

Process for Tribal Programs to be added to Great Start to Quality and MiRegistry

A Tribal program, whether a family or center, must be added to MiRegistry through a manual process, which first requires addition to the Great Start to Quality public search website.

Tribal programs should email the following information to greatstarttoquality@ecic4kids.org in order to be added to those systems. Once the process is complete an email will be sent to the Tribal program and the supporting Great Start to Quality Resource Center.

- Business Name
- DBA (optional)
- Street Address
- City
- State
- Zip Code
- County
- Contact Name
- Primary Telephone Number
- Email for Public
- Email for Login
- Website

Great Start to Quality staff will create a profile for the program notify the MiRegistry vendor to set up an Organization in their system. Again, once that is complete the program contact will be notified, and the program can begin accessing the Organization Profile to connect staff and access Great Start to Quality if desired. Once staff are connected, the organization profile users can register staff for training in MiRegistry.

Any questions regarding setting up Organization Profiles in MiRegistry can be sent to greatstarttoquality@ecic4kids.org or by calling the local Great Start to Quality Resource Center at 1-877-614-7328.
