INDEPENDENT AUDITORS' REPORT

To the Board of Directors of Michigan Gas Utilities Corporation:

We have audited the balance sheet — regulatory basis of Michigan Gas Utilities Corporation (the "Company") as of December 31, 2007, and the related statements of income — regulatory basis; retained earnings — regulatory basis; and cash flows — regulatory basis, for the year ended December 31, 2007 included on Pages 110 through 121 of the accompanying Michigan Public Service Commission (MPSC) Form P-521. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, these financial statements were prepared in accordance with the accounting requirements of the MPSC, as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, such regulatory — basis financial statements present fairly, in all material respects, the assets, liabilities, and proprietary capital of Michigan Gas Utilities Corporation as of December 31, 2007, and the results of its operations and its cash flows for the year ended December 31, 2007, in accordance with the accounting requirements of the MPSC as set forth in its applicable Uniform System of Accounts and published accounting releases.

This report is intended solely for the information and use of the board of directors and management of Michigan Gas Utilities Corporation, and for filing with the MPSC, and is not intended to be and should not be used by anyone other than these specified parties.

April 22, 2008

Robaitto & Trucke LLP

INSTRUCTIONS FOR THE FILING OF THE ANNUAL REPORT OF NATURAL GAS UTILITIES (MAJOR AND NONMAJOR)

GENERAL INFORMATION

I. Purpose:

By authority conferred upon the Michigan Public Service Commission by 1919 PA 419, as amended, being MCL 460.51 et seq. And 1969 PA 306, as amended, being MCL 24.201 et seq., this form is a regulatory support requirement. It is designed to collect financial and operational information from public utilities, licensees and others subject to the jurisdiction of the Michigan Public Service Commission. This report is a nonconfidential public use form.

II. Who Must Submit:

Each major and nonmajor gas company, as classified by the Commission's Uniform System of Accounts must submit this form.

NOTE:

Major - A gas company having annual natural gas sales over 50 million Dth in each of the 3 previous calendar years

Nonmajor - A gas company having annual natural gas sales at or below 50 million Dth in each of the previous calendar years.

The class to which any utility belongs shall originally be determined by the average of its annual gas sales for the last three consecutive years. Subsequent changes in classification shall be made when the annual gas sales for each of the three immediately preceding years exceeds the upper limit, or is less than the lower limit of the classification previously applicable to the utility.

III. What and Where to Submit:

(a) Submit an original copy of this form to:

Michigan Public Service Commission Licensing & Enforcement Division 6545 Mercantile Way P.O. Box 30221 Lansing, MI 48909

Retain one copy of this report for your files.

(b) Submit immediately upon publication, one (1) copy of the latest annual report to stockholders and any annual financial or statistical report regularly prepared and distributed to bondholders, security analyst, or industry association. (Do not include monthly and quarterly reports. If reports to stockholders are not prepared, enter "NA" in column (c) on Page 5, the List of Schedules.) Mail these reports to:

Michigan Public Service Commission Licensing & Enforcement Division 6545 Mercantile Way P.O. Box 30221 Lansing, MI 48909

- (c) For the CPA certification, submit with the original submission of the form, a letter or report prepared in conformity with current standards of reporting which will:
 - contain a paragraph attesting to the conformity, in all material aspects, of the schedules and pages listed below with the Commission's applicable Uniform Systems of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and

(ii) Signed by independent certified public accountants or an independent licensed public accountant, certified or licensed by a regulatory authority or a state or other political subdivision of the U.S. (See 18 CFR 41.10-41.12 for specific qualifications.)

Schedules	Reference Page
Comparative Balance Sheet	110-113
Statement of Income	114-117
Statement of Retained Earnings	118-119
Statement of Cash Flows	120-121
Notes to Financial Statements	122-123

When accompanying this form, insert the letter or report immediately following the cover sheet. Use the following form for the letter or report unless unusual circumstances or conditions, explained in the letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

In connection with our regular examination of the financial statements of _________ for the year ended on which we have reported separately under date of ________ we have also reviewed schedules _______ of Form P-522 for the year filed with the Michigan Public Service Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Our review for this purpose included such tests of accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Michigan Public Service Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

State in the letter or report which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

(d) Federal; state and local governments and other authorized users may obtain additional blank copies to meet their requirements for a charge from:

Michigan Public Service Commission Licensing & Enforcement Division 6545 Mercantile Way P.O. Box 30221 Lansing, MI 48909

IV. When to Submit

Sumit this report form on or before April 30 of the year following the year covered by this report.

GENERAL INSTRUCTIONS

- Prepare this report in conformity with the Uniform System of Accounts (USOA). Interpret all accounting words and phrases in accordance with the USOA.
- II. Enter in whole number (dollars or Dth) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required). The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to

determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.

- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "NONE" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to respondent, either
 - (a) Enter the words "NOT-APPLICABLE" on the particular page(s), or
 - (b) Omit the page(s) and enter "NA", "NONE", or "NOT APPLICABLE" in column (c) on the List of Schedules, pages 2, 3 and 4.
- V. Complete this report by means which result in a permanent record. Complete the original copy in permanent black ink or typewriter print, if practical. The copies, however, may be carbon copies or other similar means of reproduction provided the impressions are clear and readable.
- VI. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" at the top of each page is applicable only to resubmissions (See VIII, below).
- VII. Indicate negative amounts (such as decreases) by enclosing the figures in parentheses ().
- VIII. When making revisions, resubmit only those pages that have been changed from the original submission. Submit the same number of copies as required for filing the form. Include with the resubmission the identification and Attestation page, page 1. Mail dated resubmissions to:

Michigan Public Service Commission Licensing & Enforcement Division 6545 Mercantile Way P.O. Box 30221 Lansing, MI 48909

- IX. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement (8 1/2 x 11 inch size) to the page being supplemented. Provide the appropriate identification information, including the title(s) of the page and page number supplemented.
- X. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- XI. Wherever (schedule) pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why the different figures were used.
- XII. Report all gas volumes on a pressure base of 14.65 psia and a temperature base 60°F.
- XIII. Respondents may submit computer printed schedules (reduced to 8 1/2 x 11 inch size) instead of the preprinted schedules if they are in substantially the same format.

DEFINITIONS

BTU per cubic foot - The total heating value, expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60°F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32°F, and under standard gravitational force (980.65 cm. Per sec.2) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)

l.

or any other Commission. Name the Commission whose authorization was obtained and give the date of the authorization.						
Respondent - The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

Michigan Gas Utilities Corp	(1) [X] An Original (2) [] A Resubmission	(Mo,Da,Yr) 04/30/08	December 31, 2007
	STATEMENT OF INC	OME FOR THE YEAR	

- 1. Report amounts for accounts 412 and 413, Revenues and Expenses from Utility Plant Leased to Others, in another utility column (I, k, m, o) in a similar manner to a utility department. Spread the amount(s) over lines 01 thru 20 as appropriate. Include these amounts in columns (c) and (d) totals.
- 2. Report amounts in account 414, Other Utility Operating Income, in the same manner as accounts 412 and 413 above.
- 3. Report data for lines 7, 9, and 10 for Natural Gas companies using accounts 404.1, 404.2, 404.3, 407.1, and 407.2.
- Use page 122 for important notes regarding the statement of income or any account thereof.
- 5. Give concise explanations concerning unsettled rate proceedings where a contingency exists such that refunds of a material amount may need to be made to the utility customers or which may result in a material refund to the utility with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power and gas purchases.
- 6. Give concise explanations concerning significant amounts of any refunds made or received during the year

STATEMENT OF INCOME FOR THE YEAR (Continued)

resulting from settlement of any rate proceedings affecting revenues received or costs incurred for power or gas purchases, and a summary of the adjustments made to balance sheet, income, and expense accounts.

- 7. If any notes appearing in the report to stockholders are applicable to this Statement of Income, such notes may be attached at page 122.
- 8. Enter on page 122 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the

basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.

- 9. Explain in a footnote if the previous year's figures are different from that reported in prior reports.
- 10. If the columns are insufficient for reporting additional utility departments, supply the appropriate account titles, lines 2 to 23, and report the information in the blank space on page 122 or in a supplemental statement.

Michigan Gas Utilities Corp	(2) [] A Resubmission	04/30/08	December 31, 2007

STATEMENT OF RETAINED EARNINGS FOR THE YEAR

- 1. Report all changes in appropriated retained earnings, unappropriated retained earnings, and unappropriated undistributed subsidiary earnings for the year.
- 2. Each credit and debit during the year should be identified as to the the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).
- 3. State the purpose and amount for each reservation or appropriation of retained earnings.
- 4. List first account 439 (Adjustments to Retained Earnings), reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit, items in that order.
- 5. Show dividends for each class and series of capital stock.
- 6. Show separately the State and Federal income tax effect of items shown in account 439 (Adjustments to Retained Earnings)
- 7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservation or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.
- 8. If any notes appearing in the report to stockholders are applicable to this statement, include them on pages 122-123.

	NOTES TO FINANCIAL STATEMENTS						

- 1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Cash Flows, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than
- 2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at the end of year, including a brief explanation, of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.

one statement

3. For Account 116, *Utility Plant Adjustments*, explain the origin of such amount, debits and credits during the year,

- and plan of disposition contemplated, giving references to Commission orders of other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.
- 4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See general Instruction 17 of the Uniform System of Accounts.
- 5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
- 6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 114-121, such notes may be attached hereto.

NOTES TO FINANCIAL STATEMENTS (Continued) – Page 123					

MICHIGAN GAS UTILITIES CORPORATION NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2007

The Notes to the Financial Statements that follow are as of and for the twelve-month period from January 1, 2007 to December 31, 2007.

NOTE 1--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- (a) MPSC Form P-522 Presentation Compared to Generally Accepted Accounting Principles--The accompanying financial statements have been prepared in accordance with the accounting requirements of the MPSC as set forth in the Uniform System of Accounts and accounting releases, which differs from generally accepted accounting principles ("GAAP"). As required by MPSC, Michigan Gas Utilities Corporation ("MGUC") classifies certain items in its 2007 Form P-522 in a manner different than the presentation in accordance with GAAP:
 - Removal costs that do not have an associated legal obligation are recognized as a component of accumulated depreciation, whereas these costs are recognized for GAAP as a regulatory liability.
 - Accumulated deferred income taxes are reported as deferred debits and deferred credits and are not netted into short-term or long-term classifications as required by GAAP.
 - MPSC requires transactions for the real-time and day-ahead Regional Transmission Organization administered energy markets to be separately reported for each hour on the statement of income, whereas MGUC combines the transactions of these two markets for a given hour for GAAP reporting purposes.
 - The GAAP financial statement presentation reports unamortized loss on reacquired debt and energy refunds or recoveries as regulatory assets and liabilities whereas the MPSC financial statement presentation reports these balances as deferred debits and current assets and liabilities.
 - GAAP financial statements reflect the adoption of Financial Accounting Standards Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes," whereas the Form P-522 is reported in accordance with the MPSC issued accounting guidance for this Interpretation. As such, the Form P-522 recognizes deferred income taxes based on the difference between positions taken in tax returns filed and amounts reported in the financial statements and does not report interest and penalties on tax deficiencies as income taxes.
- **(b) Nature of Operations--**MGUC, a wholly-owned subsidiary of Integrys Energy Group, Inc., is a regulated gas utility that supplies and distributes natural gas to southern Michigan customers in and around Grand Haven, Otsego, Benton Harbor, Coldwater, and Monroe.
 - The term "utility" refers to the regulated activities of MGUC, while the term "nonutility" refers to the activities of MGUC that are not regulated.
- (c) Use of Estimates—The preparation of financial statements in conformity with accounting requirements of the MPSC requires management to make estimates and assumptions that affect

Name of Respondent	This Report Is:	Date of Report	Year of Report
	(1) [X] An Original	(Mo, Da, Yr)	·
Michigan Gas Utilities Corp	(2) [] A Resubmission	April 30, 2008	December 31, 2007
NOTES TO FINANCIAL STATEMENTS (Continued) – Page 123			

reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates.

(d) Cash and Cash Equivalents--All short-term investments with an original maturity of three months or less are considered to be cash equivalents. Cash paid for income taxes for the twelve-month period ended December 31, 2007 was \$2.9 million and cash paid for interest totaled \$5.6 million.

The balance in cash and cash equivalents at the end of the current year consists of items shown below:

Cash	\$1,155,096
Special Deposits	2,500
Working Funds	4,850
	\$1,162,446

(e) Revenue and Customer Receivables--Revenues are recognized on the accrual basis and include estimated amounts for natural gas services rendered but not billed. There are no customers or industries that account for more than 10% of MGUC's revenues.

The MPSC has approved one-for-one recovery of prudently incurred natural gas costs for MGUC, subject to regulatory review. Fuel costs incurred in excess of (or less than) currently billable fuel costs are recognized as an increase (or decrease) in operating revenue. We are required to provide service and grant credit to customers within our service territories. We continually review customers' credit-worthiness and obtain or refund deposits accordingly. We are precluded from discontinuing service to residential customers during winter moratorium months. MGUC calculates a reserve for potential uncollectible customer receivables based on calculation which includes the aging of accounts receivable balances.

Certain customers are on "even-pay" plan, where they pay the same amount each month, based on estimated yearly usage; as a result, collections from customers, for which services has not been provided are included as a reduction in Customer Accounts Receivable.

- (f) Gas Cost Recovery (GCR)—Natural gas costs are recovered from customers pursuant to a Gas Cost Recovery Clause, as authorized by the provisions of the 1982 Public Act 304, in MGUC's Rules, Regulations and Rate Schedules, Rule B10, which is implemented by filing, in December of each year, an application with the MPSC requesting approval of maximum rates to be charged to customers during the subsequent GCR period (April 1 though March 31) for natural gas costs expected to be incurred during that period. Until an order is received approving or rejecting the rates, the rates requested may be billed. An annual reconciliation is made of natural gas costs incurred during the preceding GCR period with natural gas cost recovery revenues collected during that period with provisions for rolling over-collections and under-collections into the next GCR period, together with interest on any such amounts.
- (g) Inventories—Inventories consist of natural gas in storage and are valued at average cost. Natural gas purchased specifically for injection into MGUC's storage fields is priced at the delivery price of such purchases. Otherwise, natural gas injected into storage is priced at the average cost of natural gas purchased during the month of injection. Withdrawals of natural gas from storage fields are priced at the average cost of natural gas in storage.

Name of Respondent	This Report Is:	Date of Report	Year of Report
	(1) [X] An Original	(Mo, Da, Yr)	
Michigan Gas Utilities Corp	(2) [] A Resubmission	April 30, 2008	December 31, 2007
NOTES TO FINANCIAL STATEMENTS (Continued) – Page 123			

Arrangement for storage of natural gas also exists with third parties. Such arrangements provide for spot and term purchases by MGUC of up to 7.981 million Mcf of natural gas each summer for storage with other utilities and on pipelines, as well as MGUC owned storage facilities for delivery during the following heating season. Under the arrangements, the cost of such natural gas, together with related storage and transportation service charges, is charged to natural gas in underground storage as the natural gas is purchased. As natural gas is withdrawn, it is priced at the average cost of natural gas in storage computed separately for each third party.

(h) Risk Management Activities--As part of our regular operations, MGUC may enter into contracts, including options, swaps, futures, forwards, and other contractual commitments, to manage market risks such as changes in commodity prices.

MGUC accounts for its derivative contracts in accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended and interpreted. SFAS No. 133 establishes accounting and financial reporting standards for derivative instruments and requires, in part, that we recognize certain derivative instruments on the balance sheet as assets or liabilities at their fair value. The derivatives qualify for regulatory deferral subject to the provisions of SFAS No. 71, "Accounting for the Effects of Certain Types of Regulation;" the derivatives are marked to fair value pursuant to SFAS No. 133 and are offset with a corresponding regulatory asset or liability. At December 31, 2007, the Company has recorded a risk management asset of \$5,933 as a derivative instrument asset. This asset is related to a natural gas purchase contract to mitigate price volatility.

(i) Property, Plant, and Equipment--Utility plant is stated at the original cost of construction including an allowance for funds used during construction. The cost of renewals and betterments of units of property (as distinguished from minor items of property) is capitalized as an addition to the utility plant accounts. Except for land, no gain or loss is recognized in connection with ordinary retirements of utility property units. Maintenance, repair, replacement, and renewal costs associated with items not qualifying as units of property are considered operating expenses. The utility charges the cost of units of property retired, sold, or otherwise disposed of, less salvage, to accumulated depreciation. The cost of removal associated with the retirement is also charged to accumulated depreciation.

MGUC records straight-line depreciation expense over the estimated useful life of utility property and includes amounts for estimated removal and salvage. The annual utility composite depreciation rate was 2.67% for 2007 and 2.06% for the nine-month period ended December 31, 2006.

MGUC capitalizes certain costs related to software developed or obtained for internal use and amortizes those costs to operating expense over the estimated useful life of the related software, which is usually three to eight years.

- (j) Allowance for Funds Used During Construction--MGUC uses an allowance for funds used during construction (AFUDC) calculation which includes both a debt and an equity component as required by regulatory accounting. MGUC did not record AFUDC for the twelve-month period ended December 31, 2007 because there were no significant construction projects during the year.
- (k) Asset Impairment--MGUC reviews the recoverability of long-lived tangible and intangible assets in accordance with SFAS No. 144. This Statement requires review of assets when circumstances indicate that the carrying amount may not be recoverable. The carrying amount of assets held and used is not recoverable if it exceeds the undiscounted sum of cash flows expected to result from the use and eventual disposition of the asset. If the carrying value is not recoverable, the impairment loss is measured as the excess of the asset's carrying value over its fair value. Impairment charges

Name of Respondent	This Report Is:	Date of Report	Year of Report
	(1) [X] An Original	(Mo, Da, Yr)	•
Michigan Gas Utilities Corp	(2) [] A Resubmission	April 30, 2008	December 31, 2007
NOTES TO FINANCIAL STATEMENTS (Continued) – Page 123			

are recorded if the carrying value of such assets exceeds the future anticipated cash flows. There were no impairment charges for the twelve-month period ended December 31, 2007.

- (I) Regulatory Assets and Liabilities--MGUC is subject to the provisions of SFAS No. 71. Regulatory assets represent probable future revenue associated with certain incurred costs that will be recovered from customers through the ratemaking process. Regulatory liabilities represent amounts that are refundable in future customer rates. Based on a current evaluation of the various factors and conditions that are expected to impact future cost recovery, we believe that future recovery of our regulatory assets is probable. If, at any reporting date, a previously recorded regulatory asset is no longer probable of recovery, the regulatory asset is reduced to the amount considered probable of recovery with the reduction charged to current expense. For additional information, see Note 4, "Regulatory Assets and Liabilities."
- (m) Goodwill and Other Intangible Assets--In accordance with SFAS No. 142, "Goodwill and Other Intangible Assets," goodwill and other assets with indefinite lives are not amortized, but are subject to annual impairment tests. Impairment tests were performed at the time of acquisition for MGUC. Going forward, MGUC will perform annual impairment tests during the second quarter. The impairment tests are updated whenever events or changes in circumstances indicate that the assets might be impaired. Based upon the results of testing, no impairments were noted for the twelvemonth period ended December 31, 2007. See Note 5, "Goodwill and Other Intangible Assets," for additional information.
- (n) Asset Retirement Obligations--SFAS No. 143, "Accounting for Asset Retirement Obligations," requires companies to recognize, at fair value, legal obligations associated with the retirement of tangible long-lived assets that resulted from the acquisition, construction or development, and/or normal operation of the assets. The asset retirement obligations are accreted using a credit-adjusted risk-free interest rate commensurate with the expected settlement dates of the asset retirement obligations. The associated retirement costs are capitalized as part of the related long-lived assets and are depreciated over the useful lives of the assets.
 - MGUC recognizes Interpretation No. 47, "Accounting for Conditional Asset Retirement Obligations," which clarifies that conditional asset retirement obligations are within the scope of SFAS No. 143. Therefore, a liability must be recorded for these obligations as long as the fair value can be reasonably estimated, even if the timing or method of settling the obligation is unknown. Asset retirement obligations included within the scope of Interpretation No. 47 are calculated and recorded utilizing the methodology in SFAS No. 143. See Note 8, "Asset Retirement Obligations," for additional information regarding SFAS 143 and Interpretation No. 47.
- (o) Income Taxes.-We account for income taxes using the liability method as prescribed by SFAS No. 109, "Accounting for Income Taxes." Under this method, deferred income taxes have been recorded using currently enacted tax rates for the differences between the tax basis of assets and liabilities and the basis reported in the financial statements. Due to the effects of regulation on MGUC, certain adjustments made to defer income taxes are, in turn, recorded as regulatory assets or liabilities.

Investment tax credits, used to reduce federal income taxes payable, are deferred for financial reporting purposes, and amortized over the useful lives of the property to which they relate.

Integrys Energy Group files a consolidated United States income tax return that includes domestic subsidiaries of which its ownership is 80% or more. Integrys Energy Group and its consolidated

Name of Respondent	This Report Is:	Date of Report	Year of Report
	(1) [X] An Original	(Mo, Da, Yr)	·
Michigan Gas Utilities Corp	(2) [] A Resubmission	April 30, 2008	December 31, 2007
NOTES TO FINANCIAL STATEMENTS (Continued) – Page 123			

subsidiaries are parties to a tax allocation arrangement under which each entity determines its income tax provision on a stand-alone basis. In several states, combined or consolidated filing is required for certain members of the Integrys Energy Group doing business in that state. The tax allocation arrangement equitably allocates the state taxes associated with these combined or consolidated filings.

Integrys Energy Group and its subsidiaries have routinely been subject to examination by various taxing jurisdictions, including the Internal Revenue Service (IRS) and other state and local taxing jurisdictions. At any given time, there might be several of these audits open covering multiple tax years. Management has not been informed by any taxing jurisdictions of any material adjustment to any filed or proposed tax position as a result of on-going examinations that would impact MGUC.

On July 12, 2007, the Michigan Governor signed legislation that replaced the Single Business Tax with an effective date of January 1, 2008. On September 30, 2007, the Michigan legislature passed, and the governor signed into law, a "SFAS No. 109" amendment to the new Michigan Business Tax ("MBT"), providing a future tax deduction for existing book-tax differences. This legislation allows companies to record a state deferred tax asset for the future tax deduction, which offsets the state deferred tax liability recorded in the third quarter of 2007 for this new MBT.

On September 30, 2007, the Michigan legislature passed a bill that will expand the state's 6% sales tax to additional services. The Governor signed the legislation on September 30, 2007. On December 1, 2007, the Governor signed legislation that would repeal the previous expansion of the state's sales tax. The same legislation added an annual surcharge to taxpayer's MBT liability. These new provisions discussed above are effective as of January 1, 2008, at which time we began recording the effects on current earnings.

- (p) Taxes Other Than Income--MGUC presents revenue net of pass-through taxes on the Statements of Income. The company accounts for the Michigan Single Business Tax as tax other than income taxes.
- (q) Guarantees--FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees Including Indirect Guarantees of Indebtedness of Others," requires that the guarantor recognize, at the inception of the guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. See Note 11, "Guarantees," for additional information on Interpretation No. 45.
- (r) New Accounting Pronouncements--In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements," which defines fair value, establishes new criteria to be considered when measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 does not require any new fair value measurements. MGUC applies fair value measurements to certain assets and liabilities, primarily derivative instruments, available-for-sale securities, deferred compensation liabilities, financial instruments required to be disclosed at fair value under SFAS No. 107, "Fair Value of Financial Instruments," and long-lived assets evaluated for impairments. SFAS No. 157 is effective for MGUC on January 1, 2008 for financial assets and liabilities and January 1, 2009 for nonfinancial assets and liabilities.

SFAS No. 157 requires that a fair value measurement reflect the assumptions market participants would use in pricing an asset or liability based on the best available information. These assumptions include the risks inherent in a particular valuation technique (such as a pricing model) and the risks inherent in the inputs to the model. SFAS No. 157 also requires that we consider our own credit

Name of Respondent	This Report Is: (1) [X] An Original	Date of Report (Mo, Da, Yr)	Year of Report
Michigan Gas Utilities Corp	(2) [] A Resubmission	April 30, 2008	December 31, 2007
NOTES TO FINANCIAL STATEMENTS (Continued) - Page 123			

profile in valuing liabilities and specifies that transaction costs should not be considered in the determination of fair value. There was no impact on net income due to the adoption of this statement on January 1, 2008.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities." This standard permits entities to choose to measure many financial instruments and certain other items at fair value, following the provisions of SFAS No. 157. SFAS No. 159 is effective for MGUC beginning January 1, 2008. We have chosen not to elect the fair value option for any of our financial assets and liabilities.

In December 2007, the FASB issued SFAS No. 141(R), "Business Combinations." SFAS No. 141(R) provides greater consistency in the accounting and financial reporting of business combinations. SFAS No. 141(R) requires the acquiring entity in a business combination to recognize all assets acquired and liabilities assumed in the transaction and any non-controlling interest in the acquire at the acquirities assumed in the fair value as of that date. This includes the measurement of the acquirer's shares issued in consideration for a business combination, the recognition of contingent consideration, the accounting for pre-acquisition gain and loss contingencies, the recognition of capitalized in-process research and development, the accounting for acquisition-related restructuring cost accruals, the treatment of acquisition-related transaction costs, and the recognition of changes in the acquirer's income tax valuation allowance and deferred taxes. This statement also establishes disclosure requirements to enable the evaluation of the nature and financial effect of the business combination. SFAS No. 141(R) is effective for business combinations consummated after January 1, 2009. Also effective January 1, 2009, any adjustments to uncertain tax positions from business combinations consummated prior to January 1, 2009 will no longer be recorded as an adjustment to goodwill, but will be reported in income.

(s) Reclassification--At December 31, 2006, MGUC previously reported assets related to manufactured gas plant activities of \$26.6 million as regulatory assets included in Account 182.3. The \$26.6 million was reclassified from regulatory assets to miscellaneous deferred debits in Account 186 to conform to the December 31, 2007 presentation.

NOTE 2--ACQUISITIONS OF ASSETS

On April 1, 2006, Integrys Energy Group, through its wholly-owned subsidiary MGUC, completed the acquisition of natural gas distribution operations in Michigan from Aquila. The Michigan natural gas assets provide natural gas distribution service in 147 cities and communities primarily throughout Otsego, Grand Haven, and Monroe counties. The assets operate under a cost of service environment and are currently allowed an 11.4% return on equity on a 45% equity component of the regulatory capital structure.

Integrys Energy Group paid total consideration of \$341.7 million for the Michigan natural gas distribution operations, which included closing adjustments related primarily to purchased working capital, and contributed the net assets acquired to MGUC, in a non-cash transaction. The transaction was accounted for under the purchase method of accounting. The purchase price \$341.7 million was allocated based on the estimated fair market value of the assets acquired and liabilities assumed. The excess cost of the acquisition over the estimated fair value of the tangible net assets acquired was allocated to identifiable intangible assets with the remainder then allocated to goodwill. The results of operations were included in the accompanying financial statements since the date of acquisition. The following table shows the

Name of Respondent	This Report Is:	Date of Report	Year of Report

preliminary allocation of the purchase price to the assets acquired and liabilities assumed at the date of the acquisition.

(Millions)	100
Accounts receivable, net	\$ 28.4
Accrued unbilled revenues	15.6
Inventories	22.5
Other current assets	2.7
Property plant and equipment, net	135.6
Regulatory assets	56.5
Other long-term assets	
Goodwill	122.7
Intangibles – trade name	5.2
Other long-term assets	5.6
Total Assets	394.8
Other current liabilities	6.3
Regulatory liabilities	1.2
Environmental remediation liabilities	24.9
Pension and postretirement benefit obligations	20.5
Other long-term liabilities	0.2
Total Liabilities	53.1
Net Assets Acquired	\$341.7

NOTE 3--FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to estimate such value:

Cash, accounts receivable, and accounts payable: The carrying amount approximates fair value due to the short maturity of these investments and obligations.

The estimated fair values of our financial instruments as of December 31, 2007 were:

(Millions)	Carrying Amount	Fair Value	
Cash and cash equivalents	\$1.2	\$1.2	
Accounts receivable	22.4	22.4	
Accounts payable	30.9	30.9	
Derivative assets	0.0	0.0	

Name of Respondent	This Report Is:	Date of Report	Year of Report
	(1) [X] An Original	(Mo, Da, Yr)	·
Michigan Gas Utilities Corp	(2) [] A Resubmission	April 30, 2008	December 31, 2007
NOTES TO FINANCIAL STATEMENTS (Continued) – Page 123			

NOTE 4--REGULATORY ASSETS AND LIABILITIES

The following regulatory assets and liabilities are reflected in the Balance Sheet as of December 31, 2007 and December 31, 2006:

(Millions)	2007	2006
Regulatory assets		
Pension and post-retirement benefit related items	\$28.8	\$30.3
Environmental remediation costs (net of insurance recoveries)	27.8	26.6
Total	\$56.6	\$56.9
Regulatory liabilities		
Pension and post-retirement benefit related items	\$5.1	\$1.9
Other	0.0	1
Total	\$5.1	\$2.0

We expect to recover our regulatory assets and return our regulatory liabilities through rates charged to customers based on specific ratemaking decisions or precedent for each item over periods specified by the regulators or over the normal operating period of the assets and liabilities to which they relate. Based on prior and current rate treatment for carrying costs of regulatory assets, we believe it is probable that MGUC will continue to recover from customers the regulatory assets described above.

Pension and post-retirement benefit related items at December 31, 2006 include all initial adjustments made to implement SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans – an amendment of FASB Statements No. 87, 88, 106, and 132(R)," at its implementation date of December 31, 2006.

See Note 2, "Acquisitions and Sales of Assets," Note 10, "Commitments and Contingencies," and Note 12, "Employee Benefit Plans," for more information on some of the more significant regulatory assets and liabilities listed in the above table.

NOTE 5--GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill recorded by MGUC was \$122.7 million at December 31, 2007 related to the acquisition of the natural gas distribution operations in Michigan in April 2006. In conjunction with the acquisition of the natural gas distribution operations, a \$5.2 million indefinite lived intangible asset was recorded related to the MGUC trade name. Goodwill and Intangible assets are recorded on the balance sheet in Account 186.

Michigan Gas Utilities Corp	(2) [] A Resubmission	April 30, 2008	December 31, 2007
NOTES TO FINANCIAL STATEMENTS (Continued) – Page 123			

NOTE 6--SHORT-TERM DEBT

All short-term borrowings are from Integrys Energy Group and bear interest at Integrys Energy Group's weighted average borrowing rate on short-term loans. Short-term borrowings from Integrys Energy Group were as follows (in millions):

•	Maximum amount of short-term borrowings outstanding		
	during the twelve-months ended December 31, 2007		\$ 34.9
•	Average amount of short-term borrowings outstanding		
	during the twelve-months ended December 31, 2007		\$ 7.9
•	Weighted average interest rate on short-term borrowings		
	for the twelve-months ended December 31, 2007		5.24%
•	Weighted average interest rate on short-term borrowings at year end	٠,	4.88%
•	Short-term borrowings from Integrys Energy Group at December 31, 2007		\$ 32.0

NOTE 7--LONG-TERM DEBT

Pursuant to a credit line agreement entered into on April 1, 2006 with Integrys Energy Group, MGUC acquired long-term debts as presented in the table below:

At Decem	2007			
Integrys E	nergy Group Note	S		
<u>Term</u>	Interest Rate	Year Due	Description	
7 year	5.72%	2013	Senior Note	28.0
10 year	5.76%	2016	Senior Note	28.0
15 year	5.98%	2021	Senior Note	28.0
Total Long	g-Term Debt			\$84.0

Interest is paid semi-annually for the three notes issued. There are no covenants associated with these obligations.

A schedule of all principal debt payment amounts is as follows:

Year ending December 31 (Millions)	
2008	\$ -
2009	<u>-</u>
2010	-
2011	-
2012	-
Later years	84.0
Total payments	\$84.0

NOTE 8--ASSET RETIREMENT OBLIGATIONS

Under the provisions of SFAS No. 143, "Accounting for Asset Retirement Obligations," and Interpretation No. 47, "Accounting for Conditional Asset Retirement Obligations," MGUC has recorded liabilities for legal obligations associated with the retirement of tangible long-lived assets. MGUC identified asset retirement

Name of Respondent	This Report Is:	Date of Report	Year of Report		
	(1) [X] An Original	(Mo, Da, Yr)			
Michigan Gas Utilities Corp	(2) [] A Resubmission	April 30, 2008	December 31, 2007		
NOTES TO FINANCIAL STATEMENTS (Continued) – Page 123					

obligations primarily related to asbestos abatement at office buildings and service centers. In accordance with SFAS No. 71, MGUC established regulatory assets and liabilities to record the differences between ongoing expense recognition under SFAS No. 143 and Interpretation No. 47, and the rate-making practices for retirement costs authorized by the MPSC. At December 31, 2007, asset retirement obligations had a balance of \$120,199. Accretion expense was \$6,141 for the twelve-month period ended December 31, 2007.

NOTE 9--INCOME TAXES

The principal components of our deferred tax assets and liabilities recognized in the balance sheet as of December 31, 2007 are as follows:

(Millions)	2007	2006
Deferred tax assets:		
Employee benefits	\$2.4	\$3.2
Plant related	7.2	1.2
Other	3.4	1.3
Total deferred tax assets	13.0	5.7
Deferred tax liabilities:		
Regulatory deferrals	\$12.4	\$10.6
Plant related	11.5	
Other	.9	.2
Total deferred tax liabilities	\$24.8	\$10.8

Consistent with ratemaking treatment, certain temporary differences, in which the offsetting amount is recorded as a regulatory assets or liability, are presented net in the table above.

The following table presents a reconciliation of federal income taxes (which are calculated by multiplying the statutory federal income tax rate by book income before federal income tax) to the provision for income taxes reported in the Statement of Income for the twelve-month period ended December 31, 2007.

(Millions, except for percentages)

	Rate	2007	Rate	2006
Statutory federal income tax	35.0%	\$2.6	35.0%	\$(4.1)
Effective income tax	35.0%	\$2.6	35.0%	\$(4.1)
Current provision - Federal		\$(4.1)		\$(9.2)
Deferred provision		6.7		5.1
Total income tax expense		\$2.6		\$(4.1)

As the related temporary differences reverse, MGUC is prospectively refunding taxes to customers for which deferred taxes were recorded in prior years at rates different than current rates. The regulatory liability for these refunds and other regulatory tax effects totaled approximately \$4 as of December 31, 2007.

NOTES TO FINANCIAL STATEMENTS (Continued) - Page 123						

NOTE 10--COMMITMENTS AND CONTINGENCIES

Commodity and Purchase Order Commitments

MGUC routinely enters into long-term purchase and sale commitments that have various quantity requirements and durations. MGUC has obligations related to natural gas contracts totaling \$116.5 million, substantially all of which end by 2019.

Environmental

Manufactured Gas Plant Remediation

MGUC is responsible for the environmental impacts at 11 former manufactured gas plant sites. Contaminated soil has been removed from seven of the sites. Future investigations are needed at many of the sites to evaluate on-site, off-site, and sediment impacts.

MGUC has estimated future investigation and remediation costs of approximately \$26.3 million as of December 31, 2007. The MPSC has historically authorized recovery of these costs. An environmental liability and related regulatory asset were recorded at the date of acquisition to reflect the expected investigation and clean-up costs relating to these sites and the expected recovery of these costs in future rates.

As these 11 sites are integrated into the corporate gas plant site management program, cost estimates may change. MGUC will also evaluate the feasibility of transferring the sites into the EPA Superfund Alternatives Program.

NOTE 11--GUARANTEES

Corporate guarantees in the amount of \$75.0 million have been authorized by Integrys Energy Group's Board of Directors to support MGUC. Integrys Energy Group had issued \$60.9 million of outstanding guarantees related to MGUC's natural gas supply at December 31, 2007.

NOTE 12--EMPLOYEE BENEFIT PLANS

Employees of the Company are eligible to participate in Integrys Energy Group employee benefit plans. The costs of the plans are allocated among Integrys Energy Group and its subsidiaries, including the Company. The plans are sponsored and administered by Wisconsin Public Service Corporation (WPSC), a subsidiary of Integrys Energy Group. The Board of Directors has established the Employee Benefits Administrator Committee, which consists of Integrys Energy Group employees, to manage the operations and administration of all benefit plans and related trusts.

The costs of pension and postretirement benefits are expensed over the period during which the employee renders service. The transition obligation for postretirement benefits is being recognized over a 20-year period beginning in 1993. Integrys Energy Group uses a December 31 measurement date for all of its plans.

In accordance with purchase accounting rules, the Company established an opening balance sheet liability as of the April 1, 2006 sale close date, equal to the difference between plan liabilities and assets

Name of Respondent	This Report Is:	Date of Report	Year of Report		
	(1) [X] An Original	(Mo, Da, Yr)	·		
Michigan Gas Utilities Corp	(2) [] A Resubmission	April 30, 2008	December 31, 2007		
NOTES TO FINANCIAL STATEMENTS (Continued) – Page 123					

transferred from Aquila, Inc. using the same discount rate assumption (5.65%) chosen by Integrys Energy Group at the December 31, 2005 disclosure date which was also used for calculating net periodic benefit cost in 2006. The Company also established a regulatory asset equal to the difference between the opening balance sheet liabilities for all benefit plans of the Company and what was on the balance sheet of Aquila, Inc. on the date of the sale. The Company's share of pension costs/(credits) was \$(193,300) in 2007 and \$256,523 for the nine-month period ended December 31, 2006. The Company's share of other postretirement benefit costs/(credits) was \$(219,825) in 2007 and \$596,992 for the nine-month period ended December 31, 2006.

The Company also maintains a legacy non-qualified Supplemental Employee Retirement Plan (SERP). The liabilities for this plan are recorded on the Company's Balance Sheet. There are no assets for this plan. Actuarial calculations are performed (based upon specific employees and their related years of service) in order to determine the Company's benefit cost.

The following tables provide a reconciliation of the changes in the plan's benefit obligations and fair value of assets during 2007 and 2006.

	SEF	₹P	
		2007	 2006
Reconciliation of benefit obligation

Michigan Gas Utilities Corp (2) [] A Resubmission April 30, 2008 December 31, 2007							
NOTES TO FINANCIAL STATEMENTS (Continued) - Page 123							

Defined Contribution Benefit Plans

Integrys Energy Group maintains a 401(k) Savings Plan for substantially all full-time employees. Prior to 2008, employees generally could contribute from 1% to 50% of their base compensation to individual accounts within the 401(k) Savings Plan. The Company matches 100% of the employees' contributions up to 6% of eligible compensation. The Company also offers a discretionary profit-sharing contribution to eligible employees based on a percentage of base pay. The Company's share of the total costs was \$799,046 in 2007 and \$537,208 for the nine-month period ended December 31, 2006.

NOTE 13--COMMON STOCK

Common Stock of MGUC consists of Common Stock without par value, \$1 stated value, authorized 1,000 shares, issued and outstanding – 100 shares. The Common Stock balance was \$100 at December 31, 2007. All shares of the Company's Common Stock are owned by Integrys Energy Group.

NOTE 14--RELATED PARTY TRANSACTIONS

MGU routinely engages in inter-company transactions with its parent and affiliate companies.

The following table shows inter-company transaction balances for the twelve months ended December 31, 2007:

(Millions)	2007	2006
Accounts Receivable	\$0.0	\$1.2
Taxes Receivable	5.9	.8
Advances from Affiliates	84.0	84.0
Accounts Payable	3.1	6.1
Notes Payable	32.0	22.3

MGU also provides and receives administrative and support services, to and from its parent, Integrys Energy Group, and other subsidiaries of Integrys Energy Group. All such transactions are settled through cross-charges and inter-company billings, as reflected in the balances in the above table. Interest expense for the twelve months ended December 31, 2007, includes \$5.4 million on debts from associate companies.

WPSC serves as plan sponsor and administrator for the qualified retirement plan and other post retirement benefits, which were not acquired in the merger between Integrys Energy Group and PEC. Pursuant to the foregoing, and consistent with an affiliated interest agreement filed with the MPSC on April 12, 2006, as part of a revised compliance plan in Case No. U-12134, the associated liabilities for MGUC's pension liability of \$6.0 million, and post retirement health liability of \$14.2 million were transferred from MGUC's balance sheet to the WPSC's balance sheet.

Please see Note 6, "Short-Term Debt," Note 7, "Long-Term Debt," and Note 12, "Employee Benefit Plans," for additional disclosures on related party transactions.

Name of Respondent	This Report Is:	Date of Report	Year of Report
	(1) [] An Original	(Mo,Da,Yr)	·
Michigan Gas Utilities Corp	(2) [X] A Resubmission	August 8, 2008	December 31, 2007

GAS PLANT IN SERVICE (Accounts 101, 102, 103, and 106)

- 1. Report below the original cost of gas plant in service according to the prescribed accounts.
- 2. In addition to Acct 101, Gas Plant in Service (Classified), this schedule includes Account 102, Gas Plant Purchased or Sold; Acct 103, Experimental Gas Plant Unclassified; and Account 106, Completed Construction Not Classified Gas.
- 3. Include in column (c) or (d), as appropriate, corrections of additions and retirements for the current or preceding year.
- 4. Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such amounts.
- 5. Classify Account 106 according to prescribed accounts, on an estimated basis if necessary, and include the entries in column (c). Also to be included in column (c) are entries

for reversals of tentative distributions of prior year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements which have not been classified to primary accounts at the end of the year, include in column (d) a tentative distribution of such retirements, on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provision. Include also in column (d) reversals of tentative distributions of prior year of unclassified retirements.

Attach supplemental statement showing the account distributions of these tentative classifications in columns (c) and (d), including the reversals of the prior year's tentative account distributions of these amounts.

GAS PLANT IN SERVICE (Accounts 101, 102, 103, and 106) (Continued)

Careful observation of the above instructions and the texts of Accounts 101 and 106 will avoid serious omissions of the reported amount of respondent's plant actually in service at end of year.

- 6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation acquisition adjustments, etc., and show in column (f) only the offset to the debits or credits distributed in column (f) to primary account classification.
- 7. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement showing subaccount classification of such plant conforming to the requirements of these pages.
- 8. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchaser, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give also date of such filing.

Michigan Gas Utilities Corp	(2) [] A Resubmission	04/30/08	December 31, 2007
GENERAL DESC	RIPTION OF CONSTRUCTI	ON OVERHEAD PRO	CEDURE

1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.

- 2. Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Gas Plant Instructions 3 (17) of the U.S. of A.
- 3. Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.

Administrative and General Transferred Credit

- (a) Overheads capitalized consist of administrative, engineering, and clerical salaries and related expenses charged to Accounts 920 and 921, Administrative and General Expenses, property taxes, and an applicable portion of the injuries and damages insurance, which are incurred in connection with construction matters.
 - (b) The amount charged to construction work in progress is based on a study made to determine the portion of such expenses properly charged to construction.
 - (c) Overheads are charged directly to individual work orders. A monthly overhead distribution is made to each individual work order on the basis of current charges to the total of all individual work order current charges.
 - (d) Generally, there is no difference made in percentages for different types of construction.
 - (e) Overheads are indirectly assigned.

Employees' Pensions and Benefits Capitalized

(f) Employees' Pensions and Benefits Capitalized is based on direct charges to construction payroll. Such amounts are distributed monthly to construction work orders on the basis of total direct construction payroll charges during the month. The total charges incurred for pensions and benefits are distributed over total company payroll.

Construction Overhead - Personnel

(g) Total charges to this account represent payroll, personnel expenses, and transportation expenses incurred by personnel, other than regular construction crews in connection with construction activities, which for practical reasons are not chargeable direct to a specific construction work order. The total charges for each month are distributed to construction work orders on the basis of total direct company payroll charges and contract labor charges during the month.

RECEIVABLES FROM ASSOCIATED COMPANIES (Accounts 145, 146)

- Report particulars of notes and accounts receivable from associated companies* at end of year.
- Provide separate headings and totals for Accounts 145, Notes Receivable from Associated Companies, and 146, Accounts Receivable from Associated Companies, in addition to a total for the combined accounts.
- For notes receivable, list each note separately and state purpose for which received. Show also in column (a) date of note, date of maturity and interest rate.

- 4. If any note was received in satisfaction of an open account, state the period covered by such open account.
- Include in column (f) interest recorded as income during the year including interest on accounts and notes held any time during the year.
- Give particulars of any notes pledged or discounted, also of any collateral held as guarantee of payment of any note or account.
- * NOTE: "Associated companies" means companies or persons that, directly or indirectly, through one or more intermediaries, control, or are controlled by, or are under common control with, the account company. This includes related parties.

"Control" (including the terms "controlling," "controlled by," and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of a company, whether such power is exercised through one or more intermediary companies, or alone, or in conjunction with, or pursuant to an agreement, and whether such power is established through a majority or minority ownership or voting of securities, common directors, officers or stockholders, voting trusts, holding trusts, associated companies, contract or any other direct or indirect means.

MATERIALS AND SUPPLIES						

- 1. For Account 154, report the amount of plant materials and operating supplies under the primary functional classifications as indicated in column (a); estimates of amounts by function are acceptable. In column (d), designate the department or departments which use the class of material. Nonmajor companies may report total on line 4.
- 2. Give an explanation of important inventory adjustments during the year (on a supplemental page) showing general classes of material and supplies and the various accounts (operating expense, clearing accounts, plant, etc.) affected-debited or credited. Show separately debits or credits to stores expense-clearing, if applicable.

CAPITAL STOCK SUBSCRIBED, CAPITAL STOCK LIABILITY FOR CONVERSION, PREMIUM ON CAPITAL STOCK AND INSTALLMENTS RECEIVED ON CAPITAL STOCK (Accounts 202 & 205, 203 & 206, 207, 212)

- 1. Show for each of the above accounts the amounts applying to each class and series of capital stock.
- 2. For Account 202, Common Stock Subscribed, and Account 205, Preferred Stock Subscribed, show the subscription price and the balance due on each class at the end of year.
- 3. Describe in a footnote the agreement and transactions under which a conversion liability existed

under Account 203, Common Stock Liability for Conversion, or Account 206, Preferred Stock Liability for Conversion, at the end of the year.

4. For Premium on Account 207, *Capital Stock*, designate with a double asterisk any amounts representing the excess of consideration received over stated values of stocks without par value.

LONG-TERM DEBT (Accounts 221, 222, 223 and 224)

- 1. Report by balance sheet account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt.
- 2. In column (a), for new issues, give Commission authorization numbers and dates.
- 3. For bonds assumed by the respondent, include in column (a) the name of the issuing company as well as a description of the bonds.
- 4. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
- 5. For receivers' certificates, show in column (a) the name of the court and date of court order under which such certificates were issued.
- 6. In column (b) show the principal amount of bonds or other long-term debt originally issued.
- 7. In column (c) show the expense, premium or discount with respect to the amount of bonds or other long-term debt originally issued.
- 8. For column (c) the total expenses should be listed first for each issuance, then the amount of premium (in parentheses) or discount. Indicate the premium or discount with a notation, such as (P) or (D). The expenses, premium or discount should not be netted.
- 9. Furnish in a footnote particulars (details) regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year. Also, give in a footnote the date of the Commission's authorization of treatment other than as specified by the Uniform System of Accounts.

LONG-TERM DEBT (Accounts 221, 222, 223 and 224) (Continued)

- 10. Identify separate undisposed amounts applicable to issues which were redeemed in prior years.
- 11. Explain any debits and credits other than amortization debited to Account 428, Amortization of Debt-Discount and Expense, or credited to Account 429, Amortization of Premium on Debt-Credit.
- 12. In a footnote, give explanatory particulars (details) for Accounts 223 and 224 of net changes during the year. With respect to long-term advances, show for each company: (a) principal advanced during year, (b) interest added to principal amount, and (c) principal repaid during year. Give Commission authorization numbers and dates.
- 13. If the respondent has pledged any of its long-term debt securities give particulars (details) in a footnote including name of pledgee and purpose of the pledge.
- 14. If the respondent has any long-term debt securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
- 15. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest expense in column (i). Explain in a footnote any difference between the total of column (i) and the total of Account 427, Interest on Long-Term Debt, and Account 430, Interest on Debt to Associated Companies.
- 16. Give particulars (details) concerning any long-term debt authorized by a regulatory commission but not yet issued.

PAYABLES TO ASSOCIATED COMPANIES* (Accounts 233, 234)

- 1. Report particulars of notes and accounts payable to associated companies at end of year.
- 2. Provide separate totals for Accounts 233, Notes Payable to Associated Companies, and 234, Accounts Payable to Associated Companies, in addition to total for the combined accounts.
- 3. List each note separately and state the purpose for which issued. Show also in column (a) date of note, maturity and interest rate.
- 4. Include in column (f) the amount of any interest expense during the year on notes or accounts that were paid before the end of the year.
- 5. If collateral has been pledged as security to the payment of any note or account, describe such collateral.

*See definition on page 226B

PAYABLES TO ASSOCIATED COMPANIES* (Accounts 233, 234)

- 1. Report particulars of notes and accounts payable to associated companies at end of year.
- 2. Provide separate totals for Accounts 233, Notes Payable to Associated Companies, and 234, Accounts Payable to Associated Companies, in addition to total for the combined accounts.
- 3. List each note separately and state the purpose for which issued. Show also in column (a) date of note, maturity and interest rate.
- 4. Include in column (f) the amount of any interest expense during the year on notes or accounts that were paid before the end of the year.
- 5. If collateral has been pledged as security to the payment of any note or account, describe such collateral.

*See definition on page 226B

OTHER REGULATORY LIABILITIES

- 1. Reporting below the particulars (details) called for concerning other regulatory liabilities which are created through the ratemaking actions of regulatory agencies (and not includable in other amounts).
- 2. For regulatory liabilities being amortized, show period of amortization in column (a).
- 3. Minor items (amounts less than \$50,000) may be grouped by classes.
- 4. Give the number and name of the account(s) where each amount is recorded.

	RATE AND SAL	ES SECTION	

DEFINITIONS OF CLASSES OF SERVICE AND INSTRUCTIONS PERTAINING TO STATEMENTS ON SALES DATA

In the definitions below, the letters preceding the captions distinguish the main classes from the subclasses. Show the data broken into the subclasses if possible, but if not, report data under the main classes, drawing a dash through the subclass.

When gas measured through a single meter is used for more than one class of service as here defined, as for example, for both commercial and residential purposes, assign the total to the class having the principal use.

<u>Average Number of Customers.</u> Number of customers should be reported on the basis of number of meters, plus number of flat-rate accounts, except that where separate meter readings are added for billing purposes, one customer shall be counted for code g

MCF's Sold (indicate which one by crossing out the one that does not apply). Give net figures, exclusive of respondent's own use and losses.

Revenues. This term covers revenues derived from (a) Sale of Gas (exclusive of forfeited discounts and penalties) and (b) Other Gas Revenues, such as rent from gas property, interdepartmental rents, customers' forfeited discounts and penalties, servicing of customers' installations and miscellaneous gas revenues.

- AB. Residential Service. This class includes all sales of gas for residential uses such as cooking, refrigeration, water heating, space heating and other domestic uses.
- A. Residential Service. This class includes all sales of gas for residential use except space heating.
- B. Residential Space Heating. This class includes all sales of gas for space heating including gas for other residential uses only when measured through the same meter.
- CD. <u>Commercial Service</u>. This class includes service rendered primarily to commercial establishments such as restaurants, hotels, clubs, hospitals, recognized rooming and boarding houses (but not individual tenants therein), garages, churches, warehouses
- C. Commercial Service. This class includes all sales of gas for commercial use except space heating.
- D. <u>Commercial Space Heating.</u> This class includes all sales of gas for space heating including gas for other commercial uses only when measured through the same meter.
- E. <u>Industrial Service</u>. This class includes service rendered primarily to manufacturing and industrial establishments where gas is used principally for large power, heating and metallurgical purposes.
- F. <u>Public Service and Highway Lighting.</u> Covers service rendered to municipalities or other governmental units for the purpose of lighting streets, highways, parks and other public places.
- G. Other Sales to Public Authorities. Covers service rendered to municipalities or other governmental units for lighting, heating, cooking, water heating and other general uses.
- H. Interdepartmental Sales. This class includes gas supplied by the gas department to other departments of the utility when the charges therefor are at tariff or other specific rates.
- 1. Other Sales. This class includes all service to ultimate consumers not included in the foregoing described classifications.
- * A I. Total Sales to Ultimate Consumers. This is the total of the foregoing described classifications.
- J. Sales to Other Gas Utilities for Resale. This class includes all sales of gas to other gas utilities or to public authorities for resale to ultimate
- K. Other Gas Revenues. Revenues derived from operations of the respondent other than sales of gas. They include rent from gas property, interdepartmental rents, customers' forfeited discounts and penalties, services of customers' installations and misc
- * A K. Total Gas Operating Revenues. The total of all the foregoing accounts.

<u>Separate Schedules for Each State.</u> Separate schedules in this section should be filed for each state in which the respondent operates.

<u>Estimates.</u> If actual figures are not available for the schedules in this section, give estimates. Explain the methods used and the factual basis of the estimates, using supplementary sheets, if necessary.

SALES DATA BY RATE SCHEDULES FOR THE YEAR

- 1. Report below the distribution of customers, sales and revenue for the year by individual rate schedules. (See definitions on first page of this section.)
- 2. Column (a) List all rate schedules by identification number or symbol. Where the same rate schedule designation applies to different rates in different zones, citie or districts, list separately data for each such area in which the schedule is available.
- 3. Column (b) Give the type of service to which the rate schedule is applicable, i.e. cooking, space heating, commercial heating, commercial cooking, etc.
- 4. Column (c) Using the classifications shown in Schedule 625-A, column (a), indicate the class or classes of customers served under each rate schedule, e.g., (A) for Residential Service, (B) Heating Service, etc.
- 5. Column (d) Give the average number of customers billed under each rate schedule during the year. The total of this column will approximate the total number of ultimate customers, line 12, Schedule 624-A.
- 6. Columns (e) and (f) For wach rate schedule listed, enter the total number of Mcf sold to, and revenues received from customers billed under that rate schedule. The totals of these columns should equal the totals shown on line 12, Schedule 625-A. If the utility sells gas to ultimate customers under special contracts, the totals for such sales should be entered on a line on this page in order to make the totals of columns (e) and (f) check with those entered on
- 7. When a rate schedule was not in effect during the entire year, indicate in a footnote the period in which it is effective.

REVENUE FROM TRANSPORTATION OF GAS OF OTHERSNATURAL GAS (Account 489) (Continued)						

- Designate points of receipt and delivery so that they can be identified on map of the respondent's pipe line system.
- 5. Enter Mcf at 14.65 psia at 60°F.
- 6. Minor items (less than 1,000,000 mcf) may be grouped.

"Note: For transportation provided under Part 284 of Title 18 of the Code of Federal Regulations, report only grand totals for all transportation in columns (b) through (g) for the following regulation sections to be listed in column (a): 284.102, 284.1

Name of Respondent	This Report Is:	Date of Report	Year of Report
	(1) [X] An Original	(Mo, Da, Yr)	
Michigan Gas Utilities Corp	(2) [] A Resubmission	04/30/08	December 31, 2007
GAS PURCHA	SES (Accounts 800, 801, 8	302, 803, 803, 1, 804, 804,	1 and 805)

- 1. Report particulars of gas purchases during the year in the manner prescribed below.
- 2. Provide subheadings and totals for prescribed accounts as follows:
 - 800 Natural Gas Well Head Purchases.
 - 801 Natural Gas Field Line Purchases.
 - 802 Natural Gas Gasoline Plant Outlet Purchases.
 - 803 Natural Gas Transmission Line Purchases.
 - 803.1 Off-System Gas Purchases.
 - 804 Natural Gas City Gate Purchases.
 - 804.1 Liquefied Natural Gas Purchases.
 - 805 Other Gas Purchases.

Purchases are to be reported in account number sequence, e.g. all purchases charged to Account 800, followed by charges to Account 801, etc. Under each account number, purchases should be reported by states in alphabetical order. Totals are to be shown for each account in Columns (h) and (i) and should agree with the books of account, or any differences reconciled.

In some cases, two or more lines will be required to report a purchase, as when it is charged to more than one account.

- 3. Purchases may be reported by gas purchase contract totals (at the option of the respondent) provided that the same price is being paid for all gas purchased under the contract. If two or more prices are in effect under the same contract, separate details for each price shall be reported. The name of each seller included in the contract total shall be listed on separate sheets, clearly cross-referenced. Where two or more prices are in effect the sellers at each price are to be listed separately.
- 4. Purchases of less than 100,000 Mcf per year per contract from sellers not affiliated with the reporting company may (at the option of the respondent) be grouped by account number, except when the purchases were permanently discontinued during the reporting year. When grouped purchases are reported, the number of grouped purchases is to be reported in Column (b). Only Columns (a), (b), (h), (i), and (j) are to be completed for grouped purchases; however, the Commission may request additional details when necessary. Grouped non-jurisdictional purchases should be shown on a separate line.

5. Column instructions are as follows:

<u>Column (b)</u> - Report the names of all sellers. Abbreviations may be used where necessary.

Column (c) - Give the name of the producing field only for purchases at the wellhead or from field lines. The plant name should be given for purchase from gasoline outlets. If purchases under a contract are from more than one field or plant, use the name of the one contributing the largest volume. Use a footnote to list the other fields or plants involved.

Columns (d) and (e) - Designate the state and county where the gas is received. Where gas is received in more than one county, use the name of the county having the largest volume and by footnote list the other counties involved.

Column (f) - Show date of the gas purchase contract. If gas is purchased under a renegotiated contract, show the date of the original contract and the date of the renegotiated contract on the following line in brackets. If new acreage is dedicated by ratification of an existing contract show the date of the ratification, rather than the date of the original contract. If gas is being sold from a different reservoir than the original dedicated acreage pursuant to Section 2.56(f)(2) of the Commission's Rules of Practice and Procedure, place the letter "A" after the contract date.

If the purchase was permanently discontinued during the reporting year, so indicate by an asterick (*) in Column (f).

<u>Column (g)</u> - Show for each purchase the approximate Btu per cubic foot.

<u>Column (h)</u> - State the volume of purchased gas as measured for purpose of determining the amount payable for the gas. Include current year receipts of make-up gas that was paid for in prior years.

<u>Column (i)</u> - State the dollar amount (omit cents) paid and previously paid for the volumes of gas shown in Column (h).

Column (j) - State the average cost per Mcf to the nearest hundredth of a cent. [Column (i) divided by Column (h) multiplied by 100}.

PARTICULARS CONCERNING CERTAIN INCOME DEDUCTIONS AND INTEREST CHARGES ACCOUNTS

Report the information specified below, in the order given, for the respective income deduction and interest charges accounts. Provide a subheading for each account and a total for the account. Additional columns may be added if deemed appropriate with respect to any account.

- (a) Miscellaneous Amortization (Account 425)-Describe the nature of items included in this account, the contra account charged, the total of amortization charges for the year, and the period of amortization.
- (b) Miscellaneous Income Deductions -- Report the nature, payee, and amount of other income deductions for the year as required by Accounts 426.1, Donations; 426.2, Life Insurance; 426.3, Penalties; 426.4, Expenditures for Certain Civic, Political and Related

Activities; and 426.5, Other Deductions, of the Uniform System of Accounts. Amounts of less than 5% of each account total for the year (or \$1,000, whichever is greater) may be grouped by classes within the above accounts.

- (c) Interest on Debt to Associated Companies
 (Account 430) For each associated company to which
 interest on debt was incurred during the year, indicate the
 amount and interest rate respectively for (a) advances on
 notes, (b) advances on open account, (c) notes payable,
 (d) accounts payable, and (e) other debt, and total
 interest. Explain the nature of other debt on which
 interest was incurred during the year.
- (d) Other Interest Expense (Account 431) -- Report particulars (details) including the amount and interest rate for other interest charges incurred during the year

	for other interest charges incurred	during the year.

Michigan Gas Utilities Corp	(1) [X] An Original	(Mo, Da, Yr)	December 24, 2007
	ARS CONCERNING CERTAIN OTH	4/30/2008 IFR INCOME ACCOUNT	December 31, 2007

- Report in this schedule the information spcified in the instructions below for the respective other income accounts. Provide a conspicuous subheading for each account and show a total for the account. Additional columns may be added for any account if deemed necessary.
- 2. Merchandising, Jobbing, and Contract Work (Accounts 415 and 416) Describe the general nature of merchandising, jobbing and contract activities. Show revenues by class of activity, operating expenses classified as to operation, maintenance, depreciation, rents and net income before taxes. Give the bases of any allocations of expenses between utility and merchandising, jobbing and contract work activities.
- 3. Nonutility Operations (Accounts 417 and 417.1) Describe each nonutility operation and show revenues,
 operating expenses classified as to operation, maintenance,
 depreciation, rents, amortization, and net income before
 taxes. Give the bases of any allocations of expenses
 between utility and nonutility operations. The book cost of
 property classified as nonutility operations should be
 included in Account 121.
- 4. Nonoperating Rental Income (Account 418) For each major item of miscellaneous property included in Account 121, Nonutility Property, which is not used in opeartions for which income is included in Account 417, but which is leased or rented to others, give name of lessee, brief description of property, effective date and expiration date

- and expiration date of lease, amount of rent revenues, operating expenses classified as to operation, maintenance, depreciation, rents, amortization, and net income, before taxes, from the rentals. If the property is leases on a basis other than that of a fixed annual rental, state the method of determining rental. Minor items may be grouped by classes, but the number of items so grouped should be shown. Designate any lessess which are associated companies.
- 5. Equity in earnings of subsidiary companies (Account 418.1) Report the utility's equity in the earnings or losses of each subsidiary company for the year.
- 6. Interest and Dividend Income (Account 419) Report interest and dividend income, before taxes, identiifed as to the asset account or group of accounts in which are included the assets from which the interest or dividend income was derived. Income derived from investments, Accounts 123, 124 and 136 may be shown in total. Income from sinking and other funds should be identified with the related special funds. Show also expenses included in Account 419 as required by the Uniform System of Accounts.
- 7. Miscellaneous Nonoperating Income (Account 421) Give the nature and source of each miscellaneous nonoperating income, and expense and the amount for the year. Minor items may be grouped by classes.

EXPENDITURES FOR CERTAIN CIVIC, POLITICAL AND RELATED ACTIVITIES (Account 426.4)

- 1. Report below all expenditures incurred by the respondent during the year for the purpose of influencing public opinion with respect to the election or appointment of public officials, referenda, legislation or ordinances (either with respect to the possible adoption of new referenda, legislation or ordinances or repeal or modification of existing referenda, legislation or ordinances); approval, modification, or revocation of franchises; or for the purpose of influencing the decisions of public officials which are accounted for as Other Income Deductions, Expenditures for Certain Civic, Political and Related Activities, Account 426.4.
- 2. Advertising expenditures in this Account shall be classified according to subheadings, as follows:
 (a) radio, television, and motion picture advertising; (b) newspaper, magazine, and pamphlet advertising; (c) letters or inserts in customer's bills; (d) inserts in

- reports to stockholders; (e) newspaper and magazine editorial services; and (f) other advertising.
- 3. Expenditures within the definition of paragraph (1), other than advertising shall be reported according to captions or descriptions clearly indicating the nature and purpose of the activity.
- 4. If respondent has not incurred any expenditures contemplated by the instruction of Account 426.4, so state
- 5. Minor amount may be grouped by classes if the number of items so grouped is shown.

NOTE: The classification of expenses as nonoperating and their inclusion in this amount is for accounting purposes. It does not preclude Commission consideration of proof to the contrary for ratemaking or other purposes.

NOTE: The daily deliverability of MGU owned storage is less than the combined total of the three reservoirs due to pipeline constraints.

Report below auxiliary facilities of the respondent for meeting seasonal peak demands of the respondent's system, such as underground storage projects, liquefied petroleum gas installations, gas liquefaction plants, oil gas sets, etc.

For column (c), for underground storage projects, report the delivery capacity on February 1 of the heating season overlapping the year-end for which this report is submitted.
