Purpose of Management Agent Change Policy

This policy provides guidance regarding submitting and processing changes to the Agent managing a development in the MSHDA-financed portfolio.

Notification of a Change

Per the Authority’s Management Agreement, the Mortgagor must provide a management agent with at least a 30-day notice of termination of the Management Agreement. The Mortgagor should copy the Authority on the termination notice. At a minimum, the Management Agreement requires the Mortgagor to promptly provide written notification of the termination to the Authority.

- The written notice must also include the proposed new management agent and should be sent to the assigned Asset Manager and the AM Coordinator.

Since multiple documents need to be completed and reviewed prior to Authority approval, a **60-day notice of change** should be given to the Authority and the management agent, when possible. A management company that does NOT currently manage any MSHDA-financed development must be approved by the Authority before being selected as a proposed Management Agent. New management agent must complete the Authority's new management agent approval process. The Management Agent application can be found on the Authority's website at: [New Management Agent Application webpage](#) or by contacting the Application Examiner at cardenM1@michigan.gov.

Emergency Changes

If an emergency termination occurs and an agent is terminated or resigns with less than 30-day notice, the selected replacement management agent must be an Authority-approved agent who is currently managing at least one other MSHDA-financed development.

Effective Date

The proposed agent must receive conditional or full approval to be considered the agent of record. Management fees may not be paid to the proposed management agent prior to MSHDA's full approval of the agent change. Therefore, the proposed Authority-approved management agent and the development owner must complete and submit all required documentation to the Authority prior (preferably 30 days prior) to the proposed change.

Management Agreement Effective Date – Section 14 (Term of Agreement) of the Management Agreement identifies the effective date of the Management Agreement, but the agreement cannot take effect until it is approved by an Authorized officer of the Authority. In addition, the following apply:

- When possible, the outgoing agent should continue to manage until the new agent has been approved and is under contract.
- Section 15 (Compensation of Agent) of the Management Agreement (MSHDA Mgmt. 401) sets the maximum management fee an approved agent can collect for services. The owner and agent may set a variable amount (e.g. fees based on rent collected) by adding the Fee Addendum to Management Agreement (MSHDA Mgmt. 401A) to the Management Agreement submission.
- Management fees may not be taken prior to the Authority's full approval of the proposed Management Agent and the Management Agreement. Retroactive management fees are not allowed.
- A conditionally approved management agent **may not take management fees** until the agent has successfully completed all the necessary items in the agent change process and received full approval from the Authority.
- Reserve funds cannot be disbursed to a proposed agent until at least conditional approval of the agent has been granted by the Authority. A proposed agent can

submit information to MSHDA; however, addresses will not be changed until the agent change receives at least conditional approval.
