COMPANY RULES AND REGULATIONS (FOR ALL CUSTOMERS)
(Continued from Sheet No. C-10.00)

C2.17. Rate Application (Contd)

- D. After the customer has selected the rate under which he or she elects to take service, the customer will not be permitted to change from that rate to another rate until at least twelve months have elapsed. Neither will the customer be permitted to evade this rule by temporarily terminating service. However, the Company may, at its option, waive the provisions of this paragraph where it appears that an earlier change is requested for permanent rather than for temporary or seasonal advantage. The intent of this rule is to prohibit frequent shifts from rate to rate.
- E. No refund will be made of the difference in charges under different rates applicable to the same class of service.
- F. The Retail Access Service RAS-1, provides the necessary information on a customer's rights and limitations associated with retail access, if they choose to exercise that option.

C3. CONSTRUCTION POLICY

C3.1. General

- A. This section of the rules and regulations sets forth the terms and conditions under which the Company will construct and extend its facilities to serve new loads and replace, relocate or otherwise modify its facilities.
- B. Except where specifically stated otherwise, service extension policy is based on overhead construction and any financial participation by the customers for underground facilities shall be in addition to other charges provided for in these rules.
- C. Contributions in aid of construction and other deposits made with the Company under the provisions of this section shall be considered nonrefundable except where provisions for refunds are specifically stated.
- D. No refunds will be made in excess of the refundable amount deposited, and deposits shall not bear interest. Refunds, where applicable, will be made in accordance with the terms stated hereinafter.
- E. Each distribution line extension shall be a separate, distinct unit and any further line extension therefrom shall have no effect upon the agreements under which such extension is constructed.
- F. See also Section C2.8, Non-standard Service and Section C2.12, Service to House Trailers, Vans, and Buses Used as Dwelling Units.

C3.2. Residential Overhead Extension Policy

- A. Charges- For each permanent, year around dwelling, the Company will provide a single-phase line extension excluding service drop at no additional charge for a distance of 600 feet, of which no more than 200 feet is a lateral extension on the customer's private property. For each permanent, seasonal type dwelling, the Company will provide at no extra charge a 200 foot extension from a main line distribution feeder. Distribution line extension in excess of the above footages will require an advance deposit of \$1.75 per foot for all such excess footage. There will also be a non-refundable contribution equal to the cost of right-of-way and clearing on such excess footage. Three-phase extensions will be on the same basis as Commercial and Industrial.

COMPANY RULES AND REGULATIONS (FOR ALL CUSTOMERS)
(Continued from Sheet No. C-26.00)

C4.4. Long-Term Capacity or Fuel Shortage (Contd)

- (2) Initiate voluntary energy curtailment during hours of maximum system demand of all customers by requesting, through mass communication media, voluntary curtailment by all customers of a minimum of ten percent of their electric use. This use will include lighting, air conditioning, heating, manufacturing processes, cooking, refrigeration, clothes washing and drying, and any other loads that can be curtailed or deferred to off peak hours.
 - (3) Implement procedures for interruption of selected distribution circuits during the period of maximum system demand on a rotational basis in accordance with specified load reduction amounts minimizing interruption to facilities which are essential to the public health and safety. The length of an interruption of any selected circuit should not exceed two hours and the total interruption should not exceed four hours in any 24-hour period without prior notification to the commission.
- B. If the above actions are made necessary because of a long-term fuel shortage, they will be continued in the order taken to maintain as nearly as possible a 30-day fuel supply.

C4.5. Emergency Procedures of Wholesale Suppliers

Where appropriate, the emergency procedures will be the same as those placed in effect by the Company's wholesale for resale energy supplier.

C5. SUPPLEMENTAL RESIDENTIAL STANDARDS AND BILLING PRACTICES

A. Equal monthly billing or budget billing

The following supplements the provisions of R 460.118.

- (1) Residential customers, commercial customers for which the primary purpose of the service is to provide for residential living, and customers on the small commercial Cg1 rate, regardless of whether their primary purpose is for residential living, may upon request and subject to the approval of the Company, have bills rendered under a budget billing basis.
- (2) At the time a customer applies for such billing and also at the completion of each plan year, the Company shall review the customer's usage during the past twelve months and calculate an annual bill based upon the current rates. The total will be divided by twelve to determine the monthly current budget payment. If a full year of experience has not occurred, the Company shall make an estimate of the monthly budget amount. The budget billing service year begins at the point the customer first signs up for budget billing. The budget billing amount is reviewed after six months. Customers may select a periodic plan option or a continuous plan option for budget billing.
- (3) Monthly billings shall be in equal amount for the twelve months of the plan unless changes in usage by the customer require adjustment to the monthly amount. The customer will choose either the periodic plan option where an adjustment to the monthly budget amount will be made automatically or the continuous plan option where the customer will be notified via a bill message by the Company when such an adjustment is warranted.

COMPANY RULES AND REGULATIONS (FOR ALL CUSTOMERS)
(Continued from Sheet No. C-27.00)

A. Equal monthly billing or budget billing (Contd)

- (4) Under the periodic plan option, after the sixth month review, the budget amount is adjusted accordingly (if warranted) for months seven to twelve of the budget billing service year. In the twelfth month of the budget billing service year, the customer will be billed the difference between their actual costs during the budget billing service year and their budget billing installments. The customer has the option of paying a debit balance in full or on a deferred basis, or of applying a credit balance against subsequent billings or requesting a refund of the credit balance. The budget amount for the new budget year will then be recalculated. The customer may request to pay their current budget amount and have the under billed or over billed balance rolled into the recalculation of the next budget billing period.
- (5) Under the continuous plan option, after the sixth month review, the customer is alerted of a recommended change (if warranted) to their budget amount. The budget amount for months seven to twelve of the budget billing service year is made only upon the customer's request. In the twelfth or settlement month, the customer will be billed their current budget amount and the difference between their actual costs during the budget billing service year and their budget billing installments will be rolled into and made a part of the next budget billing service year's installment.
- (6) If the customer contacts the Company, they may request not to have the under billed or over billed balance rolled into the recalculation of the next budget billing period, but to pay the debit balance partially or in full, or applying a credit balance against subsequent billings, or requesting a refund of the credit balance, and to subsequently have the next years budget amount recalculated with the inclusion of any outstanding debit or credit balance.
- (7) The monthly bill will show the amount of the current actual amount for service used, the debit or credit balance of the account for service used and payments made since the last bill, and the monthly budget payment due.
- (8) The monthly bill shall be payable in the net budget billing amount on or before the specified due date. A late payment charge will be applied to any monthly installment amount outstanding after the specified due date on the bill consistent with the Billing Practices Rules.
- (9) A customer may be removed from the budget billing plan upon request. In the next month, the under-billed or over-billed balance will be billed.

B. Payment of bills

The following supplements the provisions of R 460.120.

In the case of those residential customers voluntarily receiving summary billing service, the Company shall permit each customer 15 calendar days from the date of rendition of each bill for payment in full.

COMPANY RULES AND REGULATIONS (FOR ALL CUSTOMERS)
(Continued from Sheet No. C-29.00)

C7.1 Secondary Service Voltages (Contd)

A. 120 Volts, Single-phase, Two-wire Service

This service is available for loads not larger than 3,000 watts, and is limited to installations with not more than two branch circuits.

B. 120/240 Volts, Single-phase, Three-wire Service

This service is generally available for a maximum demand not greater than 100 kilowatts. A customer with a demand greater than 100 kilowatts may be served at this voltage at the option of the Company.

C. 208Y/120 Volts, Single-phase, Three-wire Service

This service is available for small loads where three-phase, four-wire 208Y/120 volt distribution facilities exist. The service capacity is generally limited to 100 amperes without specific approval.

D. 208Y/120 Volts, Three-phase, Four-wire, Grounded-wye, Combination Single-phase and Three-phase Service

- (1) This service is generally available where three-phase primary distribution facilities exist and where a duplication of facilities would not result.
- (2) This service is generally available where the customer's connected load includes motors of more than five horsepower per motor or the total connected load of all three-phase equipment is 25 kilowatts or more. A customer with motor loads less than five horsepower per motor or a connected three-phase load of less than 25 kilowatts may obtain 208Y/120 volt, three-phase, four-wire service as special service as noted in Section C7.3.
- (3) This service is the only three-phase service available in areas where the system is a 208Y/120 volt, three-phase, four-wire, secondary system.
- (4) The Company may regard this service as special service where it is not standard, or at any location where, in its opinion, such an extension would result in duplication of distribution facilities.

E. 480Y/277 Volts, Three-phase, Four-wire, Grounded-wye, Combination Single-phase and Three-phase Service

 - (2) If they arise from equipment failure or temporary separation of parts of the system from the main system.
