:00:38.100
A base.

1262
04:00:39.480 --> 04:00:48.630
MICRC1: camp and we did not sort of in district two we didn't keep the neighborhood's whole so you feel free to adjust as you.

1263
04:00:50.130 --> 04:00:51.690
MICRC1: Continue dry your district if you're.

1264
04:00:53.160 --> 04:01:07.140
Brittini Kellom: interested in keeping up, so I want to keep some neighborhoods whole but i'm more interested in creating opportunity and fairness, so, however, that happens, is what I think is best for detroiters because.

1265

04:01:08.250 --> 04:01:13.320

Britttni Kellom: I think largely anyways i'm just going to proceed okay so Highland park is selected.

1266

04:01:14.880 --> 04:01:18.060

Britttni Kellom: Do Dexter linwood Russell woods.

1267

04:01:19.380 --> 04:01:20.070

MICRC1: Okay, let me get.

1268

04:01:21.480 --> 04:01:22.470

MICRC1: All this area.

1269

04:01:23.220 --> 04:01:24.960

Britttni Kellom: And the area to the right as well.

1270

04:01:26.070 --> 04:01:32.280

MICRC1: i'm going to select the areas and if I select an area, you do not want to use speak up before.

1271

04:01:32.310 --> 04:01:33.060

Our class.

1272

04:01:34.740 --> 04:01:35.850

Britttni Kellom: Over select.

1273

04:01:37.770 --> 04:01:41.280

MICRC1: yeah just get them select that and then you.

1274

04:01:42.690 --> 04:01:44.220

MICRC1: Dominant stop.

1275

04:01:45.630 --> 04:01:47.400

MICRC1: i'm selecting whole precincts.

1276

04:01:48.720 --> 04:01:52.470

MICRC1: And down in here we can't I don't blame you for maybe we can all try it.

1277

04:02:01.830 --> 04:02:05.100

MICRC1: Okay, that assign that whole entire area.

1278

04:02:05.580 --> 04:02:06.480

Brittini Kellom: Yes, please.

1279

04:02:11.130 --> 04:02:14.340

Brittini Kellom: gonna try to create a shoot shoot upwards.

1280

04:02:16.680 --> 04:02:18.810

MICRC1: Getting goes this way where my cursor is pointed.

1281

04:02:18.870 --> 04:02:28.470

Brittini Kellom: Yes, and I do want you to include what's to the right of Highland Park, which is Campbell i'm bangla town that's Russell woods, yes, you can select that and then go back.

1282

04:02:29.730 --> 04:02:32.340

Brittini Kellom: Oh that'd be North East I guess.

1283

04:02:34.500 --> 04:02:38.010

Brittini Kellom: Based upon what my screen shows that would be northeast to select.

1284

04:02:38.220 --> 04:02:41.880

Brittini Kellom: On Campbell and bang with Tommy guess that 1049 that number.

1285

04:02:43.710 --> 04:02:44.220

MICRC1: Just met man.

1286

04:02:45.450 --> 04:02:45.780

Brittini Kellom: Thank you.

1287

04:02:48.540 --> 04:02:52.830

MICRC1: This this area here i'm kinda around in here okay.

1288

04:03:00.090 --> 04:03:01.830

MICRC1: Those are whole precincts.

1289

04:03:01.920 --> 04:03:03.960

Brittini Kellom: yeah okay.

1290

04:03:06.540 --> 04:03:10.770

MICRC1: I can assign them and then cut them turn them back if you want, however, you want to do it.

1291

04:03:10.860 --> 04:03:16.020

Brittini Kellom: yeah because that little jagged edge look strange to me but i'm we're also very zoomed in right now.

1292

04:03:17.460 --> 04:03:22.050

MICRC1: yeah Okay, let me go out a little bit and before we do anything out.

1293

04:03:23.400 --> 04:03:23.760

MICRC1: Oh.

1294

04:03:25.170 --> 04:03:28.050

MICRC1: You still have 64,000 to assign.

1295

04:03:28.440 --> 04:03:28.980

Brittini Kellom: mm hmm.

1296

04:03:29.100 --> 04:03:30.510

MICRC1: Should I turn that off or.

1297

04:03:30.570 --> 04:03:31.410

Brittini Kellom: Yes, please.

1298

04:03:32.220 --> 04:03:32.640

Okay.

1299

04:03:44.970 --> 04:03:57.000

Brittini Kellom: i'll see we'll see what's happening so I want you to select from greenfield park and cadillac heights going nor see if you can push into Royal and ferndale.

1300

04:03:58.830 --> 04:03:59.850

Brittini Kellom: Those areas.

1301

04:04:03.390 --> 04:04:03.810

MICRC1: me.

1302

04:04:04.950 --> 04:04:07.260

MICRC1: Not being a very affected that this.

1303

04:04:07.620 --> 04:04:14.220

Brittini Kellom: is OK, we have, after the break and you'll have lunch and you'll be energized and it'll be meeting you again can.

1304

04:04:16.170 --> 04:04:17.370

MICRC1: Well we'll see about that.

1305

04:04:23.730 --> 04:04:29.040

MICRC1: Okay, you were saying this here we're going to go this way or we're going to start over here and get this.

1306

04:04:30.540 --> 04:04:31.470

Brittini Kellom: So.

1307

04:04:33.480 --> 04:04:33.720

Brittini Kellom: zoom.

1308

04:04:34.680 --> 04:04:36.030

Brittini Kellom: zoom out a little bit, please.

1309

04:04:37.440 --> 04:04:40.230

Brittini Kellom: I might be going in the wrong direction, so I want to make sure.

1310

04:04:41.880 --> 04:04:43.320

Brittini Kellom: yeah okay so.

1311

04:04:45.360 --> 04:04:57.090

Brittini Kellom: select the university district Palmer part Bristol farms greenville park cadillac heights green acres all the way up until ferndale in.

1312

04:04:58.260 --> 04:05:00.900

Brittini Kellom: hazel park so everything that's on that slant.

1313

04:05:01.530 --> 04:05:03.150

Brittini Kellom: To the yep.

1314

04:05:09.240 --> 04:05:13.680

MICRC1: Let me get this straight present precincts precincts.

1315

04:05:13.770 --> 04:05:14.970

Brittini Kellom: And we have one more minute.

1316

04:05:22.710 --> 04:05:26.670

MICRC1: we're just going to highlight this and go from there on.

1317

04:05:28.920 --> 04:05:31.890

MICRC1: That little bs no patient here.

1318

04:05:36.870 --> 04:05:39.960

MICRC1: Okay that's generally where you were wanting to go with it.

1319

04:05:40.110 --> 04:05:46.560

Brittini Kellom: yeah and now select pieces of ferndale and Royal up I know we have those little outliers, but I want to.

1320

04:05:48.300 --> 04:05:49.440

Brittini Kellom: Right now, the.

1321

04:05:49.680 --> 04:05:54.630

Brittini Kellom: population is is quite black which I was aware of so we're going to.

1322

04:05:55.080 --> 04:05:55.770

MICRC1: Try to pull in.

1323

04:05:55.800 --> 04:05:58.830

Brittini Kellom: more detail and hazel park hazel park and see what happens.

1324

04:05:59.430 --> 04:06:04.230

MICRC1: Okay, we can start doing that, at the yep yeah at a higher level.

1325

04:06:09.450 --> 04:06:10.080

Brittini Kellom: and include.

1326

04:06:12.150 --> 04:06:13.020

Brittini Kellom: Royal oak yep.

1327

04:06:15.240 --> 04:06:17.940

MICRC1: that's 36,000 unique 45.

1328

04:06:18.480 --> 04:06:20.130

Brittini Kellom: That higher and what I.

1329

04:06:22.050 --> 04:06:23.910

Brittini Kellom: Do pleasant rage.

1330

04:06:25.170 --> 04:06:27.450

MICRC1: Okay i'm gonna sign there, so we got a base.

1331

04:06:29.910 --> 04:06:37.020

Brittini Kellom: Anyway, I know that I will will likely have to go back and fix this i'm trying to.

1332

04:06:38.310 --> 04:06:40.170

Brittini Kellom: Trying to do what happens.

1333

04:06:41.160 --> 04:06:47.670

MICRC1: you're just 6000 or 7.4% light, so you can still add.

1334

04:06:47.910 --> 04:06:57.930

Brittini Kellom: So yeah so add all that little light area that Martin park pilgrim village Dexter finkel the area to the i'm sorry I probably going to quickly.

1335

04:07:09.180 --> 04:07:11.010

Brittini Kellom: And then the area north of that.

1336

04:07:13.470 --> 04:07:14.310

Brittini Kellom: Yes, sir.

1337

04:07:30.480 --> 04:07:31.140

MICRC1: This correct.

1338

04:07:32.970 --> 04:07:38.100

Brittini Kellom: versus what are you thinking so far, but with nevermind Bruce might have to keep your thoughts.

1339

04:07:39.180 --> 04:07:49.020

MICRC1: yeah I think you should come with I think we've got what we'll do is we'll we'll come back and we returned from our break we'll come back to you know have noon Bruce begin to assess what you've got there.

1340

04:07:49.350 --> 04:07:57.120

MICRC1: OK district eight it needs to drop 6200 people to be at perfect 609 percent.

1341

04:07:58.350 --> 04:07:58.680

Brittini Kellom: Okay.

1342

04:08:02.070 --> 04:08:02.880

Brittini Kellom: that's you on it.

1343

04:08:05.040 --> 04:08:05.760

MICRC1: Thanks for June.

1344

04:08:07.350 --> 04:08:09.810

MICRC1: objection assess for 16 minutes.

1345

04:08:11.610 --> 04:08:15.210

MICRC1: objections, we will stand in recess until it looks like it's 12.

1346

04:08:18.000 --> 04:08:21.510

MICRC1: it's 12 three so we'll be back here can we can we start at one o'clock.

1347

04:08:22.950 --> 04:08:25.620

MICRC1: Okay we'll try to start at nine o'clock Thank you i'll see you then.

1348

05:06:22.950 --> 05:06:32.160

MICRC1: As vice chair the Commission I call this meeting with the machine independence is is redistricting Commission back to order at one o'clock PM well the secretary, please call the role.

1349

05:06:33.690 --> 05:06:43.620

MICRC1: Absolutely, Mr Chair can assure us presto President, when I call your name if you're attending today's meeting remotely priestess close your physical location i'll start with deb Clark.

1350

05:06:45.570 --> 05:06:45.900

MICRC1: Russia.

1351

05:06:47.220 --> 05:06:48.090

MICRC1: running the Curry.

1352

05:06:50.490 --> 05:06:51.540

MICRC1: Brittany Callum.

1353

05:06:52.590 --> 05:06:55.140

Brittini Kellom: Present and attending remotely from Wayne county Michigan.

1354

05:06:56.280 --> 05:06:57.000

MICRC1: fanta Lang.

1355

05:06:57.780 --> 05:07:00.690

Rhonda Lange: Present attending remotely from read city Michigan.

1356

05:07:05.130 --> 05:07:12.060

MICRC1: President MC Vice President Dennis black President Rebecca said Hello.

1357

05:07:13.440 --> 05:07:14.190

MICRC1: And right now.

1358

05:07:15.720 --> 05:07:18.960

MICRC1: But your Vice President dustin righteous.

1359

05:07:20.250 --> 05:07:20.550

MICRC1: present.

1360

05:07:22.110 --> 05:07:23.520

MICRC1: Present and there is a crime.

1361

05:07:24.900 --> 05:07:29.430

MICRC1: Without objection, we will continue the unfinished business mapping see house districts.

1362

05:07:31.650 --> 05:07:35.820

MICRC1: Jackson sections, Mr Kevin we finished with you, before the recess.

1363

05:07:37.020 --> 05:07:39.360

MICRC1: Are you ready to help us continue.

1364

05:07:40.290 --> 05:07:40.890
huh.

1365

05:07:42.000 --> 05:07:43.560
Brittini Kellom: Okay i'm.

1366

05:07:45.660 --> 05:07:49.200
Brittini Kellom: 6200 well to shave.

1367

05:07:50.880 --> 05:07:51.780
Brittini Kellom: i'm.

1368

05:07:55.890 --> 05:08:00.990
Brittini Kellom: i'm wondering, can you zoom in to the Western side of the district director on district eight.

1369

05:08:02.970 --> 05:08:05.280
Brittini Kellom: wondering and do the.

1370

05:08:06.330 --> 05:08:13.110
Brittini Kellom: We have the neighborhood overlay i'm wondering if I haven't included some areas over there.

1371

05:08:16.230 --> 05:08:29.400
Brittini Kellom: That maybe like I was thinking of like pilgrim village Martin part not university district, but southern the southern part of the district that i've drawn on the left side of having higher Dexter finkel that year yeah.

1372

05:08:33.360 --> 05:08:36.720
MICRC1: This is a, this is a split neighborhood according.

1373

05:08:38.070 --> 05:08:41.490
MICRC1: To right there there it's going to l shaped pork seats right.

1374

05:08:44.610 --> 05:08:47.250
MICRC1: can really connect to the investor i'm.

1375

05:08:47.580 --> 05:08:48.210
Brittini Kellom: Sorry go ahead.

1376

05:08:48.780 --> 05:08:54.120

MICRC1: yeah I thought, maybe you're looking at the Western side of Highland Park, is he doing is changing the game with you when you look at.

1377

05:08:54.810 --> 05:08:56.850

Brittini Kellom: mm hmm I was thinking about.

1378

05:08:58.440 --> 05:09:08.220

Brittini Kellom: removing some of the folks from Mike Russell was pokemon boulevard Community Dexter finkel and pilgrim village see if that would shave down.

1379

05:09:09.240 --> 05:09:10.110

Brittini Kellom: The mountain park.

1380

05:09:13.170 --> 05:09:15.900

MICRC1: Okay, are you look into a room.

1381

05:09:17.490 --> 05:09:17.940

Brittini Kellom: Yes.

1382

05:09:18.360 --> 05:09:21.000

MICRC1: We sink Sir just do it block it walks.

1383

05:09:21.420 --> 05:09:25.350

Brittini Kellom: You can do it blacks I don't see the numbers for those so it will.

1384

05:09:25.890 --> 05:09:26.970

Brittini Kellom: Be trial and error.

1385

05:09:27.720 --> 05:09:32.460

MICRC1: or start right here, and just make you directly, where you want to go.

1386

05:09:33.210 --> 05:09:33.660

Okay.

1387

05:09:35.940 --> 05:09:43.620

MICRC1: And ready, because we don't have conditions to tell here does not impact when those numbers that you would recommend like we try to keep pillars that less.

1388

05:09:46.140 --> 05:09:52.260

Brittini Kellom: Important neighbor I don't know enough about marriage and higher i'd have to see is some cross streets.

1389

05:09:53.280 --> 05:09:56.550

Brittini Kellom: Because again we know always use neighborhoods.

1390

05:09:57.750 --> 05:10:00.900

MICRC1: Yes, i'm learning that from you all, so I appreciate that Thank you.

1391

05:10:05.160 --> 05:10:23.580

Brittini Kellom: Okay, all right, can I like what you're doing let's let's see what happens let's go chip away at Russell was too, especially since i've split them up because Russell Russell was an open we'll have our community are close and kind of tightening so I won't feel bad about putting them back.

1392

05:10:30.510 --> 05:10:33.600

Brittini Kellom: and go along Dexter avenue keep going North and remove.

1393

05:10:36.210 --> 05:10:39.660

Brittini Kellom: Remove the blocks, I think that's Davison.

1394

05:10:46.860 --> 05:10:49.350

Brittini Kellom: So go not yet take out Dexter finkel.

1395

05:10:51.240 --> 05:10:54.360

MICRC1: This this or this part.

1396

05:10:56.970 --> 05:10:58.020

Brittini Kellom: Take out just that part.

1397

05:10:59.010 --> 05:10:59.400

Okay.

1398

05:11:03.420 --> 05:11:06.000

Brittini Kellom: Take all of it i'm sorry I can't take all of it and see what happens.

1399

05:11:46.320 --> 05:11:48.930

MICRC1: shall continue on to further east work.

1400

05:11:51.630 --> 05:11:53.640

Brittini Kellom: Now we've got the weird part, though.

1401

05:11:54.900 --> 05:11:59.880

MICRC1: is I think that's one senses spock we can put that put that back in is that what you're saying.

1402

05:12:01.980 --> 05:12:03.300

Brittini Kellom: That jagat piece.

1403

05:12:04.140 --> 05:12:05.640

MICRC1: I taught this okay yep.

1404

05:12:05.670 --> 05:12:06.120

Brittini Kellom: mm hmm.

1405

05:12:06.690 --> 05:12:08.250

MICRC1: folks as box in this area.

1406

05:12:08.340 --> 05:12:08.880

MICRC1: But yes.

1407

05:12:09.450 --> 05:12:10.680

MICRC1: This is blocked so we'll say.

1408

05:12:11.730 --> 05:12:16.410

Brittini Kellom: Okay, I wanted to take out Dexter finkel, but I think we're gonna if i'm looking we're only.

1409

05:12:19.350 --> 05:12:22.800

Brittini Kellom: or 1440 me, we need.

1410

05:12:25.230 --> 05:12:26.310

Brittini Kellom: For 25.

1411

05:12:30.120 --> 05:12:30.420

MICRC1: Yes.

1412

05:12:31.230 --> 05:12:32.310

Brittini Kellom: Can you take out.

1413

05:12:34.950 --> 05:12:39.750

Brittini Kellom: That area to the left in the area to the right so that that whole area is just on a sign.

1414

05:12:40.770 --> 05:12:41.760

MICRC1: This whole every.

1415

05:12:42.240 --> 05:12:42.750

Brittini Kellom: mm hmm.

1416

05:12:43.170 --> 05:12:44.040

MICRC1: or this area.

1417

05:12:44.070 --> 05:12:47.130

Brittini Kellom: Of this call, I was talking about that whole area.

1418

05:12:47.250 --> 05:12:49.530

Brittini Kellom: And then that kickstarter finkel portion.

1419

05:12:50.310 --> 05:12:50.730

MICRC1: This man.

1420

05:13:20.820 --> 05:13:23.400

Brittini Kellom: Okay can't slow down, because now well.

1421

05:13:25.530 --> 05:13:26.130

MICRC1: that's all.

1422

05:13:32.280 --> 05:13:34.410

MICRC1: you're thousand eight we could put the.

1423

05:13:35.550 --> 05:13:39.990

MICRC1: sort of splitting split splitting Dexter finkel you could put that back in and.

1424

05:13:41.940 --> 05:13:42.600

Brittini Kellom: let's do that.

1425

05:13:43.350 --> 05:13:48.300

Brittini Kellom: Okay, then Bruce can you chime into let me know what you're thinking.

1426

05:13:51.180 --> 05:13:56.280

MICRC1: Yes, Commission column it's always good to renew our collaborative relationship.

1427

05:13:56.730 --> 05:13:58.530

Brittini Kellom: I know I enjoy you.

1428

05:13:58.560 --> 05:13:59.010

The feeling.

1429

05:14:00.330 --> 05:14:00.990

MICRC1: My clients.

1430

05:14:03.000 --> 05:14:08.010

MICRC1: Just glad that there's more light now than there was when we spoke last week.

1431

05:14:10.230 --> 05:14:18.270

MICRC1: Why, I like what you did with the population, I think that the that where the cursor is now, I think it would be.

1432

05:14:20.850 --> 05:14:29.310

MICRC1: more preferable if that narrow joining strip or enlarged so it's not just such a small piece.

1433

05:14:29.610 --> 05:14:30.480

Brittini Kellom: that connects the.

1434

05:14:31.050 --> 05:14:32.370

MICRC1: two pieces of the district.

1435

05:14:35.070 --> 05:14:39.150

MICRC1: So, are we going to put some of this back into eight.

1436

05:14:44.280 --> 05:14:44.550

MICRC1: or.

1437

05:14:46.110 --> 05:14:47.700

Brittini Kellom: or continue i'm listening.

1438

05:14:48.840 --> 05:14:53.640

MICRC1: i'm saying oh you're going to take more out of eight or you're going to put where my cursor is back into a.

1439

05:14:53.790 --> 05:14:55.230

Brittini Kellom: half ago back into a.

1440

05:14:57.300 --> 05:14:59.100

MICRC1: So let's start with this part.

1441

05:14:59.700 --> 05:15:06.900

Brittini Kellom: Yes, please, I was i'm sorry, can I was thinking, because I was also did we inadvertently remove something from Martin part.

1442

05:15:08.070 --> 05:15:08.640

MICRC1: No that's.

1443

05:15:09.810 --> 05:15:11.340

MICRC1: that's the way to was built.

1444

05:15:13.590 --> 05:15:15.270

MICRC1: say yes, I can confirm that.

1445

05:15:17.010 --> 05:15:19.590

MICRC1: So i'm going to put this back into eight.

1446

05:15:22.770 --> 05:15:31.380

Brittini Kellom: I just know that Russell was in our in part, but now they should be together but i'm sorry I just caught my okay yeah you can put that back.

1447

05:15:32.910 --> 05:15:33.870

Brittini Kellom: In.

1448

05:15:57.900 --> 05:16:01.800

MICRC1: I believe this right in here, it was the way district two was built.

1449

05:16:12.930 --> 05:16:15.300

Brittini Kellom: Okay um i'm okay.

1450

05:16:18.630 --> 05:16:20.310

Brittini Kellom: And Bruce you can keep talking to me.

1451

05:16:21.900 --> 05:16:23.970

Brittini Kellom: But i'm I think.

1452

05:16:26.070 --> 05:16:33.810

Brittini Kellom: Geographically, like taking in taking into account the neighborhoods and communities in this area i'm Okay, with the shape i'm not crazy about.

1453

05:16:34.980 --> 05:16:39.420

Brittini Kellom: The numbers but i'd rather talk to you about like population and demographics.

1454

05:16:39.990 --> 05:16:59.610

MICRC1: Sure means, even though, what you what you've done in the district in your you're moving to the north, so you've clearly balanced of the voting age and the total population, which I think is is I think that's really good we'll look at the election results in a moment, but I think.

1455

05:16:59.610 --> 05:17:15.510

MICRC1: That fee magically this is similar to what we were talking about last week in in working to balance and the districts, particularly the black population that you geographically will have to.

1456

05:17:16.800 --> 05:17:21.540

MICRC1: Whether it's north east or west go into other areas which you've done, I think that.

1457

05:17:22.710 --> 05:17:34.710

MICRC1: For now, geographically where and with the population is being slightly underpopulated let's look at what the election results tell us, and then we can go from there, I just that so.

1458

05:17:35.400 --> 05:17:39.570

Brittini Kellom: Okay, I like that plan I think i'm slightly over though my friend Bruce.

1459

05:17:39.660 --> 05:17:54.300

MICRC1: Yes, that's that's what I was going to point out a little well but it's still just precise appreciate that the percentage is is small,

and so I think that what I tend to look at is the common with the check marks to see.

1460

05:17:55.230 --> 05:18:03.330

MICRC1: Where if you're over under 5% and you clearly are so you know, for purposes of where we are right now I think that's good.

1461

05:18:03.990 --> 05:18:04.440

OK.

1462

05:18:05.700 --> 05:18:06.750

MICRC1: OK so.

1463

05:18:08.010 --> 05:18:16.860

MICRC1: I would, I suggest, and I, the opportunity to talk to Dr Hamlet today that there are certain elections that are.

1464

05:18:17.310 --> 05:18:37.950

MICRC1: should be consistently highlighted as bellwether elections and those elections would be the elections were a minority candidate was running so those elections just as a reminder and well, something we look at going forward so The first one is the 2020 i'm sorry.

1465

05:18:39.540 --> 05:18:50.610

MICRC1: gubernatorial governor governor Whitman his running mate the lieutenant governor's and African American so let's look at the 2018 gubernatorial.

1466

05:19:00.660 --> 05:19:01.830

MICRC1: Okay, yes.

1467

05:19:03.990 --> 05:19:15.180

MICRC1: And this is district eight I have district eight highlighted Kirsch appointing okay so eight for gubernatorial clear advantage.

1468

05:19:16.530 --> 05:19:33.090

MICRC1: For the candidate of choice it's about a six six times advantage so that's that's that's good and that this is this this right, that is configured elects this candidate of choice, then let's look at the 2012 US President.

1469

05:19:36.960 --> 05:19:40.980

Brittini Kellom: I always learned so much when you do this like just keep talking keep talking about.

1470

05:19:41.040 --> 05:19:41.550

I have to keep.

1471

05:19:42.690 --> 05:19:44.430

MICRC1: Thank you very much, commercial film.

1472

05:19:45.630 --> 05:19:58.980

MICRC1: So 2012 presidential again and at one advantage between the candidate of choice and his opponent, the let's look at the 2012 US presidential.

1473

05:20:01.620 --> 05:20:02.730

MICRC1: Well i'm sorry we just did that.

1474

05:20:02.730 --> 05:20:08.970

MICRC1: 2020 US presidential and the reason that this is a bellwether election is that the.

1475

05:20:10.740 --> 05:20:20.970

MICRC1: Democratic candidate for Vice President was a minority candidate, so when minority candidates run those are particularly important to look at in.

1476

05:20:21.300 --> 05:20:34.410

MICRC1: analyzing election so here again can minority candidate of choice prevails about a little less than a six to one advantage now let's look at the 2014 Secretary of State.

1477

05:20:43.020 --> 05:20:58.590

MICRC1: that's dillard and Johnson OK, and again dillard is the candidate of choices also, I believe, African Americans so get in this district it's about a four to one advantage and and can't we'll just go.

1478

05:20:59.130 --> 05:21:10.200

MICRC1: let's look on the screen and then we'll just move to the left and then we'll just complete it will just read through all the elections, let me look at this tab here to see what's under it I haven't yeah let's do I did not.

1479

05:21:12.150 --> 05:21:25.980

MICRC1: So this is the presidential the Senate gov Secretary state all at one time yeah and I think that this is where you want to yes i'm sorry

yes that's right, I think, then this is what Dr handling I were talking about.

1480

05:21:26.490 --> 05:21:33.270

MICRC1: This will be the first tab that I would suggest we go to because there are minority candidates running and all the elections.

1481

05:21:33.630 --> 05:21:49.860

MICRC1: So that is in the terminology, those are bellwether elections will look at that and then we'll go to the rest of the election so first so to me the tab it's the focus guess okay So yes, I emailed Mr brace about finding a way to.

1482

05:21:51.030 --> 05:22:01.680

MICRC1: highlight specifically and ideally perhaps put all of that in one tab with the four bellwether elections at the front on the Left highlighted, but.

1483

05:22:02.730 --> 05:22:09.180

MICRC1: i'm for what we have now let's look at the focused first and then we go to the rest of them.

1484

05:22:11.640 --> 05:22:18.240

MICRC1: So let's go back to the full minority races, please, and so we could just have we'll just look at the.

1485

05:22:20.220 --> 05:22:23.430

MICRC1: remainder the that this isn't the.

1486

05:22:24.690 --> 05:22:38.280

MICRC1: Third, minority races tab, this is the focus, so the focus has more than the four bellwether election, the focus has to presidential to senate gov as Secretary of State.

1487

05:22:39.540 --> 05:22:41.040

MICRC1: that's what I was given this.

1488

05:22:42.090 --> 05:22:50.400

MICRC1: Is a republican right yeah and then American Academy for a month yeah but there were moral elections.

1489

05:22:51.750 --> 05:22:59.430

MICRC1: This is the focus rest is what up, you know that was given sure what but there were more elections earlier today.

1490

05:23:00.690 --> 05:23:19.410

MICRC1: that's under the full minority races I click there now alright so let's do that and then not to go all the way to the left yeah, and this is what you've been looking at yeah okay so let's just go down down the list to see how everything aligns okay to the left, please.

1491

05:23:20.820 --> 05:23:27.720

MICRC1: that's as far left i'm sorry to the right to the right okay Okay, thank you okay and hold on.

1492

05:23:32.430 --> 05:23:34.440

MICRC1: So these are lining up.

1493

05:23:36.000 --> 05:23:45.510

MICRC1: Similarly, minority candidates of choice, are winning the margin is pretty substantial to the right, please.

1494

05:23:49.800 --> 05:23:56.640

MICRC1: Okay, so Commission column, I would say that, in all the elections that we're looking at, including the bellwether elections.

1495

05:23:57.810 --> 05:24:02.190

MICRC1: The minority candidates of choice when and they win by.

1496

05:24:03.570 --> 05:24:05.700

MICRC1: sizable margin, so this is a.

1497

05:24:07.200 --> 05:24:22.440

MICRC1: Minority opportunity to lack the ability to elect district, the I think that there will be just as there are seemingly with virtually all the districts i'm sure there, there may be some additional adjustments, but I think the your philosophy of going.

1498

05:24:23.730 --> 05:24:34.560

MICRC1: North and encompassing additional areas, while being mindful of the black overall population and black voting age population.

1499

05:24:35.130 --> 05:24:47.280

MICRC1: I think that that's that's a good strategy, and right now, as I said, this district is an ability to select district minority candidates choice when all the elections that we have compiled.

1500

05:24:48.660 --> 05:24:49.200
Brittini Kellom: Okay.

1501
05:24:50.250 --> 05:24:51.060
Brittini Kellom: Thank you.

1502
05:24:51.570 --> 05:24:52.620
Brittini Kellom: I appreciate that.

1503
05:24:53.670 --> 05:25:02.280
MICRC1: Commission come back as a comment coming yeah i've got something that came to mind is commercial calendar this.

1504
05:25:02.790 --> 05:25:18.930
MICRC1: we've got any area between eight and five it's on a signed at this point, as in Detroit and if that population is on 100,000 we're gonna have to split in two districts, one being close to 91,001 being very small.

1505
05:25:19.950 --> 05:25:25.380
MICRC1: So I would like to do like a quick analysis to see how many people in that area and.

1506
05:25:26.010 --> 05:25:41.610
MICRC1: yeah and hopefully it'll provide us opportunity to move North as well yeah that's a great point let's just let's see who's there and what that reveals so i'm gonna make a temporary district nine to just the whole population, while we do this.

1507
05:26:11.130 --> 05:26:17.460
MICRC1: That is 20,000 will add to it, I guess, are we talking about including this I guess we'd have to correct it.

1508
05:26:20.310 --> 05:26:25.080
Brittini Kellom: And just for clarification, Commissioner, like you said, eight and five, but clearly meant eight and six.

1509
05:26:25.950 --> 05:26:26.700
MICRC1: i'm sorry yes.

1510
05:26:27.810 --> 05:26:28.140
Brittini Kellom: Okay.

1511

05:26:30.810 --> 05:26:35.790

MICRC1: There we're getting a little extra in there, but I think for illustrated illustrative purposes.

1512

05:26:37.890 --> 05:26:43.950

MICRC1: Yes, I recall in the northern part of Detroit up in that area has a significant population.

1513

05:26:53.370 --> 05:26:59.190

MICRC1: Now we got a couple a little extra population in there, but that's 85 and we'll remove.

1514

05:27:01.680 --> 05:27:02.190

MICRC1: Some so.

1515

05:27:04.140 --> 05:27:16.680

MICRC1: that's a little bit so it's about a district, and we can go over the north it's not a district, those are at with 85 now I think what we need, we would need to go north to fill in our pocket, and you to add to it.

1516

05:27:18.300 --> 05:27:33.660

MICRC1: No, no, so what I mean this is, I think we've what we've understood is that it is it's about a district one house district know that less than what we need, and it was there other do we can look at demographics, for the demographics, here we can assign it and actually look at the demographic.

1517

05:27:34.740 --> 05:27:53.460

MICRC1: including some little pieces and excluding some little pieces but yeah that's the just have it as district nine my intent was so we just didn't get box down in some way that's 83% non Hispanic black, and that is, you know, taking a little bit of for but will undo it get it.

1518

05:27:55.980 --> 05:28:02.220

MICRC1: 1000 people, which is little less than 10% entire district.

1519

05:28:03.570 --> 05:28:05.400

MICRC1: And they will have an influence on the number.

1520

05:28:09.090 --> 05:28:09.240

MICRC1: and

1521

05:28:10.800 --> 05:28:15.360

MICRC1: I I personally am it just going to depend how the numbers work out when we do it, but.

1522

05:28:17.340 --> 05:28:33.210

MICRC1: We have the opportunity and a reduced by 2000 and we need to yeah now we don't have the opportunity, I think, in in five or six, we have the opportunity to reduce as well, so I wanna I want to make sure we turn it back over and Commissioner county.

1523

05:28:35.250 --> 05:28:44.400

Brittni Kellom: I am pleased with what i've drawn I took into account when I over the break of shaving I said Okay, I can take away some of the eastern.

1524

05:28:45.390 --> 05:29:01.800

Brittni Kellom: Part of district eight which would remove some of the black population, where I was thinking of hazel park is an alternative which has some mixed population in terms of demographics, however, I just decided to leave it that way that way that way that way pardon me.

1525

05:29:03.060 --> 05:29:04.650

Brittni Kellom: i'm with making that choice.

1526

05:29:05.700 --> 05:29:14.190

Brittni Kellom: Thinking about the next district that could allow someone to pull population, perhaps from hazel park and integrate that.

1527

05:29:14.970 --> 05:29:33.270

Brittni Kellom: So I would leave it this way, so that there are some options, as Commissioner Clark highlighted, but I am fine with accounting for the voting rights at voting age population, considering the demographic that heavily by population in the city of Detroit I.

1528

05:29:34.800 --> 05:29:55.470

Brittni Kellom: looked to incorporate some of our insular suburbs ferndale Royal oak pleasant reach hazel park which mix the population as well as considered some of the LGBT Q I a communities in that area, so I think this is a district that works in terms of the numbers.

1529

05:29:56.700 --> 05:30:00.780

Brittni Kellom: Population era, but also give some options as we move forward.

1530

05:30:04.440 --> 05:30:09.300

MICRC1: From the Secretary of State thanks Sean did you have something before we move on okay.

1531

05:30:11.190 --> 05:30:14.040

MICRC1: Very good, Commissioner, with us.

1532

05:30:15.810 --> 05:30:17.610

Rhonda Lange: I am with you and i'm ready to go.

1533

05:30:19.440 --> 05:30:25.770

Rhonda Lange: Can we can't i'm gonna go to the south and kind of go around we're Commissioner witches drew.

1534

05:30:28.860 --> 05:30:31.680

MICRC1: South gate Taylor wanna.

1535

05:30:31.740 --> 05:30:32.490

Rhonda Lange: go in South.

1536

05:30:33.780 --> 05:30:36.780

Rhonda Lange: south of Detroit yes, by the way, and.

1537

05:30:39.810 --> 05:30:40.770

MICRC1: that's why in dog.

1538

05:30:41.400 --> 05:30:46.890

Rhonda Lange: Yes, Okay, I want to start with the areas along the river.

1539

05:30:48.240 --> 05:30:53.670

Rhonda Lange: and Commissioners correct me is this what they referred to when they refer to downriver.

1540

05:30:55.590 --> 05:30:56.850

MICRC1: Somebody nodding heads here, yes.

1541

05:30:57.090 --> 05:30:57.390

Okay.

1542

05:31:00.510 --> 05:31:01.470

Rhonda Lange: And can.

1543

05:31:01.500 --> 05:31:15.450

Rhonda Lange: Also restart before I start picking away, can I get the African American dots brought up, so I can get a quick overview and then the Hispanic after that, just to make sure.

1544

05:31:16.890 --> 05:31:24.030

MICRC1: All right, this is the African American black alone category.

1545

05:31:26.040 --> 05:31:26.340

Rhonda Lange: Okay.

1546

05:31:26.370 --> 05:31:26.670

The.

1547

05:31:28.650 --> 05:31:30.630

MICRC1: And you want to look at the Hispanic.

1548

05:31:30.720 --> 05:31:31.080

Yes.

1549

05:31:32.250 --> 05:31:33.060

Rhonda Lange: Yes, please.

1550

05:31:35.190 --> 05:31:39.300

MICRC1: This is the Hispanic alone greater than 10%.

1551

05:31:42.390 --> 05:31:42.840

Rhonda Lange: Okay.

1552

05:31:44.520 --> 05:31:47.340

Rhonda Lange: So I want to start at the top i'm.

1553

05:31:49.140 --> 05:31:53.790

Rhonda Lange: area that's unassigned next to next to five on the river.

1554

05:31:54.810 --> 05:31:57.180

MICRC1: Commissioner, Commissioner, which is as a as a thought.

1555

05:31:59.010 --> 05:32:06.930

MICRC1: I just wanted to tell you I mean downriver goes basically from where you see the district down south to the squiggly line that's at Monroe county border.

1556

05:32:07.740 --> 05:32:17.430

MICRC1: So all those all those things around town it's kind of a that's kind of a stretch but South gate wind at in Gibraltar trenton rosie all those.

1557

05:32:18.630 --> 05:32:28.200

Rhonda Lange: Okay, can we highlight that Kent did you hear all those areas, he said, can we just follow the River down, so I can kind of get an idea of what that looks like.

1558

05:32:33.030 --> 05:32:36.360

MICRC1: it's just a Monroe county line right here, yes it is.

1559

05:32:39.240 --> 05:32:40.890

MICRC1: Is that what you want to say, Commissioner, line.

1560

05:32:41.190 --> 05:32:42.090

Rhonda Lange: Yes, please.

1561

05:32:50.550 --> 05:32:54.570

MICRC1: I think you may have missed the instruction to actually highlighted we rescued and I Let it come strolling.

1562

05:32:54.900 --> 05:32:56.190

Rhonda Lange: Yes, I was pleased.

1563

05:32:58.320 --> 05:32:59.820

MICRC1: All way down to walk word.

1564

05:33:00.450 --> 05:33:02.190

Rhonda Lange: It to the county line, please.

1565

05:33:02.400 --> 05:33:04.200

MICRC1: OK, now the right there.

1566

05:33:05.970 --> 05:33:06.840

MICRC1: Tell me, if this is right.

1567

05:33:14.280 --> 05:33:16.530

MICRC1: We have to go to precincts and such and here.

1568
05:33:23.070 --> 05:33:25.830
MICRC1: And the remainder is precincts.

1569
05:33:43.410 --> 05:33:43.860
MICRC1: So.

1570
05:33:45.450 --> 05:33:51.870
MICRC1: This really doesn't have to do with your district, but I just wanted to say this before we get too far, I wanted to ask justin.

1571
05:33:53.850 --> 05:34:10.620
MICRC1: Since we have the Hispanic bubbles up right now the your little section that comes down doesn't doesn't look like it contains any but right to the side of it does so, would you consider putting those in to boost that Hispanic population.

1572
05:34:12.990 --> 05:34:25.620
MICRC1: Sorry, just in response, yet that would be fine if we want to judge that over that's not a I think I tried that when I was testing it in the population is quite high, but yeah i'm perfectly fine with doing that.

1573
05:34:27.960 --> 05:34:30.630
MICRC1: This area highlighted is 68,000.

1574
05:34:31.860 --> 05:34:35.460
MICRC1: So you you're still 25,000 short of.

1575
05:34:36.570 --> 05:34:37.500
MICRC1: Approximately.

1576
05:34:38.100 --> 05:34:40.230
Rhonda Lange: Okay let's go ahead and assign that for the moment.

1577
05:34:47.100 --> 05:34:51.510
MICRC1: to clean up you know this district for surrounding those we had to go to the block level.

1578
05:34:52.890 --> 05:34:57.090
MICRC1: But there's no population there, so I won't impact what you're looking at other and look better.

1579

05:35:02.760 --> 05:35:09.000

MICRC1: So you are 24% below 22,000 669 low okay.

1580

05:35:09.780 --> 05:35:26.850

Rhonda Lange: dustin are you going to be cleaning up that little section there in South gate at the moment, or can you give me recommendation on do I look at the south districts more than the northern when adding to this.

1581

05:35:29.220 --> 05:35:34.320

MICRC1: Or, I suppose, what we should or could do is take those take that little.

1582

05:35:35.790 --> 05:35:36.870

MICRC1: I don't know what to call it.

1583

05:35:37.200 --> 05:35:38.670

Rhonda Lange: Like the little fear coming down.

1584

05:35:38.700 --> 05:35:57.780

MICRC1: yeah that if we if we can take those potential to southern most blue districts have five and put them directly to the left so right underneath where it says Lincoln park there's two square districts that are unassigned.

1585

05:35:58.980 --> 05:36:00.210

MICRC1: yep though the.

1586

05:36:01.530 --> 05:36:03.840

MICRC1: movie move there, then the one below that.

1587

05:36:05.250 --> 05:36:13.680

MICRC1: We can assign those to five and then remove the other two there you go and remove those two and see what that does, would you remove them or add them to nine.

1588

05:36:14.640 --> 05:36:29.730

MICRC1: Well, five you would add to those two we would add tonight and then shifted over to five these two districts here add up to approximately 4300 these to add up to closer to.

1589

05:36:30.780 --> 05:36:32.220

MICRC1: 5000 not quite.

1590

05:36:34.410 --> 05:36:36.840

MICRC1: 700 that's fine we'll do that for now.

1591

05:36:39.330 --> 05:36:41.730

MICRC1: Commissioner, do you want to put these two and.

1592

05:36:42.360 --> 05:36:43.140

nine.

1593

05:37:09.030 --> 05:37:12.750

MICRC1: These two and five yes please.

1594

05:37:17.190 --> 05:37:24.930

MICRC1: dustin if i'm not mistaken there's the the northern section just above nine, which is now in southern part of district five that's still a part of why and.

1595

05:37:25.260 --> 05:37:34.560

MICRC1: Do you want to keep that Northern section of wind died or would you rather have wind up the whole and sort of move into that the area where the Hispanic community.

1596

05:37:34.980 --> 05:37:44.820

MICRC1: I think those dots where that's fine, so the the 30432 2316 population of those which works like that's done, why is that yeah okay so.

1597

05:37:45.840 --> 05:37:54.420

MICRC1: Just those well, I believe that all three of these are one that, in that the blue line yeah that's my understanding yeah.

1598

05:37:54.810 --> 05:37:55.170

dustin.

1599

05:37:56.220 --> 05:38:03.420

Rhonda Lange: dustin can we take those three and then shipped over and pick up the rest of the Hispanic population then could.

1600

05:38:03.720 --> 05:38:04.230

MICRC1: be fined by.

1601

05:38:04.440 --> 05:38:04.950

nine.

1602

05:38:06.300 --> 05:38:07.500

MICRC1: That would be fine by me.

1603

05:38:07.830 --> 05:38:13.530

Rhonda Lange: Okay, so that would be oh four or five and eight correct, are we talking about the same ones.

1604

05:38:14.400 --> 05:38:15.030

MICRC1: Yes, we are.

1605

05:38:15.630 --> 05:38:18.210

Rhonda Lange: Okay, could you add those two nine, please.

1606

05:38:26.520 --> 05:38:42.630

MICRC1: And also, if I may briefly, I think that your point about keeping the Hispanic Community whole is is good, I think that that's important and then, as the adjustments that Commissioner witches and Commissioner Lang are making, I think our.

1607

05:38:43.740 --> 05:38:54.390

MICRC1: city significant in that they're changing the demographics, but also keeping this this Hispanic Community all in five, I believe, and I think that's very important.

1608

05:38:55.920 --> 05:38:58.770

MICRC1: Okay, we can make it right for me to move this tonight.

1609

05:38:59.520 --> 05:39:00.360

Rhonda Lange: Yes, please.

1610

05:39:03.600 --> 05:39:08.130

MICRC1: Commissioner, which is the only thing that we're doing here which doesn't really.

1611

05:39:09.240 --> 05:39:14.190

MICRC1: I think we'll be fine as the reason why I had that that finger.

1612

05:39:15.450 --> 05:39:17.910

MICRC1: Type just coming down the south, was to keep.

1613

05:39:19.800 --> 05:39:23.580

MICRC1: What southgate of I remember itself getting Taylor whole.

1614

05:39:25.440 --> 05:39:26.040

MICRC1: But.

1615

05:39:27.180 --> 05:39:40.440

MICRC1: The given given public comments that we've received in regards to the next Community that should be fine to do I i'm not married to the idea of keeping wine me South gate and Taylor whole it'll be.

1616

05:39:41.580 --> 05:39:44.370

MICRC1: close enough to hold minus two small little precincts.

1617

05:39:45.660 --> 05:39:48.720

MICRC1: and Commissioner Lang I think you're initiating this, so this is much appreciated.

1618

05:39:49.860 --> 05:40:06.540

MICRC1: You have the Oregon exactly which of these precincts we need approximate delay at 500 so there, it looks like that's a Spanish population there well mark that is 2800 300 Hispanic.

1619

05:40:07.950 --> 05:40:09.390

MICRC1: 3600 for honor.

1620

05:40:10.740 --> 05:40:11.640

MICRC1: So those are the.

1621

05:40:13.290 --> 05:40:16.380

MICRC1: precincts there 10% or higher and Hispanic.

1622

05:40:18.120 --> 05:40:19.110

MICRC1: How do you want to get the.

1623

05:40:20.190 --> 05:40:21.420

MICRC1: Nine or so thousand.

1624

05:40:22.320 --> 05:40:25.830

Rhonda Lange: dustin five was years originally so which way, would you like to go.

1625

05:40:28.440 --> 05:40:43.470

MICRC1: Alright, so those three precincts together is roughly 10,000 quote pretty close all right, that one, and this precinct comes up in here kind of splits it up, however, you want to do it just that the 03 right there.

1626

05:40:44.550 --> 05:40:49.050

MICRC1: This one right here, and then 09, which is the other one with the.in it.

1627

05:40:53.250 --> 05:40:59.490

MICRC1: Yes, 10,000 either little odd shape here I don't know what it's all about one, a sign that sure.

1628

05:41:03.360 --> 05:41:04.530

MICRC1: Now what we could do.

1629

05:41:06.990 --> 05:41:08.970

MICRC1: Is take a couple off on the.

1630

05:41:10.200 --> 05:41:11.340

MICRC1: On the northern side.

1631

05:41:13.200 --> 05:41:14.160

MICRC1: Is that would be okay.

1632

05:41:15.870 --> 05:41:18.150

MICRC1: Why don't you and Commissioner, which is work this out.

1633

05:41:19.680 --> 05:41:23.370

Rhonda Lange: i'm here with you dustin so i'm open to suggestion.

1634

05:41:24.510 --> 05:41:26.310

MICRC1: So if you're 10,000 over.

1635

05:41:28.140 --> 05:41:36.360

MICRC1: Oh wait no hold on we're 1780 over I think we're good let's keep that, as is for now.

1636

05:41:38.490 --> 05:41:45.180

MICRC1: And then you should be able to continue moving down towards the Monroe county border.

1637

05:41:46.230 --> 05:41:51.090

MICRC1: And then district nine he's a proximate only 9700.

1638

05:41:51.720 --> 05:42:00.210

Rhonda Lange: So do I add dustin In your opinion, with this up, adding the rest of the south gate area makes sense, with down river, or does that not make sense.

1639

05:42:05.910 --> 05:42:06.540

bad shape.

1640

05:42:09.540 --> 05:42:10.620

MICRC1: This is rockwood.

1641

05:42:14.850 --> 05:42:21.510

MICRC1: right there, we could potentially do the do the south gate but I don't know what the balance of that would be right now so we'll find out.

1642

05:42:33.600 --> 05:42:39.750

MICRC1: That area South gate is 13,000 and while you wouldn't get that piece out there, so it doesn't matter.

1643

05:42:46.410 --> 05:42:47.670

MICRC1: So that put you.

1644

05:42:48.780 --> 05:42:50.250

MICRC1: A certain percentage over.

1645

05:42:54.240 --> 05:42:57.150

MICRC1: How much over wow for down sorry.

1646

05:42:59.520 --> 05:43:01.800

MICRC1: Approximately 4000 which.

1647

05:43:03.150 --> 05:43:07.560

MICRC1: Is should be about four and a half percent maybe Alex can you.

1648

05:43:08.820 --> 05:43:10.920

MICRC1: Can you scroll down a little bit more from Kim.

1649

05:43:13.980 --> 05:43:25.620

MICRC1: 006 and 007 we could potentially remove those two precincts which around the West side of district nine on the south or.

1650

05:43:28.080 --> 05:43:29.700

Rhonda Lange: And then keep the south gate.

1651

05:43:30.270 --> 05:43:30.480

As.

1652

05:43:31.530 --> 05:43:37.440

MICRC1: And then we can, and then we can have a secondary subset of downriver which would be the more inland precincts.

1653

05:43:38.100 --> 05:43:38.460

Okay.

1654

05:43:40.380 --> 05:43:40.710

MICRC1: My.

1655

05:43:40.950 --> 05:43:42.360

MICRC1: My thoughts so.

1656

05:43:43.050 --> 05:43:46.290

Rhonda Lange: i'm open to thoughts, because you know this area, better than I do.

1657

05:43:47.550 --> 05:43:49.260

Rhonda Lange: So Kent let's.

1658

05:43:50.430 --> 05:43:55.320

Rhonda Lange: When that comes back up let's take out those two areas, he just suggested to the south.

1659

05:43:56.700 --> 05:43:57.810

MICRC1: That be right about.

1660

05:43:59.670 --> 05:44:02.130

MICRC1: It it still hasn't come back, I mean.

1661

05:44:03.870 --> 05:44:04.020

I.

1662

05:44:13.650 --> 05:44:16.140

MICRC1: it's still I don't know why it's taken so long.

1663

05:44:18.150 --> 05:44:19.710

Rhonda Lange: that's fine we're here till six.

1664

05:44:28.140 --> 05:44:29.580

MICRC1: He said i'm well aware of that.

1665

05:47:12.240 --> 05:47:25.260

MICRC1: Okay, I think we're back to where we need to be I believe that's where it was um No, this is not where it was adjusted, it was this this is back to the finger.

1666

05:47:26.340 --> 05:47:31.620

MICRC1: know the finger was right there that wasn't was here oh good that these and.

1667

05:47:32.970 --> 05:47:39.330

MICRC1: it's missing, something else is it yes it's missing this right here, I think, yes okay that's when it started acting crazy.

1668

05:47:47.160 --> 05:47:50.490

MICRC1: I remember right and i'm sure you let me know if i'm not.

1669

05:47:57.300 --> 05:48:01.620

MICRC1: That was the three precincts we had put into 5am I correct on that.

1670

05:48:05.130 --> 05:48:06.240

Rhonda Lange: dots and that.

1671

05:48:07.350 --> 05:48:07.950

MICRC1: Will pretty sure.

1672

05:48:09.030 --> 05:48:09.870

MICRC1: Oh yeah yeah we.

1673

05:48:19.020 --> 05:48:28.590

MICRC1: render there was there was head nodding in the room, but I wanted to make sure that because it's your your it's your turn to ask the question does that look right will you be able to help them answer it.

1674

05:48:31.740 --> 05:48:40.230

Rhonda Lange: Well, I think, was it oh four that's where one of the Hispanic dots are wasn't that included with five.

1675

05:48:41.880 --> 05:48:43.860

MICRC1: don't think they're Hispanic dots right now.

1676

05:48:46.530 --> 05:48:47.520

MICRC1: Well, let me check again.

1677

05:48:48.990 --> 05:48:51.780

MICRC1: No it's not it is.

1678

05:48:54.060 --> 05:48:54.480

MICRC1: Definitely.

1679

05:48:56.250 --> 05:48:58.560

MICRC1: Okay, and that's at the town.

1680

05:49:02.430 --> 05:49:06.270

MICRC1: Can you turn your MIC please can yeah i'm sure this is what we had.

1681

05:49:09.090 --> 05:49:10.080

MICRC1: And I think it changed.
