Overview of the Integrated Resource Plan

- The Integrated Resource Plan (IRP) requirement is included in the new Energy Legislation, Public Act 341 of 2016, effective on April 20, 2017
- IRPs are plans designed to provide an overview of the resources available to meet projected capacity and energy needs of a rate-regulated utility over the next fifteen years while ensuring resource adequacy for the utility's customers
- Act 341 requires the MPSC, MAE and MDEQ to create the framework (parameters and assumptions) to be used by the rate-regulated utilities in crafting their individual IRPs

IRP: Background and Timeline Overview

- In March, staff began holding public meetings to address different issues that would need to be considered in any IRP framework with representatives from more than 30 stakeholder organizations.
- Nine separate workgroups collaborated on their individual tasks pertaining to: Demand Response, Energy Waste Reduction, Environmental Policy, Filing Requirements, Fuel Price Forecasting and Reliability, Other Market Options, Renewables, Transmission and the Upper Peninsula
- The reports drafted by these workgroups formed the basis for the Staff IRP “Strawman” Proposal

IRP: Background and Timeline Overview

- The formal process for developing the IRP framework began on July 31, 2017 when the MPSC issued its Order in [Case No. U-18418](#), to commence a proceeding to implement of this portion of the legislation with the help of the MAE and MDEQ
- On August 31, 2017, the staff submitted the Draft Integrated Resource Planning Parameters (Strawman Proposal), which was based on the stakeholder workgroup reports and comments
- Before finalizing these IRP parameter requirements, the MPSC is soliciting public feedback regarding the proposal. Written comments may be submitted via Mail or E-mail. The following deadlines apply to public feedback:
 - October 6, 2017: Initial Comments
 - October 20, 2017: Reply Comments

The Staff Strawman: IRP Parameters and Factors for Comment Consideration

- Energy Waste Reduction Potential Study (Available on line)
- Demand Response Potential Study (To be completed)
- State and Federal Environment Laws, Regulations, and Rules
- Planning Reserve Margins and Local Clearing Requirements
- Modeling Scenarios, Sensitivities, and Assumptions
- Michigan IRP Modeling Input Assumptions and Sources
- Additional IRP Requirements and Assumptions

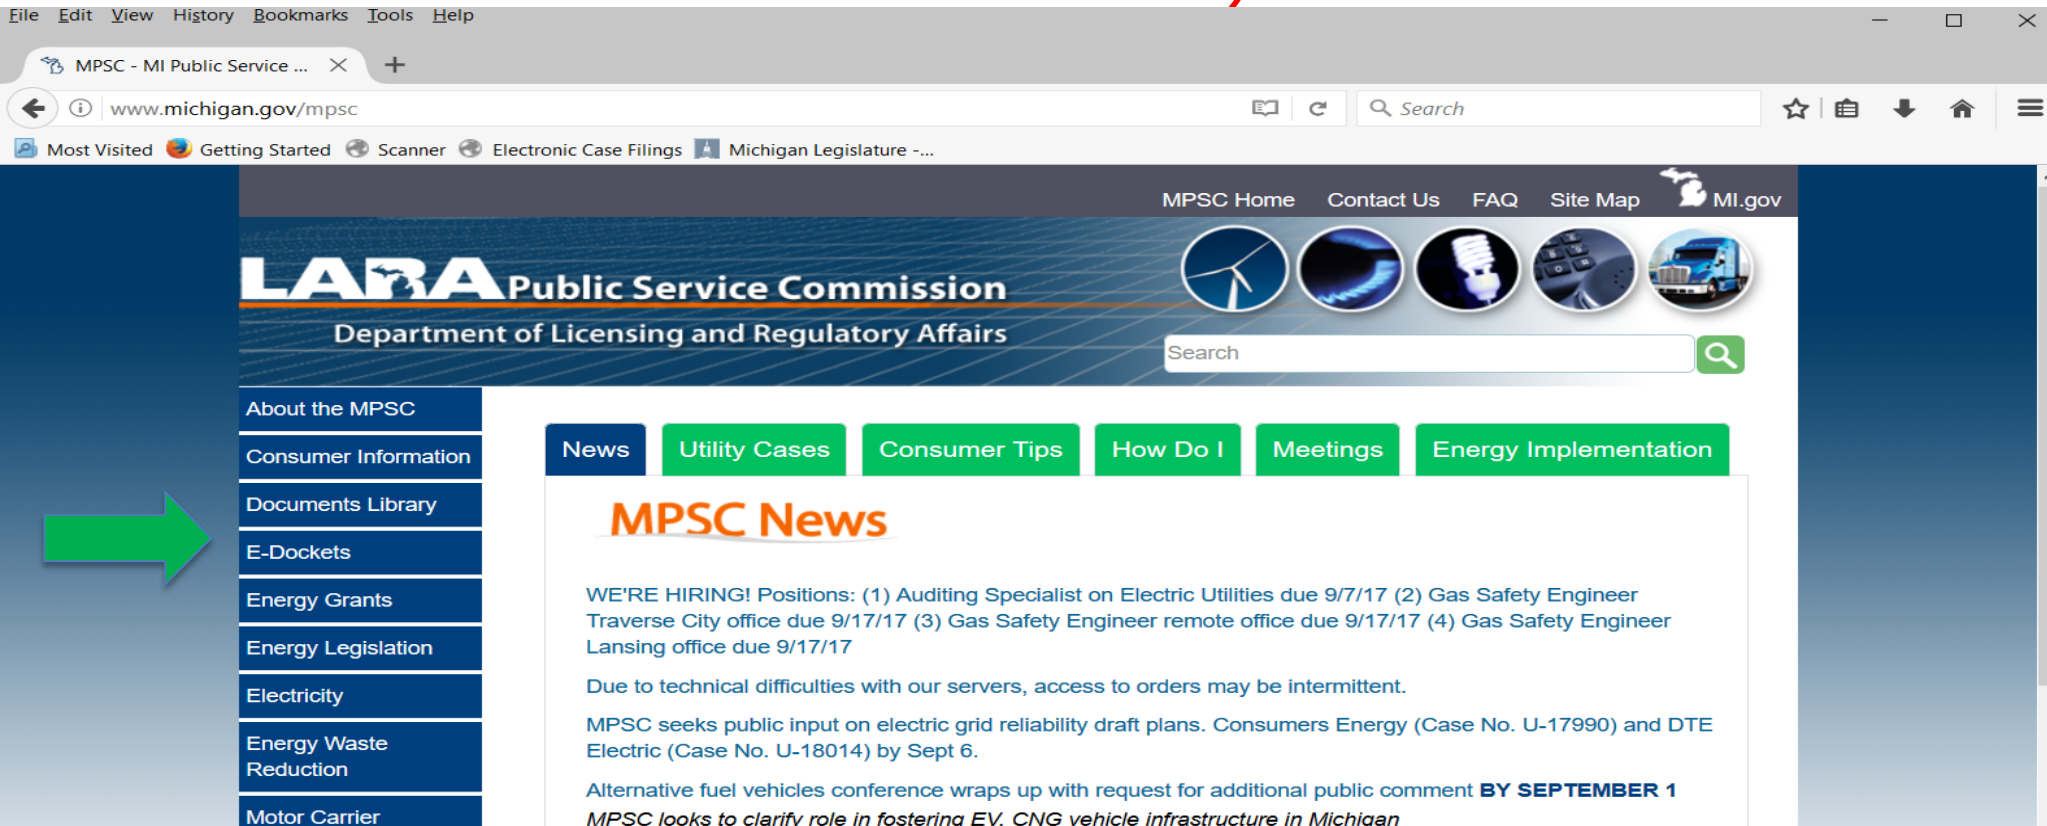

IRP Implementation Next Step: Public Feedback and Participation

Things to keep in mind

- The Commission is seeking public comments to help shape the parameters of the IRPs that the rate-regulated utilities are required to submit under the new energy law
- Under the new energy law, the plans must include assessments of several issues including energy waste reduction, supply adequacy, demand response, and the impact of state or federal environmental law
- The required issues for consideration are included in PA 341(6)(T)

IRP Implementation Next Step: Public Feedback and Participation

How to have your voice heard

The screenshot shows the MPSC website interface. The browser address bar displays 'www.michigan.gov/mpsc'. The website header includes navigation links: 'MPSC Home', 'Contact Us', 'FAQ', 'Site Map', and 'MI.gov'. The main header features the 'LARA Public Service Commission' logo and the text 'Department of Licensing and Regulatory Affairs'. A search bar is located below the header. The left sidebar contains a list of links: 'About the MPSC', 'Consumer Information', 'Documents Library', 'E-Dockets', 'Energy Grants', 'Energy Legislation', 'Electricity', 'Energy Waste Reduction', and 'Motor Carrier'. A green arrow points to the 'E-Dockets' link. The main content area has a navigation bar with tabs: 'News', 'Utility Cases', 'Consumer Tips', 'How Do I', 'Meetings', and 'Energy Implementation'. Below this, the 'MPSC News' section is visible, containing several news items and a search bar.

About E-Dockets

The Michigan Public Service Commission's Electronic Docket Filings System (E-Dockets) provides for the electronic submission of filed documents and online access of documents submitted in cases before the Commission. All documents are available in Portable Document Format (PDF) files. These files can be searched and text can be copied directly from the file for later reference.

How to have your voice heard

- Type in 18418 in the box above to review the Strawman Proposal

IRP Implementation Next Step: Public Feedback and Participation

How to have your voice heard

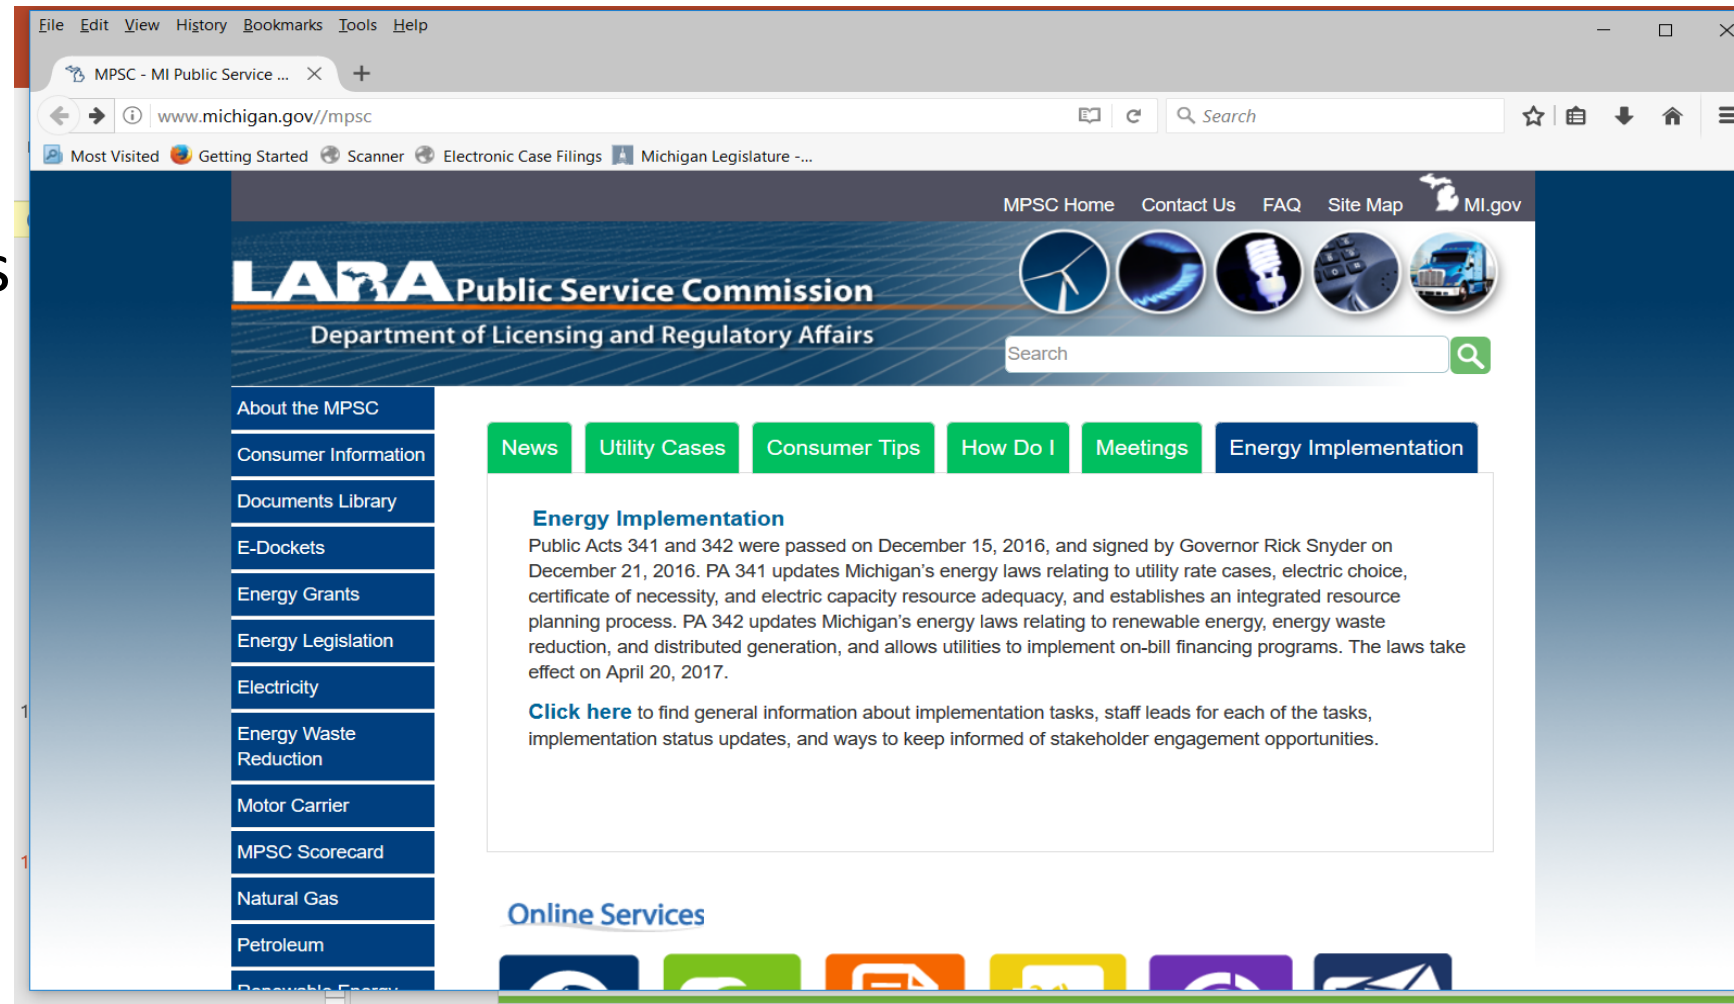

- Submit **initial** comments on the Strawman Proposal by October 6, 2017
 - Mail to *Executive Secretary, MPSC, PO Box 30221, Lansing, MI 48909*
(Reference Docket No. U-18418)
 - E-mail comments to MPSCDockets@michigan.gov
(Include Docket No. U-18418 in the Subject line)
- Submit **reply** comments by October 20, 2017
 - Mail to *Executive Secretary, MPSC, PO Box 30221, Lansing, MI 48909*
(Reference Docket No. U-18418)
 - E-mail comments to MPSCDockets@michigan.gov
(Include Docket No. U-18418 in the Subject line)

Note: You do not have to be involved as a party to the docket in order to provide comments on the Strawman Proposal.

For Additional Information

- Draft Plans and other related information and documents are available under:
 - Energy Legislation
