MICHIGAN PUBLIC SERVICE COMMISSION

ANNUAL REPORT OF NATURAL GAS UTILITIES (MAJOR AND NONMAJOR)

This form is authorized by 1919 PA 419, as amended, authorizes this form being MCL 460.51 et seq.; and 1969 PA 306, as amended, being MCL 24.201 et seq. Filing of this form is mandatory. Failure to complete and submit this form will place you in violation of the Acts.

Report submitted for year ending:	December 31, 2004
Present name of respondent:	Michigan Consolidated Gas Company
Present DBA name in Michigan if different from leg	al name: N/A
Address of principal place of business:	2000 2nd Avenue
	Detroit, Michigan 48226-1279
Utility representative to whom inquiries regarding the	nis report may be directed:
Name: Daniel G. Brudzynski	Title: Vice President and Controller
Address: 2000 2nd Avenue	
City: Detroit	State: Michigan Zip Code: 48226-1279
Telephone, Including Area Code:	E-mail:
(313) 235-8485	
If the utility name has been changed during the pas	st year:
Prior Name: N/A	
Date of Change: N/A	
Two copies of the published annual report to stock	nolders:
[x] were forwarded to the Commission (two co	pies of Annual Report on Form 10K)
[] will be forwarded to the Commission	
on or about April 27, 2005	
Annual reports to stockholders:	
[] are published	[x] are not published

Should you have any questions regarding this report, please contact:

INSTRUCTIONS FOR THE FILING OF THE ANNUAL REPORT OF NATURAL GAS UTILITIES (MAJOR AND NONMAJOR)

GENERAL INFORMATION

I. <u>Purpose</u>:

By authority conferred upon the Michigan Public Service Commission by 1919 PA 419, as amended, being MCL 460.51 et seq. and 1969 PA 306, as amended, being MCL 24.201 et seq., this form is a regulatory support requirement. It is designed to collect financial and operational information from public utilities, licensees and others subject to the jurisdiction of the Michigan Public Service Commission. This report is a nonconfidential public use form.

II. Who Must Submit:

Each major and nonmajor gas company, as classified by the Commission's Uniform System of Accounts must submit this form.

NOTE: Major- A gas company having annual natural gas sales over 50 million Dth in each of the 3 previous calendar years.

Nonmajor - A gas company having annual natural gas sales at or below 50 million Dth in each of the 3 previous calendar years.

The class to which any utility belongs shall originally be determined by the average of its annual gas sales for the last three consecutive years. Subsequent changes in classification shall be made when the annual gas sales for each of the three immediately preceding years exceeds the upper limit, or is less than the lower limit of the classification previously applicable to the utility.

III. What and Where to Submit:

(a) Submit an original copy of this form to:

Michigan Public Service Commission Market Monitoring & Enforcement Section 6545 Mercantile Way P.O. Box30221 Lansing, MI 48909

Retain one copy of this report for your files.

(b) Submit immediately upon publication, one (1) copy of the latest annual report to stockholders and any annual financial or statistical report regularly prepared and distributed to bondholders, security analyst, or industry association. (Do not include monthly and quarterly reports. If reports to stockholders are not prepared, enter "NA" in column (c) on Page 5, the List of Schedules.) Mail these reports to:

Michigan Public Service Commission Market Monitoring & Enforcement Section 6545 Mercantile Way P.O. Box30221 Lansing, MI 48909

- (c) For the CPA certification, submit with the original submission of the form, a letter or report prepared in conformity with current standards of reporting which will:
 - (i) contain a paragraph attesting to the conformity, in all material aspects, of the schedules and pages listed below with the Commission's applicable Uniform Systems of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and

(ii) Signed by independent certified public accountants or an independent licensed public accountant, certified or licensed by a regulatory authority or a state or other political subdivision of the U.S. (See 18 CFR 41.10-41.12 for specific qualifications).

Schedules	Reference Page
Comparative Balance Sheet	110-113
Statement of Income	114-117
Statement of Retained Earnings	118-119
Statement of Cash Flows	120-121
Notes to Financial Statements	122-123

When accompanying this form, insert the letter or report immediately following the cover sheet. Use the following form for the letter or report unless unusual circumstances or conditions, explained in the letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

In connection with our regular examination of the financial statements of _______
for the year ended on which we have reported separately under date of _______ of Form P-522 for the year filed with the Michigan Public Service Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Our review for this purpose included such tests of accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Michigan Public Service Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

State in the letter or report which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

(d) Federal, state and local governments and other authorized users may obtain additional blank copies to meet their requirements for a charge from:

> Michigan Public Service Commission Market Monitoring &Enforcement Section 6545 Mercantile Way P.O. Box30221 Lansing, MI 48909

IV. When to Submit

Submit this report form on or before April 30 of the year following the year covered by this report.

GENERAL INSTRUCTIONS

- I. Prepare this report in conformity with the Uniform System of Accounts (USOA). Interpret all accounting words and phrases in accordance with the USOA.
- II. Enter in whole number (dollars or Dth) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required). The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to

- determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "NONE" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to respondent, either
 - (a) Enter the words "NOT APPLICABLE" on the particular page(s), or
 - (b) Omit the page(s) and enter "NA", "NONE", or "NOT APPLICABLE" in column on the List of Schedules, pages 2, 3 and 4.
- V. Complete this report by means which result in a permanent record. Complete the original copy in permanent black ink or typewriter print, if practical. The copies, however, may be carbon copies or other similar means of reproduction provided the impression are clear and readable.
- VI. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" at the top of each page is applicable only to resubmissions (See VIII, below).
- VII. Indicate negative amounts (such as decreases) by enclosing the figures in parentheses ().
- VIII. When making revisions, resubmit only those pages that have been changed from the original submission. Submit the same number of copies as required for filing the form. Include with the resubmission the identification and Attestation page, page 1. Mail dated resubmissions to:

Michigan Public Service Commission Market Monitoring & Enforcement Section 6545 Mercantile Way P.O. Box30221 Lansing, MI 48909

- IX. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement (8 ½ x 11 inch size) to the page being supplemented. Provide the appropriate identification information, including the title(s) of the page and page number supplemented.
- X. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- XI. Wherever (schedule) pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why the different figures were used.
- XII. Report all gas volumes on a pressure base of 14.65 psia and a temperature base 60° F.
- XIII. Respondents may submit computer printed schedules (reduced to 8 ½ x 11 inch size) instead of the preprinted schedules if they are in substantially the same format

DEFINITIONS

I. BTU per cubic foot - The total heating value, expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60°F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32°F, and under standard gravitational force (980.65 cm. Per sec.²) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)

- II. <u>Commission Authorization (Comm. Auth.)</u> The authorization of the Michigan Public Service Commission, or any other Commission. Name the Commission whose authorization was obtained and give the date of the authorization.
- II. Respondent The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2004

CONTROL OVER RESPONDENT

- 1. If any corporation, business trust, or similar organization or combination of such organization jointly held control over the respondent at end of year, state name of controlling corporation or organization, manner in which control was held, and extent of control. If control was a holding company organization, show the chain of ownership or control to the main parent company or organization. If control was held by a trustee(s), state name of trustee(s), name of beneficiary or beneficianes for whom trust was maintained, and purpose of the trust.
- List any entities which respondent did not control either directly or indirectly and which did not control respondent but which were associated companies at any time during the year.
- 3. If the above required information is available from the SEC 10-K Report Form filing, a specific reference reference to the report form (i.e. year and company title) may be listed provided the fiscal years for both the 10-K report and this report are compatible.

The above requested information is available on the joint filing by DTE Energy Company and DTE Enterprises, Inc. and Michcon Holdings, Inc. for the Securities and Exchange Commission Filing of Form U-3A-2 "Statement by Holding Company Claiming Exemption Under Rule U-3A-2 from the Provisions of the Public Utility Holding Company Act of 1935" for the year ended December 31, 2004 that was filed as part of their annual SEC report filing requirements. The applicable portion of the U-3A-2 filing is attached (pages 102.1 - 102.17).

I. NATURE OF BUSINESS OF CLAIMANTS AND EVERY SUBSIDIARY THEREOF

Claimant: DTE Energy Company

DTE Energy Company ("Company" or "DTE") is a Michigan corporation. DTE owns directly and indirectly, four utilities, The Detroit Edison Company ("Detroit Edison"), Michigan Consolidated Gas Company ("MichCon"), Citizens Gas Fuel Company ("Citizens"), and Southern Missouri Gas Company, L.P. ("SMGC"), and non-regulated subsidiaries engaged in energy marketing and trading, energy services, and various other electricity, coal and gas related businesses. The Company's address is 2000 2nd Avenue, Detroit, Michigan 48226-1279.

Claimant: DTE Enterprises, Inc.

DTE Enterprises, Inc. ("DTEE") owns directly and indirectly, three utilities, MichCon, Citizens, SMGC, and non-regulated subsidiaries primarily involved in natural gas production, gathering, processing, transmission, storage, distribution and marketing in the Midwest-to-Northeast corridor. DTEE is organized under the laws of the state of Michigan and has its principal executive offices at 2000 2nd Avenue, Detroit, Michigan 48226-1279.

Claimant: MichCon Holdings, Inc.

MichCon Holdings, Inc. is the holding company for MichCon and MichCon Enterprises, Inc. MichCon is a public utility engaged in the distribution and transmission of natural gas in the state of Michigan. MichCon's principal executive offices are located at 2000 2nd Avenue, Detroit, Michigan 48226-1279. MichCon conducts substantially all of its business in the state of Michigan and is subject to the jurisdiction of the Michigan Public Service Commission ("MPSC") as to various phases of its operations, including gas sales rates, service, and accounting. MichCon Enterprises, Inc. (a non-regulated affiliate) was formed to engage in non-regulated activities.

- 1. DTE Energy Company
- A. DTE Energy Resources, Inc. ("DTE ER") is a Michigan corporation. DTE ER is a wholly owned subsidiary of the Company with offices at 425 S. Main, Ann Arbor, Michigan 48104. DTE ER is engaged in energy services, electric generation, electric and gas marketing and trading and landfill gas projects.
 - 1. DTE Biomass Energy, Inc. ("DTE Biomass") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. DTE Biomass is a wholly owned subsidiary of DTE ER and is engaged in landfill gas projects.
 - a. Belleville Gas Producers, Inc. ("Belleville") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan, 48104. Belleville is a wholly owned subsidiary of DTE Biomass and it is engaged in landfill gas projects.
 - b. Birmingham Gas Producers, L.L.C. (1) ("Birmingham"), is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Birmingham is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
 - c. Coopersville Gas Producers, L.L.C. ("Coopersville"), was a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Coopersville was a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects. Coopersville was sold on July 1, 2004.
 - d. DTE Arbor Gas Producers, Inc. ("DTE Arbor") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. DTE Arbor is a wholly owned subsidiary of DTE Biomass and it is engaged in landfill gas projects.
 - e. Escambia Gas Producers, Inc., formerly ESCA Gas Producers, Inc., ("Escambia") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. Escambia is a wholly owned subsidiary of DTE Biomass and it is engaged in landfill gas projects.
 - f. Fayetteville Gas Producers, L.L.C., formerly Fayetteville Gas Company, L.L.C. ("Fayetteville") is a North Carolina company with offices located at 425 S. Main, Ann Arbor, Michigan 48104. Fayetteville is a wholly owned subsidiary of DTE Biomass and it is engaged in landfill gas projects.

- g. Fort Worth Gas Producers, L.L.C. ("Fort Worth") was a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Fort Worth was a wholly owned subsidiary of DTE Biomass and was engaged in landfill gas projects. Fort Worth was dissolved on February 13, 2004.
- h. Hillside Gas Producers, L.L.C. ("Hillside") is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Hillside is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- i. Kansas City Gas Producers, L.L.C. ("Kansas City") is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Kansas City is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- j. Montgomery Gas Producers, L.L.C. ("Montgomery"), is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Montgomery is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- k. Oklahoma Gas Producers, L.L.C. ("Oklahoma"), is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Oklahoma is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- 1. Orlando Gas Producers, Inc. ("Orlando"), is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. Orlando is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- m. Phoenix Gas Producers, L.L.C. ("Phoenix"), is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Phoenix is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- n. Plainville Gas Producers, Inc., formerly Sumpter Gas Producers, Inc., ("Plainville") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. Plainville is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- Polk Gas Producers, L.L.C. ("Polk") is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104.
 Polk is a 99% owned subsidiary of DTE Biomass and it is engaged in landfill gas projects.
- p. RES Power, Inc. ("RESP") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. RESP is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- q. Riverview Gas Producers, Inc. ("Riverview") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. Riverview is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- r. Roxana Gas Producers, Inc. ("Roxana") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. Roxana is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- s. Sonoma Energy Systems, Inc. ("Sonoma") is a Michigan corporation with offices at 425 S. Main, Ann Arbor, Michigan 48104. Sonoma is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- t. South Side Gas Producers, L.L.C. ("South Side") was a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. South Side was a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects. South Side was sold on July 1, 2004.
- u. St. Louis Gas Producers, L.L.C. ("St. Louis") is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. St Louis is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- v. Wake Gas Producers, L.L.C. ("Wake") is a North Carolina company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Wake is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.
- w. Westside Gas Producers, L.L.C. ("Westside") is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Westside is a wholly owned subsidiary of DTE Biomass and is engaged in landfill gas projects.

- x. Wichita Gas Producers, L.L.C. ("Wichita"), formerly BES/LES Gas Producers I, L.L.C., is a Michigan company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Wichita is a 90% owned subsidiary of DTE Biomass and is engaged in acquiring rights to, developing, collecting and selling landfill gas and related constituent products.
- y. Winston Gas Producers, L.L.C. ("Winston") is a North Carolina company with offices at 425 S. Main, Ann Arbor, Michigan 48104. Winston is a 99% owned subsidiary of DTE Biomass and is engaged in landfill gas projects.

CORPORATIONS CONTROLLED BY RESPONDENT

- Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly
 by respondent at any time during the year. If Control ceased prior to end of year, give particulars (details) in a footnote.
- If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.
- 3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.
- 4. If the above required information is available from the SEC 10-K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed in column (a) provided the fiscal years for both the I0-K and this report are compatible.

DEFINITIONS

- 1. See the Uniform System of Accounts for a definition of control.
- 2. Direct control is that which is exercised without interposition of an intermediary.
- 3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
- 4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

		Percent Voting	Footnote
Name of Company Controlled	Kind of Business	Stock Owned	Ref.
(a)	(b)	(c)	(d)
Blue Lake Holdings, Inc.	A 25% general partner in Blue Lake Gas Storage Company	100%	
MichCon Development Corporation	Real estate development. The corporation owned an interest in Harbortown a residential and small commencat development constructed along the Detroit River in Detroit Michigan. The assets of Harbortown were sold in December 2003.	100%

MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2004	DIDEO	FORO	
	MICHIGAN CONSOLIDATED GAS COMPANY	AN ORIGINAL	December 31, 2004

DIRECTORS

 Report below the information called for concerning each director of the respondent who held office at any time during the year. Include in column (a) abbreviated titles of the directors who are officers of the respondent.

2. Designate members of the Executive Committee by an asterisk and the

Chairman of the Executive Committee by a double asterisk.

Name (and Title) of Director (a)	Principal Business Address (b)	Number of Directors' Meetings During Year (c)(1)	Fees During Year (d)
Anthony F. Earley, Jr. Chairman, Chief Executive Officer and Chief Operating Officer	2000 2nd Avenue Detroit, MI 48226-1279	0	0
Susan M. Beale Vice President and Corporate Secretary David E. Meador	2000 2nd Avenue Detroit, MI 48226-1279	0	0
Executive Vice President and Chief Financial Officer	2000 2nd Avenue Detroit, MI 48226-1279	0	0

(1) MichCon Board of Directors held no scheduled meetings during 2004. As permitted by law, the Board acted on numerous matters by written consent.

SECURITY HOLDERS AND VOTING POWERS

- 1. (A) Give the names and addresses of the 10 security holders of the respondent who, at the date of the latest closing of the stock book or compilation of list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were then in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.), duration of trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not compiled within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders. (B) Give also the name and indicate the voting powers resulting from ownership of securities of the respondent of each officer and director not included in the list of 10 largest security holders.
- If any security other than stock carries voting rights, explain in a supplemental statement the circumstances whereby such security became vested with voting rights and give other important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent; if contingent, describe the contingency.
- 3. If any class or issue of security has any special privileges in the election of directors, trustees or mamagers, or in the determination of corporate action by any method, explain briefly in a footnote.
- 4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders. This instruction is inapplicable to convertible securities or to any securities substantially all of which are outstanding in the hands of the general public where the options, warrants, or rights were issued on a prorata basis.
- 1. Give date of the latest closing of the stock book prior to end of year, and state the purpose of such closing:

Not Applicable

State the total number of votes cast at the latest general meeting prior to the end of year for election of directors of the respondent and number of such vote cast by proxy

Not Applicable

3. Give the date and place of such meeting:

MichCon Board of Directors held no scheduled meetings during 2004. As permitted by law, the Board acted on numerous matters by written consent.

IMPORTANT CHANGES DURING THE YEAR

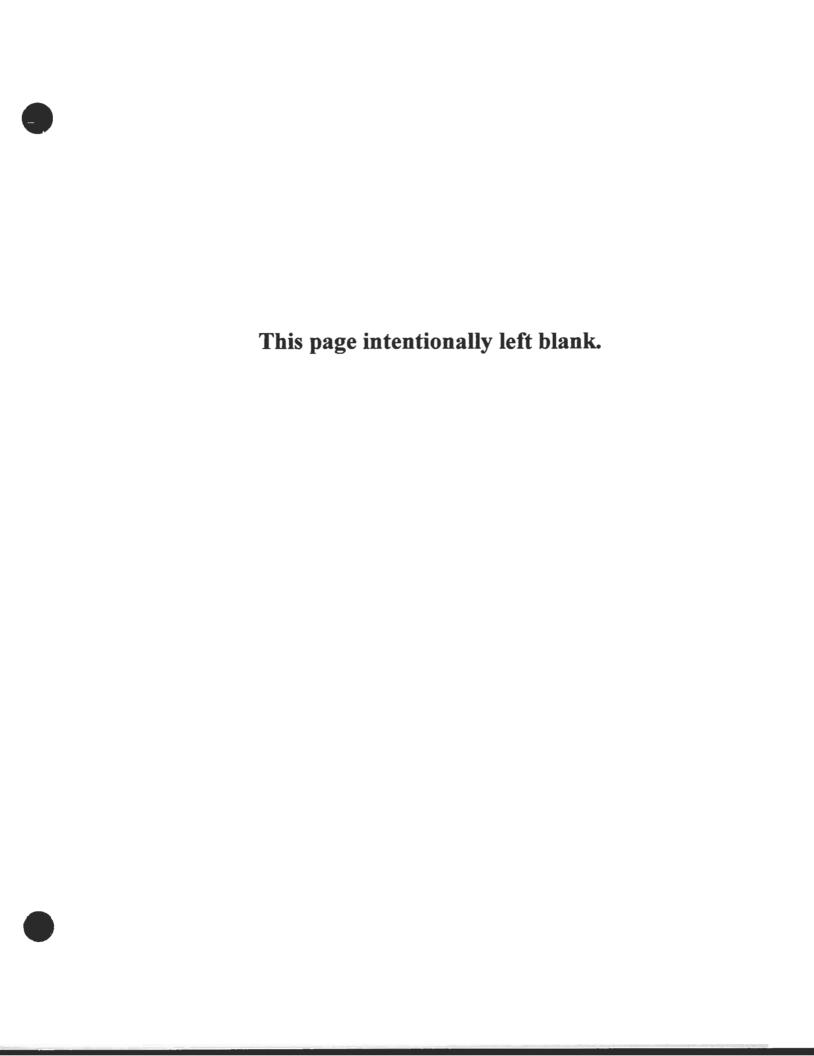

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Each inquiry should be answered. Enter "none" or "not applicable" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

- Changes in and important additions to franchise rights: Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.
- Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
- 3. Purchase or sale of an operation unit or system: Give a brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.
- 4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
- 5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements, etc.
- 6. Obligation incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Give reference to Commission authorization if any was required.
- Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
- 8. State the estimated annual effect and nature of any important wage scale changes during the year.
- State briefly the status of any materially important legal proceeding pending at the end of the year, and the results of any such proceedings culminated during the year.
- 10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder reported on page 106, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
- 11. Estimated increase or decrease in annual revenues due to important rate changes: State effective date and approximate amount of increase or decrease for each revenue classification. State the number of customers affected.
- 12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instructions 1 to 11 above, such notes may be attached to this page.

STATEMENT OF INCOME FOR THE YEAR

- Report amounts for accounts 412 and 413, Revenue and Expenses from Utility Plant Leased to Others, in another
 utility column (i,k,m,o) in a similar manner to a utility department. Spread the amount(s) over lines 01 thru 20
 as appropriate. Include these amounts in columns (c) and (d) totals.
- Report amounts in account 414, Other Utility Operating Income, in the same manner as account 412 and 413 above.
- Report data for lines 7, 9, and 10 for Natural Gas companies using accounts 404.1, 404.2, 404.3, 407.1 and 407.2.
- 4. Use page 122 for important notes regarding the statement of income or any account thereof.
- 5. Give concise explanations concerning unsettled rate proceedings where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in a material refund to the utility with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power and gas purchases.

. Give concise explanations concerning significant amounts of any refunds made or received during the year resulting

STATEMENT OF INCOME FOR THE YEAR (Continued)

from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purchases and a summary of the adjustments made to balance sheet, income, and expense accounts.

- If any notes appearing in the report to stockholders are applicable to this Statement of Income, such notes
 may be attached at page 122.
- B. Enter on page 122 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.
- Explain in a footnote if the previous year's figures are different from that reported in prior reports.
- 10.If the columns are insufficient for reporting additional utility departments, supply the appropriate account titles, lines 1 to 19, and report the information in the blank space on page 122 or in a supplemental statement.

RECONCILIATION OF DEFERRED INCOME TAX EXPENSE

- 1. Report on this page the charges to accounts 410, 411 and 420 reported in the contra accounts 190, 281, 282, 283 and 284.
- 2. The charges to the subaccounts of 410 and 411 found on pages 114-117 should agree with the subaccount totals reported on this page. In the event the deferred income tax expenses reported on pages 114-117 do not directly reconcile with the amounts found on this page, then provide the additional information requested in instruction #3, on a separate page.
- 3. (a) Provide a detailed reconciliation of the applicable deferred income tax expense subaccount(s) reported on pages 114-117 with the amount reported on this page. (b) Identify all contra accounts (other than accounts 190 and 281-284). (c) Identify the company's regulatory authority to utilize a contra accounts

other than accounts 190 or 281-284 for the recording of deferred income tax

expense(s).

STATEMENT OF RETAINED EARNINGS FOR THE YEAR

- 1. Report all changes in appropriated retained earnings, unappropriated retained earnings, and unappropriated undistributed subsidiary earnings for the year.
- 2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).
- 3. State the purpose and amount for each reservation or appropriation of retained earnings.
- 4. List first account 439, Adjustments to Retained Earnings reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order.
- 5. Show dividends for each class and series of capital stock. Show amounts of dividends per share.
- Show separately the state and federal income tax effect of items shown for Account 439, Adjustments to Retained Earnings.
- 7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservation or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.

8. If any notes appearing in the report to stockholders are applicable to this statement, attach them at page 122.

MICHIGAN CONSOLIDATED GAS COMPANY	AN ORIGINAL	December 31, 2004

## NOTES TO FINANCIAL STATEMENTS

- 1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Cash Flows, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.
- 2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.
- 3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.
- 4. Where Accounts 189, Unamortized Loss on Reacquired Debt and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform Systems of Accounts.
- 5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
- 6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 114-121, such notes may be attached hereto.

## A. Cash Flow Statement

## NOTES TO FINANCIAL STATEMENTS (Continued)

B. These financial statements were prepared in accordance with the accounting requirements of the Michigan Public Service Commission as set forth in the applicable Uniform System of Accounts and published releases. Such requirements and published releases constitute a basis of accounting other than generally accepted accounting principles. The principal differences of this basis of accounting from generally accepted accounting principles include accounting for majority-owned subsidiaries on the equity basis, the classification of certain deferred income taxes and related regulatory assets and liabilities, and the exclusion of current maturities of long-term debt from current liabilities.

The "Notes to the Consolidated Financial Statements" from MichCon's 2004 Annual Report on Form 10K are filed within this report on pages 123.1 through 123.25.

- 1. The consolidation policy discussed in Note 1, Significant Accounting Policies, on page 123.1 of the incorporated notes is not applicable for this report as MichCon's subsidiaries are accounted for using the equity method of accounting for the purpose of this report.
- 2. The application of SFAS 133 is discussed in Note 8, Financial and Other Derivative Instruments, on pages 123.13 to 123.14 of the incorporated notes. During 2002, MichCon had interest rate swap derivatives that arose out of interest rate swap contracts that the company uses to manage its interest rate risk exposure. These derivative instruments did not qualify for hedge accounting treatment as defined in SFAS 133. MichCon recorded the derivative instrument at fair value within "Other Deferred Assets or Liabilities". Unrealized gains or losses from marking to market these swap derivatives were recognized as an adjustment to interest expense. Specifically, the interest rate swap derivative was terminated in August 2003.

## Accounting for the Guardian Building

In 2003, MichCon recorded a \$17 million loss in the MPSC Form P-522 from the sale of the Guardian Building, which was its former headquarters prior to the merger with DTE Energy. The loss recorded in the 2003 Annual Report on Form 10-K was \$3 million.

MichCon recorded a \$5 million and \$33 million pre-tax impairment loss in its 2003 and 2002 Annual Report on Form 10-K, respectively, to comply with Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. This statement requires that "assets held for sale" shall be measured at the lower of its carrying amount or fair value less costs to sell.

The concept of "assets held for sale" is not recognized in the Michigan Public Service Commission (MPSC) Uniform System of Accounts. Utility property is either treated as sold or recognized as a retirement. Since the Guardian Building had been neither sold nor retired at the time of impairment, Michcon reversed previously recorded impairment, and recorded a loss in conjunction with the sale of the Guardian Building in 2003. The appropriateness of this accounting was reviewed with the MPSC Staff, who indicated they have no objection to the treatment of the Guardian Building as an unimpaired asset. Also, MichCon did retire certain assets related to the Guardian Building that were deemed to no longer be used or useful.

Therefore, the net loss reported in 2003 by MichCon for regulatory purposes will differ from generally accepted accepted principles based on different net book values used to calculate loss on sale.

# MICHIGAN CONSOLIDATED GAS COMPANY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### NOTE 1-SIGNIFICANT ACCOUNTING POLICIES

## Corporate Structure

Michigan Consolidated Gas Company (MichCon) is a public utility engaged in the purchase, storage, transmission, distribution and sale of natural gas in the State of Michigan. MichCon is subject to the accounting requirements of and rate regulation by the Michigan Public Service Commission (MPSC) with respect to the distribution and intrastate transportation of natural gas. The major services provided by MichCon are gas sales, end user transportation and intermediate transportation. MichCon serves more than 1.2 million residential, commercial and industrial customers throughout Michigan. MichCon's non-regulated operations are not significant. MichCon is an indirect, wholly owned subsidiary of DTE Enterprises Inc. (Enterprises), an exempt holding company under the Public Utility Holding Company Act of 1935. Enterprises is a wholly owned subsidiary of DTE Energy Company (DTE Energy).

References in this report to "we," "us," and "our" are to MichCon.

## **Principles of Consolidation**

We consolidate all majority owned subsidiaries and investments in entities in which we have controlling influence. Non-majority owned investments are accounted for using the equity method when the Company is able to influence the operating policies of the investee. Non-majority owned investments include investments in limited liability companies, partnerships or joint ventures. When we do not influence the operating policies of an investee, the cost method is used. We eliminate all intercompany balances and transactions.

For entities that are considered variable interest entities, we apply the provisions of Financial Accounting Standards Board (FASB) Interpretation No. (FIN) 46-R, "Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51." For a detailed discussion of FIN 46-R see Note 2 – New Accounting Pronouncements.

#### **Basis of Presentation**

The accompanying consolidated financial statements are prepared using accounting principles generally accepted in the United States of America. These generally accepted accounting principles require us to use estimates and assumptions that impact reported amounts of assets, liabilities, revenues, expenses and the disclosure of contingent assets and liabilities. Actual results may differ from our estimates.

We reclassified certain prior year balances to match the current year's financial statement presentation.

#### Revenues and Cost of Gas

Revenues from the transportation and storage of natural gas are recognized as services are provided. We record revenues for gas services provided but unbilled at the end of each month.

Our accrued revenues include a component for the cost of gas sold that is recoverable through the Gas Cost Recovery (GCR) mechanism. Annual GCR proceedings before the MPSC permit MichCon to recover prudent and reasonable supply costs. Any overcollection or undercollection of costs, including interest, will be reflected in future rates.

## Comprehensive Income

We comply with Statement of Financial Accounting Standards (SFAS) No. 130, "Reporting Comprehensive Income," that established standards for reporting comprehensive income. SFAS No. 130 defines comprehensive income as the change in common shareholders' equity during a period from transactions and events from non-owner sources, including net income. As shown in the following table, amounts recorded to other comprehensive income at December 31, 2004 include unrealized gains and losses from derivatives accounted for as cash flow hedges under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities."

(in Millions)		Net	Acc	umulated
	Unı	realized	(	Other
	Los	sses on	Comp	orehensive
	Der	ivatives		Loss
Beginning balance	\$	-	\$	-
Current - period change		(1)		(1
Ending balance	s	(1)	s	(1

## **Cash Equivalents**

Cash and cash equivalents include cash on hand, cash in banks and temporary investments purchased with remaining maturities of three months or less.

#### **Inventories**

Materials and supplies are valued at average cost. Gas inventory is determined using the last-in, first-out (LIFO) method. At December 31, 2004, the replacement cost of gas remaining in storage exceeded the \$89 million LIFO cost by \$330 million. At December 31, 2003, the replacement cost of gas remaining in storage exceeded the \$117 million LIFO cost by \$251 million. During 2004, MichCon liquidated 5.7 billion cubic feet of prior years' LIFO layers. The liquidation benefited 2004 cost of gas by approximately \$7 million, but had no impact on earnings as a result of the GCR mechanism.

## Property, Retirement and Maintenance, and Depreciation and Depletion

Property is stated at cost and includes construction-related labor, materials, overheads and an "allowance for fund used during construction" (AFUDC). The cost of properties retired, less salvage are charged to accumulated depreciation. Expenditures for maintenance and repairs are charged to expense when incurred.

We base depreciation provisions on straight-line and units of production rates approved by the MPSC. Unit of production depreciation and depletion is used for certain production and transmission property. Our composite depreciation rate was 3.6% in 2004, 3.5% in 2003 and

3.6% in 2002.

The average estimated useful life for gas distribution and transmission property was 26 years and 28 years, respectively, at December 31, 2004.

## **Long-Lived Assets**

Long-lived assets that we own are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If the carrying amount of the asset exceeds the expected future cash flows generated by the asset, an impairment loss is recognized resulting in the asset being written down to its estimated fair value. Assets to be disposed of are reported at the lower of the carrying amount or fair value less cost to sell.

## **Intangible Assets, Including Software Costs**

Our intangible assets consist primarily of software. We capitalize the costs associated with computer software we develop or obtain for use in our business. We amortize intangible assets on a straight-line basis over expected periods of benefit. Intangible assets amortization expense was \$10 million in 2004, \$9 million in 2003 and \$10 million in 2002. The gross carrying amount and accumulated amortization of intangible assets at December 31, 2004 were \$162 million and \$55 million, respectively. The gross carrying amount and accumulated amortization of intangible assets at December 31, 2003 were \$161 million and \$50 million, respectively. Amortization expense of intangible assets is estimated to be \$10 million annually for 2005 through 2009.

#### **Excise and Sales Taxes**

We record the billing of excise and sales taxes as receivable with an offsetting payable to the applicable taxing authority, with no impact on the consolidated statement of operations.

## **Deferred Debt Costs**

The costs related to the issuance of long-term debt are deferred and amortized over the life of each debt issue. In accordance with MPSC regulations, the unamortized discount, premium and expense related to debt redeemed with a refinancing are amortized over the life of the replacement issue.

## **Insured and Uninsured Risks**

We have a comprehensive insurance program in place to provide coverage for various types of risks. Our insurance policies cover risk of loss from various events, including property damage, general liability, workers' compensation, auto liability and officers' liability.

Under our risk management policy, we self-insure portions of certain risks up to specified limits, depending on the type of exposure. We periodically review our insurance coverage. During 2003, we reviewed our process for estimating and recognizing reserves for self-insured risks. As a result of this review, we revised the process for estimating liabilities under our self-insured layers to include an actuarially determined estimate of "incurred but not reported" (IBNR) claims. We have an actuarially determined estimate of our IBNR liability prepared annually and adjust the related reserve as appropriate.

## Investments in Debt and Equity Securities

We generally classify investments in debt and equity securities as trading and have recorded such investments at market value with unrealized gains or losses included in earnings.

See the following notes for other accounting policies impacting our financial statements:

Note	Title
2	New Accounting Pronouncements
3	Regulatory Matters
4	Income Taxes
8	Financial and Other Derivative Instruments
10	Retirement Benefits and Trusteed Assets

## NOTE 2 - NEW ACCOUNTING PRONOUNCEMENTS

## **Asset Retirement Obligations**

On January 1, 2003, we adopted SFAS No. 143, "Accounting for Asset Retirement Obligations," which requires the fair value of an asset retirement obligation be recognized in the period in which it is incurred. We believe that adoption of SFAS No. 143 results primarily in timing differences in the recognition of legal asset retirement costs that we are currently recovering in rates and are deferring such differences under SFAS No. 71, "Accounting for the Effects of Certain Types of Regulation."

If a reasonable estimate of fair value cannot be made in the period the asset retirement obligation is incurred, such as assets with an indeterminate life, the liability is to be recognized when a reasonable estimate of fair value can be made. Generally, distribution assets have an indeterminate life, retirement cash flows cannot be determined and there is a low probability of retirement, therefore no liability has been recorded for these assets. The adoption of SFAS No. 143 had an immaterial impact on the consolidated financial statements.

A reconciliation of the asset retirement obligation for 2004 follows:

(in Millions)			
Asset retirement obligations at January 1, 2004	\$	5	
Accretion		-	
Liabilities settled		(-)	
Asset retirement obligations at December 31, 2004	S	5	

SFAS No. 143 also requires the quantification of the estimated cost of removal obligations, arising from other than legal obligations, which have been accrued through depreciation charges. At December 31, 2003, we reclassified approximately \$417 million of previously accrued asset removal costs, which had been previously netted against accumulated depreciation to regulatory liabilities. There is a generic case before the MPSC to determine the accounting and regulatory treatment of removal costs for Michigan utilities.

#### Consolidation of Variable Interest Entities

In January 2003, FASB Interpretation No. (FIN) 46, "Consolidation of Variable Interest Entities, an Interpretation of Accounting Research Bulletin (ARB) No. 51," was issued and requires an investor with a majority of the variable interests (primary beneficiary) in a variable interest entity to consolidate the assets, liabilities and results of operations of the entity. A variable interest entity is an entity in which the equity investors do not have controlling interests, the equity investment at risk is insufficient to finance the entity's activities without receiving additional subordinated financial support from other parties, or equity investors do not share proportionally in gains or losses.

In October 2003 and December 2003, the FASB issued Staff Position No. FIN 46-6 and FIN 46-Revised (FIN 46-R), respectively, which clarified and replaced FIN 46 and also provided for the deferral of the effective date of FIN 46 for certain variable interest entities. We have evaluated all of our equity and non-equity interests and have adopted all current provisions of FIN 46-R. The adoption of FIN 46-R did not have a material effect on our financial statements.

## **Medicare Act Accounting**

In December 2003, the "Medicare Prescription Drug, Improvement and Modernization Act of 2003" (Medicare Act) was signed into law. The Medicare Act provides for a non-taxable federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least "actuarially equivalent" to the benefit established by law. We elected at that time to defer the provisions of the Medicare Act, and its impact on our accumulated postretirement benefit obligation and net periodic postretirement benefit cost, pending the issuance of specific authoritative accounting guidance by the FASB.

In May 2004, FASB Staff Position (FSP) No. 106-2 was issued on accounting for the effects of the Medicare Act. The guidance in this FSP is applicable to sponsors of single-employer defined benefit postretirement health care plans for which (a) the employer has concluded the prescription drug benefits available under the plan to some or all participants are "actuarially equivalent" to Medicare Part D and thus qualify for the subsidy under the Medicare Act and (b) the expected subsidy will offset or reduce the employer's share of the cost of the underlying postretirement prescription drug coverage on which the subsidy is based. We believe we qualify for the subsidy under the Medicare Act and the expected subsidy will partially offset our share of the cost of postretirement prescription drug coverage.

In June 2004, we adopted FSP No. 106-2, retroactive to January 1, 2004. As a result of the adoption, our accumulated postretirement benefit obligation for the subsidy related to benefits attributed to past service was reduced by approximately \$24 million and was accounted for as an actuarial gain. The effects of the subsidy reduced net postretirement costs by \$3 million in 2004.

#### **NOTE 3 - REGULATORY MATTERS**

#### Regulation

We are subject to the regulatory jurisdiction of the MPSC, which issues orders pertaining to rates, recovery of certain costs, including the costs of regulatory assets, conditions of service, accounting and operating-related matters.

## Regulatory Assets and Liabilities

We apply the provisions of SFAS No. 71, "Accounting for the Effects of Certain Types of Regulation." SFAS No. 71 requires the recording of regulatory assets and liabilities for certain transactions that would have been treated as revenue and expense in non-regulated businesses. Continued applicability of SFAS No. 71 requires that rates be designed to recover specific costs of providing regulated services and be charged to and collected from customers. Future regulatory changes or changes in the competitive environment could result in the Company discontinuing the application of SFAS No. 71 for some or all of its business and require the write-off of the portion of any regulatory asset or liability that was no longer probable of recovery through regulated rates. Management believes that currently available facts support the continued application of SFAS No. 71.

The following are the balances of the regulatory assets and liabilities as of December 31:

(in Millions)		2004		2003
Assets				
Deferred environmental costs	S	29	S	27
Unamortized loss on reacquired debt		34		32
Accrued GCR revenue		55		19
Recoverable minimum pension liability		1		2
		119		80
Less amount included in current assets		(55)		(19)
	s	64	\$	61
Liabilities				
Asset removal costs	\$	429	S	417
Refundable income taxes		135		146
Accrued GCR potential disallowance		28		.26
Other		2		3
	-	594		592
Less amount included in current liabilities and other liabilities		(30)		(29)
	S	564	S	563

#### ASSETS

- Deferred environmental costs The MPSC approved the deferral and recovery of investigation and remediation costs associated with former manufactured gas plant sites.
- Unamortized loss on reacquired debt The unamortized discount, premium and expense related to debt redeemed with a refinancing are deferred, amortized and recovered over the life of the replacement issue.

- Accrued GCR revenue Receivable for the temporary under-recovery of and a return on gas costs incurred by MichCon which are recoverable through the GCR mechanism.
- Recoverable minimum pension liability An additional minimum pension liability was
  recorded under generally accepted accounting principles due to the current under funded
  status of certain pension plans. The traditional rate setting process allows for the recovery of
  pension costs as measured by generally accepted accounting principles. Accordingly, the
  minimum pension liability associated with utility operations is recoverable. See Note 10.

#### LIABILITIES

- Asset removal costs The amount collected from customers for the funding of future asset removal activities.
- Refundable income taxes Income taxes refundable to MichCon's customers representing
  the difference in property-related deferred income taxes payable and amounts recognized
  pursuant to MPSC authorization.
- Accrued GCR potential disallowance Potential refund resulting from an MPSC order in MichCon's 2002 GCR plan case that required MichCon to reduce revenues in the calculation of its 2002 GCR expense.

#### Gas Rate Case

Rate Request - In September 2003, MichCon filed an application with the MPSC for an increase in service and distribution charges (base rates) for its gas sales and transportation customers. The filing requests an overall increase in base rates of \$194 million per year (approximately 7% increase, inclusive of gas costs), beginning January 1, 2005. MichCon requested that the MPSC increase base rates by \$154 million per year on an interim basis by April 1, 2004.

MPSC Interim Rate Order – In September 2004, the MPSC issued an order granting interim rate relief to MichCon in the amount of \$35 million. The interim rate order was based on a 50% debt and 50% equity capital structure, and an 11.5% rate of return on common equity. Amounts collected are subject to a potential refund pending a final order in this rate case.

MPSC Staff Recommendation on Final Rate Relief – The Staff has recommended a \$76 million increase in base rates compared to MichCon's requested base rate relief of \$194 million. The Staff also supports a provision, proposed by MichCon, that would allow MichCon to recover or refund 90% of uncollectible accounts receivables expense above or below the amount that is reflected in base rates. In addition, the Staff proposed a 50% debt and 50% equity capital structure utilizing a reduced rate of return on common equity of 11%. MichCon's current allowed rate of return on common equity is 11.5%.

MPSC Proposal for Decision (PFD) – The Administrative Law Judge (ALJ) issued a PFD on MichCon's rate request on December 10, 2004. The PFD provides for an increase in base rates of \$60 million. The PFD supports the Staff's recommendations for capital structure, rate of return on common equity and for the proposed reconciliation of uncollectible accounts receivables. MichCon expects a final order in the first quarter of 2005.

## **Gas Industry Restructuring**

In December 2001, the MPSC approved MichCon's application for a voluntary, expanded permanent gas Customer Choice program, which replaced the experimental program that expired in March 2002. The number of customers eligible to participate in the gas Customer Choice

program increased over a three-year period. Effective April 2004, all of MichCon's 1.2 million customers could elect to participate in the Customer Choice program thereby purchasing their gas from suppliers other than MichCon. The MPSC also approved the use of deferred accounting for the recovery of implementation costs of the gas Customer Choice program. As of December 2004, approximately 111,000 customers are participating in the gas Customer Choice program.

## **Gas Cost Recovery Proceedings**

2002 Plan Year - In December 2001, the MPSC issued an order that permitted MichCon to implement GCR factors up to \$3.62 per thousand cubic feet (Mcf) for January 2002 billings and up to \$4.38 per Mcf for the remainder of 2002. The order also allowed MichCon to recognize a regulatory asset of approximately \$14 million representing the difference between the \$4.38 factor and the \$3.62 factor for volumes that were unbilled at December 31, 2001. The regulatory asset is subject to the 2002 GCR reconciliation process. In March 2003, the MPSC issued an order in MichCon's 2002 GCR plan case. The MPSC ordered MichCon to reduce its gas cost recovery expenses by \$26.5 million for purposes of calculating the 2002 GCR factor due to MichCon's decision to utilize storage gas during 2001 that resulted in a gas inventory decrement for the 2001 calendar year.

Although we recorded a \$26.5 million reserve in 2002 to reflect the impact of this order, a final determination of actual 2002 revenue and expenses including any disallowances or adjustment, will be decided in MichCon's 2002 GCR reconciliation case that was filed with the MPSC in February 2003. The Staff and various intervening parties in this proceeding are seeking to have the MPSC disallow an additional S26 million, representing unbilled revenues at December 2001. One party has also proposed the disallowance of half of an \$8 million payment made to settle Enron bankruptcy issues. The other parties to the case have recommended that the Enron bankruptcy settlement be addressed in the 2003 GCR reconciliation case. An MPSC Administrative Law Judge has recommended disallowances of \$26.5 million related to the use of storage gas in 2001 and \$26 million related to the December 2001 unbilled issue, and recommended that the \$8 million related to the Enron issue be addressed in the 2003 GCR reconciliation case. We have included this item in our testimony in the 2003 GCR reconciliation filed in February 2004. The Staff has recommended that MichCon be allowed to recover the entire \$8 million related to the Enron issue. A final order in this proceeding is expected in 2005. In addition, we filed an appeal of the March 2003 MPSC order with the Michigan Court of Appeals. In November 2004, the Michigan Court of Appeals denied the appeal.

2003 Plan Year - In July 2003, the MPSC approved an increase in MichCon's 2003 GCR rate to a maximum of \$5.75 per Mcf for the billing months of August 2003 through December 2003. MichCon's 2003 GCR reconciliation case was filed with the MPSC in February 2004. In November 2004, the ALJ issued a PFD in the 2003 reconciliation case. The ALJ recommended that MichCon recover the full \$8 million related to the Enron issue since MichCon had reason to believe at that time that cancellation of the contract was in the best interests of customers and since customers ultimately realized a benefit from the cancellation. The ALJ agreed with the MPSC Staff that a \$2 million accounting adjustment related to exchange gas be disallowed.

2004 Plan Year - In September 2003, MichCon filed its 2004 GCR plan case proposing a maximum GCR factor of \$5.36 per Mcf. MichCon agreed to switch from a calendar year to an operational year as a condition of its settlement in the 2003 GCR plan case. The operational GCR year would run from April to March of the following year. To accomplish the switch, the 2004 GCR plan case reflects a 15-month transitional period, January 2004 through March 2005. Under the transition proposal, MichCon would file two reconciliations pertaining to the transition

period; one addressing the January 2004 to March 2004 period, the other addressing the remaining April 2004 to March 2005 period. The plan also proposes a quarterly GCR ceiling price adjustment mechanism. This mechanism allows MichCon to increase the maximum GCR factor to compensate for increases in market prices, thereby reducing the possibility of a GCR under recovery. Due to the sustained increase in market prices for natural gas, in June 2004 the MPSC approved a temporary increase in the maximum GCR factor and a contingent factor which resulted in a new temporary maximum factor of \$6.62 per Mcf, effective from July 1, 2004 until the MPSC issues its final order in this case. As of December 31, 2004, MichCon has accrued a \$55 million regulatory asset representing the under-recovery of actual gas costs incurred in 2004, and the 2003 and 2002 GCR under-recovery.

2005-2006 Plan Year - In December 2004, MichCon filed its 2005-2006 GCR plan case proposing a maximum GCR factor of \$7.99 per Mcf. The plan includes a quarterly GCR ceiling price adjustment mechanism. This mechanism allows MichCon to increase the maximum GCR factor to compensate for increases in market prices, thereby reducing the possibility of a GCR under recovery.

#### Other

We are unable to predict the outcome of the regulatory matters discussed herein. Resolution of these matters is dependent upon future MPSC orders, which may materially impact the financial position, results of operations and cash flows of the Company.

#### **NOTE 4 - INCOME TAXES**

We are part of the consolidated federal income tax return of DTE Energy. Our federal income tax expense is determined on an individual company basis with no allocation of tax benefits or expenses from other affiliates of DTE Energy.

Total income tax expense (benefit) varied from the statutory federal income tax rate for the following reasons:

(Dollars in Millions)	2004	2003	2002	
Effective federal income tax rate	(98.3)%	6 16.5%	37.2%	
Statutory federal income taxes at a rate of 35%	S 3	\$ 19	\$ 11	
Investment tax credit	(1)	(1)	(2)	
Depreciation	(7)	(7)	(1)	
Grantor Trust	-	(1)	(1)	
Employee Stock Ownership Plan Dividends	(1)	(2)	(1)	
Medicare Benefits	(1)	-	-	
Other, net	(2)	1	6	
Total	\$ (9)	\$ 9	\$ 12	

Components of income tax expense (benefit) were as follows:

(in Millions)	2004		004 2003		2002	
Current federal and other income tax expense (benefit)	\$	(44)	S	8	\$	9
Deferred federal and other income tax expense		35		1		3
Total	\$	(9)	\$	9	\$	12

Deferred tax assets and liabilities are recognized for the estimated future tax effect of temporary differences between the tax basis of assets or liabilities and the reported amounts in the financial statements. Deferred tax assets and liabilities are classified as current or noncurrent according to the classification of the related assets or liabilities. Deferred tax assets and liabilities not related to assets or liabilities are classified according to the expected reversal date of the temporary differences.

Deferred income tax assets (liabilities) were comprised of the following at December 31:

(in Millions)	2004	2003
Property	(90)	\$ (63)
Employee benefits	(65)	(53)
Other, net	(16)	(8)
s	(171)	S (124)
Deferred income tax liabilities	(483)	\$ (398)
Deferred income tax assets	312	274
S	(171)	\$ (124)

The Internal Revenue Service is currently conducting audits of MichCon for the years 1999 through 2001. The Company accrues tax and interest related to tax uncertainties that arise due to actual or potential disagreements with governmental agencies about the tax treatment of specific items. At December 31, 2004, the Company had accrued approximately \$4 million for such uncertainties. We believe that our accrued tax liabilities are adequate for all years.

#### NOTE 5 - LONG-TERM DEBT AND PREFERRED SECURITIES

## Long-Term Debt

Our long-term debt outstanding and interest rates of debt outstanding at December 31 were:

(in Millions)	2004	 2003
First Mortgage Bonds, interest payable semi-annually		
7.15% series due 2006	40	\$ 40
7.21% series due 2007	30	30
7.06% series due 2012	40	40
8.25% series due 2014	80	80
Remarketable securities, interest payable semi-annually		
6.45% series due 2038	75	75
Senior notes, interest payable semi-annually		
6.125% series due 2008	200	200
5.0% series due 2019	120	-
5.7% series due 2033	200	200

Senior notes, interest payable quarterly		
6.85% series due 2038	-	52
6.85% series due 2039	-	55
Other long-term debt	-	2
Long-term capital lease obligations	-	1
Total	\$ 785	\$ 775

In October 2004, we issued \$120 million of 5.0% senior notes due in 2019. The proceeds will be principally used to redeem the following two issues: \$52 million of 6.85% senior notes due 2038 and \$55 million of 6.85% senior notes due 2039. These securities were called for redemption in November 2004 at a price of 100 percent of the principal amount plus accrued and unpaid interest from September 1, 2004.

In 2003, we redeemed various issues of long-term debt totaling \$192 million. The redeemed debt securities had an average interest rate of 6.8% and were due in 2003 - 2038. We issued \$200 million of 5.7% senior secured notes due 2033.

In 1998, we issued a total of \$150 million of remarketable debt securities with various interest rates. These securities are structured such that the interest rates of the issues can be reset at various remarketing dates over the life of the debt. In June 2003, we redeemed \$75 million of the remarketable securities. The remarketing date on the remaining \$75 million is in June 2008. In the event that a remarketing fails, we would be required to purchase these securities.

Our remarketable securities and senior notes are secured by "fall-away mortgage" debt and, as such, are secured debt as long as our other first mortgage bonds are outstanding and become senior unsecured debt thereafter.

In 2004, we paid \$4 million and terminated a nonrecourse credit agreement for our non-utility subsidiaries.

In 2003, we terminated a variable interest rate swap agreement with notional principal amount of \$40 million issued in connection with our first mortgage bonds.

Substantially all of the net utility property of MichCon is subject to the lien of a Mortgage and Deed of Trust (Mortgage). Should we fail to timely pay our indebtedness under the Mortgage, such failure will create cross defaults in the indebtedness of DTE Energy.

Maturities and sinking fund requirements during the next five years for long-term debt outstanding at December 31, 2004 are \$40 million in 2006, \$30 million in 2007 and \$275 million in 2008. There are no long-term debt maturities due in 2005 and 2009.

## Preferred and Preference Securities - Authorized and Unissued

At December 31, 2004, MichCon had 7 million shares of preferred stock with a par value of \$1 per share and 4 million shares of preference stock with a par value of \$1 per share authorized, with no shares issued.

#### NOTE 6 – SHORT-TERM CREDIT ARRANGEMENTS AND BORROWINGS

In October 2004, we entered into a \$243.75 million, five-year unsecured revolving credit facility and lowered our existing three-year revolving credit facility from \$162.5 million to \$81.25 million. The five-year facility replaces the October 2003 364-day facility, which expired. The three-year revolving credit facility expires in October 2006. The five- and three-year credit facilities are with a syndicate of banks and may be utilized for general corporate borrowings, but primarily are intended to provide liquidity support for our commercial paper program. Borrowings under the facilities will be available at prevailing short-term interest rates. The agreements require us to maintain a debt to total capitalization ratio of no more than .65 to 1 and an "earnings before interest, taxes, depreciation and amortization" (EBITDA) to interest ratio of no less than 2 to 1. We currently are in compliance with these financial covenants.

At December 31, 2004, we had outstanding commercial paper of \$232 million and other short-term borrowings of \$10 million. As of December 31, 2003, we had outstanding commercial paper of \$232 million and other short-term borrowings of \$3 million.

The weighted average interest rates for short-term borrowings were 2.4% and 1.1% at December 31, 2004 and 2003, respectively.

#### NOTE 7 - CAPITAL AND OPERATING LEASES

Lessee - We lease certain property under capital and operating lease arrangements expiring at various dates to 2024. Some leases contain renewal options.

	•	rating eases
(in Millions)		
2005	\$	3
2006		1
2007		1
2008		-
2009		-
Thereafter		-
Total minimum lease payments	\$	5

Rental expense for operating leases was \$3 million in 2004 and \$2 million in 2003 and 2002.

Lessor – We lease a portion of our pipeline system to the Vector Pipeline Partnership through a capital lease contract that expires in 2020, with renewal options extending for five years. The components of the net investment in the capital lease at December 31, 2004 were as follows:

(in Millions)		
2005	S	9
2006		9
2007		9
2008		9
2009		9
Thereafter		98
Total minimum future lease receipts		143
Residual value of leased pipeline		40
Less - unearned income		(101)
Net investment in direct financing lease		82

#### NOTE 8 - FINANCIAL AND OTHER DERIVATIVE INSTRUMENTS

We comply with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS No. 133, established accounting and reporting standards for derivative instruments and hedging activities.

Listed below are important SFAS No. 133 requirements:

- All derivative instruments must be recognized as assets or liabilities and measured at fair value, unless they meet the normal purchases and sales exemption.
- The accounting for changes in fair value depends upon the purpose of the derivative instrument and whether it is designated as a hedge and qualifies for hedge accounting.
- Special accounting is allowed for a derivative instrument qualifying as a hedge and designated as a hedge for the variability of cash flow associated with a forecasted transaction. Gain or loss associated with the effective portion of the hedge is recorded in other comprehensive income. The ineffective portion is recorded to earnings. Amounts recorded in other comprehensive income will be reclassified to net income when the forecasted transaction affects earnings. If a cash flow hedge is discontinued because it is likely the forecasted transaction will not occur, net gains or losses are immediately recorded to earnings.
- Special accounting is also allowed for a derivative instrument qualifying as a hedge and
  designated as a hedge of the changes in fair value of an existing asset, liability or firm
  commitment. Gain or loss on the hedging instrument is recorded into earnings. An offsetting
  loss or gain on the underlying asset, liability or firm commitment is also recorded to earnings.

Our primary market risk exposure is associated with commodity prices, credit and interest rates. We have risk management policies to monitor and decrease market risks. We use derivative instruments to manage some of the exposure.

#### **Commodity Price Risk**

We purchase, store, transmit and distribute and sell natural gas. We have fixed-priced contracts for portions of our expected gas supply requirements through 2005. These contracts are designated and qualify for the normal purchases and sales exemption and are therefore accounted for under the accrual method. Our commodity price risk is limited due to the GCR mechanism (Note 1).

#### Credit Risk

We are exposed to credit risk if our customers or counterparties do not comply with their contractual obligations. We maintain credit policies that significantly minimize overall credit risk. These policies include an evaluation of potential customers' and counterparties' financial condition, credit rating, collateral requirements or other credit enhancements such as letters of credit or guarantees. We use standardized agreements that allow the netting of positive and negative transactions associated with a single counterparty.

#### **Interest Rate Risk**

We occasionally use treasury locks and other interest rate derivatives to hedge the risk associated with interest rate market volatility. In 2004, we entered into an interest rate derivative to limit our sensitivity to market interest rate risk associated with the issuance of long-term debt. Such instrument was designated as a cash flow hedge. We subsequently issued long-term debt and terminated the hedge at a cost that is included in other comprehensive loss.

#### Fair Value of Financial Instruments

The fair value of financial instruments is determined by using various market data and other valuation techniques. The table below shows the fair value relative to the carrying value for long-term debt securities. The carrying value of certain other financial instruments, such as notes payable, customer deposits and notes receivable approximate fair value and are not shown.

		2004		2003
_	Fair Value	Carrying Value	Fair Value	Carrying Value
Long-Term Debt	\$834 million	\$785 million	\$835 million	\$777 million

#### **NOTE 9 - COMMITMENTS AND CONTINGENCIES**

#### **Environmental Matters**

Contaminated Sites – Prior to the construction of major interstate natural gas pipelines, gas for heating and other uses was manufactured locally from processes involving coal, coke or oil. We own, or previously owned, 17 such former manufactured gas plant (MGP) sites.

During the mid-1980's, we conducted preliminary environmental investigations at former MGP sites, and some contamination related to the by-products of gas manufacturing was discovered at each site. The existence of these sites and the results of the environmental investigations have been reported to the Michigan Department of Environmental Quality (MDEQ).

We are remediating eight of the former MGP sites and conducting more extensive investigations at four other former MGP sites. We received MDEQ closure of one site and a determination that we are not a responsible party for three other sites. We received closure from the EPA in 2002 for one site.

In 1984, we established a \$12 million reserve for costs associated with environmental investigation and remediation activities. During 1993, we received MPSC approval of a cost deferral and rate recovery mechanism for investigation and remediation costs incurred at former MGP sites in excess of this reserve. We employed outside consultants to evaluate remediation alternatives for these sites, to assist in estimating its potential liabilities and to review its archived insurance policies. As a result of these studies, we recorded an additional liability and a

insurance policies. As a result of these studies, we recorded an additional liability and a corresponding regulatory asset of \$32 million during 1995. In early December 2004, we retained multiple environmental consultants to estimate the projected cost to remediate each MGP facility. The results of the evaluation indicated that the MGP reserve should be set at \$22 million.

During 2004, 2003 and 2002, we spent \$2.3 million, \$1.5 million and \$3.2 million, respectively, investigating and remediating these former MGP sites. At December 31, 2004, the reserve balance was \$21.5 million, of which \$4.5 million was classified as current. Any significant change in assumptions, such as remediation techniques, nature and extent of contamination and regulatory requirements, could impact the estimate of remedial action costs for the sites and, therefore, have an effect on our financial position and cash flows. However, we anticipate the cost deferral and rate recovery mechanism approved by the MPSC will prevent environmental costs from having a material adverse impact on our results of operations.

## **Personal Property Taxes**

Prior to 1999, MichCon and other Michigan utilities asserted that Michigan's valuation tables result in the substantial overvaluation of utility personal property. Valuation tables established by the Michigan State Tax Commission (STC) are used to determine the taxable value of personal property based on the property's age. In November 1999, the STC approved new valuation tables that more accurately recognize the value of a utility's personal property. The new tables became effective in 2000 and are currently used to calculate property tax expense. However, several local taxing jurisdictions have taken legal action attempting to prevent the STC from implementing the new valuation tables and have continued to prepare assessments based on the superseded tables. The legal actions regarding the appropriateness of the new tables were before the Michigan Tax Tribunal (MTT) which, in April 2002, issued its decision essentially affirming the validity of the STC's new tables. In June 2002, petitioners in the case filed an appeal of the MTT's decision with the Michigan Court of Appeals. In January 2004, the Michigan Court of Appeals upheld the validity of the new tables. With no further appeal by the petitioners available, the MTT began to schedule utility personal property valuation cases for Prehearing General Calls. MichCon has filed motions and the MTT agreed to place their cases in abeyance pending the conclusion of settlement negotiations being conducted by State of Michigan Treasury officials. On February 14, 2005, MTT issued a scheduling order that lifts the prior abeyances in a significant number of our appeals. The scheduling order sets litigation calendars for these cases extending into mid-2006.

We continue to record property tax expense based on the new tables. We will continue through settlement or litigation to seek to apply the new tables retroactively and to ultimately resolve the pending tax appeals related to 1997 through 1999. This is a solution supported by the STC in the past. To the extent that settlements cannot be achieved with the jurisdictions, litigation regarding the valuation of utility property will delay any recoveries by MichCon.

## **Other Commitments**

At December 31, 2004, we have entered into numerous long-term purchase commitments relating to a variety of goods and services required for our business. These agreements primarily consist of long-term gas purchase and transportation agreements. We estimate that these commitments will be approximately \$1.1 billion through 2011. We also estimate that our 2005 base level capital expenditures will be approximately \$115 million. We have made certain commitments in connection with such expected capital expenditures.

## **Bankruptcies**

We sell gas to numerous companies operating in the steel, automotive, energy and retail industries. A number of customers have filed for bankruptcy protection under Chapter 11 of the U.S. Bankruptcy Code. We have negotiated or are currently involved in negotiations with each of the companies, or their successor companies, that have filed for bankruptcy protection. We regularly review contingent matters relating to sale contracts and record provisions for amounts considered probable of loss. We believe our previously accrued amounts are adequate for probable losses. The final resolution of these matters is not expected to have a material effect on our financial statements in the period they are resolved.

#### Other

We are involved in certain legal, regulatory, administrative and environmental proceedings before various courts, arbitration panels and governmental agencies concerning matters arising in the ordinary course of business. These proceedings include certain contract disputes, environmental reviews and investigations, audits, inquiries from various regulators, and pending judicial matters. We cannot predict the final disposition of such proceedings. We regularly review legal matters and record provisions for claims that are considered probable of loss. The resolution of pending proceedings is not expected to have a material effect on our operations or financial statements in the period they are resolved.

See Note 3 for a discussion of contingencies related to Regulatory Matters.

## NOTE 10- RETIREMENT BENEFITS AND TRUSTEED ASSETS

#### Measurement Date

In the fourth quarter of 2004, we changed the date for actuarial measurement of our obligations for benefit programs from December 31 to November 30. We believe the one-month change of the measurement date is a preferable change as it allows time for management to plan and execute its review of the completeness and accuracy of its benefit programs results and to fully reflect the impact on its financial results. The change did not have a material effect on retained earnings as of January 1, 2004, and net income amounts for any interim period in 2004. Accordingly, all amounts reported in the following tables for balances as of December 31, 2004 are based on a measurement date of November 30, 2004. Amounts reported in tables for the year ended December 31, 2003 and for balances as of December 31, 2002 are based on a measurement date of December 31, 2003 and December 31, 2002.

#### Pension Plan Benefits

We have a defined benefit retirement plan for MichCon represented employees and participate in a defined benefit retirement plan for other DTE Energy represented and nonrepresented employees. The plans are noncontributory, cover substantially all employees and provide retirement benefits to MichCon employees based on the employee's years of benefit service, average final compensation and age at retirement. Certain nonrepresented employees are covered under cash balance benefits based on annual employer contributions and interest credits. Currently these plans meet the full funding requirements of the Internal Revenue Code. Accordingly, no contributions for the 2004, 2003 or 2002 plan years were made. We do not anticipate making a contribution to our qualified pension plan in 2005.

Effective December 31, 2001, the MCN Energy Group Retirement Plan, that covered nonrepresented employees, merged into the DTE Energy Company Retirement Plan. Detroit Edison operates as the sponsor of the merged DTE Energy represented and nonrepresented plan, which is treated as a plan covering employees of various affiliates of DTE Energy from the affiliates' perspective. Accordingly, the liabilities and assets associated with this Plan are no longer reflected in the tables below, and the associated prepaid pension asset of \$246 million and \$219 million at December 31, 2004 and December 31, 2003, respectively, are now reflected as an amount due from affiliate. We are allocated income or an expense each year as a result of our participation in the DTE Energy Retirement Plan. The annual income for 2004, 2003 and 2002 was \$27 million, \$31 million and \$44 million, respectively.

Net pension credit includes the following components:

(in Millions)	2004	<u> </u>	20	03	2	002
Service Cost Interest Cost Expected Return on Plan Assets Amortization of	S	5 15 (28)	S	4 14 (29)	S	3 14 (33)
Net gain	s	1 (7)	\$	2 (1) (10)	\$	(4) 2 (1) (19)

The following table reconciles the obligations, assets and funded status of the plans as well as the amounts recognized as prepaid pension cost in the consolidated statement of financial position at December 31:

(in Millions)	2004		2003
Measurement Date	November 30		December 31
Accumulated Benefit Obligation - End of Period	242	\$ _	239
Projected Benefit Obligation - Beginning of Period	247	s	212
Service Cost	5		4
Interest Cost	15		14
Actuarial Loss	7		31
Benefits Paid	(13)		(14)
Plan Amendments	(5)		-
Projected Benefit Obligation - End of Period	256	\$ _	247

Benefits Paid	(13)		(14)
Plan Assets at Fair Value - End of Period	330	\$	319
Funded Status of the Plans	74	\$	72
Net loss	41		30
Prior service cost	6		12
Prepaid Pension Cost	121	S	114

Assumptions used in determining the projected benefit obligation and net pension costs are listed below:

	2004	2003	2002
Projected Benefit Obligation	6.00 %	6.25%	6.75%
Discount rate	0.00 / 0	0.40 . 4	
Annual increase in future compensation levels	4.0 %	4.0%	4.0 %
Net Pension Costs			
Discount rate	6.25 %	6.75%	7.25%
Annual increase in future compensation levels	4.0 %	4.0%	4.0%
Expected long-term rate of return on Plan assets	9.0 %	9.0%	9.5%

At December 31, 2004, the benefits expected to be paid in each of the next five years and in the aggregate for the five fiscal years thereafter are as follows:

in Millions)		
005	S	1
006		1
007		1
		1
009		1
010 - 2014		8
otal	\$	15

We employ a consistent formal process in determining the long-term rate of return for various asset classes. We evaluate input from our consultants, including their review of historic financial market risks and returns and long-term historic relationships between the asset classes of equities, fixed income and other assets, consistent with the widely accepted capital market principle that asset classes with higher volatility generate a greater return over the long-term. Current market factors such as inflation, interest rates, asset class risks and asset class returns are evaluated and

considered before long-term capital market assumptions are determined. The long-term portfolio return is also established employing a consistent formal process, with due consideration of diversification, active investment management and rebalancing. Peer data is reviewed to check for reasonability.

We employ a total return investment approach whereby a mix of equities, fixed income and other investments are used to maximize the long-term return of plan assets consistent with prudent levels of risk. The intent of this strategy is to minimize plan expenses over the long term. Risk tolerance is established through consideration of future plan cash flows, plan funded status, and corporate financial considerations. The investment portfolio contains a diversified blend of equity, fixed income and other investments. Furthermore, equity investments are diversified across U.S. and non-U.S. stocks, growth and value investment styles, and large and small market capitalizations. Other assets such as private equity and absolute return funds are used judiciously to enhance long term returns while improving portfolio diversification. Derivatives may be used to gain market exposure in an efficient and timely manner; however, derivatives may not be used to leverage the portfolio beyond the market value of the underlying investments. Investment risk is measured and monitored on an ongoing basis through annual liability measurements, periodic asset/liability studies, and quarterly investment portfolio reviews.

Our plan's weighted-average asset allocations by asset category at December 31 were as follows:

	2004	2003
Equity Securities	69 %	67%
Debt Securities	26	27
Other	5	6
	100 %	100 %

Our plan's weighted-average asset target allocations by asset category at December 31, 2004 were as follows:

Equity Securities	65 %
Debt Securities	28
Other	7
	100 %

We also sponsor a defined contribution retirement savings plan for union employees, the MichCon Investment and Stock Ownership Plan, and participate in a defined contribution plan for nonunion employees. Effective December 31, 2001, the MCN Energy Group Savings and Stock Ownership Plan, that covered nonunion employees of MichCon, MCN Energy and MCN Energy Enterprises, merged into the DTE Energy Company Savings and Stock Ownership Plan. Participation in one of these plans is available to substantially all union and nonunion employees. We match employee contributions up to certain predefined limits based upon eligible compensation, the employee's contribution rate and, in some cases, years of credited service. The cost of these plans was \$5 million in 2004, \$5 million in 2003, and \$4 million in 2002.

these plans is available to substantially all union and nonunion employees. We match employee contributions up to certain predefined limits based upon eligible compensation, the employee's contribution rate and, in some cases, years of credited service. The cost of these plans was \$5 million in 2004, \$5 million in 2003, and \$4 million in 2002.

#### Other Postretirement Benefits

We provide certain postretirement health care and life insurance benefits for retired employees who are eligible for these benefits. Our policy is to fund certain trusts to meet our postretirement benefit obligations. Separate qualified Voluntary Employees' Beneficiary Association (VEBA) trusts exist for represented and nonrepresented employees. No contributions were made to the VEBA trusts in 2004, 2003 or 2002. Net postretirement cost includes the following components:

(in Millions)	2	004		2003		2002
Service Cost	S	8	S	6	S	5
Interest Cost		23		20		18
Expected Return on Plan Assets		(11)		(14)		(17)
Amortization of						
Net (gain) loss		2		(2)		(6)
Prior service cost		1		1		1
Net transition obligation		8		9		10
Net Postretirement Cost	S	31	s ⁻	20	\$	11

The following table reconciles the obligations, assets and funded status of the plans including amounts recorded as accrued postretirement cost in the consolidated statement of financial position at December 31:

(in Millions)		2004	2	.003
Measurement Date	No	vember 30	Dec	ember 31
Accumulated Postretirement Benefit Obligation - Beginning of Period	\$	379	\$	352
Service Cost		8		6
Interest Cost		23		20
Actuarial Loss		39		38
Benefits Paid		(15)		(18)
Plan Amendments		(15)		(19)
Accumulated Postretirement Benefit Obligation - End of Period	s	419	\$	379
Plan Assets at Fair Value - Beginning of Period	S	117	\$	111
Actual Return on Plan Assets		9		23
Benefits Paid				(17)
Plan Assets at Fair Value - End of Period	S	126	\$	117
Funded Status of the Plans	\$	(293)	\$	(262)
Net loss		114		75
Prior service cost		16		7
Net transition obligation		51		84
Accrued Postretirement Liability at Measurement Date		(112)		(96)
Company Contribution And Benefit Payments in December 2004		(6)		-
Accrued Postretirement Liability - End of Period	s	(118)	s	(96)

Assumptions used in determining the projected benefit obligation and net benefit cost are listed below:

	2004	2003	2002
Projected Benefits Obligation Discount rate	6.00 %	6.25 %	6.75%
Net Benefit Costs Discount rate Expected long-term rate of return on Plan assets	6.25 % 9.0 %	6.75 % 9.0 %	7.25 % 9.5 %

Benefit costs were calculated assuming health care cost trend rates beginning at 9.0% for 2005 and decreasing to 5.0% in 2010 and thereafter for persons under age 65 and decreasing from 8.0% to 5.0% for persons age 65 and over. A one-percentage-point increase in health care cost trend rates would have increased the total service cost and interest cost components of benefit costs by \$5 million and increased the accumulated benefit obligation by \$49 million at December 31, 2004. A one-percentage-point decrease in the health care cost trend rates would have decreased the total service cost and interest cost components of benefit costs by \$4 million and would have decreased the accumulated benefit obligation by \$43 million at December 31, 2004.

Effective 2005, we amended our postretirement health care plan. The changes decreased our expected 2005 postretirement cost by \$1 million.

At December 31, 2004, the benefits expected to be paid, including prescription drug benefits, in each of the next five years and in the aggregate for the five fiscal years thereafter are as follows:

Millions)		
05	\$	2
06		2
07		2
08		2
09		2
10 - 2014		15
tal	٥	25

The process used in determining the long-term rate of return for assets and the investment approach for our other postretirement benefits plans is similar to those previously described for our pension plans.

Our plan's weighted-average asset allocations by asset category at December 31 were as follows:

	2004	2003
Equity Securities	67 %	66 %
Debt Securities.	33	34
	100 %	100 %

Our plan's weighted-average asset target allocations by asset category at December 31, 2004 were as follows:

Equity Securities	65 % 28
Other	100 %

In December 2003, the Medicare Act was signed into law which provides for a non-taxable federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least "actuarially equivalent" to the benefit established by law. As discussed in Note 2, we adopted FSP No. 106-2 in 2004, which provides guidance on the accounting for the Medicare Act. As a result of the adoption, our accumulated postretirement benefit obligation for the subsidy related to benefits attributed to past service was reduced by approximately \$24 million at January 1, 2004 and was accounted for as an actuarial gain. The effects of the subsidy reduced net periodic postretirement benefit costs by \$3 million in 2004. The impact of the Medicare Act on the components of other postretirement benefit costs for the year ended December was as follows:

(in Millions)	2	004
Reduction in service cost	\$	2
Decrease in postretirement benefit cost	\$	3

At December 31, 2004, the gross amount of federal subsidies expected to be received in each of the next five years and in the aggregate for the five fiscal years thereafter was as follows:

(in Millions)		
2005	S	-
2006		2
2007		2
2008		2
2009		2
2010 - 2014		16
Total	\$	24

#### **Grantor Trust**

We maintain a Grantor Trust that invests in life insurance contracts and income securities. Employees and retirees have no right, title or interest in the assets of the Grantor Trust, and we can revoke the trust subject to providing the MPSC with prior notification. We account for our investment at fair value with unrealized gains and losses recorded to earnings.

#### NOTE 11- RELATED PARTY TRANSACTIONS

We have transactions with affiliated companies to provide transportation and storage services and for the purchase of natural gas. Under a service agreement with DTE Energy, various DTE affiliates, including MichCon provide corporate support services and various financial, auditing, tax, legal, treasury and cash management, human resources, information technology, regulatory and other services, which were billed to DTE Energy corporate. These administrative and general expenses along with interest and financing costs were then billed down to various subsidiaries of DTE Energy, including MichCon. The net amount of such expenses included in the consolidated statement of operations was \$100 million in 2004, \$106 million in 2003 and \$68 million in 2002. The increase in 2003 corporate expenses is related primarily to costs incurred by an affiliate to upgrade our customer service operations and higher benefit costs associated with corporate support staff.

In addition, we had intercompany revenue of \$11 million, \$14 million and \$13 million in 2004, 2003 and 2002, respectively. We had intercompany expenses of \$20 million, \$29 million and \$15 million in 2004, 2003 and 2002, respectively.

Our accounts receivable from affiliated companies totaled \$57 million and \$70 million, and accounts payable to affiliated companies totaled \$10 million and \$25 million at December 31, 2004 and 2003, respectively.

We had a short-term note payable to DTE Energy and our parent company of \$9 million in 2004 and \$2 million to our parent company in 2003. This note is subject to a credit agreement with DTE Energy whereby short-term excess cash or cash shortfalls are remitted to or funded by DTE Energy. This credit arrangement involves the charge and payment of interest at approximate market rates.

We had an exchange gas payable of \$1 million in 2004 related to an operational balancing agreement with an affiliate owned gas storage facility.

We declared and paid dividends of \$50 million to our parent company in 2004. We declared dividends of \$62.5 million and paid dividends of \$50 million to our parent company in 2003. We received a \$200 million capital contribution from our parent company in 2002.

#### NOTE 12 - UNUSUAL CHARGES

### Property Write-down

In 2002, we recorded a \$33 million pre-tax (\$22 million net of taxes) charge from the sale of our former headquarters. An additional \$5 million pre-tax (\$4 million net of taxes) charge was recorded in 2003 to further reduce the carrying value of the property to fair value based on the estimated selling price less cost to sell.

#### **Contract Loss**

In 2002, we recorded a \$15 million pre-tax (\$10 million net of taxes) charge related to the termination of a contract for computer services with an unrelated third party.

#### Sale of Assets

In 2003, we recorded a \$3 million pre-tax (\$2 million net of taxes) loss from the sale of our former headquarters. In 2004, we recorded a \$3 million pre-tax (\$2 million net of taxes) gain from sales of a storage facility and land.

#### Joint Ventures

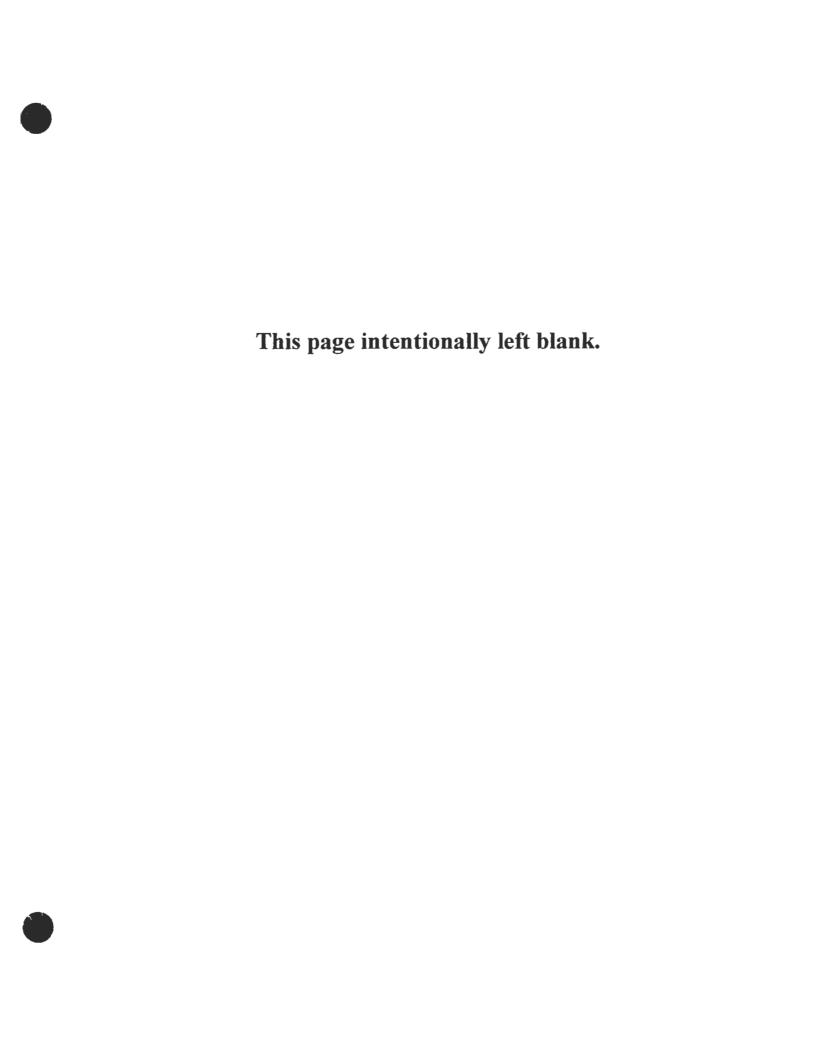

In 2003, we recorded a \$6 million pre-tax (\$4 million net of taxes) gain from the sale of our interests in a series of partnerships.

# NOTE 13 – SUPPLEMENTARY QUARTERLY FINANCIAL INFORMATION (UNAUDITED)

Due to the seasonal nature of MichCon's business, revenues and net income tend to be higher in the first and fourth quarters of the calendar year.

(in Millions)	Firs Quart	-		econd uarter	_	hird uarter		urth arter		Year
2004 Operating Revenues Operating Income (Loss) Net Income (Loss)	\$	715 93 70	\$ \$ \$	271 (37) (37)	\$ \$ \$	155 (39) (53)	\$ \$ \$	504 39 39	S S S	1,645 56 19
2003 Operating Revenues Operating Income (Loss) Net Income (Loss)	\$	652 111 75	\$ \$ \$	284 (5) (11)	\$ \$ \$	142 (42) (37)	\$ \$ \$	414 26 18	\$ \$ \$	1,492 90 45

^(!) Previously reported first quarter 2004 amounts have been adjusted to reflect the retroactive adoption of FSP No. 106-2, relating to the impact of the Medicare Act on postretirement benefit costs (Note 2).

MICHIGAN CONSOLIDATED	GAS COMPANY	AN ORIGINAL	December 31, 2004
GAS PLA	ANT IN SERVICE	(Accounts 101, 102,	103 and 106)

- Report below the original cost of gas plant in service according to the prescribed account.
- In addition to Account 101, Gas Plant in Service (Classified), this page and the next include Account 102, Gas Plant Purchased or Sold; Account 103, Experimental Gas Plant Unclassified; and Account 106, Completed Construction Not Classified - Gas.
- 3. Include in column (c) or (d) as appropriate, corrections of additions and retirements for the current or preceding year.
- Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such amounts.
- 5. Classify Account 106, according to prescribed accounts, on an estimated basis if necessary, and include the entries in column (c). Also to be included in column (c) are entries for reversals of tentative distributions of prior year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements which have not been classified to primary accounts at the end of the year, include in column (d) a tentative distribution of such retirements on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provisions. Include also in column (d) reversals of tentative distributions of prior year unclassified retirements. Attach supplemental statement showing the account distributions of these tentative classifications in columns.

## MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2004

GAS PLANT IN SERVICE (Accounts 101, 102, 103 and 106) (Continued)

- (c) and (d), including the reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions and the texts of Accounts 101 and 106 will avoid serious omissions of the reported amount of respondent's plant actually in service at end of year.
- 6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation, acquisition adjustments, etc., and show in column (f) only the offset to the debits and credits distributed in column (f) to primary account classifications.
- 7. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement showing subaccount classification of such plant conforming to the requirements of these pages.
- 8. For each amount comprising the reported balance and changes in Account 102, state the property purchases or sold, name of vendor or purchaser, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give also date of such filing.

MICHIGAN CONSOLIDATED GAS	COMPANY	AN ORIGINAL	December 31, 2004
	CONSTRUCT	TION OVERHEADS - GAS	

- List in column (a) the kinds of overheads according to the titles used by the respondent. Charges for outside professional services for engineering fees and management or supervision fees capitalized should be shown as separate items.
- 2. On page 218 furnish information concerning construction overheads.
- 3. A respondent should not report "none" to this page if no overhead apportionments are made, but rather should explain on page 218 the accounting procedures employed and the amounts of engineering, supervision and administrative costs, etc., which are directly charged to construction.

4. Enter on this page engineering, supervision, administrative, and allowance for funds used during construction, etc., which are first assigned to a blanket work

order and then prorated to construction jobs.

## MICHIGAN CONSOLIDATED GAS COMPANY

AN ORIGINAL

December 31, 2004

## GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

- For each construction overhead explain: (a) the nature and extent of work, etc.,
  the overhead charges are intended to cover, (b) the general procedure for determining
  the amount capitalized, (c) the method of distribution to construction jobs, (d)
  whether different rates are applied to different types of construction, (e) basis of
  differentiation in rates for different types of construction, and (f) whether the
  overhead is directly or indirectly assigned.
- 2. Show below the computation of allowance for funds used during construction rates, if those differ from the overall rate of return authorized by the Michigan Public Service Commission.

## General Administration Capitalized

Costs of certain administrative departments (i.e. Legal, Corporate Resources, Corporate Planning) are capitalized monthly based on annual estimates of how much work is applicable to construction work in progress. Amounts capitalized are initially debited to a blanket work order (Account 107). These charges are then transferred to construction work orders based on the current month's charges to these construction work orders.

## Supervision, Engineering and Transportation - Joint Expense

Supervision, engineering and transportation costs of certain departments are distributed to operation and maintenance accounts and construction work orders on a pro rata basis to direct labor charges.

## Pensions and Employees' Benefits Capitalized

Construction and retirement work orders are debited with costs of pensions and employees' benefits distributed on the basis of direct construction and retirement labor charges. The percentage applied to direct labor includes an additional component which represents amounts applicable to indirect labor.

#### Injuries and Damages

This overhead represents provision for reserve for injuries and damages computed on the basis of a percentage applied to direct labor charges to construction work orders.

## Allowance for Funds Used During Construction (A.F.U.D.C.)

An allowance for funds used during construction is computed monthly by applying the A.F.U.D.C. rate to accumulated expenditures for specific major projects of all classes of property. The A.F.U.D.C. rate is equivalent to the most recently authorized overall rate of return as approved by the Michigan Public Service Commission. The composite A.F.U.D.C. rate for 2004 was 8.04% per annum.

## Payroll Taxes

Construction and retirement work orders are debited with costs of payroll taxes (FICA, FUTA, MUTA) distributed on the basis of direct construction and retirement labor charges. The percentage applied to direct labor includes an additional component which represents amounts applicable to indirect labor.

#### Canvassing Costs Capitalized - Non-Area Expansion Programs

Marketing's canvassing costs related to new distribution construction, not designated as Area Expansion Programs, are initially debited to a blanket work order (Account 107). These charges are then transferred to construction work orders related to new distribution mains and services based on current month labor charges to these construction work orders.

Note: See Page 217 for amounts capitalized.

#### ACCUMULATED PROVISION FOR DEPRECIATION OF GAS UTILITY PLANT (Accounts 108 and 110)

- 1. Explain in a footnote any important adjustments during year.
- Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c), and that reported for gas plant in service, pages 202-207, column (d), excluding retirements of non-depreciable property.
- 3. Accounts 108 and 110 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all cost included in retirement work in progress at year end in the appropriate functional classifications.

4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

(61,256)

#### GAS STORED (ACCOUNT 117,164.1,164.2, AND 164.3)

- If during the year adjustment was made to the stored gas inventory (such as to correct cumulative inaccuracies
  of gas measurements), furnish in a footnote an explanation of the reason for the adjustment, the Mcf and dollar
  amount of adjustment, and account charged or credited.
- Give in a footnote a concise statement of the facts and the accounting performed with respect to any encroachment of withdrawals during the year, or restoration of previous encroachment, upon native gas constituting the "gas cushion" of any storage reservoir.
- 3. If the company uses a "base stock" in connection with its inventory accounting, give a concise statement of the basis of establishing such "base stock" and the inventory basis and the accounting performed with respect to any encroachment of withdrawals upon "base stock," or restoration of previous encroachment, including brief particulars of any such accounting during the year.
- 4. If the company has provided accumulated provision for stored gas which may not eventually be fully recovered from any storage project, furnish a statement showing: (a) date of Commission authorization of such accumulated provision, (b) explanation of circumstances requiring such provision, (c) basis of provision and factors of calculation, (d) estimated ultimate accumulated provision accumulation, and (e) a summary showing balance of accumulated provision and entries during year.

5. Report pressure base of gas volumes as 14.65 psia at 60° F.

## NONUTILITY PROPERTY (Account 121)

- 1. Give a brief description and state the location of nonutility property included in Account 121.
- 2. Designate with an asterisk any property which is leased to another company. State name of lessee and whether lessee is an associated company.
- 3. Furnish particulars (details) concerning sales, purchases, or transfers of Nonutility Property during the year.
- 4. List separately all property previously devoted to public service and give date of transfer to Account 121, Nonutility Property. These items are separate and distinct from those allowed to be grouped under instruction No. 5.
- 5. Minor items (5% of the Balance at the End of the Year for Account 121) may be grouped.

6. Natural gas companies which have oil property should report such property by State, classified as to (a) oil lands and land rights, (b) oil wells, and (c) other oil property. Gasoline plants and other plants for the recovery from natural gas are classifiable as gas plant and should be reported as such and not shown as Nonutility Property.

	not shown as nonutinty Property.

MICHIGAN CONSOLIDATED GAS COMPANY	AN ORIGINAL	December 31, 2004	_
INVESTMENT IN SUBSIDIARY	COMPANIES (Accour	nt 123.1)	

- Report below investments in Account 123.1, Investment in Subsidiary Companies. Provide a subheading for each company and list thereunder the information called for below. Sub-total by company and give a total in columns (e), (f), (g) and (h).
  - (a) Investment in Securities List and describe each security owned. For
  - bonds give also principal amount, date of issue, maturity, and interest rate.
    (b) Investment Advances Report separately the amounts of loans or Investment Advances which are subject to repayment, but which are not subject to current settlement. With respect to each advance show whether the advance is a note or open account. List each note giving date of issuance, maturity date, and specifying whether note is a renewal.
- Report separately the equity in undistributed subsidiary earnings since acquisition. The total in column (e) should equal the amount entered for Account 418.1.

### RECEIVABLES FROM ASSOCIATED COMPANIES (Accounts 145, 146)

- 1. Report particulars of notes and accounts receivable from associated companies * at end of year.
- 2. Provide separate headings and totals for Accounts 145, Notes Receivable from Associated Companies, and 146, Accounts Receivable from Associated Companies. in addition to a total for the combined accounts.
- 3. For notes receivable, list each note separately and state purpose for which received. Show also in column (a) date of note, date of maturity and interest rate.
- 4. If any note was received in satisfaction of an open account, state the period covered by such open account.
- 5. Include in column (f) interest recorded as income during the year including interest on accounts and notes held any time during the year.
- 6. Give particulars of any notes pledged or discounted, also of any collateral held as guarantee of payment of any note or account.

NOTE "Associated companies" means companies or persons that, directly or indirectly, through one or more intermediaries,
 control or are controlled by, or are under common control with, the accounting company. This includes related parties.

Control" (including the terms "controlling," "controlled by," and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of a company, whether such power is exercised through one or more intermediary companies, or alone, or in conjunction with, or pursuant to an agreement, and whether such power is established through a majority or minority ownership, or voting of securities, common directors, officers, or stockholders, voting trusts, holding trusts, associated companies, contract or any other direct or indirect means.

#### MATERIALS AND SUPPLIES

 For Account 154, report the amount of plant materials and operating supplies under the primary functional classifications as indicated in column (a); estimates of amounts by function are acceptable. In column (d), designate the department or departments which use the class of material. Nonmajor companies may report total on line 4.

Give an explanation of important inventory adjustments during year (on a supplemental page) showing general classes of material and supplies and the various accounts (operating expenses, clearing accounts, plant, etc.) affected-debited or credited. Show separately debits or credits to stores expense-clearing, if applicable.

# MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2004 ADVANCES FOR GAS PRIOR TO INITIAL DELIVERIES OR COMMISSION CERTIFICATION (Accounts 124, 166 and 167)

- Report below the information called for concerning all advances for gas, as defined in the text of Account 166, Advances for Gas Exploration, Development and Production, and 167, Other Advances for Gas, whether reported in Accounts 166, 167, or reclassified to Account 124, Other Investments. List Account 124 items first.
- 2. In column (a), give the date the advance was made, the payee (designate associated companies with an asterisk) a brief statement of the purpose, (exploration, development, production, general loan, etc.) and the estimated date of repayment. Do not use the term indefinite in reporting estimated date of repayment. If advances are made to a payee in connection with different projects with different arrangements for repayments, use separate lines for reporting; otherwise all advances may be grouped by payee, subject to the requirements of instruction 3 below.
- 3. If the beginning balance shown in column (c) does not agree with the prior year's ending balance, column (g), provide a detailed explanation in a footnote. Show all Advances made during the year in column (d) and all repayments or other credits in column (e). Report amounts shown in column (e) separately by account, as reported in column (f).

MICHIGAN CONSOLIDATED GAS COMPANY	AN ORIGINAL	December 31, 2004
CAPITAL STOCK	)	

1. Report below the particulars (details) called for concerning common and preferred stock at end of year, distinguishing separate series of any general class. Show separate totals for common and preferred stock. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form filing, a specific reference to the report form (i.e. year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

2. Entries in column (b) should represent the number of shares authorized by the

articles of incorporation as amended to end of year.

OTHER PAID-IN CAPITAL (Accounts 208-211, inc.)

Report below the balance at the end of the year and the information specified below for the respective other paid-in capital accounts. Provide a subheading for each account and show a total for the account, as well as total of all accounts for reconciliation with balance sheet, page 112. Add more columns for any account if deemed necessary. Explain changes made in any account during the year and give the accounting entries entries effecting such change.

- (a) Donations Received from Stockholders (Account 208)-State amount and give brief explanation of the origin and purpose of each donation.
- (b) Reduction in Par or Stated Value of Capital Stock (Account 209)-State amount and give brief explanation of the capital changes which gave rise to amounts reported under this caption including identification with the class and series of stock to which related.
- (c) Gain on Resale or Cancellation of Reacquired Capital Stock (Account 210)-Report balance at beginning of year, credits, debits, and balance at end of year with a designation of the nature of each credit and debit identified by the class and series of stock to which related.

(d) Miscellaneous Paid-In Capital (Account 211)-Classify amounts included in this account according to captions which, together with brief explanations, disclose the general nature of the transactions which gave rise to the reported amounts.

SECURITIES ISSUED O	RASSUMED AND SECURITIES REFUND	ED OR RETIRED	

### SECURITIES ISSUED OR ASSUMED AND SECURITIES REFUNDED OR RETIRED DURING THE YEAR

Furnish a supplemental statement giving a brief description
of security financing and refinancing transactions during the
year and the accounting for the securities, discounts, premiums,
expenses, and related gains or losses. Identify as to Commission
authorization numbers and dates.
 Furnish particulars (details) showing fully the accounting for

2. Furnish particulars (details) showing fully the accounting for the total principal amount, par value, or stated value of each class and series of security issued, assumed, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gains or losses relating to securities retired or refunded, including the accounting for such amounts carried in the respondent's accounts at the date of the refunding or refinancing transactions with respect to securities previously refunded or retired.

3. Include in the identification of each class and series of security, as appropriate, the interest or dividend

rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares. Give also the issuance or redemotion price and name of the principal underwriting firm through which the security transactions were consummated.

4. Where the accounting for amounts relating to securities refunded or retired is other than that soecified in General Instruction 16 of the Uniform System of Accounts, give references to the Commission authorization for the different accounting and state the accounting method.

5. For securities assumed, give the name of the company for which the liability on the securities was assumed as well as narticulars (details) of the transactions whereby the respondent undertook to nay obligations of another company. If any unamortized discounts, premiums, expenses, and gains or losses were taken over onto the respondent's books, furnish details of these amounts with amounts relating to refunded securities clearly earmarket.

#### Mortgage Bonds Retired

#### 6.85% Bond Series due 2038.

The following payments totaled \$ 52,327,000 were made on the 6.85% Series Bonds.

#### Securities Issued

\$120,000,000 2004 Series E 5 % due 2019 were issued on October 4, 2004 at 99.594% to underwriters UBS Securities LLC, Credit Suisse First Boston LLC, Deutsche Bank Securities Inc., KeyBanc Capital Markets, A Division of McDonald Investments Inc., and Scotia Capital (USA) Inc.

The Proceeds were used to redeem bonds of \$107,327,000 and for general corporate purposes.

The Principal amount of \$120,000,000 was credited to Account series 221, and discount \$487,200 was debited to Account series 226 and expenses of Issuance \$2,324,610 was charged to Account series 181.

These costs of issuance will be amortized over the life of the Bond by charging it to Account Series 428.

The issuance and sale of these 2004 series Bonds was authorized by the Michigan Public Service Commisssion in Order U-10687, dated November 30, 1994.

MECHIGAN CONSOLIDATED GAS	COMPANY	AN ORIGINAL	December 31, 2004

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

1. Report by balance sheet account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form filing, a specific reference to the report form (i.e. year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

2. For bonds assumed by the respondent, include in column (a) the name of the

issuing company as well as a description of the bonds.

3. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.

4. For receivers' certificates, show in column (a) the name of the court and date of court order under which such certificates were issued.

5. In a supplemental statement, give explanatory particulars (details) for Accounts 223 and 224 of net changes during the year. With respect to long-term

Accounts 223 and 224 of net changes during the year. With respect to long-term

### RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

- Report the reconciliation of reported net income for the year with taxable income used in computing
  Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation,
  as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year.
  Submit a reconciliation even though there is no taxable income for the year. Indicate clearly
  the nature of each reconciling amount.
- If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however,

## MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2004 TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR

1. Give particulars (details) of the combined prepaid and accrued tax accounts and show the total taxes charged to operations and other accounts during the year. Do not include gasoline and other sales taxes which have been charged to the accounts to which the taxed material was charged. If the actual or estimated amounts of such taxes are known, show the amounts in a footnote and designate whether estimated or actual amounts.

Include on this page, taxes paid during the year and charged direct to final accounts, (not charged to prepaid or accrued taxes). Enter the amounts in both columns (d) and (e). The balancing of this page is not affected by the

inclusion of these taxes.

Include in column (d) taxes charged during the year, taxes charged to
operations and other accounts through (a) accruals credited to taxes accrued,
(b) amounts credited to proportions of prepaid taxes chargeable to current year,
and (c) taxes paid and charged direct to operations or accounts other than
accrued and prepaid tax accounts.

4. List the aggregate of each kind of tax in such manner that the total tax for

### MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2004 TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR (Continued)

each State and subdivision can readily be ascertained.

- 5. If any tax (exclude Federal and state income taxes) covers more than one year, show the required information separately for each tax year, identifying the year in column (a).
- 6. Énter all adjustments of the accrued and prepaid tax accounts in column (f) and explain each adjustment in a footnote. Designate debit adjustments by parentheses.
- Do not include on this page entries with respect to deferred income taxes or taxes collected through payroll deductions or otherwise pending transmittal of such taxes to the taxing authority.
- 8. Show in columns (i) thru (p) how the taxed accounts were distributed. Show both the utility department and number of account charged. For taxes charged to utility plant, show the number of the appropriate balance sheet plant account or subaccount.

9. For any tax apportioned to more than one utility department or account, state in a footnote the basis (necessity) of apportioning such tax.

## ACCUMULATED DEFERRED INVESTMENT TAX CREDITS (Account 255)

1. Report below information applicable to Account 255. Where appropriate, segregate the balances and transactions by utility and non-utility operations. Explain by footnote any correction adjustments to the account balance shown in column (g). Include in column (j) the average period over which the tax credits are amortized.

2. Fill in columns for all line items as appropriate.

### OTHER REGULATORY LIABILITIES

- 1. Report below the particulars (details) called for concerning other regulatory liabilities which are created through the ratemaking actions of regulatory agencies (and not includable in other amounts).
- 2. For regulatory liabilities being amortized, show period of amortization in column (a).
- 3. Minor items (amounts less than \$50,000) may be grouped by classes.

4. Give the number and name of the account(s) where each amount is recorded.

#### GAS OPERATING REVENUES (Account 400)

- 1. Report below natural gas operating revenues for each prescribed account, and manufactured gas revenues in total.
- 2. Natural gas means either natural gas unmixed or any mixture of natural and manufactured gas.
- 3. Report number of customers, columns (f) and (g), on the basis of meters, in addition to the number of flat rate accounts; except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
- 4. Report quantities of natural gas sold in Mcf (14.73 psia at 60°F). If billings are on a therm basis, give the Btu contents of the gas sold and the sales converted to Mcf.

- 5. If increases or decreases from previous year (columns (c), (e) and (g)), are not derived from previously reported figures, explain any inconsistencies in a footnote.
- 6. Commercial and Industrial Sales, Account 481, may be classified according to the basis of classification (Small or Commercial, and Large or Industrial) regularly used by the respondent if such basis of classification is not generally greater than 200,000 Mcf per year or approximately 800 Mcf per day of normal requirements. (See Account 481 of the Uniform System of Accounts. Explain basis of classification in a footnote.)
- 7. See page 108-109, Important Changes During Year, for important new territory added and important rate increases or decreases.

Year of Report

Dec. 31, 2004

#### RATE AND SALES SECTION

# DEFINITIONS OF CLASSES OF SERVICE AND INSTRUCTIONS PERTAINING TO STATEMENTS ON SALES DATA

In the definitions below, the letters preceding the captions distinguish the main classes from the subclasses. Show the data broken into the subclasses if possible, but if not, report data under the main classes, drawing a dash through the subclass.

When gas measured through a single meter is used for more than one classof service as here defined, as for example, for both commercial and residential purposes, assign the total to the class having the principal use.

Average Number of Customers. Number of customers should be reported on the basis of number of meters, plus number of flat-rate accounts, except that where separate meter readings are added for billing purposes, one customer shall be counted for code group of meters so added. The average number of customers means the average of the 12 figures at the close of each month.

Thousands of Cubic Feet or Therms Sold (indicate which one by crossing out the one that does not apply). Give net figures, exclusive of respondent's own use and losses.

Revenues. This term covers revenues derived from (a) Sale of Gas (exclusive of forfeited discounts and penalties) and (b) Other Gas Revenues, such as rent from gas property, interdepartmental rents, customers' forfeited discounts and penalties, servicing of customers' installations and miscellaneous gas revenues.

- AB. Residential Service. This class includes all sales of gas for residential uses such as cooking, refrigeration, water heating, space beating and other domestic uses.
- A. Residential Service. This class includes all sales of gas for residential use except space heating.
- B. <u>Residential Space Heating</u>. This class includes all sales of gas for space heating including gas for other residential uses only when measured through the same meter.
- CD. <u>Commercial Service</u>. This class includes service rendered primarily to commercial establishments such as restaurants, botels, clubs, hospitals, recognized rooming and boarding houses, apartment houses (but not individual tenants therein), garages, churches, warehouses, etc.
- C. Comercial Service. This class includes all sales of gas for commercial use except space heating.
- D. Commercial Space Heating. This class includes all sales of gas for space heating including gas for other commercial uses only when measured through the same meter.
- E. <u>Industrial Service</u>. This class includes service rendered primarily to manufacturing and industrial establishments where gas is used principally for large power, heating and metallurgical purposes.
- F. Public Street and Highway Lighting. Covers service rendered to municipalities or other governmental units for the purpose of lighting streets, highways, parks and other public places.
- G. Other Sales to Public Authorities. Covers service rendered to municipalities or other governmental units for lighting, heating, cooking, water heating and other general uses.
- H. Interdepartmental Sales. This class includes gas supplied by the gas department to other departments of the utility when the charges therefor are at tariff or other specific rates.
- 1. Other Sales. This class includes all service to ultimate consumers not included in the foregoing described classifications.
- * A I. Total sales to Ultimate Consumers. This is the total of the foregoing described classifications.
- J. Sales to Other Gas Utilities for Resale. This class includes all sales of gas to other gas utilities or to public authorities for resale to ultimate consumers.
- K. Other Gas Revenues. Revenues derived from operations of the respondent other than sales of gas. They include rent from gas property, interdepartmental rents, customers' forfeited discounts and penalties, services of customers' installations and miscellaneous gas revenues, such as fees and charges for changing, connecting and disconnecting service, profit on sales of materials and supplies not ordinarily purchased for resale, commissions on sales or distribution of others' gas (sold under rates filed by such others), management or supervision fees, sale of steam (except where the respondent furnishes steam-heating service) and rentals from leased property on customers' premises.
- * A K. Total Gas Operating Revenues. The total of all the foregoing accounts.

<u>Separate Schedules for Each State</u>. Separate schedules in this section should be filed for each state in which the respondent operates.

<u>Estimates</u>. If actual figures are not available for the schedules in this section, give estimates. Explain the methods used and the factual basis of the estimates, using supplementary sheets, if necessary.

^{*} Report Mcf on a pressure base of 14.65 psia dry and a temperature base of 60°F. Give two decimals.

NOTE. Revenue; columns d, f and g are net of prior period refunds and revenue deferred under certain surcharge programs (see page 305C).

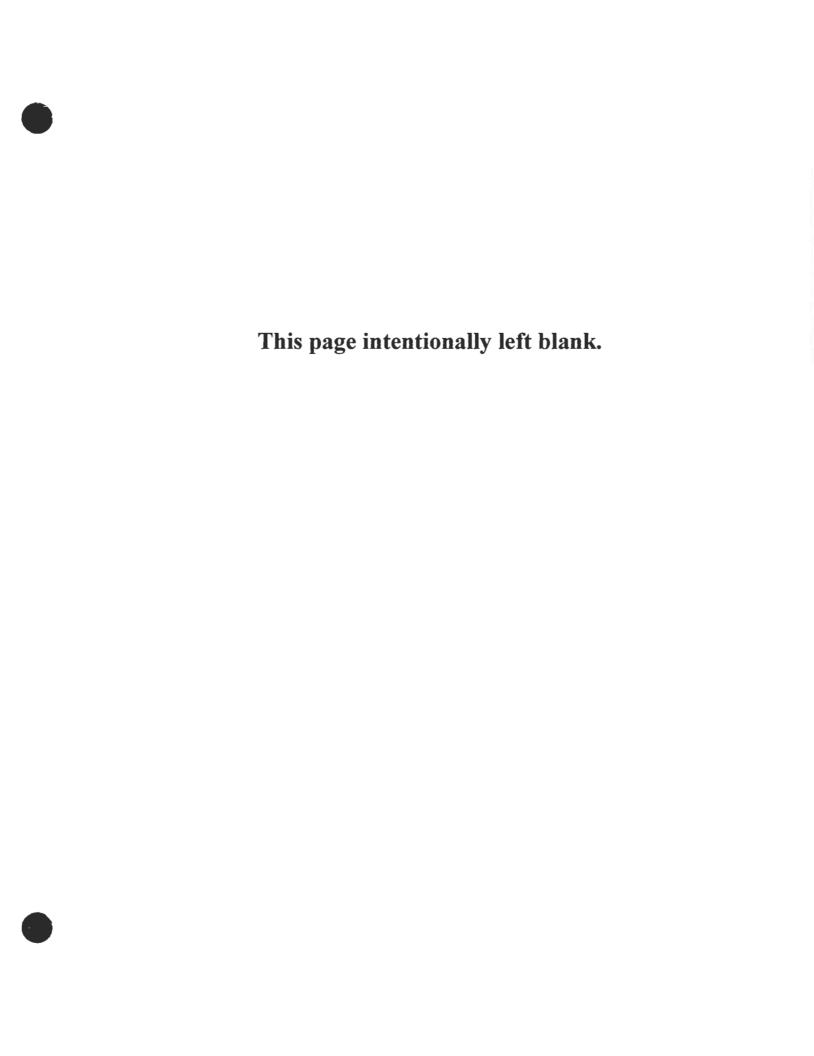

⁽¹⁾ Gas Customer Choice revenue and volumes associated with reconciliation.

#### 625-B. SALES DATA BY RATE SCHEDULES FOR THE YEAR

- Report below the distribution of customers, sales and revenue for the year by individual rate schedules. (See definitions on first page of this section).
- Column (a).—List all rate schedules by identification number or symbol. Where the same rate schedule
  designation applies to different rates in different zones, cities or districts, list separately data for each
  such area in which the schedule is available.
- Column (b).--Give the type of service to which the rate schedule is applicable, i.e., cooking, space heating, commercial heating, commercial cooking, etc.
- Column (c).--Using the classification shown in Schedule 625A, column (a), indicate the class or classes of customers served under each rate schedule, e.g., (A) for Residential Service, (B) Heating Service, etc.
- Column (d).--Give the average number of customers billed under each rate schedule during the year. The total of this column will approximate the total number of ultimate customers, line 12, Schedule 625A, page 305B.
- 6. Columns (e) and (f).--For each rate schedule listed, enter the total number of Mcf sold to, and revenues received from customers billed under that rate schedule. The totals of these columns should equal the totals shown on line 12, Schedule 625A. If the utility sells gas to ultimate customers under special contracts, the totals for such sales should be entered on a line on this page in order to make the totals of columns (e) and (f) check with those entered on line 12 Schedule 625A.
- 7. When a rate schedule was not in effect during the entire year, indicate in a footnote the period in which it was effective.

MICHIGAN CONSOLIDATED GAS COMPANY	AN ORIGINAL	December 31, 2004
REVENUE FROM TRANSPORTATION OF	GAS OF OTHERS-NATURAL	GAS (Account 489)

- Report below particulars (details) concerning revenue from transportation or compression (by respondent) of natural gas for others. Subdivide revenue between transportation or compression for interstate pipeline companies and others.
- Natural gas means either natural gas unmixed, or any mixture of natural and manufactured gas. Designate with an asterisk, however, if gas transported or compressed is other than natural gas.
- 3. In column (a) include the names of companies from which revenues were derived, points of receipt and delivery, and names of companies from which gas was received and to which delivered. Also specify the Commission order or regulation authorizing such transaction.

	specify the Commission order or regulation authorizing such transaction.

REVENUE FROM TRANSPORTATION OF GAS OF OTHERS-NATURAL GAS (Account 489)(Continued)

- 4. Designate points of receipt and delivery so that they can be identified on map of the respondent's pipe line system.
- 5. Enter Mcf at 14.65 psia at 60°F.
- 6. Minor items (less than 1,000,000 Mcf) may be grouped.

*Note: For transportation provided under Part 284 of Title 18 of the Code of Federal Regulations, report only grand totals for all transportation in columns (b) through (g) for the following regulation sections to be listed in column (a): 284.102, 284.222, 284.223(a), 284.223(b) and 284.224. Details for each transportation are reported in

separate annual reports required under Part 284 of the Commission's regulation."

# MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2004

- REVENUE FROM TRANSPORTATION OF GAS OF OTHERS-NATURAL GAS (Account 489)(Continued)

  1) Point of Receipt: Volumes of das received from ANR Pipeline Company at their Willow
- (1) Point of Receipt: Volumes of gas received from ANR Pipeline Company at their Willow Run Meter Station, Ypsilanti Township, Washtenaw County Michigan.
- Point of Delivery: Volumes of gas delivered to ANR Pipeline Company at their W.G. Woolfolk Compressor Station, Austin Township, Mecosta County, Michigan.
- (2) Point of Receipt: Volumes of gas received at Willow, Belle River, or Kalkaska.
- (2) Point of Delivery: Volumes of gas delivered at ANR Link Interconnect Columbus.
- (3) Point of Receipt: Volumes of gas received at various locations on the Alpena transmission line
- (3) Point of Delivery: Volumes of gas delivered to Willow, E. Caledonia or Mentor.
- (4) Point of Receipt: Volumes of gas received from various producers' wells at various locations in the Northern Production trend.
- (4) Point of Delivery: Volumes of gas delivered to the Kalkaska Inlet Facilities located in Kalkaska County, Michigan.
- (5) Point of Receipt: Volumes of gas received from ANR, Great Lakes, Consumers Energy, Shell Oil Company, and PEPL at their various ANR, Belle River, Northville, Kalkaska, and Rouge facilities respectively.
- (5) Point of Delivery: Volumes of gas delivered to Michigan Gas Utilities, Union Gas, Ltd., Great Lakes, or PEPL at their various ANR, Grand Haven, St. Clair, Belle River and Rouge facilities, respectively.
- (6) Point of Receipt: Volumes of gas received at various locations on the Alpena transmission line.
- (6) Point of Delivery: Volumes of gas delivered to West Branch/ Saginaw Bay.
- (7) Point of Receipt: Volumes of gas received from ANR Pipeline Company at their W.G. Woolfolk Compressor Station, Austin Township, Mecosta County, Michigan. (See Page 313C - F.E.R.C. Tariff Schedule ST93-4518)
- (7) Point of Delivery: Volumes of gas delivered to the interconnection between ANR Pipeline Company and Michigan Consolidated in Kalkaska County, Michigan. (See Page 313C - F.E.R.C. Tariff Schedule ST93-4518)
- (8) Includes demand charges that may or may not have volumes associated with the charge.
- (9) Revenue is received by capacity release. Capacity release is shown as a reduction of expense in 858-00.
- Affiliated company

# NUMBER OF GAS DEPARTMENT EMPLOYEES

- 1. The data on number of employees should be reported for the payroll period ending nearest to December 31, or any payroll period ending 60 days before or after December. 31.
- If the respondent's payroll for the reporting period includes any special construction personnel, include such
  employees on line 3, and show the number of such special construction employees in a footnote.
- 3. The number of employees assignable to the gas department from joint functions of combination utilities may be determined by estimate, on the basis of employee equivalents. Show the estimated number of equivalent employees

attributed to the gas department from joint functions.

#### GAS USED IN UTILITY OPERATIONS - CREDIT (Accounts 810, 811, 812)

- Report below particulars (details) of credits during the year to Accounts 810, 811 and 812 which offset charges to
  operating expenses or other accounts for the cost of gas from the respondent's own supply.
- 2. Natural gas means either natural gas unmixed, or any mixture of natural and manufactured gas.
- 3. If the reported Mcf for any use is an estimated quantity, state such fact in a footnote.
- 4. If any natural gas was used by the respondent for which a charge was not made to the appropriate operating expense or other account, list separately in column (c) the Mcf of gas used, omitting entries in columns (d) and (e).

5. Report pressure base of measurement of gas volumes at 14.73 psia at 60°F.

MICHIGAN CONSOLIDATED GAS CO	OMPANY AN ORIGINAL D	December 31, 2004		
LEASE RENTALS CHARSED  1. For purposes of this schedule a "lease" is defined as a contract or other agreement by which one party (lessor) conveys an intangible right or land or other langible property and equipment to another (lessee) for a specified period of one year or more for rent.  2. Report below, for leases with annual charges of \$25,000 or more, but less than \$250,000 the data called for in columns a, b (gescriptions only), f, g and j.  3. For leases having annual charges of \$250,000 or more, report the data called for in all the columns below.  4. The annual charges referred to in instruction 1 and 2 include the basic lease payment and other payments to or in behalf of the lessor such as taxes, depreciation, assumed pitterest or dividends on the lease. Securities, cost of property replacements* and other expanditures with respect to leased property except the expenses paid by lessee are to be itemized in column f below.  5. Leases of construction equipment in connection with construction work in progress are not				
equipment, automobile fleets and of the lease or for pole rentals at b (description), f, g and j, unless in column (a) report the name of companies of (describing associal column).	Continuous, master or open-end leases for EDP or office d other equipment that is short-lived and replaced under half report only the data called for in columns a the lessee has the option to purchase the property. It he lessor. List lessors which are associated tion) first, followed by non-associated lessors. "See	e r terms

ALBERT & CAROLINE STUTZ	NOBLE OFFICE AND STATION	(R) DECEMBER 2005		

LEASE RENTALS CHARGED (continued)

definition on page 226 (B).

7 In column (b) for each leasing arrangement, report in order, classified by transmission line, distribution system or other operating unit or system, followed by any other leasing arrangements not covered under the preceding classifications: Description of the property, whether lease is a sale and leaseback, whether lease has option to purchase and conditions of the purchase, whether lease is cancellable by either party and the cancellablon conditions of the purchase, whether lease is cancellable by either party and the cancellablen conditions of the purchase, whether lease is cancellable by either party and the cancellablen conditions of the purchase, whether lease is cancellable by either party and the cancellablen conditions of the party and the cancellable to expense or other treatment), the basis of any charges apportinged between the lessor and lessee, and the responsibility of the respondent for operation and maintenance expenses and replacement of property. The above information is to be reported with initiation of the lease and therafter when changed or every five years, which ever comes first.

8 Report in column (d), as of the date of the current lease term, the original cost of the property leased, estimated if not known, or the fair market value of the property if greater than original cost and indicate as shown. If leased property is part of a large unit, such as part of a building, indicate without associating any cost or value with it.

9 Report in column (k) below the estimated remaining annual charges under the current term of the lease. Do not apply a present value to the estimate. Assume that cancellable leases will not be cancelled when estimating the remaining charges.

(Accounts 403, 404.1, 404.2, 404.3, 405) (Except Amortization of Acquisition Adjustments)

- Report in Section A the amounts of depreciation expense, depletion and amortization for the accounts indicated and classified according to the plant functional groups shown.
- 2. Report all available information called for in Section B for the report year 1971, 1974 and every fifth year thereafter. Report only annual charges in the intervals between the report years (1971, 1974 and every fifth year thereafter). Report in column (b) all depreciable plant balances to which rates are applied and show a composite total. (If more desirable, report by plant account, subaccount or functional classifications other than those pre-printed in column a). Indicate at the bottom of Section B the manner in which column (b) balances are obtained. If

# DÉPRECIATION, DEPLETION, AND AMORTIZATION OF GAS PLANT (Accounts 403, 404.1, 404.2, 404.3, 405)

(Except Amortization of Acquisition Adjustments) (Continued)

average balances, state the method of averaging used. For column (c) report available information for each plant functional classification listed in column (a). If composite depreciation accounting is used, report available information called for in columns (b) and (c) on this basis. Where the unit of production method is used to determine depreciation charges, show at the bottom of Section B any revisions made to estimated gas reserves.

If provisions for depreciation were made during the year in addition to depreciation provided by application of reported rates, state at the bottom of Section B the amounts and nature of the provisions and the plant items to which related.

#### PARTICULARS CONCERNING CERTAIN INCOME DEDUCTIONS AND INTEREST CHARGES ACCOUNTS

Report the information specified below, in the order given, for the respective income deduction and interest charges accounts. Provide a subheading for each account and a total for the account. Additional columns may be added if deemed appropriate with respect to any account.

- (a) Miscellaneous Amortization (Account 425)-Describe the nature of items included in this account, the contra account charged, the total of amortizations charges for the year, and the period of amortization.
- (b) Miscellaneous Income Deductions-Report the nature, payee, and amount of other income deductions for the year as required by Accounts 426.1, Donations; 426.2, Life Insurance; 426.3, Penalities; 426.4, Expenditures for Certain Civic, Political and Related Activities; and 425.5, Other Deductions, of the Uniform System of Accounts. Amounts of less than \$10,000 may be grouped by classes within the above accounts.
- (c) Interest on Debt to Associated Companies (Account 430) For each associated company to which interest on debt was incurred during the year, indicate the amount and interest rate respectively for (a) advances on notes, (b) advances on open accounts, (c) notes payable, (d) accounts payable, and (e) other debt, and total interest. Explain the nature of other debt on which interest was incurred during the year.

(d) Other Interest Expense (Account 431)-Report particulars (details) including the amount and interest rate for other interest charges incurred during the year

MICHIGAN CONSOLIDATED GAS COMPANY	AN ORIG:NAL	December 31, 2004

#### PARTICULARS CONCERNING CERTAIN OTHER INCOME ACCOUNTS

- Report in this schedule the information specified in the instructions below for the respective other income accounts. Provide a conspicuous subheading for each account and show a total for the account. Additional columns may be added for any account if deemed necessary.
- Merchandising, Jobbing and Contract Work (Accounts 415 and 416)-Describe the general nature of
  merchandising, jobbing and contract activities. Show revenues by class of activity, operating expenses
  classified as to operation, maintenance, depreciation, rents and net income before taxes. Give the
  basis of any allocations of expenses between utility and merchandising, jobbing, and contract work
  activities.
- 3. Nonutility Operations (Accounts 417 and 417.1)-Describe each Nonutility operation and show revenues, operating expenses classified as to operation, maintenance, depreciation, rents, amortization and net net income before taxes, from the operation. Give the bases of any allocations of expenses between utility and nonutility operations. The book cost of property classified as nonutility operations should be included in Account 121.
- 4. Nonoperating Rental Income (Account 418)-For each major item of miscellaneous property included in Account 121, Nonutility Property, which is not used in operations for which income is included in Account 417, but which is leased or rented to others, give name of lessee, brief description of property, effective date and expiration date of lease, amount of rent revenues, operating expenses classified as to operation, maintenance, depreciation, rents, amortization, and net income before taxes, from the rentals. If the property is leased on a basis other than that of a fixed annual rental, state the method of determing the rental. Minor items may be grouped by classes, but the number of items so grouped should be shown. Designate any lesses which are associated companies.
- 5. Interest and Dividend Income (Account 419)-Report interest and dividend income, before taxes, identified as to the asset account or group of accounts in which are included the assets from which the interest or dividend income was derived from investments, Accounts 123, 124 and 136 may be shown in total. Income from sinking and other funds should be identified with the related special funds. Show also expenses, included in Account 419 as required by the Uniform System of Accounts.
- Miscellaneous Nonoperating Income (Account 421)-Give the nature and source of each miscellaneous Nonoperating income, and expense and the amount thereof for the year. Minor items may be grouped by

	classes.

# MICHIGAN CONSOLIDATED GAS COMPANY AN ORIGINAL December 31, 2004 EXPENDITURES FOR CERTAIN CIVIC, POLITICAL AND RELATED ACTIVITIES (Account 426.4)

- 1. Report below all expenditures incurred by the respondent during the year for the purpose of influencing public opinion with respect to the election or appointment of public officials, referenda, legislation or ordinances (either with respect to the possible adoption of new referenda, legislation or ordinances or repeal or modification of existing referenda, legislation or ordinances); approval, modification, or revocation of franchises; or for the purpose of influencing the decisions of public officials which are accounted for as Other Income Deductions, Expenditures for Certain Civic, Political and Related Activities; Account 426.4.
- Advertising expenditures in this Account shall be classified according to subheadings, as follows: (a) radio, television, and motion picture advertising; (b) newspaper, magazine, and pamphlet advertising; (c) letters or inserts in customers' bills, (d) inserts in reports to stockholders; (e) newspaper and magazine editorial services; and (f) other advertising.
- Expenditures within the definition of paragraph (1), other than advertising shall be reported according to captions or descriptions, clearly indicating the nature and purpose of the activity.
- 4. If respondent has not incurred any expenditures contemplated by the instructions of Account 426.4, so state.
- For reporting years which begin during the calendar year 1963 only, minor amounts may be grouped by classes if the number of items so grouped is shown.

NOTE: The classification of expenses as nonoperating and their inclusion in this account is for accounting purposes. It does not preclude Commission consideration of proof to the contrary for ratemaking or other purposes.

# REGULATORY COMMISSION EXPENSES

 Report particulars (details) of regulatory commission expenses incurred during the current year (or incurred in previous years, if being amortized) relating to formal cases before a regulatory body, or cases in which such a body was a party.

2. In columns (b) and (c), indicate whether the expenses were assessed by a regulatory body or were otherwise incurred by the utility.

Show in column (k) any expenses incurred in prior years which are being amortized. List in column (a) the period of amortization.

MICHIGAN CONSOLIDATED GAS COMPANY	AN ORIGINAL	December 31, 2004
RESEARCH, DEVELOPMENT	, AND DEMONSTR	ATION ACTIVITIES

- Describe and show below costs incurred and accounts charged during the year for technological research, development, and demonstration (R, D & D) projects initiated, continued, or concluded during the year. Report also support given to others during the year for jointly-sponsored projects. (Identify recipient regardless of affiliation.) For any R, D & D work carried on by the respondent in which there is a sharing of costs with others, show separately the respondent's cost for the year and cost chargeable to others. (See definition of research, development, and demonstration in Uniform System of Accounts.) 2.
  - Indicate in column (a) the applicable classification, as shown below. Classifications:
    - A. Gas R, D & D Performed Internally
    - (1) Pipeline
      - a. Design
      - b. Efficiency
    - (2) Compressor Station
      - a. Design
      - b. Efficiency
    - (3) System Planning, Engineering, and Operation
    - (4) Transmission Control and Dispatching
    - (5) LNG Storage and Transportation
    - (6) Underground Storage
    - (7) Other Storage
    - (8) New Appliances and New Uses
    - (9) Gas Exploration, Drilling, Production, and Recovery
    - (10) Coal gasification
    - (11) Synthetic Gas
    - (12) Environmental Research
    - (13) Other (Classify and Include Items in Excess of \$5,000.)
    - (14) Total Cost Incurred

# B. Gas R, D & D Performed Externally

- (1) Research Support to American Gas Association
- (2) Research Support to Others (Classify)
- (3) Total Costs Incurred
- 3. Include in column (c) all R, D & D items performed internally and in column (d) those items performed outside the company costing \$5,000 or more, briefly describing the specific area of R, D & D (such as safety, corrosion control, pollution, automation, measurement, insulation, type of appliance, etc.). Group items under \$5,000 by classifications and indicate the number of items grouped Under Other, (A.(13) and B.(2)) classify items by type of R, D & D activity.
- 4. Show in column (e) the account number charged with expenses during the year or the account to which amounts were capitalized during the year, listing Account 107 (Construction Work in Progress) first. Show in column (f) the amounts related to the account charged in column (e).
- 5. Show in column (g) the total unamortized accumulation of costs of projects. This total must equal the balance in Account 188 (Research, Development, and Demonstration Expenditures) outstanding at the end of the year.
- 6. If costs have not been segregated for R, D & D activities or projects, submit estimates for columns (c), (d) and (f) with such amounts identified by "Est."
- 7. Report separately research and related testing facilities operated by the respondent.

# DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts orginally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages orginally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

#### CHARGES FOR OUTSIDE PROFESSIONAL AND OTHER CONSULTATIVE SERVICES

1. Report the information specified below for all charges made during the year included in any account (including plant accounts) for outside consultative and other professional services. (These services include rate, management, construction, engineering, research, financial, valuation, legal, accounting, purchasing, advertising, labor relations, and public relations, rendered the respondent under written or oral arrangement, for which aggregate payments were made during the year to any corporation, partnership, organization of any kind, or individual [other than for services as an employee or for payments made for medical and related services] amounting to more than \$25,000, including payments for legislative services, except those which should be reported in Account 426.4, Expenditures for Certain Civic, Political and Related Activities.)

(a) Name and address of person or organization rendering services,

(b) description of services received during year and project or case to which services relate,

(c) basis of charges,(d) total charges for the year, detailing utility department and account charged.2. For any services which are of a continuing nature, give the date and term of contract and date of Commission

authorization, if contract received Commission approval.

3. Designate with an asterisk associated companies.

	3. Designate with an asterisk associated companies.

# SUMMARY OF COSTS BILLED TO ASSOCIATED COMPANIES

- 1. In column (a) report the name of the associated company
- 2. In column (b) describe the affiliation (percentage ownership, etc.).
- 3. In column (c) describe the nature of the goods and services provided (administrative and general expenses, gas transportation services, dividends declared, etc.)
- In columns (d) and (e) report the amount classified to operating income and the account(s) in which reported.

	writer reported.

#### NATURAL GAS RESERVES AND LAND ACREAGE

- Report below particulars (details) concerning the remaining recoverable salable gas reserves and natural gas land acreage at end of year. Designate gas reserves on acreage acquired before October 8, 1969, and reserves on acreage acquired after October 7, 1969.
- Classify the gas reserves and related land and land rights and costs under the sub-headings:
   (A) Producing Gas Lands, and (B) Non-producing Gas Lands. Provide a total for each classification.
- 3. For producing gas lands, report the required information alphabetically by State, County, or offshore area, and field. If the field name is not assigned, report as "unnamed." Identify offshore fields according to their location in State or Federal domains by using the letter "S" for State domain, and "F" for Federal domain in column (a). For column (b), enter the zone number if applicable. The land, leasehold, and gas rights costs so reported should agree with the amounts carried under Account 101, Gas Plant in Service, and as reported for Accounts 325.1, 325.2, and 325.3 on page 204-205. In column (e) show for each field the year and remaining recoverable salable gas reserves available to respondent from owned lands, leaseholds, and gas rights.

For non-producing gas lands, report the required information alphabetically by State, County, or
offshore areas by blocks. Report offshore lands in the same manner as producing gas lands. The land,

#### NATURAL GAS RESERVES AND LAND ACREAGE (Continued)

leasehold, and gas rights costs reported should agree with the amounts carried under Accounts 105, Gas Plant Held for Future Use and 105.1, Production Properties Held for Future Use, and reported in total on pages 214 and 215. Do not report estimates of gas reserves (column e) for unproven fields; however, if the company made estimates for such lands normally includes such estimates in stating its reserve position in connection with proposed financing and for managerial and other purposes, include such estimates on this page.

- Report the cost of lands, leasholds, and gas rights in accordance with the provisions of the Uniform Systems of Accounts for Natural Gas Companies.
- For columns (j) and (k), do not duplicate acreages reported for owned lands and leaseholds. Designate with an asterisk royalty interests separately owned.
- Indicate by footnote whether acres reported are gross acres or net acres based on proportion of ownership in jointly owned tracts.
- 8. Do not include oil mineral interests in the cost of acreage reported.
- 9. Report volumes on a pressure base of 14.73 psia at 60°F.

### CHANGES IN ESTIMATED HYDROCARBON RESERVES AND COSTS, AND NET REALIZABLE VALUE

- 1. Report changes during the year in recoverable salable reserves of the respondent located on acreage acquired after October 7, 1969. Have the reported reserves attested to every three years by an independent appraiser. File the attestation with the Commission along with this report. If the reserves, at the time the reserve determination is made, significantly differ from those reported on this page, file a reconciliation and expanation of such differences along with the attestation.
- For any important changes in the estimated reserves due to purchases, sales, or exchanges of land, leaseholds or rights, furnish on page 505 a brief expianation of the transaction and reserves involved. Also, explain the criteria used to estimate the net realizable value of reserves.
- 3. For column (d), report the reserves and changes associated with lands, leaseholds, and rights included in Account 105.1, Production Properties Held for Future Use. (See Gas Plant Accounts Instruction 7G of the U.S. of A.)
- 4. Report pressure base of gas volumes at 14.73 psia at 60°F.
- For line 16 base the net realizable value of hydrocarbon reserves on the current selling price of the hydrocarbon reserves less estimated costs of extraction, completion, and disposal.

	(Explain on page 505):		\$0.00			

NOTES

(1) The reserves indicated on Line 15 pertain to the Lee 2B Field, a field in which the Respondent owns a partial working interest. The leaseholds and/or gas rights for this field are owned by Peninsular Oil and Gas Company, the operator of the field. Lee 2B Field was plugged on July 10, 1997. Therefore the reserves become non-recoverable.

NOTE: Full Cost Accounting adopted January 1, 1975.

COMPRESSOR STATIONS

Report below particulars (details) concerning compressor stations. Use the following subheadings: field
compressor stations, products extraction compressor stations, underground storage compressor stations,
transmission compressor stations, distribution compressor stations, and other compressor stations.

 For column (a), indicate the production areas where such stations are used. Relatively small field compressor stations may be grouped by production areas. Show the number of stations grouped. Designate any station held under a title other than full ownership. State in a footnote the name of owner or co-owner, the nature of respondent's title, and percent of ownership, if jointly owned.

Line No.	Name of Station and Location	Number of Employees (1)	Plant Cost

### GAS AND OIL WELLS

- Report below the particulars (details) concerning gas and oil wells of the respondent which are either producing or capable of production.
- 2. Report the required information alphabetically by states. List wells located offshore separately.
- 3. For column (a), under separate headings, list gas wells first, oil wells second, and combination wells third. Combination wells are wells producing or capable of production from one or more oil reservoirs and also from one or more gas reservoirs. Enter totals for each of the headings (gas wells, oil wells, combination wells). Designate any wells not operated during the past year, and in a footnote state whether the book cost of such wells, or any portion thereof, has been retired in the books of account, or what disposition of the wells and their book cost is contemplated.
- 4. In column (f) report wells reclassified during the year as oi; wells, gas wells, or combination wells. Show additions in black and deductions enclosed in parentheses. The total additions equal the total deductions.

MICHIGAN CONSOLIDATED GAS COMPANY	AN ORIGINAL	December 31, 2004					
GAS STORA	AGE PROJECTS						
1. Depart particulars (details) for total gas storage projects							

- 1. Report particulars (details) for total gas storage projects.
- 2. Total storage plant (Column b) should agree with amounts reported by the respondent in Acct's 350.1 to 364.8 inclusive (pages 204-205).
- Give particulars (details) of any gas stored for the benefit of another company under a gas exchange arrangement or on basis of purchase and resale to other company. Designate with an asterisk if other company is an associated company.

# DISTRIBUTION SYSTEM PEAK DELIVERIES

1. Report below the total distribution system deliveries of gas, excluding deliveries to storage, for the periods of system peak deliveries indicated below, during the calendar year.

2. Report Mcf of a pressure base of 14.73 psia of 60°F.

L'ine No.	⊃ay⊹ Month (b)	Amount of Mcf (c)	Curtailments on Day/Month Indicated (d)
Section A Three Highest Days of System Peak Deliveries			
1 Date of Hignest Day's Deliveries	01/22		
2 Deliveries to Customers Subject to MPSC Rate Schedules		2,275,297	
3 Deliveries to Otners		c	
4 TOTAL		2,275,297	
5 Date of Second Highest Day's Deliveries *	01/29		
6 Deliveries to Customers Subject to MPSC Rate Schedules		2,201,940	
7 Deliveries to Others		٥	
8 TOTAL		2.201.940	
9 Date of Third Highest Day's Deliveries *	12/19		
10 Deliveries to Customers Subject to MPSC Rate Schedules		2.167.322	
11 Deliveries to Others		3	
12 TOTAL		2,167,322	
Section B. Highest Consecutive 3-Day System Peak Deliveries			
(and Supplies)			
13 Dates of Three Consecutive Days Highest System Peak Deliveries *	01/28-30		
14 Deliveries to Customers Subject to MPSC Rate Scredules		6,371.095	
15 Deliveries to Others		٥.	
16 TOTAL		6.371,095	
17 Supplies from Line Pack	1-1		
18 Supplies from Underground Storage		(4,334,528)	
19 Supplies from Other Peaking Facilities		N/A	
Section C. Highest Month's System Deliveries			
20 Month of Highest Month's System Deliveries	JANUARY		
21 Deliveries to Customers Subject to MPSC Rate Schedules		53.232.748	
22 Deliveries to Others		3,441.897	
23 TOTAL		56.674,645	

^{*} Split of sendout on a daily basis is not accurately separatable between MPSC rate schedule and Others.

### **AUXILIARY PEAKING FACILITIES**

- Report below auxiliary facilities of the respondent for meeting seasonal peak demands on the respondent's system, such as underground storage projects, liquefied petroleum gas installations, gas liquefaction plants, oil gas sets, etc.
- For column (c), for underground storage projects, report the delivery capacity on February 1 of the heating season overlapping the year-end for which this report is submitted. For other facilities, report the rated maximum daily delivery capacities.
- 3. For column (d), include or exclude (as appropriate) the cost of any plant used jointly with another facility on the basis of predominant use, unless the auxiliary peaking facility is a separate plant as contemplated by general instruction 12 of the Uniform System of Accounts.

#### SYSTEM MAPS

- 1. Furnish 5 copies of a system map (one with each copy of this report) of the facilities operated by the respondent for the production, gathering, transportation and sale of natural gas. New maps need not be furnished if no important change has occured in the facilities operated by the respondent since the date of the maps furnished with the previous annual report. If, however, maps are not furnished for this reason, reference should be made in the space below to the year's annual report with which the maps were furnished.
- Indicate the following information on the maps:
  - (a) Transmission lines colored in red, if they are not otherwise clearly indicated.
  - (b) Principal pipeline arteries of gathering system.
  - (c) Size of pipe in the principal pipelines shown on map.
  - (d) Normal directions of gas flow indicated by arrows.
  - (e) Location of natural gas fields or pools in which the respondent produces or purchases natural gas.
  - (f) Locations of compressor stations, products extraction plants, stabilization plants, important purification plants, undergrounf storage areas, recycling areas, etc.
  - (g) Important main line interconnections with other natural gas companies, indicating in each case whether gas is received or deliverd and name of connecting company.
  - (h) Principal communities in which respondent renders local distribution service.
- 3. In addition, show on each map: graphic scale to which map is drawn; date as of which the map represents the facts it purports to show, a legend giving all symbols and abbreviations used; designation of facilities leased to or from another company, giving name of such other company.
- 4. Maps not larger than 24 inches square are desired. If necessary, however, submit larger maps to show essential information. Fold the maps to a size not larger than this report. Bind the maps to the report.

Map provided in 1993 Annual Report with supplement in 1996 Annual Report.
