Additional Information on MI Bridges Referrals to MIHP

We received word from MI Bridges yesterday that they have had some difficulty ensuring that there is no duplication of agencies within their system. Many MIHPs and other home visiting programs are part of a parent organization that is already registered within MI Bridges. To minimize duplicate accounts being entered into the system, they are asking for programs that are situated within a parent organization to contact MDHHScommunitypartners@michigan.gov prior to entering agency information.

Mi Bridges staff will determine if the parent organization is already entered, and if so will provide the name of the lead point of contact within the organization. That individual can then be asked to enter MIHP-specific information and users. The point of contact can also update the agency account and add the MIHP as a referral partner. If you have already entered your information, we suggest that you reach out to MI Bridges to confirm your entry as a program within another organization.

Thank you for your patience as we work with MI Bridges on this exciting initiative to ensure that families have increased understanding of and access to the home visiting programs within their community. If you have additional questions, please reach out to MI Bridges via the email above.

Reminder: The deadline for entering agency information is Monday, November 30th!
