	Households with children under 19 on Medicaid or a pregnant Medicaid enrollee can receive a free, lead-reducing filter. Visit Michgan.gov/GetAheadOfLead for more information about eligibility and to sign up.
	Households enrolled in Medicaid with children under 19 or a pregnant Medicaid enrollee can receive a free, lead-reducing filter to help keep your drinking water safe. Visit Michigan.gov/GetAheadOfLead to learn more about eligibility and to sign up.
	Michigan households enrolled in Medicaid with children under 19 or a pregnant Medicaid enrollee may be eligible for a free lead-reducing filter. Check your eligibility and sign up at Michigan.gov/GetAheadOfLead.

Get Ahead of Lead: Use Certified Filters

Use a certified lead-reducing drinking water filter if your home has, or you are unsure whether it has, any of the following:

Lead or galvanized plumbing.

A lead service line.

Old faucets (pre-2014).

Free filters are available to eligible households!

MDHHS
Michigan Department of Health & Human Services
