### Funding Sources

**No Funding Sources Found**

### Narratives

**Program Summary:**

The Recovery Housing Program (RHP) authorizes assistance to grantees (states and the District of Columbia) to provide stable, temporary housing to individuals in recovery from a substance use disorder. The RHP aims to support individuals in recovery on a path to self-sufficiency and independent living. The assistance is limited, per individual, to a period of not more than 2 years or until the individual secures permanent housing, whichever is earlier.

The goal for the Michigan State Housing Development Authority (MSHDA) RHP funds is to help increase overall effectiveness of Michigan’s existing recovery residencies by expanding the availability of temporary housing support to individuals in recovery from substance use disorders while they continue to receive critical services. In accordance with national objectives, all proposed activities within this action plan will not be prohibitive for low-income persons and MSHDA will insure that at least 51% of all individuals served through this program are low- and moderate-income. The RHP will partner with all available behavioral health and substance use treatment resources and it will be measured by the volume of services to individuals in recovery, successful maintenance of sobriety,

MSHDA's Recovery Housing Program (RHP) will have significant support from multiple partners with the ability to leverage other sources of funding which include: Substance Abuse and Mental Health Services Administration (SAMHSA), State Opioid Response (SOR), Michigan Association of Recovery Residencies (MARR), and the Substance Abuse Block Grant. RHP participants will also be supported to access Continuum of Care resources and programs for which they are eligible. These include but are not limited to Emergency Solutions Grant (ESG), HUD Continuum of Care (CoC) Program, Housing Opportunities for Persons with AIDS (HOPWA), HUD Veterans Affairs Supportive Housing (VASH), Housing Choice Vouchers (HCV), Project Based Vouchers (PBV), and Offender Success. MSHDA is invested in growing the number of related funding opportunities throughout the duration of this Program to further the overall effectiveness of existing programs. The Recovery Housing Program will consider additional prioritization for project applicants operating in Opportunity Zones to leverage the available tax benefits

**Administration Summary:**

MSHDA will act as a pass-through for the Recovery Housing Program funds and will provide three (3) staff for grant management and program oversight. The Program is housed through the Rental Assistance and Homeless Solutions division of MSHDA. Christina Soulard is the Homeless Solutions Program Manager and will supervise the Program's grant management staff. Nicole Beagle is a Homeless Assistance Specialist and will act as lead for this Program, including communication with subrecipients, review and approval of submitted financial requests, and completion of required performance reports. She will also attend all HUD sponsored webinars and trainings pertaining to the Recovery Housing Program, providing updates to subrecipients for any HUD required or

recommended program practices. Jack Ho is the Data and Monitoring Analyst and will complete risk assessments and monitoring activities with each subrecipient.

Agency: Michigan State Housing Development Authority  
Address: 735 East Michigan Avenue  
City, State & Zip: Lansing, Michigan 48909  
Website: mshda.gov

**Use of Funds - Method of Distribution:**

**A. Eligible Activities**

Lease, rent, and utilities. HUD is waiving and modifying 42 U.S.C. 5305(a)(8), 24 CFR 570.207(b)(4), 24 CFR 570.201(e), and 24 CFR 570.482(c)(2) to the extent necessary to permit RHP funds to be used to make payments for lease, rent, utilities, and associated costs (e.g. fees), for the purpose of providing stable, temporary housing, on behalf of an individual in recovery from a substance use disorder in accordance with Section 8071 and this notice. Under this waiver and alternative requirement, such payments are not limited to 15 percent of the RHP grant, and individual may be assisted for up to 2 years or until the assisted individual find permanent housing, whichever is earlier. These payments may not be made directly to an individual. These payments may not have been previously paid from other sources; and the payments must result in either a new service and/or a quantifiable increase in the level of an existing service above that which has been provided in the 12 calendar months prior to approval of the RHP Action Plan. For example, a subrecipient currently operating a recovery group home may use RHP funds to rent an additional house and increase the number of persons served. In which case, the rent and utility costs of the additional house may be paid with RHP funds; however, the rent and utilities of the original house would not be an eligible cost under the RHP program. In this example, an individual may only stay in the temporary housing assisted by RHP for a period of up to 2 years or until the individual finds permanent housing, whichever is earlier.

**B. Awards to Communities by Method of Distribution**

MSHDA will utilize a Notice of Funding Availability (NOFA) to solicit eligible applicants and outline the Recovery Housing Program expectations and eligible costs. The NOFA will also define applicant eligibility and factors considered for prioritized distribution of funding.

¿

**Use of Funds - Activities Carried Out Directly:**

MSHDA will secure and provide relevant technical assistance for all RHP subrecipients, utilizing up to 3% of all funding allocated for eligible costs. All other awarded funds will be passed through to approved subrecipients for leasing assistance, rental assistance, utilities, and administrative costs.

**Use of Funds - Eligible Subrecipients:**

Eligible Subrecipients

- Eligible subrecipients of Recovery Housing Program funds will include public or private nonprofit agencies. Any eligible applicant must hold a MARR Certification (Michigan Association of Recovery Residencies).

- Eligible applicants must demonstrate unmet need, relevant experience with temporary housing, any prior performance with temporary housing, and the existing or planned capacity to expand the current operational model.
- Public and private nonprofit organizations in all geographic areas within the state of Michigan, including CDBG entitlement areas.
- Public and private nonprofit organizations must be exempt from taxation under subtitle C of section 501(c), have an accounting system, a voluntary board, actively engaged in recovery housing efforts in Michigan or previously engaged in recovery housing efforts in Michigan, and practice nondiscrimination in the provision of assistance. Assistance may be provided to primarily religious organizations that agree to provide all eligible activities in a manner that is free from religious influence.

**Use of Funds - Criteria for Evaluation:**

**Entities with the Greatest Need**

The project must substantiate and address a need that is significant to the needs of the community. Entities with the greatest need and entities with the ability to deliver effective assistance in a timely manner will receive high priority. Additionally, priority will be given to eligible applicants who provide relevant data to support the need for expansion of existing models.

**Entities with the Ability to Deliver Effective Assistance in a Timely Manner**

1. Priority will be given to eligible applicants with prior experience with federal awards and/or collaboration with other federal programs, the ability to secure necessary service funding to support model expansion, and other relevant performance measures.
2. The project must substantiate that RHP funding is necessary to meet the identified need(s); the impact of RHP dollars is maximized and the use of RHP funds is reasonable when compared with other funding sources. MSHDA will determine whether all other feasible public and private funding sources have been analyzed and/or applied to the project. In order to assure that funds are committed, funding commitments from public/private funding sources shall be included in the application. The commitments may be contingent on RHP funding.
3. The project must substantiate that project accomplishments would be significant given the need, amount of funds requested, local effort and program design.
4. The project should maximize and leverage the federal and non-federal assistance related to substance abuse, homelessness and at-risk of homelessness, unemployment, and other similar services.

**Definitions - Individual in Recovery:**

1. Persons involved in a process of change in which individuals improve their health and wellness, live a self-directed life and strive to reach their full potential. There are four dimensions that support a life in recovery include:

1. Health: Managing one’s disease (substance use disorders) and making informed and healthy choices that support physical and emotional well being
2. Home: A stable place to live
3. Purpose: Meaningful activity include employment, school, or

volunteering, family caregiving, income, and meaningful participation in communities and society

4. Community: Forming relationships that and formal networks that provide support, friendship, love and hope (Source: Substance Abuse and Mental Health Services Administration – SAMHSA)

**Definitions - Substance Use Disorder:**

The persistent use of drugs including alcohol despite substantial harm and adverse consequences. Substance Use Disorders are characterized by an array of mental, emotional, physical and behavioral problems including the inability to stop consuming the substances despite repeated attempts and physiological withdrawal symptoms. Drug classes that are involved in substance use disorders include opioids, cannabis, stimulants, sedative, hallucinogens, inhalants, alcohol, tobacco, and other unknown substances. (Source: Diagnostic and Statistical Manual of Mental Disorders [DSM-5], SAMHSA, National Institute on Drug Abuse)

**Anticipated Outcomes:**

MSHDA's Recovery Housing Program will provide temporary housing to at least 50 individuals within the first year of funding and will serve at least 150 individuals by the end of the performance period. Based on national studies, recovery residencies have a 50-60% success rate for individuals maintaining sobriety, measured 60 days after successful discharge. In light of this metric, MSHDA is setting an initial goal of 65% success rates in both sobriety and exits to permanent housing for individuals served by the Recovery Housing Program. This goal will be reevaluated annually

**Expenditure Plan:**

MSHDA will award and monitor funding via the MATT 2.0 online grant management system. Subrecipients will be allowed to seek advances as needed to ensure expenditure of 30% of funds within the first year and full expenditure before the end of the performance period. MSHDA will limit all awards to no more than 5% for administration costs and no more than 3% for Technical Assistance. The remaining balance of funds will be used for costs related to temporary housing (leasing, rental, and utilities). Subrecipients will submit costs for review and approval to ensure that expenditures align with eligible costs and that costs do not exceed established caps

**Citizen Participation Summary:**

Public Hearing

As instructed by HUD in writing, the State held a public hearing to solicit residents' views on actions, activities, and programs to be funded with federal program funds. During the public hearing, the State was available to address housing and community development needs, development of proposed activities, the amount of assistance the State expects to receive (including grant funds and program

income), the range of activities that may be undertaken, including the estimated amount that will benefit low- and moderate-income residents, a review of program performance, the dates of the public display and comment period; the locations where copies of the draft RHP Plan can be examined; and, how comments will be accepted.

This plan was published in accordance with our adopted citizen participation process. The draft RHP Plan was on display for a period of no less than 30 days, or no less than a time period specified by HUD in writing, to encourage public review and comment. The public notice included a brief summary of the RHP Plan, the anticipated amounts of funding (including program income, if any), the dates of the public display and comment period, the locations where copies of the draft RHP Plan can be examined, how comments will be accepted, when the document will be approved by the State, and the anticipated submission date to HUD. A copy of the posted draft plan could be viewed at: [Draft\\_-\\_Recovery\\_Housing\\_Program\\_Action\\_Plan\\_729585\\_7.pdf](#) (michigan.gov) Written comments were accepted by the Contact Person, or a designee, during the 30-day public display and comment period but none were received. The State would have considered any comments or views of State residents received in writing, or orally at the public hearing, in preparing the final RHP Plan.

**Partner Coordination:**

MSHDA is currently working with several MDHHS partners to coordinate the Recovery Housing Program funds.

- Lawrence P. Scott, Ed.S.: Mr. Scott currently serves as the Director for the Office of Recovery Oriented Systems of Care, Michigan Department of Health and Human Services, and has over 30 years of experience in substance abuse services as a training and certification coordinator; communicable disease prevention coordinator; coordinator of HIV/AIDS Regional Training Centers; surveillance and research analyst; and State Opioid Treatment Authority.

- Jeffery L. Wieferich MA, LLP: Mr. Wieferich currently serves as the Bureau Director for Community Based Services in the Behavioral Health and Developmental Disabilities Administration, in the Michigan Department of Health and Human Services. He has over 30 years of experience working in the behavioral health field in both the public and private sector. He has provided direct community-based services, managed inpatient psychiatric programs, and has developed programs and improved service delivery models. Over the last 15 years, his focus has been focused on policy development and service delivery within the behavioral health administration for the state of Michigan.

- Belinda Hawks, MPA: Ms. Hawks is the Director for the Quality Management and Planning Division within the Behavioral Health and Developmental Disabilities Administration of the Michigan Department of Health and Human Services. Belinda has over 30 years of experience in behavioral health services as a provider of residential services; an administrator of community mental health services; and manager of Federal Compliance for Medicaid Behavioral Health Specialty Services.

MSHDA administers the non-entitlement allocation of the Emergency Solutions Grant (ESG) funding. serves as the state's largest Public Housing Authority. and

distributes the Low Income Housing Tax Credits (LIHTC) statewide. This positions MSHDA for regular and strategic engagement with all of Michigan’s Continuums of Care (CoCs). Additionally, MSHDA is a consistent partner with HUD Veterans Affairs Supportive Housing (VASH) programs and the Housing Opportunities for Persons with AIDS (HOPWA) program

**Subrecipient Management and Monitoring:**

MSHDA will manage and monitor the Recovery Housing Program and its subrecipients via the MATT 2.0 online grant management system. Subrecipients will submit Financial Status Reports, including requests for reimbursement, advances, and documentation for all expenditures. MSHDA will complete additional monitoring of subrecipients through annual risk assessments based on agency spending patterns and program compliance, as well as through the administration of two desk or on-site monitoring visits within the first year of the program. Pending the annual risk assessment and subrecipient performance, subsequent monitoring visits may move to once a year.

**Pre-Award/Pre-Agreement Costs:**

MSHDA will not seek or approve any pre-award or pre-agreement costs.
