INDEPENDENT AUDITORS' REPORT

To the Board of Directors of Wisconsin Public Service Corporation:

We have audited the balance sheet — regulatory basis of Wisconsin Public Service Corporation (the "Company") as of December 31, 2011, and the related statements of income — regulatory basis, retained earnings — regulatory basis, and cash flows — regulatory basis for the year then ended, included on pages 110(M) through 123 of the accompanying Michigan Public Service Commission Form P-521. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note A, these financial statements were prepared in accordance with the accounting requirements of the Michigan Public Service Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, such regulatory-basis financial statements present fairly, in all material respects, the assets, liabilities, and proprietary capital of the Company as of December 31, 2011, and the results of its operations and its cash flows for the year then ended, in accordance with the accounting requirements of the Michigan Public Service Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

This report is intended solely for the information and use of the board of directors and management of the Company and for filing with the Michigan Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.

February 28, 2012

Deloite : Touche LLP

INSTRUCTIONS FOR THE FILING OF THE ANNUAL REPORT OF MAJOR AND NONMAJOR ELECTRIC UTILITIES

GENERAL INFORMATION

I. Purpose:

By authority conferred upon the Michigan Public Service Commission by 1909 PA 106, as amended, being MCL 460.556 et seq. and 1969 PA 306, as amended, being MCL 24.201 et seq., this form is a regulatory support requirement. It is designed to collect financial and operational information from public utilities, licensees and others subject to the jurisdiction of the Michigan Public Service Commission. This report is a nonconfidential public use form.

II. Who Must Submit:

Each major and nonmajor public utility, licensee, or other, as classified in the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees must submit this form.

NOTE: Major utilities means utilities that had, in each of the last three consecutive years, sales or transmission service that exceeded any one or more of the following:

- (a) one million megawatt-hours of total sales;
- (b) 100 megawatt-hours of sales for resale;
- (c) 500 megawatt-hours of gross interchange out; or
- (d) 500 megawatt-hours of wheeling for others (deliveries plus losses)

III. What and Where to Submit:

(a) Submit an original copy of this form to:

Michigan Public Service Commission (Regulated Energy Division) Financial Analysis and Customer Choice Section 6545 Mercantile Way P.O. Box 30221 Lansing, MI 48909

Retain one copy of this report for your files. <u>Also</u> submit the electronic version of <u>this</u> record to Bill Stosik at the address below or to bmstosi@michigan.gov

(b) Submit immediately upon publication, one (1) copy of the latest annual report to stockholders and any annual financial or statistical report regularly prepared and distributed to bondholders, security analyst, or industry association. Do not include monthly and quarterly reports. If reports to stockholders are not prepared, enter "NA" in column (c) on Page 4, the List of Schedules.) Mail these reports to:

Michigan Public Service Commission (Regulated Energy Division) Financial Analysis and Customer Choice Section 6545 Mercantile Way P.O. Box 30221 Lansing, MI 48909

- (c) For the CPA certification, submit with the original submission, or within 30 days after the filing date for this form, a letter or report:
 - (i) Attesting to the conformity, in all material aspects, of the below listed (schedules and) pages with the Commission's applicable Uniform Systems of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and
 - (ii) Signed by independent certified public accountants or an independent licensed public accountant, certified or licensed by a regulatory authority or a state or other political subdivision of the U.S. (See 18 CFR 41.10-41.12 for specific qualifications).

Schedules	Reference Page
Comparative Balance Sheet	110 - 113
Statement of Income	114 - 117
Statement of Retained Earnings	118 - 119
Statement of Cash Flows	120 - 121
Notes to Financial Statements	122 - 123

When accompanying this form, insert the letter or report immediately following the cover sheet. Use the following form for the letter or report unless unusual circumstances or conditions, explained in the letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

In connection with our regular examination of the financial statements of _____ for the year ended on which we have reported separately under the date of _____ we have also reviewed schedules _____ of Form P-521 for the year filed with the Michigan Public Service Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Our review for this purpose included such tests of accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Michigan Public Service Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

State in the letter or report which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

(d) Federal, state, and local governments and other authorized user may obtain additional blank copies to meet their requirements for a charge from:

Michigan Public Service Commission (Regulated Energy Division) Financial Analysis and Customer Choice Section 6545 Mercantile Way P.O. Box 30221 Lansing, MI 48909

IV. When to Submit

Submit this report form on or before April 30 of the year following the year covered by this report.

GENERAL INSTRUCTIONS

- I. Prepare this report in conformity with the Uniform System of Accounts (USOA). Interpret all accounting words and phrases in accordance with the USOA.
- II. Enter in whole number (dollars or MWH) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required). The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances

- at the end of the current reporting year, and use for statement of income accounts the current year's accounts.
- Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "NONE" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to respondent, either
 - (a) Enter the words "NOT APPLICABLE" on the particular page(s), OR
 - (b) Omit the page(s) and enter "NA", "NONE", or "NOT APPLICABLE" in column (c) on the List of Schedules, pages 2, 3, 4 and 5.
- V. Complete this report by means which result in a permanent record. Complete the original copy in permanent black ink or typewriter print, if practical. Additional copies must be clear and readable.
- VI. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" included in the header of each page is to be completed only for resubmissions (See VIII. below). The date of the resubmission must be reported in the header for all form pages, whether or not they are changed from the previous filing.
- VII. Indicate negative amounts (such as decreases) by enclosing the figures in parentheses ().
- VIII. When making revisions, resubmit only those pages that have been changed from the original submission. Submit the same number of copies as required for filing the form. Include with the resubmission the identification and Attestation page, page 1. Mail dated resubmissions to:

Michigan Public Service Commission (Regulated Energy Division) Financial Analysis and Customer Choice Section 6545 Mercantile Way P.O. Box 30221 Lansing, MI 48909

- IX. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement (8 1/2 x 11 inch size) to the page being supplemented. Provide the appropriate identification information, including the title(s) of the page and page number supplemented.
- **X.** Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- XI. Wherever (schedule) pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why the different figures were used.
- XII. Respondents may submit computer printed schedules (reduced to 8 1/2 x 11 inch size) instead of the preprinted schedules if they are in substantially the same format.
- XIII. A copy of the FERC Annual Report Form is acceptable to substitute for the same schedules of this report.

DEFINITIONS

- I. <u>Commission Authorization (Comm. Auth.)</u> The authorization of the Michigan Public Service Commission, or any other Commission. Name the Commission whose authorization was obtained and give the date of the authorization.
- **II.** Respondent The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

CONTROL OVER RESPONDENT & OTHER ASSOCIATED COMPANIES

- 1. If any corporation, business trust, or similar organization or combination of such organizations jointly held control over the respondent at end of year, state name of controlling corporation or organization, manner in which control was held, and extent of control. If control was in a holding company organization, show the chain of ownership or control to the main parent company or organization. If control was held by a trustee(s), state name of trustee(s), name of beneficiary or beneficiaries for whom trust was maintained, and purpose of the trust.
- 2. List any entities which respondent did not control either directly or indirectly and which did not control respondent but which were associated companies at any time during the year.
- 1. Wisconsin Public Service Corporation is a wholly owned subsidiary of Integrys Energy Group, Inc.
- 2. Associated companies include:

American Transmission Company, LLC

ATC Management, Inc. Camden Solar Center, LLC

Combined Locks Energy Center, LLC

Crimson Solar, LLC

Duke-American Transmission Company, LLC

ECO Coal Pelletization No. 12, LLC

	SECURITY HOLDERS AND VOTING POWERS								
1. (A) Give the names and addresses of the 10 security holders of the respondent who, at the date of the latest closing of the stock book or compilation of list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were then in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.), duration of trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not compiled within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.									
(B) Give also the name and of each officer and director not in the second			of securities of the respondent						
2. If any security other than sto whereby such security became the voting rights of such security contingency.	vested with voting rights and	give other important par	rticulars (details) concerning						
3. If any class or issue of secur in the determination of corporat			ors, trustees or managers, or						
4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders. This instruction is inapplicable to convertible securities or to any securities substantially all of which are outstanding in the hands of the general public where the options, warrants, or rights were issued on a prorata basis.									
1. Give date of the latest closin	g of the stock book prior to e	nd of year, and state the	e purpose of such closing:						
Stock books are not closed prior to the end of the year.									
 State the total number of votes cast at the latest general proxy meeting prior to the end of year for election of directors of the respondent and number of such votes cast by proxy: 									
Total:	23,896,962								
By Proxy:	0								

in lieu of an Annual Meeting.

Directors were elected May 10, 2011, via unanimous consent of the sole shareholder, Integrys Energy Group, Inc.,

FOOTNOTE DATA							

Schedule Page: 110 Line No.: 72 Column: c

Amount includes a Health Care regulatory asset in the amount of \$9,968,263. Under provisions of the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (the 2010 Act), beginning in 2013, a portion of our expenditures for retiree prescription drug coverage would not be tax deductible. On the date of enactment in first quarter of 2010, a re-measurement of the deferred tax asset was triggered. On April 8, 2010, a joint filing was sent to the PSCW to request deferral of anticipated and potential costs of having to comply with the 2010 Act, including the re-measurement of deferred taxes. On December 16, 2010, the PSCW authorized deferral in Order 5-GF-195 and this deferral is reflected in the FERC Form 1. In the GAAP financial statements, the deferral is not reflected in the regulatory asset balance.

A deferral for Health Care is also included in the prior year regulatory asset balance (12/31/2010) in the amount of \$7,388,261.

FOOTNOTE DATA								

Schedule Page: 114 Line No.: 7 Column: c

Account 403.1 is not used due to the fact that we have received specific approval from our primary regulator, the PSCW, to defer depreciation expense related to asset retirement costs to a regulatory liability account.

Schedule Page: 114 Line No.: 33 Column: c

The balances for revenues and expenses from nonutility operations increased due to an increase in coal resale revenues and related costs through our joint plant ownership with Wisconsin Power and Light Company.

Schedule Page: 114 Line No.: 49 Column: d

Includes allocated unrealized gains on fuel options of \$(10,592), unrealized mark-to-market losses of \$40,000, and energy efficiency funding costs of \$335,769.

Schedule Page: 114 Line No.: 68 Column: c

Commercial Paper interest expense of \$161,305 is included in this total. Capital lease interest expense was \$0 for 2011.

Schedule Page: 114 Line No.: 68 Column: d

Commercial Paper interest expense of \$23,510 is included in this total. Capital lease interest expense was \$0 for 2010.

RECONCILIATION OF DEFERRED INCOME TAX EXPENSE

- 1. Report on this page the charges to accounts 410, 411 and 420 reported in the contra accounts 190, 281, 282, 283 and 284.
- 2. The charges to the subaccounts of 410 and 411 found on pages 114-117 should agree with the subaccount totals reported on these pages.

In the event the deferred income tax expenses reported on pages 114-117 do not directly reconcile with the amounts found on these pages, then provide the additional information requested in instruction #3, on a separate page.

NOTES TO FINANCIAL STATEMENTS (Continued)				

WISCONSIN PUBLIC SERVICE CORPORATION SUPPLEMENTAL NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2011

Notes A-E below are supplemental notes to the following Notes 1-20, modified for the requirements of the FERC, included in the Wisconsin Public Service Corporation Form 10-K.

NOTE A--FERC FORM 1 REPORTING COMPARED TO SEC REPORTING IN ACCORDANCE WITH GAAP

The accompanying financial statements have been prepared in accordance with the accounting requirements of the FERC as set forth in the Uniform System of Accounts and accounting releases, which differ from GAAP. As required by the FERC, we classify certain items in our 2011 Form 1 in a manner different than the presentation in the SEC Form 10-K, as described below. These items have no impact on the reported net income.

- Removal costs that do not have an associated legal obligation are recognized as a component of accumulated depreciation, whereas these costs are recognized for GAAP as a regulatory liability.
- We account for our investment in majority-owned subsidiaries on the equity method rather than consolidating the
 assets, liabilities, revenues, and expenses of these subsidiaries, as required by GAAP.
- Accumulated deferred income taxes are reported as deferred debits and deferred credits and are not netted into short-term or long-term classifications as required by GAAP.
- The FERC requires transactions for the real-time and day-ahead RTO administered energy markets to be separately
 reported for each hour on the statement of income, whereas the transactions of these two markets are combined for a
 given hour for GAAP reporting purposes.
- Unrealized gains and losses on derivative instruments and other costs related to a gas fixed bill program are reported
 as miscellaneous non-operating income and other deductions rather than revenue and operating and maintenance
 expenses as required by GAAP.
- The FERC financial statement presentation reports unamortized loss on reacquired debt and energy costs receivable or refundable through rate adjustments as deferred debits and current assets and liabilities whereas the GAAP financial statement presentation reports these balances as regulatory assets and liabilities.
- The GAAP financial statements are reported in accordance with the Income Taxes Topic of the FASB ASC, whereas
 the Form 1 is reported in accordance with the FERC-issued accounting guidance. As such, in the Form 1, deferred
 income taxes are recognized based on the difference between positions taken in tax returns filed and amounts
 reported in the financial statements and does not report interest and penalties on tax deficiencies as income tax
 expense.
- Under provisions of the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (the 2010 Act), beginning in 2013, a portion of our expenditures for retiree prescription drug coverage would not be tax deductible. On the date of enactment in first quarter of 2010, a re-measurement of the deferred tax asset was triggered. On April 8, 2010, a joint filing was sent to the PSCW to request deferral of anticipated and potential costs of having to comply with the 2010 Act, including the re-measurement of deferred taxes. On December 16, 2010, the PSCW authorized deferral in Order 5-GF-195 and this deferral is reflected in the FERC Form 1. In the GAAP financial statements, the deferral is not reflected in the regulatory asset balance.

NOTES TO FINANCIAL STATEMENTS (Continued)					

NOTE B--GAIN OR LOSS ON REACQUIRED BONDS

We occasionally repurchase bonds. The gain or loss on this type of repurchase is deferred on the balance sheet and amortized to the income statement, consistent with rate treatment as directed by the PSCW.

We repurchased our 8.20% Series Due 2012 bonds in 1993. Deferral of the loss on reacquired debt is recorded in Account 189 and amortized to the income statement on a revenue neutral basis as directed by the PSCW. The following deferral was outstanding as of December 31, 2011, and December 31, 2010:

<u>Year</u>	<u>Series</u>	<u>Repurchased</u>	December 31, 2011	December 31, 2010
1993	8.20%	\$45,000,000	\$300,883	\$402,595

NOTE C--INCOME TAXES

We account for income taxes using the liability method. Under this method, deferred income taxes have been recorded using currently enacted tax rates for the differences between the tax basis of assets and liabilities and the basis reported in the financial statements. Due to the effects of regulation on us, certain adjustments made to deferred income taxes are recorded as regulatory assets or liabilities. Tax refunds or additional taxes due are deferred and returned to or collected from customers.

Investment tax credits, which have been used to reduce federal and state income taxes payable, have been deferred for financial reporting purposes. These deferred investment tax credits are being amortized over the useful lives of the related property.

Integrys Energy Group, Inc., our parent company, files a consolidated United States income tax return that includes domestic subsidiaries in which its ownership is 80 percent or more. Integrys Energy Group and its consolidated subsidiaries, including us, are parties to a tax allocation arrangement under which each entity determines its income tax provision on a stand-alone basis, after which effects of federal consolidation are accounted for.

For tax year 2004, Integrys Energy Group elected on our behalf not to take bonus depreciation on the consolidated return for that year. Integrys Energy Group advanced us the tax benefit forgone so as not to harm the customers and to keep us whole. This advance will be paid back to Integrys Energy Group over the depreciation unwind period of the assets eligible for the forgone bonus, thus creating the same effect as if bonus depreciation had been taken in 2004. The balance due to Integrys Energy Group was \$8.0 million and \$9.0 million at December 31, 2011, and 2010, respectively, and is recorded in Account 253 less the amount due in one year, which is recorded in Account 234.

In the third quarter of 2010, a federal tax law was enacted that extended the 50% bonus depreciation deduction to assets placed in service during 2010. In the fourth quarter of 2010, a federal tax law was enacted that increased the bonus depreciation deduction to 100% for assets placed in service after September 8, 2010, and before December 31, 2011. Not all assets placed in service qualify for bonus depreciation and not all assets placed in service between September 8, 2010, and December 31, 2011, will qualify for 100% and instead will qualify for 50% bonus depreciation. December 31, 2010 deferred tax balances reflected the bonus depreciation deductions that we expected to claim in filing our 2010 federal income tax return.

See Note 10, "Income Taxes," for additional information regarding income tax examinations by the various taxing authorities.

The Wisconsin tax code was conformed to the federal tax code through passage of a budget bill, retroactive to December 2010. In accounting for this tax law change, we expensed an additional \$0.7 million of deferred income taxes in 2011 related to Medicare Part D subsidy.

NOTES TO FINANCIAL STATEMENTS (Continued)					

NOTE D--RECONCILIATION FOR CASH FLOWS STATEMENT

The balance in cash and cash equivalents consists of the items shown below.

	<u>December 31, 2011</u>	<u>December 31, 2010</u>
Cash	\$ 4,794,712	\$ 4,829,981
Special Deposits	4,191,164	3,921,663
Working Funds	5,250	32,250
Temporary Cash Investments	2_	<u>65,600,168</u>
Total	\$ 8,991,128	\$ 74,384,062

NOTE E--RETAINED EARNINGS RESTRICTIONS

We maintain retained earnings for the Amortization Reserve, Federal as required by the FERC under Docket RM76-1, Order 55. As prescribed by the PSCW, we may not pay normal common stock dividends of more than 103% of the previous year's common stock dividend without PSCW approval. In addition, our Restated Articles of Incorporation limit the amount of common stock dividends that we can pay to certain percentages of our prior 12-month net income, if our common stock and common stock surplus accounts constitute less than 25% of our total capitalization.

NOTES TO FINANCIAL STATEMENTS (Continued)				

WISCONSIN PUBLIC SERVICE CORPORATION NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2011

The following Notes 1-20, modified for the requirements of the FERC, are included in the Wisconsin Public Service Corporation Annual Report.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Nature of Operations—We are a regulated electric and natural gas utility company, serving customers in northeastern Wisconsin and an adjacent portion of Michigan's Upper Peninsula. We are subject to the jurisdiction of, and regulation by, the PSCW and the MPSC, which have general supervisory and regulatory powers over virtually all phases of the public utility industry in Wisconsin and Michigan, respectively. We are also subject to the jurisdiction of the FERC, which regulates our natural gas pipelines and wholesale electric rates.

As used in these notes, the term "financial statements" refers to the statement of income, balance sheet, statement of retained earnings, and statement of cash flows, unless otherwise noted.

The term "utility" refers to our regulated activities, while the term "nonutility" refers to our activities that are not regulated.

- **(b)** Basis of Presentation—The financial statements reflect our proportionate interests in certain jointly owned utility facilities. The cost method of accounting is used for investments when we do not have significant influence over the operating and financial policies of the investee. Investments in businesses not controlled by us, but over which we have significant influence regarding the operating and financial policies of the investee, are accounted for using the equity method.
- (c) Use of Estimates—We prepare our financial statements in conformity with the rules and regulations of the FERC. We make estimates and assumptions that affect assets, liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates.
- (d) Cash and Cash Equivalents—Short-term investments with an original maturity of three months or less are reported as cash equivalents.

The following is supplemental disclosure to our statement of cash flows:

(Millions)	2011	2010
Cash paid for interest	\$48.5	\$48.4
Cash paid (received) for income taxes	37.9	(30.2)

Construction costs funded through accounts payable and treated as noncash investing activities totaled \$11.3 million and \$5.7 million at December 31, 2011 and 2010, respectively.

(e) Revenues and Customer Receivables—Revenues related to the sale of energy are recognized when service is provided or energy is delivered to customers and include estimated amounts for services provided but not billed. At December 31, 2011 and 2010, our unbilled revenues were \$68.2 million and \$69.7 million, respectively. At December 31, 2011, there were no customers that accounted for more than 10% of our operating revenues. However, the paper industry and wholesale sales to other utilities each accounted for approximately 12% of our operating revenues. We present revenues net of pass-through taxes on the income statement.

Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

We have various rate-adjustment mechanisms in place that currently provide for the recovery of prudently incurred electric fuel costs, purchased power costs, and natural gas costs, which allow subsequent adjustments to rates for changes in commodity costs. A summary of significant rate-adjustment mechanisms follows:

- Fuel and purchased power are recovered from customers on a one-for-one basis by our wholesale electric operations and Michigan retail electric operations.
- Our Wisconsin retail electric operations use a "fuel window" mechanism to recover fuel and purchased power
 costs. Under the fuel window rules effective January 1, 2011, a deferral is required for under or over-collections of
 actual fuel and purchased power costs that exceed a 2% price variance from the costs included in the rates
 charged to customers. Under or over-collections deferred in the current year are recovered or refunded in a
 future rate proceeding.
- Our rates include a one-for-one recovery mechanism for natural gas commodity costs.
- Our rates include a decoupling mechanism, which allows us to adjust our rates going forward to recover or refund all or a portion of the differences between the actual and authorized margin.

Revenues are also impacted by other accounting policies related to our participation in the MISO market. We both sell and purchase power in the MISO market. Sales of power are reported as revenue and purchases of power are recorded as operation expenses on the income statement.

- (f) Inventories—Inventories consist of natural gas in storage and fossil fuels, including coal. Average cost is used to value fossil fuels and natural gas in storage.
- **(g) Risk Management Activities**—As part of our regular operations, we enter into contracts, including options, futures, forwards, and other contractual commitments, to manage changes in commodity prices, which are described more fully in Note 2, "*Risk Management Activities*." Derivative instruments are entered into in accordance with the terms of the risk management plans approved by our Board of Directors and the PSCW or MPSC.

All derivatives are recognized on the balance sheet at their fair value unless they are designated as and qualify for the normal purchases and sales exception. We continually assess our contracts designated as normal and will discontinue the treatment of these contracts as normal if the required criteria are no longer met. Most of our energy-related physical and financial derivatives qualify for regulatory deferral. These derivatives are marked to fair value; the resulting risk management assets are offset with regulatory liabilities or decreases to regulatory assets, and risk management liabilities are offset with regulatory assets or decreases to regulatory liabilities. Management believes any gains or losses resulting from the eventual settlement of these derivative instruments will be refunded to or collected from customers in rates.

We classify unrealized gains and losses on derivative instruments that do not qualify for regulatory deferral as miscellaneous nonoperating income or deductions.

Derivative accounting rules provide the option to present certain asset and liability derivative positions net on the balance sheet and to net the related cash collateral against these net derivative positions. We elected not to net these items. On the balance sheet, cash collateral provided to others is reflected in Special Deposits.

We have risk management contracts with various counterparties. We monitor credit exposure levels and the financial condition of our counterparties on a continuous basis to minimize credit risk. At December 31, 2011, we did not have risk management contracts with any one counterparty or industry that accounted for more than 10% of our total credit risk exposure.

- **(h) Emission Allowances**—We account for emission allowances as inventory at average cost by vintage year. Charges to income result when allowances are used in operating our generation plants. Gains on sales of allowances are returned to ratepayers. Losses on emission allowances are included in the costs subject to the fuel window rules.
- (i) Property, Plant, and Equipment—Utility plant is stated at cost, including any associated AFUDC and asset retirement costs. The costs of renewals and betterments of units of property (as distinguished from minor items of property) are capitalized as additions to the utility plant accounts. Except for land, no gains or losses are recognized in

Name of Respondent	This Report is:	Date of Report	Year/Period of Report	
· ·	(1) <u>X</u> An Original	(Mo, Da, Yr)	·	
Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

connection with ordinary retirements of utility property units. We charge the cost of units of property retired, sold, or otherwise disposed of, less salvage value, to accumulated depreciation. The cost of removal associated with the retirement is also charged to accumulated depreciation. Maintenance, repair, replacement, and renewal costs associated with items not qualifying as units of property are considered operating expenses.

We record straight-line depreciation expense over the estimated useful life of utility property, using depreciation rates as approved by the applicable regulators. Annual utility composite depreciation rates are shown below. We received approval from the PSCW for lower depreciation rates, effective January 1, 2011.

Annual Utility Compo	site Depreciation Rates	2011	2010
Electric		2.88%	3.05%
Natural gas		2.22%	3.28%

We capitalize certain costs related to software developed or obtained for internal use and amortize those costs to operating expense over the estimated useful life of the related software, which ranges from 3 to 5 years. If software is retired prior to being fully amortized, the difference is recorded as a loss on the income statement.

(j) AFUDC—We capitalize the cost of funds used for construction using a calculation that includes both internal equity and external debt components, as required by regulatory accounting. The internal equity component of capitalized AFUDC is accounted for as other income, and the external debt component is accounted for as a decrease to interest expense.

Approximately 50% of our retail jurisdictional construction work in progress expenditures are subject to the AFUDC calculation. For 2011, our average AFUDC retail rate was 7.71%, and our AFUDC wholesale rate was 4.16%. Our allowance for equity funds used during construction for 2011 and 2010 was \$0.6 million and \$0.7 million, respectively. Our allowance for borrowed funds used during construction for 2011 and 2010 was \$0.2 million and \$0.3 million, respectively.

- (k) Regulatory Assets and Liabilities—Regulatory assets represent probable future revenue associated with certain costs or liabilities that have been deferred and are expected to be recovered from customers through the ratemaking process. Regulatory liabilities represent amounts that are expected to be refunded to customers in future rates or amounts collected in rates for future costs. If at any reporting date a previously recorded regulatory asset is no longer probable of recovery, the regulatory asset is reduced to the amount considered probable of recovery with the reduction charged to expense in the year the determination is made. See Note 5, "Regulatory Assets and Liabilities," for more information.
- (I) Goodwill—Goodwill is not amortized, but is subject to an annual impairment test. Our natural gas utility reporting unit contains goodwill and performs its annual goodwill impairment test during the second quarter of each year. Interim impairment tests are performed when impairment indicators are present.
- (m) Retirement of Debt—Any call premiums or unamortized expenses associated with refinancing utility debt obligations are amortized consistent with regulatory treatment of those items. Any gains or losses resulting from the retirement of utility debt that is not refinanced are either amortized over the remaining life of the original debt or recorded through current earnings.
- (n) Asset Retirement Obligations—We recognize at fair value legal obligations associated with the retirement of tangible long-lived assets that result from the acquisition, construction or development, and/or normal operation of the assets. A liability is recorded for these obligations as long as the fair value can be reasonably estimated, even if the timing or method of settling the obligation is unknown. The asset retirement obligations are accreted using a credit-adjusted risk-free interest rate commensurate with the expected settlement dates of the asset retirement obligations; this rate is determined at the date the obligation is incurred. The associated retirement costs are capitalized as part of the related long-lived assets and are depreciated over the useful lives of the assets. Subsequent changes resulting from revisions to the timing or the amount of the original estimate of undiscounted cash flows are recognized as an increase or a decrease in the carrying amount of the liability and the associated retirement cost. See Note 9, "Asset Retirement Obligations," for more information.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report	
·	(1) <u>X</u> An Original	(Mo, Da, Yr)	·	
Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

(o) Income Taxes—We are included in the consolidated United States income tax return filed by Integrys Energy Group. We are party to a federal and state tax allocation arrangement with Integrys Energy Group and its subsidiaries under which each entity determines its provision for income taxes on a stand-alone basis. We settle the intercompany liabilities at the time that payments are made to the applicable taxing authority. See Note 20, "Related Party Transactions," for disclosure of intercompany payables or receivables related to income taxes.

Deferred income taxes have been recorded to recognize the expected future tax consequences of events that have been included in the financial statements by using currently enacted tax rates for the differences between the income tax basis of assets and liabilities and the basis reported in the financial statements. We record valuation allowances for deferred income tax assets when it is uncertain if the benefit will be realized in the future. We defer certain adjustments made to income taxes that will impact future rates and record regulatory assets or liabilities related to these adjustments.

We use the deferral method of accounting for investment tax credits (ITCs). Under this method, we record the ITC as a deferred credit and amortize such credit as a reduction to the provision for income taxes over the life of the asset that generated the ITC. Production tax credits generally reduce the provision for income taxes in the year that electricity from the qualifying facility is generated and sold. Investment tax credits and production tax credits that do not reduce income taxes payable for the current year are eligible for carryover and recognized as a deferred income tax asset. A valuation allowance is established unless it is more likely than not that the credits will be realized during the carryforward period.

For more information regarding our accounting for income taxes, see Note 10, "Income Taxes."

- **(p) Guarantees**—We follow the guidance of the Guarantees Topic of the FASB ASC, which requires that the guarantor recognize, at the inception of the guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. For additional information on guarantees, see Note 12, "Guarantees."
- (q) Employee Benefits—The costs of pension and other postretirement benefits are expensed over the periods during which employees render service. Our transition obligation related to the other postretirement benefit plans is being recognized over a 20-year period beginning in 1993. In computing the expected return on plan assets, we use a market-related value of plan assets. Changes in realized and unrealized investment gains and losses are recognized over the subsequent five years for plans we sponsor, while differences between actual investment returns and the expected return on plan assets are recognized over a five-year period for the Integrys Energy Group Retirement Plan, sponsored by IBS. The benefit costs associated with employee benefit plans are allocated among Integrys Energy Group's subsidiaries based on employees' time reporting and actuarial calculations, as applicable. Our regulators allow recovery in rates for the net periodic benefit cost calculated under GAAP.

We recognize the funded status of defined benefit postretirement plans on the balance sheet, and recognize changes in the plans' funded status in the year in which the changes occur. We record changes in the funded status to regulatory asset or liability accounts, pursuant to the Regulated Operations Topic of the FASB ASC.

We account for our participation in benefit plans sponsored by IBS and other postretirement benefit plans we sponsor as multiple employer plans. Under affiliate agreements, we are responsible for our share of plan costs and obligations and are entitled to our share of plan assets; accordingly, we account for our pro rata share of these plans as our own plan.

For more information on our employee benefits, see Note 13, "Employee Benefit Plans."

Fair Value—A fair value measurement is required to reflect the assumptions market participants would use in pricing an asset or liability based on the best available information. These assumptions include the risks inherent in a particular valuation technique (such as a pricing model) and the risks inherent in the inputs to the model. Transaction costs should not be considered in the determination of fair value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). We use a mid-market pricing convention (the mid-point price between bid and ask prices) as a practical measure for valuing certain derivative assets and liabilities.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report	
	(1) <u>X</u> An Original	(Mo, Da, Yr)	·	
Wisconsin Public Service Corporation	(2) A Resubmission	04/18/2012	2011/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

Fair value accounting rules provide a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are defined as follows:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 – Pricing inputs are observable, either directly or indirectly, but are not quoted prices included within Level 1. Level 2 includes those financial instruments that are valued using external inputs within models or other valuation methodologies.

Level 3 – Pricing inputs include significant inputs that are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value.

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

We determine fair value using a market-based approach that uses observable market inputs where available, and internally developed inputs where observable market data is not readily available. For the unobservable inputs, consideration is given to the assumptions that market participants would use in valuing the asset or liability. These factors include not only the credit standing of the counterparties involved, but also the impact of our nonperformance risk on our liabilities.

See Note 18, "Fair Value," for more information.

(s) New Accounting Pronouncements—ASU 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (IFRS)," was issued in May 2011. The amendments change the wording used to describe the requirements for measuring fair value and for disclosing information about fair value measurements. The amendments also clarify the intent concerning the application of existing fair value measurement requirements. This guidance is effective for our reporting period ending March 31, 2012. Management is currently evaluating the impact that the adoption of this standard will have on our financial statements.

ASU 2011-05, "Presentation of Comprehensive Income," was issued in June 2011. The guidance requires that the total of comprehensive income, the components of net income, and the components of OCI be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The FASB has deferred the requirement regarding the presentation of reclassification adjustments between OCI and net income on the face of the financial statements. This guidance is effective for our reporting period ending March 31, 2012, and is expected to change the format of our financial statements.

ASU 2011-08, "Testing Goodwill for Impairment," was issued in September 2011. The amendments give companies an option to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If a company concludes that this is the case, the quantitative impairment test is required. Otherwise, a company can bypass the quantitative impairment test. This guidance is effective for our reporting period ending March 31, 2012, and is not expected to have a significant impact on our financial statements.

ASU 2011-11, Disclosures about Offsetting Assets and Liabilities," was issued in December 2011. The guidance requires enhanced disclosures about offsetting and related arrangements. This guidance is effective for our reporting period ending March 31, 2013. Management is currently evaluating the impact that the adoption of this standard will have on our financial statements.

NOTES TO FINANCIAL STATEMENTS (Continued)				

NOTE 2—RISK MANAGEMENT ACTIVITIES

We use derivative instruments to manage commodity costs. None of these derivatives are designated as hedges for accounting purposes. The derivatives include physical commodity contracts and NYMEX futures and options used by both the electric and natural gas utility segments to manage the risks associated with the market price volatility of natural gas costs and the costs of gasoline and diesel fuel used by our utility vehicles. The electric utility segment also uses financial transmission rights (FTRs) to manage electric transmission congestion costs and NYMEX oil futures and options to reduce price risk related to coal transportation.

The tables below show our assets and liabilities from risk management activities:

	Balance Sheet	Decemb	er 31, 2011
(Millions)	Presentation *	Assets	Liabilities
Natural gas contracts	Other Current	\$0.1	\$2.5
FTRs	Other Current	1.2	0.1
Petroleum product contracts	Other Current	0.1	-
Coal contract	Other Current	-	2.5
Coal contract	Other Long-term	_	4.4
Total commodity contracts	Other Current	\$1.4	\$5.1
Total commodity contracts	Other Long-term	\$ -	\$4.4

* All derivatives are recognized on the balance sheet at their fair value unless they qualify for the normal purchases and sales exception. We continually assess our contracts designated as normal and will discontinue the treatment of these contracts as normal if the required criteria are no longer met. We classify assets and liabilities from risk management activities as current or long-term based on the maturities of the underlying contracts.

	Balance Sheet	Decemb	er 31, 2010
(Millions)	Presentation *	Assets	Liabilities
Natural gas contracts	Other Current	\$0.4	\$2.3
FTRs	Other Current	2.2	0.2
Petroleum product contracts	Other Current	0.3	-
Coal contract	Other Current	-	1.2
Coal contract	Other Long-term	3.7	-
Total commodity contracts	Other Current	\$2.9	\$3.7
Total commodity contracts	Other Long-term	\$3.7	\$ -

^{*} All derivatives are recognized on the balance sheet at their fair value unless they qualify for the normal purchases and sales exception. We continually assess our contracts designated as normal and will discontinue the treatment of these contracts as normal if the required criteria are no longer met. The following table shows our cash collateral positions:

(Millions)	December 31, 2011	December 31, 2010
Cash collateral provided to others	\$4.1	\$3.7

NOTE 3—RESTRUCTURING EXPENSE

In an effort to permanently remove costs from its operations, Integrys Energy Group developed a plan at the end of 2009 that included reductions in our workforce and the IBS workforce that supports us. In connection with this plan, employee-related costs are included in the electric utility operation expenses line item on the Statement of Income in the amount of \$0.2 million and \$(0.3) million, in 2011 and 2010, respectively.

The following table summarizes the activity related to these restructuring costs:

(Millions)	2011	2010
Accrued restructuring costs at beginning of period	\$ -	\$10.7
Add: Adjustments to accrual during the period	- *	· · · · · · · · · · · · · · · · · · ·
Deduct: Cash payments	-	7.4
Deduct: Payments to IBS for allocated restructuring costs		3.3
Accrued restructuring costs at end of period	\$ -	\$ -

^{*} In 2010, restructuring costs of \$0.3 million were billed to certain companies in accordance with provisions in the operating agreements with these companies that allow us to recover a portion of our administrative and general expenses. In 2011, the amounts previously billed to these companies were adjusted and reduced by \$0.2 million.

We do not expect to recognize any additional restructuring costs associated with this plan in future periods.

Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

NOTE 4—JOINTLY OWNED UTILITY FACILITIES

We hold a joint ownership interest in certain electric generating facilities. We are entitled to our share of generating capability and output of each facility equal to our respective ownership interest. We also pay our ownership share of additional construction costs, fuel inventory purchases, and operating expenses, unless specific agreements have been executed to limit our maximum exposure to additional costs. We recorded our proportionate share of significant jointly owned electric generating facilities on the balance sheet, and the amounts were as follows at December 31, 2011:

		Columbia Energy	Edgewater
(Millions, except for percentages and megawatts)	Weston 4	Center Units 1 and 2	Unit No. 4
Ownership	70.0%	31.8%	31.8%
Our share of rated capacity (megawatts)	374.5	335.2	105.0
Utility plant in service	\$573.3	\$167.8	\$39.8
Accumulated depreciation	\$78.5	\$106.6	\$25.4
In-service date	2008	1975 and 1978	1969

Our proportionate share of direct expenses for the joint operation of these plants is recorded in operation expenses in the income statement. We have supplied our own financing for all jointly owned projects.

NOTE 5—REGULATORY ASSETS AND LIABILITIES

We expect to recover our regulatory assets and incur future costs or refund our regulatory liabilities through rates charged to customers. These rates are based on specific ratemaking decisions over periods determined by the regulators or over the normal operating period of the assets and liabilities to which they relate. Based on prior and current rate treatment for such costs, we believe it is probable that we will continue to recover from customers the regulatory assets described below.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report	
	(1) <u>X</u> An Original	(Mo, Da, Yr)	·	
Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

Most of our regulatory assets are earning a return, except for costs associated with environmental remediation and the Weston 3 lightning strike. The carrying costs related to the regulatory assets not earning a return are borne by Integrys Energy Group's shareholders. The following regulatory assets and liabilities were reflected in our balance sheet as of December 31:

			See
(Millions)	2011	2010	Note
Degulatery aparts			
Regulatory assets Unrecognized pension and other postretirement benefit costs	\$322.0	\$222.8	13
· · · · · · · · · · · · · · · · · · ·	75.7	Ψ222.0 72.7	11
Environmental remediation costs (net of insurance recoveries) (1)		,	1.1
De Pere Energy Center (2)	28.6	31.0	
Decoupling	21.7	43.5	19
Weston 3 lightning strike (3)	10.9	14.5	
Derivatives	10.5	4.5	1(g)
Health care ⁽⁴⁾	10.0	5.8	
Income tax related items	7.6	6.7	10
Asset retirement obligations	6.2	5.6	9
Other	12.2	14.8	
Total	\$505.4	\$422.0	
Dogulatow, liabilities			
Regulatory liabilities	40.0	40.0	40
Unrecognized pension and other postretirement benefit costs	18.2	19.8	13
Decoupling	16.9	-	19
Other	8.7	12.3	
Total	\$43.8	\$32.1	

- (1) Recovery depends on timing of actual expenditures.
- (2) Prior to us purchasing the De Pere Energy Center, we had a long-term power purchase contract with the De Pere Energy Center that was accounted for as a capital lease. As a result of the purchase, the capital lease obligation was reversed and the difference between the capital lease asset and the purchase price was recorded as a regulatory asset. We are authorized recovery of this regulatory asset through 2023.
- (3) In 2007, a lightning strike caused significant damage to the Weston 3 generating facility. The PSCW approved the deferral of the incremental fuel and purchased power expenses, as well as the non-fuel operating and maintenance expenditures incurred as a result of the outage that were not covered by insurance. We are authorized recovery of this regulatory asset through 2014.
- (4) Under provisions of the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010, beginning in 2013, a portion of our expenditures for retiree prescription drug coverage would not be tax deductible. While these future prescription drug expenditures had yet to be realized at the date of the enactment, the cost had been accrued in prior years. We intend to seek recovery of these costs in our next rate case filing.

Wisconsin Public Service Corporation	(2) A Resubmission	04/18/2012	2011/Q4	
NOTES TO FINANCIAL STATEMENTS (Continued)				

NOTE 6—LEASES

We lease various property, plant, and equipment. Terms of the leases vary, but generally require us to pay property taxes, insurance premiums, and maintenance costs associated with the leased property. Many of our leases contain one of the following options upon the end of the lease term: (a) purchase the property at the current fair market value or (b) exercise a renewal option, as set forth in the lease agreement. Rental expense attributable to operating leases was \$2.7 million and \$4.3 million in 2011 and 2010, respectively. Future minimum rental obligations under non-cancelable operating leases are payable as follows:

Year ending December 31	
(Millions)	
2012	\$ 1.3
2013	1.7
2014	1.0
2015	0.7
2016	0.6
Later years	14.4
Total payments	\$19.7

NOTE 7—SHORT-TERM DEBT AND LINES OF CREDIT

Our short-term borrowings were as follows as of December 31:

(Millions, except for percentages)	2011	2010
Commercial paper outstanding	\$173.7	\$ -
Average discount rate on outstanding commercial paper	0.26%	_
Short-term notes payable outstanding	-	\$10.0
Average interest rate on short-term notes payable outstanding	-	0.32%

The commercial paper outstanding at December 31, 2011, had maturity dates ranging from January 3, 2012, through January 26, 2012.

The table below presents our average amount of short-term borrowings outstanding based on daily outstanding balances during the years ended December 31:

(Millions)	2011	2010
Average amount of commercial paper outstanding	\$57.5	\$ 0.1
Average amount of short-term notes payable outstanding	3.6	10.0

Name of Respondent	This Report is:	Date of Report	Year/Period of Report		
	(1) <u>X</u> An Original	(Mo, Da, Yr)	· .		
Wisconsin Public Service Corporation	(2) A Resubmission	04/18/2012	2011/Q4		
NOTES TO FINANCIAL STATEMENTS (Continued)					

We manage our liquidity by maintaining adequate external financing commitments. The information in the table below relates to our short-term debt, lines of credit, and remaining available capacity as of December 31:

(Millions)	Maturity	2011	2010
Revolving credit facility (1)	04/23/13	\$115.0	\$115.0
Revolving credit facility (2)	05/15/12	\$135.0	-
Revolving short-term notes payable ⁽³⁾	05/13/11	-	10.0
Total short-term credit capacity		\$250.0	\$125.0
Less:			
Letters of credit issued inside credit facilities		\$ 0.2	\$ 0.2
Loans outstanding under credit agreements and notes payable		-	10.0
Commercial paper outstanding		173.7	-
Available capacity under existing agreements		\$ 76.1	\$114.8

⁽¹⁾ Support for our commercial paper borrowing program.

At December 31, 2011, we were in compliance with all financial covenants related to outstanding short-term debt. Our revolving credit agreement contains financial and other covenants, including but not limited to, a requirement to maintain a debt to total capitalization ratio not to exceed 65%, excluding non-recourse debt. Failure to comply with these covenants could result in an event of default, which could result in the acceleration of outstanding debt obligations.

NOTE 8—LONG-TERM DEBT

FERC FORM NO. 1 (ED. 12-88)	Page 123.15	

⁽²⁾ In May 2011, we entered into a new revolving credit agreement to support our commercial paper borrowing program. We requested approval from the PSCW to extend this facility through May 17, 2014.

⁽³⁾ These short-term notes payable were repaid in May 2011.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report		
·	(1) X An Original	(Mo, Da, Yr)	·		
Wisconsin Public Service Corporation (2) _ A Resubmission 04/18/2012 2011/Q4					
NOTES TO FINANCIAL STATEMENTS (Continued)					

In August 2011, our \$150 million of 6.125% Senior Notes matured, and the outstanding principal balance was repaid. In December 2012, our 4.875% Senior Notes will mature.

Our First Mortgage Bonds and Senior Notes are subject to the terms and conditions of our First Mortgage Indenture. Under the terms of the Indenture, substantially all our property is pledged as collateral for these outstanding debt securities. All of these debt securities require semi-annual payments of interest. Our Senior Notes become non-collateralized if we retire all of our outstanding First Mortgage Bonds and no new mortgage indenture is put in place.

At December 31, 2011, we were in compliance with all financial covenants related to outstanding long-term debt. Our long-term debt obligations contain covenants related to payment of principal and interest when due and various financial reporting obligations. Failure to comply with these covenants could result in an event of default, which could result in the acceleration of outstanding debt obligations.

A schedule of all principal debt payment amounts related to bond maturities, excluding those associated with long-term debt to parent, is as follows:

Year ending December 31 (Millions)	
2012	\$150.0
2013	147.0
2014	-
2015	125.0
2016	-
Later years	300.1
Total payments	\$722.1

NOTE 9—ASSET RETIREMENT OBLIGATIONS

We have asset retirement obligations primarily related to asbestos abatement at certain generation facilities, office buildings, and service centers; dismantling wind generation projects; disposal of PCB-contaminated transformers; and closure of fly-ash landfills at certain generation facilities. We establish regulatory assets and liabilities to record the differences between ongoing expense recognition under the asset retirement obligations accounting rules and the ratemaking practices for retirement costs authorized by the applicable regulators. No asset retirement obligations were settled during 2011 and 2010.

The following table shows changes to our asset retirement obligations through December 31, 2011:

Asset retirement obligations at December 31, 2011	\$18.6
Accretion Revisions to estimated cash flows	1.1 (1.3)
Asset retirement obligations at December 31, 2010	18.8
Accretion	1.0
Asset retirement obligations at December 31, 2009	\$17.8

NOTES TO FINANCIAL STATEMENTS (Continued)			

NOTE 10—INCOME TAXES

Deferred Income Tax Assets and Liabilities

The principal components of deferred income tax assets and liabilities recognized on the balance sheet as of December 31 are included in the table below.

(Millions)	2011	2010
Deferred income tax assets		
Plant related	\$ 51.5	\$ 50.3
Employee benefits	23.6	32.9
Tax credit carryforward	13.8	_
Other	5.4	16.4
Total deferred income tax assets	\$ 94.3	\$ 99.6
Deferred income tax liabilities		
Plant-related	\$ 486.3	\$ 436.8
Employee benefits	54.7	29.4
Regulatory deferrals	23.5	33.7
Deferred income	15.5	20.8
Other	2.2	10.2
Total deferred income tax liabilities	\$ 582.2	\$ 530.9

During 2011, legislation was signed in Michigan and Wisconsin that impacted the recognition of our deferred income tax assets and liabilities. Michigan replaced its business tax with a state income tax, effective January 1, 2012. The Wisconsin tax code was changed to conform to the federal tax code, retroactive to December 2010. These changes in state income taxes, including regulatory impacts, combined to increase net deferred income tax liabilities by \$2.7 million.

Deferred tax credit carryforwards included \$12.3 million of general business credits, which have a carryforward period of 20 years, with the majority of the general business credits to expire in 2028. Other deferred tax credit carryforwards at December 31, 2011, included \$1.4 million of alternative minimum tax credits, which can be carried forward indefinitely.

Regulated utilities record certain adjustments related to deferred income taxes to regulatory assets and liabilities. As the related temporary differences reverse, we are prospectively refunding taxes to or collecting taxes from customers for which deferred taxes were recorded in prior years at rates potentially different than current rates or upon enactment of changes in tax law. The net regulatory assets for these and other regulatory tax effects totaled \$5.4 million and \$3.7 million at December 31, 2011, and 2010, respectively.

(1) X An Original (Mo, Da, Yr)					
Wisconsin Public Service Corporation (2) A Resubmission 04/18/2012 2011/Q4					
NOTES TO FINANCIAL STATEMENTS (Continued)					

Provision for Income Tax Expense

The components of the provision for income taxes were as follows:

(Millions)	2011	2010
Current provision		
Federal	\$15.4	\$(38.5)
State	4.2	(8.8)
Total current provision	19.6	(47.3)
Deferred provision		
Federal	46.1	109.6
State	7.9	16.0
Total deferred provision	54.0	125.6
Investment tax credits, net	(0.4)	(0.6)
Total provision for income taxes	\$73.2	\$ 77.7

Statutory Rate Reconciliation

The following table presents a reconciliation of the difference between the effective tax rate and the amount computed by applying the statutory federal tax rate to income before taxes.

	20	2011		2010	
(Millions, except for percentages)	Rate	Amount	Rate	Amount	
Statutory federal income tax	35.0%	\$69.7	35.0%	\$74.5	
State income taxes, net	5.3	10.6	4.8	10.3	
Federal tax credits	(3.2)	(6.4)	(2.8)	(5.9)	
Other differences, net	(0.3)	(0.7)	(0.4)	(1.2)	
Effective income tax	36.8%	\$73.2	36.6%	\$77.7	

We file income tax returns in the United States federal jurisdiction and in various state and local jurisdictions on a stand-alone basis or as part of Integrys Energy Group filings.

We are no longer subject to income tax examinations by the IRS for years prior to 2009. During 2011, we effectively settled the majority of our IRS audits for the 2004 through 2008 tax years. In 2011, the IRS commenced an examination of tax years 2009 and 2010.

We file state tax returns based on income in our major operating jurisdictions of Wisconsin and Michigan. With a few exceptions, we are no longer subject to state and local tax examinations by tax authorities for years prior to 2007. As of December 31, 2011, we were subject to examination by state or local tax authorities for the 2007 through 2010 tax years. As of December 31, 2011, our earliest open tax years that were subject to examination by state taxing authorities in our major operating jurisdictions were as follows:

State	Year
Wisconsin	2007
Michigan	2007

During 2011, Wisconsin commenced an examination of tax years 2007 and 2008.

NOTES TO FINANCIAL STATEMENTS (Continued)					

NOTE 11—COMMITMENTS AND CONTINGENCIES

Commodity and Purchase Order Commitments

We routinely enter into long-term purchase and sale commitments for various quantities and lengths of time. We have obligations to distribute and sell electricity and natural gas to our customers and expect to recover costs related to these obligations in future customer rates.

The purchase obligations described below were as of December 31, 2011.

- Our electric utility segment had obligations of \$167.0 million related to coal supply and transportation that extend through 2016, obligations of \$1,292.4 million for either capacity or energy related to purchased power that extend through 2027, and obligations of \$5.4 million for other commodities that extend through 2013.
- Our natural gas utility segment had obligations of \$345.8 million related to natural gas supply and transportation contracts that extend through 2024.
- We also had commitments of \$179.6 million in the form of purchase orders issued to various vendors that relate to normal business operations, including construction projects.

Environmental

Clean Air Act (CAA) New Source Review Issues

Weston and Pulliam Plants:

In November 2009, the EPA issued us a Notice of Violation (NOV) alleging violations of the CAA's New Source Review requirements relating to certain projects completed at the Weston and Pulliam plants from 1994 to 2009. We continue to meet with the EPA and exchange proposals on a possible resolution. We are currently unable to estimate the possible loss or range of loss related to this matter.

In May 2010, we received from the Sierra Club a Notice of Intent (NOI) to file a civil lawsuit based on allegations that we violated the CAA at the Weston and Pulliam plants. We entered into a Standstill Agreement with the Sierra Club by which the parties agreed to negotiate as part of the EPA NOV process, rather than litigate. We are working on a possible resolution with the Sierra Club and the EPA. We are currently unable to estimate the possible loss or range of loss related to this matter.

Columbia and Edgewater Plants:

In December 2009, the EPA issued an NOV to Wisconsin Power and Light (WP&L), the operator of the Columbia and Edgewater plants, and the other joint owners of these plants (including us). The NOV alleges violations of the CAA's New Source Review requirements related to certain projects completed at those plants. WP&L and the other joint owners exchanged proposals with the EPA on a possible resolution. We are currently unable to estimate the possible loss or range of loss related to this matter.

In September 2010, the Sierra Club filed a lawsuit against WP&L, which included allegations that modifications made at the Columbia plant did not comply with the CAA. While the previous stay has been lifted and the case is moving forward to a December 2012 trial, the Sierra Club continues to participate in settlement negotiations with the EPA and the joint owners of the Columbia plant to seek resolution. We are currently unable to estimate the possible loss or range of loss related to this matter.

In September 2010, the Sierra Club filed a lawsuit against WP&L, which included allegations that modifications made at the Edgewater plant did not comply with the CAA. The previous stay of this case has been extended through mid-April 2012 and settlement negotiations with the Sierra Club, the EPA, and the joint owners of the Edgewater plant continue. We are currently unable to estimate the possible loss or range of loss related to this matter.

EPA Settlements with Other Utilities:

In response to the EPA's CAA enforcement initiative, several utilities elected to settle with the EPA, while others are in

Name of Respondent	This Report is:	Date of Report	Year/Period of Report		
,	(1) <u>X</u> An Original	(Mo, Da, Yr)	·		
Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4		
NOTES TO FINANCIAL STATEMENTS (Continued)					

litigation. The fines, penalties, and costs of supplemental beneficial environmental projects associated with settlements involving comparably-sized facilities to Weston and Pulliam combined ranged between \$6 million and \$30 million. The regulatory interpretations upon which the lawsuits or settlements are based may change depending on future court decisions made in the pending litigation.

If it were settled or determined that historical projects at the Weston, Pulliam, Columbia, and Edgewater plants required either a state or federal CAA permit, we may, under the applicable statutes, be required to complete the following remedial steps:

- shut down the facility,
- install additional pollution control equipment and/or impose emission limitations, and/or
- conduct a supplemental beneficial environmental project.

In addition, we may also be required to pay a fine. Finally, under the CAA, citizen groups may pursue a claim.

Weston Air Permits

Weston 4 Construction Permit:

From 2004 to 2009, the Sierra Club filed various petitions objecting to the construction permit issued for the Weston 4 plant. In June 2010, the Wisconsin Court of Appeals affirmed the Weston 4 construction permit, but directed the WDNR to reopen the permit to set specific visible emissions limits. In July 2010, we, the WDNR, and the Sierra Club filed Petitions for Review with the Wisconsin Supreme Court. In March 2011, the Wisconsin Supreme Court denied all Petitions for Review. Other than the specific visible emissions limits issue, all other challenges to the construction permit are now resolved. We are working with the WDNR and the Sierra Club to resolve this issue. We do not expect this matter to have a material impact on our financial statements.

Weston Title V Air Permit:

In November 2010, the WDNR provided a draft revised permit. We objected to proposed changes in mercury limits and requirements on the boiler as beyond the authority of the WDNR. We continue to meet with the WDNR to resolve these issues. On September 14, 2011, the WDNR issued a draft revised permit and a request for public comments. We filed comments objecting to certain provisions in the draft permit. We do not expect this matter to have a material impact on our financial statements.

WDNR Issued NOVs:

Since 2008, we received four NOVs from the WDNR alleging various violations of the different air permits for the entire Weston plant, Weston 4, Weston 1, and Weston 2, as well as one NOV for a clerical error involving pages missing from a quarterly report for Weston. Corrective actions have been taken for the events in the five NOVs. On December 20, 2011, the WDNR dismissed two of the NOVs and referred the other three NOVs to the state Justice Department for enforcement. We do not expect this matter to have a material impact on our financial statements.

Pulliam Title V Air Permit

The WDNR issued the renewal of the permit for the Pulliam plant in April 2009. In June 2010, the EPA issued an order directing the WDNR to respond to comments raised by the Sierra Club in its June 2009 Petition objecting to this permit.

We also challenged the permit in a contested case proceeding and Petition for Judicial Review. The Petition was dismissed in an order remanding the matter to the WDNR. In February 2011, the WDNR granted a contested case proceeding before an Administrative Law Judge on the issues we raised, which included averaging times in the emission limits in the permit. We participated in the contested case proceeding on October 11 and 12, 2011. On December 7, 2011, the Administrative Law Judge did not require the WDNR to insert averaging times as we had argued for. We have decided not to appeal.

In October 2010, we received from the Sierra Club a copy of an NOI to file a civil lawsuit against the EPA based on what the Sierra Club alleges to be the EPA's unreasonable delay in performing its duties related to the grant or denial of the permit. We received notification that the Sierra Club filed suit against the EPA in April 2011. We intervened in the case as

Name of Respondent	This Report is:	Date of Report	Year/Period of Report		
	(1) X An Original	(Mo, Da, Yr)	·		
Wisconsin Public Service Corporation	(2) A Resubmission	04/18/2012	2011/Q4		
NOTES TO FINANCIAL STATEMENTS (Continued)					

a necessary party to protect our interests. The WDNR sent the proposed permit to the EPA for a 45-day review, which allowed the parties to enter into a settlement agreement that has not yet been entered by the court.

We are reviewing all of these matters, but we do not expect them to have a material impact on our financial statements.

Columbia Title V Air Permit

In October 2009, the EPA issued an order objecting to the permit renewal issued by the WDNR for the Columbia plant. The order determined that the WDNR did not adequately analyze whether a project in 2006 constituted a "major modification that required a permit." The EPA's order directed the WDNR to resolve the objections within 90 days and "terminate, modify, or revoke and reissue" the permit accordingly.

In July 2010, we, along with our co-owners, received from the Sierra Club a copy of an NOI to file a civil lawsuit against the EPA. The Sierra Club alleges that the EPA should assert jurisdiction over the permit because the WDNR failed to respond to the EPA's objection within 90 days.

In September 2010, the WDNR issued a draft construction permit and a draft revised Title V permit in response to the EPA's order. In November 2010, the EPA notified the WDNR that the EPA "does not believe the WDNR's proposal is responsive to the order." In January 2011, the WDNR issued a letter stating that upon review of the submitted public comments, the WDNR has determined not to issue the draft permits that were proposed to respond to the EPA's order. In February 2011, the Sierra Club filed for a declaratory action, claiming that the EPA had to assert jurisdiction over the permits. In May 2011, the WDNR issued a second draft Title V permit in response to the EPA's order. We are monitoring this situation with WP&L and meeting with the WDNR. We do not expect this matter to have a material impact on our financial statements.

Mercury and Interstate Air Quality Rules

Mercury:

The State of Wisconsin's mercury rule, Chapter NR 446, requires a 40% reduction from the 2002 through 2004 baseline mercury emissions in Phase I, beginning January 1, 2010, through the end of 2014. In Phase II, which begins in 2015, electric generating units above 150 megawatts will be required to reduce mercury emissions by 90%. Reductions can be phased in and the 90% target delayed until 2021 if additional sulfur dioxide and nitrogen oxide reductions are implemented. By 2015, electric generating units above 25 megawatts but less than 150 megawatts must reduce their mercury emissions to a level defined by the Best Available Control Technology rule. As of December 31, 2011, we estimate capital costs of approximately \$2 million, which includes estimates for both wholly owned and jointly owned plants, to achieve the required Phase I and Phase II reductions. The capital costs are expected to be recovered in future rate cases.

In December 2011, the EPA issued the final Utility Maximum Achievable Control Technology rule that will regulate emissions of mercury and other hazardous air pollutants. The requirements and impact of the final rule are being evaluated. We do not anticipate the impact of this rule to be significant. We expect to recover future compliance costs in future rates.

Sulfur Dioxide and Nitrogen Oxide:

The EPA issued the Clean Air Interstate Rule (CAIR) in 2005 in order to reduce sulfur dioxide and nitrogen oxide emissions from utility boilers located in 29 states, including Wisconsin and Michigan. In July 2008, the United States Court of Appeals (Court of Appeals) issued a decision vacating CAIR, which the EPA appealed. In December 2008, the Court of Appeals reinstated CAIR and directed the EPA to address the deficiencies noted in its previous ruling to vacate CAIR. In July 2011, the EPA issued a final CAIR replacement rule known as the Cross State Air Pollution Rule (CSAPR). The new rule was to become effective January 1, 2012; however, on December 30, 2011, the D.C. Circuit Court (Court) issued a decision that stayed the rule pending the Court's resolution of the petitions for review. The Court directed the EPA to implement CAIR during the stay period. In January 2012, a briefing and oral argument schedule was set. All briefing by the parties is to be completed by March 16, 2012, and the oral argument is set for April 13, 2012. In comparison to the

Name of Respondent	This Report is:	Date of Report	Year/Period of Report		
	(1) <u>X</u> An Original	(Mo, Da, Yr)	·		
Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4		
NOTES TO FINANCIAL STATEMENTS (Continued)					

CAIR rule, CSAPR, in the version that was stayed, significantly reduced the emission allowances allocated to our existing units for sulfur dioxide and nitrogen oxide in 2012, with a further reduction in 2014.

CSAPR also established new sulfur dioxide and nitrogen oxide emission allowances and did not allow carryover of the existing nitrogen oxide emission allowances allocated to us under CAIR. We did not acquire any CAIR nitrogen oxide emission allowances for 2011 and beyond other than those directly allocated to us, which were free. Sulfur dioxide emission allowances allocated under the Acid Rain Program will continue to be issued and surrendered independent of the stayed CSAPR emission allowance program. Thus, we do not expect any material impact on our financial statements as a result of being unable to carry over existing emission allowances.

Under CAIR, units affected by the Best Available Retrofit Technology (BART) rule are considered in compliance with BART for sulfur dioxide and nitrogen oxide emissions if they are in compliance with CAIR. Although particulate emissions also contribute to visibility impairment, the WDNR's modeling has shown the impairment to be so insignificant that additional capital expenditures on controls are not warranted. The EPA has proposed that units in compliance with CSAPR, if the stay is lifted and CSAPR is reinstated, will also be considered in compliance with BART.

The Court may uphold CSAPR, invalidate CSAPR, or direct the EPA to make changes to CSAPR. In order to be in compliance with the stayed version of CSAPR, additional sulfur dioxide and nitrogen oxide controls would need to be installed, emission allowances would need to be purchased, and/or we would have to make other changes to how we operate our existing units. The installation of any necessary controls will be scheduled as part of our long-term maintenance plan for our existing units; however, we do not currently believe we could meet the stayed CSAPR's sulfur dioxide and nitrogen oxide emission limits without purchasing additional emission allowances or by changing how our existing units are operated. Due to the uncertainty surrounding the rule, we are currently unable to predict whether, or if, additional emission allowances would be available to purchase or how much it would cost to comply. We are also currently unable to predict whether CSAPR, or any future version of CSAPR, will cause us to idle or abandon certain units or impact the estimated useful lives of certain units. We expect to recover any such future compliance costs in future rates.

Manufactured Gas Plant Remediation

We operated facilities in the past at multiple sites for the purpose of manufacturing and storing manufactured gas. In connection with these activities, waste materials were produced that may have resulted in soil and groundwater contamination at these sites. Under certain laws and regulations relating to the protection of the environment, we are required to undertake remedial action with respect to some of these materials. We are coordinating the investigation and cleanup of the sites subject to EPA jurisdiction under what is called a "multi-site" program. This program involves prioritizing the work to be done at the sites, preparation and approval of documents common to all of the sites, and use of a consistent approach in selecting remedies.

We are responsible for the environmental remediation of ten sites, of which seven have been transferred to the EPA Superfund Alternative Sites Program. Under the EPA's program, the remedy decisions at these sites will be made using risk-based criteria typically used at Superfund sites. As of December 31, 2011, we estimated and accrued for \$67.6 million of future undiscounted investigation and cleanup costs for all sites. We may adjust these estimates in the future due to remedial technology, regulatory requirements, remedy determinations, and any claims of natural resource damages. As of December 31, 2011, we recorded a regulatory asset of \$75.7 million, which is net of insurance recoveries received of \$22.2 million, related to the expected recovery of both cash expenditures and estimated future expenditures through rates. Under current PSCW policies, we may not recover carrying costs associated with the cleanup expenditures.

Management believes that any costs incurred for environmental activities relating to former manufactured gas plant operations that are not recoverable through contributions from other entities or from insurance carriers have been prudently incurred and are, therefore, recoverable through rates. Accordingly, we do not expect these costs to have a material impact on our financial statements. However, any changes in the approved rate mechanisms for recovery of these costs, or any adverse conclusions by the various regulatory commissions with respect to the prudence of costs actually incurred, could materially affect rate recovery of such costs.

NOTE 12—GUARANTEES

The following table shows our outstanding guarantees:

(Millions)		Expirat	ion
	Total Amount Committed at December 31, 2011	Less Than 1 Year	Over 1 Year
Standby letters of credit (1)	\$0.3	\$0.3	\$ -
Other guarantee (2)	0.5	-	0.5
Total guarantees	\$0.8	\$0.3	\$0.5

- (1) At our request, financial institutions have issued standby letters of credit for the benefit of third parties that have extended credit to us. These amounts are not reflected on the balance sheet.
- (2) Issued for workers compensation self insurance programs in Wisconsin and Michigan. This amount is not reflected on the balance sheet.

NOTE 13—EMPLOYEE BENEFIT PLANS

Defined Benefit Plans

We participate in the Integrys Energy Group Retirement Plan, a non-contributory, qualified retirement plan sponsored by IBS. We are responsible for our share of the plan assets and obligations, and our balance sheet reflects only the liabilities associated with our past and current employees and our share of the plan assets.

We serve as plan sponsor for certain unfunded nonqualified retirement plans. Our balance sheet reflects the liabilities associated with these plans. We also serve as plan sponsor and administrator for certain other postretirement benefit plans and fund benefits for retirees through irrevocable trusts, as allowed for income tax purposes. Our balance sheet reflects only the liabilities associated with our past and current employees and our share of the plan assets for these other postretirement benefit plans.

In addition, Integrys Energy Group offers medical, dental, and life insurance benefits to our active employees and their dependents. We expense the allocated costs of these benefits as incurred.

Effective January 1, 2008, and December 18, 2009, the defined benefit pension plans were closed to new non-union and union hires, respectively.

Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4		
NOTES TO FINANCIAL STATEMENTS (Continued)					

The following tables provide a reconciliation of the changes in our share of the plans' benefit obligations and fair value of assets during 2011 and 2010:

	Pension	n Benefits	Other I	Benefits
(Millions)	2011	2010	2011	2010
Change in of benefit obligation				
Obligation at January 1	\$ 658.2	\$622.6	\$ 268.9	\$243.6
Service cost	12.2	12.6	7.1	5.8
Interest cost	37.1	37.7	15.1	14.1
Transfer to affiliates	(4.2)	(16.0) *	(0.1)	-
Actuarial loss, net	46.8	43.3	12.4	14.2
Participant contributions	-	-	0.2	0.5
Benefit payments	(28.7)	(42.0)	(9.7)	(10.1)
Federal subsidy on benefits paid	-	-	0.9	0.8
Obligation at December 31	\$ 721.4	\$658.2	\$ 294.8	\$268.9
Change in fair value of plan assets				
Fair value of plan assets at January 1	\$ 517.0	\$435.5	\$ 185.1	\$165.7
Actual return on plan assets	7.8	56.3	(8.0)	18.3
Employer contributions	62.1	83.2	10.9	10.6
Participant contributions	_	-	0.2	0.5
Benefit payments	(28.7)	(42.0)	(9.7)	(10.1)
Transfer to affiliates	(4.2)	(16.0) *	(0.1)	0.1
Fair value of plan assets at December 31	\$ 554.0	\$ 517.0	\$ 185.6	\$185.1
Funded status at December 31	\$(167.4)	\$(141.2)	\$(109.2)	\$ (83.8)

^{*} The transfer of pension plan assets and obligations to affiliates relates to our past employees who at retirement were employed by IBS. The assets and corresponding obligations were transferred to IBS, as IBS pays the benefits.

The amounts recognized on our balance sheet at December 31 related to the funded status of the benefit plans were as follows:

	<u>Pension</u>	Benefits	Other B	<u>enefits</u>
(Millions)	2011	2010	2011	2010
Current liabilities	\$ 3.6	\$ 4.4	\$ 0.2	\$ 0.2
Noncurrent liabilities	163.8	136.8	109.0	83.6
Total liabilities	\$167.4	\$141.2	\$109.2	\$83.8

The accumulated benefit obligation for the defined benefit pension plans was \$643.1 million and \$584.3 million at December 31, 2011, and 2010, respectively. Information for pension plans with an accumulated benefit obligation in excess of plan assets is presented in the following table:

	Decem	ber 31
(Millions)	2011	2010
Projected benefit obligation	\$721.4	\$658.2
Accumulated benefit obligation	643.1	584.3
Fair value of plan assets	554.0	517.0

Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4
NOT	ES TO FINANCIAL STATEMENTS (Continued	i)	

The following table shows the amounts that had not yet been recognized in our net periodic benefit cost as of December 31:

	<u>Pensior</u>	n Benefits	Other Benefits		
(Millions)	2011	2010	2011	2010	
Net regulatory assets					
Net actuarial loss	\$228.4	\$150.5	\$82.0	\$57.5	
Prior service cost (credit)	10.5	15.3	(17.3)	(20.8)	
Transition obligation	_		0.2	0.5	
Total	\$238.9	\$165.8	\$64.9	\$37.2	

The following table shows the estimated amounts that will be amortized into net periodic benefit cost during 2012:

Pension Benefits	Other Benefits
\$15.2	\$5.3
4.5	(3.0)
-	0.2
\$19.7	\$2.5
-	\$15.2 4.5 -

The following table shows the components of our net periodic benefit costs (including amounts capitalized to our balance sheet) for the benefit plans:

	Pension Benefits		Other Benefits		
(Millions)	2011	2010	2011	2010	
Net periodic benefit cost					
Service cost	\$11.3	\$11.5	\$ 7.1	\$ 5.8	
Interest cost	36.1	36.6	15.1	14.1	
Expected return on plan assets	(46.8)	(39.6)	(14.2)	(14.2)	
Amortization of transition obligation	-	_	0.2	0.2	
Amortization of prior service cost (credit)	4.8	4.8	(3.5)	(3.5)	
Amortization of net actuarial loss	8.6	4.1	3.0	1.2	
Regulatory deferral *	-	4.5	-	(1.3)	
Net periodic benefit cost	\$14.0	\$21.9	\$ 7.7	\$ 2.3	

^{*} The PSCW authorized recovery for net increased 2009 pension and other postretirement benefit costs related to plan asset losses that occurred in 2008. Amortization and recovery of these deferred costs occurred in 2010.

Assumptions – Pension and Other Postretirement Benefit Plans

The weighted-average assumptions used at December 31 to determine benefit obligations for the plans were as follows:

	Pension I	nsion Benefits		enefits
	2011	2010	2011	2010
Discount rate	5.10%	5.80%	5.04%	5.80%
Rate of compensation increase	4.28%	4.29%	N/A	N/A
Assumed medical cost trend rate (under age 65)	N/A	N/A	7.00%	7.50%
Ultimate trend rate	N/A	N/A	5.00%	5.00%
Year ultimate trend rate is reached	N/A	N/A	2016	2016
Assumed medical cost trend rate (over age 65)	N/A	N/A	7.50%	8.00%
Ultimate trend rate	N/A	N/A	5.50%	5.50%
Year ultimate trend rate is reached	N/A	N/A	2016	2016
Assumed dental cost trend rate	N/A	N/A	5.00%	5.00%
FERC FORM NO. 1 (ED. 12-88)	Page 123.2	25		

Name of Respondent	This Report is:	Date of Report	Year/Period of Report
	(1) <u>X</u> An Original	(Mo, Da, Yr)	· I
Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4
	NOTES TO FINANCIAL STATEMENTS (Continued)	

The weighted-average assumptions used to determine net periodic benefit cost for the plans were as follows for the years ended December 31:

	<u>Pension Benefits</u>		
	2011	2010	
Discount rate	5.80%	6.15%	
Expected return on assets	8.25%	8.50%	
Rate of compensation increase	4.28%	4.29%	

	<u>Other E</u>	<u>Benefits</u>
	2011	2010
Discount rate	5.80%	6.05%
Expected return on assets	8.25%	8.50%
Assumed medical cost trend rate (under age 65)	7.50%	8.00%
Ultimate trend rate	5.00%	5.00%
Year ultimate trend rate is reached	2016	2013
Assumed medical cost trend rate (over age 65)	8.00%	8.50%
Ultimate trend rate	5.50%	5.50%
Year ultimate trend rate is reached	2016	2013
Assumed dental cost trend rate	5.00%	5.00%

We establish our expected return on assets assumption based on consideration of historical and projected asset class returns, as well as the target allocations of the benefit trust portfolios.

Assumed health care cost trend rates have a significant effect on the amounts reported by us for the health care plans. For the year ended December 31, 2011, a one-percentage-point change in assumed health care cost trend rates would have had the following effects:

	One-Percentage-Point		
Millions) Increas		Decrease	
Effect on total of service and interest cost components of net			
periodic postretirement health care benefit cost	\$ 4.0	\$ (3.2)	
Effect on the health care component of the accumulated			
postretirement benefit obligation	45.7	(36.8)	

Pension and Other Postretirement Benefit Plan Assets

Integrys Energy Group's investment policy includes various guidelines and procedures designed to ensure assets are invested in an appropriate manner to meet expected future benefits to be earned by participants. The investment guidelines consider a broad range of economic conditions. The policy is established and administered in a manner that is compliant at all times with applicable regulations.

Central to the policy are target allocation ranges by major asset categories. The objectives of the target allocations are to maintain investment portfolios that diversify risk through prudent asset allocation parameters and to achieve asset returns that meet or exceed the plans' actuarial assumptions and that are competitive with like instruments employing similar investment strategies. The portfolio diversification provides protection against significant concentrations of risk in the plan assets. The target asset allocations for pension and other postretirement benefit plans that have significant assets are: 70% equity securities and 30% fixed income securities. Equity securities primarily include investments in large-cap and small-cap companies. Fixed income securities primarily include corporate bonds of companies from diversified industries, United States government securities, and mortgage-backed securities.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report

Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4
NOTE	S TO FINANCIAL STATEMENTS (Continued)	•

The Board of Directors of Integrys Energy Group established the Employee Benefits Administrator Committee (composed of members of Integrys Energy Group and its subsidiaries' management) to manage the operations and administration of all its and its subsidiaries' benefit plans and trusts. The committee periodically reviews the asset allocation and the portfolio is rebalanced when necessary.

Pension and other postretirement benefit plan investments are recorded at fair value. Information regarding the fair value hierarchy and the classification of fair value measurements based on the types of inputs used are discussed in Note 1(r), "Summary of Significant Accounting Policies – Fair Value."

The following table provides the fair value of our investments by asset class:

				December	31, 201 <i>′</i>	1

NOTE	S TO FINANCIAL STATEMENTS (Continued	1)	

Cash Flows Related to Pension and Other Postretirement Benefit Plans

Our funding policy is to contribute at least the minimum amounts that are required to be funded under the Employee Retirement Income Security Act, but not more than the maximum amounts that are currently deductible for income tax purposes. We expect to contribute \$112.5 million to pension plans and \$12.4 million to other postretirement benefit plans in 2012, dependent upon various factors affecting us, including our liquidity position and tax law changes.

The following table shows the payments, reflecting expected future service, that we expect to make for pension and other postretirement benefits. In addition, the table shows the expected federal subsidies, provided under the Medicare Prescription Drug, Improvement and Modernization Act of 2003, which will partially offset other postretirement benefits.

(Millions)	Pension Benefits	Other Benefits	Federal Subsidies
2012	\$ 41.4	\$12.5	\$(0.8)
2013	42.3	13.0	(0.9)
2014	43.3	13.7	(0.9)
2015	46.4	14.4	(1.0)
2016	47.8	15.3	(1.0)
2017-2021	256.0	92.4	(5.5)

Defined Contribution Benefit Plans

Integrys Energy Group maintains a 401(k) Savings Plan for substantially all of our full-time employees. A percentage of employee contributions are matched through an employee stock ownership plan (ESOP) contribution up to certain limits. Certain union employees receive a contribution to their ESOP account regardless of their participation in the 401(k) Savings Plan. Employees who are no longer eligible to participate in the defined benefit pension plan participate in a defined contribution pension plan, in which certain amounts are contributed to an employee's account based on the employee's wages, age, and years of service. Our share of the total costs incurred under these plans was \$5.0 million in 2011, and \$4.7 million in 2010.

Integrys Energy Group maintains deferred compensation plans that enable certain key employees, including some who are our employees, to defer a portion of their compensation on a pre-tax basis. The deferred compensation arrangements for which distributions are made solely in Integrys Energy Group common stock are classified as an equity instrument on the balance sheet. Changes in the fair value of this portion of the deferred compensation obligation are not recognized. The deferred compensation obligation classified as an equity instrument was \$8.2 million at December 31, 2011, and \$11.2 million at December 31, 2010.

The portion of the deferred compensation obligation that is indexed to various investment options and allows for distributions in cash is classified as a liability on the balance sheet. The liability is adjusted, with a charge or credit to expense, to reflect changes in the fair value of the deferred compensation obligation. The obligation classified within other long-term liabilities was \$15.5 million at December 31, 2011, and \$35.7 million at December 31, 2010. The costs incurred under this arrangement were \$0.5 million in 2011, and \$3.4 million in 2010. The reduction to the long-term liability at December 31, 2011 is due to a change in the administration of the plan in 2011.

NOTES TO FINANCIAL STATEMENTS (Continued)				

NOTE 14—PREFERRED STOCK

We have 1,000,000 authorized shares of preferred stock with no mandatory redemption and a \$100 par value. Outstanding shares were as follows at December 31:

(Millions, except share amounts)	201	1	2010)
	Shares Outstanding	Carrying Value	Shares Outstanding	Carrying Value
5.00%	131,916	\$13.2	131,916	\$13.2
5.04%	29,983	3.0	29,983	3.0
5.08%	49,983	5.0	49,983	5.0
6.76%	150,000	15.0	150,000	15.0
6.88%	150,000	15.0	150,000	15.0
Total	511,882	\$51.2	511,882	\$51.2

All shares of preferred stock of all series are of equal rank except as to dividend rates and redemption terms. Payment of dividends from any earned surplus or other available surplus is not restricted by the terms of any indenture or other undertaking by us. Each series of outstanding preferred stock is redeemable in whole or in part at our option at any time on 30 days' notice at the respective redemption prices. We may not redeem less than all, nor purchase any, of our preferred stock during the existence of any dividend default.

In the event of our dissolution or liquidation, the holders of preferred stock are entitled to receive (a) the par value of their preferred stock out of the corporate assets other than profits before any of such assets are paid or distributed to the holders of common stock and (b) the amount of dividends accumulated and unpaid on their preferred stock out of the surplus or net profits before any of such surplus or net profits are paid to the holders of common stock. Thereafter, the remainder of the corporate assets, surplus, and net profits would be paid to the holders of common stock.

The preferred stock has no pre-emptive, subscription, or conversion rights, and has no sinking fund provisions.

NOTE 15—COMMON EQUITY

Various laws, regulations, and financial covenants impose restrictions on our ability to pay dividends to the sole holder of our common stock, Integrys Energy Group.

The PSCW allows us to pay normal dividends on our common stock of no more than 103% of the previous year's common stock dividend. In addition, the PSCW currently requires us to maintain a calendar year average financial common equity ratio of 50.24% or higher. We must obtain PSCW approval if the payment of dividends would cause us to fall below this authorized level of common equity. Integrys Energy Group's right to receive dividends on our common stock is also subject to the prior rights of our preferred shareholders and to provisions in our restated articles of incorporation, which limit the amount of common stock dividends that we may pay if our common stock and common stock surplus accounts constitute less than 25% of our total capitalization.

Our short-term debt obligations contain financial and other covenants, including but not limited to, a requirement to maintain a debt to total capitalization ratio not to exceed 65%. Failure to comply with these covenants could result in an event of default which could result in the acceleration of outstanding debt obligations.

As of December 31, 2011, our total restricted net assets were approximately \$1,089.8 million. Our equity in undistributed earnings of 50% or less owned investees accounted for by the equity method was \$26.2 million at December 31, 2011.

Except for the restrictions described above and subject to applicable law, we do not have any other significant dividend restrictions.

Integrys Energy Group may provide equity contributions to us or request a return of capital from us in order to maintain utility common equity levels consistent with those allowed by the PSCW. Wisconsin law prohibits us from making loans to

NOT	ES TO FINANCIAL STATEMENTS (Continued)	

or guaranteeing obligations of Integrys Energy Group or its other subsidiaries. During the twelve months ended December 31, 2011, we returned \$89.3 million of capital to Integrys Energy Group, paid common stock dividends of \$102.5 million to Integrys Energy Group, and received \$20.0 million of equity contributions from Integrys Energy Group.

NOTE 16—STOCK-BASED COMPENSATION

Our employees may be granted awards under Integrys Energy Group's stock-based compensation plans. At December 31, 2011, stock options, performance stock rights, and restricted share units were outstanding under various plans. Compensation cost associated with these awards is allocated to us based on the percentages used for allocation of the award recipients' labor costs.

The following table reflects the stock-based compensation expense and the related deferred tax benefit recognized in income for the years ended December 31:

(Millions)	2011	2010
Performance stock rights	\$1.3	\$3.8
Restricted shares and restricted share units	2.3	3.7
Total stock-based compensation expense	\$3.6	\$7.5
Income tax benefit	\$1.4	\$3.0

Compensation cost recognized for stock options was not significant during 2011 and 2010.

The total compensation cost capitalized for all awards during 2011 and 2010 was not significant.

Stock Options

Under the provisions of the 2010 Integrys Energy Group Omnibus Incentive Compensation Plan, no single employee who is Integrys Energy Group's chief executive officer or one of the other three highest compensated officers of Integrys Energy Group (including officers of its subsidiaries) can be granted options for more than 1,000,000 shares during any calendar year. All stock options granted to our employees are for the option to purchase shares of Integrys Energy Group common stock. No stock options can have a term longer than ten years. The exercise price of each stock option is equal to the fair market value of the stock on the date the stock option is granted. Generally, one-fourth of the stock options granted vest and become exercisable each year on the anniversary of the grant date.

The fair values of stock option awards granted were estimated using a binomial lattice model. The expected term of option awards is calculated based on historical exercise behavior and represents the period of time that options are expected to be outstanding. The risk-free interest rate is based on the United States Treasury yield curve. The expected dividend yield incorporates the current and historical dividend rate of Integrys Energy Group. The expected stock price volatility was estimated using its 10-year historical volatility. The following table shows the weighted-average fair values per stock option along with the assumptions incorporated into the valuation models:

	2011 Grant	2010 Grant
Weighted-average fair value per option	\$6.57	\$5.30
Expected term	5 years	6 years
Risk-free interest rate	0.27% - 3.90%	2.38%
Expected dividend yield	5.34%	5.46%
Expected volatility	25%	25%

Name of Respondent	This Report is:	Date of Report	Year/Period of Report		
·	(1) <u>X</u> An Original	(Mo, Da, Yr)	·		
Wisconsin Public Service Corporation	(2) A Resubmission	04/18/2012	2011/Q4		
NOTES TO FINANCIAL STATEMENTS (Continued)					

A summary of stock option activity for 2011 and information related to outstanding and exercisable stock options at December 31, 2011, is presented below:

	Stock Options	Weighted- Average Exercise Price Per Share	Weighted- Average Remaining Contractual Life (in Years)	Aggregate Intrinsic Value (Millions)
Outstanding at December 31, 2010	154,963	\$47.10		
Granted	15,293	49.40		
Exercised	(35,280)	43.09		
Outstanding at December 31, 2011	134,976	\$48.41	5.44	\$0.8
Exercisable at December 31, 2011	87,561	\$50.24	4.05	\$0.4

As of December 31, 2011, future compensation cost expected to be recognized for unvested and outstanding stock options was not significant.

Cash received from option exercises was not significant during 2011 and 2010.

The aggregate intrinsic value for outstanding and exercisable options in the above table represents the total pre-tax intrinsic value that would have been received by the option holders had they all exercised their options at December 31, 2011. This is calculated as the difference between Integrys Energy Group's closing stock price on December 31, 2011, and the option exercise price, multiplied by the number of in-the-money stock options. The intrinsic value of options exercised during 2011 and 2010 was not significant.

Performance Stock Rights

Performance stock rights vest over a three-year performance period. For accounting purposes, awards granted to retirement eligible employees vest over a shorter period; however, the distribution of these awards is not accelerated. No single employee who is Integrys Energy Group's chief executive officer or one of the other three highest compensated officers of Integrys Energy Group (including officers of its subsidiaries) can receive a payout in excess of 250,000 performance shares during any calendar year. Performance stock rights are either paid out in shares of Integrys Energy Group common stock or an eligible employee can elect to defer the value of their awards into the deferred compensation plan and choose among various investment options, some of which are ultimately paid out in Integrys Energy Group common stock and some of which are ultimately paid out in cash. Beginning in 2011, eligible employees can now only elect to defer up to 80% of the value of their awards. The number of shares paid out is calculated by multiplying a performance percentage by the number of outstanding stock rights at the completion of the performance period. The performance percentage is based on the total shareholder return of Integrys Energy Group's common stock relative to the total shareholder return of a peer group of companies. The payout may range from 0% to 200% of target.

Performance stock rights are accounted for as either an equity award or a liability award depending on their settlement features. Awards that can only be settled in shares of Integrys Energy Group common stock are accounted for as equity awards. Awards that an employee has elected to defer or is still able to defer into the deferred compensation plan are accounted for as liability awards and are recorded at fair value each reporting period.

Six months prior to the end of the performance period, employees can no longer change their election to defer the value of their performance stock rights into the deferred compensation plan. As a result, any awards not elected for deferral at this point in the performance period will be settled in Integrys Energy Group's common stock. This changes the classification of these awards from a liability award to an equity award. The change in classification is accounted for as an award modification. The fair value on the modification date is used to measure these awards for the remaining six months of the performance period. No incremental compensation expense is recorded as a result of this award modification.

Name of Respondent	This Report is:		Year/Period of Report

Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4		
NOTES TO FINANCIAL STATEMENTS (Continued)					

The fair values of performance stock rights were estimated using a Monte Carlo valuation model. The risk-free interest rate is based on the United States Treasury yield curve. The expected dividend yield incorporates the current and historical dividend rate of Integrys Energy Group. The expected volatility was estimated using one to three years of historical data. The table below reflects the assumptions used in the valuation of the outstanding grants at December 31:

	2011	2010
Risk-free interest rate	0.00% - 1.27%	0.21% - 0.56%
Expected dividend yield	5.28% - 5.34%	5.34%
Expected volatility	21% - 36%	20% - 34%

A summary of the 2011 activity related to performance stock rights accounted for as equity awards is presented below:

	Performance Stock Rights	Weighted-Average Fair Value *
Outstanding at December 31, 2010	-	\$ -
Granted	697	49.21
Award modifications	3,932	45.62
Outstanding at December 31, 2011	4,629	*46.16

^{*} Reflects the weighted-average fair value used to measure equity awards. Equity awards are measured using the grant date fair value or the fair value on the modification date.

A summary of the 2011 activity related to performance stock rights accounted for as liability awards is presented below:

	Performance
	Stock Rights
Outstanding at December 31, 2010	10,272
Granted	2,781
Award modifications	(3,932)
Distributed	(4,100)
Adjustment for final payout	794
Outstanding at December 31, 2011	5,815

The weighted-average fair value of all outstanding performance stock rights accounted for as liability awards as of December 31, 2011, was \$57.54 per performance stock right.

As of December 31, 2011, future compensation cost expected to be recognized for unvested and outstanding performance stock rights (equity and liability awards) was not significant.

The total intrinsic value of performance stock rights distributed during the years ended December 31, 2011 and 2010 was not significant.

Restricted Shares and Restricted Share Units

Restricted shares and restricted share units generally have a four-year vesting period, with 25% of each award vesting on each anniversary of the grant date. During the vesting period, restricted share recipients had voting rights and were entitled to dividends in the same manner as other Integrys Energy Group common shareholders. Restricted share unit recipients do not have voting rights, but they receive Integrys Energy Group dividend equivalents in the form of additional restricted share units. During 2011, the last of the outstanding restricted shares vested. Only restricted share units remain outstanding at December 31, 2011.

Restricted shares and restricted share units are accounted for as either an equity award or a liability award depending on their settlement features. Awards that can only be settled in shares of Integrys Energy Group common stock and cannot be deferred into the deferred compensation plan are accounted for as equity awards. Beginning in 2011, eligible

NOTES TO FINANCIAL STATEMENTS (Continued)					

employees can now only elect to defer up to 80% of their awards into the deferred compensation plan. Equity awards are measured based on the fair value on the grant date. Awards that an employee has elected to defer into the deferred compensation plan are accounted for as liability awards and are recorded at fair value each reporting period.

A summary of the activity related to all restricted share and restricted share unit awards (equity and liability awards) for the year ended December 31, 2011, is presented below:

	Restricted Share and Restricted Share Unit Awards	Weighted-Average Grant Date Fair Value
Outstanding at December 31, 2010	60,432	\$43.12
Granted	23,488	49.40
Dividend equivalents	3,234	44.87
Vested	(19,927)	43.86
Outstanding at December 31, 2011	67,227	\$45.18

As of December 31, 2011, \$1.1 million of compensation cost related to these awards was expected to be recognized over a weighted-average period of 2.5 years.

The total intrinsic value of restricted share and restricted share unit awards vested for the year ended December 31, 2011, was \$1.0 million, and was not significant for the year ended December 31, 2010. The actual tax benefit realized for the tax deductions from the vesting of restricted shares and restricted share units during the years ended December 31, 2011 and 2010 was not significant.

The weighted-average grant date fair value of restricted shares and restricted share units awarded during the years ended December 31, 2011 and 2010 was \$49.40 and \$41.58 per share, respectively.

NOTE 17—VARIABLE INTEREST ENTITIES

We have a variable interest in an entity through a power purchase agreement relating to the cost of fuel. This agreement contains a tolling arrangement in which we supply the scheduled fuel and purchase capacity and energy from the facility. This contract expires in 2016. As of December 31, 2011 and December 31, 2010, we had approximately 500 megawatts of capacity available under this agreement.

At December 31, 2011, the assets and liabilities on the balance sheet that related to our involvement with this variable interest entity pertained to working capital accounts and represented the amounts we owed for current deliveries of power. We have not guaranteed any debt or provided any equity support, liquidity arrangements, performance guarantees, or other commitments associated with this contract. There is not a significant potential exposure to loss as a result of our involvement with the variable interest entity.

NOTE 18—FAIR VALUE

Fair Value Measurements

The following tables show assets and liabilities that were accounted for at fair value on a recurring basis, categorized by level within the fair value hierarchy:

		Decembe	er 31, 2011	
(Millions)	Level 1	Level 2	Level 3	Total
Risk management assets				
Natural gas contracts	\$0.1	\$ -	\$ -	\$0.1
FTRs	-	-	1.3	1.3
Petroleum products contracts	0.1	-	_	0.1
Total	\$0.2	\$ -	\$1.3	\$1.5
Risk management liabilities				
Natural gas contracts	\$2.5	\$ -	\$ -	\$2.5
FTRs	-	-	0.1	0.1
Coal contract	-	-	6.9	6.9
Total	\$2.5	\$ -	\$7.0	\$9.5
	December 31, 2010			
(Millions)	Level 1	Level 2	Level 3	Total
Risk management assets				
Natural gas contracts	\$0.4	\$ -	\$ -	\$0.4
FTRs	-	-	2.2	2.2
Petroleum products contracts	0.3	_	-	0.3
Coal contract	-	_	3.7	3.7
Total	\$0.7	\$ -	\$5.9	\$6.6
Risk management liabilities				
Natural gas contracts	\$2.3	\$ -	\$ -	\$2.3
FTRs	-	-	0.2	0.2
Coal contract			. 1.2	1.2
Total	\$2.3	\$ -	\$1.4	\$3.7

The risk management assets and liabilities listed in the tables above include NYMEX futures and options, as well as financial contracts used to manage transmission congestion costs in the MISO market. NYMEX contracts are valued using the NYMEX end-of-day settlement price, which is a Level 1 input. The valuation for FTRs is derived from historical data from MISO, which is considered a Level 3 input. The valuation for the physical coal contract is categorized in Level 3, as significant assumptions were made to extrapolate prices from the last quoted period through the end of the transaction term. For more information on our derivative instruments, see Note 2, "*Risk Management Activities*." There were no transfers between the levels of the fair value hierarchy during 2011.

Net realized gain included in earnings	4.0	_	4.0	
Net unrealized gain (loss) recorded as regulatory assets or liabilities	(1.2)	2.5	1.3	
Net purchases and settlements	(3.9)	-	(3.9)	
Balance at end of period	\$2.0	\$2.5	\$4.5	

Unrealized gains and losses on FTRs and the coal contract are deferred as regulatory assets or liabilities. Therefore, these fair value measurements have no impact on earnings. Realized gains and losses on FTRs, as well as the related transmission congestion costs, are recorded in cost of fuel, natural gas, and purchased power on the statement of income.

Fair Value of Financial Instruments

The following table shows the financial instruments included on our balance sheet that are not recorded at fair value:

	<u>20</u>	<u>2011</u>		<u>10</u>
	Carrying	Fair	Carrying	Fair
(Millions)	Amount	Value	Amount	Value
Long-term debt	\$721.3	\$816.7	\$871.1	\$924.3
Long-term debt to parent	7.9	9.2	8.6	10.0
Preferred stock	51.2	51.9	51.2	46.9

The fair values of long-term debt are estimated based on the quoted market price for the same or similar issues, or on the current rates offered to us for debt of the same remaining maturity. The fair values of preferred stock are estimated based on quoted market prices, when available, or by using a perpetual dividend discount model.

Due to the short-term nature of cash and cash equivalents, accounts receivable, accounts payable, notes payable, and outstanding commercial paper, the carrying amount for each such item approximates fair value.

NOTE 19—REGULATORY ENVIRONMENT

Wisconsin

2012 Rates

On December 9, 2011, the PSCW issued a final written order, effective January 1, 2012. It authorized an electric rate increase of \$8.1 million and required a natural gas rate decrease of \$7.2 million. The rate order allows for the netting of the 2010 electric decoupling under-collection with the 2011 electric decoupling over-collection. The rate order also allows

NOTES TO FINANCIAL STATEMENTS (Continued)						

for the deferral of direct Cross State Air Pollution Rule (CSAPR) compliance costs, including carrying costs. No amounts were deferred related to CSAPR as of December 31, 2011.

2011 Rates

On January 13, 2011, the PSCW issued a final written order authorizing an electric rate increase of \$21.0 million, calculated on a per-unit basis. Although the rate order included a lower authorized return on common equity, lower rate base, and other reduced costs, which resulted in lower total revenues and margins, the rate order also projected lower total sales volumes, which led to a rate increase on a per-unit basis. The rate order also included a projected increase in customer counts that did not materialize, which impacts the decoupling calculation as it adjusts for differences between the actual and authorized margin per customer. The \$21.0 million electric rate increase included \$20.0 million of recovery of prior deferrals, the majority of which related to the recovery of the 2009 electric decoupling deferral. The \$21.0 million excluded the impact of a \$15.2 million estimated fuel refund (including carrying costs) from 2010. The PSCW rate order also required an \$8.3 million decrease in natural gas rates, which included \$7.1 million of recovery for the 2009 decoupling deferral. The new rates were effective January 14, 2011, and reflected a 10.30% return on common equity, down from a 10.90% return on common equity in the previous rate order, and a common equity ratio of 51.65% in our regulatory capital structure.

The order also addressed the new Wisconsin electric fuel rule, which was finalized on March 1, 2011. The new fuel rule is effective retroactive to January 1, 2011. It requires the deferral of under or over-collections of fuel and purchased power costs that exceed a 2% price variance from the cost of fuel and purchased power included in rates. Under or over-collections deferred in the current year will be recovered or refunded in a future rate proceeding. As of December 31, 2011, \$2.2 million was deferred related to 2011 fuel and purchased power cost over-collections. All 2010 fuel cost over-collections were refunded to customers in 2011.

2010 Rates

On December 22, 2009, the PSCW issued a final written order, effective January 1, 2010. It authorized an electric rate increase of \$18.2 million, offset by an \$18.2 million refund of 2009 and 2008 fuel cost over-collections. It also authorized a retail natural gas rate increase of \$13.5 million. Based on an order issued on April 1, 2010, the remaining \$10.0 million of the total 2008 and 2009 fuel cost over-collections, plus interest of \$1.3 million, was refunded to customers in April and May 2010.

NOTE 20—RELATED PARTY TRANSACTIONS

We routinely enter into transactions with related parties, including Integrys Energy Group, its subsidiaries, and other entities in which we have material interests.

We provide and receive services, property, and other items of value to and from our parent, Integrys Energy Group, and other subsidiaries of Integrys Energy Group. All such transactions are made pursuant to an affiliated interest agreement ("Regulated Agreement") approved by the PSCW. MGU, MERC, UPPCO, PGL, and NSG (together with us, the "regulated subsidiaries") have all been added as parties to the Regulated Agreement and, like us, can also provide and receive services, property, and other items of value to and from their parent, Integrys Energy Group, and other regulated subsidiaries of Integrys Energy Group. We are also a party to an agreement with Integrys Energy Group and Integrys Energy Group's non-regulated subsidiaries. This affiliated interest agreement ("Non-Regulated Agreement") was also approved by the PSCW. The other regulated subsidiaries are not parties to the Non-Regulated Agreement. The Regulated Agreement requires that all services are provided at cost. The Non-Regulated Agreement provides that we must receive payment equal to the higher of our cost or fair value for services, property, and other items of value that we provide to Integrys Energy Group or its other non-regulated subsidiaries, and that we must make payments equal to the lower of the provider's cost or fair value for services, property, and other items of value that Integrys Energy Group or its other non-regulated subsidiaries provide to us. Modification or amendment to these agreements requires the approval of the PSCW.

IBS provides 15 categories of services (including financial, human resource, and administrative services) to us pursuant to an affiliated interest agreement (IBS AIA), which has been approved, or from which we have been granted appropriate

NOTES TO FINANCIAL STATEMENTS (Continued)						

waivers, by the appropriate regulators, including the PSCW. As required by FERC regulations for centralized service companies, IBS renders services at cost. The PSCW must be notified prior to making changes to the services offered under and the allocation methods specified in the IBS AIA. Other modifications or amendments to the IBS AIA would require PSCW approval. Recovery of allocated costs is addressed in our rate cases.

In 2010, a new affiliated interest agreement (Non-IBS AIA) that would govern the provision of intercompany services, other than IBS services, within Integrys Energy Group, was submitted to the PSCW for approval. The Non-IBS AIA was written primarily to limit the scope of services now provided by IBS that had been provided under the Regulated Agreement and the Non-Regulated Agreement. The Non-IBS AIA would replace these current agreements, except the IBS AIA, after proper approvals. The pricing methodologies from the current agreements would carry forward to the Non-IBS AIA. On January 23, 2012, the PSCW issued its final decision. We are currently evaluating the requirements in the final decision.

We provide repair and maintenance services to ATC under an Operation and Maintenance Services Agreement for Transmission Facilities approved by the PSCW. Services are billed to ATC under this agreement at our fully allocated cost.

The table below includes information related to transactions entered into with related parties as of December 31:

(Millions)	2011	2010
Notes payable (1)		
Integrys Energy Group	\$7.9	\$ 8.6
Benefit costs (2)		
Receivables from related parties	13.0	11.8
Liability related to income tax allocation		
Integrys Energy Group	8.0	9.0

- (1) WPS Leasing, our consolidated subsidiary, has a note payable to our parent company, Integrys Energy Group.
- (2) We serve as plan sponsor and administrator for certain other postretirement benefit plans. The net periodic benefit cost associated with the plans and the portions of the funded status not yet recognized in income are allocated among Integrys Energy Group's subsidiaries.

NOTES TO FINANCIAL STATEMENTS (Continued)						

The following table shows activity associated with related party transactions for the years ended December 31:

(Millions)	2011	2010
Electric transactions Sales to UPPCO	\$22.6	\$26.7
Natural gas transactions Sales to Integrys Energy Services Purchases from Integrys Energy Services	0.4 1.1	0.7 1.2
Interest expense ⁽¹⁾ Integrys Energy Group	0.7	0.8
Transactions with equity method investments Charges from ATC for network transmission services Charges to ATC for services and construction Net proceeds from WRPC sales of energy to MISO Purchases of energy from WRPC Revenues from services provided to WRPC Income from WPS Investments, LLC (2)	96.6 11.4 4.7 4.9 0.7 9.8	96.6 11.2 4.5 4.7 0.6 9.8

⁽¹⁾ WPS Leasing, our consolidated subsidiary, has a note payable to our parent company, Integrys Energy Group.

⁽²⁾ WPS Investments, LLC is a consolidated subsidiary of Integrys Energy Group that is jointly owned by Integrys Energy Group, UPPCO, and us. At December 31, 2011, we had a 12.27% interest in WPS Investments accounted for under the equity method. Our percentage ownership interests have continued to decrease as additional equity contributions are made by Integrys Energy Group to WPS Investments.

Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4			
	FOOTNOTE DATA					

Schedule Page: 216 Line No.: 42 Column: b

Formula Rate Construction Work In Progress (Production) = Average of current and prior year end balance. 2011 year-end balance equals (Page 216 Line 43 Column b less the following: Line 39 (projects under \$100,000), Lines 7, 15, 18, 19, 23, 26, 28, 35, 36 & 37 (distribution related projects) and Lines 1-3, 5-6, 9 and 14 (projects receiving 100% AFUDC treatment - i.e. no rate base)) multiplied by 50%.

(\$24,154,427 - \$3,701,586 - \$912,754 - \$299,738 - \$275,730 - \$271,255 - \$235,843 - \$167,524 - \$152,213 - \$109,058 - \$105,041 - \$100,616 - \$4,173,894 - \$1,771,342 - \$1,712,384 - \$1,204,283 - \$1,163,977 - \$695,232 - \$386,051) x 50% = \$3,357,953

Formula Rate Construction Work In Progress (Electric) = Average of current and prior year-end balance. 2011 year-end balance equals (Page 216 Line 43 Column b less Line 39 (projects under \$100,000) and less Lines 1-3, 5-6, 9 and 14 (project receiving 100% AFUDC treatment - i.e. no rate base)) multiplied by 50%.

(\$24,154,427 - \$3,701,586 - \$4,173,894 - \$1,771,342 - \$1,712,384 - \$1,204,283 - \$1,163,977 - \$695,232 - \$386,051) x 50% = \$4,672,839

Prior Year CWIP (see our 2010 FERC Form 1, Page 216):
Formula Rate Construction Work In Progress (Production) = Average of current and prior
year-end balance. 2010 year-end balance equals (Page 216 Line 43 Column b less Line 31
(projects under \$100,000), Lines 4, 8, 9, 22, 25 & 26 (distribution related projects) and
less Line 1 (project receiving 100% AFUDC treatment - i.e. no rate base)) multiplied by
50%.

(\$13,628,442 - \$3,054,577 - \$409,157 - \$293,696 - \$287,699 - \$141,274 - \$133,144 - \$119,813 - \$3,872,266) x 50% = \$2,658,408

Formula Rate Construction Work In Progress (Electric) = Average of current and prior year-end balance. 2010 year-end balance equals (Page 216 Line 43 Column b less Line 31 (projects under \$100,000) and less Line 1 (project receiving 100% AFUDC treatment - i.e. no rate base)) multiplied by 50%.

 $(\$13,628,442 - \$3,054,577 - \$3,872,266) \times 50\% = \$3,350,800$

CONSTRUCTION WORK IN PROGRESS AND COMPLETED CONSTRUCTION NOT CLASSIFIED - ELECTRIC (Accounts 107 and 106)

1. Report below descriptions and balances at end of year of projects in process of construction and completed construction not classified for projects actually in service. For any substantial amounts of completed construction not classified for plant actually in service explain the circumstances which have prevented final classification of such amounts to prescribed primary accounts for plant in service.

2. The information specified by this schedule for Account 106, Completed Construction

Not Classified-Electric, shall be furnished even though this account is included in the schedule, Electric Plant in Service, pages 204-211, according to a tentative classification by primary accounts.

- 3. Show items relating to "research and development" projects last under a caption Research and Developme (See Account 107, Uniform System of Accounts).
- 4. Minor projects may be grouped.

Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4				
FOOTNOTE DATA							

Schedule Page: 224 Line No.: 1 Column: b

We acquired a 33.12% interest in WRPC as approved by the PSCW Docket 2-U-2485, dated January 26, 1948. Ownership is a joint venture with Wisconsin Power and Light (a subsidiary of Alliant Energy). We purchased Consolidated Water Power Company's 33.76% interest, effective December 31, 2000.

Schedule Page: 224 Line No.: 2 Column: b

We sold a 16.88% interest in WRPC to Alliant, effective December 31, 2001.

Schedule Page: 224 Line No.: 3 Column: f

Dividends from WRPC.

Schedule Page: 224 Line No.: 6 Column: b

Original stock acquired in our June 5, 1933, merger with Wisconsin Valley Electric. PSCW Docket SB-2292, dated January 30, 1933.

Schedule Page: 224 Line No.: 7 Column: b

We acquired an additional 0.16% interest in Wisconsin Valley Improvement Company in November 2004 at par value. This was the result of a stockholder surrendering shares.

Schedule Page: 224 Line No.: 8 Column: f

Dividends from Wisconsin Valley Improvement Company.

Schedule Page: 224 Line No.: 11 Column: b

Affiliated Interest Agreement filed with the PSCW Docket 6690-AE-102, dated March 13, 1995.

Schedule Page: 224 Line No.: 16 Column: b

ATC Managament is the corporate manager of the ATC.

Schedule Page: 224 Line No.: 18 Column: f

Included in column (f) is a transfer of shares in ATC Management between us and UPPCO. Also included is a share transfer due to the conversion of Class B shares into Class A shares in ATC Management.

Schedule Page: 224 Line No.: 21 Column: b

Affiliated Interest Agreement Omnibus Application filed with the PSCW Docket 05-AE-102, dated October 3, 2000.

Schedule Page: 224 Line No.: 23 Column: f

WPS Investments holds our investment in the ATC. Included in column (f) are dividends from WPS Investments, LLC.

RECEIVABLES FROM ASSOCIATED COMPANIES (Accounts 145, 146)

- Report particulars of notes and accounts receivable from associated companies* at end of year.
- Provide separate headings and totals for Accounts 145, Notes Receivable from Associated Companies, and 146, Accounts Receivable from Associated Companies, in addition to a total for the combined accounts.
- For notes receivable, list each note separately and state purpose for which received. Show also in column (a) date of note, date of maturity and interest rate.
- 4. If any note was received in satisfaction of an open account, state the period covered by such open account.
- 5. Include in column (f) interest recorded as income during the year including interest on accounts and notes held any time during the year.
- 6. Give particulars of any notes pledged or discounted, also of any collateral held as guarantee of payment of any note or account

* NOTE: "Associated companies" means companies or persons that, directly or indirectly, through one or more intermediaries, control, or are controlled by, or are under common control with, the account company. This includes related parties.

"Control" (including the terms "controlling," "controlled by," and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of a company, whether such power is exercised through one or more intermediary companies, or alone, or in conjunction with, or pursuant to an agreement, and whether such power is established through a majority or minority ownership or voting of securities, common directors, officers or stockholders, voting trusts, holding trusts, associated companies, contract or any other direct or indirect means.

Due to the change in programs from CAIR to CSAPR during 2011, the EPA removed all 2012 and later NOx CAIR allowances from our account on 10/14/11. The CSAPR program has since been stayed and the 2012 NOx CAIR allowances were given back to us on 1/10/12. Those are not being included on this form since we did not have the allowances as of 12/31/11.

FOOTNOTE DATA							

Schedule Page: 232 Line No.: 1 Column: a

GAAP accounting requires that receivables be stated at their net realizable value. The PSCW follows the direct write-off approach in rates. Therefore, a regulatory asset is recorded to offset the Accumulated Provision for Uncollectible Accounts balance required by GAAP.

Schedule Page: 232 Line No.: 2 Column: a

The PSCW approved the request to defer a portion of our allocated share of incremental pre-certification and pre-construction costs relating to the construction of environmental upgrades at the Columbia and Edgewater 4 electric generation units.

Schedule Page: 232 Line No.: 3 Column: a

GAAP accounting requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through other comprehensive income (OCI). We received letter approval from the PSCW and the MPSC approving deferral of the effects of OCI to a regulatory asset rather than to shareholders' equity.

Schedule Page: 232 Line No.: 4 Column: a

The PSCW issued memorandums regarding deferral accounting for Manufactured Gas Plant Site Cleanup costs. The estimated projected liability amount was recorded to a deferred credit account with the offsetting debit to a regulatory asset account. PSCW Rate Order 6690-UR-120 authorized a return of insurance recoveries in the amount of \$15,000 per year and recovery of monitoring costs in the amount of \$40,500 per year for 2011 and 2012.

Schedule Page: 232 Line No.: 5 Column: a

Certain asset retirement obligations (ARO) are required to be recognized as a liability and measured at fair market value. The costs associated with the ARO are capitalized as part of the related assets' book cost and are depreciated over the expected life of the assets. Additionally, because the ARO is recorded initially at fair market value, accretion expense (similar to interest) is recognized as an operating expense in the income statement. We received written approval from the PSCW to record the offset to the depreciation expense and accretion as a regulatory asset/liability so that the income statement is not impacted.

Schedule Page: 232 Line No.: 6 Column: a

The Derivative and Hedging Topic of the FASB ASC requires mark-to-market accounting for derivative contracts. The difference between the cost and fair market value of the derivative contract is required to be recognized in income. We have received letter approval from the PSCW to defer the income effects of mark-to-market accounting for certain derivatives into a regulatory asset or liability account.

Schedule Page: 232 Line No.: 7 Column: a

FERC Rate Order ER-03-606-000 allowed amortization over a 20-year period beginning May 2003. PSCW Rate Order 6690-UR-115 allowed amortization over a 20-year period beginning January 2004. MPSC Rate Order U-13688 allowed amortization over a 20-year period beginning July 2003.

Schedule Page: 232 Line No.: 8 Column: a

PSCW Rate Order 6690-UR-120 allowed amortization over a 2-year period beginning January 2011.

Schedule Page: 232 Line No.: 9 Column: a

PSCW Rate Order 6690-UR-120 allowed amortization over a 2-year period beginning January 2011.

Schedule Page: 232 Line No.: 10 Column: a

PSCW Rate Order 6690-UR-119 allowed amortization over a 6-year period beginning January 2009.

Schedule Page: 232 Line No.: 11 Column: a

PSCW Docket 6690-GF-115 authorized deferred accounting treatment for the reduction in income taxes resulting from the extension of the Research and Experimentation credit under Section 41 of the Internal Revenue Code (IRC) and the Domestic Manufacturing Deduction under Section 199 of the IRC. The deferral also includes the cost to engage outside third

party experts to complete the analysis and computation of the benefit along with carrying costs at our authorized pre-tax weighted average cost of capital. PSCW Rate Order 6690-UR-120 allowed amortization of \$268,987 per year for 2011 and 2012. Additional credits are recorded for current year tax activity.

Schedule Page: 232 Line No.: 12 Column: a

PSCW Rate order 6690-UR-120 allowed amortization over a 2-year period beginning January 2011.

Schedule Page: 232 Line No.: 13 Column: a

The retail portion of gains from sales of SO2 emission allowances have been deferred and returned to ratepayers. The amount required to be returned to customers in prior years fully amortized the recorded liability balance and the remaining amortization was recorded as a regulatory asset. We will pursue recovery of this amount in a future rate case.

Schedule Page: 232 Line No.: 14 Column: a

PSCW Order 5-GF-179 authorized the deferral of costs associated with the revenue requirement impacts resulting from the Emergency Economic Stabilization Act of 2008. PSCW Rate Order 6690-UR-120 allowed amortization of \$13,013 per year for 2011 and 2012.

Schedule Page: 232 Line No.: 15 Column: a

PSCW Rate Orders have allowed conservation costs to be deferred. If costs incurred are in excess of recovery received/allowed, the balance is reclassified to a regulatory asset.

Schedule Page: 232 Line No.: 16 Column: a

PSCW Rate Order 6690-UR-119 approved a revenue stabilization mechanism program (Decoupling) for specified residential and small commercial and industrial customer tariffs. Any over- or under-collection of our margins per customer within the rate adjustment cap shall be included in our next full rate case or rate case reopener. Electric decoupling has a cap of plus/minus \$14 million per year. PSCW Rate Order 6690-UR-120 allowed amortization of \$14,436,532 for 2011, effective January 14, 2011.

Schedule Page: 232 Line No.: 17 Column: a

PSCW Rate Order 6690-UR-119 approved a revenue stabilization mechanism program (Decoupling) for specified residential and small commercial and industrial customer tariffs. Any over- or under-collection of our margins per customer within the rate adjustment cap shall be included in our next full rate case or rate case reopener. Gas decoupling has a cap of plus/minus \$8 million per year. PSCW Rate Order 6690-UR-120 allowed amortization of \$7,099,722 for 2011, effective January 14, 2011.

Schedule Page: 232 Line No.: 18 Column: a

We have net excess deferred income taxes due to higher income tax rates in earlier years. Over time these deferred taxes reverse and now we have a net excess deferred tax asset when netted against the excess deferred taxes related to Investment Tax Credit.

Schedule Page: 232 Line No.: 19 Column: a

PSCW Rate Order 6690-UR-120 allowed amortization over a 2-year period beginning January 2011.

Schedule Page: 232 Line No.: 20 Column: a

PSCW Amended Rate Order 6690-GF-126 authorized the deferral of the retail portion of incremental external legal and consultant costs and any other external undefined costs that we will incur to defend against claims made to date by the Sierra Club and the EPA for our generating units allegedly not in compliance with environmental requirements.

Schedule Page: 232 Line No.: 21 Column: a

PSCW Amended Rate Order 6690-GF-126 authorized the deferral of the retail portion of incremental external legal and consultant costs and any other external undefined costs that we will incur to defend against claims made to date by the Sierra Club and the EPA for our generating units allegedly not in compliance with environmental requirements.

Schedule Page: 232 Line No.: 22 Column: a

PSCW Rate Order 6690-UR-120 allowed amortization over a 2-year period beginning January 2011.

Schedule Page: 232 Line No.: 23 Column: a

Under provisions of the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (the 2010 Act), beginning in 2013, a portion of our expenditures for retiree prescription drug coverage would not be tax deductible. On the

FOOTNOTE DATA								

date of enactment in first quarter of 2010, a re-measurement of the deferred tax asset was triggered. On April 8, 2010, a joint filing was sent to the PSCW to request deferral of anticipated and potential costs of having to comply with the 2010 Act, including the re-measurement of deferred taxes. On December 16, 2010, the PSCW authorized deferral in Order 5-GF-195 and this deferral is reflected in the FERC Form 1. In the GAAP financial statements, the deferral is not reflected in the regulatory asset balance.

Schedule Page: 232 Line No.: 24 Column: a

PSCW Order 6690-GF-118 approved the request to defer a portion of our allocated share of pre-certification and pre-construction costs related to the construction of environmental upgrades at the Edgewater 4 electric generation unit.

SECURITIES ISSUED OR ASSUMED AND SECURITIES REFUNDED OR RETIRED **DURING THE YEAR**

- 1. Furnish a supplemental statement giving a brief description of security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses. Identify as to Commission authorization numbers and dates.
- 2. Furnish particulars (details) showing fully the accounting for the total principal amount, par value, or stated value of each class and series of security issued, assumed, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gains or losses relating to securities retired or refunded, including the accounting for such amounts carried in the respondent's accounts at the date of the refunding or refinancing transactions with respect to securities previously refunded or retired.
- 3. Include in the identification of each class and series of security, as appropriate, the interest or dividend

- rate, nominal date of issuance, maturity date, aggregate principle amount, par value or stated value, and number of shares. Give also the issuance of redemption price and name of the principal underwriting firm through which the security transactions were consummated.
- 4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 16 of the Uniform System of Accounts, give references to the commission authorization for the different accounting and state the accounting method.
- 5. For securities assumed, give the name of the company for which the liability on the securities was assumed as well as particulars (details) of the transactions whereby the respondent undertook to pay obligations of another company. If any unamortized discounts, premiums, expenses, and gains or losses were taken over onto the respondent's books, furnish details of these amounts with amounts relating to refunded securities clearly earmarked.

NOTES PAYABLE (Accounts 231)

- 1. Report the particulars indicated concerning notes payable at end of year.
- 2. Give particulars of collateral pledged, if any.
- 3. Furnish particulars for any formal or informal compensating balance agreements covering open lines or credit.
- 4. Any demand notes should be designated as such in column (d).

5. Minor amounts may be grouped by classes, showing the number of such amounts.

PAYABLES TO ASSOCIATED COMPANIES* (Accounts 233, 234)

- 1. Report particulars of notes and accounts payable to associated companies at end of year.
- 2. Provide separate totals for Accounts 233, Notes Payable to Associated Companies, and 234, Accounts Payable to Associated Companies, in addition to total for the combined accounts.
- 3. List each note separately and state the purpose for which issued. Show also in column (a) date of note, maturity and interest rate.
- 4. Include in column (f) the amount of any interest expense during the year on notes or accounts that were paid before the end of the year.
- 5. If collateral has been pledged as security to the payment of any note or account, describe such collateral.

*See definition on page 226B

Each corporation in the consolidation is taxed as a stand-alone corporation when allocating the federal income tax liability (per Integrys Energy Group and Consolidated Subsidiaries Tax Allocation Agreement under IRC 1.1561-3(a)). Consequently, intercompany sales and expenses are not eliminated when calculating individual federal taxable incomes and tax liabilities.

			FOOTNOTE DATA			
Schedule Page: 262	Line No.: 2	Column: f				

These adjustments include special fuel credits, income tax accruals/payments from affiliated companies, refunds and amortization of refunds from the IRS, and adjustments to account for the prior year's difference between actual and estimated income taxes.

Schedule Page: 262 Line No.: 2 Column: i

Our total 2011 Crane Creek production tax credits from wind generation are \$6,391,865 for formula rates. On our books for 2011, \$1,013,138 of this total was recorded as a reduction to current income tax expense (Account 409.1) with the remaining amount of \$5,378,727 recorded as a reduction to deferred income tax expense in Account 410. For formula rate purposes, the entire 2011 earned production tax credits are credits against 2011 formula rate income taxes.

Schedule Page: 262 Line No.: 3 Column: I

Apportioned between electric and gas utilities based on payroll.

Schedule Page: 262 Line No.: 4 Column: I

Apportioned between electric and gas utilities based on payroll.

FOOTNOTE DATA								

Schedule Page: 278 Line No.: 1 Column: a

PSCW rate orders have allowed conservation costs under or in excess of authorized amounts to be deferred. Effective January 14, 2011, PSCW Rate Order 6690-UR-120 allowed amortization of \$17,963,766 for electric utility operations and \$7,463,773 for natural gas operations. PSCW Rate Order 6690-UR-119 allowed deferral for any retail reduction impacts resulting from Wisconsin Act 141 billing limitations on certain retail customers and provided authorization for us to complete at least three community-based pilot programs. Effective January 14, 2011, PSCW Rate Order 6690-UR-120 allowed amortization for 2011 and 2012 of \$437,467 per year related to the 2009 Act 141 deferred costs and \$19,012,173 per year for costs related to Focus on Energy payments. If conservation costs incurred are in excess of recovery received/allowed, the balance is reclassified to a regulatory asset.

Schedule Page: 278 Line No.: 2 Column: a

The Derivative and Hedging Topic of the FASB ASC requires mark-to-market accounting for derivative contracts. The difference between the cost and fair market value of the derivative contract is required to be recognized in income. We have received letter approval from the PSCW to defer the income effects of mark-to-market accounting for certain derivatives into a regulatory asset or liability account.

Schedule Page: 278 Line No.: 3 Column: a

PSCW Rate Order 6690-UR-120 allowed amortization of \$22,449 per year for 2011 and 2012.

Schedule Page: 278 Line No.: 4 Column: a

GAAP accounting requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through other comprehensive income (OCI). We received letter approval from the PSCW and the MPSC approving deferral of the effects of OCI to a regulatory asset/liability rather than to shareholders' equity.

Schedule Page: 278 Line No.: 5 Column: a

Costs and benefits along with related interest income from tax audits are deferred for future refund to or recovery from customers as required by regulatory practice. PSCW Rate Order 6690-UR-120 authorized recovery of \$33,804 per year for 2011 and 2012.

Schedule Page: 278 Line No.: 6 Column: a

PSCW Rate Order 6690-UR-120 authorized amortization of \$509,368 per year for 2011 and 2012.

Schedule Page: 278 Line No.: 7 Column: a

PSCW Rate Order 6690-UR-119 approved a revenue stabilization mechanism program (Decoupling) for specified residential and small commercial and industrial customer tariffs. Any over- or under-collection of our margins per customer within the rate adjustment cap shall be included in our next full rate case or rate case reopener. Electric decoupling has a cap of plus/minus \$14 million per year.

Schedule Page: 278 Line No.: 8 Column: a

PSCW Rate Order 6690-UR-119 approved a revenue stabilization mechanism program (Decoupling) for specified residential and small commercial and industrial customer tariffs. Any over- or under-collection of our margins per customer within the rate adjustment cap shall be included in our next full rate case or rate case reopener. Gas decoupling has a cap of plus/minus \$8 million per year.

PARTICULARS CONCERNING CERTAIN OTHER INCOME ACCOUNTS

- Report in this schedule the information specified in the instructions below for the respective other income accounts. Provide a conspicuous subheading for each account and show a total for the account. Additional columns may be added for any account if deemed necessary.
- 2. Merchandising, Jobbing and Contract Work (Accounts 415 and 416) Describe the general nature of merchandising, jobbing and contract activities. Show revenues by class of activity, operating expenses classified as to operation, maintenance, depreciation, rents and net income before taxes. Give the bases of any allocations of expenses between utility and merchandising, jobbing and contract work activities
- 3. Nonutility Operations (Accounts 417 and 417.1) Describe each nonutility operation and show revenues, operating expenses classified as to operation, maintenance, depreciation, rents, amortization, and net income before taxes, from the operation. Give the bases of any allocations of expenses between utility and nonutility operations. The book cost of property classified as nonutility operations should be included in Account 121.
- 4. Nonoperating Rental Income (Account 418) For each major item of miscellaneous property included in Account 121, Nonutility Property, which is not used in operations for which income is included in Account 417, but which is leased or rented to others, give name of lessee. brief description of property, effective date and expiration

- date of lease, amount of rent revenues, operating expenses classified as to operation, maintenance, depreciation, rents, amortization, and net income, before taxes, from the rentals. If the property is leased on a basis other than that of a fixed annual rental, state the method of determining the rental. Minor items may be grouped by classes, but the number of items so grouped should be shown. Designate any lessees which are associated companies.
- 5. Equity in earnings of subsidiary companies (Account 418.1) Report the utility's equity in the earnings or losses of each subsidiary company for the year.
- 6. Interest and Dividend Income (Account 419) Report interest and dividend income, before taxes, identified as to the asset account or group of accounts in which are included the assets from which the interest or dividend income was derived. Income derived from investments, Accounts 123, 124 and 136 may be shown in total. Income from sinking and other funds should be identified with the related special funds. Show also expenses included in Account 419 as required by the Uniform System of Accounts.
- 7. Miscellaneous Nonoperating Income (Account 421) Give the nature and source of each miscellaneous nonoperating income, and expense and the amount for the year. Minor items may be grouped by classes.

ELECTRIC OPERATING REVENUES (Account 400)

- 1. Report below operating revenues for each prescribed account.
- 2. Report number of customers, columns (f) and (g), on the basis of meters, in addition to the number of flat rate accounts; except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
- 3. If increases or decreases from pervious year (columns (c), (e), and (g)), are not derived from previously reported figures explain any inconsistencies in a footnote.

	SALES FOR RESALE (Account 447) (C	continued)	•

- OS for other service. use this category only for those services which cannot be placed in the above-defined categories, such as all non-firm service regardless of the Length of the contract and service from designated units of Less than one year. Describe the nature of the service in a footnote.
- AD for Out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.
- 4. Group requirements RQ sales together and report them starting at line number one. After listing all RQ sales, enter "Subtotal RQ" in column (a). The remaining sales may then be listed in any order. Enter "Subtotal-Non-RQ" in column (a) after this Listing. Enter "Total" in column (a) as the Last Line of the schedule. Report subtotals and total for columns (9) through (k)
- 5. In Column (c), identify the FERC Rate Schedule or Tariff Number. On separate Lines, List all FERC rate schedules or tariffs under which service, as identified in column (b), is provided.
- 6. For requirements RQ sales and any type of-service involving demand charges imposed on a monthly (or Longer) basis, enter the average monthly billing demand in column (d), the average monthly non-coincident peak (NCP) demand in column (e), and the average monthly coincident peak (CP)
- demand in column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain.
- 7. Report in column (g) the megawatt hours shown on bills rendered to the purchaser.
- 8. Report demand charges in column (h), energy charges in column (i), and the total of any other types of charges, including out-of-period adjustments, in column (j). Explain in a footnote all components of the amount shown in column (j). Report in column (k) the total charge shown on bills rendered to the purchaser.
- 9. The data in column (g) through (k) must be subtotaled based on the RQ/Non-RQ grouping (see instruction 4), and then totaled on the Last -line of the schedule. The "Subtotal RQ" amount in column (g) must be reported as Requirements Sales For Resale on Page 401, line 23. The "Subtotal Non-RQ" amount in column (g) must be reported as Non-Requirements Sales For Resale on Page 401, line 24.
- 10. Footnote entries as required and provide explanations following all required data.

	SALES FOR RESALE (Account	t 447)	
1. Report all sales for resale (i.e., sales to power exchanges during the year. Do not for energy, capacity, etc.) and any settlemed Purchased Power schedule (Page 326-327).	report exchanges of electricity (i.e., trents for imbalanced exchanges on this	ansactions involving a ba	lancing of debits and credits

- Purchased Power schedule (Page 326-327).

 2. Enter the name of the purchaser in column (a). Do note abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the purchaser.
- 3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows: RQ for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e., the supplier includes projected load for this service in its system resource planning). In addition, the reliability of requirements service must be the same as, or second only to, the supplier's service to its own ultimate consumers.
- LF for tong-term service. "Long-term" means five years or Longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for Long-term firm service which meets the definition of RQ service. For all transactions identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or setter can unilaterally get out of the contract.
- IF for intermediate-term firm service. The same as LF service except that "intermediate-term" means longer than one year but Less than five years.
- SF for short-term firm service. Use this category for all firm services where the duration of each period of commitment for service is one year or less.
- LU for Long-term service from a designated generating unit. "Long-term" means five years or Longer. The availability and reliability of service, aside from transmission constraints, must match the availability and reliability of designated unit.
- IU for intermediate-term service from a designated generating unit. The same as LU service except that "intermediate-term" means Longer than one year but Less than five years.

	* Office ************************************	PURC	HASED POWER(Accoun (Including power exch	t 555) (Continued) anges)					
AD - for out-of-pe	riod adjustment. I	Use this code for	r any accounting adjust	ments or "true-ups"	for service provided	in prior reporting			
years. Provide ai	n explanation in a	footnote for each	n adjustment.						
In column (c), identify the FERC Rate Schedule Number or Tariff, or, for non-FERC jurisdictional sellers, include an appropriate esignation for the contract. On separate lines, list all FERC rate schedules, tariffs or contract designations under which service, as dentified in column (b), is provided.  For requirements RQ purchases and any type of service involving demand charges imposed on a monnthly (or longer) basis, enter ne monthly average billing demand in column (d), the average monthly non-coincident peak (NCP) demand in column (e), and the verage monthly coincident peak (CP) demand in column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly ICP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand luring the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns (e) and (f) nust be in megawatts. Footnote any demand not stated on a megawatt basis and explain.  Report in column (g) the megawatthours shown on bills rendered to the respondent. Report in columns (h) and (i) the megawatthours of power exchanges received and delivered, used as the basis for settlement. Do not report net exchange.  Report demand charges in column (j), energy charges in column (k), and the total of any other types of charges, including out-of-period adjustments, in column (j). Explain in a footnote all components of the amount shown in column (j). Report in column (m) the total charge shown on bills received as settlement by the respondent. For power exchanges, report in column (m) the settlement amount for the net receipt of energy. If more energy was delivered than received, enter a negative amount. If the settlement amount (l) include credits or charges other than incremental generation expenses, or (2) excludes certain credits or charges covered by the igreement, provide an explanatory footnote.  The total amount in column (j) must be reported as Exchange Delivered on Pa

	PURCHASED POWER(Account 555) (Including power exchanges)	(Continued)	,

- AD for out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.
- 4. In column (c), identify the FERC Rate Schedule Number or Tariff, or, for non-FERC jurisdictional sellers, include an appropriate designation for the contract. On separate lines, list all FERC rate schedules, tariffs or contract designations under which service, as identified in column (b), is provided.
- 5. For requirements RQ purchases and any type of service involving demand charges imposed on a monnthly (or longer) basis, enter the monthly average billing demand in column (d), the average monthly non-coincident peak (NCP) demand in column (e), and the average monthly coincident peak (CP) demand in column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain.
- 6. Report in column (g) the megawatthours shown on bills rendered to the respondent. Report in columns (h) and (i) the megawatthours of power exchanges received and delivered, used as the basis for settlement. Do not report net exchange.
- 7. Report demand charges in column (j), energy charges in column (k), and the total of any other types of charges, including out-of-period adjustments, in column (l). Explain in a footnote all components of the amount shown in column (l). Report in column (m) the total charge shown on bills received as settlement by the respondent. For power exchanges, report in column (m) the settlement amount for the net receipt of energy. If more energy was delivered than received, enter a negative amount. If the settlement amount (l) include credits or charges other than incremental generation expenses, or (2) excludes certain credits or charges covered by the agreement, provide an explanatory footnote.
- 8. The data in column (g) through (m) must be totalled on the last line of the schedule. The total amount in column (g) must be reported as Purchases on Page 401, line 10. The total amount in column (h) must be reported as Exchange Received on Page 401, line 12. The total amount in column (i) must be reported as Exchange Delivered on Page 401, line 13.
- 9. Footnote entries as required and provide explanations following all required data.

	PURCHASED POWER(Account 555) ( (Including power exchanges)	Continued)	
AD - for out-of-period adjustment. Use	e this code for any accounting adjustments	or "true-ups" for service	provided in prior reporting

- AD for out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.
- 4. In column (c), identify the FERC Rate Schedule Number or Tariff, or, for non-FERC jurisdictional sellers, include an appropriate designation for the contract. On separate lines, list all FERC rate schedules, tariffs or contract designations under which service, as identified in column (b), is provided.
- 5. For requirements RQ purchases and any type of service involving demand charges imposed on a monnthly (or longer) basis, enter the monthly average billing demand in column (d), the average monthly non-coincident peak (NCP) demand in column (e), and the average monthly coincident peak (CP) demand in column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain.
- 6. Report in column (g) the megawatthours shown on bills rendered to the respondent. Report in columns (h) and (i) the megawatthours of power exchanges received and delivered, used as the basis for settlement. Do not report net exchange.
- 7. Report demand charges in column (j), energy charges in column (k), and the total of any other types of charges, including out-of-period adjustments, in column (l). Explain in a footnote all components of the amount shown in column (l). Report in column (m) the total charge shown on bills received as settlement by the respondent. For power exchanges, report in column (m) the settlement amount for the net receipt of energy. If more energy was delivered than received, enter a negative amount. If the settlement amount (l) include credits or charges other than incremental generation expenses, or (2) excludes certain credits or charges covered by the agreement, provide an explanatory footnote.
- 8. The data in column (g) through (m) must be totalled on the last line of the schedule. The total amount in column (g) must be reported as Purchases on Page 401, line 10. The total amount in column (h) must be reported as Exchange Received on Page 401, line 12. The total amount in column (i) must be reported as Exchange Delivered on Page 401, line 13.
- 9. Footnote entries as required and provide explanations following all required data.

FOOTNOTE DATA						

Schedule Page: 326 Line No.: 1 Column: b

Termination Date October 31, 2011.

Schedule Page: 326 Line No.: 2 Column: b
Termination Date December 21, 2013.

Schedule Page: 326 Line No.: 4 Column: b

Termination Date May 31, 2016.

Schedule Page: 326 Line No.: 6 Column: I

Amount represents payments made for purchases of renewable energy credits.

#### Schedule Page: 326 Line No.: 7 Column: g

MISO purchases have been reported in accordance with FERC Order 668-A, which requires transactions for the real-time and day-ahead RTO administered energy markets to be separately reported for each hour. The total MISO purchases when the purchases and sales are netted on an hourly basis are 1,349,625 MWH.

#### Schedule Page: 326 Line No.: 7 Column: k

In accordance with FERC Order 668-A, the purchases as reported are calculated using the total gross purchases from MISO. The total purchases when the MISO purchases and sales are netted on an hourly basis are \$50,892,895.

# Schedule Page: 326 Line No.: 8 Column: I

Expenses related to Risk Management Activities and are not associated with any specific counterparty.

### Schedule Page: 326 Line No.: 10 Column: a

We own a 50% interest in WRPC.

#### Schedule Page: 326 Line No.: 11 Column: k

Other service includes General Purpose, Negotiated Capacity, Non-Firm Renewable.

# Schedule Page: 326.2 Line No.: 14 Column: k

A tariff adjustment to accommodate delivery point location changes as a result of the implementation of MISO Auction Revenue Rights.

# Schedule Page: 326.3 Line No.: 1 Column: k

The PSCW authorized a deferral of socialized costs and revenues related to a MISO Day 2 Agreement, which aggregated and allocated certain congestion costs and transmission line losses associated with the MISO Day 2 energy market. The socialization agreement resulted in transmission infrastructure improvements that lowered congestion costs and the cost of transmission losses more effectively than having each WUMS (Wisconsin Upper Michigan System) participant pursuing transmission infrastructure improvements for each individual utility's benefit. In rate order 6690-UR-120, the PSCW authorized amortization of approximately \$0.2 million per year for the WUMS socialization deferral for 2011 and 2012.

#### Schedule Page: 326.3 Line No.: 2 Column: k

On October 6, 2007, our Weston 3 coal-fired generating unit was struck by lightning and remained off-line until early January 2008. In a letter dated October 16, 2007, from the PSCW Administrator, we were authorized to defer replacement power costs related to the Weston 3 outage. In rate order 6690-UR-119, the PSCW authorized only partial recovery of the deferred replacement power costs without carrying costs over a 6-year period. PSCW Rate Order 6690-UR-119 authorized amortization of approximately \$3.6 million per year for the Weston 3 purchased power deferral for the years 2010 through 2014.

#### Schedule Page: 326.3 Line No.: 3 Column: k

The Weston 4 unit is jointly owned with Dairyland Power Cooperative (DPC). We invoice DPC for their portion of the off-line auxiliary power costs, resulting in a reduction to purchased power costs.

#### Schedule Page: 326.3 Line No.: 4 Column: g

Formula Rate Attachment B Megawatt Hours Purchased equals page 327 total column G, less column G line 7 MISO Megawatt Hours Purchased plus MISO Megawatt Hours Purchased, 668-A adjusted, from footnote line 7 column G.

 $7,284,490 \, (MWH) - 1,999,107 \, (MWH) + 1,349,625 \, (MWH) = 6,635,008 \, (MWH)$

1. Report all transmission, i.e. wheeling or electricity provided by other electric utilities, cooperatives, municipalities, other public authorities, qualifying facilities, and others for the quarter.  2. In column (a) report each company or public authority that provided transmission service. Provide the full name of the company, abbreviate if necessary, but do not truncate name or use acronyms. Explain in a footnote any ownership interest in or affiliation with the ransmission service provider. Use additional columns as necessary to report all companies or public authorities that provided ransmission service for the quarter reported.  3. In column (b) enter a Statistical Classification code based on the original contractual terms and conditions of the service as follows: FNS - Firm Network Transmission Service for Self, LFP - Long-Term Firm Point-to-Point Transmission Reservations, OLF - Other cong-Term Firm Transmission Service, SFP - Short-Term Firm Point-to-Point Transmission Reservations, NF - Non-Firm Transmission Service, and OS - Other Transmission Service. See General Instructions for definitions of statistical classifications.  4. Report in column (c) and (d) the total megawatt hours received and delivered by the provider of the transmission service.  5. Report in column (e), (f) and (g) expenses as shown on bills or vouchers rendered to the respondent. In column (e) report the demand charges and in column (f) energy charges related to the amount of energy transferred. On column (g) report the total of all other charges on bills or vouchers rendered to the respondent, including any out of period adjustments. Explain in a footnote all components of the amount shown in column (g). Report in column (h) the total charge shown on bills rendered to the respondent. If no monetary settlement was made, enter zero in column (h). Provide a footnote explaining the nature of the non-monetary settlement, nocluding the amount and type of energy or service rendered.  5. Enter "TOTAL" in column (a) as the last line.

#### LEASE RENTALS CHARGED

- 1. For purposes of this schedule a "lease" is defined as a contract or other agreement by which one party (lessor) conveys an intangible right or land or other tangible property and equipment to another (lessee) for a specified period of one year or more for rent.
- 2. Report below, for leases with annual charges of \$25,000 or more, but less than \$250,000 the data called for in columns a, b (description only), f, g and j.
- 3. For leases having annual charges of \$250,000 or more, report the data called for in all the columns below.
- 4. The annual charges referred to in Instruction 2 and 3 include the basic lease payment and other payments to or on behalf of the lessor such as taxes, depreciation, assumed interest or dividends on the lessor's securities, cost of replacements** and other expenditures with respect to leased property. The expenses paid by lessee are to be itemized in column (e) below.
- 5. Leases of construction equipment in connection with construction work in progress are not required to be reported herein. Continuous, master or open-end leases for EDP or office equipment, automobile fleets and other equipment that is short-lived and replace under terms of the lease or for the pole rentals shall report only the data called for in columns a, b (description only), f, g and j, unless the lessee has the option to purchase the property. 6. In column (a) report the name of the lessor. List lessors which are associated companies* (describing assocation) first, followed by non-associated lessors. 7. In column (b) for each leasing arrangement, report in order, classified by generating station, transmission line, distribution system, large substation, or other operating unit or system, followed by any other leasing arrangements not covered under the preceding classifications:

#### **LEASE RENTALS CHARGED (Continued)**

Description of property, whether lease is a sale and leaseback, whether lessee has option to purchase and conditions of purchase, whether lease is cancellable by either party and the cancellation conditions, the tax treatment used the accounting treatment of the lease payments (levelized charges to expense or other treatment), the basis of any charges apportioned between the lessor and lessee, and the responsibility of the respondent for operation and maintenance expenses and replacement of property. The above information is to be reported with initiation of the lease and thereafter when changed or every five years, which ever occurs first. 8. Report in column (d), as of the date of the current lease term, the original cost of the property leased, estimated if not known, or the fair market of the property if greater than original cost and indicate as shown. If leased property is part of a large unit, such as part of a building, indicate without associating any cost or value

- 9. Report in column (k) below the estimated remaining annual charges under the current term of the lease. Do not apply a present value to the estimate. Assume that cancellable leases will not be cancelled when estimating the remaining charges.
- * See definition on page 226 (B)

	FOOTNOTE DATA		

Schedule Page: 336 Line No.: 1 Column: d

The functional breakdown of Amortization of Limited Term Electric Plant for software (Account 404) is as follows:

Steam Production	\$	63 <b>,</b> 179
Hydraulic Production-Conventional		21,513
Other Production		121,655
Distribution		225 <b>,</b> 967
General		256 <b>,</b> 897
Common Electric		551,105
Total Amortization	\$1	,240,316

#### Schedule Page: 336 Line No.: 12 Column: e

Account 403.1 is not used due to the fact that we have received specific approval from our primary regulator, the PSCW, to defer depreciation expense related to asset retirement costs to a regulatory liability account.

# PARTICULARS CONCERNING CERTAIN INCOME DEDUCTIONS AND INTEREST CHARGES ACCOUNTS

Report the information specified below, in the order given, for the respective income deduction and interest charges accounts. Provide a subheading for each account and a total for the account. Additional columns may be added if deemed appropriate with respect to any account.

- (a) Miscellaneous Amortization (Account 425)-Describe the nature of items included in this account, the contra account charged, the total of amortization charges for the year, and the period of amortization.
- (b) Miscellaneous Income Deductions -- Report the nature, payee, and amount of other income deductions for the year as required by Accounts 426.1, Donations; 426.2, Life Insurance; 426.3, Penalties; 426.4, Expenditures for Certain Civic, Political and Related

Activities; and 426.5, Other Deductions, of the Uniform System of Accounts. Amounts of less than 5% of each account total for the year (or \$1,000, whichever is greater) may be grouped by classes within the above accounts.

- (c) Interest on Debt to Associated Companies (Account 430) -- For each associated company to which interest on debt was incurred during the year, indicate the amount and interest rate respectively for (a) advances on notes, (b) advances on open account, (c) notes payable, (d) accounts payable, and (e) other debt, and total interest. Explain the nature of other debt on which interest was incurred during the year.
- (d) Other Interest Expense (Account 431) -- Report particulars (details) including the amount and interest rate for other interest charges incurred during the year.

FOOTNOTE DATA							

Schedule Page: 352 Line No.: 9 Column: f

The balance reported for research, development, and demonstration activities is the amount recorded in the general ledger for activities in 2011 that have been determined to qualify. There is an annual study performed after the FERC Form 1 filing that calculates the balance for tax credit purposes.

	FOOTNOTE DATA		

Schedule Page: 401 Line No.: 10 Column: b

Purchases have been reported in accordance with FERC Order 668-A, which requires transactions for the real-time and day-ahead RTO administered energy markets to be reported separately for each hour. The total purchases when the MISO purchases and sales are netted on an hourly basis are 6,635,008 MWH.

Schedule Page: 401 Line No.: 24 Column: b

Non-requirement Sales for Resale have been reported in accordance with FERC Order 668-A, which requires transactions for the real-time and day-ahead RTO administered energy markets to be reported separately for each hour. The total sales when the MISO sales and purchases are netted on an hourly basis are 1,303,613 MWH.

Schedule Page: 401 Line No.: 29 Column: b

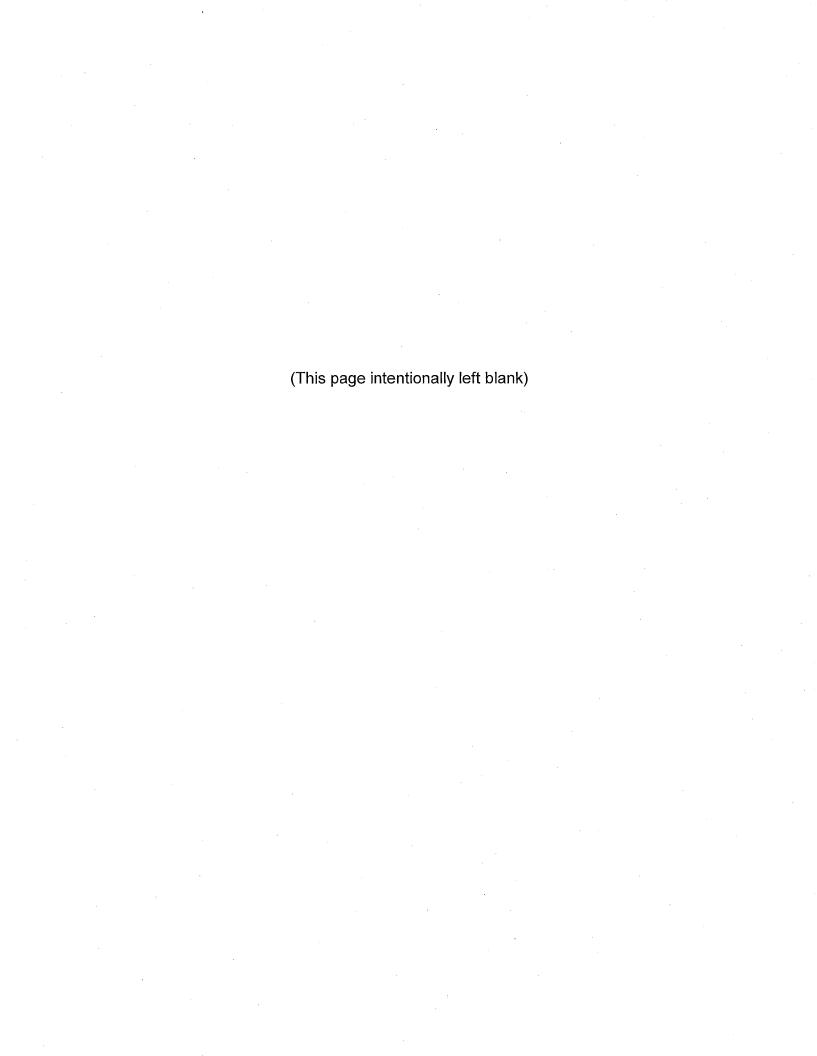

Column (b) includes firm, interruptible and non-requirement sales.

Schedule Page: 401 Line No.: 29 Column: c

Column (c) consists of non-requirement sales but excludes interruptible sales since interruptible sales are provided on a requirements basis subject to interruption on an emergency basis only.

Schedule Page: 401 Line No.: 29 Column: d

Column (d) consists of Firm Load only.

	FOOTNOTE DATA		

# Schedule Page: 402 Line No.: 16 Column: f

Asset Retirement Costs for retired Pulliam 3 and 4 units.

# Schedule Page: 402.1 Line No.: -1 Column: f

Joint ownership with Dairyland Power Cooperative (DPC). We are the builder and operator and have an ownership interest of 70%. DPC also owns approximately 15% of other Weston 4 common facilities.

#### Schedule Page: 402.2 Line No.: -1 Column: e

Joint ownership with Wisconsin Power and Light Company, builder and operator of the unit. Our ownership interest is 31.8%.

#### Schedule Page: 402.2 Line No.: -1 Column: f

Joint ownership with Wisconsin Power and Light Company, builder and operator of the unit. Our ownership interest is 31.8%.

### Schedule Page: 402.2 Line No.: 16 Column: e

Negative balance primarily due to revisions to fly ash landfills due to changes in estimates and estimated settlement dates.

#### Schedule Page: 402.3 Line No.: -1 Column: b

Designed for peak load service. Automatically operated plant.

### Schedule Page: 402.3 Line No.: -1 Column: c

Designed for peak load service. Automatically operated plant.

#### Schedule Page: 402.3 Line No.: -1 Column: d

Designed for peak load service. Automatically operated plant. As of February 1, 2011, we have 100% ownership interest.

#### Schedule Page: 402.3 Line No.: -1 Column: e

Designed for peak load service. Automatically operated plant.

### Schedule Page: 402.3 Line No.: -1 Column: f

Designed for peak load service. Automatically operated plant.

Wisconsin Public Service Corporation	(2) _ A Resubmission	04/18/2012	2011/Q4
	FOOTNOTE DATA		

Schedule Page: 410 Line No.: 21 Column: f
In December 2011, we removed the Eagle River unit from service. However, we will continue to report the land and structures that remain at the site.

#### Schedule Page: 410 Line No.: 21 Column: i

Amount is for disposal costs to remove oil from the tanks. This unit was decommissioned and did not run in 2011.

#### Schedule Page: 410 Line No.: 22 Column: i

Amount is for disposal costs to remove oil from the tanks. This unit was decommissioned and did not run in 2011.

#### STEAM ELECTRIC GENERATING PLANTS

- Include on this page steam-electric plants of 25,000 Kw (name plate rating) or more of installed capacity.
- 2. Report the information called for concerning generating plants and equipment at year end. Show unit type installation, boiler, and turbine-generator on same line.
- 3. Exclude plant, the book cost of which is located in Account 121, *Nonutility Property*.
- 4. Designate any generating plant or portion thereof for which the respondent is not the sole owner. If such property is leased from another company give name of lessor, date and term of lease, and annual rent. For any generating plant, other than a leased plant or portion thereof for which the respondent is not the sole
- owner but which the respondent operates or shares in the operation of, furnish a succinct statement explaining the arrangement and giving details as to such matters as percent ownership by respondent, name of co-owner, basis of sharing output, expenses or revenues, and how expenses and/or revenues are accounted for and accounts affected. Specify if lessor, co-owner, or other party is an associated company.
- 5. Designate any generating plant or portion thereof leased to another company and give name of lessee, date and term of lease and annual rent, and how determined. Specify whether lessee is an associated company.
- 6. Designate any plant or equipment owned, not operated, and not leased to another company. If such plant or equipment was not

^{30 *} Co-owned units that are operated by the majority owner - limited information available.

29

Columbia 1 & 2 and Edgewater 4 are jointly owned with Wisconsin Power and Light Company, builder and operator of the units.

Our ownership interest in each unit is 31.8%.

^{32 **} Weston 4 is jointly owned with Dairyland Power Cooperative. We are the builder and operator and have an ownership interest of 70%. Dairyland Power Cooperative also owns approximately 15% of other Weston 4 common facilities.

### **HYDROELECTRIC GENERATING PLANTS**

- 1. Report on this page Hydro plants of 10,000 Kw (name plate rating) or more of installed capacity.
- 2. Report the information called for concerning generating plants and equipment at year end. Show associated prime movers and generators on the same line.
- 3. Exclude from this schedule, plant, the book cost of which is included in Account 121, *Nonutility Property*,

the responsibility is not the sole owner. If such property is leased from another company, give name of lessor, date and term of lease, and annual rent. For any generating plant, other than a leased plant, or portion thereof, for which the respondent is not the sole owner but which respondent operates or shares in the operation of, furnish a succinct statement explaining the arrangement and giving particulars

4. D	esignate any plant or portion thereof for v	/hich	particulars

Wisconsin Public Service Corp.	(1) [X] An Original (2) [] A Resubmission	(Mo, Da, Yr) 04/30/12	December 31, 2011

#### **ELECTRIC DISTRIBUTION METERS AND LINE TRANSFORMERS**

- 1. Report below the information called for concerning distribution watt-hour meters and line transformers.
- 2. Include watt-hour demand distribution meters, but not external demand meters.
- 3. Show in a footnote the number of distribution watthour meters or line transformers held by the respondent under lease from others, jointly owned with others, or held otherwise than by reason of sole ownership by the respondent. If 500 or more meters

or line transformers are held under a lease, give name of lessor, date and period of lease, and annual rent. If 500 or more meters or line transformers are held other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of accounting for expenses between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lessor, co-owner, or other party is an associated company.
