The People of the State of Michigan enact:

Sec. 3. (1) “Average daily attendance”, for the purposes of complying with federal law, means 92% of the pupils counted in membership on the pupil membership count day, as defined in section 6(7).

(2) “Board” means the governing body of a district or public school academy.

(3) “Center” means the center for educational performance and information created in section 94a.

(4) “Community district” means a school district organized under part 5b of the revised school code, MCL 380.381 to 380.396.

(5) “Cooperative education program” means a written voluntary agreement between and among districts to provide certain educational programs for pupils in certain groups of districts. The written agreement must be approved by all affected districts at least annually and must specify the educational programs to be provided and the estimated number of pupils from each district who will participate in the educational programs.

(6) “Department”, except as otherwise provided in this article, means the department of education.

(7) “District” means, except as otherwise specifically provided in this act, a local school district established under the revised school code or, except in sections 6(4), 6(6), 11x, 11y, 11aa, 12c, 13, 20, 22a, 22p, 27l, 31a, 51a(14), 105, 105c, and 166b, a public school academy. (8) “District of residence”, except as otherwise provided in this subsection, means the district in which a pupil’s custodial parent or parents or legal guardian resides. For a pupil described in section 24b, the pupil’s district of residence is the district in which the pupil enrolls under that section. For a pupil described in section 6(4)(d), the pupil’s district of residence is considered to be the district or intermediate district in which the pupil is counted in membership under that section. For a pupil under court jurisdiction who is placed outside the district in which the pupil’s custodial parent or parents or legal guardian resides, the pupil’s district of residence is considered to be the educating district or educating intermediate district.

(9) “District superintendent” means the superintendent of a district or the chief administrator of a public school academy.

Sec. 4. (1) “Elementary pupil” means a pupil in membership in grades K to 8 in a district not maintaining classes above grade 8 or in grades K to 6 in a district maintaining classes above grade 8 or a child enrolled and in regular attendance in a publicly funded prekindergarten setting.

(2) “Extended school year” means an educational program conducted by a district in which pupils must be enrolled but not necessarily in attendance on the pupil membership count day in an extended year program. The mandatory clock hours must be completed by each pupil not more than 365 calendar days after the pupil’s first day of classes for the school year prescribed. The department shall prescribe pupil, personnel, and other reporting requirements for the educational program.

(4) “High school equivalency certificate” means a certificate granted for the successful completion of a high school equivalency test.

Programs for pupils with emotional impairment housed in buildings that do not serve regular education pupils also qualify. Unless otherwise approved by the department, a center program either serves all constituent districts within an intermediate district or serves several districts with less than 50% of the pupils residing in the operating district. In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 1412 of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

(2) “District and high school graduation rate” means the annual completion and pupil dropout rate that is calculated by the center pursuant to nationally recognized standards.

(3) “District and high school graduation report” means a report of the number of pupils, excluding adult education participants, in the district for the immediately preceding school year, adjusted for those pupils who have transferred into or out of the district or high school, who leave high school with a diploma or other credential of equal status.

(4) “Membership”, except as otherwise provided in this article, means for a district, a public school academy, or an intermediate district the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance in the district, public school academy, or intermediate district on the pupil membership count day for the current school year, plus the product of .10 times the final audited count from the supplemental count day of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance in the district, public school academy, or intermediate district for the immediately preceding school year. A district’s, public school academy’s, or intermediate district’s membership is adjusted as provided under section 25e for pupils who enroll after the pupil membership count day in a strict discipline academy operating under sections 1311b to 1311m of the revised school code, MCL 380.1311b to 380.1311m. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, a public school academy, or an intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil is counted in membership in the pupil’s educating district or districts. Except as otherwise provided in this subsection, an individual pupil must not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil’s district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil’s district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil’s district of residence to count the pupil in membership, the pupil is not counted in membership in any district.

(c) A special education pupil educated by the intermediate district is counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, is counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan Schools for the Deaf and Blind is counted in membership in the pupil’s intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established under section 690 of the revised school code, MCL 380.690, is counted in membership only in the pupil’s district of residence.

(g) A pupil enrolled in a public school academy is counted in membership in the public school academy.

(h) For the purposes of this section and section 6a, for a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, that is in compliance with section 553a of the revised school code, MCL 380.553a, a pupil’s participation in the cyber school’s educational program is considered regular daily attendance, and for a district or public school academy, a pupil’s participation in a virtual course as that term is

defined in section 21f is considered regular daily attendance. Beginning July 1, 2021, this subdivision is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021. For the purposes of this subdivision, for a pupil enrolled in a cyber school, all of the following apply with regard to the participation requirement as described in this subdivision:

(i) Except as otherwise provided in this subdivision, the pupil shall participate in each scheduled course on pupil membership count day or supplemental count day, as applicable. If the pupil is absent on pupil membership count day or supplemental count day, as applicable, the pupil must attend and participate in class during the next 10 consecutive school days if the absence was unexcused, or during the next 30 calendar days if the absence was excused.

(ii) For a pupil who is not learning sequentially, 1 or more of the following must be met on pupil membership count day or supplemental count day, as applicable, for each scheduled course to satisfy the participation requirement under this subdivision:

(A) The pupil attended a live lesson from the teacher.

(B) The pupil logged into a lesson or lesson activity and the login can be documented.

(C) The pupil and teacher engaged in a subject-oriented telephone conversation.

(D) There is documentation of an email dialogue between the pupil and teacher.

(E) There is documentation of activity or work between the learning coach and pupil.

(F) An alternate form of attendance as determined and agreed upon by the cyber school and the pupil membership auditor was met.

(iii) For a pupil using sequential learning, the participation requirement under this subdivision is satisfied if either of the following occurs:

(A) Except as otherwise provided in this sub-subparagraph, the pupil and the teacher of record or mentor complete a 2-way interaction for 1 course during the week on which pupil membership count day or supplemental count day, as applicable, occurs, and the 3 consecutive weeks following that week. However, if a school break is scheduled during any of the weeks described in this sub-subparagraph that is 4 or more days in length or instruction has been canceled districtwide during any of the weeks described in this sub-subparagraph for 3 or more school days, the district is not required to ensure that the pupil and the teacher of record or mentor completed a 2-way interaction for that week. As used in this sub-subparagraph:

(I) "2-way interaction" means the communication that occurs between the teacher of record or mentor and pupil, where 1 party initiates communication and a response from the other party follows that communication. Responses as described in this sub-sub-subparagraph must be to the communication initiated by the teacher of record or mentor, and not some other action taken. This interaction may occur through, but is not limited to, means such as email, telephone, instant messaging, or face-to-face conversation. A parent- or legal-guardian-facilitated 2-way interaction is considered a 2-way interaction if the pupil is in any of grades K to 5 and does not yet possess the skills necessary to participate in 2-way interactions unassisted. The interactions described in this sub-sub-subparagraph must relate to a virtual course on the pupil's schedule and pertain to course content or progress.

(II) "Mentor" means a professional employee of the district who monitors the pupil's progress, ensures the pupil has access to needed technology, is available for assistance, and ensures access to the teacher of record. A mentor may also be the teacher of record if the mentor meets the definition of a teacher of record under this sub-subparagraph and the district is the provider for the course.

(III) "Teacher of record" means a teacher to whom all of the following apply:

(1) The teacher is responsible for providing instruction, determining instructional methods for each pupil, diagnosing learning needs, assessing pupil learning, prescribing intervention strategies and modifying lessons, reporting outcomes, and evaluating the effects of instruction and support strategies. The teacher of record may coordinate the distribution and assignment of the responsibilities described in this sub-sub-sub-subparagraph with other teachers participating in the instructional process for a course.

(2) The teacher is certified for the grade level or is working under a valid substitute permit, authorization, or approval issued by the department.

(3) The teacher has a personnel identification code provided by the center.

(IV) "Week" means a period that starts on Wednesday and ends the following Tuesday.

(B) The pupil completes a combination of 1 or more of the following activities for each scheduled course on pupil membership count day or supplemental count day, as applicable:

(I) Documented attendance in a virtual course where synchronous, live instruction occurred with the teacher.

(II) Documented completion of a course assignment.

(III) Documented completion of a course lesson or lesson activity.

(IV) Documented pupil access to an ongoing lesson, which does not include a login.

(V) Documented physical attendance on pupil membership count day or supplemental count day, as applicable, in each scheduled course, if the pupil will attend at least 50% of the instructional time for each scheduled course on-site, face-to-face with the teacher of record. As used in this sub-sub-subparagraph, "teacher of record" means that term as defined in subparagraph (iii)(A).

(iv) For purposes of subparagraph (iii), each scheduled course currently being attempted by the pupil, rather than every course on the pupil's schedule for the entire term, is considered a part of each scheduled course for the pupil.

(i) For a new district or public school academy beginning its operation after December 31, 1994, membership for the first 2 full or partial fiscal years of operation is determined as follows:

(i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership excludes from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) For an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance, on a pupil membership count day, is counted in membership.

(l) To be counted in membership, a pupil must meet the minimum age requirement to be eligible to attend school under section 1147 of the revised school code, MCL 380.1147, and must be less than 20 years of age on September 1 of the school year except as follows:

(i) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year is counted in membership.

(ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating pupils with extreme barriers to education, such as being homeless as that term is defined under 42 USC 11302.

(B) Had dropped out of school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(iii) If a child does not meet the minimum age requirement to be eligible to attend school for that school year under section 1147 of the revised school code, MCL 380.1147, but will be 5 years of age not later than December 1 of that school year, the district may count the child in membership for that school year if the parent or legal guardian has notified the district in writing that the parent or legal guardian intends to enroll the child in kindergarten for that school year.

(m) An individual who has achieved a high school diploma is not counted in membership. An individual who has achieved a high school equivalency certificate is not counted in membership unless the individual is a student with a disability as that term is defined in R 340.1702 of the Michigan Administrative Code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the department of labor and economic opportunity, or participating in any successor of either of those 2 programs, is not counted in membership.

(n) If a pupil counted in membership in a public school academy is also educated by a district or intermediate district as part of a cooperative education program, the pupil is counted in membership only in the public school academy unless a written agreement signed by all parties designates the party or parties in which the pupil is

counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district is included in the full-time equated membership determination under subdivision (q) and section 101. However, for pupils receiving instruction in both a public school academy and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy provides instruction for at least 1/2 of the class hours required under section 101, the public school academy receives as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils is allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy provides instruction for less than 1/2 of the class hours required under section 101, the district or intermediate district providing the remainder of the hours of instruction receives as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils is allocated to the public school academy.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program is not counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships must be consistent with section 101. In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution or for pupils engaged in an internship or work experience under section 1279h of the revised school code, MCL 380.1279h, a pupil is not considered to be less than a full-time equated pupil solely because of the effect of the pupil's postsecondary enrollment or engagement in the internship or work experience, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Full-time equated memberships for pupils in kindergarten are determined by dividing the number of instructional hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12. However, to the extent allowable under federal law, for a district or public school academy that provides evidence satisfactory to the department that it used federal title I money in the 2 immediately preceding school fiscal years to fund full-time kindergarten, full-time equated memberships for pupils in kindergarten are determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12. The change in the counting of full-time equated memberships for pupils in kindergarten that took effect for 2012-2013 is not a mandate.

(s) For a district or a public school academy that has pupils enrolled in a grade level that was not offered by the district or public school academy in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year. Membership is calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours required under section 101 for full-time equivalency. For the purposes of this subdivision, a district is considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district within 45 days after the pupil membership count day, the department shall adjust the district's pupil count for the pupil membership count day to include the pupil in the count.

(w) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(x) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils, the district has 4.5 or fewer pupils per square mile, as determined by the department, and the district does not receive funding under section 22d(2), the district's membership is considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. If a district has established a community engagement advisory committee in partnership with the department of treasury, is required to submit a deficit elimination plan or an enhanced deficit elimination plan under section 1220 of the revised school code, MCL 380.1220, and is located in a city with a population between 9,000 and 11,000, as determined by the department, that is in a county with a population between 150,000 and 160,000, as determined by the department, the district's membership is considered to be the membership figure calculated under this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(y) Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan Administrative Code are determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are receiving early childhood special education services under R 340.1755 or R 340.1862 of the Michigan Administrative Code are determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.

(z) A pupil of a district that begins its school year after Labor Day who is enrolled in an intermediate district program that begins before Labor Day is not considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor Day.

(aa) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department. If a pupil described in this subdivision was counted in membership by the operating district on the immediately preceding supplemental count day, the pupil is excluded from the district's immediately preceding supplemental count for the purposes of determining the district's membership.

(bb) A district or public school academy that educates a pupil who attends a United States Olympic Education Center may count the pupil in membership regardless of whether or not the pupil is a resident of this state.

(cc) A pupil enrolled in a district other than the pupil's district of residence under section 1148(2) of the revised school code, MCL 380.1148, is counted in the educating district.

(dd) For a pupil enrolled in a dropout recovery program that meets the requirements of section 23a, the pupil is counted as 1/12 of a full-time equated membership for each month that the district operating the program reports that the pupil was enrolled in the program and was in full attendance. However, if the special membership counting provisions under this subdivision and the operation of the other membership counting provisions under this subsection result in a pupil being counted as more than 1.0 FTE in a fiscal year, the payment made for the

pupil under sections 22a and 22b must not be based on more than 1.0 FTE for that pupil, and any portion of an FTE for that pupil that exceeds 1.0 is instead paid under section 25g. The district operating the program shall report to the center the number of pupils who were enrolled in the program and were in full attendance for a month not later than 30 days after the end of the month. A district shall not report a pupil as being in full attendance for a month unless both of the following are met:

(i) A personalized learning plan is in place on or before the first school day of the month for the first month the pupil participates in the program.

(ii) The pupil meets the district's definition under section 23a of satisfactory monthly progress for that month or, if the pupil does not meet that definition of satisfactory monthly progress for that month, the pupil did meet that definition of satisfactory monthly progress in the immediately preceding month and appropriate interventions, as defined by the district, are implemented within 10 school days after it is determined that the pupil does not meet that definition of satisfactory monthly progress.

(ee) A pupil participating in a virtual course under section 21f is counted in membership in the district enrolling the pupil.

(ff) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district or other public school academy in which a former pupil of the closed public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district or other public school academy receives the same amount of membership aid for the pupil as if the pupil were counted in the district or other public school academy on the supplemental count day of the preceding school year.

(gg) If a special education pupil is expelled under section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a, and is not in attendance on the pupil membership count day because of the expulsion, and if the pupil remains enrolled in the district and resumes regular daily attendance during that school year, the district's membership is adjusted to count the pupil in membership as if the pupil had been in attendance on the pupil membership count day.

(hh) A pupil enrolled in a community district is counted in membership in the community district.

(ii) A part-time pupil enrolled in a nonpublic school in grades K to 12 in accordance with section 166b must not be counted as more than 0.75 of a full-time equated membership.

(jj) A district that borders another state or a public school academy that operates at least grades 9 to 12 and is located within 20 miles of a border with another state may count in membership a pupil who is enrolled in a course at a college or university that is located in the bordering state and within 20 miles of the border with this state if all of the following are met:

(i) The pupil would meet the definition of an eligible student under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, if the course were an eligible course under that act.

(ii) The course in which the pupil is enrolled would meet the definition of an eligible course under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, if the course were provided by an eligible postsecondary institution under that act.

(iii) The department determines that the college or university is an institution that, in the other state, fulfills a function comparable to a state university or community college, as those terms are defined in section 3 of the postsecondary enrollment options act, 1996 PA 160, MCL 388.513, or is an independent nonprofit degree-granting college or university.

(iv) The district or public school academy pays for a portion of the pupil's tuition at the college or university in an amount equal to the eligible charges that the district or public school academy would pay to an eligible postsecondary institution under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, as if the course were an eligible course under that act.

(v) The district or public school academy awards high school credit to a pupil who successfully completes a course as described in this subdivision.

(kk) A pupil enrolled in a middle college program may be counted for more than a total of 1.0 full-time equated membership for any of the school years in which the pupil is enrolled in the middle college program, but the total full-time equated membership for that pupil for all of the school years in which the pupil is enrolled in high school must not be greater than 5.00 full-time equated membership if the pupil is enrolled in more than the minimum number of instructional days and hours required under section 101 and the pupil is expected to complete the 5-year program with both a high school diploma and at least 60 transferable college credits or is expected to earn an associate's degree in fewer than 5 years. A pupil who graduates with both a high school diploma and at least 60 transferable college credits or an associate degree at least 1 semester early is considered to have completed the middle college program in fewer than 5 years.

(l) If a district's or public school academy's membership for a particular fiscal year, as otherwise calculated under this subsection, includes pupils counted in membership who are enrolled under section 166b, all of the following apply for the purposes of this subdivision:

(i) If the district's or public school academy's membership for pupils counted under section 166b equals or exceeds 5% of the district's or public school academy's membership for pupils not counted in membership under section 166b in the immediately preceding fiscal year, then the growth in the district's or public school academy's membership for pupils counted under section 166b must not exceed 10%.

(ii) If the district's or public school academy's membership for pupils counted under section 166b is less than 5% of the district's or public school academy's membership for pupils not counted in membership under section 166b in the immediately preceding fiscal year, then the district's or public school academy's membership for pupils counted under section 166b must not exceed the greater of the following:

(A) Five percent of the district's or public school academy's membership for pupils not counted in membership under section 166b.

(B) Ten percent more than the district's or public school academy's membership for pupils counted under section 166b in the immediately preceding fiscal year.

(iii) If 1 or more districts consolidate or are parties to an annexation, then the calculations under subparagraphs (i) and (ii) must be applied to the combined total membership for pupils counted in those districts for the fiscal year immediately preceding the consolidation or annexation.

(5) "Public school academy" means that term as defined in section 5 of the revised school code, MCL 380.5.

(6) "Pupil" means an individual in membership in a public school. A district must have the approval of the pupil's district of residence to count the pupil in membership, except approval by the pupil's district of residence is not required for any of the following:

(a) A nonpublic part-time pupil enrolled in grades K to 12 in accordance with section 166b.

(b) A pupil receiving 1/2 or less of the pupil's instruction in a district other than the pupil's district of residence.

(c) A pupil enrolled in a public school academy.

(d) A pupil enrolled in a district other than the pupil's district of residence if the pupil is enrolled in accordance with section 105 or 105c.

(e) A pupil who has made an official written complaint or whose parent or legal guardian has made an official written complaint to law enforcement officials and to school officials of the pupil's district of residence that the pupil has been the victim of a criminal sexual assault or other serious assault, if the official complaint either indicates that the assault occurred at school or that the assault was committed by 1 or more other pupils enrolled in the school the pupil would otherwise attend in the district of residence or by an employee of the district of residence. A person who intentionally makes a false report of a crime to law enforcement officials for the purposes of this subdivision is subject to section 411a of the Michigan penal code, 1931 PA 328, MCL 750.411a, which provides criminal penalties for that conduct. As used in this subdivision:

(i) "At school" means in a classroom, elsewhere on school premises, on a school bus or other school-related vehicle, or at a school-sponsored activity or event whether or not it is held on school premises.

(ii) "Serious assault" means an act that constitutes a felony violation of chapter XI of the Michigan penal code, 1931 PA 328, MCL 750.81 to 750.90h, or that constitutes an assault and infliction of serious or aggravated injury under section 81a of the Michigan penal code, 1931 PA 328, MCL 750.81a.

(f) A pupil whose district of residence changed after the pupil membership count day and before the supplemental count day and who continues to be enrolled on the supplemental count day as a nonresident in the district in which the pupil was enrolled as a resident on the pupil membership count day of the same school year.

(g) A pupil enrolled in an alternative education program operated by a district other than the pupil's district of residence who meets 1 or more of the following:

(i) The pupil has been suspended or expelled from the pupil's district of residence for any reason, including, but not limited to, a suspension or expulsion under section 1310, 1311, or 1311a of the revised school code, MCL 380.1310, 380.1311, and 380.1311a.

(i) A pupil who is the child of a person who works at the district or who is the child of a person who worked at the district as of the time the pupil first enrolled in the district but who no longer works at the district due to a workforce reduction. As used in this subdivision, "child" includes an adopted child, stepchild, or legal ward.

(j) An expelled pupil who has been denied reinstatement by the expelling district and is reinstated by another school board under section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a.

(k) A pupil enrolled in a district other than the pupil's district of residence in a middle college program if the pupil's district of residence and the enrolling district are both constituent districts of the same intermediate district.

(l) A pupil enrolled in a district other than the pupil's district of residence who attends a United States Olympic Education Center.

(m) A pupil enrolled in a district other than the pupil's district of residence under section 1148(2) of the revised school code, MCL 380.1148.

(n) A pupil who enrolls in a district other than the pupil's district of residence as a result of the pupil's school not making adequate yearly progress under the no child left behind act of 2001, Public Law 107-110, or the every student succeeds act, Public Law 114-95.

However, if a district educates pupils who reside in another district and if the primary instructional site for those pupils is established by the educating district after 2009-2010 and is located within the boundaries of that other district, the educating district must have the approval of that other district to count those pupils in membership.

(7) "Pupil membership count day" of a district or intermediate district means:

(a) Except as provided in subdivision (b) or (c), either of the following:

(i) The first Wednesday in October each school year.

Except as otherwise provided in this section and subsection, a pupil who is absent from any of the classes in which the pupil is enrolled on the pupil membership count day or supplemental count day and who does not attend each of those classes during the 10 consecutive school days immediately following the pupil membership count day or supplemental count day, except for a pupil who has been excused by the district, is not counted as 1.0 full-time equated membership. Except as otherwise provided in this section, a pupil who is excused from attendance on the pupil membership count day or supplemental count day and who fails to attend each of the classes in which the pupil is enrolled within 30 calendar days after the pupil membership count day or supplemental count day is not counted as 1.0 full-time equated membership. Except as otherwise provided in this section, in addition, a pupil who was enrolled and in attendance in a district, intermediate district, or public school academy before the pupil membership count day or supplemental count day of a particular year but was expelled or suspended on the pupil membership count day or supplemental count day is only counted as 1.0 full-time equated membership if the pupil resumed attendance in the district, intermediate district, or public school academy within 45 days after the pupil membership count day or supplemental count day of that particular year. Except as otherwise provided in this section, a pupil not counted as 1.0 full-time equated membership due to an absence from a class is counted as a prorated membership for the classes the pupil attended. For purposes of this subsection:

(a) "Appropriately placed" means holding a valid Michigan educator credential with the required grade range and discipline or subject area for the assignment, as defined by the superintendent of public instruction.

(b) "Class" means either of the following, as applicable:

This subdivision does not apply for the 2020-2021, 2021-2022, 2022-2023, and 2023-2024 school years.

(ii) For the 2020-2021, 2021-2022, 2022-2023, and 2023-2024 school years only, a period of time in 1 day when pupils and a certificated teacher, a teacher engaged to teach under section 1233b of the revised school code, MCL 380.1233b, or an individual working under a valid substitute permit, authorization, or approval issued by the department are together and instruction is taking place.

(12) “School fiscal year” means a fiscal year that commences July 1 and continues through June 30.

Tuition pupil does not include a pupil who is a special education pupil, a pupil described in subsection (6)(d) to (n), or a pupil whose parent or guardian voluntarily enrolls the pupil in a district that is not the pupil’s district of residence. A pupil’s district of residence shall not require a high school tuition pupil, as provided under section 111, to attend another school district after the pupil has been assigned to a school district.

(17) “State school aid fund” means the state school aid fund established in section 11 of article IX of the state constitution of 1963.

However, if a date described in the immediately preceding sentence is on a day of religious or cultural significance, as determined by the district or intermediate district, the immediately following day on which school is in session is the day on which the supplemental pupil count described in this section must occur. For the purposes of this act, the day on which the supplemental pupil count is conducted is the supplemental count day.

Sec. 11. (1) For the fiscal year ending September 30, 2023, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum of \$17,270,268,900.00 from the state school aid fund, the sum of \$124,350,000.00 from the general fund, an amount not to exceed \$72,000,000.00 from the community district education trust fund created under section 12 of the Michigan trust fund act, 2000 PA 489, MCL 12.262, an amount not to exceed \$200,000.00 from the school transportation fund created under section 22k, an amount not to exceed \$25,000,000.00 from the school meals reserve fund created under section 30e, and an amount not to exceed \$140,400,000.00 from the MPERS retirement obligation reform reserve fund created under section 147b. (3) Any general fund allocations under this article that are not expended by the end of the fiscal year are transferred to the school aid stabilization fund created under section 11a.

Sec. 11a. (1) The school aid stabilization fund is created as a separate account within the state school aid fund.

(2) The state treasurer may receive money or other assets from any source for deposit into the school aid stabilization fund. The state treasurer shall deposit into the school aid stabilization fund all of the following:

(3) If, based on an audit by the department or the department's designee or because of new or updated information received by the department, the department determines that the amount paid to a district or intermediate district under this article for the current fiscal year or a prior fiscal year was incorrect, the department shall make the appropriate deduction or payment in the district's or intermediate district's allocation in the next apportionment after the adjustment is finalized. The department shall calculate the deduction or payment according to the law in effect in the fiscal year in which the incorrect amount was paid. If the district does not receive an allocation for the fiscal year or if the allocation is not sufficient to pay the amount of any deduction, the amount of any deduction otherwise applicable must be satisfied from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211, as determined by the department.

(4) If the department makes an adjustment under this section based in whole or in part on a membership audit finding that a district or intermediate district employed an educator in violation of certification requirements under the revised school code and rules promulgated by the department, the department shall prorate the adjustment according to the period of noncompliance with the certification requirements.

(5) The department may conduct audits, or may direct audits by designee of the department, for the current fiscal year and the immediately preceding fiscal year of all records related to a program for which a district or intermediate district has received funds under this article.

(6) Expenditures made by the department under this article that are caused by the write-off of prior year accruals may be funded by revenue from the write-off of prior year accruals.

(7) In addition to funds appropriated in section 11 for all programs and services, there is appropriated for 2023-2024 for obligations in excess of applicable appropriations an amount equal to the collection of overpayments, but not to exceed amounts available from overpayments.

Sec. 19. (1) A district or intermediate district shall comply with all applicable reporting requirements specified in state and federal law. Data provided to the center, in a form and manner prescribed by the center, must be aggregated and disaggregated as required by state and federal law. In addition, a district or intermediate district shall cooperate with all measures taken by the center to establish and maintain a statewide P-20 longitudinal data system.

(2) Each district shall furnish to the center not later than 5 weeks after the pupil membership count day and by the last business day in June of the school fiscal year ending in the fiscal year, in a manner prescribed by the center, the information necessary for the preparation of the district and high school graduation report, information regarding completion of early middle college credentials obtained and postsecondary credits obtained in any college acceleration program, and information necessary for the preparation of the state and federal accountability reports. This information must meet requirements established in the pupil auditing manual approved and published by the department. The center shall calculate an annual graduation and pupil dropout rate for each high school, each district, and this state, in compliance with nationally recognized standards for these calculations. The center shall report all graduation and dropout rates to the senate and house education committees and appropriations committees, the state budget director, and the department not later than 30 days after the publication of the list described in subsection (5). Before reporting these graduation and dropout rates, the department shall allow a school or district to appeal the calculations. The department shall consider and act upon the appeal within 30 days after it is submitted and shall not report these graduation and dropout rates until after all appeals have been considered and decided.

(3) By the first business day in December and by the last business day in June of each year, and within 30 days of any changes in employment or assignment status, a district shall furnish to the center, in a manner prescribed by the center, information related to educational personnel and personnel vacancies as necessary for reporting required by state and federal law. For the purposes of this subsection, the center shall only require districts and intermediate districts to report information that is not already available from the office of retirement services in the department of technology, management, and budget, including, but not limited to, information concerning vacancy start and end dates and reasons for vacancies and vacancy terminations.

(4) If a district or intermediate district fails to meet the requirements of this section, the department shall withhold 5% of the total funds for which the district or intermediate district qualifies under this article until the district or intermediate district complies with this section. If the district or intermediate district does not comply with this section by the end of the fiscal year, the department shall place the amount withheld in an escrow account until the district or intermediate district complies with this section.

(5) Before publishing a list of school or district accountability designations as required by the no child left behind act of 2001, Public Law 107-110, or the every student succeeds act, Public Law 114-95, and utilizing data that were certified as accurate and complete after districts and intermediate districts adhered to deadlines, data quality reviews, and correction processes leading to local certification of final student data in subsection (2), the department shall allow a school or district to appeal any calculation errors used in the preparation of accountability metrics. The department shall consider and act upon the appeal within 30 days after it is submitted and shall not publish the list until after all appeals have been considered and decided.

(6) The department shall implement statewide standard reporting requirements for education data approved by the department in conjunction with the center. The department shall work with the center, intermediate districts, districts, and other interested stakeholders to implement this policy change. A district or intermediate district shall implement the statewide standard reporting requirements not later than 2017-2018 or when a district or intermediate district updates its education data reporting system, whichever is later.

(7) A district or intermediate district shall collect and submit to the center tribal affiliation data for all students and staff and the identification of student participation in federal programs funded under 20 USC 7401 to 7546 and participation in federal programs funded under the Johnson-O'Malley Supplemental Indian Education Program Modernization Act, Public Law 115-404. The data must be reported in a form and manner prescribed by the center in consultation with the federally recognized Indian tribes in this state and the department in adherence to the department's tribal consultation policy. A district or intermediate district shall begin completion of the reporting requirement under this subsection by not later than the 2024-2025 fiscal year.

Sec. 20. (1) All of the following apply:

(a) For 2022-2023, the target foundation allowance is \$9,150.00.

(b) For 2023-2024, the target foundation allowance is \$9,608.00.

(2) The department shall calculate the amount of each district's foundation allowance as provided in this section, using a target foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the department shall calculate the amount of a district's foundation allowance as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) For a district that had a foundation allowance for the immediately preceding fiscal year that was equal to the target foundation allowance for the immediately preceding fiscal year, the district receives a foundation allowance in an amount equal to the target foundation allowance described in subsection (1) for the current fiscal year.

(b) For a district that had a foundation allowance for the immediately preceding fiscal year that was greater than the target foundation allowance for the immediately preceding fiscal year, the district's foundation allowance is an amount equal to the lesser of (the sum of the district's foundation allowance for the immediately preceding fiscal year plus any per pupil amount calculated under section 20m(2) in the immediately preceding fiscal year plus the increase in the target foundation allowance for the current fiscal year, as compared to the immediately preceding fiscal year) or (the product of the district's foundation allowance for the immediately preceding fiscal year times the percentage increase in the United States Consumer Price Index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b).

(c) For a district that has a foundation allowance that is less than the target foundation allowance in the current fiscal year but had a foundation allowance in fiscal year 2020-2021 that was greater than the target foundation allowance in effect for that fiscal year, the district's foundation allowance is an amount equal to the lesser of (the sum of the district's foundation allowance for fiscal year 2020-2021 plus the increase in the target foundation allowance for the current fiscal year, as compared to fiscal year 2020-2021) or (the product of the district's foundation allowance for the immediately preceding fiscal year times the percentage increase in the United States Consumer Price Index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b).

(d) For a district that has a foundation allowance that is not a whole dollar amount, the department shall round the district's foundation allowance up to the nearest whole dollar.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the target foundation allowance for the current fiscal year, whichever is less, minus the local portion of the district's foundation allowance. Except as otherwise provided in this subsection, for a district described in subsection (3)(b) and (c), the state portion of the district's foundation allowance is an amount equal to the target foundation allowance minus the district's foundation allowance supplemental payment per pupil calculated under section 20m and minus the local portion of the district's foundation allowance. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the department shall calculate the state portion of the district's foundation allowance as if that reduction did not occur. For a receiving district, if school operating taxes continue to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, the taxable value per membership pupil of property in the receiving district used for the purposes of this subsection does not include the taxable value of property within the geographic area of the dissolved district. For a community district, if school operating taxes continue to be levied by a qualifying school district under section 12b of the revised school code, MCL 380.12b, with the same geographic area as the community district, the taxable value per membership pupil of property in the community district to be used for the purposes of this subsection does not include the taxable value of property within the geographic area of the community district.

(5) The allocation calculated under this section for a pupil is based on the foundation allowance of the pupil's district of residence. For a pupil enrolled under section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section is based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section is based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence. The calculation under this subsection must take into account a district's per-pupil allocation under section 20m.

(6) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to the target foundation allowance specified in subsection (1), or, for a public school academy that was issued a contract under section 552 of the revised school

code, MCL 380.552, to operate as a school of excellence that is a cyber school, \$9,150.00. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection must be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation must not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) For pupils in membership, other than special education pupils, in a community district, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the community district equal to the foundation allowance of the qualifying school district, as described in section 12b of the revised school code, MCL 380.12b, that is located within the same geographic area as the community district.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation is the lesser of the sum of the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts plus \$100.00 or the highest foundation allowance among the original or affected districts. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district. The calculation under this subsection must take into account a district's per-pupil allocation under section 20m.

(9) The department shall round each fraction used in making calculations under this section to the fourth decimal place and shall round the dollar amount of an increase in the target foundation allowance to the nearest whole dollar.

(10) For 2022-2023, state payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated as follows:

- (a) Twenty-five percent is calculated under section 51a.
- (b) Seventy-five percent is calculated under section 51e.

(11) For 2023-2024, state payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51e.

(12) To assist the legislature in determining the target foundation allowance for the subsequent fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, must calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor is computed by dividing the estimated membership in the school year ending in the current fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor is computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent fiscal year plus the estimated total state school aid fund revenue for the current fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current fiscal year plus the estimated total state school aid fund revenue for the immediately preceding fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index is calculated by multiplying the pupil membership factor by the revenue adjustment factor. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for state school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(13) Payments to districts and public school academies are not made under this section. Rather, the calculations under this section are used to determine the amount of state payments under section 22b.

(14) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per-pupil payment calculation under this section may be reduced.

(15) As used in this section:

(a) "Certified mills" means the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94.

(b) "Current fiscal year" means the fiscal year for which a particular calculation is made.

(c) "Dissolved district" means a district that loses its organization, has its territory attached to 1 or more other districts, and is dissolved as provided under section 12 of the revised school code, MCL 380.12.

(d) "Immediately preceding fiscal year" means the fiscal year immediately preceding the current fiscal year.

(e) "Local portion of the district's foundation allowance" means an amount that is equal to the difference between (the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills) and (the quotient of the product of the captured assessed valuation under tax increment financing acts times the district's certified mills divided by the district's membership excluding special education pupils).

(f) "Membership" means the definition of that term under section 6 as in effect for the particular fiscal year for which a particular calculation is made.

(g) "Nonexempt property" means property that is not a principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, commercial personal property, or property occupied by a public school academy.

(h) "Principal residence", "qualified agricultural property", "qualified forest property", "supportive housing property", "industrial personal property", and "commercial personal property" mean those terms as defined in section 1211 of the revised school code, MCL 380.1211.

(i) "Receiving district" means a district to which all or part of the territory of a dissolved district is attached under section 12 of the revised school code, MCL 380.12.

(j) "School operating purposes" means the purposes included in the operation costs of the district as prescribed in sections 7 and 18 and purposes authorized under section 1211 of the revised school code, MCL 380.1211.

(k) "School operating taxes" means local ad valorem property taxes levied under section 1211 of the revised school code, MCL 380.1211, and retained for school operating purposes.

(l) "Tax increment financing acts" means parts 2, 3, 4, and 6 of the recodified tax increment financing act, 2018 PA 57, MCL 125.4201 to 125.4420 and 125.4602 to 125.4629, or the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670.

(m) "Taxable value per membership pupil" means taxable value, as certified by the county treasurer and reported to the department, for the calendar year ending in the current state fiscal year divided by the district's membership excluding special education pupils for the school year ending in the current state fiscal year.

Sec. 20d. In making the final determination required under former section 20a of a district's combined state and local revenue per membership pupil in 1993-94 and in making calculations under section 20 for 2023-2024, the department and the department of treasury shall comply with all of the following:

(a) For a district that had combined state and local revenue per membership pupil in the 1994-95 fiscal year of \$6,500.00 or more and served as a fiscal agent for a state board designated area vocational education center in the 1993-94 school year, total state school aid received by or paid on behalf of the district under this act in 1993-94 excludes payments made under former section 146 and under section 147 on behalf of the district's employees who provided direct services to the area vocational education center. Not later than June 30, 1996, the department shall make an adjustment under this subdivision to the district's combined state and local revenue per membership pupil in the 1994-95 fiscal year and the department of treasury shall make a final certification of the number of mills that may be levied by the district under section 1211 of the revised school code, MCL 380.1211, as a result of the adjustment under this subdivision.

(b) If a district had an adjustment made to its 1993-94 total state school aid that excluded payments made under former section 146 and under section 147 on behalf of the district's employees who provided direct services for intermediate district center programs operated by the district under former section 51 and sections 51a to 56, if nonresident pupils attending the center programs were included in the district's membership for purposes of calculating the combined state and local revenue per membership pupil for 1993-94, and if there is a signed

agreement by all constituent districts of the intermediate district agreeing to an adjustment under this subdivision, the department shall calculate the foundation allowances for 1995-96 and 1996-97 of all districts that had pupils attending the intermediate district center program operated by the district that had the adjustment as if their combined state and local revenue per membership pupil for 1993-94 included resident pupils attending the center program and excluded nonresident pupils attending the center program.

Sec. 20f. (1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$27,000,000.00 for 2023-2024 only for payments to eligible districts under this section. It is the intent of the legislature that an amount not to exceed \$18,000,000.00 is used in 2023-2024, an amount not to exceed \$9,000,000.00 is used in 2024-2025, and \$0.00 is used in 2025-2026.

(2) The funding under this subsection is from the allocation under subsection (1). A district is eligible for funding under this subsection if the district received a payment under this section as it was in effect for 2013-2014. A district was eligible for funding in 2013-2014 if the sum of the following was less than \$5.00:

(a) The increase in the district's foundation allowance or per-pupil payment as calculated under section 20 from 2012-2013 to 2013-2014.

(b) The district's equity payment per membership pupil under former section 22c for 2013-2014.

(c) The quotient of the district's allocation under section 147a for 2012-2013 divided by the district's membership pupils for 2012-2013 minus the quotient of the district's allocation under section 147a for 2013-2014 divided by the district's membership pupils for 2013-2014.

(3) The amount allocated to each eligible district under subsection (2) is an amount per membership pupil equal to the amount per membership pupil the district received under this section in 2013-2014. It is the intent of the legislature that a district's allocation under subsection (2) for 2024-2025 is half of the allocation as otherwise calculated.

(4) The funding under this subsection is from the allocation under subsection (1). A district is eligible for funding under this subsection if the sum of the following is less than \$25.00:

(a) The increase in the district's foundation allowance or per-pupil payment as calculated under section 20 from 2014-2015 to 2015-2016.

(b) The decrease in the district's best practices per-pupil funding under former section 22f from 2014-2015 to 2015-2016.

(c) The decrease in the district's pupil performance per-pupil funding under former section 22j from 2014-2015 to 2015-2016.

(d) The quotient of the district's allocation under section 31a for 2015-2016 divided by the district's membership pupils for 2015-2016 minus the quotient of the district's allocation under section 31a for 2014-2015 divided by the district's membership pupils for 2014-2015.

(5) It is the intent of the legislature that a district's allocation under subsection (4) for 2024-2025 is half of the allocation as otherwise calculated. The amount allocated to each eligible district under subsection (4) is an amount per membership pupil equal to \$25.00 minus the sum of the following:

(a) The increase in the district's foundation allowance or per-pupil payment as calculated under section 20 from 2014-2015 to 2015-2016.

(b) The decrease in the district's best practices per-pupil funding under former section 22f from 2014-2015 to 2015-2016.

(c) The decrease in the district's pupil performance per-pupil funding under former section 22j from 2014-2015 to 2015-2016.

(d) The quotient of the district's allocation under section 31a for 2015-2016 divided by the district's membership pupils for 2015-2016 minus the quotient of the district's allocation under section 31a for 2014-2015 divided by the district's membership pupils for 2014-2015.

(6) If the allocation under subsection (1) is insufficient to fully fund payments under subsections (3) and (5) as otherwise calculated under this section, the department shall prorate payments under this section on an equal per-pupil basis.

(7) The funds allocated under this section for 2023-2024 are a work project appropriation, and any unexpended funds for 2023-2024 are carried forward into 2024-2025. The purpose of the work project is to continue payments to districts eligible for funding under this section. The estimated completion date of the work project described in this subsection is September 30, 2025.

Sec. 21f. (1) A primary district shall enroll an eligible pupil in virtual courses in accordance with the provisions of this section. A primary district shall not offer a virtual course to an eligible pupil unless the virtual course is published in the primary district's catalog of board-approved courses or in the statewide catalog of virtual courses maintained by the Michigan Virtual University pursuant to section 98. The primary district shall also provide on its publicly accessible website a link to the statewide catalog of virtual courses maintained by the Michigan Virtual University. Unless the pupil is at least age 18 or is an emancipated minor, a pupil must not be enrolled in a course that meets virtually for more than 15 days in a school year without the consent of the pupil's parent or legal guardian.

(2) Subject to subsection (3), a primary district shall enroll an eligible pupil in up to 2 virtual courses as requested by the pupil during an academic term, semester, or trimester.

(3) A pupil may be enrolled in more than 2 virtual courses in a specific academic term, semester, or trimester if both of the following conditions are met:

(a) The primary district has determined that it is in the best interest of the pupil.

(b) The pupil agrees with the recommendation of the primary district.

(4) If the number of applicants eligible for acceptance in a virtual course does not exceed the capacity of the provider to provide the virtual course, the provider shall accept for enrollment all of the applicants eligible for acceptance. If the number of applicants exceeds the provider's capacity to provide the virtual course, the provider shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders. A primary district that is also a provider shall determine whether or not it has the capacity to accept applications for enrollment from nonresident applicants in virtual courses and may use that limit as the reason for refusal to enroll a nonresident applicant.

(5) A primary district may not establish additional requirements beyond those specified in this subsection that would prohibit a pupil from taking a virtual course. A pupil's primary district may deny the pupil enrollment in a virtual course if any of the following apply, as determined by the district:

(a) The pupil is enrolled in any of grades K to 5.

(b) The pupil has previously gained the credits that would be provided from the completion of the virtual course.

(c) The virtual course is not capable of generating academic credit.

(d) The virtual course is inconsistent with the remaining graduation requirements or career interests of the pupil.

(e) The pupil has not completed the prerequisite coursework for the requested virtual course or has not demonstrated proficiency in the prerequisite course content.

(f) The pupil has failed a previous virtual course in the same subject during the 2 most recent academic years.

(g) The virtual course is of insufficient quality or rigor. A primary district that denies a pupil enrollment request for this reason shall enroll the pupil in a virtual course in the same or a similar subject that the primary district determines is of acceptable rigor and quality.

(h) The cost of the virtual course exceeds the amount identified in subsection (10), unless the pupil or the pupil's parent or legal guardian agrees to pay the cost that exceeds this amount.

(i) The request for a virtual course enrollment did not occur within the same timelines established by the primary district for enrollment and schedule changes for regular courses.

(j) The request for a virtual course enrollment was not made in the academic term, semester, trimester, or summer preceding the enrollment. This subdivision does not apply to a request made by a pupil who is newly enrolled in the primary district.

(6) If a pupil is denied enrollment in a virtual course by the pupil's primary district, the primary district shall provide written notification to the pupil of the denial, the reason or reasons for the denial under subsection (5), and a description of the appeal process. The pupil may appeal the denial by submitting a letter to the superintendent of the intermediate district in which the pupil's primary district is located. The letter of appeal must include the reason provided by the primary district for not enrolling the pupil and the reason why the pupil is claiming that the enrollment should be approved. The intermediate district superintendent or designee shall respond to the appeal within 5 days after it is received. If the intermediate district superintendent or designee determines that the denial of enrollment does not meet 1 or more of the reasons specified in subsection (5), the primary district shall enroll the pupil in the virtual course.

(7) To provide a virtual course to an eligible pupil under this section, a provider must do all of the following:

(a) Ensure that the virtual course has been published in the pupil's primary district's catalog of board-approved courses or published in the statewide catalog of virtual courses maintained by the Michigan Virtual University.

(b) Assign to each pupil a teacher of record and provide the primary district with the personnel identification code assigned by the center for the teacher of record. If the provider is a community college, the virtual course must be taught by an instructor employed by or contracted through the providing community college.

(c) Offer the virtual course on an open entry and exit method, or aligned to a semester, trimester, or accelerated academic term format.

(d) If the virtual course is offered to eligible pupils in more than 1 district, the following additional requirements must also be met:

(i) Provide the Michigan Virtual University with a course syllabus that meets the definition under subsection (14)(g) in a form and manner prescribed by the Michigan Virtual University for inclusion in a statewide catalog of virtual courses.

(ii) Not later than October 1 of each fiscal year, provide the Michigan Virtual University with an aggregated count of enrollments for each virtual course the provider delivered to pupils under this section during the immediately preceding school year, and the number of enrollments in which the pupil earned 60% or more of the total course points for each virtual course.

(8) To provide a virtual course under this section, a community college shall ensure that each virtual course it provides under this section generates postsecondary credit.

(9) For any virtual course a pupil enrolls in under this section, the pupil's primary district must assign to the pupil a mentor and shall supply the provider with the mentor's contact information.

(10) For a pupil enrolled in 1 or more virtual courses, the primary district shall use foundation allowance or per-pupil funds calculated under section 20 to pay for the expenses associated with the virtual course or courses. A primary district is not required to pay toward the cost of a virtual course an amount that exceeds 6.67% of the target foundation allowance for the current fiscal year as calculated under section 20.

(11) A virtual learning pupil has the same rights and access to technology in the pupil's primary district's school facilities as all other pupils enrolled in the pupil's primary district. The department shall establish standards for hardware, software, and internet access for pupils who are enrolled in more than 2 virtual courses under this section in an academic term, semester, or trimester taken at a location other than a school facility.

The superintendent shall collaborate with the state treasurer to identify any conditions that may be contributing to low academic performance within a district being considered for assignment to a partnership. The purpose of the partnership is to identify district needs, develop intervention plans, and partner with public, private, and nonprofit organizations to coordinate resources and improve student achievement. Assignment of a district to a partnership is made by the superintendent in consultation with the state treasurer.

(2) A district described in subsection (1) is eligible for funding under this section if the district includes at least 1 school that has been identified as low performing under the approved federal accountability system or the state accountability system. A district described in this subsection must do all of the following to be eligible for funding under this section:

(d) Provide access to training for district leadership, including, but not limited to, the superintendent or chief administrator and school board or board of directors members, on areas of education fiscal and policy matters.

(3) Upon approval of the academic and financial operating or intervention plan developed under subsection (2), the department, in collaboration with the department of treasury, shall assign a team of individuals with expertise in comprehensive school and district reform to partner with the district, the intermediate district, community organizations, education organizations, and postsecondary institutions identified in the academic and financial operating or intervention plan to review the district's use of existing financial resources to ensure that those resources are being used as efficiently and effectively as possible to improve student academic achievement and to ensure district financial stability. The superintendent of public instruction may waive burdensome administrative rules for a partnership district for the duration of the partnership agreement and for a district described in subsection (1) that is not a partnership district under this section and that receives funding under this section in the current fiscal year.

(4) Funds allocated under this section, excluding funds allocated under subsection (5), may be used to pay for district expenditures approved by the superintendent to improve student achievement. Funds may be used for professional development for teachers or district or school leadership, increased instructional time, teacher mentors, or other expenditures that directly impact student achievement and cannot be paid from existing district financial resources. An eligible district must not receive funds under this section for more than 3 years. Notwithstanding section 17b, the department shall make payments to districts under this section on a schedule determined by the department.

(5) From the funds allocated under subsection (1), there is allocated for 2023-2024 an amount not to exceed \$137,400.00 for the purchase of a data analytics tool to be used by districts described in subsection (1). The funds allocated under this subsection for 2023-2024 are a work project appropriation, and any unexpended funds for 2023-2024 are carried forward into 2024-2025. The purpose of the work project is to provide assistance to districts eligible for funding under this section. The estimated completion date of the work project described in this subsection is September 30, 2026.

Sec. 22a. (1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$4,327,000,000.00 for 2022-2023 and there is allocated an amount not to exceed \$4,206,000,000.00 for 2023-2024 for payments to districts and qualifying public school academies to guarantee each district and qualifying public school academy an amount equal to its 1994-95 total state and local per-pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. Funds allocated under this section that are not expended in the fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c to fully fund those allocations for the same fiscal year.

(2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per-pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or \$6,500.00, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the department shall calculate the state portion of the district's foundation allowance as if that reduction did not occur. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, taxable value per membership pupil of all property in the receiving district that is nonexempt property and taxable value per membership pupil of property in the receiving district that is commercial personal property do not include property within the geographic area of the dissolved district; ad valorem property tax revenue of the receiving district captured under tax increment financing acts does not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts; and certified mills do not include the certified mills of the dissolved district. For a community district, the department shall reduce the allocation as otherwise calculated under this section by an amount equal to the amount of local school operating tax revenue that would otherwise be due to the community district if not for the operation of section 386 of the revised school code, MCL 380.386, and the amount of this reduction is offset by the increase in funding under section 22b(2).

(b) For a district that had a 1994-95 foundation allowance greater than \$6,500.00, the state payment under this subsection is the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision must be equal to the difference between the district's 1994-95 foundation allowance minus \$6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount is an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there is not a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district's membership. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, ad valorem property tax revenue captured under tax increment financing acts do not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts.

(3) For pupils in membership in a qualifying public school academy, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy an amount equal to the 1994-95 per-pupil payment to the qualifying public school academy under section 20.

(4) A district or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district or qualifying public school academy otherwise would be eligible.

(5) Except as otherwise provided in this subsection, for a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation is the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance is considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district.

(6) Payments under this section are subject to section 25g.

(7) As used in this section:

(a) "1994-95 foundation allowance" means a district's 1994-95 foundation allowance calculated and certified by the department of treasury or the superintendent under former section 20a as enacted in 1993 PA 336 and as amended by 1994 PA 283.

For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, school operating taxes do not include school operating taxes levied within the geographic area of the dissolved district.

Sec. 22b. (1) Except as otherwise provided in this section, for discretionary nonmandated payments to districts under this section, there is allocated for 2022-2023 an amount not to exceed \$5,663,000,000.00 from the state school aid fund and general fund appropriations in section 11 and an amount not to exceed \$72,000,000.00 from the community district education trust fund appropriation in section 11, and there is allocated for 2023-2024 an amount not to exceed \$6,236,200,000.00 from the state school aid fund and general fund appropriations in section 11 and an amount not to exceed \$72,000,000.00 from the community district education trust fund appropriation in section 11. Except for money allocated under this section from the community district education trust fund appropriation in section 11, funds allocated under this section that are not expended in the fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 51c to fully fund those allocations for the same fiscal year.

(2) Subject to subsection (3) and section 296, the allocation to a district under this section is an amount equal to the sum of the amounts calculated under sections 20, 20m, 51a(2), 51a(3), 51a(11), and 51e, minus the sum of the allocations to the district under sections 22a and 51c. If the allocation under this section is insufficient to fully fund all payments required under this section, the payments under this subsection must be made in full before any proration of remaining payments under this section.

(7) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, 51c, 51e, and 152a. If a claim is made by an entity receiving funds under this article that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (2). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of litigation. The work project is completed upon resolution of the litigation.

(8) If the local claims review board or a court of competent jurisdiction makes a final determination that this state is in violation of section 29 of article IX of the state constitution of 1963 regarding state payments to districts,

(9) If a claim is made in court that challenges the legislative determination of the adequacy of funding for this state's constitutional obligations or alleges that there exists an unfunded constitutional requirement, any interested party may seek an expedited review of the claim by the local claims review board. If the claim exceeds \$10,000,000.00, this state may remove the action to the court of appeals, and the court of appeals has and shall exercise jurisdiction over the claim.

(10) If payments resulting from a final determination by the local claims review board or a court of competent jurisdiction that there has been a violation of section 29 of article IX of the state constitution of 1963 exceed the amount allocated for discretionary nonmandated payments under this section, the legislature shall provide for adequate funding for this state's constitutional obligations at its next legislative session.

(11) If a lawsuit challenging payments made to districts related to costs reimbursed by federal title XIX Medicaid funds is filed against this state, then, for the purpose of addressing potential liability under such a lawsuit, the state budget director may place funds allocated under this section in escrow or allocate money from the funds otherwise allocated under this section, up to a maximum of 50% of the amount allocated in subsection (1). If funds are placed in escrow under this subsection, those funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of the litigation. The work project is completed upon resolution of the litigation. In addition, this state reserves the right to terminate future federal title XIX Medicaid reimbursement payments to districts if the amount or allocation of reimbursed funds is challenged in the lawsuit. As used in this subsection, "title XIX" means title XIX of the social security act, 42 USC 1396 to 1396w-6.

Notwithstanding section 17b, the department shall make calculations and payments under this subsection in a form and manner determined by the department.

(13) As used in this section:

(a) "Dissolved district" means that term as defined in section 20.

(b) "Local school operating revenue" means school operating taxes levied under section 1211 of the revised school code, MCL 380.1211. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, local school operating revenue does not include school operating taxes levied within the geographic area of the dissolved district.

(c) "Receiving district" and "school operating taxes" mean those terms as defined in section 20.

Added cost is computed by deducting all other revenue received under this article for pupils described in this section from total costs, as approved by the department, in whole or in part, for educating those pupils in the on-grounds education program or in a program approved by the department that is located on property adjacent to a juvenile detention facility or child caring institution. Costs reimbursed by federal funds are not included.

(b) "Department's approved per-pupil allocation" for a district or intermediate district is determined by dividing the total amount allocated under this section for a fiscal year by the full-time equated membership total for all pupils approved by the department to be funded under this section for that fiscal year for the district or intermediate district.

(3) A district or intermediate district educating pupils described in this section at a residential child caring institution may operate, and receive funding under this section for, a department-approved on-grounds educational program for those pupils that is longer than 181 days, but not longer than 233 days, if the child caring institution was licensed as a child caring institution and offered in 1991-92 an on-grounds educational program that was longer than 181 days but not longer than 233 days and that was operated by a district or intermediate district.

The amount of the payment to each intermediate district is an amount equal to the state share of those costs that are clearly and directly attributable to the educational programs for pupils placed in facilities described in this section that are located within the intermediate district's boundaries. The intermediate districts receiving payments under this section shall cooperate with the department of health and human services to ensure that all funding allocated under this section is utilized by the intermediate district and department of health and human services for educational programs for pupils described in this section. Pupils described in this section are not eligible to be funded under section 24. (3) The total amount allocated to a strict discipline academy or qualified district under this section must first be distributed as the lesser of the strict discipline academy's or qualified district's added cost or the department's approved per-pupil allocation for the strict discipline academy or qualified district. Subject to subsection (7), any funds remaining after the first distribution must be distributed by prorating on an equal per-pupil membership basis, not to exceed a strict discipline academy's or qualified district's added cost. However, the sum of the amounts received by a strict discipline academy or qualified district under this section and under section 24 must not exceed the product of the strict discipline academy's or qualified district's per-pupil allocation calculated under section 20 multiplied by the strict discipline academy's or qualified district's full-time equated membership. Added cost must be computed by deducting all other revenue received under this article for pupils described in this subdivision from total costs, as approved by the department, in whole or in part, for educating those pupils in a strict discipline academy or qualified district. The department shall include all costs, including, but not limited to, educational costs, insurance, management fees, technology costs, legal fees, auditing fees, interest, pupil accounting costs, and any other administrative costs necessary to operate the program or to comply with statutory requirements. The multi-tiered system of supports described in this subsection must provide at least all of the following essential components:

(a) Team-based leadership.

(b) A tiered delivery system.

(c) Selection and implementation of instruction, interventions, and supports.

The department shall pay under this

subsection to each eligible district or eligible public school academy an amount per pupil equal to a percentage calculated under subsection (4) multiplied by the target foundation allowance for the following, as applicable:

(a) Except as otherwise provided under subdivision (b), (c), or (d) the greater of the following:

(i) The number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year.

(ii) If the district or public school academy is in the community eligibility program, the number of pupils determined to be eligible based on the product of the identified student percentage multiplied by the total number of pupils in the district or public school academy, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year. These calculations must be made at the building level. This subparagraph only applies to an eligible district or eligible public school academy for the fiscal year immediately following the first fiscal year in which it is in the community eligibility program. As used in this subparagraph, "identified student percentage" means the quotient of the number of pupils in an eligible district or eligible public school academy who are determined to be economically disadvantaged, as reported to the center in a form and manner prescribed by the center, not later than the fifth Wednesday after the pupil membership count day in the fiscal year preceding the first fiscal year in which the eligible district or eligible public school academy is in the community eligibility program, divided by the total number of pupils counted in an eligible district or eligible public school academy on the pupil membership count day in the fiscal year preceding the first fiscal year in which the eligible district or eligible public school academy is in the community eligibility program.

(b) If the district or public school academy began operations as a district or public school academy after the pupil membership count day of the immediately preceding school year, the number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the current fiscal year.

(d) If, for a particular fiscal year, the number of membership pupils in a district or public school academy who are determined under subdivision (a) to be economically disadvantaged or to be eligible based on the identified student percentage varies by more than 20 percentage points from the number of those pupils in the district or public school academy as calculated under subdivision (a) for the immediately preceding fiscal year caused by an egregious reporting error by the district or public school academy, the department may choose to have the calculations under subdivision (a) instead be made using the number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the supplemental count day of the immediately preceding fiscal year.

(4) Each district or public school academy must be assigned to an opportunity index score each fiscal year, the value of which is the quotient of the number of economically disadvantaged pupils as determined under subsection (3) for the district or public school academy and the total number of pupils in the district or public school academy in the immediately preceding fiscal year, multiplied by 100 and rounded up to the nearest whole number. Each district or public school academy must be assigned an opportunity index band as follows:

(a) A district or public school academy with an opportunity index score greater than or equal to 0 but less than 20 must be assigned to band 1 and shall receive reimbursement under subsection (3) at a rate of at least 35.0% and less than 36.0%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 1, multiplied by the band adjustment factor applicable to this subdivision, plus 35.0%.

(b) A district or public school academy with an opportunity index score greater than or equal to 20 but less than 44 must be assigned to band 2 and shall receive reimbursement under subsection (3) at a rate of at least 36.0% and less than 37.5%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 20, multiplied by the band adjustment factor applicable to this subdivision, plus 36.0%.

(c) A district or public school academy with an opportunity index score greater than or equal to 44 but less than 59 must be assigned to band 3 and shall receive reimbursement under subsection (3) at a rate of at least 37.5% and less than 39.0%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 44, multiplied by the band adjustment factor applicable to this subdivision, plus 37.5%.

(d) A district or public school academy with an opportunity index score greater than or equal to 59 but less than 73 must be assigned to band 4 and shall receive reimbursement under subsection (3) at a rate of at least 39.0% and less than 42.0%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 59, multiplied by the band adjustment factor applicable to this subdivision, plus 39.0%.

(e) A district or public school academy with an opportunity index score greater than or equal to 73 but less than 85 must be assigned to band 5 and shall receive reimbursement under subsection (3) at a rate of at least 42.0% and less than 47.0%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 73, multiplied by the band adjustment factor applicable to this subdivision, plus 42.0%.

(f) A district or public school academy with an opportunity index score greater than or equal to 85 must be assigned to band 6 and shall receive reimbursement under subsection (3) at a rate of 47.0%.

(g) As used in this subsection, "band adjustment factor" means an amount equal to the difference between the lowest and highest reimbursement bounds for each band, divided by the number of possible opportunity index scores in that band.

(5) Except as otherwise provided in this section, a district or public school academy receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical, mental health, or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (6), (7), or (8). In addition, a district that is a school district of the first class or a district or public school academy in which at least 50% of the pupils in membership were determined to be economically disadvantaged in the immediately preceding state fiscal year, as determined and reported as described in subsection (3), may use the funds it receives under this section for school security or school parent liaison personnel. The uses of the funds described in the immediately preceding sentence must align to the needs assessment and the multi-tiered system of supports model and, for funds spent on parent liaison personnel, must connect parents to the school community. When making funding decisions for new adolescent health centers under this subsection, the department and department of health and human services shall prioritize support for primary health care services in unserved counties as of July 14, 2022. An amount not to exceed 4% of the funds allocated for 2023-2024 under this subsection must be made available for technical support and coordination services from a nonprofit organization exclusively dedicated to serving adolescent health centers in this state and that has a membership that includes federally qualified health centers, local public health departments, hospital systems, and public school districts. In prescribing the form and manner of the report, the department shall ensure that districts are allowed to expend funds received under this section on any activities that are permissible under this section. If a district or public school academy does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy complies with this subsection. Professional development may be provided to district and school leadership and teachers and must be aligned to professional learning standards; integrated into district, school building, and classroom practices; and solely related to the following:

(a) Implementing the multi-tiered system of supports required in subsection (2) with fidelity and utilizing the data from that system to inform curriculum and instruction.

(15) Except as otherwise provided in this subsection, if necessary, the department shall prorate payments under this section, except payments under subsection (7) or (8), by reducing the amount of the allocation as otherwise calculated under this section by an equal percentage per district. Subject to the availability of funds, if proration is necessary under this subsection, the department must ensure that no district receives an amount less than 11.5% of the target foundation for each economically disadvantaged pupil enrolled in the district.

(16) If a district is dissolved pursuant to section 12 of the revised school code, MCL 380.12, the intermediate district to which the dissolved district was constituent shall determine the estimated number of pupils that are economically disadvantaged and that are enrolled in each of the other districts within the intermediate district and provide that estimate to the department for the purposes of distributing funds under this section within 60 days after the district is declared dissolved.

(17) A district or public school academy that receives funds under this section may use funds received under this section to provide an anti-bullying or crisis intervention program.

Russell national school lunch act, 42 USC 1751 to 1769j, or meals served by the other non-school sponsor in the previous school year. The department shall collaborate with the Michigan department of agriculture and rural development to provide training to newly participating schools and other non-school sponsors and electronic information on Michigan agriculture.

The district or other non-school sponsor and school or non-school sponsor food service director or directors also shall agree to respond to brief online surveys and to provide a report that shows the percentage relationship of Michigan spending compared to total food spending. Not later than 60 days after the end of the period in which funds under this section were received, and in which federal child nutrition programs require submission of claims, each district or each non-school sponsor shall submit a report to the department on outcomes and related measurements for economic development and children's nutrition and readiness to learn. The report must include at least both of the following:

(a) The extent to which farmers and related businesses, including distributors and processors, saw an increase in market opportunities and income generation through sales of Michigan or local products to districts and other non-school sponsors. All of the following apply for purposes of this subdivision:

(i) The data used to determine the amount of this increase are the total dollar amount of Michigan or local fruits, vegetables, and legumes purchased by schools and other non-school sponsors, along with the number of different types of products purchased; school and non-school sponsor food purchasing trends identified along with products that are of new and growing interest among food service directors; the number of businesses impacted; and the percentage of total food budget spent on Michigan-grown fruits, vegetables, and legumes.

(b) The ability to which pupils can access a variety of healthy Michigan-grown foods through schools and other non-school sponsor centers and increase their consumption of those foods. All of the following apply for purposes of this subdivision:

(i) The data used to determine whether this subdivision is met are the number of pupils exposed to Michigan-grown fruits, vegetables, and legumes at schools and non-school sponsor centers; the variety of products served; new items taste-tested or placed on menus; and the increase in pupil willingness to try new local healthy foods.

(ii) The district or other non-school sponsor shall use purchasing data collected for the project, meal count and enrollment numbers, school menu calendars, and surveys of school and non-school sponsor food service directors as the source for the data described in subparagraph (i).

(11) The department shall compile the reports provided by districts and other non-school sponsors under subsection (10) into 1 legislative report. The department shall provide this report not later than April 1 of each fiscal year following the fiscal year for which funding is allocated under this section to the house and senate subcommittees responsible for school aid, the house and senate fiscal agencies, and the state budget director.

(12) Notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the department.

(4) Subject to subsection (8), the department shall provide payments to eligible districts in an amount necessary to reimburse the eligible districts for the cost of forgiving all outstanding student-meal debt.

(5) Notwithstanding section 17b, the department shall make reimbursement payments under this section as follows:

(a) Except as otherwise provided under subdivision (b), payments under subsection (4) to all eligible districts must be made by not later than 60 days after October 1, 2023.

(b) Payments under subsection (6) to all eligible districts must be made by not later than 60 days after March, 1, 2024, as provided under subsection (6).

(6) Subject to subsection (8), if the amount paid to eligible districts under subsection (4) is less than the amount allocated under subsection (1), the department may distribute the remaining funds to eligible districts through a second application in an amount necessary to reimburse eligible districts for the cost of forgiving all outstanding student-meal debt. An eligible district receiving a reimbursement payment under subsection (4) is not eligible for a reimbursement payment through a second application under this subsection.

(7) An eligible district receiving payments under this section shall adopt policies to prevent public identification or stigmatization of pupils who cannot pay for a school meal. These policies must prohibit all of the following:

(a) Requiring pupils who cannot pay for a school meal or who owe a student-meal debt to wear a wristband or handstamp.

(b) Requiring pupils who cannot pay for a school meal or who owe a student-meal debt to perform chores or other work to pay for school meals.

(c) Requiring a pupil to dispose of a meal after it has been served because the pupil is unable to pay for the meal or owes a student-meal debt.

(e) Discussing a pupil's student-meal debt in the presence of other pupils.

(8) If the amount allocated under this section is insufficient to fully reimburse the cost of student-meal debt forgiveness for all eligible districts, the department shall prorate the reimbursement on an equal percentage per district.

(9) The funds allocated under this section for 2022-2023 are a work project appropriation, and any unexpended funds for 2022-2023 are carried forward into 2023-2024. The purpose of the work project is to reimburse districts for forgiven student-meal debt. The estimated completion date of the work project is September 30, 2024.

Sec. 31n. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2023-2024 for the purposes of this section an amount not to exceed \$106,545,000.00 and from the general fund money appropriated in section 11, there is allocated for 2023-2024 for the purposes of this section an amount not to exceed \$1,300,000.00. The department and the department of health and human services shall continue a program to distribute this funding to add licensed behavioral health providers for general education pupils, and recipients of the funds under subsection (6) shall continue to seek federal Medicaid match funding for all eligible mental health and support services.

(2) The department and the department of health and human services shall maintain an advisory council for programs funded under this section and any other funding under this act to improve or maintain the mental health of students, except for programs funded under section 31a(7) and (8). The advisory council shall define goals for implementation of programs, and shall provide feedback on that implementation. At a minimum, the advisory council shall consist of representatives of state associations representing school health, school mental health, school counseling, education, health care, and other organizations, representatives from the department and the department of health and human services, and a representative from the school safety and mental health commission. The department and department of health and human services, working with the advisory council, shall determine an approach to increase capacity for mental health and support services in schools for general education pupils, and shall determine where that increase in capacity qualifies for federal Medicaid match funding.

(3) The advisory council shall develop a fiduciary agent checklist for intermediate districts to facilitate development of a plan to submit to the department and to the department of health and human services. The department and department of health and human services shall determine the requirements and format for intermediate districts to submit a plan for possible funding under subsection (6). The department shall make applications for funding for this program available to districts and intermediate districts not later than December 1 of each fiscal year for which funds are allocated under this section and shall award the funding not later than February 1 of each fiscal year for which funds are allocated under this section.

(4) The department of health and human services shall amend the state Medicaid plan to obtain appropriate Medicaid waivers as necessary for the purpose of generating additional Medicaid match funding for school mental health and support services for general education pupils, and this expansion is called Caring for Students (C4S).

(5) From the state school aid fund money allocated under subsection (1), there is allocated for 2023-2024 an amount not to exceed \$14,300,000.00 to be distributed to the network of child and adolescent health centers to place a licensed master's level behavioral health provider in schools that do not currently have services available to general education students. Child and adolescent health centers that are part of the network described in this subsection shall provide a commitment to maintain services and implement all available federal Medicaid match methodologies. The department of health and human services shall use all existing or additional federal Medicaid match opportunities to maximize funding allocated under this subsection. The department shall provide funds under this subsection to child and adolescent health centers that are part of the network described in this subsection in the same proportion that funding under section 31a(7) is provided to child and adolescent health centers that are part of the network described in this subsection and that are located and operating in those districts. A payment from funding allocated under this subsection must not be paid to an entity that is not part of the network described in this subsection.

(6) From the state school aid fund money allocated under subsection (1), there is allocated for 2023-2024 an amount not to exceed \$87,245,000.00 to be distributed to intermediate districts for the provision of mental health and support services to general education students. Recipients of funds under this subsection shall continue to seek federal Medicaid match funding for all eligible mental health and support services. If a district or intermediate district is not able to procure the services of a licensed master's level behavioral health provider, the district or intermediate district shall notify the department and the department of health and human services and, if the department and department of health and human services verify that the district or intermediate district attempted to procure services from a master's level behavioral health provider and was not able to do so, then the district or intermediate district may instead procure services from a provider with less than a master's degree in behavioral health. To be able to use the exemption in the immediately preceding sentence, the district or intermediate district must submit evidence satisfactory to the department and department of health and human services demonstrating that the district or intermediate district took measures to procure the services of a licensed master's level behavioral health provider but was unable to do so, and the department and department of health and human services must be able to verify this evidence. From the first \$56,173,600.00 of the funds allocated under this subsection, the department shall distribute up to \$1,003,100.00 for 2023-2024 to each intermediate district that submits a plan approved by the department and the department of health and human services by February 1 of each fiscal year for which funds are allocated under this section. The department shall distribute the remaining \$31,071,400.00 of the funds allocated under this subsection for 2023-2024 to intermediate districts on an equal per-pupil basis based on the combined total number of pupils in membership in the intermediate district and its constituent districts, including public school academies that are considered to be constituent districts under section 705(7) of the revised school code, MCL 380.705. The department and department of health and human services shall work cooperatively in providing oversight and assistance to intermediate districts and shall monitor the program upon implementation. An intermediate district shall use funds awarded under this subsection to provide funding to its constituent districts, including public school academies that are considered to be constituent districts under section 705(7) of the revised school code, MCL 380.705, for the provision of mental health and support services to general education students. In addition to the criteria identified under subsection (9), an intermediate district shall consider geography, cost, or other challenges when awarding funding to its constituent districts. Districts receiving funding under this subsection are encouraged to provide suicide prevention and awareness education and counseling.

(7) If funding awarded to an intermediate district remains after funds are provided by the intermediate district to its constituent districts, the intermediate district shall notify the department and department of health and human services and submit evidence satisfactory to the department and department of health and human services demonstrating how it would like to use funds for purposes other than hiring licensed behavioral health providers for general education pupils. With permission from the department and department of health and human services, the intermediate district may hire or contract for experts to provide mental health and support services to general education students residing within the boundaries of the intermediate district, including, but not limited to, expanding, hiring, or contracting for staff and experts to provide those services directly or to increase access to those services through coordination with outside mental health agencies; the intermediate district may also contract with 1 or more other intermediate districts for coordination and the facilitation of activities related to providing mental health and support services to general education students residing within the boundaries of the intermediate district; the intermediate district may also use the funds under this section to create or strengthen school-based behavioral health assessment teams that focus on providing age-appropriate interventions, identifying behaviors that suggest a pupil may be struggling with mental health challenges, providing treatment

and support of the pupil, and using disciplinary interventions and the criminal justice system as methods of last resort; and the intermediate district may also use the funds under this section to provide evidence-based trainings that support student mental health.

(8) If funding awarded to an intermediate district under this section remains unspent, or if the intermediate district submits an application requesting a lower allocation than the maximum amount permitted, the department, in conjunction with the intermediate district, may reallocate the funds to another intermediate district or other intermediate districts capable of expending the funds before the funding deadline in accordance with this section as if those funds were originally allocated to the intermediate district or intermediate districts to which the funds are being reallocated.

(9) A district requesting funds under this section from the intermediate district in which it is located shall submit an application for funding for the provision of mental health and support services to general education pupils. A district receiving funding from the application process described in this subsection shall provide services to nonpublic students upon request. An intermediate district shall not discriminate against an application submitted by a public school academy simply on the basis of the applicant being a public school academy. The department shall approve grant applications based on the following criteria:

(a) The district's commitment to maintain mental health and support services delivered by licensed providers into future fiscal years.

(b) The district's commitment to work with its intermediate district to use funding it receives under this section that is spent by the district for general education pupils toward participation in federal Medicaid match methodologies. (3) The funds allocated under this section for 2023-2024 are a work project appropriation, and any unexpended funds for 2023-2024 are carried forward into 2024-2025. The purpose of the work project is to continue the coverage of cost associated with the implementation of 2022 PA 180, MCL 388.1851 to 399.1957. The estimated completion date of the work project is September 30, 2027.

Sec. 32d. (1) From the state school aid fund money appropriated in section 11, there is allocated to eligible intermediate districts and consortia of intermediate districts for great start readiness programs an amount not to exceed \$369,120,000.00 for 2022-2023 and an amount not to exceed \$524,720,000.00 for 2023-2024. In addition, from the federal funding appropriated in section 11, there is allocated for 2022-2023 an amount not to exceed \$83,000,000.00 from the federal funding awarded to this state from the coronavirus state fiscal recovery fund under the American rescue plan act of 2021, title IX, subtitle M of Public Law 117-2, to eligible intermediate districts and consortia of intermediate districts for great start readiness programs. An intermediate district or consortium shall use funds allocated under this section for great start readiness programs to provide part-day, school-day, GSRP extended programs, or GSRP/Head Start blended comprehensive free compensatory classroom programs designed to improve the readiness and subsequent achievement of educationally disadvantaged children who meet the participant eligibility and prioritization guidelines as defined by the department. For a child to be eligible to participate in a program under this section, the child must be at least 4, but less than 5, years of age as of September 1 of the school year in which the program is offered and must meet those eligibility and prioritization guidelines. A child who is not 4 years of age as of September 1, but who will be 4 years of age not later than December 1, is eligible to participate if the child's parent or legal guardian seeks a waiver from the September 1 eligibility date by submitting a request for enrollment in a program to the responsible intermediate district, if the program has capacity on or after September 1 of the school year, and if the child meets eligibility and prioritization guidelines.

(2) From the state school aid fund money allocated under subsection (1), an amount not to exceed \$367,120,000.00 for 2022-2023 and \$522,720,000.00 for 2023-2024, and from the federal funds allocated under subsection (1), an amount not to exceed \$83,000,000.00 for 2022-2023, is allocated to intermediate districts or consortia of intermediate districts based on the formula in section 39. An intermediate district or consortium of intermediate districts receiving funding under this section shall act as the fiduciary for the great start readiness programs. An intermediate district or consortium of intermediate districts receiving funding under this section may collaborate with local governments to identify children eligible for programs funded under this section and may contract with local governments to provide services. In order to be eligible to receive funds allocated under this subsection from an intermediate district or consortium of intermediate districts, a district, a consortium of districts, a local government, or a public or private for-profit or nonprofit legal entity or agency must comply with this section and section 39. If, due to the number of GSRP extended program slots awarded, the amount allocated in this subsection is not sufficient to award at least the same number of part-day program and school-day program slots as awarded in the immediately preceding fiscal year, there is appropriated from the great start readiness program reserve fund the amount necessary to fully award the same number of part-day program and full-day program slots as awarded in the immediately preceding fiscal year.

(3) In addition to the allocation under subsection (1), from the general fund money appropriated under section 11, there is allocated an amount not to exceed \$500,000.00 for 2022-2023 and \$600,000.00 for 2023-2024 for a competitive grant to continue a longitudinal evaluation of children who have participated in great start readiness programs.

(4) To be eligible for funding under this section, a program must prepare children for success in school through comprehensive part-day, school-day, GSRP extended programs, or GSRP/Head Start blended programs that contain all of the following program components, as determined by the department:

(a) Participation in a collaborative recruitment and enrollment process to assure that each child is enrolled in the program most appropriate to the child's needs and to maximize the use of federal, state, and local funds.

(b) An age-appropriate educational curriculum that is in compliance with the early childhood standards of quality for prekindergarten children adopted by the state board, including, at least, the Connect4Learning curriculum.

(c) Nutritional services for all program participants supported by federal, state, and local resources as applicable.

- (d) Physical and dental health and developmental screening services for all program participants.
 - (e) Referral services for families of program participants to community social service agencies, including mental health services, as appropriate.
 - (f) Active and continuous involvement of the parents or guardians of the program participants.
 - (g) A plan to conduct and report annual great start readiness program evaluations and continuous improvement plans using criteria approved by the department.
 - (h) Participation in a school readiness advisory committee convened as a workgroup of the great start collaborative that provides for the involvement of classroom teachers, parents or guardians of program participants, and community, volunteer, and social service agencies and organizations, as appropriate. The advisory committee annually shall review and make recommendations regarding the program components listed in this subsection. The advisory committee also shall make recommendations to the great start collaborative regarding other community services designed to improve all children's school readiness.
 - (i) The ongoing articulation of the kindergarten and first grade programs offered by the program provider.
 - (j) Participation in this state's great start to quality process with a rating of at least, for 2022-2023, 3 stars, and, for 2023-2024, enhancing quality level.
- (5) An application for funding under this section must provide for the following, in a form and manner determined by the department:
- (a) Ensure compliance with all program components described in subsection (4).
 - (b) Except as otherwise provided in this subdivision, ensure that at least 85% of the children participating in an eligible great start readiness program for whom the intermediate district is receiving funds under this section are children who live with families with a household income that is equal to or less than, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines. If the intermediate district determines that all eligible children are being served and that there are no children on the waiting list who live with families with a household income that is equal to or less than, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines, the intermediate district may then enroll children who live with families with a household income that is equal to or less than, for 2022-2023, 300%, and, for 2023-2024, 400% of the federal poverty guidelines. The enrollment process must consider income and risk factors, such that children determined with higher need are enrolled before children with lesser need. For purposes of this subdivision, all age-eligible children served in foster care or who are experiencing homelessness or who have individualized education programs recommending placement in an inclusive preschool setting are considered to live with families with household income equal to or less than, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines regardless of actual family income and are prioritized for enrollment within the lowest quintile.
 - (c) Ensure that the applicant only uses qualified personnel for this program, as follows:
 - (i) Teachers possessing proper training. A lead teacher must have a valid Michigan teaching certificate with an early childhood or lower elementary endorsement or a bachelor's or higher degree in child development or early childhood education with specialization in preschool teaching. However, except as otherwise provided in this subparagraph, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers or paraprofessionals with at least 5 years of experience as a paraprofessional in a great start readiness program, Head Start, or licensed child care center classroom who have significant but incomplete training in early childhood education or child development may be used if the applicant provides to the department, and the department approves, a plan for each teacher to come into compliance with the standards in this subparagraph. Beginning in 2023-2024, individuals may qualify with at least 3 years of experience and significant training in early childhood education or child development, based on the recommendation of the intermediate district after a classroom observation. A teacher's compliance plan must be completed within 3 years of the date of employment. Progress toward completion of the compliance plan consists of at least 2 courses per calendar year.
 - (ii) Paraprofessionals possessing proper training in early childhood education, including an associate degree in early childhood education or child development or the equivalent, or a child development associate (CDA) credential. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, the applicant may use paraprofessionals who have completed at least 1 course that earns college credit in early childhood education or child development or, beginning in 2023-2024, enrolls in a child development associate credential with at least 6 months of verified experience in early education and care, if the applicant provides to the department, and the department approves, a plan for each paraprofessional to come into compliance with the standards in this subparagraph. A paraprofessional's compliance plan must be completed within 3 years of the date of employment. Progress toward completion of the compliance plan consists of at least 2 courses, 60 clock hours, or an equivalent of training per calendar year.

(d) Include a program budget that contains only those costs that are not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the great start readiness program, and that would not be incurred if the program were not being offered. Eligible costs include transportation costs. The program budget must indicate the extent to which these funds will supplement other federal, state, local, or private funds. An applicant shall not use funds received under this section to supplant any federal funds received by the applicant to serve children eligible for a federally funded preschool program that has the capacity to serve those children.

(6) For a grant recipient that enrolls pupils in a school-day program or GSRP extended program funded under this section, each child enrolled in the school-day program or GSRP extended program is counted as described in section 39 for purposes of determining the amount of the grant award.

(7) For a grant recipient that enrolls pupils in a GSRP/Head Start blended program, the grant recipient shall ensure that all Head Start and GSRP policies and regulations are applied to the blended slots, with adherence to the highest standard from either program, to the extent allowable under federal law. A grant recipient may request a waiver from the department to align GSRP policies and regulations with Head Start national standards for quality, including ratios, and the department may approve the waiver. Not later than March 1 of each year, the department will report to the legislature and post on a publicly available website a list by intermediate district or consortium with the number and type of each waiver requested and approved.

(8) An intermediate district or consortium of intermediate districts receiving a grant under this section shall designate an early childhood coordinator, and may provide services directly or may contract with 1 or more districts or public or private for-profit or nonprofit providers that meet all requirements of subsections (4) and (5).

(9) An intermediate district or consortium of intermediate districts may retain for administrative services provided by the intermediate district or consortium of intermediate districts an amount not to exceed 4% of the grant amount. Expenses incurred by subrecipients engaged by the intermediate district or consortium of intermediate districts for directly running portions of the program are considered program costs or a contracted program fee for service. Subrecipients operating with a federally approved indirect rate for other early childhood programs may include indirect costs, not to exceed the federal 10% de minimis.

(10) An intermediate district or consortium of intermediate districts may expend not more than 2% of the total grant amount for outreach, recruiting, and public awareness of the program, if the intermediate district or consortium of intermediate districts also participates in related statewide marketing and outreach efforts.

(11) Each grant recipient shall enroll children identified under subsection (5)(b) according to how far the child's household income is below, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines by ranking each applicant child's household income from lowest to highest and dividing the applicant children into quintiles based on how far the child's household income is below, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines, and then enrolling children in the quintile with the lowest household income before enrolling children in the quintile with the next lowest household income until slots are completely filled. If the grant recipient determines that all eligible children are being served and that there are no children on the waiting list who live with families with a household income that is equal to or less than, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines, the grant recipient may then enroll children who live with families with a household income that is equal to or less than, for 2022-2023, 300%, and, for 2023-2024, 400% of the federal poverty guidelines. The enrollment process must consider income and risk factors, such that children determined with higher need are enrolled before children with lesser need. For purposes of this subsection, all age-eligible children served in foster care or who are experiencing homelessness or who have individualized education programs recommending placement in an inclusive preschool setting are considered to live with families with household income equal to or less than, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines regardless of actual family income and are prioritized for enrollment within the lowest quintile.

(12) An intermediate district or consortium of intermediate districts receiving a grant under this section shall allow parents of eligible children who are residents of the intermediate district or within the consortium to choose a program operated by or contracted with another intermediate district or consortium of intermediate districts and shall enter into a written agreement regarding payment, in a manner prescribed by the department.

(13) An intermediate district or consortium of intermediate districts receiving a grant under this section shall conduct a local process to contract with interested and eligible public and private for-profit and nonprofit community-based providers that meet all requirements of subsection (4) for at least 30% of its total allocation. For the purposes of this 30% allocation, an intermediate district or consortium of intermediate districts may count children served by a Head Start grantee or delegate in a blended Head Start, GSRP extended program, and great start readiness school-day program. Children served in a program funded only through Head Start are not counted toward this 30% allocation. The intermediate district or consortium shall report to the department, in a manner prescribed by the department, a detailed list of community-based providers by provider type, including private for-profit, private nonprofit, community college or university, Head Start grantee or delegate, and district or

intermediate district, and the number and proportion of its total allocation allocated to each provider as subrecipient. If the intermediate district or consortium is not able to contract for at least 30% of its total allocation, the grant recipient shall notify the department and, if the department verifies that the intermediate district or consortium attempted to contract for at least 30% of its total allocation and was not able to do so, then the intermediate district or consortium may retain and use all of its allocation as provided under this section. To be able to use this exemption, the intermediate district or consortium shall demonstrate to the department that the intermediate district or consortium increased the percentage of its total allocation for which it contracts with a community-based provider and the intermediate district or consortium shall submit evidence satisfactory to the department, and the department must be able to verify this evidence, demonstrating that the intermediate district or consortium took measures to contract for at least 30% of its total allocation as required under this subsection, including, but not limited to, at least all of the following measures:

(a) The intermediate district or consortium notified each nonparticipating licensed child care center located in the service area of the intermediate district or consortium regarding the center's eligibility to participate, in a manner prescribed by the department.

(b) The intermediate district or consortium provided to each nonparticipating licensed child care center located in the service area of the intermediate district or consortium information regarding great start readiness program requirements and a description of the application and selection process for community-based providers.

(c) The intermediate district or consortium provided to the public and to participating families a list of community-based great start readiness program subrecipients with a great start to quality rating of at least, for 2022-2023, 3 stars, and, for 2023-2024, enhancing quality level.

(14) If an intermediate district or consortium of intermediate districts receiving a grant under this section fails to submit satisfactory evidence to demonstrate its effort to contract for at least 30% of its total allocation, as required under subsection (13), the department shall reduce the allocation to the intermediate district or consortium by a percentage equal to the difference between the percentage of an intermediate district's or consortium's total allocation awarded to community-based providers and 30% of its total allocation.

(15) In order to assist intermediate districts and consortia in complying with the requirement to contract with community-based providers for at least 30% of their total allocation, the department shall do all of the following:

(a) Ensure that a great start resource center or the department provides each intermediate district or consortium receiving a grant under this section with the contact information for each licensed child care center located in the service area of the intermediate district or consortium by March 1 of each year.

(b) Provide, or ensure that an organization with which the department contracts provides, a community-based provider with a validated great start to quality rating within 90 days of the provider's having submitted a request and self-assessment.

(c) Ensure that all intermediate district, district, community college or university, Head Start grantee or delegate, private for-profit, and private nonprofit providers are subject to a single great start to quality rating system. The rating system must ensure that regulators process all prospective providers at the same pace on a first-come, first-served basis and must not allow 1 type of provider to receive a great start to quality rating ahead of any other type of provider.

(d) Not later than March 1 of each year, compile the results of the information reported by each intermediate district or consortium under subsection (13) and report to the legislature and post on a publicly available website a list by intermediate district or consortium with the number and percentage of each intermediate district's or consortium's total allocation allocated to community-based providers by provider type, including private for-profit, private nonprofit, community college or university, Head Start grantee or delegate, and district or intermediate district.

(e) Allow intermediate districts and consortia and eligible community-based providers to utilize materials and supplies purchased for great start readiness programs within their facilities for other early care and education activities, in the following order of priority:

(i) Early care and education activities under a federal award.

(ii) Early care and education activities under other state awards.

(iii) Early care and education activities under local or regional awards.

(16) A recipient of funds under this section shall report to the center in a form and manner prescribed by the center the information necessary to derive the number of children participating in the program who meet the program eligibility criteria under subsection (5)(b), the number of eligible children not participating in the program and on a waitlist, and the total number of children participating in the program by various demographic groups and eligibility factors necessary to analyze equitable and priority access to services for the purposes of subsection (3).

(17) As used in this section:

(a) “GSRP/Head Start blended program” means a part-day program funded under this section and a Head Start program, which are combined for a school-day program.

(b) “GSRP extended program” means a program that operates for at least the same length of day as a district’s first grade program for a minimum of 5 days per week, 36 weeks per year.

(c) “Federal poverty guidelines” means the guidelines published annually in the Federal Register by the United States Department of Health and Human Services under its authority to revise the poverty line under 42 USC 9902.

(d) “Part-day program” means a program that operates at least 4 days per week, 30 weeks per year, for at least 3 hours of teacher-child contact time per day but for fewer hours of teacher-child contact time per day than a school-day program.

(e) “School-day program” means a program that operates for at least the same length of day as a district’s first grade program for a minimum of 4 days per week, 30 weeks per year. A classroom that offers a school-day program must enroll all children for the school day to be considered a school-day program.

(18) An intermediate district or consortium of intermediate districts receiving funds under this section shall establish and charge tuition according to a sliding scale of tuition rates based upon household income for children participating in an eligible great start readiness program who live with families with a household income that is more than, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines to be used by all of its providers, as approved by the department.

(1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$19,400,000.00 to intermediate districts for 2023-2024 for the purpose of providing early childhood funding to intermediate districts to support the goals and outcomes under subsections (2) and (4), and to provide supports for early childhood programs for children from birth through age 8. The funding provided to each intermediate district under this section is determined by the distribution formula established by the department's office of great start to provide equitable funding statewide. In order to receive funding under this section, each intermediate district must provide an application to the office of great start not later than September 15 of the immediately preceding fiscal year indicating the strategies planned to be provided.

(2) Each intermediate district or consortium of intermediate districts that receives funding under this section shall convene a local great start collaborative and a family coalition that includes an active partnership with at least 1 community-based organization. department. The goals of the home visits funded under this subsection are to improve school readiness using evidence-based methods, including a focus on developmentally appropriate outcomes for early literacy, to improve positive parenting practices, and to improve family economic self-sufficiency while reducing the impact of high-risk factors through community resources and referrals. The department shall coordinate the goals of the home visit strategic plans approved under this subsection with other state agency home visit programs in a way that strengthens Michigan's home visiting infrastructure and maximizes federal funds available for the purposes of at-risk family home visits. The coordination among departments and agencies is intended to avoid duplication of state services and spending, and should emphasize efficient service delivery of home visiting programs.

(5) Not later than December 1 of each year, each intermediate district shall provide a report to the department detailing the strategies actually implemented during the immediately preceding school year and the families and children actually served. At a minimum, the report must include an evaluation of the services provided with additional funding under subsection (4) for home visits, using the goals identified in subsection (4) as the basis for the evaluation, including the degree to which school readiness was improved, the degree to which positive parenting practices were improved, the degree to which there was improved family economic self-sufficiency, and the degree to which community resources and referrals were utilized. The department shall compile and summarize these reports and submit its summary to the house and senate appropriations subcommittees on school aid and to the house and senate fiscal agencies not later than February 15 of each year.

If funding under this subsection is not sufficient to enroll all interested families in the service, each intermediate district must prioritize enrollment to those families with the highest levels of economic need. If an intermediate district will not fully utilize funding under this subsection, those funds must be returned to the department for redistribution for the purposes under this subsection.

(7) An intermediate district or consortium of intermediate districts that receives funding under this section may carry over any unexpended funds received under this section into the next fiscal year and may expend those unused funds through June 30 of the next fiscal year. However, an intermediate district or consortium of intermediate districts that receives funding for the purposes described in subsection (2) in the current fiscal year shall not carry over into the next fiscal year any amount exceeding 15% of the amount awarded to the intermediate district or consortium in the current fiscal year. A recipient of a grant shall return any unexpended grant funds to the department in the manner prescribed by the department not later than September 30 of the next fiscal year after the fiscal year in which the funds are received.

Sec. 41. (1) For a district to be eligible to receive funding under this section, the district must administer to English language learners the English language proficiency assessment known as the “WIDA ACCESS for English language learners” or the “WIDA Alternate ACCESS”. From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$39,766,500.00 for 2023-2024 for payments to eligible districts for services for English language learners who have been administered the WIDA ACCESS for English language learners.

(2) The department shall distribute funding allocated under subsection (1) to eligible districts based on the number of full-time equivalent English language learners as follows:

(a) \$1,476.00 per full-time equivalent English language learner who has been assessed under the WIDA ACCESS for English language learners or the WIDA Alternate ACCESS with a WIDA ACCESS or WIDA Alternate ACCESS composite score between 1.0 and 1.9, or less, as applicable to each assessment. It is the intent of the legislature to increase this amount until it reaches 75% of the target foundation allowance.

(b) \$1,019.00 per full-time equivalent English language learner who has been assessed under the WIDA ACCESS for English language learners or the WIDA Alternate ACCESS with a WIDA ACCESS or WIDA Alternate ACCESS composite score between 2.0 and 2.9, or less, as applicable to each assessment. It is the intent of the legislature to increase this amount until it reaches 50% of the target foundation allowance.

(c) \$167.00 per full-time equivalent English language learner who has been assessed under the WIDA ACCESS for English language learners or the WIDA Alternate ACCESS with a WIDA ACCESS or WIDA Alternate ACCESS composite score between 3.0 and 3.9, or less, as applicable to each assessment. It is the intent of the legislature to increase this amount until it reaches 35% of the target foundation allowance.

(3) If funds allocated under subsection (1) are insufficient to fully fund the payments as prescribed under subsection (2), the department shall prorate payments on an equal percentage basis, with the same percentage proration applied to all funding categories.

(4) Each district receiving funds under subsection (1) shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district of funds under subsection (1) in a form and manner determined by the department, including a brief description of each program conducted or services performed by the district using funds under subsection (1) and the amount of funds under subsection (1) allocated to each of those programs or services. If a district does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district complies with this subsection. If the district does not comply with this subsection by the end of the fiscal year, the withheld funds are forfeited to the state school aid fund.

(5) In order to receive funds under subsection (1), a district must allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district shall reimburse this state for all disallowances found in the audit.

(6) Beginning July 1, 2020, and every 3 years thereafter, the department shall review the per-pupil distribution under subsection (2), to ensure that funding levels are appropriate and make recommendations for adjustments to the members of the senate and house subcommittees on K to 12 school aid appropriations.

Sec. 41b. From the state school aid fund money appropriated in section 11, there is allocated for 2023-2024 only an amount not to exceed \$1,500,000.00 for KEYS Grace Academy to, in partnership with Kalasho Education and Youth Services, provide English-as-a-second-language services, provide early childhood learning, improve progress toward high school graduation attainment, and provide K to 12 education-support services to legal immigrants.

Sec. 51a. (1) From the state school aid fund money in section 11, there is allocated an amount not to exceed \$1,573,296,100.00 for 2022-2023 and there is allocated an amount not to exceed \$1,694,646,100.00 for 2023-2024 from state sources and all available federal funding under sections 1411 to 1419 of part B of the individuals with disabilities education act, 20 USC 1411 to 1419, estimated at \$390,000,000.00 for 2022-2023 and \$390,000,000.00 for 2023-2024, plus any carryover federal funds from previous year appropriations. In addition, from the state school aid fund money in section 11, there is allocated an amount not to exceed \$76,150,000.00 for 2023-2024 only to supplement the allocations in this section. The allocations under this subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1761; net tuition payments made by intermediate districts to the Michigan Schools for the Deaf and Blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals or other entities, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared under article 3 of the revised school code, MCL 380.1701 to 380.1761. Notwithstanding section 17b, the department shall make payments of federal funds to districts, intermediate districts, and other eligible entities under this section on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated the amount necessary, estimated at \$350,400,000.00 for 2022-2023 and estimated at \$368,000,000.00 for 2023-2024, for payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Allocations under this subsection are made as follows:

(a) For 2022-2023, the department shall calculate the initial amount allocated to a district under this subsection toward fulfilling the specified percentages by multiplying the district's special education pupil membership, excluding pupils described in subsection (11), times 25% of the foundation allowance under section 20 of the pupil's district of residence, plus 25% of the amount of the district's per-pupil allocation under section 20m, not to exceed 25% of the target foundation allowance for the current fiscal year, or, for a special education pupil in membership in a district that is a public school academy, times an amount equal to 25% of the amount per membership pupil calculated under section 20(6). For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages is an amount per special education membership pupil, excluding pupils described in subsection (11), and is calculated in the same manner as for a district, using 25% of the foundation allowance under section 20 of the pupil's district of residence, not to exceed 25% of the target foundation allowance for the current fiscal year, and that district's per-pupil allocation under section 20m.

(b) For 2022-2023, after the allocation under subdivision (a), the department shall pay a district or intermediate district for which the payments calculated under subdivision (a) do not fulfill the specified percentages the amount necessary to achieve the specified percentages for the district or intermediate district.

(c) Beginning in 2023-2024, subdivisions (a) and (b) no longer apply.

(3) From the funds allocated under subsection (1), there is allocated for 2022-2023 an amount not to exceed \$1,000,000.00 and there is allocated for 2023-2024 an amount not to exceed \$1,000,000.00 to make payments to districts and intermediate districts under this subsection. If the amount allocated to a district or intermediate district for the fiscal year under subsection (2) is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations or services between 1996-97 and subsequent fiscal years. The department shall make adjustments for reductions in special education program operations or services in a manner determined by the department and shall include adjustments for program or service shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2) is not sufficient to fulfill the specified percentages in subsection (2), then the department shall pay the shortfall to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and shall adjust payments under subsection (3) as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district's or intermediate district's payments under this article for the fiscal year beginning on the October 1 following the determination and shall adjust payments under subsection (3) as necessary. For 2022-2023, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there is no deduction under this subsection.

(5) State funds are allocated on a total approved cost basis. Federal funds are allocated under applicable federal requirements.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed \$2,200,000.00 for 2022-2023 and there is allocated an amount not to exceed \$2,200,000.00 for 2023-2024 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. The department shall determine net increase in necessary costs in a manner specified by the department.

(7) For purposes of this section and sections 51b to 58, all of the following apply:

(a) "Total approved costs of special education" are determined in a manner specified by the department and may include indirect costs, but must not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for Social Security and Medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to

administrative personnel who are not special education personnel as that term is defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services are reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) A district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this article. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

(c) If the department determines before bookclosing for a fiscal year that the amounts allocated for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 will exceed expenditures for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56, then for a district or intermediate district whose reimbursement for that fiscal year would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and the department shall calculate reimbursement for that district or intermediate district in the same manner as it was for 2003-2004. If the amount of the excess allocations under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the department shall prorate calculations and resulting reimbursement under this subdivision on an equal percentage basis. The amount of reimbursement under this subdivision for a fiscal year must not exceed \$2,000,000.00 for any district or intermediate district.

(d) Reimbursement for ancillary and other related services, as that term is defined by R 340.1701c of the Michigan Administrative Code, is not provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, must not be borne by the parent. In addition, the filing of claims must not delay the education of a pupil. A district or intermediate district is responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(e) If an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.

(8) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan Schools for the Deaf and Blind is not included in the membership count of a district, but is counted in membership in the intermediate district of residence.

(9) Special education personnel transferred from 1 district to another to implement the revised school code are entitled to the rights, benefits, and tenure to which the individual would otherwise be entitled had that individual been employed by the receiving district originally.

(10) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. The department shall deposit money that is refunded in the state treasury to the credit of the state school aid fund.

(11) From the funds allocated in subsection (1), there is allocated the amount necessary, estimated at \$2,000,000.00 for 2022-2023 and estimated at \$2,000,000.00 for 2023-2024, to pay the foundation allowances for pupils described in this subsection. The department shall calculate the allocation to a district under this subsection by multiplying the number of pupils described in this subsection who are counted in membership in the district times the sum of the foundation allowance under section 20 of the pupil's district of residence, plus

the amount of the district's per-pupil allocation under section 20m, not to exceed the target foundation allowance for the current fiscal year, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil under section 20(6). The department shall calculate the allocation to an intermediate district under this subsection in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence not to exceed the target foundation allowance for the current fiscal year and that district's per-pupil allocation under section 20m. This subsection applies to all of the following pupils:

(a) Pupils described in section 53a.

(b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.

(c) Pupils with an emotional impairment counted in membership by an intermediate district and provided educational services by the department of health and human services.

(12) If it is determined that funds allocated under subsection (2) or (11) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under subsection (2) or (11) or under section 51c in order to fully fund those allocations. After payments under subsections (2) and (11) and section 51c, the department shall expend the remaining funds from the allocation in subsection (1) in the following order:

(a) One hundred percent of the reimbursement required under section 53a.

(b) One hundred percent of the reimbursement required under subsection (6).

(c) One hundred percent of the payment required under section 54.

(d) One hundred percent of the payment required under subsection (3).

(e) One hundred percent of the payments under section 56.

(13) The allocations under subsections (2), (3), and (11) are allocations to intermediate districts only and are not allocations to districts, but instead are calculations used only to determine the state payments under section 22b.

(14) If a public school academy that is not a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, enrolls under this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with a disability, as that term is defined under the individuals with disabilities education act, Public Law 108-446, the intermediate district in which the public school academy is located and the public school academy shall enter into a written agreement with the intermediate district in which the pupil resides for the purpose of providing the pupil with a free appropriate public education, and the written agreement must include at least an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil. If the public school academy that enrolls the pupil does not enter into an agreement under this subsection, the public school academy shall not charge the pupil's resident intermediate district or the intermediate district in which the public school academy is located the added costs of special education programs and services for the pupil, and the public school academy is not eligible for any payouts based on the funding formula outlined in the resident or nonresident intermediate district's plan. If a pupil is not enrolled in a public school academy under this subsection, the provision of special education programs and services and the payment of the added costs of special education programs and services for a pupil described in this subsection are the responsibility of the district and intermediate district in which the pupil resides.

(15) For the purpose of receiving its federal allocation under part B of the individuals with disabilities education act, Public Law 108-446, a public school academy that is a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, directly receives the federal allocation under part B of the individuals with disabilities education act, Public Law 108-446, from the intermediate district in which the cyber school is located, as the subrecipient. If the intermediate district does not distribute the funds described in this subsection to the cyber school by the part B application due date of July 1, the department may distribute the funds described in this subsection directly to the cyber school according to the formula prescribed in 34 CFR 300.705 and 34 CFR 300.816. Beginning July 1, 2021, this subsection is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021.

(16) For a public school academy that is a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, that enrolls a pupil under this section, the intermediate district in which the cyber school is located shall ensure that the cyber school complies with sections 1701a, 1703, 1704, 1751, 1752, 1756, and 1757 of the revised school code, MCL 380.1701a, 380.1703, 380.1704, 380.1751, 380.1752, 380.1756, and 380.1757; applicable rules; and the

individuals with disabilities education act, Public Law 108-446. Beginning July 1, 2021, this subsection is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021.

(17) For the purposes of this section, the department or the center shall only require a district or intermediate district to report information that is not already available from the financial information database maintained by the center.

Sec. 51c. As required by the court in the consolidated cases known as *Durant v State of Michigan*, 456 Mich 175 (1997), from the allocation under section 51a(1), there is allocated for 2022-2023 and for 2023-2024, the amount necessary, estimated at \$780,400,000.00 for 2022-2023 and \$820,000,000.00 for 2023-2024, for payments to reimburse districts for 28.6138% of total approved costs of special education excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Funds allocated under this section that are not expended in the fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 22b to fully fund those allocations for the same fiscal year.

Sec. 51d. (1) From the federal funds appropriated in section 11, there is allocated for 2023-2024 all available federal funding, estimated at \$71,000,000.00, for special education programs and services that are funded by federal grants. The department shall distribute all federal funds allocated under this section in accordance with federal law. Notwithstanding section 17b, the department shall make payments of federal funds to districts, intermediate districts, and other eligible entities under this section on a schedule determined by the department.

(2) From the federal funds allocated under subsection (1), the following amounts are allocated:

(a) For 2023-2024, an amount estimated at \$14,000,000.00 for handicapped infants and toddlers, funded from DED-OSERS, handicapped infants and toddlers funds.

(b) For 2023-2024, an amount estimated at \$14,000,000.00 for preschool grants under Public Law 94-142, funded from DED-OSERS, handicapped preschool incentive funds.

(c) For 2023-2024, an amount estimated at \$43,000,000.00 for special education programs funded by DED-OSERS, handicapped program, individuals with disabilities act funds.

(3) As used in this section, "DED-OSERS" means the United States Department of Education Office of Special Education and Rehabilitative Services.

Sec. 51e. (1) From the allocation under section 51a(1), there is allocated for 2022-2023 the amount necessary, estimated at \$350,900,000.00 for 2022-2023, for payments to districts and intermediate districts for 75% of foundation allowance costs associated with special education pupils, and there is allocated for 2023-2024 the amount necessary, estimated at \$491,200,000.00 for 2023-2024, for payments to districts and intermediate districts for 100% of foundation allowance costs associated with special education pupils.

(2) For 2022-2023, the department shall calculate the amount allocated to a district under this section by multiplying the district's special education pupil membership, excluding pupils described in section 51a(11), times 75% of the foundation allowance under section 20 of the pupil's district of residence, plus 75% of the amount of the district's per-pupil allocation under section 20m, not to exceed 75% of the target foundation allowance for the current fiscal year, or, for a special education pupil in membership in a district that is a public school academy, times an amount equal to 75% of the amount per membership pupil calculated under section 20(6). For an intermediate district, the amount allocated under this subsection is an amount per special education membership pupil, excluding pupils described in section 51a(11), and is calculated in the same manner as for a district, using 75% of the foundation allowance under section 20 of the pupil's district of residence, not to exceed 75% of the target foundation allowance for the current fiscal year, and 75% of that district's per-pupil allocation under section 20m.

(3) Beginning in 2023-2024, the department shall calculate the amount allocated to a district under this section by multiplying the district's special education pupil membership, excluding pupils described in section 51a(11), times 100% of the foundation allowance under section 20 of the pupil's district of residence, plus 100% of the amount of the district's per-pupil allocation under section 20m, not to exceed 100% of the target foundation allowance for the current fiscal year, or, for a special education pupil in membership in a district that is a public school academy, times an amount equal to 100% of the amount per membership pupil calculated under section 20(6). For an intermediate district, the amount allocated under this subsection is an amount per special education membership pupil, excluding pupils described in section 51a(11), and is calculated in the same manner as for a district, using 100% of the foundation allowance under section 20 of the pupil's district of residence, not to exceed 100% of the target foundation allowance for the current fiscal year, and 100% of that district's per-pupil allocation under section 20m.

Sec. 51g. From the general fund money appropriated in section 11, \$3,000,000.00 is allocated for 2023-2024 to an association for administrators of special education services to develop content for use by special education students, teachers, and others. Any content that is developed as described in this section must be accessible throughout this state. Funds received by an association under this section may be used to support the development of assessment tools to measure the needs of students with special education needs in remote learning environments and the effectiveness of various educational methods and tools, in collaboration with the department. Funds under this section may also be utilized to identify any available federal funds for research related to special education in remote learning.

Sec. 53a. (1) For districts, reimbursement for pupils described in subsection (2) is 100% of the total approved costs of operating special education programs and services approved by the department and included in the intermediate district plan adopted under article 3 of the revised school code, MCL 380.1701 to 380.1761, minus the district's foundation allowance calculated under section 20 and minus the district's per-pupil allocation under section 20m. For intermediate districts, the department shall calculate reimbursement for pupils described in subsection (2) in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the target foundation allowance under section 20 for the current fiscal year plus the amount of the district's per-pupil allocation under section 20m.

(2) Reimbursement under subsection (1) is for the following special education pupils:

(a) Pupils assigned to a district or intermediate district through the community placement program of the courts or a state agency, if the pupil was a resident of another intermediate district at the time the pupil came under the jurisdiction of the court or a state agency.

(b) Pupils who are residents of institutions operated by the department of health and human services.

(c) Pupils who are former residents of department of community health institutions for the developmentally disabled who are placed in community settings other than the pupil's home.

(d) Pupils enrolled in a department-approved on-grounds educational program longer than 180 days, but not longer than 233 days, at a residential child care institution, if the child care institution offered in 1991-92 an on-grounds educational program longer than 180 days but not longer than 233 days.

(e) Pupils placed in a district by a parent for the purpose of seeking a suitable home, if the parent does not reside in the same intermediate district as the district in which the pupil is placed.

(3) Only those costs that are clearly and directly attributable to educational programs for pupils described in subsection (2), and that would not have been incurred if the pupils were not being educated in a district or intermediate district, are reimbursable under this section.

(4) The costs of transportation are funded under this section and are not reimbursed under section 58.

(5) The department shall not allocate more than \$10,500,000.00 of the allocation for 2023-2024 in section 51a(1) under this section.

Sec. 54. Each intermediate district receives an amount per pupil for each pupil in attendance at the Michigan Schools for the Deaf and Blind. The amount is proportionate to the total instructional cost at each school. The department shall not allocate more than \$1,688,000.00 of the allocation for 2023-2024 in section 51a(1) under this section.

Sec. 54b. (1) From the general fund money appropriated in section 11, there is allocated an amount not to exceed \$1,600,000.00 for 2023-2024 to continue the implementation of the recommendations of the special education reform task force published in January 2016.

(2) The department shall use funds allocated under this section for the purpose of piloting statewide implementation of the MiMTSS Center, a nationally recognized program that includes positive behavioral intervention and supports and provides a statewide structure to support local initiatives for an integrated behavior and reading program. With the assistance of the intermediate districts involved in the MiMTSS Center, the department shall identify a number of intermediate districts to participate in the pilot that is sufficient to ensure that the MiMTSS Center can be implemented statewide with fidelity and sustainability. In addition, the department shall identify an intermediate district to act as a fiscal agent for these funds.

(3) As used in this section, "MiMTSS Center" means the Michigan Multi-Tiered System of Supports Center.

Sec. 54d. (1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$22,313,000.00 for 2023-2024 to intermediate districts for the purpose of providing state early on services programs for children from birth to 3 years of age with a developmental delay or a disability, or both, and their families, as described in the early on Michigan state plan, as approved by the department.

(2) To be eligible to receive grant funding under this section, each intermediate district must apply in a form and manner determined by the department.

(3) The grant funding allocated under this section must be used to increase early on services and resources available to children that demonstrate developmental delays to help prepare them for success as they enter school. State early on services include evaluating and providing early intervention services for eligible infants and toddlers and their families to address developmental delays, including those affecting physical, cognitive, communication, adaptive, social, or emotional development. Grant funds must not be used to supplant existing services that are currently being provided.

(4) The department shall distribute the funds allocated under subsection (1) to intermediate districts according to the department's early on funding formula utilized to distribute the federal award to Michigan under part C of the individuals with disabilities education act, Public Law 108-446. Funds received under this section must not supplant existing funds or resources allocated for early on early intervention services. An intermediate district receiving funds under this section shall maximize the capture of Medicaid funds to support early on early intervention services to the extent possible.

(5) Each intermediate district that receives funds under this section shall report data and other information to the department in a form, manner, and frequency prescribed by the department to allow for monitoring and evaluation of the program and to ensure that the children described in subsection (1) received appropriate levels and types of services delivered by qualified personnel, based on the individual needs of the children and their families.

(6) Notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the department.

(7) Grant funds awarded and allocated to an intermediate district under this section must be expended by the grant recipient before June 30 of the fiscal year immediately following the fiscal year in which the funds were received.

Sec. 56. (1) For the purposes of this section:

(a) "Membership" means for a particular fiscal year the total membership of the intermediate district and the districts constituent to the intermediate district, except that if a district has elected not to come under part 30 of the revised school code, MCL 380.1711 to 380.1741, membership of the district is not included in the membership of the intermediate district.

(b) "Millage levied" means the millage levied for special education under part 30 of the revised school code, MCL 380.1711 to 380.1741, including a levy for debt service obligations.

(c) "Taxable value" means the total taxable value of the districts constituent to an intermediate district, except that if a district has elected not to come under part 30 of the revised school code, MCL 380.1711 to 380.1741, taxable value of the district is not included in the taxable value of the intermediate district.

(2) From the allocation under section 51a(1), there is allocated an amount not to exceed \$40,008,100.00 for 2022-2023 and 2023-2024 to reimburse intermediate districts levying millages for special education under part 30 of the revised school code, MCL 380.1711 to 380.1741. The purpose, use, and expenditure of the reimbursement are limited as if the funds were generated by these millages and governed by the intermediate district plan adopted under article 3 of the revised school code, MCL 380.1701 to 380.1761. As a condition of receiving funds under this section, an intermediate district distributing any portion of special education millage funds to its constituent districts must submit for departmental approval and implement a distribution plan.

(3) Except as otherwise provided in this subsection, reimbursement for those millages levied in 2021-2022 is made in 2022-2023 at an amount per 2021-2022 membership pupil computed by subtracting from \$229,600.00 the 2021-2022 taxable value behind each membership pupil and multiplying the resulting difference by the 2021-2022 millage levied, and then subtracting from that amount the 2021-2022 local community stabilization share revenue for special education purposes and 2021-2022 tax increment revenues captured by a brownfield redevelopment authority created under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670, behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362, and reimbursements paid under section 26d for tax increment revenues captured by a brownfield redevelopment authority under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670. For the purposes of the calculation described in the previous sentence only, for an intermediate district receiving funds under this section and section 62, reimbursements paid under section 26d must be multiplied by the ratio of special education millage levied, as defined in this section, and the sum of special education millage levied and vocational-technical education millage levied, as defined in section 62. Reimbursement in 2022-2023 for an intermediate district whose 2017-2018 allocation was affected by the operation of subsection (5) is an amount equal to 102.5% of the 2017-2018 allocation to that intermediate district.

(4) Except as otherwise provided in this subsection, reimbursement for those millages levied in 2022-2023 is made in 2023-2024 at an amount per 2022-2023 membership pupil computed by subtracting from \$238,800.00 the 2022-2023 taxable value behind each membership pupil and multiplying the resulting difference by the 2022-2023 millage levied, and then subtracting from that amount the 2022-2023 local community stabilization share revenue for special education purposes and 2022-2023 tax increment revenues captured by a brownfield redevelopment authority created under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670, behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362, and reimbursements paid under section 26d for tax increment revenues captured by a brownfield redevelopment authority under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670. For the purposes of the calculation described in the previous sentence only, for an intermediate district receiving funds under this section and section 62, reimbursements paid under section 26d must be multiplied by the ratio of special education millage levied, as defined in this section, and the sum of special education millage levied and vocational-technical education millage levied, as defined in section 62. Reimbursement in 2023-2024 for an intermediate district whose 2017-2018 allocation was affected by the operation of subsection (5) is an amount equal to 102.5% of the 2017-2018 allocation to that intermediate district.

(5) The department shall ensure that the amount paid to a single intermediate district under subsection (2) does not exceed 62.9% of the total amount allocated under subsection (2).

(6) The department shall ensure that the amount paid to a single intermediate district under subsection (2) is not less than 75% of the amount allocated to the intermediate district under subsection (2) for the immediately preceding fiscal year.

(7) From the allocation under section 51a(1), there is allocated an amount not to exceed \$34,200,000.00 for 2022-2023 and 2023-2024 to provide payments to intermediate districts levying millages for special education under part 30 of the revised school code, MCL 380.1711 to 380.1741. The purpose, use, and expenditure of the payments under this subsection are limited as if the funds were generated by these millages and governed by the intermediate district plan adopted under article 3 of the revised school code, MCL 380.1701 to 380.1761. The department shall provide a payment under this subsection to each intermediate district described in this subsection as follows:

(a) For 2022-2023 and 2023-2024, except as otherwise provided in this subsection, for an intermediate district with a 3-year average special education millage revenue per pupil in the immediately preceding fiscal year that is less than \$251.00 and that is levying at least 46.2% but less than 60.0% of its maximum millage rate allowed under section 1724a of the revised school code, MCL 380.1724a, an amount computed by subtracting from \$251.00 the 3-year average special education millage revenue per pupil in the immediately preceding fiscal year and, only if the millage levied by the intermediate district is less than 1, multiplying that amount by the number of mills levied divided by 1, and then multiplying that amount by the 3-year average membership in the immediately preceding fiscal year, and then subtracting from that amount the amount allocated under subsection (2) for the current fiscal year. If the calculation under this subdivision results in an amount below zero, there is no payment under this subdivision.

(b) For 2022-2023 and 2023-2024, except as otherwise provided in this subsection, for an intermediate district with a 3-year average special education millage revenue per pupil in the immediately preceding fiscal year that is less than \$296.00 and that is levying at least 60.0% of its maximum millage rate allowed under section 1724a of the revised school code, MCL 380.1724a, an amount computed by subtracting from \$296.00 the 3-year average special education millage revenue per pupil in the immediately preceding fiscal year, and, only if the millage levied by the intermediate district is less than 1, multiplying that amount by the number of mills levied divided by 1, and then multiplying that amount by the 3-year average membership in the immediately preceding fiscal year, and then subtracting from that amount the amount allocated under subsection (2) for the current fiscal year. If the calculation under this subdivision results in an amount below zero, there is no payment under this subdivision.

(8) After making allocations to eligible intermediate districts under subsections (3), (4), and (7), if funds remain unallocated from the allocations under subsections (2) and (7), the department must allocate remaining funds to intermediate districts proportional to the amounts allocated to intermediate districts under subsections (3) and (4).

(9) As used in subsection (7):

(a) "3-year average membership" means the 3-year average pupil membership for each of the 3 most recent fiscal years.

(b) "3-year average special education millage revenue per pupil" means the 3-year average taxable value per mill levied behind each membership pupil for each of the 3 most recent fiscal years multiplied by the millage levied in the most recent fiscal year.

Sec. 61a. (1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$48,011,300.00 for 2023-2024 only to reimburse on an added cost basis districts, except for a district that served as the fiscal agent for a vocational education consortium in the 1993-94 school year and that has a foundation allowance as calculated under section 20 greater than the target foundation allowance under that section, and secondary area vocational-technical education centers for secondary-level career and technical education programs according to rules approved by the superintendent. It is the intent of the legislature that, for 2024-2025, the allocation from the state school aid fund money appropriated in section 11 for purposes described in this subsection will be \$37,611,300.00. Applications for participation in the programs must be submitted in the form prescribed by the department. The department shall determine the added cost for each career and technical education program area. The department shall prioritize the allocation of added cost funds based on the capital and program expenditures needed to operate the career and technical education programs provided; the number of pupils enrolled; the advancement of pupils through the instructional program; the existence of an articulation agreement with at least 1 postsecondary institution that provides pupils with opportunities to earn postsecondary credit during the pupil's participation in the career and technical education program and transfers those credits to the postsecondary institution upon completion of the career and technical education program; and the program rank in student placement, job openings, and wages, and shall ensure that the allocation does not exceed 75% of the added cost of any program. Notwithstanding any rule or department determination to the contrary, when determining a district's allocation or the formula for making allocations under this section, the department shall include the participation of pupils in grade 9 in all of those determinations and in all portions of the formula. With the approval of the department, the board of a district maintaining a secondary career and technical education program may offer the program for the period from the close of the school year until September 1. The program shall use existing facilities and must be operated as prescribed by rules promulgated by the superintendent.

(2) Except for a district that served as the fiscal agent for a vocational education consortium in the 1993-94 school year, the department shall reimburse districts and intermediate districts for local career and technical education administration, shared time career and technical education administration, and career education planning district career and technical education administration. The superintendent shall adopt guidelines for the definition of what constitutes administration and shall make reimbursement pursuant to those guidelines. The department shall not distribute more than \$800,000.00 of the allocation in subsection (1) under this subsection.

(3) A career and technical education program funded under this section may provide an opportunity for participants who are eligible to be funded under section 107 to enroll in the career and technical education program funded under this section if the participation does not occur during regular school hours.

Sec. 61b. (1) From the state school aid fund money appropriated under section 11, there is allocated for 2023-2024 an amount not to exceed \$8,000,000.00 for CTE early middle college and CTE dual enrollment programs authorized under this section and for planning grants for the development or expansion of CTE early middle college programs. The purpose of these programs is to increase the number of Michigan residents with high-quality degrees or credentials, and to increase the number of students who are college and career ready upon high school graduation.

(2) From the funds allocated under subsection (1), the department shall allocate an amount as determined under this subsection to each intermediate district serving as a fiscal agent for state-approved CTE early middle college and CTE dual enrollment programs in each of the career education planning districts identified by the department. An intermediate district shall not use more than 5% of the funds allocated under this subsection for administrative costs for serving as the fiscal agent.

(3) To be an eligible fiscal agent, an intermediate district must agree to do all of the following in a form and manner determined by the department:

(a) Distribute funds to eligible CTE early middle college and CTE dual enrollment programs in a career education planning district as described in this section.

(b) Collaborate with the career and educational advisory council in the workforce development board service delivery area to develop 1 regional strategic plan under subsection (4) that aligns CTE programs and services into an efficient and effective delivery system for high school students. The department will align career education planning districts, workforce development board service delivery areas, and intermediate districts for the purpose of creating 1 regional strategic plan for each workforce development board service delivery area.

(c) Implement a regional process to rank career clusters in the workforce development board service delivery area as described under subsection (4). Regional processes must be approved by the department before the ranking of career clusters.

(d) Report CTE early middle college and CTE dual enrollment program and student data and information as prescribed by the department and the center.

(e) The local education agency responsible for student reporting in the Michigan student data system (MSDS) will report the total number of college credits the student earned, at the time of high school graduation, as determined by the department and the center.

(f) The local education agency will report each award outcome in the Michigan student data system (MSDS) that the CTE early middle college student attained. For purposes of this subsection, an on-track CTE early middle college graduate is a graduate who obtained their high school diploma and at least 1 of the following:

- (iii) Professional certification.
- (iv) A Michigan Early Middle College Association certificate.
- (v) Participation in a registered apprenticeship.

(4) A regional strategic plan must be approved by the career and educational advisory council before submission to the department. A regional strategic plan must include, but is not limited to, the following:

(a) An identification of regional employer need based on a ranking of all career clusters in the workforce development board service delivery area ranked by 10-year projections of annual job openings and median wage for each standard occupational code in each career cluster as obtained from the United States Bureau of Labor Statistics. Standard occupational codes within high-ranking clusters also may be further ranked by median wage and annual job openings. The career and educational advisory council located in the workforce development board service delivery area shall review the rankings and modify them if necessary to accurately reflect employer demand for talent in the workforce development board service delivery area. A career and educational advisory council shall document that it has conducted this review and certify that it is accurate. These career cluster rankings must be determined and updated once every 4 years.

(b) An identification of educational entities in the workforce development board service delivery area that will provide eligible CTE early middle college and CTE dual enrollment programs including districts, intermediate districts, postsecondary institutions, and noncredit occupational training programs leading to an industry-recognized credential.

(c) A strategy to inform parents and students of CTE early middle college and CTE dual enrollment programs in the workforce development board service delivery area.

(d) Any other requirements as defined by the department.

(5) An eligible CTE program is a program that meets all of the following:

(g) Has courses that are taught on a college campus, are college courses offered at the high school and taught by college faculty, or are courses taught in combination with online instruction.

(6) The department shall distribute funds to eligible CTE early middle college and CTE dual enrollment programs as follows:

(a) The department shall determine statewide average CTE costs per pupil for each CIP code program by calculating statewide average costs for each CIP code program for the 3 most recent fiscal years.

(b) The distribution to each eligible CTE early middle college or CTE dual enrollment program is the product of 50% of CTE costs per pupil times the pupil enrollment of each eligible CTE early middle college or CTE dual enrollment program in the immediately preceding school year.

(7) In order to receive funds under this section, a CTE early middle college or CTE dual enrollment program shall furnish to the intermediate district that is the fiscal agent identified in subsection (2), in a form and manner determined by the department, all information needed to administer this program and meet federal reporting requirements; shall allow the department or the department's designee to review all records related to the program for which it receives funds; and shall reimburse the state for all disallowances found in the review, as determined by the department.

(8) There is allocated for 2023-2024 from the funds under subsection (1) an amount not to exceed \$500,000.00 from the state school aid fund allocation for grants to intermediate districts or consortia of intermediate districts for the purpose of planning for new or expanded early middle college programs. Applications for grants must be submitted in a form and manner determined by the department. The amount of a grant under this subsection must not exceed \$50,000.00. To be eligible for a grant under this subsection, an intermediate district or consortia of intermediate districts must provide matching funds equal to the grant received under this subsection. Notwithstanding section 17b, the department shall make payments under this subsection in the manner determined by the department.

(9) Funds distributed under this section may be used to fund program expenditures that would otherwise be paid from foundation allowances. A program receiving funding under section 61a may receive funding under this section for allowable costs that exceed the reimbursement the program received under section 61a. The combined payments received by a program under section 61a and this section must not exceed the total allowable costs of the program. A program provider shall not use more than 5% of the funds allocated under this section to the program for administrative costs.

(10) If the allocation under subsection (1) is insufficient to fully fund payments as otherwise calculated under this section, the department shall prorate payments under this section on an equal percentage basis.

(11) If pupils enrolled in a career cluster in an eligible CTE early middle college or CTE dual enrollment program qualify to be reimbursed under this section, those pupils continue to qualify for reimbursement until graduation, even if the career cluster is no longer identified as being in the highest 5 career cluster rankings.

(12) As used in this section:

(a) "Allowable costs" means those costs directly attributable to the program as jointly determined by the department of labor and economic opportunity and the department.

(b) "Career and educational advisory council" means an advisory council to the local workforce development boards located in a workforce development board service delivery area consisting of educational, employer, labor, and parent representatives.

(d) "CTE" means career and technical education programs.

(e) "CTE dual enrollment program" means a 4-year high school program of postsecondary courses offered by eligible postsecondary educational institutions that leads to an industry-recognized certification or degree.

(f) "Early middle college program" means a 5-year high school program.

(g) "Eligible postsecondary educational institution" means that term as defined in section 3 of the career and technical preparation act, 2000 PA 258, MCL 388.1903.

Sec. 61c. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2023-2024 only an amount not to exceed \$15,000,000.00 to eligible career education planning districts (CEPDs) for the purposes described in this section.

(2) To be eligible to receive funding in the first round of grants under this section, at least 50% of the area served by a CEPD must be located in an intermediate district that did not levy a vocational education millage in

2023. Each eligible CEPD must apply in a form and manner prescribed by the department. An application must include the funding amount requested by the CEPD. Funding to an eligible CEPD must be equal to the quotient of the allocation under subsection (1) and the number of eligible CEPDs applying for funding in the first round of grants, or the individual CEPD's requested funding amount, whichever is less.

(3) If funding remains after the first round of grants under subsection (2), the department may administer a second round of grants under this section. To be eligible to receive funding in the second round of grants, a CEPD must not have been eligible for funding in the first round of grants. Each eligible CEPD must apply in a form and manner prescribed by the department. An application must include the funding amount requested by the CEPD. Funding to each eligible CEPD must be equal to the quotient of the funds remaining after the first round of grants and the number of CEPDs applying for funding in the second round of grants.

(4) At least 50% of the funding allocated to each eligible CEPD must be used to update equipment in current state-approved CTE programs that have been identified in the highest 5 career cluster rankings in any of the prosperity regions in the most recent CEPD regional strategic plans approved by the department; for training on new equipment; for professional development relating to computer science or coding or new equipment purchases; for the replacement of old or outdated equipment or new equipment in existing state-approved CTE programs that align with new technology used in industries; or for new and emerging certified state-approved CTE programs to allow CEPD administrators to provide programming in communities that will enhance economic development. The funding for equipment should be used to support and enhance community areas that have sustained job growth, and act as a commitment to build a more qualified and skilled workforce. In addition, each CEPD is encouraged to explore the option of leasing equipment from local private industry to encourage the use of the most advanced equipment.

(5) The allocation of funds under this section at the local level must be determined by CEPD administrators using data from the state, region, and local sources to make well-informed decisions on program equipment improvements. Grants awarded by CEPD administrators for capital infrastructure costs related to the purchase of new equipment must be used to ensure that state-approved CTE programs can deliver educational programs in high-wage, high-skill, and high-demand occupations. Each CEPD shall continue to ensure that program advisory boards make recommendations on needed improvements for equipment that support job growth and job skill development and retention for both the present and the future.

(6) Not later than December 15 of each fiscal year, each CEPD receiving funding shall annually report to the department, the senate and house appropriations subcommittees on school aid, the senate and house fiscal agencies, and the legislature on equipment purchased under subsection (1). (2) The department shall calculate payments to districts under this section in the following manner:

(a) A payment of \$35.00 multiplied by the number of pupils in grades 9 to 12 who are counted in membership in the district and are enrolled in at least 1 career and technical education program.

(b) An additional payment of \$35.00 multiplied by the number of pupils in grades 9 to 12 who are counted in membership in the district and are enrolled in at least 1 career and technical education program that provides instruction in critical skills and high-demand career fields.

(3) If the allocation under subsection (1) is insufficient to fully fund payments under subsection (2), the department shall prorate payments under this section on an equal per-pupil basis.

(4) As used in this section:

(a) "Career and technical education program" means a state-approved career and technical education program, as determined by the department.

(b) "Career and technical education program that provides instruction in critical skills and high-demand career field" means a career and technical education program classified under any of the following 2-digit classification of instructional programs (CIP) codes:

(2) Notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the department.

Sec. 61k. However, the membership of a district that has elected not to come under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, is included in the membership of the intermediate district if the district meets both of the following:

(i) The district operates the area vocational-technical education program pursuant to a contract with the intermediate district.

(ii) The district contributes an annual amount to the operation of the program that is commensurate with the revenue that would have been raised for operation of the program if millage were levied in the district for the program under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690.

(b) "Millage levied" means the millage levied for area vocational-technical education under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, including a levy for debt service obligations incurred as the result of borrowing for capital outlay projects and in meeting capital projects fund requirements of area vocational-technical education.

However, the taxable value of a district that has elected not to come under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, is included in the taxable value of the intermediate district if the district meets both of the following:

(i) The district operates the area vocational-technical education program pursuant to a contract with the intermediate district.

(ii) The district contributes an annual amount to the operation of the program that is commensurate with the revenue that would have been raised for operation of the program if millage were levied in the district for the program under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690.

(2) From the appropriation in section 11, there is allocated an amount not to exceed \$9,190,000.00 each fiscal year for 2022-2023 and for 2023-2024 to reimburse intermediate districts and area vocational-technical education programs established under section 690(3) of the revised school code, MCL 380.690, levying millages for area vocational-technical education under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690. (3) Reimbursement for those millages levied in 2021-2022 is made in 2022-2023 at an amount per 2021-2022 membership pupil computed by subtracting from \$237,500.00 the 2021-2022 taxable value behind each membership pupil and multiplying the resulting difference by the 2021-2022 millage levied, and then subtracting from that amount the 2021-2022 local community stabilization share revenue for area vocational technical education and 2021-2022 tax increment revenues captured by a brownfield redevelopment authority created under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670, behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362, and reimbursements paid under section 26d for tax increment revenues captured by a brownfield redevelopment authority under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670. (4) Reimbursement for those millages levied in 2022-2023 is made in 2023-2024 at an amount per 2022-2023 membership pupil computed by subtracting from \$248,800.00 the 2022-2023 taxable value behind each membership pupil and multiplying the resulting difference by the 2022-2023 millage levied, and then subtracting from that amount the 2022-2023 local community stabilization share revenue for area vocational technical education and 2022-2023 tax increment revenues captured by a brownfield redevelopment authority created under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670, behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362, and reimbursements paid under section 26d for tax increment revenues captured by a brownfield redevelopment authority under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670. For the purposes of the calculation described in the previous sentence only, for an intermediate district receiving funds under this section and section 56, reimbursements paid under section 26d must be multiplied by the ratio of vocational-technical education millage levied, as defined in this section, and the sum of vocational-technical education millage levied and special education millage levied, as defined in section 56.

(1) To be eligible to receive state aid under this article, not later than the fifth Wednesday after the pupil membership count day and not later than the fifth Wednesday after the supplemental count day, each district superintendent shall submit and certify to the center and the intermediate superintendent, in the form and manner prescribed by the center, the number of pupils enrolled and in regular daily attendance, including identification of tuition-paying pupils, in the district as of the pupil membership count day and as of the supplemental count day, as applicable, for the current school year. In addition, a district maintaining school during the entire year shall submit and certify to the center and the intermediate superintendent, in the form and manner prescribed by the center, the number of pupils enrolled and in regular daily attendance in the district for the current school year pursuant to rules promulgated by the superintendent. Not later than the sixth Wednesday after the pupil membership count day and not later than the sixth Wednesday after the supplemental count day, the district shall resolve any pupil membership conflicts with another district, correct any data issues, and recertify the data in a form and manner prescribed by the center and file the certified data with the intermediate superintendent. If a district fails to submit and certify the attendance data, as required under this subsection, the center shall notify the department and the department shall withhold state aid due to be distributed under this article from the defaulting district immediately, beginning with the next payment after the failure and continuing with each payment until the district complies with this subsection. If a district does not comply with this subsection by the end of the fiscal year, the district forfeits the amount withheld. A person who willfully falsifies a figure or statement in the certified and sworn copy of enrollment is subject to penalty as prescribed by section 161.

(2) To be eligible to receive state aid under this article, not later than the twenty-fourth Wednesday after the pupil membership count day and not later than the twenty-fourth Wednesday after the supplemental count day, an intermediate district shall submit to the center, in a form and manner prescribed by the center, the audited enrollment and attendance data as described in subsection (1) for the pupils of its constituent districts and of the intermediate district. If an intermediate district does not comply with this subsection by the end of the fiscal year, the intermediate district forfeits the amount withheld.

(3) Except as otherwise provided in subsections (11) and (12) all of the following apply to the provision of pupil instruction:

(a) Except as otherwise provided in this section, each district shall provide at least 1,098 hours and 180 days of pupil instruction. If a collective bargaining agreement that provides a complete school calendar was in effect for employees of a district as of June 24, 2014, and if that school calendar is not in compliance with this subdivision, then this subdivision does not apply to that district until after the expiration of that collective bargaining agreement. A district may apply for a waiver under subsection (9) from the requirements of this subdivision.

(b) Except as otherwise provided in this article, a district failing to comply with the required minimum hours and days of pupil instruction under this subsection forfeits from its total state aid allocation an amount determined by applying a ratio of the number of hours or days the district was in noncompliance in relation to the required minimum number of hours and days under this subsection. Not later than the first business day in August, the board of each district shall either certify to the department that the district was in full compliance with this section regarding the number of hours and days of pupil instruction in the previous school year, or report to the department, in a form and manner prescribed by the center, each instance of noncompliance. If the district did not provide at least the required minimum number of hours and days of pupil instruction under this subsection, the department shall make the deduction of state aid in the following fiscal year from the first payment of state school aid. A district is not subject to forfeiture of funds under this subsection for a fiscal year in which a forfeiture was already imposed under subsection (6).

(c) Hours or days lost because of strikes or teachers' conferences are not counted as hours or days of pupil instruction.

(d) Except as otherwise provided in subdivisions (e) and (f), if a district does not have at least 75% of the district's membership in attendance on any day of pupil instruction, the department shall pay the district state aid in that proportion of 1/180 that the actual percent of attendance bears to 75%.

(e) If a district adds 1 or more days of pupil instruction to the end of its instructional calendar for a school year to comply with subdivision (a) because the district otherwise would fail to provide the required minimum number of days of pupil instruction even after the operation of subsection (4) due to conditions not within the control of school authorities, then subdivision (d) does not apply for any day of pupil instruction that is added to the end of the instructional calendar. Instead, for any of those days, if the district does not have at least 60% of the district's

membership in attendance on that day, the department shall pay the district state aid in that proportion of 1/180 that the actual percentage of attendance bears to 60%. For any day of pupil instruction added to the instructional calendar as described in this subdivision, the district shall report to the department the percentage of the district's membership that is in attendance, in the form and manner prescribed by the department.

(f) At the request of a district that operates a department-approved alternative education program and that does not provide instruction for pupils in all of grades K to 12, the superintendent shall grant a waiver from the requirements of subdivision (d). The waiver must provide that an eligible district is subject to the proration provisions of subdivision (d) only if the district does not have at least 50% of the district's membership in attendance on any day of pupil instruction. In order to be eligible for this waiver, a district must maintain records to substantiate its compliance with the following requirements:

(i) The district offers the minimum hours of pupil instruction as required under this section.

(ii) For each enrolled pupil, the district uses appropriate academic assessments to develop an individual education plan that leads to a high school diploma.

(iii) The district tests each pupil to determine academic progress at regular intervals and records the results of those tests in that pupil's individual education plan.

(g) All of the following apply to a waiver granted under subdivision (f):

(i) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(ii) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil participates in the educational program for at least 1,098 hours during a school year, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(iii) A waiver that is not a waiver described in subparagraph (i) or (ii) is valid for 3 fiscal years, unless it is revoked by the superintendent, and must be renewed at the end of the 3-year period to remain in effect.

(h) The superintendent shall promulgate rules for the implementation of this subsection.

(4) All of the following apply to the counting of days and hours of pupil instruction under this section:

(a) Except as otherwise provided in this subsection, the first 6 days or the equivalent number of hours for which pupil instruction is not provided because of conditions not within the control of school authorities, such as severe storms, fires, epidemics, utility power unavailability, water or sewer failure, or health conditions as defined by the city, county, or state health authorities, are counted as hours and days of pupil instruction.

(b) With the approval of the superintendent of public instruction, the department shall count as hours and days of pupil instruction for a fiscal year not more than 3 additional days or the equivalent number of additional hours for which pupil instruction is not provided in a district due to unusual and extenuating occurrences resulting from conditions not within the control of school authorities such as those conditions described in this subsection.

(c) A district that counts hours or days of professional development for teachers as hours or days of pupil instruction, as provided under subsection (10), is eligible to have additional hours or days counted as hours and days of pupil instruction as provided under subdivision (b) to the same extent as a district that does not count hours or days of professional development for teachers as hours or days of pupil instruction.

(d) In deciding whether or not to approve the counting of additional hours or days of pupil instruction under subdivision (b) for a district, the superintendent of public instruction shall not take into account whether or not the district counts hours or days of professional development for teachers as hours or days of pupil instruction, as provided under subsection (10).

(e) Subsequent hours or days beyond those described in subdivisions (a) and (b) are not counted as hours or days of pupil instruction.

(5) A district does not forfeit part of its state aid appropriation because it adopts or has in existence an alternative scheduling program for pupils in kindergarten if the program provides at least the number of hours required under subsection (3) for a full-time equated membership for a pupil in kindergarten as provided under section 6(4).

(6) In addition to any other penalty or forfeiture under this section, if at any time the department determines that 1 or more of the following have occurred in a district, the district forfeits in the current fiscal year beginning in the next payment to be calculated by the department a proportion of the funds due to the district under this article that is equal to the proportion below the required minimum number of hours and days of pupil instruction under subsection (3), as specified in the following:

(a) The district fails to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(b) The board of the district takes formal action not to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(7) In providing the minimum number of hours and days of pupil instruction required under subsection (3), a district shall use the following guidelines, and a district shall maintain records to substantiate its compliance with the following guidelines:

(a) Except as otherwise provided in this subsection, a pupil must be scheduled for at least the required minimum number of hours of instruction, excluding study halls, or at least the sum of 90 hours plus the required minimum number of hours of instruction, including up to 2 study halls.

(b) The time a pupil is assigned to any tutorial activity in a block schedule may be considered instructional time, unless that time is determined in an audit to be a study hall period.

(c) Except as otherwise provided in this subdivision, a pupil in grades 9 to 12 for whom a reduced schedule is determined to be in the individual pupil's best educational interest must be scheduled for a number of hours equal to at least 80% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil. A pupil in grades 9 to 12 who is scheduled in a 4-block schedule may receive a reduced schedule under this subsection if the pupil is scheduled for a number of hours equal to at least 75% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil.

(d) If a pupil in grades 9 to 12 who is enrolled in a cooperative education program or a special education pupil cannot receive the required minimum number of hours of pupil instruction solely because of travel time between instructional sites during the school day, that travel time, up to a maximum of 3 hours per school week, is considered to be pupil instruction time for the purpose of determining whether the pupil is receiving the required minimum number of hours of pupil instruction. However, if a district demonstrates to the satisfaction of the department that the travel time limitation under this subdivision would create undue costs or hardship to the district, the department may consider more travel time to be pupil instruction time for this purpose.

(e) In grades 7 through 12, instructional time that is part of a Junior Reserve Officer Training Corps (JROTC) program is considered to be pupil instruction time regardless of whether the instructor is a certificated teacher if all of the following are met:

(i) The instructor has met all of the requirements established by the United States Department of Defense and the applicable branch of the armed services for serving as an instructor in the Junior Reserve Officer Training Corps program.

(ii) The board of the district or intermediate district employing or assigning the instructor complies with the requirements of sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to the instructor to the same extent as if employing the instructor as a regular classroom teacher.

(8) Except as otherwise provided in subsections (11) and (12), the department shall apply the guidelines under subsection (7) in calculating the full-time equivalency of pupils.

(9) Upon application by the district for a particular fiscal year, the superintendent shall waive for a district the minimum number of hours and days of pupil instruction requirement of subsection (3) for a department-approved alternative education program or another innovative program approved by the department, including a 4-day school week. If a district applies for and receives a waiver under this subsection and complies with the terms of the waiver, the district is not subject to forfeiture under this section for the specific program covered by the waiver. If the district does not comply with the terms of the waiver, the amount of the forfeiture is calculated based upon a comparison of the number of hours and days of pupil instruction actually provided to the minimum number of hours and days of pupil instruction required under subsection (3). A district shall report pupils enrolled in a department-approved alternative education program under this subsection to the center in a form and manner determined by the center. All of the following apply to a waiver granted under this subsection:

(a) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(b) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil is on track for course completion at proficiency level, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(c) A waiver that is not a waiver described in subdivision (a) or (b) is valid for 3 fiscal years, unless it is revoked by the superintendent, and must be renewed at the end of the 3-year period to remain in effect.

(10) A district may count up to 38 hours of professional development for teachers as hours of pupil instruction. All of the following apply to the counting of professional development as pupil instruction under this subsection:

(a) If the professional development exceeds 5 hours in a single day, that day may be counted as a day of pupil instruction.

(b) At least 8 hours of the professional development counted as hours of pupil instruction under this subsection must be recommended by a districtwide professional development advisory committee appointed by the district board. The advisory committee must be composed of teachers employed by the district who represent a variety of grades and subject matter specializations, including special education; nonteaching staff; parents; and administrators. The majority membership of the committee must be composed of teaching staff.

(c) Professional development provided online is allowable and encouraged, as long as the instruction has been approved by the district. The department shall issue a list of approved online professional development providers that must include the Michigan Virtual School.

(d) Professional development may only be counted as hours of pupil instruction under this subsection for the pupils of those teachers scheduled to participate in the professional development.

(e) The professional development must meet all of the following to be counted as pupil instruction under this subsection:

(i) Be aligned to the school or district improvement plan for the school or district in which the professional development is being provided.

(ii) Be linked to 1 or more criteria in the evaluation tool developed or adopted by the district or intermediate district under section 1249 of the revised school code, MCL 380.1249.

(iii) Has been approved by the department as counting for state continuing education clock hours. The number of hours of professional development counted as hours of pupil instruction under this subsection may not exceed the number of state continuing education clock hours for which the professional development was approved.

(iv) Not more than a combined total of 10 hours of the professional development takes place before the first scheduled day of school for the school year ending in the fiscal year and after the last scheduled day of school for that school year.

(v) Not more than 10 hours of the professional development takes place in a single month.

(vi) At least 75% of teachers scheduled to participate in the professional development are in attendance.

(11) Subsections (3) and (8) do not apply to a school of excellence that is a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a. Beginning July 1, 2021, this subsection is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021.

(12) Subsections (3) and (8) do not apply to eligible pupils enrolled in a dropout recovery program that meets the requirements of section 23a. As used in this subsection, “eligible pupil” means that term as defined in section 23a.

(13) At least every 2 years the superintendent shall review the waiver standards set forth in the pupil accounting and auditing manuals to ensure that the waiver standards and waiver process continue to be appropriate and responsive to changing trends in online learning. The superintendent shall solicit and consider input from stakeholders as part of this review.

Sec. 104. (2) The results of each test administered as part of the Michigan student test of educational progress (M-STEP), including tests administered to high school students, must include an item analysis that lists all items that are counted for individual pupil scores and the percentage of pupils choosing each possible response. The department shall work with the center to identify the number of students enrolled at the time assessments are given by each district. In calculating the percentage of pupils assessed for a district’s scorecard, the department shall use only the number of pupils enrolled in the district at the time the district administers the assessments and shall exclude pupils who enroll in the district after the district administers the assessments.

(3) The department shall distribute federal funds allocated under this section in accordance with federal law and with flexibility provisions outlined in Public Law 107-116, and in the education flexibility partnership act of 1999, Public Law 106-25.

The department and the center shall ensure that any data collected by the online reporting tool do not provide individually identifiable student data to the federal government.

(7) As used in this section:

(a) "DED" means the United States Department of Education.

(b) "DED-OESE" means the DED Office of Elementary and Secondary Education.

(c) "DED-OSERS" means the DED Office of Special Education and Rehabilitative Services.

The department shall ensure that a program funded under this subsection satisfies all of the following:

(a) Is available to districts in the 2023-2024 school year.

(b) Focuses on ensuring pupils have the necessary skills required for state online assessments by assessing pupil digital literacy skill levels and providing teachers with a digital curriculum targeted at areas of determined weakness.

(c) Allows pupils to engage with the digital curriculum in an independent or teacher-facilitated modality.

The district, along with its third-party partner, shall provide a report to the house and senate appropriations subcommittees on school aid and the house and senate fiscal agencies on the efficacy and usefulness of the assessment digital literacy preparation program no later than July 1 of each fiscal year for which funding is allocated under this section.

(3) Notwithstanding section 17b, the department shall make payments under subsection (1) by not later than December 1 of each fiscal year for which funding is allocated under this section.

Sec. 104h. (1) From the state school aid fund money appropriated under section 11, there is allocated for 2021-2022 an amount not to exceed \$11,500,000.00 to districts to begin implementation of a benchmark assessment system for the 2022-2023 school year. It is the intent of the legislature that funding for benchmark assessments for the 2024-2025 school year will be appropriated in this section in 2024-2025. (i) A benchmark assessment in reading for students in grades K to 9 that contains progress monitoring tools and enhanced diagnostic assessments.

(ii) A benchmark assessment in math for students in grades K to 8 that contains progress monitoring tools.

(c) The system must provide that, to the extent practicable, if a district administers a benchmark assessment or benchmark assessments under this section, the district shall administer the same benchmark assessment or benchmark assessments provided by a provider approved under subsection (6), benchmark assessment or benchmark assessments described in subdivision (b), or local benchmark assessment or local benchmark assessments that it administered to pupils in previous school years, as applicable.

(d) The system must provide that, if a district administers a benchmark assessment or benchmark assessments under this section, the district shall provide each pupil's data from the benchmark assessment or benchmark assessments, as available, to the pupil's parent or legal guardian within 30 days of administering the benchmark assessment or benchmark assessments.

(2) To be eligible for funding under this section, an eligible adult education provider shall employ certificated teachers and qualified administrative staff and shall offer continuing education opportunities for teachers to allow them to maintain certification.

(3) To be eligible to be a participant funded under this section, an individual must be enrolled in an adult basic education program, an adult secondary education program, an adult English as a second language program, a

high school equivalency test preparation program, or a high school completion program, that meets the requirements of this section, and for which instruction is provided, and the individual must be at least 18 years of age by July 1 of the program year and the individual's graduating class must have graduated.

(c) Collaborate with the career and educational advisory council, which is an advisory council of the workforce development boards located in the prosperity region or subregion, or its successor, to create a local process and criteria that will identify eligible adult education providers to receive funds allocated under this section based on location, demand for services, past performance, quality indicators as identified by the department, and cost to provide instructional services. The fiscal agent shall determine all local processes, criteria, and provider determinations. However, the local processes, criteria, and provider services must be approved by the department before funds may be distributed to the fiscal agent.

A funding recipient may charge a participant tuition to receive adult education services under this section from that sliding scale of tuition rates on a uniform basis. The amount of tuition charged per participant must not exceed the actual operating cost per participant minus any funds received under this section per participant. A funding recipient may not charge a participant tuition under this section if the participant's income is at or below 200% of the federal poverty guidelines published by the United States Department of Health and Human Services.

(14) In order to receive funds under this section, a funding recipient shall furnish to the department, in a form and manner determined by the department, all information needed to administer this program and meet federal reporting requirements; shall allow the department or the department's designee to review all records related to the program for which it receives funds; and shall reimburse the state for all disallowances found in the review, as determined by the department. Except as otherwise provided under this subdivision, participants identified under this subsection must be dually enrolled in adult education programming and in at least 1 state-approved technical course at the area career and technical center. A program that links participants identified under this subsection with adult education programming and commercial driver license courses does not need to enroll the participants in at least 1 state-approved technical course at the area career and technical center to be considered an eligible program under this subsection.

(c) Employ an individual staffed as an adult education navigator who will serve as a caseworker for each participant identified under subdivision (b). The navigator shall work with adult education staff and potential employers to design an educational program best suited to the personal and employment needs of the participant and shall work with human service agencies or other entities to address any barrier in the way of participant access.

Concurrent enrollment is not required under this subsection for a participant that was enrolled in adult education during the same program year and obtained a high school diploma or a high school equivalency certificate prior to enrollment in an eligible career and technical skills program under subsection (15). Up to 15% of adult education participants served under subsection (15) may already have a high school diploma or a high school equivalency certificate at the time of enrollment in an eligible career and technical skills program under

subsection (15) and receive remediation services. It is intended that the cap described in the immediately preceding sentence is continually lowered on an annual basis until it eventually is 0%.

A public university that receives money under this subsection shall use that money solely for the purpose of payments toward the pension and other postemployment benefit unfunded actuarial accrued liabilities associated with members and pension recipients of those participating public universities. As used in this section, "participating public universities" means public universities that are reporting units of the Michigan public school employees' retirement system under the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1301 to 38.1437, and that pay contributions to the Michigan public school employees' retirement system for the state fiscal year.

The amount paid to an eligible public university is the amount calculated in the immediately preceding sentence multiplied by that university's fiscal year equated students for fiscal year 2021-2022. If a calculation under this section results in an amount less than \$0.00, the payment under this section is equal to \$0.00. (2) To receive funds under this section, a public university must certify to the state budget director by January 1, 2024 that it did not receive an appropriation for a planning or construction authorization for a capital outlay project between January 1, 2023 and December 15, 2023.

(3) Funds appropriated in section 236(13) are distributed to each public university that certified it did not receive a capital outlay appropriation under subsection (2). The payment for each public university must be calculated based on each public university's respective share of total fiscal year equated students as reported to the higher education institutional data inventory for the fiscal year ending September 30, 2022 for all public universities that receive a payment under this section. Payments to public universities under this section must be distributed in 1 lump sum to each institution with the January 16, 2024 payment described in section 241.

Sec. 236n. For fiscal year 2022-2023 only, in addition to allocations under section 236(7) and (8), \$2,500,000.00 is allocated to the tuition incentive program, appropriated from federal revenues under the social security act, temporary assistance for needy families. (d) The public university requires that the governing board and the president or chancellor of the public university receive quarterly reports from their title IX coordinator or title IX office. The report must contain aggregated data of the number of sexual misconduct reports that the office received for the academic year, the types of reports received, including reports received against employees, and a summary of the general outcomes of the reports and investigations. A member of the governing board may request to review a title IX investigation report involving a complaint against an employee, and the public university shall provide the report in a manner it considers appropriate. The public university shall protect the complainant's anonymity, and the report must not contain specific identifying information.

(e) If allegations against an employee are made in more than 1 title IX complaint that resulted in the public university finding that no misconduct occurred, the public university requires that the title IX officer promptly notify the president or chancellor and a member of the public university's governing board in writing and take all appropriate steps to ensure that the matter is being investigated thoroughly, including hiring an outside investigator for future cases involving that employee. A third-party title IX investigation under this subdivision does not prohibit the public university from simultaneously conducting its own title IX investigation through its own title IX coordinator.

(f) The public university's president or chancellor and a member of its governing board has reviewed all title IX reports involving the alleged sexual misconduct of an employee of the public university.

(3) As used in this section, "sexual misconduct" includes, but is not limited to, intimate partner violence, nonconsensual sexual conduct, sexual assault, sexual exploitation, sexual harassment, and stalking.

Sec. 241c. (1) No later than the last business day of August each year, each public university that receives an appropriation in section 236 shall submit the amount of tuition and fees actually charged to a full-time resident undergraduate student for academic year 2023-2024 as part of the public university's higher education institutional data inventory (HEIDI) data. A public university shall report any revisions for any semester of the reported academic year to HEIDI within 15 days of being adopted.

(2) Payments under section 236 for operations increase and per-student floor funding must be made only to a public university that certifies to the state budget director by the last business day of August each year that its board did not adopt an increase in tuition and fee rates for resident undergraduate students after September 1, 2022 for the 2022-2023 academic year and that its board will not adopt an increase in tuition and fee rates for resident undergraduate students for the 2023-2024 academic year that is greater than 4.5% or \$676.00, whichever is greater. As used in this subsection:

(a) "Fee" means any board-authorized fee that will be paid by more than 1/2 of all resident undergraduate students at least once during their enrollment at a public university, as described in the higher education institutional data inventory (HEIDI) user manual. A public university increasing a fee that applies to a specific subset of students or courses shall provide sufficient information to prove that the increase applied to that subset will not cause the increase in the average amount of board-authorized total tuition and fees paid by resident undergraduate students in the 2023-2024 academic year to exceed the limit established in this subsection.

(b) "Tuition and fee rate" means the average of full-time rates paid by a majority of students in each undergraduate class, based on an unweighted average of the rates authorized by the public university board and actually charged to students, deducting any uniformly rebated or refunded amounts, for the 2 semesters with the highest levels of full-time equated resident undergraduate enrollment during the academic year, as described in the higher education institutional data inventory (HEIDI) user manual.

(3) Each public university must certify to the state budget director by the last business day of August each year that it complies with all of the following requirements:

(a) The public university participates in reverse transfer agreements described in section 286 with at least 3 community colleges in this state.

(b) The public university does not and will not apply any of the following criteria when determining whether credits earned outside the public university by a student count toward a degree or certificate program offered by the public university:

(i) Whether the credits were earned in a dual enrollment program that counted the credits toward high school graduation requirements.

(ii) Whether the credits were earned in a course that was delivered in a high school classroom, community college classroom or campus, or another location.

(iii) Whether the credits were earned in a course that was delivered online, in person, or hybrid.

(iv) Whether other students enrolled in the course in which the credits were earned were enrolled in high school or counted the course toward high school graduation requirements.

(c) The public university actively participates in and submits timely updates to the Michigan Transfer Network created as part of the Michigan Association of Collegiate Registrars and Admissions Officers transfer agreement.

(4) The state budget director shall implement uniform reporting requirements to ensure that a public university receiving a payment under section 236 for operations increase or per-student floor funding has satisfied the tuition restraint requirements of this section. The state budget director has the sole authority to determine if a public university has met the requirements of this section. Information reported by a public university to the state budget director under this subsection must also be reported to the house and senate appropriations subcommittees on higher education and the house and senate fiscal agencies.

Sec. 241d. (1) The Michigan office of postsecondary educational attainment is created in the department of labor and economic opportunity. The office may use funds appropriated in this act or other funds appropriated to the department, if funds are available, to hire employees and enter into contracts with vendors for services, supplies, and other necessary purchases to do the following:

(a) Review and evaluate all state financial aid programs within the executive branch of government, with a focus on improving postsecondary educational outcomes, operations, and impact on college affordability, and make recommendations as to those improvements.

(b) Serve as the coordinating office for all agencies of the executive branch of government that are responsible for financial aid programs administered by the state.

(c) Survey stakeholders, including public, tribal, and private not-for-profit colleges and universities, state departments and agencies, and statewide postsecondary education associations, on student financial aid policy to improve this state's administration of programs under subdivision (a).

(d) Consolidate reports received from individual colleges and universities under articles II and III into a single statewide report for each separate reporting requirement, and make those consolidated reports with summary available to the governor and legislature.

(e) Provide analysis of data collected by the center, higher education information data inventory, and individual colleges and universities to assist students, prospective students, and their families in making decisions on postsecondary education.

(f) Provide recommendations that would improve the delivery of student financial aid, increase postsecondary attainment in this state, and assist with achieving the goals stated in sections 226e and 275j.

(2) By September 30, 2024, the office shall provide a report to the house and senate subcommittees on higher education, the house and senate fiscal agencies, and the state budget director. The report must include the following:

(a) A detailed list of expenditures made under this section.

(b) A detailed list of achievements, process improvements, reports, and other accomplishments of the office during the current fiscal year.

(c) A detailed list of recommendations that would improve the administration of student financial aid in this state.

(d) A detailed list of recommendations that would improve postsecondary attainment in this state.

(3) It is the intent of the legislature to recognize that state universities and community colleges remain under the supervision and control of their governing boards.

Sec. 248. (1) The funds appropriated in section 236 for Michigan achievement scholarships must be distributed as provided in this section and section 248a, pursuant to the administrative procedures for Michigan achievement scholarships of the department.

(2) As used in this section:

(b) “Eligible institution” means a public university that receives an appropriation in section 236, a community college that receives an appropriation in section 201, a federally recognized tribal college in this state, or an independent nonprofit college or university in this state as described in section 1 of 1966 PA 313, MCL 390.991.

(c) “Gift aid” includes federal Pell grants under 20 USC 1070a, tuition incentive program benefits under section 256, state tuition grants under section 252, awards received for minimum payments awarded in subsection (4), higher education expenses paid under the Michigan promise zone authority act, 2008 PA 549, MCL 390.1661 to 390.1679, and all other federal, state, local, or institutional aid in the form of grants, scholarships, or discounts applied toward tuition and mandatory fees. Gift aid does not include student loans, work-study awards, qualified withdrawals made from education savings accounts to pay higher education expenses pursuant to the Michigan education savings program act, 2000 PA 161, MCL 390.1471 to 390.1486, or higher education expenses paid under the Michigan education trust program pursuant to the Michigan education trust act, 1986 PA 316, MCL 390.1421 to 390.1442.

(d) “High school equivalency certificate” means that term as defined in section 4.

(3) An individual must meet all of the following criteria and financial thresholds each year to be eligible for a Michigan achievement scholarship awarded under this section:

For the purposes of this subdivision, participation in a dual enrollment, early college, or other similar program while attending high school does not disqualify a student from being considered a first-time enrollee.

(d) Maintain satisfactory academic progress, as defined by the eligible institution in which the student is enrolled.

(e) Not be incarcerated in a corrections institution.

(f) Not be in default on a federal student loan.

(g) Complete the Free Application for Federal Student Aid and have an expected family contribution of \$25,000.00 or less.

(a) Subject to section 248a(3)(f)(i), an eligible student may receive an award under this section or section 248a for a maximum of 5 academic years, not more than 3 of which may be for attending eligible institutions that are community colleges or federally recognized tribal colleges unless the student is enrolled in a baccalaureate degree program described in section 121 of the community college act of 1966, 1966 PA 331, MCL 389.121. A student may not receive an award under this subsection and section 248a(3)(f)(i) during the same academic year.

(b) The amount awarded to an eligible student at an eligible institution that is a community college or federally recognized tribal college must equal the sum of following:

(i) A minimum payment of \$1,750.00, which is comprised of a base payment of \$1,000.00 plus an additional payment of \$750.00.

(i) A minimum payment of \$1,000.00.

(ii) The lesser of \$3,000.00 or the student's last-dollar payment amount.

(e) Money awarded under this subsection for a Michigan achievement scholarship must be paid to the eligible institution for credit to the student's account.

(f) As used in this subsection:

(i) "Last-dollar payment amount" means an amount equal to the tuition, mandatory fees, and contact hours for each student's actual program of study, minus all gift aid received by the student.

(ii) "Minimum payment" means a payment eligible for any cost within the student's individual cost of attendance. The minimum payment must be awarded as a separate payment not included in the student's need-based financial aid. The minimum payment must not be reduced.

(5) The department shall work closely with participating institutions to provide the highest level of participation and ensure that all requirements of the program are met.

(6) From the funds appropriated in section 236(6) for the Michigan achievement scholarships, the department may not use more than \$10,000,000.00 for the purposes of outreach programs to raise awareness of the Michigan achievement scholarship described in this section and section 248a and shall ensure that Michigan achievement scholarships are well publicized and that high school students are provided information on the program. The department may receive and expend funds received from outside sources for scholarships, marketing, or other purposes related to the Michigan achievement scholarship. The department shall provide the necessary funding and staff to fully operate the program.

(7) The department shall convene a workgroup during the fiscal year ending September 30, 2024 to consider and advise the department on implementing policies for administering the Michigan achievement scholarship. The workgroup shall include participation from the Michigan Association of State Universities and its institutional members, the Michigan College Access Network, the Michigan Community College Association and its institutional members, the Michigan Independent Colleges and Universities and its institutional members, and any other interested stakeholders and offices as determined by the department. The workgroup shall make recommendations on packaging order, packaging structure, definitions of terms not otherwise defined in statute, and other administrative regulatory requirements as necessary to implement the Michigan achievement scholarship.

(8) The following reporting obligations apply to the Michigan achievement scholarship program:

(a) By May 1 and December 1 of each year, the department shall provide a written report, organized by eligible institution, to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director that includes the following information for the previous academic year:

(i) The number of students who qualified for a Michigan achievement scholarship.

(ii) The number of students who received a Michigan achievement scholarship.

(iii) The average number of credits earned by students who received a Michigan achievement scholarship.

(iv) The number of Michigan achievement scholarships that were canceled due to failure to maintain satisfactory academic progress under subsection (3)(d).

(v) The number of Michigan achievement scholarships that were canceled due to a student ceasing attendance at an eligible institution. The number must not include any known transfers to another eligible institution.

(vi) The number of Michigan achievement scholarships that were canceled due to a student's failure to maintain full-time status.

(vii) The average Michigan achievement scholarship award per student, delineated by sector, including community colleges, tribal colleges, public universities, independent colleges and universities, and training institutions. As used in this subparagraph, "training institutions" means training institutions accepted to participate in the Michigan achievement scholarship program under section 248a.

(b) Each eligible institution whose students receive awards under this section shall cooperate with the department in a timely manner to facilitate the creation of the report under subdivision (a).

(9) Beginning April 1, 2024, by April 1 of each year, each eligible institution shall submit a report to the department, the state budget office, and the house and senate fiscal agencies providing information as to the total institutional grant aid per full-year equated undergraduate student for the current institution fiscal year and for the immediately preceding 3 institution fiscal years. If the institution does not maintain total institutional grant aid per full-year equated undergraduate student at the average amount provided over the immediately preceding 3 institution fiscal years, the institution must include in the report a description of changes to institutional finances or the student population that prevented the institution from maintaining support for institutional aid. An institution's report of total institutional grant aid per full-year equated undergraduate student pursuant to this subdivision must be consistent with data most recently reported to the Integrated Postsecondary Education Data System.

(10) For each fiscal year, an eligible institution becomes ineligible for funding under this section if, in the immediately preceding fiscal year, the institution exceeds 1 of the following tuition restraint requirements, as applicable:

(a) For an eligible institution that is a community college, the tuition restraint described in section 217b.

(b) For an eligible institution that is a public university or independent nonprofit college or university, the tuition restraint described in section 241c.

(11) It is the intent of the legislature that an eligible institution will not make reductive changes to scholarship or financial aid programs offered by that eligible institution that have the goal or net effect of shifting the cost burden of those programs to the program described in this section.

Sec. 248a. (1) The funds appropriated in section 236 for Michigan achievement scholarships must be distributed as provided in this section and section 248, pursuant to the administrative procedures for Michigan achievement scholarship private training program of the department.

(b) "High school equivalency certificate" means that term as defined in section 4.

(c) "Qualified occupational training program" means that term as defined in section 13 of the Michigan reconnect grant recipient act, 2020 PA 68, MCL 390.1713.

(3) The department shall do all of the following:

(a) Develop and implement a process by which those seeking to participate in the Michigan achievement scholarship private training program as training institutions offering qualified occupational training programs must apply to the department.

(b) Approve as a qualified occupational training program a program for which an application is submitted under subdivision (a) that meets all of the criteria to qualify as a qualified occupational training program, and post these criteria to the department's website.

(c) Ensure that an applicant under subdivision (a) is first included on this state's eligible training provider list before each of the applicant's programs receives separate approval from the department as being a qualified occupational training program.

(d) Require that training institutions accepted to participate in the Michigan achievement scholarship private training program comply with data requests from the department as a condition of continued participation. For purposes of this subdivision, the department shall require institutions operating apprenticeship programs subject to this section to provide data that tracks relevant work experience required to verify a student's status as an apprentice.

(e) Maintain on its website a list of all qualified occupational training program options available to potential skills scholarship recipients.

(f) Award skills scholarships, subject to all of the following:

(i) A skills scholarship is a grant not to exceed \$2,000.00 per year to contribute to tuition costs for a qualified occupational training program at a training institution, both of which are approved under this section, for a training program participant who meets the requirements of subparagraph (ii). A skills scholarship must not exceed the full amount of the tuition charged for the training program. A program participant may receive a skills scholarship under this section for a maximum of 2 academic years.

(ii) To receive the skills scholarship described in subparagraph (i), a qualified occupational training program participant must meet all of the following:

(A) Be a resident of this state for at least the immediately preceding year.

(B) Have graduated from a high school in this state with a diploma or certificate of completion or achieved a high school equivalency certificate in 2023 or after.

(C) Not have previously earned an associate or baccalaureate degree.

(D) Not have previously earned a degree, certificate, or other credential using a skills scholarship awarded under this section.

(E) Timely complete a Michigan achievement scholarship private training program skills scholarship application in a form and manner determined by the department.

(iii) The department may award skills scholarships under this section only until money appropriated to the Michigan achievement scholarship private training program has been fully committed.

(g) Inform each recipient of a skills scholarship that the recipient will remain eligible for the Michigan achievement scholarship under section 248 for a maximum of 5 years, less any years of eligibility used for a skills scholarship awarded under this section, to pursue an associate degree, baccalaureate degree, or occupational certificate upon completion of a certification course of study in a qualified occupational training program.

(4) Except as otherwise provided in subsection (5), the department shall promulgate rules to implement subsection (3)(a), (b), and (d) only, pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, subject to all of the following:

(a) Under subsection (3)(a), the department is limited to developing the form for the application described in subsection (3)(a) and prescribing the time and manner of its completion.

(b) Under subsection (3)(b), the department is limited to applying the eligibility criteria described in subsection (3)(b) and shall not apply any other eligibility criteria.

(c) Under subsection (3)(d), the department is limited to requiring compliance with data requests as described in subsection (3)(d).

(5) To facilitate implementation of the Michigan achievement scholarship private training program prior to final rules being adopted, the department may develop and administer the program in accordance with its proposed rules or other policy or directive of the department established pursuant to this section.

(6) It is the intent of the legislature that a training institution will not make changes to scholarship or financial aid programs offered by that training institution that have the goal or net effect of shifting the cost burden of those programs to the program described in this section.

Sec. 251. (1) Payments of the amounts included in section 236 for the state competitive scholarship program must be distributed pursuant to 1964 PA 208, MCL 390.971 to 390.981.

(2) Pursuant to section 6 of 1964 PA 208, MCL 390.976, the department of treasury shall determine an actual state competitive scholarship award per student, which must be \$1,500.00, that ensures that the aggregate payments for the state competitive scholarship program do not exceed the appropriation contained in section 236 for the state competitive scholarship program. If the department determines that insufficient funds are available to establish an award amount equal to \$1,500.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the estimated amount of additional funds necessary to establish a \$1,500.00 award amount. For the purpose of determining a student's financial need under section 6 of 1964 PA 208, MCL 390.976, the department of treasury shall presume that a student who receives a Michigan achievement scholarship under section 248(4)(b) or (c) has no need for a state competitive scholarship under this section. It is the intent of the legislature that 1964 PA 208, MCL 390.971 to 390.981, will be amended to end competitive scholarship eligibility of students enrolling in college for the first time after the fiscal year ending on September 30, 2023, as those students may be eligible for the Michigan achievement scholarship.

(3) The department of treasury shall implement a proportional competitive scholarship award level for recipients enrolled less than full-time in a given semester or term.

(4) If a student who receives an award under this section has the student's tuition, contact hours, and fees paid under the Michigan educational trust program, pursuant to the Michigan education trust act, 1986 PA 316, MCL 390.1421 to 390.1442, and still has financial need, the funds awarded under this section may be used for educational expenses other than tuition and fees.

(5) If the department of treasury increases the award per eligible student from that provided in the previous fiscal year, it must not have the effect of reducing the number of eligible students receiving awards in relation to the total number of eligible applicants. Any increase in the award must be proportional for all eligible students receiving awards.

(6) Veterans Administration benefits must not be considered in determining eligibility for the award of scholarships under 1964 PA 208, MCL 390.971 to 390.981.

Sec. 252. (1) The amounts appropriated in section 236 for the state tuition grant program must be distributed pursuant to 1966 PA 313, MCL 390.991 to 390.997a.

(2) Tuition grant awards must be made to all eligible Michigan residents enrolled in undergraduate degree programs who are qualified.

(3) Pursuant to section 5 of 1966 PA 313, MCL 390.995, and subject to subsections (6) and (7), the department of treasury shall determine an actual tuition grant award per student, which must be \$3,000.00, that ensures that the aggregate payments for the tuition grant program do not exceed the appropriation contained in

section 236 for the state tuition grant program. If the department determines that insufficient funds are available to establish an award amount equal to \$3,000.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the estimated amount of additional funds necessary to establish a \$3,000.00 award amount. If the department determines that sufficient funds are available to establish an award amount equal to \$3,000.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the award amount established and the projected amount of any projected year-end appropriation balance based on that award amount. By February 18 of each fiscal year, the department shall analyze the status of award commitments, shall make any necessary adjustments, and shall confirm that those award commitments will not exceed the appropriation contained in section 236 for the tuition grant program. The determination and actions must be reported to the state budget director and the house and senate fiscal agencies no later than the final day of February of each year. If award adjustments are necessary, the students must be notified of the adjustment by March 4 of each year.

(4) The department of treasury shall continue a proportional tuition grant award level for recipients enrolled less than full-time in a given semester or term.

(5) If the department of treasury increases the award per eligible student from that provided in the previous fiscal year, it must not have the effect of reducing the number of eligible students receiving awards in relation to the total number of eligible applicants. Any increase in the grant must be proportional for all eligible students receiving awards for that fiscal year.

(6) The department of treasury shall not award more than \$5,000,000.00 in tuition grants to eligible students enrolled in the same independent nonprofit college or university in this state. Any decrease in the grant must be proportional for all eligible students enrolled in that college or university, as determined by the department.

(7) The department of treasury shall not award tuition grants to otherwise eligible students enrolled in an independent college or university that does not report, in a form and manner directed by and satisfactory to the department of treasury, by October 31 of each year, all of the following:

(a) The number of students in the most recently completed academic year who in any academic year received a state tuition grant at the reporting institution and successfully completed a program or graduated.

(b) The number of students in the most recently completed academic year who in any academic year received a state tuition grant at the reporting institution and took a remedial education class.

(c) The number of students in the most recently completed academic year who in any academic year received a Pell grant at the reporting institution and successfully completed a program or graduated.

(8) By February 1 of each year, each independent college and university participating in the tuition grant program shall report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director on its efforts to develop and implement sexual assault response training for the institution's title IX coordinator, campus law enforcement personnel, campus public safety personnel, and any other campus personnel charged with responding to on-campus incidents, including information on sexual assault response training materials and the status of implementing sexual assault response training for institutional personnel.

Sec. 254. The sums appropriated in section 236 for the state competitive scholarship, tuition incentive, and tuition grant programs must be paid out of the state treasury and must be distributed to the respective institutions under a quarterly payment system as follows:

(a) For the state competitive scholarship and tuition grant programs, 50% must be paid at the beginning of the state's first fiscal quarter, 30% during the state's second fiscal quarter, 10% during the state's third fiscal quarter, and 10% during the state's fourth fiscal quarter.

(b) For the tuition incentive program and Michigan achievement scholarship, 65% must be paid at the beginning of the state's first fiscal quarter, and 35% during the state's second fiscal quarter.

Sec. 256. (1) The funds appropriated in section 236 for the tuition incentive program must be distributed as provided in this section and pursuant to the administrative procedures for the tuition incentive program of the department of treasury.

(2) As used in this section:

(a) "Phase I" means the first part of the tuition incentive program defined as the academic period of 80 semester or 120 term credits, or less, leading to an associate degree or certificate. (i) Complete at least 56 transferable semester or 84 transferable term credits.

(ii) Obtain an associate degree or certificate at a participating institution.

(c) To be eligible for phase I or phase II, an individual must be financially eligible as determined by the department. An individual is financially eligible for the tuition incentive program if the individual was eligible for Medicaid from this state for 24 months within any 36 months prior to completion of high school or achievement of a high school equivalency certificate. The department shall accept certification of Medicaid eligibility only from the department of health and human services for the purposes of verifying if a person is Medicaid eligible for 24 months within any 36 months prior to completion of high school or achievement of a high school equivalency certificate. Certification of eligibility may begin in the sixth grade.

(4) For phase I, the department shall provide payment on behalf of a person eligible under subsection (3). The department shall only accept standard per-credit hour tuition billings and shall reject billings that are excessive or outside the guidelines for the type of educational institution.

(5) For phase I, all of the following apply:

(a) Payments for associate degree or certificate programs must not be made for more than 80 semester or 120 term credits for any individual student at any participating institution. The department shall not do either of the following:

(i) Adopt or apply any total semester-credit or term-credit maximum that is less than the 80 semester-credit or 120 term-credit maximum provided in this subdivision.

(b) For persons enrolled at a Michigan community college, the department shall pay the current in-district tuition and mandatory fees. For persons residing in an area that is not included in any community college district, the out-of-district tuition rate may be authorized.

(c) For persons enrolled at a Michigan public university, the department shall pay lower division resident tuition and mandatory fees for the current year.

(d) For persons enrolled at a Michigan independent, nonprofit degree-granting college or university, a Michigan federal tribally controlled community college, or Focus: HOPE, the department shall pay mandatory fees for the current year and a per-credit payment that does not exceed the average community college in-district per-credit tuition rate as reported by the last business day of August for the immediately preceding academic year.

(6) A person participating in phase II may be eligible for additional funds not to exceed \$500.00 per semester or \$400.00 per term up to a maximum of \$2,000.00 subject to the following conditions:

Sec. 296. (1) If the maximum amount appropriated under this act from the state school aid fund for a fiscal year exceeds the amount necessary to fully fund allocations under this act from the state school aid fund, that excess amount must not be expended in that state fiscal year and does not lapse to the general fund, but instead is deposited into the school aid stabilization fund created in section 11a.

(2) If the total maximum amount appropriated under all articles of this act from the state school aid fund and the school aid stabilization fund exceeds the amount available for expenditure from the state school aid fund for that fiscal year, payments under sections 11j, 11m, 22a, 26a, 26b, 26c, 31d, 31f, 51a(2), 51a(11), 51c, 53a, 56, 147c, 147e(2)(a), and 152a must be made in full. In addition, for districts beginning operations after 1994-95 that qualify for payments under section 22b, payments under section 22b must be made so that the qualifying districts receive the lesser of an amount equal to the 1994-95 foundation allowance of the district in which the district beginning operations after 1994-95 is located or \$5,500.00. The amount of the payment to be made under section 22b for these qualifying districts must be as calculated under section 22a, with the balance of the payment under section 22b being subject to the proration otherwise provided under this subsection and subsection (3). If proration is necessary, state payments under each of the other sections of article I from all state funding sources, and state appropriations to community colleges and public universities under articles II and III from the state school aid fund, must be prorated in the manner prescribed in subsection (3) as necessary to reflect the amount available for expenditure from the state school aid fund for the affected fiscal year. However, if the department of treasury determines that proration will be required under this subsection, or if the department of treasury determines that further proration is required under this subsection after an initial proration has already been made for a fiscal year, the department of treasury shall notify the state budget director, and the state budget director shall notify the legislature at least 30 calendar days or 6 legislative session days, whichever is more, before the department reduces any payments under this act because of the proration. During the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, the department shall not reduce any payments under this act because of proration under this subsection. The legislature may prevent proration from occurring by, within the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, enacting legislation appropriating additional funds from the general fund, countercyclical budget and economic stabilization fund, state school aid fund balance, or another source to fund the amount of the projected shortfall.

(3) If proration is necessary under subsection (2), the department shall calculate the proration in district and intermediate district payments under article I that is required under subsection (2), and the department of treasury shall calculate the proration in community college and public university payments under articles II and III that is required under subsection (2), as follows:

(a) The department and the department of treasury shall calculate the percentage of total state school aid fund money that is appropriated and allocated under this act for the affected fiscal year for each of the following:

(i) Districts.

(ii) Intermediate districts.

(iii) Entities receiving funding from the state school aid fund under article I other than districts or intermediate districts.

(iv) Community colleges and public universities that receive funding from the state school aid fund.

(b) Subject to subsection (4), the department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(i) for districts by reducing payments to districts. This reduction must be made by calculating an equal dollar amount per pupil as necessary to recover this percentage of the proration amount and reducing each district's total state school aid from state sources, other than payments under sections 11j, 11m, 22a, 26a, 26b, 26c, 31d, 31f, 51a(2), 51a(11), 51c, 53a, 56, 147c, 147e(2)(a), and 152a, by that amount.

(c) Subject to subsection (4), the department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(ii) for intermediate districts by reducing payments to intermediate districts. This reduction must be made by reducing the payments to each intermediate district, other than payments under sections 26a, 26b, 26c, 51a(2), 51a(11), 53a, 56, 147c, 147e(2)(a), and 152a, on an equal percentage basis.

(d) Subject to subsection (4), the department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(iii) for entities receiving funding from the state school aid fund under article I other than districts and intermediate districts by reducing payments to these entities. This reduction must be made by reducing the payments to each of these entities, other than payments under sections 11j, 11m, 26a, 26b, and 26c on an equal percentage basis.

(e) The department of treasury shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(iv) for community colleges and public universities that receive funding from the state school aid fund by reducing that portion of the payments under articles II and III to these community colleges and public universities, other than payments under sections 201(5) and 236(4), that is from the state school aid fund on an equal percentage basis.

(4) If a deposit from the school aid countercyclical budget and foundation stabilization fund is made into the state school aid fund for the purposes of eliminating or reducing proration, as provided in section 11z, the amount deposited into the state school aid fund must be used to reduce or eliminate the amount recovered from districts under subsection (3)(b), intermediate districts under subsection (3)(c), and entities receiving funding from the state school aid fund under article I other than districts and intermediate districts under subsection (3)(d). For the purposes of calculations under this subsection, the department shall do all of the following:

(a) Calculate the percentage of total state school aid fund money that is appropriated and allocated under this act for the affected fiscal year for each of the following:

(i) Districts.

(ii) Intermediate districts.

(iii) Entities receiving funding from the state school aid fund under article I other than districts or intermediate districts.

(b) Multiply the resulting percentages calculated under subdivision (a) by the amount deposited from the school aid countercyclical budget and foundation stabilization fund into the state school aid fund to determine how much proration has been reduced or eliminated for districts, intermediate districts, and entities receiving funding from the state school aid fund under article I other than districts or intermediate districts.
