## **MIHP Important Update – Parent Leadership Opportunity**

On behalf of Parent Leadership in State Government, MIHP would like to share a parent leadership opportunity that may be of interest to MIHP families. Upcoming trainings are available as early as January and continue for the coming months. Please review the information below and feel free to encourage families to consider this opportunity. MIHP values the impactful change that can be harnessed when families partake in such leadership efforts.

### **Upcoming Leadership Trainings**

1. **Parents Partnering for Change:** This introductory leadership training is a virtual 3-day training for parents who are interested in learning skills to impact program planning and policy development on boards and committees (local, regional, and state).
2. **Growing as Leaders:** These 1-hour virtual learning sessions are intended to support the development and engagement of emerging family leaders in Michigan. They are free and open to any parent in Michigan with an interest in developing leadership skills.

**Interested?** Review eligibility and registration information here: [Events – Parent Leadership in State Government \(plisg.org\)](https://plisg.org). Attached are flyers that also contain additional details about the opportunities.

Thank you,

MDHHS Maternal Infant Health Program
