Rental Assistance & Homeless Solutions AffordableHousing.com Rent Reasonableness System Access Search for Previous Rent Reasonableness Certification Effective Date: October 1, 2021

A search can be completed by Certifier, or Unit address. All searches must be completed under a date range filter limited to 365 days (or less).

## Search for a Completed or Working RR Certification

- 1. Click the Manage button in the Rent Reasonable Certifications widget.
- 2. Adjust the Date Range start date to allow for 365 days (or less) of data in the results grid.
- 3. Limit your search by certifier or the subject unit street address. Remember the participant's name should not be entered into the system for the MSHDA ESG Program.
  - Click on the drop-down in the box labeled "All Certifiers". The data is listed by the last time the individual approved a certification.
  - For street address, you do not need to enter in complete data to get results; less is more for drilling into the database for results.
    - In the Address box, type in any part of the street address for the unit. Example: Cedar
