# MOBILE SECURITY

**PYRAMID**  
Network Services, LLC

PYRAMID OWNED BRAND, POWERED BY AVIGILON ALTA CLOUD HARDWARE & SOFTWARE

**SITEGUARD™**  
AI POWERED DETECTION, DETERRENT & DOCUMENTATION  
MOBILE SECURITY

Emergency Strobe lights

Avigilon AI Self-Learning Cameras  
Loudspeaker with siren  
and talkdown messaging

Solar, generator and AC plug

## DETECT

- AI Smart Cameras detect humans, unusual motion, intrusion, sounds, license plates and facial recognition

## DETER & DOCUMENT

- 24/7 site visibility, safety & resource management
- Real-time alerts, strobes, speakers
- Evidentiary documentation

Mobile App & Web Interface  
24/7 access

Optional Live Monitoring

# TOWER SECURITY

## Benefits

- Asset protection
- Asset management
- Risk reduction and mitigation
- Real-time, 24/7 visibility
- Rock-solid evidence and documentation
- Dramatic deterrent technology
- Proactive response
- Continuous EME Monitoring

## ROI Opportunities

- Time theft & productivity
- Disaster recovery
- Maintenance work verification
- Reduced theft & vandalism
- Insurance savings
- Minimized repairs
- Law enforcement & documentation time
- EME real time data savings

## TYPICAL APPLICATION – SHARED SOLUTION

### Solve for Pre- and Post-Incident

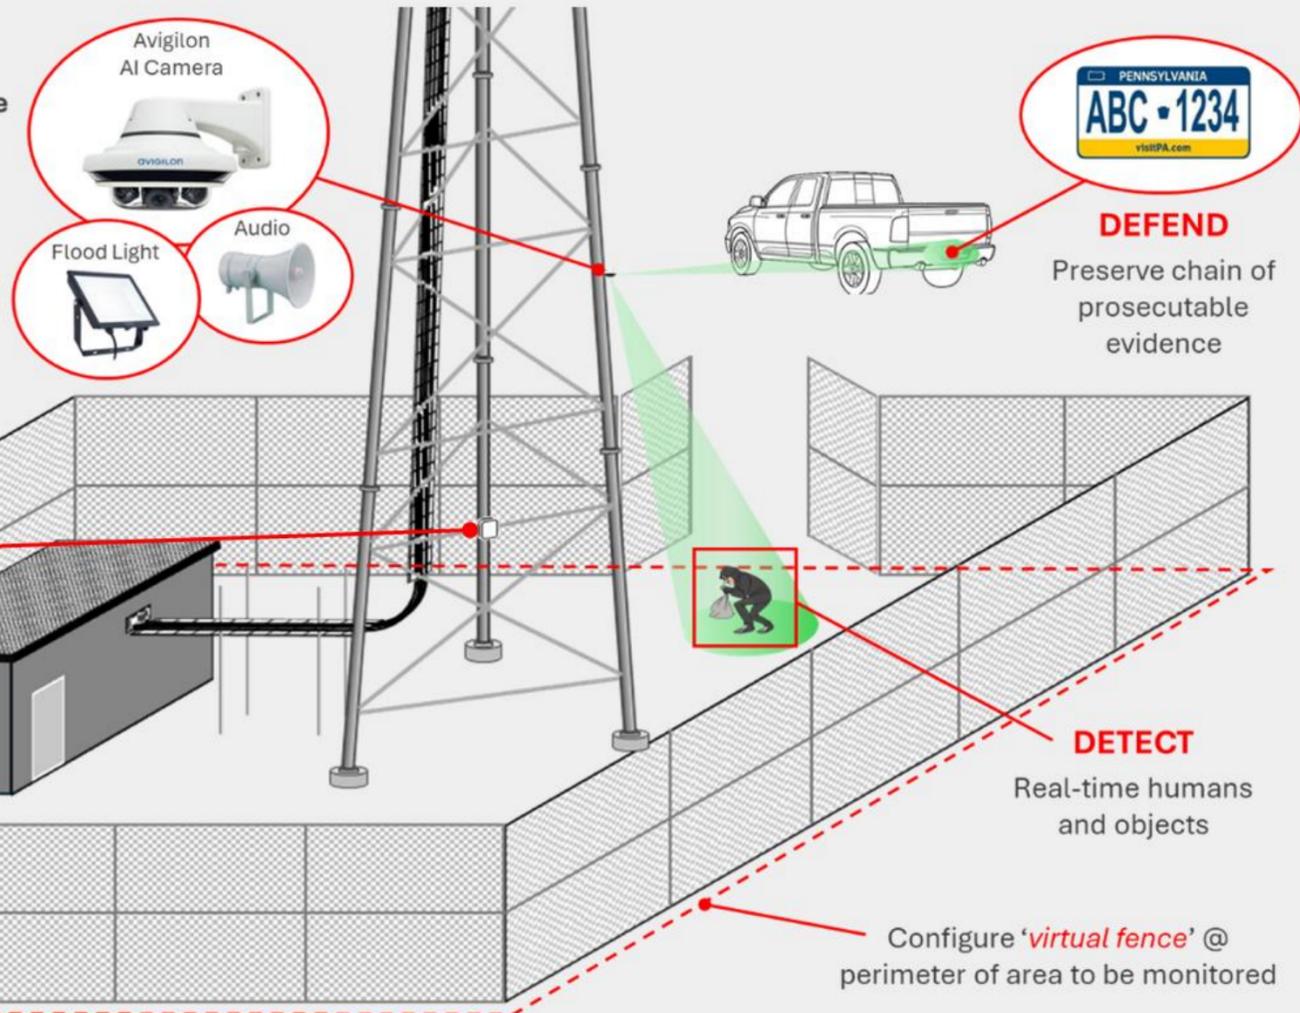

*Wouldn't you rather prevent the incident from happening, instead of just documenting evidence that it took place?*

**RFIS™**  
RF Monitoring System

#### DETER Stop crime before it happens

- Trespassing
- Theft
- Violence
- Vandalism
- Loitering

#### DEFEND

Preserve chain of prosecutable evidence

#### DETECT

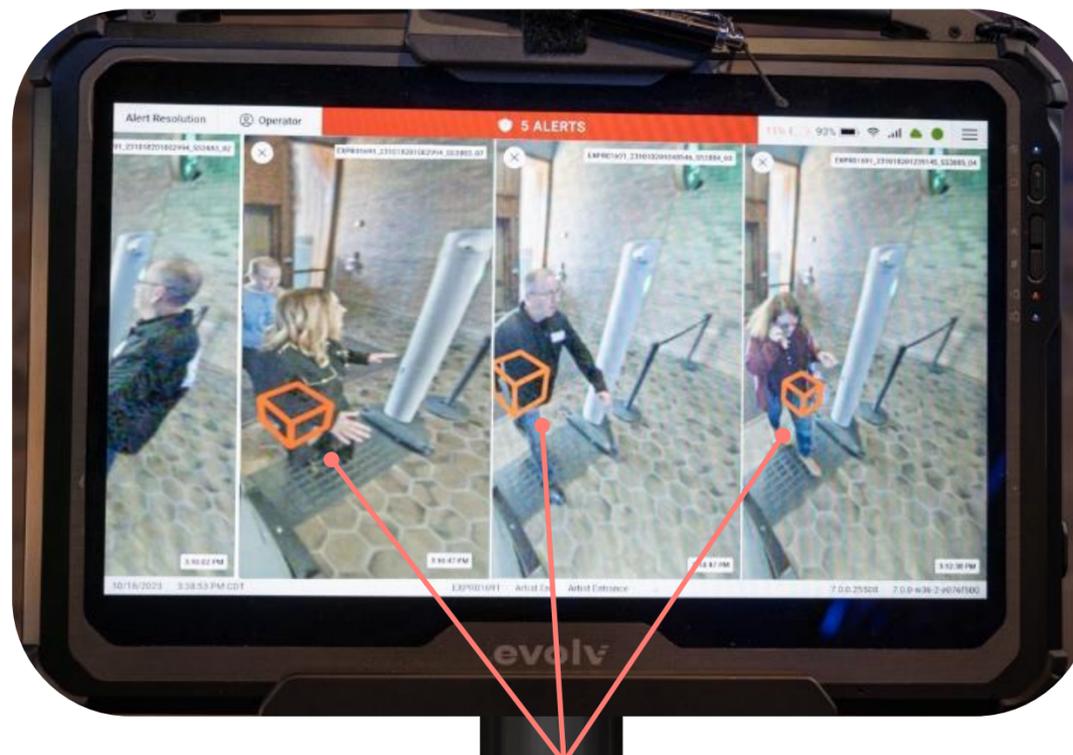

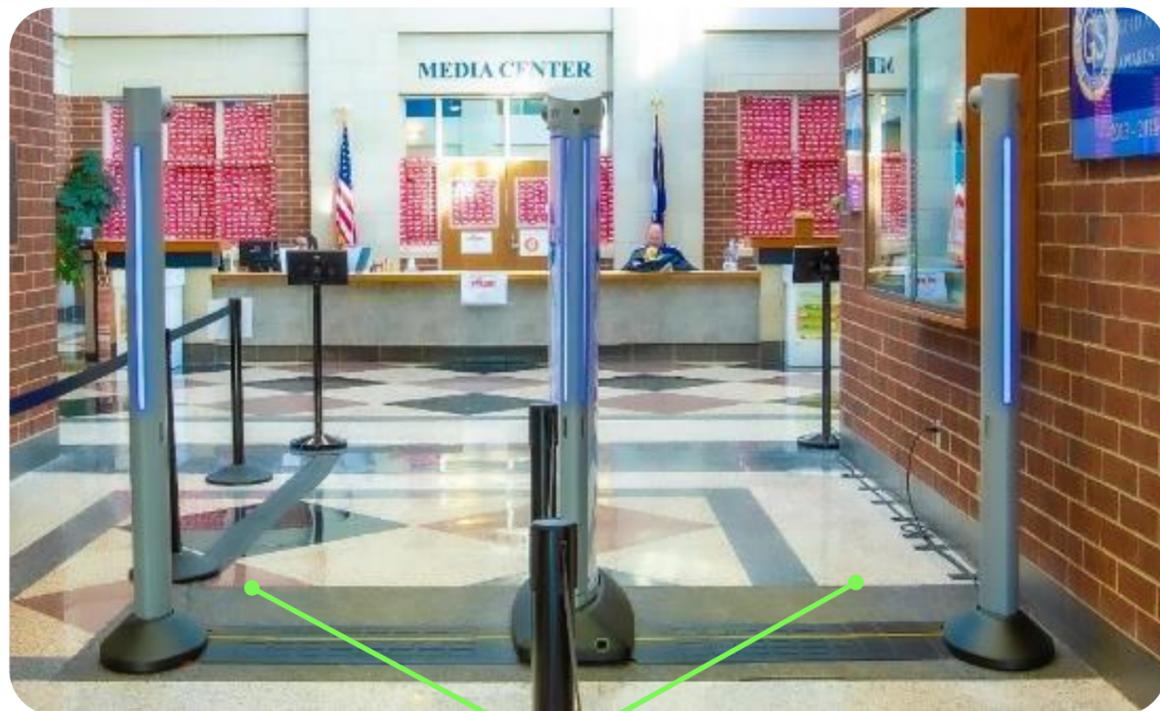

Real-time humans and objects

Configure 'virtual fence' @ perimeter of area to be monitored

# Evolv Express®

## Concealed Weapons Detection

U.S. Department of Homeland Security (DHS) SAFETY Act Designation

Designed and assembled in the USA

100% off your IT network

### Threat Detection

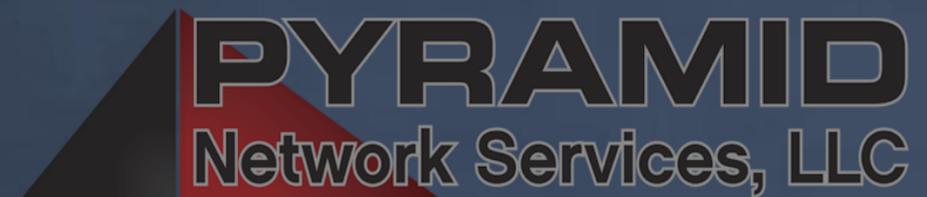

AI-based threat detection pinpoints and distinguishes a wide variety of potential threats from many common everyday items, such as phones and keys. Selectable sensitivity based on risk management needs.

### “Red Box” Threat Resolution

The connected Express tablet seeks to provide a fast, noninvasive threat resolution by providing security operators with visibility into who to search, helping eliminate potential bias in decision making, and where to search via a “Red Box” for efficient secondary screening.

**Screens up to 4,000 people per hour for a dual-lane system\***

*\*Dependent on venue sensitivity settings and resolution process*

*Trusted. Proven. Committed.*

**THANK  
YOU!**
