

MEMORANDUM

November 17, 2004

TO: Governor Jennifer Granholm
Senator Laura Toy
Senator Valde Garcia
Representative Chris Ward
Representative Marc Shulman

FROM: Rick L. Laber
Acting Executive Director

RE: FY 2004 Housing Production Goals Report

Section 32(14) of P.A. 346 of 1966, as amended, requires the Michigan State Housing Development Authority (MSHDA) to provide the Governor and the appropriate legislative committees with an annual housing production goals report for housing projects financed with bonds and notes by the Authority. The following is the nineteenth such report under this requirement and represents an assessment of FY 2004 and the Authority's goals for FY 2005. The Authority's fiscal year runs from July 1 through June 30.

FY 2004 Production Report

Section 32(16)(a) requires that the Authority report as to whether the production goals for the previous twelve months had been met, and if not, to explain the reason why the goals had not been met.

EXHIBIT I DETAILS THE FY 2004 PRODUCTION BY PROGRAM GOALS, ACTUAL LOANS CLOSED IN FY 2004, AND FY 2005 GOALS.

The Authority exceeded its goal for FY 2004, financing 4,692 new and rehabilitated units. The FY goal was 4,570 units. Discussion about program goals and attainment is contained in the next section. A list of programs, goals, and production follows. In FY 2004 the Authority distributed over \$33.4 million in grants to local governments and nonprofit organizations. In addition, the Authority administers the Low Income Housing Tax Credit for the state, which helped to create 4,333 units of affordable rental housing in 88 developments statewide. The Authority also administers the federal Housing Choice Voucher Program (Section 8), and in FY 2004, an average of 19,444 families received housing assistance through this program.

1. **Multifamily Loan Programs**

1. **Tax-Exempt Direct Lending Programs**

This program represents the Authority's response to localized housing and reinvestment needs by financing rental housing. Funding comes from the issuance of tax-exempt bonds to investors; proceeds are then loaned for construction, rehabilitation, and long term financing. At least 40% of the units must be occupied by households with low incomes. The program operated in FY 2004 with a fixed interest rate of 5.5% and a current pay rate of 5% in eligible distressed areas. For the HOME TEAM Advantage program, financing smaller developments in rural areas, the interest rate was 4.5% with a current pay rate of 4% in eligible distressed areas. The Section 236/202 Preservation Program offers 35 year financing at 6.5% to preserve existing subsidized housing.

In FY 2004, this program financed 1,516 rental units in 18 developments, with a total investment of \$85,684,587. The fiscal year's goal was 1,200 units. The Authority exceeded its goal in this program.

2. **Multifamily Pass-Through Program**

This program permits the Authority to issue limited obligation bonds on behalf of developers. The Authority's underwriting is limited in scope. Sixty percent of the units must be for renters at 60% of area median income or below. The Authority's primary responsibility is to evaluate the degree to which the borrower's credit security is sufficient to ensure repayment of the bonds.

Six loans closed under this program in FY 2004, representing an investment of \$62,745,000 and creating 1,348 units. The fiscal year's goal was 1,200 units. The Authority exceeded its goal in this program.

2. **Single Family Mortgage Loan Program**

This program allows the Authority to finance low and moderate income mortgages for people meeting income and purchase price limits. The loans are fixed rate, level payment, 30 year mortgages. Optionally, the borrower may elect to take a lower rate for the first three years, to be followed by a higher rate for the remaining term of the mortgage loan. Borrowers must have acceptable credit and the ability to repay the loan. In some areas, federal law permits MSHDA loans only for first-time homebuyers.

In FY 2004, this program financed 738 single family units, representing a total investment of \$55,512,829. The average loan went to a borrower 31 years of age, with a household size of 2 and an average income of approximately \$30,570. The average loan amount was \$75,220. The FY 2004 goal was 750 units. The Authority narrowly missed its goal in this program. When interest rates are low, MSHDA SF interest rates appear less favorable, and participating lenders make proportionately more refinancing loans.

3. Michigan Mortgage Credit Certificate Program

This program, authorized by Congress in 1984, reduces the amount of federal income tax a homebuyer pays, thus giving the person more available income to qualify for a conventional mortgage and make house payments. Potential homebuyers must meet income and purchase price limits. Loan terms are set by the lender. The Authority has to turn in a portion of its allocated mortgage revenue bond authority to the U.S. Treasury to utilize the Mortgage Credit Certificates.

In FY 2004, the program assisted the financing of 901 single family units. The total investment was \$72,511,949. The average age of a MCC recipient was 30; the average family size was 2. The average household income was approximately \$27,700, and the average loan amount was approximately \$80,479. The FY 2004 goal was 1,200 units and \$92,000,000. The Authority missed its goal in this program, for the same reasons given in the SF program, low interest rates in the conventional market and high lender volumes of refinance loans.

4. Property Improvement Loan Program

This program helps preserve older, existing housing by offering loans with interest rates of 4, 6 and 8%, depending on borrower's income, to homeowners that meet income limits.

In FY 2004, this program made 189 loans, totaling \$2,339,139. Fifty five percent of these loans were to borrowers over 45 years of age, and approximately 77% of the loans went to improve homes that were 40 years of age or older. The FY 2004 goal was 220 loans. The Authority missed its goal in this program, again, owing to low interest rates in the conventional lending market.

FY 2005 Production Goals Summary

July 1, 2004 to June 30, 2005:

	<u>Program</u>	<u>Funds</u>	<u>Units/Loans</u>
1.	Multifamily Tax Exempt	\$60,000,000	1,100
2.	Multifamily Pass-Through Loans	\$60,000,000	1,100
3.	Single Family Loans	\$50,000,000	672
4.	Michigan Mortgage Credit	\$77,400,000	950
5.	PIP Loans	\$2,200,000	200
	TOTAL:	\$249,600,000	4,022

Social and Economic Benefits

Section 32(16)(b)(c)(d)(e)(f) requires the Authority to report on the social and economic benefits of MSHDA's housing projects to the immediate neighborhoods and the cities in which they have been constructed, the extent of direct and indirect displacement of lower income persons, and the extent of additional reinvestment activities attributable to the Authority's financing of these projects.

The obvious short term benefits are the increased availability of quality, affordable housing for low and moderate income people, increased construction contracts and sales for builders and realtors, and increased Community Reinvestment Act production for local lenders. Further, the multifamily developments financed by the Authority employ people who receive salaries and expend dollars for vendor services. Services contracted include marketing, legal, utilities, maintenance, repairs and snow removal.

Developments also provide common space designed to enhance the community. Within these spaces many developments allow local senior citizen groups to provide meal service, medical examinations, and classes of various kinds. In other developments, there are police mini-stations, food cooperatives, book exchanges, craft shows, neighborhood watch programs, senior pal programs, and youth work programs.

The Authority requires, as part of the underwriting process, that relocation planning be performed and implemented in any situation where a MSHDA loan would result in the displacement of lower income people. As a matter of policy, the Authority avoids approval of loans where such displacement cannot be adequately addressed.

Demographic Information

Section 32(16)(g) requires the Authority to report on the age, race, family size, and average income of the tenants in housing projects.

EXHIBITS II, III, AND IV DETAIL DEMOGRAPHIC INFORMATION FOR THE SINGLE FAMILY, MCC AND PIP PROGRAMS IN FY 2004.

The information for Multifamily projects closed in FY 2004 is unavailable because these developments are still under construction and not yet occupied.

Construction Jobs Created, Wages and Taxes Paid

Section 32(16)(h) requires the Authority to estimate the number of construction jobs created, wages paid, and taxes and payments in lieu of taxes paid.

EXHIBIT V DETAILS THE NUMBER OF CONSTRUCTION JOBS CREATED, WAGES PAID, AND TAXES PAID IN FY 2004.

Authority financed housing created approximately 1,996 full-time jobs and paid approximately \$30,407,515 in taxes.

Mobile Home Parks and Non-Profit Housing Projects

Section 32(16)(i) requires the Authority to report on the progress in developing mobile home parks and mobile home condominium projects, and in financing construction or rehabilitation of non-profit housing projects.

In FY 2004, two mobile homes were financed under the Authority's Michigan Mortgage Credit Certificate Program and none under the Single Family Program. No proposals were received to finance parks or projects.

Neighborhood Preservation Program

Section 32(16)(j) requires the Authority to report on the progress in developing the Neighborhood Preservation Program.

The original Neighborhood Preservation Program began in 1989 and financed approximately 429 units of small scale multi-family housing units. The program was evaluated, changed, and re-introduced in 1998. The goals of the program are to positively impact the image, physical conditions, market and neighborhood management of the target neighborhoods. Since 1998, approximately \$21,791,134 in grants/loans have been made in 33 communities across the state. In fact, seven NPPs are in the City of Detroit and out-Wayne county; ten are in medium to large cities; six are in the UP and the balance are in small rural towns from Holland to Croswell. Each NPP produces housing units (341 total as of June 2004) either through new construction, rehabilitation of space for rental units (usually above businesses downtown), or purchase/rehab for resale. In addition, each project includes homeowner rehabilitation, beautification through banners, landscaping and/or neighborhood signs, and marketing activities to improve the image of the neighborhood.

Prepayment of Federally and Authority Assisted Loans

Section 32(16)(k) requires the Authority to report on the status of federal programs that assist low income tenants displaced as a result of prepayment of federally or Authority assisted loans.

Section 236/Section 202: HUD Notice 00-8, "Guidelines for Continuation of Interest Reduction Payments after Refinancing": 'Decoupling' under Section 236(e)(2) and refinancing of insured Section 236 projects into non-insured Section 236(b) projects, provides for the continuation of the 236 program upon refinancing. The Authority utilizes these guidelines to process 236 preservation transactions involving new tax-exempt financing and the Low Income Housing Tax Credit (LIHTC). The Authority adopted a 236 Preservation Program in May 2002 and revised it in April 2003 to include non-MSHDA financed Section 236 and Section 202 developments.

This program was further revised in 2004 to address the following issues:

- The terms under which the Authority will loan excess reserves to MSHDA-financed Section 236 transactions,
- The need for adequate reserve funding to address vacancy during rehabilitation

- and re-marketing of units,
- The need for transition planning and an experienced marketing agent to address rehabilitation and marketing issues.

The Authority will consider, on a development specific basis, proposals from development owners that support continued occupancy by low and very low income households. The proposals must also extend affordability through rent restrictions and provide future physical and financial viability. No tenants are displaced as a result of these transactions.

Section 8: The Authority Board revised its Section 8 Preservation Policy on June 27, 2001 and most recently on September 29, 2004. Developments that entered into Agreements for Housing Assistance Payment contracts (AHAP) before February 29, 1980 are considered Old Regulation. New Regulation developments have AHAP contracts signed after that date.

This policy generally provides for reductions in 1st mortgage interest rates, equity loans and increases in Limited Dividend payments (increases in LD payments are only applicable to Old Regulation Section 8 developments). Old Regulation developments may also receive loans @ 3% on up to 40% of the development's excess cash and reserves depending on the length of the low-income housing affordability restrictions.

Low Income Housing Tax Credit

Section 32(16)(l) requires the Authority to report on the status of the Low Income Housing Tax Credit (LIHTC) including the amount of tax credits allocated, projects that have received tax credits, reasons why projects were denied tax credit, a geographical description of the distribution of tax credits, and a description of any amendments to the allocation plan made during the year.

During FY 2004, the Authority allocated \$27,572,243 in tax credits to 88 developments helping create 4,333 units of affordable housing.

EXHIBITS VII AND VIII PROVIDE A GEOGRAPHIC DESCRIPTION OF CREDITS ALLOCATED AND A LIST OF PROJECTS DENIED CREDIT, WITH REASONS FOR DENIAL.

EXHIBIT IX PROVIDES A LIST OF CHANGES MADE TO THE QUALIFIED ALLOCATION PLAN FOR FY 2004.

Education and Training Opportunities

Section 32(16)(m) requires the Authority to report on education and training opportunities provided by the Authority including the types of education and training and the amount of funding committed to these activities. Education and training opportunities provided by the Authority primarily include the Contractor's Assistance Program and our Technical Assistance efforts. The Contractors Assistance Program is discussed below.

The Authority provided Technical Assistance to nonprofit housing organizations

throughout the state with 96 contracts made to 46 different Technical Assistance providers, at a total cost of \$1,740,722.

EXHIBIT X DETAILS GRANTS MADE TO TECHNICAL ASSISTANCE PROVIDERS FOR FY 2004.

Contractors Assistance Program

Section 22(bb) requires the Authority to report on the status of the Contractors Assistance Program (CAP). The CAP was introduced in 1992 to provide more opportunities for small, minority or women-owned contractors to achieve success and independence. In partnership with National City, working capital loans are made to eligible contractors, and some business training is also available. In FY 2004, no loans were made.

Housing Choice Voucher Program

The Housing Choice Voucher Program utilizes the private rental market to provide housing to low income residents. Residents live in single family or multifamily rental dwellings, paying between 30 and 40% of their gross income for rent. In FY 2004, an average of 19,444 families participated in this program; the average age for the head of household was 45 years and the average adjusted household income was \$9,246.
