

Important MIHP Update--September 29, 2023

Technical Issues Regarding Logging into the MiHealth Training Webpage

It has come to MIHP attention that there has been some technical issues when users are trying to access their account on the [MiHealth Training Webpage](#). *Please see the information below to help navigate through those issues.*

Technical assistance within the MiHealth Training Webpage noted that due to an update to the Public Learning Management System (LMS), **users who had not logged into the MiHealth site since January 1, 2021, their accounts were archived**. It is possible that those archived accounts have been inactivated. If that is the case, users have been advised to create a new account.

Please refer to the [Courses.Mihealth.org Quick Reference Guide](#) for additional troubleshooting information.

If users are still running technical issues, or have any additional questions, please contact MiHealth Training Webpage Technical Assistance at: ISGTraining@mphi.org

Our communication for the Maternal Infant Health Program has been streamlined to a single email address and phone number. Please forward all email to MIHP@michigan.gov. For further assistance, contact the state office @ **1-833-MI4-MIHP (1-833-644-6447)**. Thank you.
