MI Bridges Referral Program Launches

The MI Bridges team informed us that programming was completed and the proactive referrals for home visiting programs will go live beginning tomorrow, December 12th. If you added your agency information into the system, you should begin actively checking for referrals next week. We are grateful that you took the time to go through the process of getting your information added into the system. Now, families who access MI Bridges and qualify for home visiting services will have the ability to learn about the various programs and choose the program that best fits their needs. **If you were unable to get your agency information entered by the November 30th deadline, you will have an option to add or edit as needed beginning in January.**

Also note that MI Bridges convenes a monthly webinar with community partners. The webinars are recorded and available to watch at your convenience. The next

webinar highlights the enhancements for MI Bridges partners and clients, and will be held on Wednesday, December 16th, from 10:00 a.m. – 11:00 a.m. Here is the [registration link](#) for those who are able to join. You should also be receiving these notifications directly from MI Bridges.

Finally, the MI Bridges team shared the following resources and information:
