2025 Policy Bulletin #2 MI-HOPE and MICH Grants Effective Date 1/13/25

Program Compliance Handbook and Program Guidelines Additional Policy Language:

Effective immediately, due to the MI-HOPE and MICH Programs' progress to date, FSR submissions for advance requests will no longer be processed after today. This policy is being implemented to alleviate a federal financial compliance risk. Agencies can still utilize the FSR Tracker Form to secure up to 75% of project funding. Addresses must be obligated in Kinetech and prior to final disbursement must be entered into IGX and have all required documentation uploaded. To access the remaining dollars, IGX data entry must be fully complete. No further action is needed as this is a procedural change at the MSHDA level. As stated previously, we encourage expenditures and need to identify them as quickly as possible for quarterly reporting purposes. If you have any questions or agency specific concerns, please reach out to your Champion.
