I. Services Sought by Authority

The Michigan State Housing Development Authority ("MSHDA") is seeking an organization authorized to do business in Michigan to perform Consulting services for the completion of an AI to Fair Housing Choice.

Michigan law allows for veteran and geographically disadvantaged preference only; however, women-owned, minority-owned, and small businesses authorized to conduct business in the state of Michigan are encouraged to submit proposals.

The completed AI will cover a period of five (5) years, during which services will be required in responding to questions and concerns.

The selected entity may partner with another organization that specializes in the analysis of discriminatory policies and practices that have negatively impacted marginalized populations. In particular, we seek data on practices that still may be identified as impediments. Efforts by other entities that have undertaken similar efforts can be used, such as by the Michigan State Historic Preservation Office and the Michigan Association of Planning.

II. Contents of this RFP

1. Overview of services sought, tasks and activities ("Scope of Work")
2. Exhibit A – Notices to Bidders
3. Exhibit B – Submission & Selection
4. Exhibit C – Proposal Format
5. Exhibit D – Project Personnel Form

1. Overview (Scope of Work)

As a condition of receiving Community Development Block Grant ("CDBG") and other HUD formula-based funding, the state must submit a Consolidated Plan that analyzes housing market conditions, assesses the housing needs of its lower income families and other groups within the eligible population, describes a strategy for addressing the identified needs, and articulates an action plan for investing federal affordable housing dollars. The Consolidated Plan requires states and entitlement communities to undertake Fair Housing Planning (FHP) which mandates certification by MSHDA that it affirmatively furthers Fair Housing in accordance with [24 C.F.R. 91.325](#) and attests to MSHDA participating in the items mentioned below. The Consolidated Plan also requires citizen participation in its analysis of housing conditions. Therefore, states and entitlement communities are asked to seek the input and cooperation of other state and local governmental agencies, and community and business organizations.

- **Affirmatively Furthering Fair Housing.** (AFFH) Each state is required to submit a certification that it will affirmatively further fair housing, which means that it will conduct an analysis to identify impediments to fair housing choice within the state, take appropriate actions to overcome the effects of any impediments identified through that analysis, and maintain records reflecting the analysis and actions in this regard. Significant revisions to, and analysis of, the 2016 Report and Outcomes and the creation of a new five-year plan for AFFH is necessary based on the following:

(See [§ 570.487\(b\)\(2\)\(ii\)](#) of this title.)

MSHDA, on behalf of the State of Michigan (the State), published its last AI in 2016. Data and conclusions presented in this AI are outdated; however, there may be a benefit to referencing the document. [MI 2016 AI](#).

- **Fair Housing Planning.** The Consolidated Plan regulations specify that the AFFH certification requires MSHDA to engage in FHP, including: 1) conducting an analysis to identify impediments to fair housing choice in its jurisdiction; 2) taking appropriate actions to overcome the effects of identified impediments; 3) maintaining records to document the analysis and the actions taken; and 4) making the reports/records available and providing due notice as defined by HUD and opportunity for public comment. The three components of FHP are:
 - The AI
 - Actions to overcome the effects of identified impediments, that include milestones, timetables, and measurable results,
 - Maintaining records to support the AFFH certification. Supporting documentation includes the AI, documentation of actions undertaken to eliminate impediments, and transcripts of public hearings, citizen comments/input, and progress reports (which should be kept for public review).

- **Fair Housing Protections.** Fair housing protections are guaranteed through federal, state and local statutes, regulations, executive orders, ordinances and guidelines. The most common of these, the Fair Housing Act (title VII of the Civil Rights Act of 1968) and the Fair Housing Amendments Act of 1988, prohibits discrimination against certain classes of persons based on race, color, religion, sex, national origin, disability and familial status. The Fair Housing Act applies to housing regardless of whether it is developed or otherwise assisted with federal funds. Additionally, height, weight, age, marital status, sexual orientation, and gender identity or expression protections are included in Michigan’s Elliott-Larsen Civil Rights Act.

Note that HUD defines “impediments to fair housing choice” to include specific actions as well as the lack of actions, including:

- Any actions, omissions, or decisions taken because of race, color, religion, sex, disability, familial status, or national origin which restrict housing choices or the availability of housing choices; and,
- Any actions, omissions, or decisions which have the effect of restricting housing choices or the availability of housing choices on the basis of race, color, religion, sex, disability, familial status, or national origin.

Who has to complete an AI?

Michigan's Entitlement Communities

Entitlement communities receive Community Development Block Grant (CDBG) funds directly from the U.S. Department of Housing and Development (“HUD”) and are required to complete an AI. They include three groups:

- Metropolitan cities with populations of at least 50,000 people
- Principal cities of Metropolitan Statistical Areas (MSAs)
- Qualified urban counties with populations of at least 200,000 people (excluding the population of entitled cities)

Michigan's Non-Entitlement Communities

- Michigan's non-entitled communities consist of small cities, townships, and villages of less than 50,000 in population, and non-urban counties that generally are eligible to apply for grants under the Michigan CDBG Program. There are over 1,600 eligible general purpose local governments and these governments are referred to as non-entitled communities. They are not required to complete their own AI.

An AI is an analysis of impediments to fair housing choice in the public and private sector and involves:

- A comprehensive review of housing laws, regulations, and administrative policies, procedures, and practices in the state. The State has a dual responsibility that includes undertaking fair housing planning ("FHP") at the state level and ensuring that state-funded jurisdictions comply with their Affirmatively Furthering Fair Housing ("AFFH") certification.
- An assessment of how these laws, regulations, and administrative policies, procedures, and practices affect the location, availability, affordability, condition, and accessibility of housing in a range of unit sizes and types.
- An evaluation of circumstances, both public and private, affecting fair housing choice for all protected classes.
- An analysis of whether the state has gathered adequate levels of accurate and current data to understand and document the identified fair housing impediments. This determination will be done in conjunction with MSHDA's Office of Market Research.
- An analysis of the evidence that past practices of the state and non-entitlement communities have harmed, limited, or unfairly benefitted any specific group of people.

The AI should include a review of topics that are popularly identified as being related to impediments, including but not limited to:

- Modular vs Stick Built
- Violation of HUD Site neighborhood standards
- Historical and current segregationist policies
- NIMBYism
- Section 3 concerns
- Foreclosure policy and legislation
- Disparate Impact of Michigan Home and Auto Insurance
- Public transportation limitations
- Construction workforce needs
- Homeownership levels based on race and ethnicity
- Tenant selection criteria
- Exclusionary zoning practices
- Other concerns discovered during feedback gathering.

Objectives, Tasks & Activities, and Deadlines

 - "Building a broader institutional awareness around state government's responsibility for AFFH, particularly by identifying and addressing structural barriers to fair housing choice."
 - "Create the institutional infrastructure that will prepare the state to fully comply with the more robust requirements of the AFFH process, including broader participation by departments and agencies beyond simply MSHDA and Michigan Economic Development Corporation ("MEDC") as the primary administrators of HUD funding."

- Utilize the [State of Michigan Housing Data Portal](#) to access critical housing and community data to better understand local housing needs and opportunities.
