MiLEAP STRATEGIC GOALS

This grant supports the strategic goals of the Michigan Department of Lifelong Education, Advancement, and Potential to prioritize education from preschool through postsecondary with a focus on preparing children for kindergarten. This grant further aligns with MiLEAP’s goals of ensuring that all young children meet their developmental milestones and enter kindergarten with the tools and ability to succeed in school.

GRANT RANGE AND FUNDING LIMIT

MiLEAP has determined the appropriate length of this grant award to be a one-year period under CCDF funding, with the option of grant extensions under a different funding source (to be determined). Continuation of funding will be available contingent on successful implementation of the project if federal funds are

available. Throughout the duration of the funding award, successful projects will be required to submit continuation applications and budgets for subsequent years. Award of funds for continuation of a multiple-year grant will depend upon considerations which include, but are not limited to, the results of an annual evaluation of the work and grantee's performance, the availability of funds, and the submission and acceptance of a continuation proposal.

Actual grant awards for FY2025 are contingent upon the MiLEAP receiving sufficient federal funding and state appropriation. In addition, the state legislature has the prerogative to make changes in the state budget during the fiscal year. **An estimated award is not an actual award and does not constitute any binding agreement on behalf of the MiLEAP. The MiLEAP is not responsible for any costs incurred prior to the start of an actual or final grant award period.** The GSC/GSFC Training and Technical Assistance Lead grantee will submit a statement of expenditures monthly as the grant claim. Payments will be made by the Michigan Department of Lifelong Education, Advancement, and Potential (MiLEAP) on a reimbursement basis for actual agreement expenditures incurred during the award period.

SCOPE OF WORK

The selected grantee will be required to submit a scope of work that includes the name and contact information of the project manager, detailed description of activities, a list of deliverables, and timeline for performance targets, SOEs, and reports.

MONITORING PLAN AND PERFORMANCE REPORTING

Embedded in an outcome-based accountability system (as required by CCDF), MiLEAP has developed a monitoring plan that will ensure successful execution of the scope of work and will support our collective achievement of identified performance metrics. This results-based accountability framework will also help to ensure that grant resources are maximized and targeted toward the attainment and completion of identified goals and activities. The monitoring plan will be provided to the selected grantee as part of a grant agreement.

- Michigan's CCDF Monitoring Plan includes two main components: monitoring and reporting; and data and performance.
- MiLEAP will monitor grantees utilizing the three accountability elements—project plans, progress monitoring meetings, and reporting—as key mechanisms for tracking progress and the provision of on-going support.
- As MiLEAP is ultimately responsible for the success of each of the projects, a data-driven, performance-based infrastructure will be utilized to create accountability across projects. This component of the monitoring plan is based on the following four accountability framework elements: strategies for fostering accountability; performance metrics; reporting and tracking; and performance-based agreements.
- MiLEAP has an individualized monitoring plan and schedule that ensures MiLEAP has regular opportunities to gauge progress, provide feedback, and engage in discussion about upcoming deliverables and performance targets. Key contact personnel will be identified within both MiLEAP and the grantee organization to facilitate coordination of the grant. Project budgets will also be evaluated consistently with the understanding that payments will be delivered based on demonstrated progress toward delivery of agreed upon milestones and deliverables. Either MiLEAP or the grantee may propose amendments to the monitoring plan, but both parties must agree to the proposed changes.
- The grantee will also be part of the Early Childhood Systems Building Implementation Team and meet with other lead grantees and MiLEAP leadership on a regular basis throughout this project. The goal of the Implementation Team meetings is to coordinate primary stakeholders to facilitate input, oversee implementation across projects, and ensure success of each key partner.

Performance monitoring will result in one or more of several possible outcomes:

- The monitoring will not identify any concerns; and/or
- The monitoring will identify concerns of a minor nature resulting in requirements for the grantee to modify existing project plans or expenditure processes; and/or
- The monitoring will identify substantial concerns resulting in a monitoring report and possible MiLEAP response of financial penalties if satisfactory corrective action is not taken within 30 days.
