Maternal Infant Health Program to launch new website!

New Year. New Look.

The MDHHS Maternal Infant Health Program is pleased to announce the launch of a new website on the evening of April 22, 2022. The new website is the result of a multi-year [website content management replacement project](#) to update and replace over 110 executive branch websites. The new websites are designed to modernize website technology and improve overall user experience. The project was initiated in late 2017 after receiving funding approval from the Michigan Legislature.

When the new MIHP site launches it will look a little different, but the same services and content will still be available. We will work to continually improve our website design after the initial launch.

Please note: The launch of the new website will take place between 5 pm and 9 pm on Friday, April 22, 2022. There should be no interruption during the brief transition to the new website but there may be instances of users receiving an occasional 404 error when clicking on some content until the brief website transition is completed. These errors could be resolved by refreshing the page on your web browser.

An automatic redirect program for the new website is in place to ensure users have continued access to content. Previously saved shortcuts and bookmarked pages for the MIHP website should automatically redirect you to the new website.

During this transitional period, we ask for your patience. We will continue to review the MIHP website to fix any errors that may have occurred during the move. If you note any serious issues (i.e., broken links, missing content, missing buttons, etc.), please make note of the URL that the issue was found under and report the issue to mihp@michigan.gov.

Our communication for the Maternal Infant Health Program has been streamlined to a single email address and phone number. Please forward all email to MIHP@michigan.gov. For further assistance, contact the state office @ **1-833-MI4-MIHP (1-833-644-6447)**. Thank you.
