

Great strides begin with small steps.

TRUSTED ADVISOR MONTHLY REPORT

Share how often you posted content on the importance of early childhood on social media. Your goal should be at least once a week.

How many Toolkits did you share with families in the last month?

How else did you spread with word about Steps? For example, did you speak about Steps at a staff training or association meeting? Did you write a letter to the editor about the importance of early childhood development?

Have you shared the Family Toolkit at a public event? If not, can you make plans to do so in the coming month?

What else would be helpful for you to know as you continue to share the Steps Initiative?
