

# Get Ahead of Lead: Use Certified Filters

One way to reduce lead exposure is to use a certified lead-reducing drinking water filter.

The Michigan Department of Health and Human Services (MDHHS) recommends that Michigan households use a **certified lead-reducing drinking water filter** if your home has or if you are unsure if it has one of the following:

Lead or galvanized plumbing.

A lead service line carrying water from the street to the home.

Old faucets and fittings that were sold before 2014.

## Free filters are available to households who:

Have a person under 19 or a pregnant person **enrolled in Medicaid**.
