Seventeen additional members of the public participated via the Conference Line: 248-509-0316, Conference ID: 644 107 820#. Chairperson Susan Corbin opened the meeting at 10:03 a.m. A quorum was established with the presence of Ms. Corbin, Regina Bell, Carl English, Rachael Eubanks, Jennifer Grau, Tyrone Hamilton, and Michele Wildman. While Authority members were present in Lansing, presenters participated via Microsoft Teams. At Ms. Corbin's request, Jonathan Hilliker provided instructions for those participating remotely, including guidelines on how to provide public comment via the conference line.

Ms. Corbin began the meeting by requesting public comments from participants. There being none, she proceeded to the Chair's Report and provided an update on the search for a permanent Executive Director. Ms. Corbin noted that the requests made to the Department of Housing and Urban Development (HUD) for a waiver and exception on behalf of Ms. Amy Hovey remain pending. HUD has since posed additional questions, and these were responded to accordingly. Ms. Corbin hopes to have a final response soon.

Ms. Corbin then highlighted the Building Michigan Together Plan, which is a bipartisan effort to invest nearly \$5 billion in Michigan's infrastructure, grow the economy, and create jobs in every region of the state. She mentioned that this includes a historic investment in housing, which would be discussed further by Gary Heidel during his Executive Director's Report. Ms. Corbin noted the plan also includes funding of up to \$1.5 billion for broadband infrastructure and to provide high speed internet where needed in Michigan. Additionally, \$260 million dollars of this allocation will be used to create a new office of high-speed internet within the Department of Labor and Economic Opportunity. Ms. Corbin also pointed out that these investments are directly related to continued efforts to increase equity and accessibility throughout the state. Ms.

Corbin concluded by noting the infrastructure package will also provide \$25 million for an Office of Future Mobility and Electrification.

Gary Heidel, Acting Executive Director, began his report by focusing on the Building Michigan Together Plan's historic investment in housing. He noted there will be over \$640 million in funding, which includes the second half of funds for both the COVID Emergency Rental Assistance Program (CERA) and the Michigan Homeowner Assistance Fund (MIHAF). Mr. Heidel then announced that the Authority has been allocated \$150 million in new American Rescue Plan Act (ARPA) funding. These funds will be distributed evenly among three separate focus areas: 1) The "Missing Middle", 2) Energy Assistance, and 3) Housing Community Development Fund. Authority staff have been divided into teams to determine how to best distribute these funds. Chad Benson, Director of Rental Development, will lead a team focused on creating programs to assist the "missing middle." Tonya Young, Director of Neighborhood Housing Initiatives, will lead a team focused on programs related to energy assistance. Tiffany King, Equity and Inclusion Officer, will lead a team exploring options related to the Housing and Community Development Fund. Mr. Heidel explained that teams have already begun working to create timelines and program ideas within these three focus areas. Authority staff are moving forward and plan to solicit input from a variety of stakeholders and state agencies throughout the process. As the teams' progress, they will be bringing programs to the board for review and discussion.

Mr. Heidel was asked whether he had a sense of when the draft Statewide Housing Plan would be finalized. He responded that the plan will be presented at the Building Michigan Communities Conference in early May. Mr. Heidel further noted that the data from this plan has been very useful for the new programs and in conversations with the Governor's office and various legislators. Additionally, there will be several opportunities to talk about the Statewide Housing Plan and what it means to Michigan at upcoming conferences, including the Mackinaw Policy Conference, Michigan Township Association Conference, and the Rural Development Conference.

Next, Kelly Rose, Chief Housing Solutions Officer, provided an update on the CERA Program. She reiterated that the remaining funds were allocated by the state legislature; however, she did indicate that the program is now required to end by September 30, 2022. While it is likely the program would have concluded by that date anyway, Ms. Rose noted it may still present some limitations. Nevertheless, staff will work through the applications the best they can, with a particular focus on increasing the speed in which applications from Detroit are processed.

Ms. Rose stated that 235,000 applications have been received to date. She believes there will ultimately be enough funding for approximately 275,000 applications. These numbers are updated every two weeks, and the plan is to give the public about four weeks notice before the application portal closes, which will likely be in the second half of June.

Ms. Rose further explained that a little over \$676 million has been spent so far and the program continues to spend about \$50 million to \$60 million a month in rental assistance payments and

utility assistance payments. She feels the program has done very well and hopes to develop a similar program on a smaller scale in the future.

Next, Mary Townley, Director of Homeownership, provided an update on the MIHAF Program. She explained that since the program launched in February 2022, 16,400 registered homeowners have applied for help. \$130 million has been appropriated from the state legislature; as such, staff are working diligently to process all applications in the pipeline. There are currently fifty-five staff members working on the program: forty limited term employees and fifteen contract staff. Ms. Townley explained that lenders, mortgage companies, and banks have also been working aggressively to assist homeowners. She further noted that the average household assistance is \$8,500, and it is ultimately expected the program will assist 24,000 homeowners.

Karen Gagnon with the Office of Equity and Engagement, provided Authority members with an update on the Building Michigan Communities Conference, scheduled to take place virtually on May 3, 2022, and May 4, 2022. She explained that the mission of the conference is to provide Michigan with inspiring and relevant education across the affordable housing continuum with an emphasis on equity, advocacy, and networking opportunities. Ms. Gagnon also noted that Michigan's first Statewide Housing Plan is scheduled to launch at the conference. She further highlighted the speakers, moderators, and topics for the event, which includes 40 sessions curated around the list of priorities.

To conclude the Executive Director's Report, Authority Staff highlighted two reports found in the board docket. First, Joe Kelly, Procurement, and Mark Whitaker, Information Technology, provided Authority members with an overview of the Professional Services and IT Contract Spreadsheet as detailed in Tab 1 of the board docket. Next, Jeff Sykes, Chief Financial Officer, provided an overview of the Quarterly Financials and Year to Date Financials as detailed in Tab 9 of the board docket. Mr. Sykes pointed out details such as mortgage loan interest income, which shrunk due to an increased number of individuals qualifying for loan modifications. He explained that 60% of the Authority's portfolio has FHA insurance, which granted them this additional relief for COVID-19 related hardships. Additionally, Mr. Sykes pointed out that federal assistance program income, which is the money the Authority administers on behalf of the federal government, was \$627 million. At this point, the Authority is well on track to move \$1 billion in this fiscal year.

In response to questions, Mr. Heidel confirmed that the money received from the American Rescue Plan is subject to specific time frames. Mr. Heidel noted that a lot of the newer money must be obligated in 2024 and completed in 2026; however, the specific time frames can vary. Mr. Heidel also agreed with Authority member Carl English that the real challenge is how to get the greatest long-term effect from the short-term expenditure. Mr. Heidel further noted the value of the Michigan Community Development Fund and how he hopes to continue its use beyond the current set of funding.

Mr. Heidel was also asked whether there is a sense of which funds will have a longer versus shorter term impact. He explained that looking at the long term will be part of the design of all the new programs and will be a key consideration when leveraging resources and creating relationships. Mr. Heidel further noted that the lack of production in Michigan has a very serious effect on community development across the state and across all populations. For this reason, the Statewide Housing Plan will be a key tool when looking at resources with a long-term perspective.

In response to a request by Jennifer Grau, Mr. Heidel confirmed that as these programs go before the board, it will be noted how they align with the Statewide Housing Plan.
