## Exception Requests for MCIR Uploads

The MDHHS MIHP team has received requests from agencies to access beneficiary immunization information in a manner other than the current approved method, which is to print and upload MCIR verification directly from the MCIR site in MILogin. For example, some electronic medical record systems have the ability to upload immunization information directly from the MCIR site. Please reach out to the MDHHS MIHP team at [mihp@michigan.gov](mailto:mihp@michigan.gov) if your agency would like to access MCIR records in a different way and we will work on a case-by-case basis to consider exceptions to the current MCIR print requirement.
