RULE 15. PURCHASED GAS ADJUSTMENT (Firm Gas Service) (Continued)

determine an average cost per Mcf, and (iii) by subtracting 67.998 cents from such average cost per Mcf.

In order to recover the cost of any propane purchased by the Company to make propane gas for peak shaving, an additional purchased gas adjustment will be made by the Company to the commodity charge set forth in the Company's monthly rates for general gas service. Such additional purchased gas adjustment will be computed by the Company as of each July 1, based upon the aggregate cost of propane used for the production of propane gas during the twelve (12) months period ended June 30. The amount of such adjustment shall be determined by dividing the actual purchased cost of propane used by the Company in producing propane gas by the sum of (a) the annual volume of interstate pipeline gas purchased by the Company during such twelve (12) months period plus (b) the annual volume of propane gas produced and used for peak shaving during such period. The amount so determined, rounded to the nearest 1/100 of a cent per Mcf, shall increase the commodity charge for each Mcf of gas supplied during the twelve (12) months period commencing on said July 1.

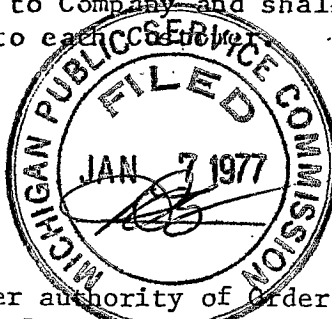

RULE 16. PURCHASED GAS ADJUSTMENT (Interruptible Gas Service)

If at any time after the effective date of this Purchased Gas Adjustment, the commodity charge under the Company's CD-1 Firm Rate Schedule covering natural gas purchased from Northern Natural Gas Company shall be increased above or decreased below the present commodity charge of 44.60 cents per Mcf the unit rate of charge to Customers served under the Company's Contracts for Interruptible Natural Gas Service and billed under the Company's rate schedules I-1 or I-2 on file with the Commission will be correspondingly increased or decreased by the difference between the new commodity charge and the present commodity charge of 44.60 cents.

The adjusted rate to the Customer shall become effective for bills rendered for service for the month following that in which first billing is made to Company and shall be preceded by ten (10) days written notice to each Customer.
