Section 1:

The Traffic Crash Reporting System (TCRS)

Traffic Crash Reporting – Collection of Crash Data

The Traffic Crash Reporting Unit (TCRU) is responsible for the complete, accurate, and timely collection, processing, and compilations of statewide traffic crash data. The TCRU maintains the TCRS database that serves as the central repository for all traffic crash data for the State of Michigan as well as the Michigan Crash Analysis Tool (Mi-CAT). By law, all law enforcement agencies are required to submit qualifying crash reports to the Michigan State Police (MSP).

The crash program has been in existence since Public Act 300 of 1949. All law enforcement agencies in Michigan submit crash data to the MSP Criminal Justice Information Center (CJIC) utilizing the State of Michigan Traffic Crash Report (UD-10) format.

The TCRU receives and processes approximately 315,000 crashes annually. The data collected from the crash reports is used extensively by federal, state, and local traffic safety partners to identify traffic safety problems and support the state's efforts to reduce crashes, fatalities, and injuries. Traffic crash data is geo located using the Traffic Crash Mapping System (TCMS) and is supplied to the Michigan Department of Transportation (MDOT) for analysis of high crash locations. The Michigan Department of Natural Resources (MDNR) also receives data for analysis of snowmobile, off-road vehicle (ORV), and car/deer crashes.

Traffic crash reports are processed and sent to the Michigan Department of State (MDOS) to be applied to individual driving records. Fatal records are maintained on both the state system and the federal Fatality Analysis Reporting System (FARS) which is supported by the National Highway Traffic Safety Administration (NHTSA).

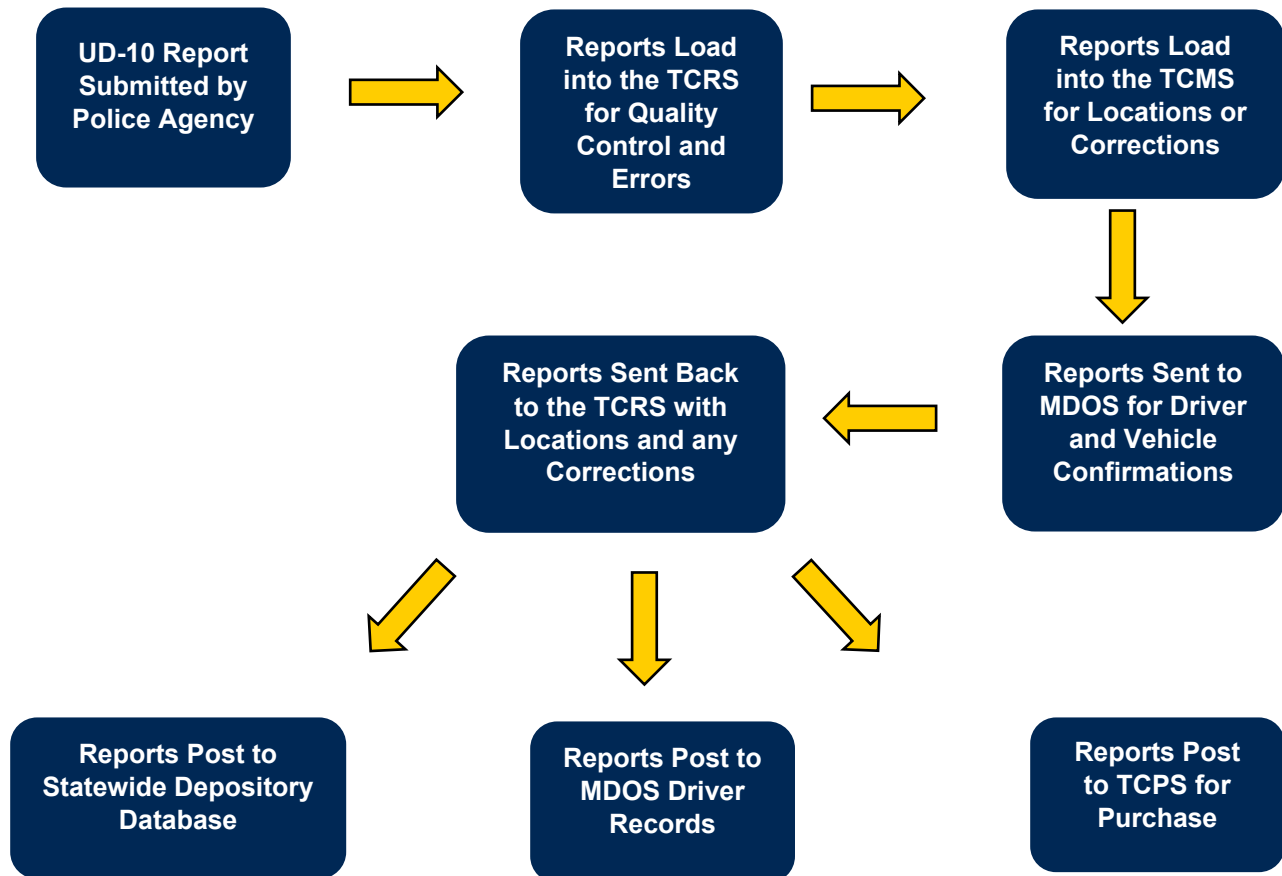

The UD-10 is used to report all traffic related motor vehicle crashes. The criteria for a reportable traffic crash involves a motor vehicle that was in transport and on the roadway, which resulted in death, injury, or property damage of \$1,000, or more. The UD-10 is also used to record any crash involving a snowmobile or ORV, whether traffic or non-traffic related. The property damage criteria for a snowmobile or ORV crash is \$100 or more.

Exclusions include deliberate intent (i.e., self-inflicted injury, road rage, insurance fraud) or legal intervention (i.e., pit-maneuver, deliberate acts engaged by law enforcement).

Individual UD-10s can be accessed by involved parties and their representatives through the Traffic Crash Purchasing System (TCPS) website. Specific search criteria are required to purchase a copy of a UD-10.

Each year, the TCRS database is "frozen" on a specific date to allow for publishing of the annual traffic crash statistics. This frozen dataset was created on April 25, 2024, for the 2023 annual report. Questions regarding this report can be directed to the TCRU at CrashTCRS@michigan.gov.

Section 1: UD-10 Reporting Flow Chart

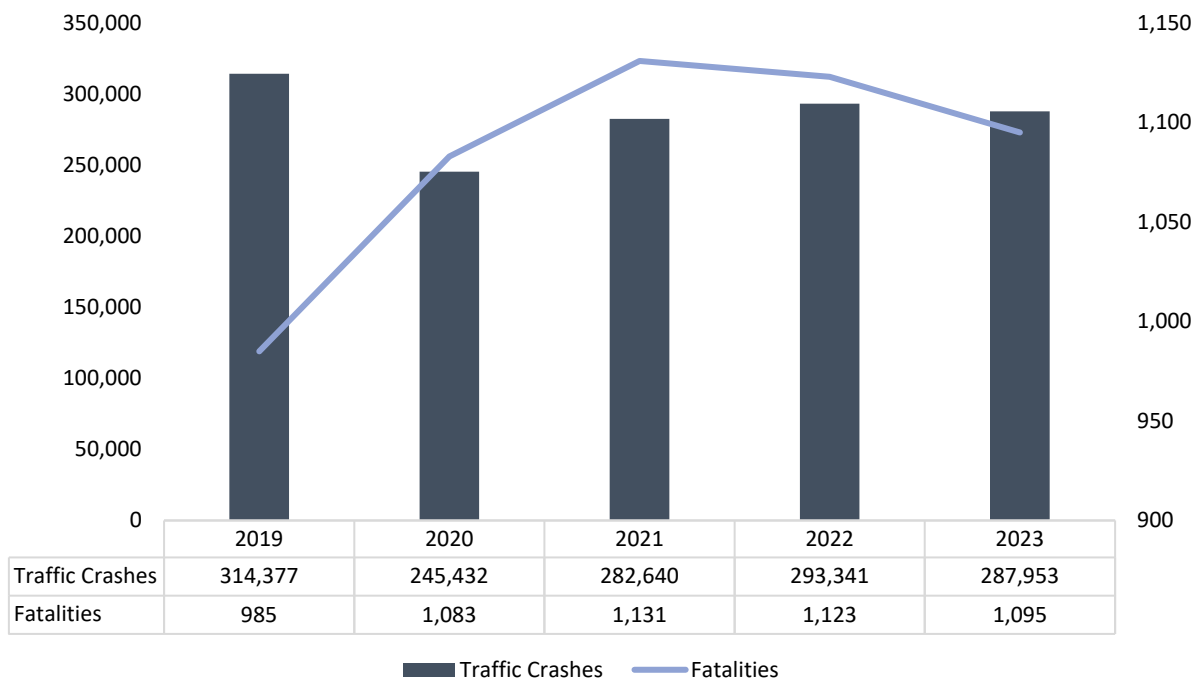

Section 2: Statewide Crash Summary

2023 Summary:

- Traffic crashes decreased two percent from to 293,341 in 2022, to 287,953 in 2023 in Michigan.
- Fatalities decreased two percent from 1,123 in 2022, to 1,095 in 2023.
- Injuries increased one percent from 70,281 in 2022, to 71,085 in 2023.
- The majority of traffic crashes occurred in October and November.
- August had the largest number of fatal crashes with 113 reported crashes.
- The majority of traffic crashes occurred on Fridays with 47,235 crashes.
- Sundays had the largest number of fatalities reported.
- Most of the traffic crashes occurred between 3 p.m. - 5:59 p.m.

Michigan Traffic Crash Statistics for 2019-2023

Traffic Crash Fatality and Injury Statistics

2023 Fatality Summary:

- 1,095 traffic crash fatalities were reported in Michigan.
- 71.05 percent were male and 28.95 percent were female.
- 16.89 percent of fatalities were in age group 25-34.
- 49.04 percent of fatalities were reported as the driver.

Fatalities by Age and Gender

Age Range	Total	Male	Female	Non-Binary
< 1	1	1	0	0
1-3	3	0	3	0

Percentage:		71.05%	28.95%	0.00%

Fatalities by Party Type

Fatality Restraint Use

Fatality Airbag Information

2023 Injury Summary:

- 71,085 traffic crash injuries were reported in Michigan.
- 48.83 percent were male, 51.08 percent were female, and 0.03 percent were non-binary.
- 20.44 percent of injuries were in age group 25-34.
- 69.11 percent of injuries were reported as the driver.

Injuries by Age and Gender

Age Range	Total	Male	Female	Non-Binary	Unknown

Injuries by Party Type

Injury Restraint Use

Injury Airbag Information

Crash Type

Description: The Crash Type describes how the vehicles involved in the crash contacted the other unit(s). For multiple impact crashes, only the first Crash Type is recorded.

Note: Crash Type is based on the direction of travel prior to impact, regardless of the point(s) of impact or direction the vehicles ultimately face after the crash. Damaged area on the vehicle alone does not determine the Crash Type.

Traffic Crashes by Crash Type

Fatal Traffic Crashes by Crash Type

Hazardous Action

Description: The Hazardous Action field indicates if, in the investigating officer's opinion, a person is "at fault" in any way, i.e., did the person's actions contribute to the crash? The officer is instructed to choose the most significant Hazardous Action that applies. If a Hazardous Action does not exist, NONE can be selected. Crashes involving more than one driver can result in multiple Hazardous Actions reported. The totals listed below are counting reported Hazardous Actions for the drivers and not total crashes.

Note: Since Hazardous Action and Citation Issued are completely independent of each other, an entry can be made for Hazardous Action even if no tickets were issued or no physical arrest was made. Citation Issued is used to record what tickets were issued to the driver and Hazardous Action is used to record the driver's actions that contributed to or caused the crash.

Hazardous Action Reported for Traffic Crashes

Hazardous Action	Total
None	252,399
Speed Too Fast	21,535
Speed Too Slow	146
Failed to Yield	46,434
Disregard Traffic Control	10,806
Drove Wrong Way	420
Drove Left of Center	2,395
Improper Passing	3,261
Improper Lane Use	14,579
Improper Turn	5,875
Improper / No Signal	440
Improper Backing	6,195
Unable to Stop	57,513
Other	14,060
Unknown	28,593
Reckless Driving	2,594
Careless Driving	10,792
Not Reported	6,320
Total:	484,357

Hazardous Action Reported for Fatal Traffic Crashes

Hazardous Action	Total
None	686
Speed Too Fast	195
Speed Too Slow	1
Failed to Yield	117
Disregard Traffic Control	64
Drove Wrong Way	19
Drove Left of Center	61
Improper Passing	10
Improper Lane Use	16
Improper Turn	10
Improper / No Signal	1
Improper Backing	3
Unable to Stop	46
Other	62
Unknown	179
Reckless Driving	102
Careless Driving	77
Not Reported	14
Total:	1,663

Both charts include driver and engineer (train) party types for Hazardous Action. The Hazardous Action Reported for Fatal Traffic Crashes chart includes totals for drivers and engineers (trains) involved in a fatal crash.

Trafficway

Description: The trafficway is used to indicate if a roadway is divided and whether it serves one-way or two-way traffic.

Crash Totals by Trafficway

Trafficway	Crashes
Interstate Route	32,313
US Route	24,580
M Route	60,028
Interstate Business Loop	4,091
US Business Route	2,372
M Business Route	74
Connector	536
Road, City Street or Unknown	163,702
Not Reported	257
Total:	287,953

Fatal Crash Totals by Trafficway

Trafficway	Crashes
Interstate Route	103
US Route	93
M Route	231
Interstate Business Loop	12
US Business Route	7
M Business Route	0
Connector	1
Road, City Street or Unknown	573
Not Reported	1
Total:	1,021

Road Surface Condition

Description: Even though several road surface conditions can exist simultaneously in Michigan, the single most significant road surface condition that describes the crash scene is selected.

Crash Totals by Road Surface Condition

Road Condition	Crashes
Dry	211,248
Wet	47,680
Ice	8,742
Snow	10,840
Mud, Dirt, Gravel	2,169
Slush	2,015
Debris	58
Water (Standing/Moving)	221
Sand	46
Oily	61
Other	89
Unknown	4,784
Not Reported	0
Total:	287,953

Fatal Crash Totals by Road Surface Condition

Road Condition	Crashes
Dry	817
Wet	140
Ice	20
Snow	16
Mud, Dirt, Gravel	16
Slush	6
Debris	0
Water (Standing/Moving)	2
Sand	0
Oily	0
Other	1
Unknown	3
Not Reported	0
Total:	1,021

Vehicle Type

Description: The type of vehicle involved in the crash is captured for each applicable unit. A Truck / Bus unit is defined as any of the following:

- A commercial truck or truck/trailer having a Gross Vehicle Weight Rating (GVWR) or Gross Combined Weight Rating (GCWR) of 10,001 pounds or more, whichever is greater.
- Any vehicle designed or used to transport more than eight passengers including the driver. This can include city buses, school buses, limousines, and courtesy vans.
- Any vehicle displaying or requiring a hazardous material (HM) placard, regardless of weight. This can include automobiles, sport utility vehicles (SUV), vans, and pick-up trucks.

Vehicle Type Involved in Traffic Crashes

Vehicle Type	Total
Passenger Car, SUV, Van	388,015
Motor Home	1,124
Pickup Truck	57,767
Small Truck – Under 10,000	2,141
Motorcycle	3,161
Moped / Goped	417
Go-Cart / Golf Cart	50
Snowmobile	62
ORV	413
Truck / Bus	15,852
Other	1,863
Not Reported	17,203
Total:	488,068

Truck / Bus – Vehicle Configurations Involved in Traffic Crashes

Section 3: Reports by Crash Indicators

2023 Alcohol Involved Crashes

Description: The UD-10 captures alcohol information for all drivers, pedestrians, bicyclists, and train engineers. Law enforcement officials document if alcohol is suspected and if it was a contributing factor to the crash. They will also document the test type, test results, and interlock system, if applicable.

2023 Summary:

- Alcohol involved fatalities decreased eight percent, from 322 in 2022, to 297 in 2023.
- October and December had the highest number of alcohol involved crashes.
- Saturdays had the highest number of alcohol involved crashes.
- The majority of alcohol involved crashes occurred between 9 p.m. and 2:59 a.m.

2023 Drug Involved Crashes

Description: The UD-10 captures drug information for all drivers, pedestrians, bicyclists, and train engineers. Law enforcement officials document if drugs are suspected and if they were a contributing factor to the crash. They will also document the test type and test result if administered in response to the crash.

2023 Summary:

- Drug involved fatalities increased three percent, from 249 in 2022, to 256 in 2023.
- October had the highest number of drug involved crashes with 209 total crashes.
- Saturdays and Sundays had the highest number of drug involved crashes.
- The majority of drug involved crashes occurred between 6 p.m. and 11:59 p.m.

2023 Distracted Driver Involved Crashes

Description: Distractions are actions or sources that may have influenced driver or non-motorist performance. The distraction that is documented on the UD-10 is either determined or observed by the responding law enforcement official. Crashes involving more than one driver can result in multiple driver distractions reported. The totals listed below are counting reported driver distractions and not total crashes.

2023 Summary:

- Distracted driver involved fatalities increased four percent, from 57 in 2022, to 59 in 2023.
- May and August had the highest number of distracted driver involved crashes.
- Tuesdays had the highest number of distracted driver involved crashes.
- The majority of distracted driver involved crashes occurred between 3 p.m. and 5:59 p.m.

2023 Bicycle Involved Crashes

Description: A bicycle is defined as a non-motorized unit propelled by pedaling, regardless of the number of wheels, which can include tricycles, unicycles, and pedal cars. When involved in a traffic crash, bicycles are recorded on the UD-10 as a separate unit.

2023 Summary:

- Bicyclist fatalities decreased 33 percent, from 36 in 2022, to 24 in 2023.
- 75 percent of bicyclist fatalities were reported as males.
- August had the highest number of bicycle involved crashes with 227 total crashes.
- Wednesdays had the highest number of bicycle involved crashes.
- The majority of bicycle involved crashes occurred between 3 p.m. and 5:59 p.m.

2023 Pedestrian Involved Crashes

Description: Each of the following scenarios are documented as pedestrian involved crashes on the UD-10: a person on foot; person on skis, skates, or roller blades; rider of a horse; horse and buggy (each occupant, including the driver, will be listed as a separate pedestrian unit); and, a non-motorized wheelchair.

2023 Summary:

- Pedestrian fatalities increased six percent, from 173 in 2022, to 183 in 2023.
- 68.31 percent of pedestrian fatalities were reported as males.
- October had the highest number of pedestrian involved crashes with 243 total crashes.
- Fridays had the highest number of pedestrian involved crashes.
- The majority of pedestrian involved crashes occurred between 3 p.m. and 8:59 p.m.

2023 Motorcycle Involved Crashes

Description: A motorcycle is defined as every motor vehicle having a saddle or seat for the use of the rider and designed to travel on not more than three wheels in contact with the ground but excluding a tractor. It is recorded as its own unit on a UD-10.

2023 Summary:

- Motorcyclist fatalities decreased five percent, from 173 in 2022, to 165 in 2023.
- There were two drivers, two passengers, and one pedestrian who also received fatal injuries in a motorcycle involved crash in 2023.
- 92.73 percent of motorcyclist fatalities were reported as males.
- June had the highest number of motorcycle involved crashes with 536 total crashes.
- Saturdays had the highest number of motorcycle involved crashes.
- The majority of motorcycle involved crashes occurred between 3 p.m. and 5:59 p.m.

2023 ORV Involved Crashes

Description: An ORV is defined as a motor-driven, off-road recreation vehicle capable of cross-country travel without benefit of a road or trail, on or immediately over land, snow, ice, marsh, swampland, or other natural terrain. An all-terrain vehicle, commonly referred to as an ATV, is an ORV. The State of Michigan requires that both traffic crashes and non-traffic crashes involving snowmobiles and ORVs be reported. This requirement applies whenever an ORV or snowmobile is involved in a crash resulting in a fatality, personal injury, or property damage of \$100 or more.

2023 Summary:

- ORV fatalities increased five percent, from 21 in 2022, to 22 in 2023.
- 90.91 percent of ORV rider fatalities were reported as males.
- July had the highest number of ORV involved crashes with 85 total crashes.
- Saturdays had the highest number of ORV involved crashes.
- The majority of ORV involved crashes occurred between 3 p.m. and 5:59 p.m.

Note: Only counties that reported ORV traffic crashes in 2023 are listed above. Non-traffic ORV crashes are not included in this table.

2023 Snowmobile Involved Crashes

Description: A snowmobile is defined as any motor driven vehicle designed for travel primarily on snow or ice of a type which utilizes sled runners or skis, or an endless belt tread or any combination of these or other similar means of contact with the surface upon which it is operated; but is not a vehicle which must be registered under Act No. 300 of the Public Acts of 1949, as amended, being section 257.1 to 257.923 of the Michigan Compiled Laws (MCL 324.82101).

2023 Summary:

- Snowmobile involved fatalities decreased 78 percent, from nine in 2022, to two in 2023.
- 100 percent of snowmobile rider fatalities were reported as males.
- February had the highest number of snowmobile involved crashes with 26 total crashes.
- Saturdays had the highest number of snowmobile involved crashes.
- The majority of snowmobile involved crashes occurred between 3 p.m. and 5:59 p.m.

2023 Deer Involved Crashes

Description: If a deer is involved in a crash or is a contributing factor in a crash, the responding Law Enforcement Official must report the deer involved in the crash. This includes a deer making physical contact with the motor vehicle or a driver causing a collision due to avoidance of a deer within the roadway.

2023 Summary:

- Deer involved fatalities increased 73 percent, from 11 in 2022, to 19 in 2023.
- November had the highest number of deer involved crashes with 11,145 total crashes.
- Tuesdays and Wednesdays had the highest number of deer involved crashes.
- There were 58,806 total deer involved crashes in 2023, and 66,320 total individuals involved in these crashes, indicating that most deer involved crashes involved single occupant vehicles.
- The majority of deer involved crashes occurred between 6 a.m. and 8:59 a.m., and 6 p.m. and 8:59 p.m.

2023 Truck / Bus Involved Crashes

Description: A Truck / Bus unit is reported on the UD-10 when any of the following are involved in the crash:

- A commercial truck or truck/trailer having a GVWR or GCWR of 10,001 pounds or more, whichever is greater.
- Any vehicle designed or used to transport more than eight passengers including the driver. This can include city buses, school buses, limousines, and courtesy vans.
- Any vehicle displaying or requiring a hazardous material placard, regardless of weight. This can include automobiles, vans, and pick-up trucks.

2023 Summary:

- Truck / Bus involved fatalities decreased two percent, from 105 in 2022, to 103 in 2023.
- October had the highest number of Truck / Bus involved crashes with 1,594 total crashes.
- Thursdays had the highest number of Truck / Bus involved crashes.
- The majority of Truck / Bus involved crashes occurred between noon and 2:59 p.m.

2023 School Bus Involved Crashes

Description: A school bus crash is documented on the UD-10 in situations where a school bus is related to the crash in any way. This includes where the school bus was a contact vehicle or where other units crash due to the presence and influence of a school bus, even though the bus itself was not a contact unit.

2023 Summary:

- School bus involved crashes decreased five percent, from 1,041 in 2022, to 988 in 2023.
- Fatalities involving a school bus increased by 150 percent, from two in 2022, to five in 2023.
- October had the highest number of school bus involved crashes with 134, while January had 114 such crashes.
- Mondays and Tuesdays had the highest number of school bus involved crashes.
- The majority of school bus involved crashes occurred between 6 a.m. and 8:59 a.m., and 3 p.m. and 5:59 p.m.

2023 Train Involved Crashes

Description: The State of Michigan requires that all crashes involving a train and other motor vehicles be reported on a UD-10. The Michigan Department of Transportation reported that there are currently 29 railroads operating either wholly or partially in Michigan.

2023 Summary:

- Train involved crashes increased 17 percent, from 65 in 2022, to 76 in 2023.
- Fatalities involving a train decreased 25 percent, from four in 2022, to three in 2023.
- There were nine traffic crashes involving the Q-LINE (streetcar) in 2022, and 15 Q-LINE (streetcar) crashes in 2023.
- Fridays had the highest number of train involved crashes.
- The majority of train involved crashes occurred between noon and 2:59 p.m.

2023 Work Zone Involved Crashes

Description: This is used to capture the type of work zone that the crash occurred in, if constructions workers were present, the type of activity that was being performed within the work zone such as lane closures, shoulder work, etc., and where, within the work zone, the crash occurred.

2023 Summary:

- There was an eight percent increase, from 7,436 in 2022, to 8,017 in 2023, for all work zone involved crashes.
- Work zone involved fatalities increased four percent, from 23 in 2022, to 24 in 2023.
- October had the highest number of work zone involved crashes with 1,071 crashes.
- Tuesdays had the highest number of work zone involved crashes.
- The majority of work zone involved crashes occurred between 3 p.m. and 5:59 p.m.

2023 Police–Ambulance–Fire Involved Crashes

Description: Police, Ambulance and Fire vehicles are entered as special vehicles on the UD-10. Police is selected if the vehicle is owned by a government law enforcement agency and in all cases where the vehicle is being used for routine patrol, in pursuit of a fleeing vehicle, or responding to an emergency call. Fire is selected only when the vehicle is owned by a fire department (including volunteer fire department) and ambulance is selected when the vehicle is a privately or publicly owned ambulance.

2023 Summary:

- Police-Ambulance-Fire involved fatalities decreased 60 percent, from 10 in 2022, to four in 2023.
- October had the highest number of Police-Ambulance-Fire involved crashes with 277 crashes.
- Tuesdays had the highest number of Police-Ambulance-Fire involved crashes.
- The majority of Police-Ambulance-Fire involved crashes occurred between 3 p.m. and 5:59 p.m.

2023 Fleeing the Police Involved Crashes

Description: If a police pursuit situation causes a traffic crash, it is documented on the UD-10 as fleeing the police. Examples of fleeing that are documented on the UD-10 are a patrol car colliding with the vehicle it is pursuing, the pursued vehicle colliding with another vehicle, the pursued vehicle causing two vehicles unrelated to the pursuit to collide, etc.

2023 Summary:

- Fleeing police involved fatalities decreased eight percent, from 24 in 2022, to 22 in 2023.
- August had the highest number of fleeing police involved crashes with 80 crashes.
- Fridays had the highest number of fleeing police involved crashes.
- The majority of fleeing police involved crashes occurred between midnight and 2:59 a.m.

2023 Farm Equipment Involved Crashes

Description: Farm Equipment is considered a special vehicle when involved in a crash and documented on the UD-10. Farm Equipment is selected if the vehicle is an implement of husbandry that cannot be registered with the Secretary of State (i.e., farm tractors and combines). Implement of husbandry includes a farm tractor, self-propelled application-type vehicle, farm wagon, farm trailer, a vehicle or trailer adapted for lifting or carrying another implement of husbandry, or any substantially similar equipment used to transport products necessary for agriculture production.

2023 Summary:

- Farm equipment involved fatalities decreased 25 percent, from four in 2022, to three in 2023.
- May and November had the highest number of farm equipment involved crashes.
- Wednesdays had the highest number of farm equipment involved crashes.
- The majority of farm equipment involved crashes occurred between noon and 5:59 p.m.

While many of the vehicles on the road today are not automated, some levels of automation do exist on newer vehicles. Common Level 1 (Driver Assistance) Systems can include:

Lane Keeping Assist Adaptive Cruise Control
 Parking Assist Automatic Emergency Braking

SAE AUTOMATION LEVELS

Truck and Bus Crashes Reportable to FMCSA

REPORT A TRAFFIC CRASH IF IT INVOLVES...

Any truck that has a gross vehicle weight rating (GVWR) of more than 10,000 pounds or a gross combination weight rating (GCWR) of more than 10,000 pounds used on public highways

OR

Any motor vehicle with seating to transport nine (9) or more people, including the driver's seat

OR

Any motor vehicle displaying a hazardous materials placard (regardless of weight)

...AND RESULTS IN

A fatality: any person(s) killed in or outside of any vehicle (truck, bus, car, etc.) involved in the crash or who dies within 30 days of the crash as a result of an injury sustained in the crash

OR

An injury: any person(s) injured as a result of the crash who immediately receives medical treatment away from the crash scene

OR

A tow-away: any motor vehicle (truck, bus, car, etc.) disabled as a result of the crash and transported away from the scene by a tow truck or other vehicle

CDL Endorsements

H Hazardous P Passenger
T Double/Triple S School Bus
N Tank X Tank and Hazardous

CDL-Class A

Any combination of vehicles with a GVWR of 26,001 pounds or more, provided the GVWR of any towed vehicles is 10,001 pounds or more.

CDL-Class B

Any single vehicle with a GVWR of 26,001 pounds or more, or any such vehicle towing a vehicle with a GVWR of 10,000 pounds or less.

CDL-Class C

Any single vehicle or combination of vehicles that do not meet the definition of Class A or Class B, but are designed to transport 16+ passengers including the driver, or is used to transport hazardous materials requiring a placard.

Section 5:

Fatality Analysis Reporting System (FARS)

The FARS gathers data on the most severe traffic crashes that occur each year - those that result in loss of human life.

The system was conceived, designed, and developed by the National Center for Statistics and Analysis (NCSA) of the NHTSA to provide an overall measure of highway safety, to help identify traffic safety problems, to suggest solutions, and to help provide an objective basis on which to evaluate the effectiveness of motor vehicle safety standards and highway safety programs.

FARS became operational in 1975 and contains data on fatal traffic crashes within 50 States, the District of Columbia, and Puerto Rico. To be included in FARS, a crash must involve a motor vehicle traveling on a trafficway open to the public and must result in the death of a person (vehicle occupants or non-motorist). Any fatal crash involving a snowmobile or ORV shall be submitted to FARS, regardless of where it occurred.

The FARS file contains descriptions, in a standard format, of each fatal crash reported. Each crash has more than 100 different coded data elements that characterize the crash, the vehicles, and the people involved. The specific data elements may be modified slightly each year to conform to changing user needs, vehicle characteristics, and highway safety emphasis areas. The FARS analyst reviews the UD-10 to complete all data elements reported on five forms:

- The **Crash Form** contains specific information such as the time and location of the crash, the first harmful event, the number of vehicles and people involved, and the weather conditions.
- The **Vehicle Form** contains data on each vehicle involved in the crash. Specific data includes the vehicle type, role in the crash, initial and principal impact points, the most harmful event, whether it is a hit-and-run crash, and whether a school bus was involved.
- The **Driver Form** contains driver's record and license status including mandated Commercial Drivers License information.
- The **Person Form** contains data on each person involved in the crash: his or her age and sex, role in the crash (i.e., driver, passenger, non-motorist), alcohol and drug involvement, injury severity, and restraint use.
- The **Pre-Crash Form** contains data describing roadway attributes, driver's actions, and details prior to the first harmful event.

The data collected within FARS do not include any personal identifying information such as names, addresses, or social security numbers. Thus, any data kept in FARS files are made available to the public to fully conform to the Privacy Act laws. An overview of FARS data is published in various fact sheets and in an annual report. These are all available to the public. The annual report contains a comprehensive analysis of the year's data and includes some past year's data with comparative analyses.

Michigan has participated in the FARS program since its inception. The FARS analyst gathers, translates, and enters data directly into NHTSA's central computer data file. Data is automatically checked when entered for acceptable range values and for consistency.

FARS data is used extensively within NHTSA; and, requests are received from sources such as state and local governments, research organizations, private citizens, the auto and insurance industries, Congress, and the media. Specific FARS data uses include the evaluation of:

- Alcohol related legislation
- Motorcycle helmet legislation
- Restraint usage legislation
- Speed limit laws
- Vehicle safety designs
- Large truck safety
- Air bag effectiveness

FARS data can be accessed at the state level by the FARS analyst to respond to state safety issues. Users may request specific data from the NCSA at no charge for most requests, generally within two weeks (allowing more time for complex or lengthy reports). Also, users can obtain a file on computer tape in one of several formats amenable to analysis. The FARS website address is: www-fars.nhtsa.dot.gov.

Section 5: Injury Code Index

An injury selection must be made for each driver/person that is recorded as a unit. The injury recorded should be based on the latest information available at the time the report was completed.

- K Fatal Injury (K)** – A fatal injury is any injury that results in death within 30 days after the motor vehicle crash in which the injury occurred.
- A Suspected Serious Injury (A)** – A suspected serious injury is any injury other than fatal which results in one or more of the following:
- Severe laceration resulting in exposure of underlying tissues/muscle/organs
 - Resulting in significant loss of blood
 - Broken or distorted extremity (arm or leg)
 - Crush injuries
 - Suspected skull, chest, or abdominal injury other than bruises or minor lacerations
 - Significant burns (second and third degree burns over 10 percent or more of the body)
 - Unconsciousness when taken from the crash scene
 - Paralysis
- B Suspected Minor Injury (B)** – A minor injury is any injury that is evident at the scene of the crash, other than fatal or serious injuries. Examples include lump on the head, abrasions, bruises, minor lacerations (cuts on the skin surface with minimal bleeding and no exposure of deeper tissue/muscle).
- C Possible Injury (C)** – A possible injury is any injury reported or claimed which is not a fatal, suspected serious or suspected minor injury. Examples include: momentary loss of consciousness, claim of injury, limping, or complaint of pain or nausea. Possible injuries are those that are reported by the person or are indicated by his/her behavior, but no wounds or injuries are readily evident.
- O No Apparent Injury (O)** – No apparent injury is a situation where there is no reason to believe that the person received any bodily harm from the motor vehicle crash. There is no physical evidence of injury, and the person does not report any change in normal function.

Section 5: The Michigan Motor Vehicle Code

Sections of the Motor Vehicle Code Pertaining to Traffic Crash Reporting

Please note that the department referenced in the statute sections listed below is the Michigan Department of Natural Resources.

257.617 Accident resulting in serious impairment of body function or death; stopping required; reporting to police agency or officer; violation as felony; penalty.

(1) The driver of a vehicle who knows or who has reason to believe that he or she has been involved in an accident upon public or private property that is open to travel by the public shall immediately stop his or her vehicle at the scene of the accident and shall remain there until the requirements of section 619 are fulfilled or immediately report the accident to the nearest or most convenient police agency or officer to fulfill the requirements of section 619(a) and (b) if there is a reasonable and honest belief that remaining at the scene will result in further harm. The stop shall be made without obstructing traffic more than is necessary.

(2) Except as provided in subsection (3), if the individual violates subsection (1) and the accident results in serious impairment of a body function or death, the individual is guilty of a felony punishable by imprisonment for not more than 5 years or by a fine of not more than \$5,000.00, or both.

(3) If the individual violates subsection (1) following an accident caused by that individual and the accident results in the death of another individual, the individual is guilty of a felony punishable by imprisonment for not more than 15 years or a fine of not more than \$10,000.00, or both.

257.617a Accident; personal injury; reporting to police agency or officer; stopping required; penalty; suspension of license.

(1) The driver of a vehicle who knows or who has reason to believe that he has been involved in an accident upon public or private property that is open to travel by the public shall immediately stop his or her vehicle at the scene of the accident and shall remain there until the requirements of section 619 are fulfilled or immediately report the accident to the nearest or most convenient police agency or officer to fulfill the requirements of section 619(a) and (b) if there is a reasonable and honest belief that remaining at the scene will result in further harm. The stop shall be made without obstructing traffic more than is necessary.

(2) If an individual violates subsection (1) and the accident results in injury to any individual, the individual is guilty of a misdemeanor punishable by imprisonment for not more than 1 year or a fine of not more than \$1,000.00, or both.

(3) The secretary of state shall suspend the operator's or chauffeur's license of an individual convicted of violating this section as provided in section 319.

257.618 Accidents; damage to vehicles; stopping required; reporting to police agency or officer; penalty.

(1) The driver of a vehicle who knows or who has reason to believe that he has been involved in an accident upon public or private property that is open to travel by the public shall immediately stop his or her vehicle at the scene of the accident and shall remain there until the requirements of section 619 are fulfilled or immediately report the accident to the nearest or most convenient police agency or officer to

fulfill the requirements of section 619(a) and (b) if there is a reasonable and honest belief that remaining at the scene will result in further harm. The stop shall be made without obstructing traffic more than is necessary.

(2) If an individual violates the requirements of subsection (1) and the accident results in damage to a vehicle operated by or attended by any individual, the individual is guilty of a misdemeanor punishable by imprisonment for not more than 90 days or a fine of not more than \$100.00, or both.

257.620 Accidents; attended or unattended vehicle; stopping; report.

The driver of any vehicle which collides upon either public or private property with any vehicle which is attended or unattended shall immediately stop and shall then and there either locate and notify the operator or owner of such vehicle of the name and address of the driver and owner of the vehicle striking the vehicle or, if such owner cannot be located, shall forthwith report it to the nearest or most convenient police officer.

257.621 Accidents; fixtures on or adjacent to highway; notification of owner; exhibition of driver's license; reports.

(a) The driver of any vehicle involved in an accident resulting only in damage to fixtures legally upon or adjacent to a highway shall take reasonable steps to locate and notify the owner or person in charge of such property of such accident and of his name and address and of the registration number of the vehicle he is driving and shall upon request exhibit his operator's or chauffeur's license and, if such owner cannot be found, shall forthwith report such accident to the nearest or most convenient police officer.

(b) The officer receiving such report, or his commanding officer shall forward each individual report to the director of state police on forms prescribed by him which shall be completed in full by the investigating officer. The director of state police shall analyze each report relative to the cause of the reported accident and shall prepare for public use the information compiled from the reports.

257.622 Report of accidents resulting in death, personal injury, or property damage; forms; analysis; use; retention.

The driver of a motor vehicle involved in an accident that injures or kills any person, or that damages property to an apparent extent totaling \$1,000.00 or more, shall immediately report that accident at the nearest or most convenient police station, or to the nearest or most convenient police officer. The officer receiving the report, or his or her commanding officer, shall immediately forward each report to the director of the department of state police on forms prescribed by the director of the department of state police. The forms shall be completed in full by the investigating officer. The director of the department of state police shall analyze each report relative to the cause of the reported accident and shall prepare information compiled from reports filed under this section for public use. A copy of the report under this section and copies of reports required under section 621, shall be retained for at least three years at the local police department, sheriff's department, or local state police post making the report.

324.82132 Accidents; notice; reports.

The operator of a snowmobile involved in an accident resulting in injuries to or the death of any person or property damage in an estimated amount of \$100.00 or more shall immediately by the quickest means of communication notify a state police officer or officers, the sheriff's office of the county in which the accident occurred, or the office of the police department of the local unit of government in which the accident occurred. The police agency receiving the notice shall complete a report of the accident on forms prescribed by the director of the department of state police and forward the report to the

department of state police within 14 days after the date of the accident. The department of state police shall forward a copy of all snowmobile accident reports to the department within 14 days after receipt of the accident report.

324.81143 Accident resulting in injury, death, or property damage; notice; report; report by medical facility; collection and evaluation of information; duties of operator.

(1) The operator of a vehicle involved in an accident resulting in injuries to, or the death of, a person, or resulting in property damage in an estimated amount of \$100.00 or more, shall immediately, by the quickest available means of communication, notify a state police officer, or the sheriff's office of the county in which the accident occurred. The police agency receiving the notice shall complete a report of the accident on forms prescribed by the director of the department of state police and forward the report to the department of state police and the department.

(2) A medical facility to which a person injured in an accident involving an ORV is transported shall report the accident to the department of state police.

(3) The department of state police, in cooperation with the department, shall collect and evaluate information concerning accidents involving ORVs.

(4) The operator of a vehicle involved in an accident upon public or private property resulting in injury to or the death of a person shall immediately stop at the scene of an accident and shall render to any person injured in the accident reasonable assistance in securing medical aid or transportation.

Section 5: Glossary

Some definitions given are for purposes of UD-10 completion only and should not be used for enforcement or prosecution purposes.

A	<p>Adult – The definition differs under federal and Michigan law. Federal law states an adult is a person who is 18 years of age or older. Michigan law states, an adult is a person who is 17 years of age or older. <i>(In this report, the definition follows Michigan law.)</i></p> <p>At-intersection crash – A traffic crash in which the first harmful event occurs within the limits of an intersection.</p>
B	<p>Bicycle – A non-motorized unit propelled by pedaling, regardless of the number of wheels, which can include tricycles, unicycles, and pedal cars.</p> <p>Bus – Any passenger-carrying vehicle used for hire and used to transport nine or more passengers, including the driver.</p>
C	<p>Commercial Motor Vehicle – Any motor vehicle used for the transportation of goods, property, or people in interstate or intrastate commerce.</p> <p>Contributing Circumstances – These are apparent external (out of the vehicle) conditions that may have contributed to the crash.</p> <p>Crash – An un-stabilized situation which includes at least one harmful event.</p>
D	<p>Distracted Driving – Distractions are actions or sources that may have influenced driver or non-motorist performance. There is no burden of proof needed when selecting a driver distraction. It is simply the officer's decision based upon their personal observations while investigating the traffic crash.</p> <p>Driving Under the Influence – The driving or operating of any vehicle while under the influence of liquor or drugs.</p>
F	<p>Farm tractor – Farm tractor means every motor vehicle designed and used primarily as a farm implement for drawing plows, mowing machines, and other implements of husbandry. MCL 257.16</p>
G	<p>Gross Combination Weight Rating (GCWR) – The value specified by the manufacturer as the maximum loaded weight of a combination vehicle. In the absence of a label, the GCWR can be calculated by adding the GVWR of the power unit to the GVWR of the vehicle(s) or trailer(s) being towed.</p> <p>Gross Vehicle Weight Rating (GVWR) – The maximum rated loaded weight in pounds of a single vehicle. Vehicle manufacturers specify the GVWR, and this can be found on the vehicle certification label.</p>
H	<p>Harmful event – An occurrence of injury or damage</p>

	<p>Highway or street – Highway or street means the entire width between the boundary lines of every way publicly maintained when any part of, thereof, is open to the use of the public for purposes of vehicular travel. MCL 257.20</p>
I	<p>Ignition Interlock Devices – Ignition Interlock device means an alcohol concentration measuring device that prevents a motor vehicle from being started at any time without first determining through a deep lung sample the operator's breath alcohol level. MCL 257.625L</p> <p>Implement of husbandry – Implement of husbandry means a vehicle or trailer in use for the exclusive function of serving agriculture, horticulture, or livestock operations. Implement of husbandry includes a farm tractor, self-propelled application-type vehicle, farm wagon, farm trailer, a vehicle or trailer adapted for lifting or carrying another implement of husbandry, or any substantially similar equipment used to transport products necessary for agricultural production. MCL 257.21</p>
M	<p>Moped – A Moped is a 2- or 3-wheeled vehicle to which both of the following apply:</p> <ul style="list-style-type: none"> (a) It is equipped with a motor that does not exceed 100 cubic centimeters piston displacement and cannot propel the vehicle at a speed greater than 30 miles per hour on a level surface. (A) Its power drive system does not require the operator to shift gears. MCL 257.32b <p>Motorcycle – Motorcycle means every motor vehicle having a saddle or seat for the use of the rider and designed to travel on not more than three wheels in contact with the ground but excluding a tractor. MCL 257.31</p> <p>Motor home – Motor home means a motor vehicle constructed or altered to provide living quarters, including permanently installed cooking and sleeping facilities, and is used for recreation, camping, or other non-commercial use. MCL 257.32a</p> <p>Motor vehicle – Motor vehicle is <u>any</u> motorized road vehicle not operated on rails.</p>
N	<p>Non-traffic area – An area not designed for purposes of through vehicular travel. Generally, an area with roadways that is not part of the state, county, or local road system. Non-traffic areas include shopping center parking areas and service-access roads, parking ramps, parklands, and school properties.</p>
O	<p>ORV – ORV is a motor-driven, off-road recreation vehicle capable of cross-country travel without benefit of a road or trail, on or immediately over land, snow, ice, marsh, swampland, or other natural terrain.</p> <p>A multi-track or multi-wheel drive vehicle, a motorcycle or related two-wheel vehicle, a vehicle with three or more wheels, an amphibious machine, a ground effect air cushion vehicle, or other means of transportation may be an ORV. An ATV is an ORV.</p> <p>ORV or vehicle does not include a registered snowmobile, a farm vehicle being used for farming, a vehicle used for military, fire, emergency, or law enforcement purposes, a vehicle owned and operated by a utility company or an oil or gas company when performing maintenance on its facilities or on property over which it has an easement, a</p>

	construction or logging vehicle used in performance of its common function, or a registered aircraft. MCL 324.81101
P	Pedestrian – Person on foot; person on skis, skates, or roller blades; rider of a horse; horse and buggy (each occupant, including the driver, will be listed as a separate pedestrian unit); and, non-motorized wheelchair.
R	Roadway – Roadway means that part of a trafficway designed, improved, and ordinarily used for motor vehicle travel or, where various classes of motor vehicles are segregated, that part of a trafficway used by a particular class. Separate roadways may be provided for opposing directions of traffic for trucks and automobiles. ANSI D.16
	<p>School bus – School bus means every motor vehicle, except station wagons, with a manufacturers' rated seating capacity of 16 or more passengers, including the driver, owned by a public, private, or governmental agency and operated for the transportation of children to or from school, or privately owned and operated for compensation for the transportation of children to or from school.</p> <p>School bus does not include buses operated by a municipally owned transportation system or by a common passenger carrier certificated by the state transportation department. MCL 257.57</p>
S	<p>Semi-trailer – Semi-trailer means every vehicle with or without motive power, other than a pole-trailer, designed for carrying persons or property and for being drawn by a motor vehicle and so constructed that some part of its weight and that of its load rests upon or is carried by another vehicle. Semi-trailer does not include any implement of husbandry. MCL 257.59</p> <p>Snowmobile – Snowmobile means any motor driven vehicle designed for travel primarily on snow or ice of a type which utilizes sled runners or skis, or an endless belt tread or any combination of these or other similar means of contact with the surface upon which it is operated; but is not a vehicle which must be registered under Act No. 300 of the Public Acts of 1949, as amended, being sections 257.1 to 257.923 of the Michigan Compiled Laws. MCL 324.82101</p>
T	<p>Traffic crash – A road vehicle crash in which the un-stabilized situation originates on a trafficway, or a harmful event occurs on a trafficway. ANSI D.16</p> <p>Trailer – Trailer means every vehicle with or without motive power, other than a pole-trailer, designed for carrying property or persons and for being drawn by a motor vehicle and so constructed that no part of its weight rests upon the towing vehicle. Trailer does not include any implement of husbandry. MCL 257.73</p> <p>Truck – Truck means every motor vehicle designed, used, or maintained primarily for the transportation of property. MCL 257.75</p> <p>Truck / Bus Unit – A commercial truck or truck/trailer having a GVWR or GCWR of 10,001 pounds or more, any vehicle displaying or requiring a hazardous material placard, or any vehicle designed or used to transport more than eight passengers including the driver.</p>

Truck Tractor – Truck tractor means every motor vehicle designed and used primarily for drawing other vehicles, and not so constructed as to carry a load other than a part of the weight of the vehicle and load so drawn, except that a truck tractor and semi-trailer engaged in the transportation of automobiles may transport motor vehicles on part of the power unit. MCL 257.77

V Vehicle – Vehicle means every device in, upon, or by which any person or property is or may be transported or drawn upon a highway, except devices exclusively moved by human power or used exclusively upon stationary rails or tracks and except a mobile home. MCL 257.79
