Important MIHP Update- October 1, 2025

2025 Home Visiting Yearbook Published by the National Home Visiting Resource Center (NHVRC)

The National Home Visiting Resource Center (NHVRC) has released its [2025 Home Visiting Yearbook](#), a nationwide and state-by-state look at early childhood home visiting.

The publication presents 2024 data from evidence-based and emerging home visiting models and from state agencies and the Administration for Children and Families to highlight such as:

- Where programs operate, the families they serve, and the families who could benefit but are not being reached
- Profiles of states, models, and Indigenous-led organizations

Users can navigate the [NHVRC website](#) to access data and download short publications, including the *Yearbook Summary*. The *2025 Yearbook* includes virtual and in-person home visit data to reflect the field's hybrid approach to

delivering services. It also includes links to national data sources for maternal and child health indicators to offer insight into family well-being and the potential need for services.

Within the yearbook, an [MIHP profile](#) is available and uplifts the impactful reach of MIHP across Michigan. Such data is also highlighted on the [About Us](#) section of the MIHP website.
