Workplan Draft Security Workgroup

Objectives: Identify physical and cybersecurity threats with the potential to cause an energy disruption. Assess the relative likelihood that such threats could cause an energy disruption and the expected severity of the disruption should it occur. Provide potential actions to mitigate risk posed by these threats and, in relative terms, the corresponding costs to implement said actions.

Team Lead: Brian Sheldon

Objective	Proposed Activities / Deliverables	Due Date
Create team and develop draft workplan	Prepare draft workplan	Mar 1
	Assemble team	
	Circulate draft workplan to team	
Report workgroup progress to leadership	 Meeting with leadership to discuss draft workplan, draft outline, and overall assessment goals 	Mar 1
Finalize workplan	Incorporate team feedback and finalize workplan	Mar 5
First team meeting	Kickoff meeting with team	Mar 8
External stakeholder information	Schedule and hold annual cyber meetings with electric utilities	Mar 1-Apr 30
collection	Request stakeholder risk assessment documents	
	Conduct one-on-one phone conversations with security personnel	
	from gas utilities	
Second team meeting	Assess progress of information collection efforts	Mar 31
	Create action plan for supplemental or follow-up calls with	
	stakeholders	
	 Begin drafting initial risk register 	
Third team meeting	Review status of risk register development	Apr 15
	 Assign drafting roles and responsibilities 	
Finalize risk register	Finalize risk register	Apr 30

Team Members: Cody Matthews, Kevin Spence, and Tayler Becker

Workplan Draft Security Workgroup

Complete section draft	Complete section draft	May 15
Final draft report	Provide final draft report to Commissioners	Jun 1
Publish Energy Assessment report	Commission provides initial/interim report to Governor	July 1

Draft Outline – Security

1. Background

- a. History
- b. Current threat landscape

2. Sector Response

- a. Standards
- b. Partnerships
- c. Investments
- d. Mutual aid

3. Principal Sector Risks

- a. Field equipment security
 - i. Cyber
 - ii. Physical
- b. Human capital
- c. Third party risk
- d. Disparate policies and procedures
- e. Insider risk
- 4. Risk Register
 - a. Register primer, methodology
 - b. Summary (recommendations)
