Questionnaire

<p>Project Results Summary</p> <p>The Village will experience safer conditions in the Park with the improved pavillion and a resident of the Village will experience greater mobility with her new ramp.</p>	<p><i>(SAMPLE RESPONSE) As a result of the NEP in Smithvale neighborhood, property values will increase.</i></p>
<p>What indicators were used to measure results?</p> <p>Need for safety for residents.</p>	<p><i>(SAMPLE RESPONSE) Home sale prices in the neighborhood.</i></p>
<p>How were the indicators measured?</p> <p>Residents were allowed to apply based on need and the pavillion repairs were indicated due to fall risk for our visitors.</p>	<p><i>(SAMPLE RESPONSE) Compared the average sale price at the start of the NEP to the average price at the end of 2-1/2 years.</i></p>
<p>What were the findings of the measurements including baseline data?</p> <p>Greater mobility and safety.</p>	<p><i>(SAMPLE RESPONSE) Average sales price in the beginning was \$61,000; at the end was \$67,000.</i></p>

What Lessons were Learned?

When residents are given the opportunity to become more mobile in their lives the Village itself experiences greater economy and participation.

(SAMPLE RESPONSE) Not only have the sales prices increased, the time on the market has decreased. The homes we built had waiting lists as we built them; and other properties in the neighborhood are selling more quickly.
