To determine the correct payment standard for a unit, identify whether the unit's zip code is listed in Section A. If the zip code is included in Section A, then the zip code-based payment standard must be used. The appropriate bedroom size for determining the payment standard is the lower of either the voucher size or the unit size. If the unit's zip code is not listed in Section A, refer to Section B and use the county-based payment standard, again applying the lower of the voucher size or the unit size. It is important to note that for Project-Based Vouchers (PBV), only Section B applies, regardless of the unit's zip code.

To determine the correct payment standard for a unit, identify whether the unit's zip code is listed in Section A. If the zip code is included in Section A, then the zip code-based payment standard must be used. The appropriate bedroom size for determining the payment standard is the lower of either the voucher size or the unit size. If the unit's zip code is not listed in Section A, refer to Section B and use the county-based payment standard, again applying the lower of the voucher size or the unit size. It is important to note that for Project-Based Vouchers (PBV), only Section B applies, regardless of the unit's zip code.
