Dear Management Agent:

Remember to retain the Escrow Analysis statements you receive in December for the year-end audit. The December analysis does NOT change the escrow payments due for the upcoming year. A separate standard payment letter (for principal, interest, and escrow payments due) has been released in December identifying the total monthly payment due beginning January 1st.

Based on the December Tax and Insurance Escrow Analysis, the following actions are in the process of being taken:

Total Escrow Deficits

If an escrow deficit exists, the MSHDA Finance staff will attempt to fund the deficit from the following sources:

1. The opposite (tax or insurance) escrow's surplus, if available.
2. Operating Reserve Cash (ORC) Escrow, or
3. Development Cost Escrow (DCE) Interest Account

The December Activity Statement will reflect any transfers that took place to help fund a "Total Escrow Deficit" amount. If the "Total Escrow Deficit" cannot be resolved through transfers from the above accounts, the outstanding amount must be funded by **Monday, January 27, 2025** from either the development's operating account or the owner.

Payments may be made through wire transfer, ACH, or by check mailed to MSHDA. Contact Roberta Pearson at pearsonR6@michigan.gov for transfer instructions.

Payments must include:

- Development Name.
- Payment amount.
- Whether the payment applies to a Tax or Insurance deficit.

After payment has been submitted, confirmation receipt can be obtained by contacting Roberta Pearson at pearsonR6@michigan.gov.

If you are unable to fund the deficit, you must notify your assigned Asset Manager to make other arrangements on or before the specified due date.

Total Escrow Surplus

If a “Total Escrow Surplus” exists, the amount of surplus will automatically be transferred to the development’s ORC account and displayed on the December Activity Statement.
