E4.5 Notice of Operational Flow Order (OFO)

When there is adequate time during constrained operational conditions or an emergency situation, and if applicable, Company will implement an Operational Flow Order, or OFO. Unless specified otherwise in the Contract between the customer and Company, an OFO invokes the requirement that customers shall deliver at least the OFODQ Min or no more than the OFODQ Max as specified by the Company's OFO notice to customer.

Annual Contract Quantity or ACQ

ACQ means an annual quantity of natural gas specified in the Contract between Customer and Company, that can be delivered to Company and is based on Customer’s average 12 Month usage (determined from the last 36 Months of data), plus adjustments, approved at Company’s sole discretion, for known or expected changes or special operating conditions (including Standby Service per Section C4.5). Company will utilize their best efforts to ensure that Customer’s ACQ is reflective of Customer’s annual consumption and allow Customer all reasonable opportunities to minimize the risk of Unauthorized Gas Usage Charges.

Maximum Daily Quantity or MDQ

MDQ means a daily quantity of natural gas specified in the Contract between Customer and Company, that can be delivered to Company and is based on Customer’s highest historical Month usage (determined from the last 36 Months of data) divided by the number of days during that Month and multiplied by 110%, plus adjustments, approved at Company’s sole discretion, for known or expected changes or special operating conditions (including Standby Service per Section C4.5). Provided, however, during September, October, and November, Customer’s MDQ will be based on the daily average of Customer’s September, October, and November, usage from the previous three years, plus 1.43% of Customer’s ACQ divided by 30 days. The MDQ may be calculated and changed independently from the ACQ. Company and Customer may agree to use a different MDQ as part of the negotiations for an optional discount from the cost based rates set forth in the tariff. Company will utilize their best efforts to ensure that Customer’s MDQ is reflective of Customer’s maximum daily consumption and allow Customer all reasonable opportunities to minimize the risk of Unauthorized Gas Usage Charges.

E14. TRANSPORTATION SERVICE RATES ST, LT, XLT, XXL (Contd.)

Selection Of Service Category and Rates

When Customer is selecting its initial service category, Company must advise it that the economic break-even point between ST and LT is approximately 100,000 Mcf per year, the economic break-even point between LT and XLT is approximately 700,000 Mcf per year the economic break-even point between XLT and XXL is approximately **3,500,000** Mcf per year (based on the cost based rate). After the initial selection is made, then it is Customer's responsibility to determine when it is appropriate to switch service categories.

Customer will be charged the Cost Based Rate under its chosen Service Category, unless Customer chooses to negotiate a different rate under the Optional Rate provision. Company must advise Customer of its right to negotiate rates under the Optional Rate provision, however Company is under no obligation to offer a rate different than the Cost Based Rate. Company, at its discretion, may negotiate different transportation rates for individual Customers between the maximum and minimum rates under the appropriate Optional Rate provision. The negotiated rate may be applied to Customer's entire load or a portion of its load; however, under no circumstances can Company charge an average rate per Mcf greater than the maximum rate or less than the minimum rate. The transportation rate is charged for each Ccf of gas delivered to Customer in a given month.

Transportation Service

In accordance with Section E2.2 and Company's Nominating procedures, Customer shall advise Company of the volume of gas that Customer will cause to be delivered to Company for transportation during that Month and the Receipt Point(s) where the gas will be delivered to Company.

If in any Month, the volume of gas received by Company at the Receipt Point(s), less the allowance for company-use and lost-and-unaccounted-for gas, is more than the volume of gas taken by Customer at the Delivery Point(s), then the difference shall be retained by Company and delivered to Customer in those succeeding Months when the volume of gas received by Company is less than Customer's requirements. Should the aggregate volume of gas, less the allowance for company-use and lost-and-unaccounted-for gas, retained by Company at any Month-end exceed 10% of the Annual Contract Quantity for ST, LT, and XLT, or exceeds 5% of the Annual Contract Quantity for XXL, then Company shall have the rights: (1) to refuse to receive any additional volume of gas for that Customer until Company has satisfied itself that the volume of gas retained for Customer is less than 10% of the Annual Contract Quantity for ST, LT, and XLT, or is less than 5% of the Annual Contract Quantity for XXL, and (2) to charge Customer for the storage of any Month-end balance that exceeds 10% of the Annual Contract Quantity for ST, LT, and XLT, or exceeds 5% of the Annual Contract Quantity for XXL.

If Customer does not withdraw its gas retained by Company within 60 days of the termination of the Contract, then Company shall have the right to purchase the gas from Customer at a rate of \$1.00 per MMBtu.

E14. TRANSPORTATION SERVICE RATES ST, LT, XLT, XXL (Contd.)

Gas in Kind

For rates ST, LT and XLT, Company shall retain **1.41%** of all gas received at the Receipt Point(s) to compensate it for the allowance for company-use and lost-and-unaccounted-for gas on Company's system. For rate XXL, Company shall retain **1.00%** of all gas received at the Receipt Point(s) to compensate it for the allowance for company-use and lost-and-unaccounted-for gas on Company's system. This volume shall not be included in the quantity available for delivery to Customer.

Surcharges and Special Taxes

This Rate Schedule is subject to Surcharges shown on Sheet No. D-2.00.

In municipalities which levy special taxes, license fees, or street rentals against Company, and which levy has been successfully maintained, the standard of rates shall be increased within the limits of such municipalities so as to offset such special charges and thereby prevent Customers in other localities from being compelled to share any portion of such local increase.

Bills shall be increased to offset any new or increased specific tax or excise imposed by any governmental authority upon Company's production, transmission or sale of gas.

Late Payment Charge and Due Date

A late payment charge of 2% shall be applied to the unpaid balance outstanding if the bill is not paid in full on or before the date on which the bill is due. The due date of Customer's bill shall be 21 days from the date the bill was sent.

Unauthorized Gas Usage

"Unauthorized Gas Usage" occurs when Customer uses Company's system supply while taking service under a Transportation *Service* Rate Schedule **under one of the following conditions:**

- A. If at the end of any month the quantity of gas remaining in Customer's Load Balancing Storage is below zero based on the Company's Monthly meter reads used for billing, then the Company's system supply delivered to balance customers storage shall be treated as Unauthorized Gas Usage and charged the Unauthorized Gas Usage Charge.**
- B. If, as set forth in E14 - Load Balancing Storage and Charges, sub-section B, during the months of December through March, the volume of gas received by Company, less Gas-in-Kind, plus the lesser of 3% of Customer's ACQ or Customer's actual storage balance, is less than the volume of gas taken by Customer at the Delivery Point(s), then the difference shall be treated as Unauthorized Gas Usage and charged the Unauthorized Gas Usage Charge.**

Unauthorized Gas Usage (Contd.)

- A. If on any Gas Day the quantity of gas in customer's Load Balancing Storage is less than zero, then the quantity or imbalance of gas that is less than zero may be treated as unauthorized gas usage and may be charged an Unauthorized Gas Usage Charge.
- B. If customer is deemed non-compliant on any Gas Day during an OFO per Section E4.5.B, the difference between the required OFODQ Min specified for the customer and the actual quantities nominated and delivered by the customer to the Company will be treated as unauthorized gas usage and shall be charged an Unauthorized Gas Usage Charge (unless specified otherwise in the Contract between the customer and Company).

A Customer subject to Unauthorized Gas Usage Charges as defined under the transportation service rates shall be subject to shut off of service as provided in Sections C1.5 and E4.3 of the Rate Book.

Unauthorized Gas Usage Charge

If Customer uses Company's system supply, then Customer shall pay Unauthorized Gas Use Charges. The charge for such Unauthorized Gas Usage shall be \$1.00 per 100 cubic feet plus the highest price reported in Gas Daily in the midpoint column of the Daily Price Survey for the following locations for the month in which the Unauthorized Gas Use occurred: Dawn, Ontario; Chicago city-gates; Consumers city-gate; or MichCon city-gate. Unauthorized Gas Use Charges are in addition to those normal charges made under the applicable Rate Schedules, for all gas taken by Customer in excess of the cumulative volume delivered to Company (less Gas-in-Kind) on behalf of Customer. In the event Gas Daily discontinues its reporting such prices, the Company will select a comparable reporting service.

Any Unauthorized Gas Usage Charges and quantities relating to 1) non-compliance with a Notice of OFO or, 2) if Customer's Load Balancing Storage quantity on any Gas Day is less than zero during a Month, shall be taken into account when calculating total deliveries, Customer's unauthorized use of Company's system supply, and Unauthorized Gas Charges for the month (double counting of penalties shall not be allowed during a Month).

At the Company's sole discretion, Unauthorized Gas Use Charges may be waived if Customer experienced extenuating circumstance(s) or unusual operating condition(s) resulting in Unauthorized Gas Use Charge(s) and meets all the following criteria:

1. *Customer takes corrective action promptly when Unauthorized Gas Usage is identified;*
2. *Company determines the Unauthorized Gas Use did not cause undue strain on the Company's system;*
3. *There is no evidence that Customer, its Supplier, or a third party may have financially benefitted from the Unauthorized gas use; and*
4. *Customer has not had Unauthorized charges waived in the previous 12 billing months*

In the event Customer qualifies for such a waiver and Unauthorized Gas Use Charges are waived; the Customer is responsible for the cost of Unauthorized Gas Use which shall be equal to:

1. *the higher of*
 - a. *the GCR factor in effect for the billing month the Unauthorized Gas Use occurred or*
 - b. *the Company's weighted average cost of gas purchased for the calendar month the unauthorized Gas Usage occurred*
2. *plus \$0.10 per 100 cubic feet.*

“Equivalent Quantities” means the quantity of gas received from Customer, or for the account of Customer, at the Receipt Point(s) less Gas in Kind withheld by Company for loss and use.

“Off System” means gas that is transported from a Receipt Point into Company’s system to a Delivery Point that is interconnected to another local gas distribution company or a pipeline not owned by Company.

Defined terms used in this Rate Schedule and not defined above have the same meaning as set forth in Section E15.1 or in Contract.

Type of Service Offered

Under this Rate Schedule, Company will transport natural gas volumes on an interruptible basis, for Customer on Company’s Dry Gas Transmission System. Company, in its sole judgment, shall have the right to determine, on a day-to-day basis, if capacity is available for interruptible transportation under this Rate Schedule.

Transportation Service

Company shall receive gas from Customer or for the account of Customer at the Receipt Point(s) and redeliver Equivalent Quantities, to Customer or for the account of Customer at the Delivery Point(s).

In accordance with Section E16.2 and Company’s Nominating procedures, Customer shall advise Company of the volume of gas that Customer will cause to be delivered to Company for transportation during that Month, and the Receipt Point(s) and Delivery Point(s).

The Receipt Point(s) and Delivery Point(s) shall be mutually agreed upon by Company and Customer and set forth in the Contract.

Any rates, terms and conditions not covered by Tariff shall be as contained in Company’s standard Contract for Off-System Service.

Imbalance

Company and Customer shall work to keep the gas flow in balance at all times. If at any time, the volumes of gas received by Company at the Receipt Point(s) are greater or lesser than the gas delivered at the Delivery Point(s), Company may refuse, increase or decrease deliveries to correct the imbalances. If, upon termination of a Contract, Customer has not delivered to Company quantities of gas that are equal to those Customer has taken at the Delivery Point(s), Customer must deliver the deficient volumes to Company, within 60 days of the termination of Contract, at a mutually agreeable rate of delivery. If Customer fails to correct the imbalance within the 60 day period, then Customer shall pay an Unauthorized Gas Usage charge to Company. The charge for such Unauthorized Gas Usage shall be \$10.00 per MMBtu plus the highest price reported in Gas Daily in the midpoint column of the Daily Price Survey for the following locations for the month in which the Unauthorized Gas Use occurred: Dawn, Ontario; Chicago city-gates; Consumers city-gate; or MichCon city-gate for all gas taken by Customer in excess of the cumulative volume delivered to Company (less Gas-in-Kind) on behalf of Customer. In the event Gas Daily discontinues its reporting such prices, the Company will select a comparable reporting service.

Gas in Kind

Company shall retain 1.00% of all gas received at the Receipt Point(s) to compensate it for the allowance for company-use and lost-and-unaccounted-for gas on Company's system. This volume shall not be included in the quantity available for delivery to Customer. In no event will Customer pay Gas-in-Kind more than once on the same volumes.

Rates

- A. For contracts less than 365 days, a rate as mutually agreed to by Customer and Company and set forth in Contract, consisting of a demand portion and/or a commodity portion.
- B. For contracts equal to or exceeding 365 days, a rate not to exceed **\$0.4711** per MMBtu, consisting of a demand portion and/or a commodity portion shall be mutually agreed to by Customer and Company and set forth in Contract.

Late Payment Charge and Due Date

A late payment charge of 2% shall be applied to the unpaid balance outstanding if the bill is not paid in full on or before the date on which the bill is due. The due date of Customer's bill shall be 21 days from the date the bill was sent.

Such a charge shall not apply to any gas tendered as Gas-in-Kind. Characteristics of Service

Any rates, terms and conditions not covered by the Tariff shall be as contained in the Contract.

On any Gas Day, gas that is nominated to Company for injection or withdrawal is subject to interruption at the sole discretion of Company.

To the extent Interruptible Storage Service capacity, which is being utilized by an Interruptible Customer hereunder, is needed by Company in order to satisfy Company's obligations to Firm Customers, Company shall require Customer to withdraw all, or any portion of, the Interruptible Storage Service Gas quantities held in Customer's storage account by Company as specified by Company. Unless Company otherwise agrees, Customer shall be required to make ratable withdrawals.

If Customer fails to withdraw such Gas from Storage Account, Company may take, free and clear of any adverse claims, title to such Gas in Customer's Storage Account as Customer was instructed to withdraw.

E29. CASHOUT MECHANISM (Contd.)

E29.3 Determination and Resolution of Imbalances

- A. It is the Nominating Agent's responsibility to provide timely and accurate nominations of quantities proposed to be received and delivered by Company, and to maintain each day, as nearly as practicable, equality between Actual Receipts and Actual Deliveries under Section E29. Company will reject nominations exceeding the Maximum Nomination Quantity. Actual Receipts exceeding the Maximum Nomination Quantity will be considered Trespass Gas, as such term is defined on DTE Gas's electronic nomination system.
- B. If Actual Deliveries exceed Actual Receipts at a Dry Receipt Point by greater than ten percent (10%) on a cumulative daily basis throughout the Month, Company will reject and or modify all nominations received at the Dry Receipt Point. Company will allow nominations to continue when the difference between Actual Deliveries and Actual Receipts at the Dry Receipt Point is equal to or less than ten percent (10%) on a cumulative daily basis for the Month.
- C. At the end of each Production Month, Company will determine whether Nominating Agent caused an Imbalance to occur. If an Imbalance exists, Nominating Agent and Company shall Cashout the Imbalance volume pursuant to Section E29.4.

E29.4 Cashout Provision

- A. Company shall compare Actual Receipts to Actual Deliveries tendered at each Dry Receipt Point utilized by Nominating Agent and calculate an Imbalance no later than the tenth (10th) Business Day following the end of each Production Month. The volumetric difference, after any imbalance trading has occurred pursuant to Section E29.5, will result in Excess Quantities or Deficient Quantities. If the Nominating Agent nominated gas on multiple Dry Receipt Points, Company shall aggregate Excess Quantities and Deficient Quantities for all Alpena System Dry Points separately from Non-Alpena System Dry Points. The separately aggregated Excess Quantities and/or Deficient Quantities shall be divided by the Actual Deliveries separately aggregated for the Alpena System Dry Points and the Non-Alpena System Dry Points respectively, using final Monthly confirmed volumes as posted on DTE Gas's electronic nomination system. This calculation will be used to determine Nominating Agent's Monthly Imbalance percentage on the Alpena System Dry Points and separately for the Non-Alpena System Dry Points. Company shall be authorized to purchase and sell gas at Dry Receipt Points to manage imbalance quantities.

E29. CASHOUT MECHANISM (Contd.)

E29.4 Cashout Provision (Contd.)

- B. Each Month, Company shall determine the Monthly Index Price. The Monthly Index Price shall be based on the Daily Price Survey rates for MichCon City Gate as reported in Gas Daily or, in the event that Gas Daily discontinues its reporting of such prices, any comparable reporting service. The Monthly Index Price shall be equal to the sum of the daily Mich.-MichCon Midpoint City Gate Price for the applicable Production Month divided by the number of quoted price days in the same Production Month. Company will post the Monthly Index Price on its electronic nomination system by the 3rd Business Day of the Month.
- C. In cases where Nominating Agent's Imbalance results in Excess Quantities, Company shall pay Nominating Agent the following based on the Monthly Imbalance percentage:

<u>Imbalance Percentage (Tier)</u>	<u>Cashout Price for the Excess Quantities</u>
Greater of first 100 MMBtu	
Or 0% up to 2%	100% of Monthly Index Price
> 2% Up to 5%	80% of Monthly Index Price
> 5%	60% of Monthly Index Price

For purposes of determining the tier at which an Imbalance will be cashed out, the price will apply only to volumes within a tier. For example, if there is a 7% imbalance, Excess Quantities that make up the first 2% of the Imbalance will be priced at 100% of the Monthly Index Price. Excess Quantities making up the next 3% of the Imbalance will be priced at 80% of the Monthly Index Price. Excess Quantities making up the remaining 2% of the Imbalance will be priced at 60% of the Monthly Index Price.

D. In cases where Nominating Agent's Imbalance results in Deficient Quantities, Nominating Agent shall pay Company the following based on the Monthly Imbalance percentage:

<u>Imbalance Percentage (Tier)</u>	<u>Cashout Price for Deficient Quantities</u>
Greater of first 100 MMBtu	
Or 0% up to 2%	100% of Monthly Index Price
> 2% Up to 5%	120% of Monthly Index Price
> 5%	140% of Monthly Index Price

For purposes of determining the tier at which an Imbalance will be cashed out, the price will apply only to volumes within a tier. For example, if there is a 7% imbalance, Deficient Quantities that make up the first 2% of the Imbalance will be priced at 100% of the Monthly Index Price. Deficient Quantities making up the next 3% of the Imbalance will be priced at 120% of the Monthly Index Price. Deficient Quantities making up the remaining 2% of the Imbalance will be priced at 140% of the Monthly Index Price.

E. Cashout of volumes relating to prior period adjustments shall be cashed out at 100% of the Monthly Index Price applicable to the Production Month in which the prior period adjustment was created.

E29.5 Imbalance Trading

- A. Company will allow a Nominating Agent to net Imbalances with other Nominating Agents within the Alpena System Dry Points and within the Non-Alpena System Dry Points, but not between Alpena System Dry Points and the Non-Alpena System Dry Points. Gas from Alpena System Dry Points must be transported to Company's Woolfolk delivery point, or other points as identified on DTE Gas's electronic nomination system before imbalance trading can occur.
- B. The information required for imbalance trading must include the identification of both Nominating Agents involved in the trade, production period, and the Monthly volume to be traded. Imbalances must be traded with Imbalances in the opposite direction and must move the Nominating Agent's Imbalance closer to zero.
- C. Company will enable the imbalance trading process by:
 - (1) Receiving the request for imbalance trade;
 - (2) Receiving the imbalance trade confirmation;
 - (3) Sending the imbalance trade notification;
 - (4) Reflecting the trade on the Nominating Agent's next Monthly imbalance or cashout invoice.
- D. Imbalance trades can only be withdrawn by the initiating Nominating Agent and only prior to Company sending the imbalance trade notification.
- E. Company will post on its electronic nomination system a list of imbalance trading procedures in order to facilitate the Monthly trading of Imbalances.

E29.6 Billing and Payment

- A. On or about the 20th calendar day of each Month, Company shall render to Nominating Agent a statement of the Cashout amount for the preceding Production Month.
- B. In cases where a Deficient Quantity exists, Nominating Agent shall make payments to Company within 10 calendar days of the statement date. Payments shall be remitted to Company as directed on the invoice.
- C. In cases where an Excess Quantity exists, Company shall make payments to Nominating Agent within 10 calendar days of the statement date. Company shall remit payments to Nominating Agent in the manner directed by Nominating Agent.
- D. In the event that Nominating Agent fails to pay the amount of any statement rendered by Company within the allowed time, then Nominating Agent will be subject to immediate suspension of service, i.e., nominations will not be accepted, until such amount is paid. By authorizing Nominating Agent to nominate gas, Title Holder is deemed to be the guarantor for payment of any amounts due Company not paid by Nominating Agent. In addition to any other remedies Company may have, without notice or approval, (1) Company may offset any indebtedness it owes under this mechanism or otherwise to Nominating Agent and or Title Holder against any amounts Nominating Agent or Title Holder owes to Company under this mechanism and (2) Company may take title, at no cost and free and clear of any adverse claims, to Title Holder's gas on Company's system including but not limited to gas in Company's and DTE Michigan Gathering Company's transportation facilities, parked gas and gas in Company's storage facilities as compensation for service in the event Nominating Agent defaults on any of its cashout payment obligations to Company. Company will only take title to an amount of Title Holder's gas necessary to offset the undisputed dollar amount Nominating Agent owes to Company. The monetary value of the gas will be the Monthly Index Price for the Month in which the imbalance occurred.

F1.4 A Supplier shall provide the Company, no later than 3 business days prior to the end of the calendar month prior to the month in which the Supplier’s customer commences service, a cash deposit in the amount of \$10.00 per Mcf for 10/365ths of the Company-estimated total annual load for those customers selecting that Supplier. The cash deposit shall be adjusted if the Company-estimated total annual load for those customers changes. As an alternative to a cash deposit, the Supplier may provide an irrevocable letter of credit from a financial institution, a surety bond, or a parental guarantee satisfactory to the Company in not less than the amount of the cash deposit. Any such letter of credit, surety bond or parental guarantee shall be in a form acceptable to the Company. The amount of cash deposit, letter of credit, surety bond or parental guarantee shall be applied against any unpaid charges and/or fees, as well as any price reconciliation liabilities, or liabilities associated with Supplier default. F.1 GENERAL PROVISIONS (Contd.)

F1.12 The Company shall remit to the Supplier, approximately 21 days from the end of each calendar month, an amount for the cost of gas equal to the MMBtu quantities that the Supplier has delivered onto the Company's system, not in excess of the Supplier's delivery obligation, multiplied by the lesser of the *average actual* price per Mcf billed to the Supplier's customers that month, converted to MMBtu, or 110% of the cost of gas billed to sales customers pursuant to the Company's Rule C7. *The average actual price per Mcf billed to the Supplier's customers is the total amount billed to Supplier's customers for that billing month divided by the total quantity, in Mcf, billed to Supplier's customers for the same month.* The amount to be remitted shall be reduced for any applicable Supply Equalization Charges, Administrative Fees, Billing Fees, Failure Fees, and/or amounts owed pursuant to the annual price reconciliation per F1.13.

F1.13 Except as set forth below, within 60 working days after the end of the April billing cycle, or upon revocation of a Supplier's Alternative Supplier status, the Company will reconcile the cost per MMBtu remitted to the Supplier per F1.12, before reductions for Administrative Fees, Billing Fees, Failure Fees, and Supply Equalization Charges, converted to cost per Mcf using the monthly system-average Btu factor, with the price per Mcf billed to customers over the course of the Program Year on the Supplier's behalf. Any difference multiplied by the smaller of the Mcf delivered by the Supplier or the billed customer consumption for the Program Year being reconciled, will be reflected in an adjustment on the next monthly remittance to the Supplier.

In those instances where the volumes delivered by the Supplier exceed the billed customer consumption for the Program Year being reconciled, then gas delivered by the Supplier in excess of the billed customer consumption for the Program Year will be returned to the Supplier in kind.

F1.14 If the Commission or its Staff determines that a Supplier has not complied with the terms and conditions of the Program, the Commission or its Staff shall direct a utility or utilities to suspend the Supplier's Alternative status until the Commission or its Staff determines that necessary changes have been made to comply with the requirements. Failure to make the necessary changes or further non-compliance with the requirements of the terms and conditions of the Program may result in the Supplier's termination from the Program. If a Supplier is terminated, subject to Rule C2, Controlled Service, its customers shall become sales rate customers of the Company.

However, if a customer is in arrears with the Company, the customer is not eligible to participate in this customer choice program until arrearages have been paid in full to the Company. A customer will take service under this Rate commencing with the customer's first full billing month following enrollment. Except as set forth in the preceding sentence, a customer returning to the Company's sales service rates from Rate CC is subject to the Character of Service provisions of those sales rates, and except as otherwise provided, must remain on the sales rate for 12 months.

Minimum Term

A customer who has elected to take service under Rate CC may switch or cancel Suppliers at any time. A customer who has elected to take service under Rate CC may return to the Company sales rate at anytime, but must remain on the sales rate for 12 months.
