

MIHP IMPORTANT UPDATE

JANUARY 9, 2024

MIHP Waiver Documents Updated

Per request of several local MIHP agencies across the state, the supervisor requirement for an approved waiver application has been adapted. Previously, a Waiver Staff had to be supervised by a qualified staff member of the same discipline, however the adaption now allows for either discipline(s), a Licensed Social Worker and/or Licensed Registered Nurse to provide supervision for a Waiver Staff person. This change was effective as of January 1, 2024. Waiver forms (posted on the MIHP website) have been adjusted to reflect the change.
